Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger (arrived at 5:17 p.m.); Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

MICROFILMED BY N.C. DIV. OF ARCHIVES & HISTORY
JUL 16 1997

INVOCATION

Councilman Skalski gave the invocation.

I. PROCLAMATIONS:

BOND RATING

Mayor Martin was pleased that the City of Asheville's and Buncombe County's bond rating increased to AA. He felt that was a result of good management on the part of the City and County.

II. CONSENT:

Mr. Ralph Bishop asked that Item A be removed from the Consent Agenda to be discussed individually.

Resolutions & Motions:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 10, 1997, AND THE WORKSESSION HELD ON JUNE 17, 1997

This item was removed from the Consent Agenda for further discussion.

B. RESOLUTION NO. 97-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH R.E. BURNS AND SONS CO., INC. TO CONSTRUCT A REPLACEMENT FOR THE EXISTING BRIDGE ON GLENDALE AVENUE OVER THE SWANNANOA RIVER IN ASHEVILLE, N.C., AFTER FINAL CONCURRENCE FROM THE N.C. DEPT. OF TRANSPORTATION

Summary: The City, through the Public Works Department, solicited bids for this project. These bids were in response to a readvertisement and rebid of the projects after insufficient bids were initially received at the time of the first bid opening. Two bid proposals were received. The bidders were qualified and are listed below:

	MB Participation	Bid Base
R.E. Burns and Sons (Statesville, N.C.)	9%	$743,825.85
Taylor and Murphy Construction Co. (Asheville, N.C.)	11%	$794,892.85

After review of these bid proposals and the qualification process of the bidders, it was determined that R.E. Burns and Sons, Co., Inc. of

2

Statesville, North Carolina should be selected as the lowest qualified bidder and City staff would seek City Council approval to authorize the City Manager to enter into a contract to construct the replacement bridge in the amount of $743,825.85 upon concurrence by the N. C. Dept. of Transportation.

The Glendale Avenue Bridge is included in the Federal Aid of System Bridge Replacement Programs. The N. C. Dept. of Transportation will reimburse the City of Asheville for 80% of all associated costs. The requested budget amount for the total project, including preliminary assessment, design, right-of-way acquisition, utility relocation, construction, contract administration, and contingencies is estimated to be $1,107,125 of which the N. C. Dept. of Transportation will reimburse the City $885,700. The City of Asheville will expend an estimated $221,425 after final reimbursements from the N. C. Dept. of Transportation. Currently, funds in the amount of $103,000 are budgeted for this project. Therefore, a budget ordinance amendment and appropriation is required in the amount of $1,004,125 for the total project.

The Public Works Department staff recommends City Council adopt a resolution authorizing the City Manager to enter into contract with R.E. Burns and Sons, Co., Inc. to construct a replacement for the existing bridge on Glendale Avenue over Swannanoa River in Asheville, N.C., after final concurrence from the N. C. Dept. of Transportation. Staff further recommends City Council adopt a budget ordinance amendment in the total amount of $1,107,125 for the entire project.

RESOLUTION BOOK NO. 24 - PAGE 96

C. RESOLUTION NO. 97-94 - RESOLUTION AWARDING CONTRACT FOR ASPHALT MATERIALS TO APAC-CAROLINA INC.

Summary: Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish the City's estimated annual requirement of asphalt materials to be purchased as needed for force account re-surfacing and street repair. One bid was received as follows: APAC-Carolina Inc. - $26.00 per ton.

Since only one bid was received, a survey was conducted to identify other governmental agencies cost for asphalt. By comparison, the price bid to the City of Asheville appears to be consistent with current markets. This bid has been reviewed with Mark Combs and his concurrence received in this recommendation.

Subject to Council's approval, it is recommended the City enter into a contract with Asheville Division, APAC-Carolina, Inc., Asheville, North Carolina, for the purchase, on an as needed basis only, approximately 16,550 tons of assorted asphalt materials for a grand total of $430,300.00. The contract to become effective from the date of approval through May 30, 1998 with no guarantee of minimum purchase quantity.

RESOLUTION BOOK NO. 24 - PAGE 99

D. RESOLUTION NO. 97-95 - RESOLUTION AWARDING BIDS TO SOUTHEASTERN SAFETY SUPPLIES INC. FOR VIDEO TRACKING AND DETECTION SYSTEM FOR TRAFFIC ENGINEERING

Summary: Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a video vehicle tracking and detection system including on-site training and technical support during installation. One bid was received as follows: Southeastern Safety Supplies, Inc. (Columbia, S.C.) in the amount of $35,480.

This piece of equipment will enable the Traffic Engineering Division of the Public Works Department to optimize the existing street system operations and traffic controls in an effort to provide a more efficient flow of traffic. The overall project will include video detection/tracking, loop detection, microwave detection and microloop detection. This system will be compatible with the four Traconex Closed Loop Traffic Signal Systems already located in Asheville.

In addition to evaluating the proposed equipment to determine compliance with bid specifications, an analysis of the sole bidder's price was conducted. From the analysis it was determined that the price bid the City reflects a discount of $1880.00 off the manufacturer's list price and when compared to other municipalities' cost for comparable equipment, our price is considered to be competitive, fair and reasonable.

This bid has been reviewed with James Cheeks, Traffic Engineer, and Mark Combs, Public Works Director, and their concurrence received in this recommendation.

Funds for the entire purchase are to be from the Public Works Department, Traffic Engineering Division appropriations, Account Code 20-430-15-425-00-5741.

Subject to Council's approval, it is recommended that this bid be awarded to the sole bidder, Southeastern Safety Supplies, Inc., Columbia, S. C., in the amount of $35,480 for the purchase of a 'Peek Traffic Inc.' Model VT-900A-2 video vehicle tracking and detection system complete with cameras, interface panels, cables, mounting hardware and 2 days of on-site training and field support.

RESOLUTION BOOK NO. 24 - PAGE 101

E. RESOLUTION NO. 97-96 - RESOLUTION AWARDING CONTRACT TO STEPPE CONSTRUCTION COMPANY INC. FOR BREVARD ROAD ANNEXATION AREA PHASE III SANITARY SEWER SYSTEMS IMPROVEMENTS CONTRACT 1

Summary: The City Council approved 3.2 million dollars for sewer improvements. This project is known as Brevard Road Area Annexation Sanitary Sewer Improvements, Phase III - Contract One. These funds were to be used for priority sewer improvements.

The City Engineering Department and William Lapsley & Associates has developed construction plans for the Brevard Road Area Annexation Sanitary Sewer Improvements, Phase III - Contract One. The engineer's estimate for this project is in the amount of $162,875.

The project was advertised for one month. On Thursday, June 12, 1997, at 2:00 p.m., the Engineering Department received three bids for the project. A tabulation of bids received is as follows:

Steppe Construction Inc.	$141,723.50
Hobson Construction Co.	$145,149.00
Wheeler Construction Co.	$163,509.00

The construction time for this project is identified as 120 calendar days in the contract documents.

Staff recommends that City Council accept a resolution awarding the bid for Brevard Road Area Annexation Sanitary Sewer Improvements, Phase III - Contract One to the responsible low bidder, Steppe Construction Company in the amount of $141,723.50, and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 24 - PAGE 103

F. RESOLUTION NO. 97-97 - RESOLUTION FINDING THE RIGHT OF WAY KNOWN AS ORCHARD ROAD IS NOT PART OF AN ADOPTED STREET PLAN

Summary: A right-of-way off Azalea Drive, as shown in Plat Book 24, Page 53, is not part of an adopted street plan in accordance with N. C. Gen. Stat. sec. 136-66.2. According to N. C. Gen. Stat. sec. 136-96, a right-of-way not utilized within 15 years of dedication can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Gary and Gail Hammond of 35 Azalea Drive have requested that the City of Asheville verify if the specific right-of-way is or is not part of the City's adopted street plan. The statute requires the City to adopt a resolution stating the right-of-way to be abandoned is or is not part of a proposed street plan. The unused alley right-of-way off of Azalea Drive, named Orchard Road, is not part of any such plan and is not a City maintained right-of-way; therefore, the City has determined that all necessary requirements of the statute will have been met by adopting the resolution.

The Public Works Department staff finds that the right-of-way known as Orchard Road, from the intersection with the Southwest corner of PIN # 9668-09-16-7043 and Southeast corner of PIN # 9668-09-16-8082, in its entirety, as shown in Plat Book 24, Page 53 is not part of an adopted street plan and recommends the adoption of this resolution.

RESOLUTION BOOK NO. 24 - PAGE 105

G. RESOLUTION NO. 97-98 - RESOLUTION DESIGNATING SIGN KNOWN AS THE T.S. MORRISON GOLDLEAF SIGN LOCATED AT 39 NORTH LEXINGTON AS A LANDMARK SIGN

Summary: Consideration of the T.S. Morrison goldleaf sign located at 39 North Lexington Avenue to be designated as a landmark sign.

The owner of T.S. Morrison's is requesting landmark designation of one 3" x 30" goldleaf T. S. Morrison sign. Installed in 1932, the T. S. Morrison sign is 3 inches by 30 inches goldleaf reverse on glass. Goldleaf or gilding is both elegant and durable. These properties made it among the most popular sign materials in the late 19th and early 20th centuries.

The sign meets criteria A & C for landmark designation for the following reasons:

- T. S. Morrison's has been an Asheville retail store since 1891, the goldleaf sign represents and identifies one of Asheville's oldest stores.

- Goldleaf or gilding is both elegant and durable. These properties made it among the most popular sign materials in the late 19th and early 20th centuries. Reverse on glass goldleaf signs use goldleaf ranging from 12 to 23 karats. The gold is alloyed with copper and silver in varying amounts for differences in color.

At their regularly scheduled May meeting, HRC by a unanimous vote recommended to City Council that the T. S. Morrison goldleaf sign located at 39 North Lexington Avenue be designated a landmark sign.

RESOLUTION BOOK NO. 24 - PAGE 106

H. RESOLUTION NO. 97-99 - RESOLUTION DESIGNATING FOUR SIGNS KNOWN AS THE SLUDER FURNITURE COMPANY GOLD PAINTED DISPLAY WINDOW LOCATED AT 25 BROADWAY AS LANDMARK SIGNS

Summary: Consideration of the Sluder Furniture Company's four signs that are painted on the interior of the display windows at 25 Broadway be designated as landmark signs.

The owner of Sluder Furniture Company is requesting landmark designation of four signs that are painted on the interior of the display windows.

The Sluder signs are similar to the original goldleaf signs that were destroyed in the 1987 Globe fire. The two signs on the front windows are 1.23 square feet each and the two signs on the interior faces are 1.25 square feet each.

The signs meet criteria A for landmark designation for the following reasons:

- The signs represent a retail business that contributes to the character and history of the city. Sluders is the fifth oldest business in downtown Asheville.

- The Sluder signs are similar to the original goldleaf signs that were destroyed in the 1987 Globe fire. Remnants of the plate glass with the original signs were saved and duplicated with paint on the new display windows.

At their regularly scheduled May meeting HRC by a unanimous vote recommended to City Council that the four painted Sluder Furniture Company signs located at 25 Broadway be designated as landmark signs.

RESOLUTION BOOK NO. 24 - PAGE 108

I. RESOLUTION NO. 97-100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MUNICIPAL AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR STREAM RESTORATION AT WEAVER PARK

Summary: The consideration of entering into a municipal agreement with the N. C. Dept. of Transportation for a stream restoration project located in Weaver Park.

The Parks and Recreation Department, the North Carolina Department of Transportation, and the Department of Environment, Health, and Natural Resources have been working on a stream restoration project for Reed Creek located at Weaver Park. This stream restoration project has evolved from DOT's requirement to mitigate environmental impact concerns to Gashes Creek as part of the widening of US 74. This project will include repairing the stream bed at Reed Creek, stream bank stabilization, landscaping, bridge replacement, and walking trail construction. This municipal agreement will allow DOT to meet the requirements placed upon them by the Department of Health, Environment, and Natural Resources and will allow them to proceed with the widening of US 74.

The Parks and Recreation Department and the Legal Division requests approval for the City Manager to enter into a municipal agreement with the N. C. Dept. of Transportation.

RESOLUTION BOOK NO. 24 - PAGE 110

J. RESOLUTION NO. 97-101 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSERVATION EASEMENT WITH THE N.C. DEPT. OF ENVIRONMENT, HEALTH & NATURAL RESOURCES FOR STREAM RESTORATION AT WEAVER PARK

Summary: The consideration of entering into a conservation easement with the Department of Environment, Health and Natural Resources for a stream restoration project located in Weaver Park.

The Parks and Recreation Department, the N. C. Dept. of Transportation, and the Department of Environment, Health, and Natural Resources have been working on a stream restoration project for Reed Creek located at Weaver Park. This stream restoration project has evolved from DOT's requirement to mitigate environmental impact concerns to Gashes Creek as part of the widening of US 74. This project will include repairing the stream bed at Reed Creek, stream bank stabilization, landscaping, bridge replacement, and walking trail construction. This conservation easement is required in order to allow for the above work to occur and to ensure that the stream restoration project meets the requirements established by the North Carolina Department of Environment, Health and Natural Resources.

The Parks and Recreation Department and the Legal Division requests approval for the City Manager to enter into a conservation easement with the Department of Environment, Health and Natural Resources.

RESOLUTION BOOK NO. 24 - PAGE 111

K. RESOLUTION NO. 97-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH WOOLPERT, L.L.P., TO DEVELOP A COMPREHENSIVE MASTER PLAN FOR PARKS & RECREATION

Summary: Over the past several months, the Parks and Recreation Advisory Board and staff have gone through an extensive evaluation process to solicit the services of a consulting firm to do a Comprehensive Master Plan for Parks and Recreation for the next 20 years.

This Plan will provide an evaluation of existing recreational facilities and programs and will also provide projections for future recreation programs and facilities. The Plan will assist the City by developing a comprehensive action plan for future funding and priority needs. The purpose of this Plan is to get a good comprehensive picture of our current recreation services and project what the community wants in the future. The benefit of the Plan will be that citizens will have input on the recreational needs in the future and it will also give City Council an indication on what those needs are so they can plan for those financially.

Proposals were solicited from firms throughout the southeast to provide this service with seven firms submitting proposals. Each of the firms were evaluated based upon a matrix developed by staff to help determine the best qualified consulting firm. Through this extensive evaluation, it was determined that Woolpert, LLP, met all of the qualifications that we required in order to develop a comprehensive plan that was based upon an extensive process of community involvement. The cost for providing this service by Woolpert, LLP, is $78,120. Funds for payment for this service are currently available within the Parks and Recreation's Capital Improvement Project allocation. The Parks and Recreation Advisory Board and staff feel that this comprehensive plan is necessary in order to adequately address the future recreation needs for the City of Asheville.

Parks and Recreation recommends authorizing the City Manager to enter into a contract with Woolpert, LLP, to develop a Comprehensive Master Plan.

RESOLUTION BOOK NO. 24 - PAGE 112

L. RESOLUTION NO. 97-103 - RESOLUTION AUTHORIZING THE CITY MANAGER TO DISPOSE OF CITY-OWNED PERSONAL PROPERTY BY PRIVATE SALE TO ELIADA HOMES INC.

Summary: Several months ago, the Parks and Recreation Department replaced the ballfield lights at Livingston Street Ballfield. The department was approached by Eliada Home regarding the possibility of conveying the used lights to their facility. Under the North Carolina General Statute, Section 160A-279, the City can convey by private sale any real or personal property belonging to the City to any public or private entity which carries out a public purpose. Eliada Home is a non-profit, private entity; therefore, it is possible to convey the lights to them. In exchange, the Parks and Recreation Department will request use of Eliada Home Ballfield for two evenings per week from mid April through late October for use in the adult softball program.

The Parks and Recreation Department recommends approval of the resolution and agreement to convey ballfields lights between the City of Asheville and Eliada Home, Inc.

RESOLUTION BOOK NO. 24 - PAGE 113

M. RESOLUTION NO. 97-104 - RESOLUTION APPROVING THE BUNCOMBE COUNTY SOLID WASTE MANAGEMENT PLAN

Summary: In accordance with N. C. Gen. Stat. sec. 130A-309.09A(b), the City of Asheville must develop a ten-year solid waste management plan or participate in a joint plan with other local governments.

The Buncombe County Solid Waste Division has developed a plan to comply with N. C. Gen. Stat. sec. 130A-309.09A(b). The County Commissioners will address approval of the plan at their June 17 session. The City must either approve the county plan or develop its own by July 1, 1997.

Development of a City plan was considered but rejected due to the fact that solid waste collection and disposal in the City is directly tied to County operations. The City currently transports its waste to the Buncombe County Transfer Station and pays the County for disposal at its landfill. Illegal dumping problems in the City are often handled jointly with County staff.

The Buncombe County plan establishes two goals for the planning period: (1) a 40% waste diversion from its Subtitle D lined landfill, based on FY 88-89 waste disposal figures (the County contends it has already achieved a 20% diversion rate; and (2) a 10% per capita waste reduction based on FY 1995-96 waste generation rates.

The goals are non-binding and can be modified during plan updates and revisions. The plan does not require the City to undertake any specific actions or alter its current programs in any way. With adoption of this plan, the City agrees only to make a good faith effort in assisting the County in achieving its goals.

In the plan, the County expresses its intent to: (1) undertake a full cost accounting of solid waste operations in Buncombe County to increase efficiency and waste awareness; (2) develop means to encourage cooperation among governmental agencies, non profit organizations, and the commercial/industrial sector; (3) promote effective use of available funding; and (4) increase waste education efforts.

The County also intends to develop a task force comprised of representatives from each participating municipality to coordinate implementation of the plan. All other municipalities in Buncombe County have expressed their intention to approve the County plan. By participating in the County plan, the City will show its support for intergovernmental cooperation and ensure itself a voice in future County-wide solid waste planning.

Staff recommends adoption of the resolution approving the Buncombe County Solid Waste Management Plan.

RESOLUTION BOOK NO. 24 - PAGE 104

N. RESOLUTION NO. 97-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT THROUGH THE CLEAN WATER MANAGEMENT TRUST FUND TO ASSIST IN THE DEVELOPMENT OF GREENWAY MASTER PLAN AND LAND ACQUISITION

Summary: The Clean Water Management Trust Fund was established by the N.C. General Assembly to provide money to help finance projects that specifically address water pollution problems as well as funding to build a network of riparian buffers and greenways for environmental, educational, and recreational benefits. Currently, $39 million has been allocated in this trust fund for the period ending July 1, 1997. The City of Asheville is interested in applying for a grant to partially fund the greenway master plan and land acquisition along the French Broad and Swannanoa Rivers. The total funding requested for this project has not officially been determined; however, due to the total money available, it is estimated that this grant may be in excess of $1 million.

The Parks and Recreation Department recommends the City Manager be authorized to apply for or enter into an agreement for funding through the Clean Water Management Trust Fund.

RESOLUTION BOOK NO. 24 - PAGE 115

O. MOTION ACCEPTING THE CONSULTANT'S REPORT ON DEVELOPMENT PERMITTING POLICIES, PROCESSES AND PROCEDURES AND FUNCTIONAL ANALYSIS OF THE FINANCE DEPARTMENT

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Resolutions & Motions Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Resolutions & Motions Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCES:

A. ORDINANCE NO. 2379 - BUDGET AMENDMENT TO ESTABLISH AN APPROPRIATION FOR THE GLENDALE AVENUE BRIDGE PROJECT

Summary: This budget amendment, in the amount of $1,107,125, is to establish an appropriation for the Glendale Avenue Bridge Project.

ORDINANCE BOOK NO. 16 - PAGE 236

B. ORDINANCE NO. 2380 - BUDGET AMENDMENT TO ESTABLISH BUDGET FOR GRANT FUNDS RECEIVED FROM THE COMMUNITY FOUNDATION OF WNC FOR THE SUMMERTIME KIDS 1997 PROGRAM

Summary: This budget amendment is to appropriate $1,000 received from the Community Foundation of Western North Carolina for the Summertime Kids 1997 Program.

ORDINANCE BOOK NO. 16 - PAGE 238

C. ORDINANCE NO. 2381 - ORDINANCE ADJUSTING THE BOUNDARIES OF FIRE DISTRICT NO. 3 (BILTMORE)

Summary: The consideration of adjusting the boundaries of Fire District No. 3 (Biltmore) to accommodate renovation/rehabilitation of existing buildings within that fire district.

State law provides for (and in some cases requires) the establishment of "fire districts"—defined areas where construction materials and occupancy types are limited to prevent major fires. Asheville has three such districts. Fire District No. 3 encompasses the old warehouse district in an area roughly bounded by Hendersonville Road, Thompson Street, Decatur Street and the Norfolk Southern right-of-way.

Over the past three years, major renovation and rehabilitation of buildings in Fire District No. 3 have been undertaken to a point where no significant fire protection purpose is served by leaving those structures in Fire District No. 3. This ordinance redefines the boundaries of Fire District No. 3, so that the rehabilitated/renovated buildings are no longer included in that district.

The boundary proposed is generally defined by Sweeten Creek, Thompson Street, Decatur Street and the Norfolk Southern right-of-way, with provision for exclusion of 38 Garfield Street (which is undergoing renovation at this time) from the revised Fire District No. 3.

The Fire Chief recommends adoption of the ordinance that would amend the description of Fire District No. 3 in the Asheville Fire Prevention Code.

ORDINANCE BOOK NO. 16 - PAGE 240

Mayor Martin said that members of Council have been previously furnished with copies of the ordinances on the Ordinance Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Ordinance Consent Agenda. This motion was seconded by Councilman Worley.

On a roll call vote of 6-0, the Ordinance Consent Agenda was adopted on its first reading.

ITEM PULLED OFF THE CONSENT AGENDA FOR FURTHER DISCUSSION

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 10, 1997, AND THE WORKSESSION HELD ON JUNE 17, 1997

Mr. Ralph Bishop, resident of the City of Asheville, asked why he was not able to get a full and accurate copy of the minutes as required in G.S. 160A-72. Mayor Martin responded that State law does not require the minutes of Council meetings to be verbatim.

Councilman Sellers moved to approve the minutes of the June 10 and June 17, 1997, meetings as submitted. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER DEMOLITION OF 116 CLINGMAN AVENUE

ORDINANCE NO. 2382 - ORDINANCE DIRECTING THE BUILDING SAFETY DIRECTOR TO DEMOLISH 116 CLINGMAN AVENUE

Mayor Martin opened the public hearing at 5:13 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bob Vickery, Chief Code Enforcement Officer, said that 116 Clingman Avenue is a dilapidated structure located in the West End Clingman neighborhood. The owner Duckett C. Bell has not responded to the Order of the Director Designee of the Building Safety Department to repair or demolish this structure. Housing Code Coordinator Natalie J. Berry found the following conditions, which have been documented by still photographs and videotape: (1) The structure's walls and roof are structurally unsound; (2) The structure has no electricity or potable water service; and (3) The structure is abandoned and is being occupied by vagrants.

Housing Code Coordinator Natalie J. Berry sent a correction order to the property taxpayer of record on May 1, 1995. There was no response. A formal hearing was then scheduled and held on September 11, 1995, and no one responded. Based on the evidence presented at that hearing the Building Safety Department hearing officer issued a "Findings of Fact and Order" to the owner Duckett C. Bell to repair and demolish 116 Clingman Avenue within 30 days on November 30, 1995. As of this date, no action has been taken by the owner of legal record.

N.C. Gen. Stat. sec. 160A-443(5) authorizes the City Council to direct by ordinance the demolition of a dilapidated structure such as 116 Clingman Avenue subsequent to failure of the owner to comply with an order to demolish or repair. N.C. Gen. Stat. sec. 160A-443(6) authorizes placement of a lien on the property to recover the cost of a demolition so ordered by City Council.

The following is an overview of some general information regarding this property: (1) Fair market value of house is $6,900.00; (2) Value to rebuild the house only is $49,996.00; (3) Land value without the house is $4,300.00; (4) Estimated cost to demolish is $10,500.00; and (5) The Affordable Housing Agencies were notified.

Mayor Martin closed the public hearing at 5:13 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Skalski moved for the adoption of Ordinance No. 2382. This motion was seconded by Councilman Worley.

On a roll call vote of 6-0, Ordinance No. 2382 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 241

B. PUBLIC HEARING TO CONSIDER DEMOLITION OF 20 GALAX AVENUE

ORDINANCE NO. 2383 - ORDINANCE DIRECTING THE BUILDING SAFETY DIRECTOR TO DEMOLISH 20 GALAX AVENUE

Mayor Martin opened the public hearing at 5:13 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bob Vickery, Chief Code Enforcement Officer, said that 20 Galax Avenue is a dilapidated structure located in a West Asheville neighborhood. The owners James F. Hyatt Jr. And Betty Jean Hyatt have not responded to the Order of the Director Designee of the Building Safety Department to repair or demolish this structure. Housing Code Coordinator Natalie J. Berry found the following conditions, which have been documented by still photographs and videotape: (1) Structure foundation walls are structurally unsound; (2) The structure's roof and walls are structurally unsound; (3) The structure has no electricity or potable water service; and (4) The structure is abandoned and is being occupied by vagrants.

12

Code Enforcement Officer David J. Souther sent a correction order to the property taxpayer of record on July 27, 1994. There was no response. A formal hearing was then scheduled and held on April 24, 1996, and the owners appeared and agreed the structure was in bad need of demolition. Based on the evidence presented at that hearing the Building Safety Department hearing officer issued a "Findings of Fact and Order" to the owners James F. Hyatt Jr. And Betty Jean Hyatt to demolish or repair 20 Galax Avenue within 90 days on April 26, 1996. As of this date, no action has been taken by the owner of legal record.

N.C. Gen. Stat. sec. 160A-443(5) authorizes the City Council to direct by ordinance the demolition of a dilapidated structure such as 20 Galax Avenue subsequent to failure of the owner to demolish or repair. N.C. Gen. Stat. sec. 160A-443(6) authorizes placement of a lien on the property to recover the cost of a demolition so ordered by City Council.

The following is an overview of some general information regarding this property: (1) Fair market value of house is $7,100.00; (2) Value to rebuild the house only is $54,872.00; (3) Land value without the house is $5,000.00; (4) Estimated cost to demolish is $9,000.00; and (5) The Affordable Housing Agencies were notified.

Mr. Spivey, owner of a rental house next to 20 Galax Avenue, said that he had a petition containing 21 signatures asking that the City demolish 20 Galax Avenue, since the house was condemned in February of 1992.

At this time, Councilman Cloninger arrived at the meeting.

Mayor Martin closed the public hearing at 5:17 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2383. This motion was seconded by Councilman Sellers.

On a roll call vote of 7-0, Ordinance No. 2383 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 243

C. PUBLIC HEARING TO CONSIDER DEMOLITION OF 72 CLINGMAN AVENUE

ORDINANCE NO. 2384 - ORDINANCE DIRECTING THE BUILDING SAFETY DIRECTOR TO DEMOLISH 72 CLINGMAN AVENUE

Mayor Martin opened the public hearing at 5:19 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bob Vickery, Chief Code Enforcement Officer, said that 20 Galax 72 Clingman Avenue is a dilapidated structure located in the West End Clingman neighborhood. The owner Duckett C. Bell has not responded to the Order of the Director Designee of the Building Safety Department to repair or demolish this structure. Housing Code Coordinator Natalie J. Berry found the following conditions, which have been documented by still photographs and videotape: (1) Structure is in danger of collapse; (2) The structure was extensively damaged by fire in 1991; (3) The structure has no electricity or potable water service; and (4) The structure is abandoned and is being occupied by vagrants.

Housing Code Coordinator Natalie J. Berry sent a correction order to the property taxpayer of record on December 9, 1996. There was no response. A formal hearing was then scheduled and held on March 11, 1997, and no one responded. Based on the evidence presented at that hearing the Building Safety Department hearing officer issued a "Findings of Fact and Order" to the owner Duckett C. Bell to repair and demolish 72 Clingman Avenue within 30 days on March 17, 1997. As of this date, no action has been taken by the owner of legal record.

N.C. Gen. Stat. sec. 160A-443(5) authorizes the City Council to direct by ordinance the demolition of a dilapidated structure such as 72 Clingman Avenue subsequent to failure of the owner to demolish or repair. N.C. Gen. Stat. sec. 160A-443(6) authorizes placement of a lien on the property to recover the cost of a demolition so ordered by City Council.

The following is an overview of some general information regarding this property: (1) Fair market value of house is $23,400.00; (2) Value to rebuild the house only is $124,258.00; (3) Land value without the house is $5,200.00; (4) Estimated cost to demolish is $13,500.00; and (5) The Affordable Housing Agencies were notified.

Mayor Martin closed the public hearing at 5:19 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2384. This motion was seconded by Councilman Worley.

On a roll call vote of 7-0, Ordinance No. 2384 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 245

D. PUBLIC HEARING TO CONSIDER MODIFICATION REQUESTS FOR WALDEN RIDGE PROFESSIONAL PARK TO BE LOCATED OFF HENDERSONVILLE ROAD: REDUCTION IN THE STREET RIGHT-OF-WAY FROM 50 FEET TO 40 FEET AND REDUCTION IN THE CUL-DE-SAC RIGHT-OF-WAY RADIUS FROM 50 FEET TO 45 FEET

Mayor Martin opened the public hearing at 5:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that the developers of Walden Ridge subdivision, located on Hendersonville Road, are requesting modifications of the city's subdivision regulations to permit a reduction in the street right-of-way from 50 feet to 40 feet and a reduction in the cul-de-sac right-of-way radius from 50 feet to 45 feet.

A professional office subdivision is proposed for development on Hendersonville Road. The developer has presented a preliminary plat and is requesting modification of the city's standards for street design.

14

The Asheville Planning and Zoning Commission is recommending approval of the requested modifications of the city's subdivision regulations to permit a reduction in the street right-of-way width from 50 feet to 40 feet and a reduction in the cul-de-sac right-of-way radius from 50 feet to 45 feet. The Walden Ridge Professional Park Subdivision is located on Hendersonville Road. The subdivision will consist of four lots on approximately 7 acres. The lots will be accessed by a new street which will be approximately 760 feet in length. The developer proposes to dedicate the new street to the city for ownership and maintenance. The city's subdivision regulations require a minimum street right-of way width of 50 feet and a minimum cul-de-sac right-of-way radius of 50 feet. The first 234 feet of the proposed street has previously been granted a modification by the city to permit a reduction in the right-of-way to 40 feet. City Council approval of the requested modifications is necessary in order for the preliminary plat to be accepted as presented.

The Fire Department and the Public Works Department have reviewed the request since their vehicles would be impacted by the reduced cul-de-sac radius. These departments expressed no concern of the standards being revised.

The requested modifications of the city's street design standards have been recommended for approval by the Asheville Planning and Zoning Commission by a 5-2 vote.

Upon inquiry of Councilman Skalski on why two members of the Planning & Zoning Commission voted against this matter, Mr. Green said that their negative vote was on the subdivision as a whole, not on the specific modification requests. City Attorney Oast reminded Council that it would not be appropriate for a member on the Planning & Zoning Commission who voted negatively to comment at this time. A recommendation of the Planning & Zoning Commission is effective whether it's unanimous or not.

Upon inquiry of Councilman Hay, Mr. Green said that the major reason the City would be concerned about the cul-de-sac right-of-way radius is not so much with the right-of-way, but with the pavement radius in order to assure that there is adequate room for emergency and service vehicles. The developers have worked out with the Fire, Public Works and Engineering Departments in order to meet the requirements for turn-around of large trucks. Even though the pavement radius in the cul-de-sac does not meet City standards, they do meet N.C. Dept. of Transportation ("NC DOT") standards.

When Vice-Mayor Field asked why our standards are not contiguous with NC DOT's standards, Mr. Green said the quick answer is that NC DOT standards appear to be more for rural areas and residential developments whereas the City's standards are for urban areas, mixed use, commercial development, etc.

When Vice-Mayor Field asked if she had a conflict of interest since Mr. Pulliam is a client of the office that she is an employee of, City Attorney Oast said that unless she has been directly involved in this project, she cannot be excused from voting. Vice-Mayor Field said that she was not directly involved in the project, therefore, it was Mr. Oast's opinion that she did not have a conflict of interest.

Mayor Martin closed the public hearing at 5:27 p.m.

Councilman Worley moved to approve the reduction in the street right-of-way from 50 feet to 40 feet for Walden Ridge Professional Park. This motion was seconded by Councilman Sellers and carried unanimously.

Councilman Worley moved to approve the reduction in the cul-de-sac right-of-way radius from 50 feet to 45 feet for Walden Ridge Professional Park. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2385 - ORDINANCE AMENDING THE CITY CHARTER AND RELATED LAWS OF THE CITY OF ASHEVILLE TO PROVIDE FOR FOUR-YEAR STAGGERED TERMS FOR THE MAYOR AND MEMBERS OF THE CITY COUNCIL

Mayor Martin said that the public hearing on this matter was held on June 17, 1997.

City Attorney Oast said that amending the City's Charter to modify the form of government is a process consisting of several sequential steps: (1) Adoption of a Resolution of Intent; (2) Publication of Notice; (3) Public Hearing; (4) Council Vote; (5) Vote of the people (not required, but subject to a referendum upon petition if vote not provided for); and (6) Publication of Notice and filing with State offices.

A Resolution of Intent to consider an ordinance changing the terms of Council and the Mayor from two to four years and staggering them, was adopted on June 3, and a public hearing was set for June 17. Notice of the public hearing was published on June 6, 1997, more than 10 days before the public hearing. The public hearing was held on June 17.

He reviewed the details regarding how the terms are to be staggered and the various options available to Council. One option would allow for City Council and the Mayor to have four year staggered terms; the other would allow for City Council other than the Mayor to have four year staggered terms (Mayor remaining at a two year term); and those two options have each been prepared in two versions: one that makes the change effective upon adoption of the ordinance, and one that makes the ordinance (and the change) effective only upon a vote of the people. The method for calling for a vote of the people is set out in the statute, but is not a required procedure.

He explained that in order to insure as far as possible that the changes proposed in the ordinance are effective for the 1997 election, the ordinance should be adopted at this June 24 formal session, if at all. If the Council elects to make the ordinance effective only upon a vote of the people, or if there is a successful petition for a referendum, both of which are provided for but not required by the law, then the proposed change could not be effective before the 1999 election. If Council decides to make its action subject to a vote of the people, it is recommended that adoption of the ordinance be delayed in order to allow for coordination with the Fall elections. A separate resolution calling for a special election will need to be adopted in that event.

Since Council has previously considered and voted on the subject matter of this ordinance, it is possible that the two-thirds vote requirement contained in G.S. 160A-75 would not apply to a vote on the

16

proposed ordinance itself. Nevertheless, if the vote for adoption of the ordinance is less than 5-2, it is recommended that a second vote be taken at a later meeting. This could occur on July 8, Council's next scheduled meeting, but it is recommended that it occur before then in order to allow time for completion of publication and filing requirements; a special meeting would have to be called for this purpose.

Finally, though the statute does not require that an ordinance changing the form of municipal government be put to a vote of the people, a referendum petition may be filed by which such a vote would be required. Such a petition must be filed within 30 days of the publication of notice of adoption of the ordinance, and must contain the signatures and addresses of at least 10% or 5,000, whichever is less, of the qualified voters of the City of Asheville.

If Council decides to make the ordinance effective upon a vote of the people, a resolution should be adopted at the same time calling for a special election, which must be held not later than 90 days after the ordinance is adopted. Notwithstanding obvious practical and logistical difficulties, legal notice requirements for special elections preclude a special election being called on this question in time to be effective for the 1997 election. Accordingly, if Council decides to employ this option, consideration should be given to coordinating the special election with the 1997 primary or general election, which the statute, G.S. sec. 163-287, permits, and adoption of the ordinance should be delayed so as to occur within 90 days of the primary or general election.

He said the way the staggered terms would be decided among the Council members would be that the three members that get the highest vote totals in the 1997 election would serve four year terms, with the other three members serving two year terms. The Mayor would begin to serve four year terms with the 1997 election.

Vice-Mayor Field noted that 10% of the registered voters would be 3,500 people.

Upon inquiry of Councilman Hay, City Attorney Oast said that if City Council opted for a public referendum then the change could not go into effect until the 1999 election due to time restraints in calling for a special election.

Councilman Skalski supported the ordinance requiring a vote of the people.

Mayor Martin said that members of Council have previously received a copy of the proposed ordinances and they would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2385 to amend the Charter and Related Laws to provide for four-year staggered terms for the Mayor and the City Council, to begin with the 1997 election, and that the amendment be effective upon adoption of the ordinance, without being subject to approval by a vote of the people. She noted that the ordinance could be subject to a referendum by petition as provided by law. This motion was seconded by Councilman Worley.

Councilman Hay said that only Mr. Bishop has expressed a preference for two years over four year terms. Everyone else he has talked to has favored four year terms and personally he felt it was a good idea as well. He was interested in the referendum in order to give people a chance to express themselves, however, he didn't think it was worth delaying it for two years because he felt it is pretty clear on what the right choice is.

Councilman Worley also supported four-year terms as well. He also felt that at first the referendum was the right way to proceed and his comments have invited people to express their desire about a referendum. Out of all the people he has spoken with, only Mr. Bishop has expressed an interest for a referendum.

Mr. Johnny Lloyd said that he has talked to some people who are opposed to the four-year staggered term for the Mayor and City Council. He suggested another option changing the Mayor's position to four years and keeping City Council at two years.

Councilman Skalski said that he was voting against this ordinance because when he ran for public office, he talked to 800 voters and none of them felt the Council should change their form of government. In effect he felt that a working person could not afford to run for City Council for four-years on a $7,000 salary. He also felt that in changing our form of government most of the people would be left out of the process. He expressed interest in district elections and felt that there are sections of Asheville that have, historically over the years, been un-represented on City Council.

On a roll call vote of 6-1, (with Councilman Skalski voting "no") Ordinance No. 2385 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 247

V. NEW BUSINESS:

A. ORDINANCE NO. 2386 - ORDINANCE ADOPTING THE BUDGET AND FIXING THE TAX RATE OF THE CITY OF ASHEVILLE FOR FISCAL YEAR 1997-78

City Manager Westbrook said that the Fiscal 1997/98 Annual Operating Budget is balanced with no increase in the Ad Valorem tax rate of $.57 per $100 of assessed value and all essential City services are maintained or improved.

Audit/Budget Director Bob Wurst said that the Fiscal 1997/98 Annual Operating Budget was presented to City Council on May 15, 1997. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Budget along with a notice of the Public Hearing was published on May 31 and June 1, 1997. The City Council conducted a public hearing on the budget at the June 10, 1997 meeting. The adoption of the Budget Ordinance is scheduled for action at this meeting.

Since the Budget was presented to City Council on May 15, 1997, several changes have been requested by City Council. These changes will be incorporated into the Budget before adoption on June 24, 1997. The changes to date are summarized as follows: (1) Rental for the West Asheville Resource Center is included; (2) Funding to increase City Council compensation is included; (3) Outside Agency funding has been revised in accordance with the Outside Agency Committee recommendations; (4) Certain fees and charges will be revised in accordance with the Fees

18

and Charges Committee recommendations; (5) The General Capital Reserve Fund Budget has been revised to include grant funding for Stephens-Lee Center renovations; and (6) Funding totaling $100,000 of City funds and $40,000 of community funds is included in the Capital Improvement Project for Haw Creek park development is included.

A copy of the Budget is available for public inspection in the City Clerk's office. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, the Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once adopted.

Ms. Diane Weaver, Chairman of the Smith-McDowell Associates, urged Council to appropriate funding for the Smith-McDowell House. She said the House is an artifact from Asheville's past that shows where we have been and how far we have come. She said the volunteers and staff have labored for many years fighting to keep the museum open and to keep it available for historical presentations and also for education from school children through senior citizens. She understood City Council was concerned about setting a precedence in granting their funding request. They feel that their constituents respect City Council's ability to take each issue and judge it fairly on its particular merit without giving a rubber-stamp approval. She also pointed out that in recent years citizens have been vocal and concerned about perceived rampant development in this area. Possibly helping the community with its historic preservation gives an ability to present a balanced community - balancing the old with the new.

Vice-Mayor Field said that the Smith-McDowell House is a wonderful facility within our community. Last week she suggested that the Smith-McDowell representatives meet with the City's HRC staff to see if they could come up with some kind of assistance for funding. She understands that the request is for on-going operating expenses, and not for any particular project. She thought there were some structural problems that needed to be repaired and that this money would be going towards that, however, she's been told that is not the case.

Mr. Lee Creech, Smith-McDowell Curator and Museum Administrator, said the grant application was for operating expenses and included in that was the on-going maintenance of the facility. They would be more than happy to work with the Historic Resources Commission ("HRC") and the Council to use this money toward those issues.

Vice-Mayor Field wondered if Council might set aside some money in the budget (or make another appropriation as needed in the future) and see if they could come up with some kind of leveraging of the money to allow them to match some money coming from another agency. Maggie O'Connor, HRC Director, has indicated that there were several options available. She didn't feel the Council is closed on this idea, but just that they need to look at more options.

Councilman Worley said the Outside Agency Committee looked at whether this was a one-time grant that was being applied for or would be something that would be continuing year after year. There was a concern if it's operational expenses that it would be a continual request for funding each and every year. He did, however, agree with Vice-Mayor Field about if there is a way Council could set aside some funds and maybe match or leverage them with other grants, or segregate them for a

19

specific maintenance project or something of that nature, Council would feel a lot more comfortable with that.

Councilman Skalski said that the City is strapped for money and the budget has gotten tighter every year. City Council is trying to come up with creative ways to finance just about everything because there are literally hundreds of agencies that need money. He did say, however, the door is always open for possible funding for the Smith-McDowell House as the budget evolves over the year.

Councilman Skalski said that last year he presented City Council with a few motions at the beginning of their deliberations on the budget and basically he had the same presentation made last year. Last year he voted against the budget and he feels that it is appropriate to tell Council why he will be voting against it this year as well. Basically his position is that the budget last year and the budget this year does not move towards getting our fund balance closer to the state average of about 24% - we are right around 15% now. He passed out the following memo to Mayor and Members of City Council dated June 10, 1997, and briefly summarized it:

"The budget that we have before us could have many elements and policies attached to it that would greatly enhance the standard of living of the citizens of Asheville - the working families that live in the neighborhoods that elected this city council. We can help them - all of us - you-all must surely recognize the fact that all national and state politics are local. By recognizing that we can help them.

During the past several months while we have been deliberating the issues in and around the $72,000,000 million dollar budget we have before us, I have heard it repeated over and over again by Council members and echoed by staff that it can't be done because Raleigh won't allow it, or, they'll never consider it. Yes they will consider it! We must be proactive. I repeat, all national and state politics are local. And, it's a historic fact, that all policy changes begin at the local level. We must do so in order to help our local families. It's local families that pay the taxes.

1. The budget is approximately $.5 to 1 million short of meeting our fund balance goal of 15 percent of general fund operations. (This goal is far below the state average of 24 percent.) This is unacceptable.

2. How shall we replace the $200 thousand cut in federal grants for the Transit Authority? We, as a group, could have worked much harder with our state legislators about adjusting where our transportation dollars are spent. I was the only one who even asked. It should be City policy to pursue every avenue, we have no choice. Do our citizens want us to sit here and do nothing but raise unfair local taxes ad infinitum? I say no.

3. The "General Fund Contingency" should be at $500 thousand. This money is set aside for unplanned or unexpected expenses. Last year it was $150 thousand. We used up the entire $150 thousand last year. This year we have set aside $300 thousand. This is not prudent management, because we are going to have even more cuts at the federal and state level in the next year. We need more, not less.

4. Citizens' property tax money should not continue to be spent for sidewalks or streets. These are "transportation" dollars that

20

should come from the state Department of Transportation and revenue sharing through the existing Powell Bill money. Grandiose four lane highways are too expensive to build and there is no money for maintenance. For example, all the new sidewalk work currently underway on state maintained Biltmore Avenue and partially state maintained Weaver Boulevard was and is being taken from the City treasury. This should come from the state. This policy must be changed. Our working families in Asheville deserve better. Local policy must be enacted and moved toward Raleigh by working more with Raleigh.

5. Our water bills are among the highest in the country and our sewer rates among the highest in the state. We have had no policies to control costs nor guidelines for development. We must start implementing comprehensive planning now. The recently passed UDO eliminated all comprehensive planning. That's one of the reasons I voted against it. We cannot give away the store in the name of progress. The triangle area, Wake County, North Carolina, which is in the top five in the country in bringing in new jobs, now has 400 trailers for school students. Where did all the money go? With all the new taxes being raised with record growth, there should be money for infrastructure to spare. There isn't. Are we on the same path? Yes, we are. We must change this path by implementing comprehensive planning now. Our budget policies should reflect restraint. Speculative investing should be by private business not underwritten by the taxpayers. Private failure should be borne by private investors, not taxpayers. Working families' property taxes should not be used for sewer and water line extensions.

These are just a few examples of important issues for the hard working families of Asheville. This Council was elected by the neighborhoods were all these hard working families live. Shouldn't we begin to right the wrongs of the past 20 years in this City? Shouldn't we start reassessing our priorities? This budget doesn't address our priorities. I can't vote for it."

Councilman Worley noted that the City's fund balance is 18% - well over the fiscal policy reserve.

Vice-Mayor Field said that when she went to Washington, she spent quite a bit of time talking to our legislators about what we could do to get additional funds for transportation. Several of them, along with one of our Senators, have agreed that Asheville should get more money and has put forth a bill to allow us to get 85-cents on the dollar on transit money, not 47-cents on the dollar.

Mayor Martin noted several inaccurate statements to Councilman's Skalski's statement. He said Council has looked at the general fund contingency and it may be Councilman Skalski's opinion that we have $500,000, however, after discussions with staff, Council has determined that what we have is adequate. He said that the City does receive Powell Bill money (which comes directly from gasoline tax) and they try to use it efficiently. He felt Council is being quite prudent in the way we spend this money and they are trying to come up with more money for streets and sidewalks. He noted that while our water bills are high, they are high in part because we have a very expensive water system due to our terrain and we don't have the luxury, as do other communities in the state, of charging more for people who live outside the City. Our sewer rates are controlled by the Metropolitan Sewer District ("MSD") and we don't have the input that we would like to have. However, we have a lot of repair and maintenance to the sewer system. The policies that govern that were set in place ten years ago and while we may differ with MSD, we are not in complete control of that. As far as comprehensive planning - we do plan. That's why we have a Planning and Development Department. The recently passed UDO did not eliminate comprehensive planning, it facilities comprehensive planning.

Councilman Cloninger felt Councilman Skalski had every right to raise motions to the budget, but at the same time he has a responsibility to be accurate in the assertions that he makes. He felt the statement passed out by Councilman Skalski was riddled with inaccuracies. He felt is was a disservice to the City Council, but more importantly to the citizens of the City of Asheville, to further this kind of inaccurate information.

Councilman Skalski moved "to eliminate the $74 thousand "Community Oriented Government" position at City Hall and create in it's place a full time Director for the Coalition of Asheville Neighborhoods at the initial cost of $25 thousand with the neighborhoods providing matching funds. This would enable the 50 or more neighborhoods to participate from the "bottom up" the way government works best." This motion died for a lack of a second.

Councilman Skalski moved to (1) "add a $40 thousand 'Senior Planner' to the Planning Department staff. We have implemented the UDO which changes every zone designation in the city and have only one senior planner; (2) reduce the legal departments allocation by $40 thousand to deal with challenges to the UDO. The government should not be defending poorly written legislation. It should include the citizens in the process, so 'self-defense' will not be necessary; (3) reduce 'City Development' allocation from $246 thousand to at least $70 thousand. We don't need another layer of bureaucracy.; and (4) remove the entire $.5 million/fiscal year for 'RECYCLING' from the general fund and place it entirely in 'tipping fees.' The citizens were surveyed and are willing to pay for program. This will also be an incentive for them to work to make it more efficient." This motion died for a lack of a second.

Councilman Skalski moved "to endorse the Metropolitan Sewerage District (MSD) of Buncombe County, North Carolina's current 'line extension policy' as adopted at their June 15, 1996, board meeting, and, ask that the Asheville Water Authority adopt a similar policy. The resolution adopted by MSD calls for the implementation of .. 'a comprehensive, county-wide land use plan to provide a rational basis for engineering and financial projections,...' City Council endorses this and will work to have the Asheville Water Authority adopt similar guidelines. Comprehensive planning calls for an 'economic/social, balance sheet' which includes the coordination of all infrastructure needs in the area, including roads, sewers, water, and schools. This will help our area grow wisely, by employing impact statements and studies in our planning. Finally, comprehensive planning, conservation districts, accompanied by impact statements and studies should also be included in the new Unified Development ordinance (UDO)." This motion died for lack of a second.

Councilman Skalski moved "to change these 'Outside Agencies' allocations: Most of all the 19 outside agencies service both the county and the city equally, therefore these allocations are a form of 'double' taxation and should be phased out over time. The items listed below are those that we could begin phasing out now: (1) eliminate the $100 thousand for 'The Chamber of Commerce.' It already gets a room tax subsidy for promotion of tourism member companies; (2) leave Buncombe County Drug Commission at $15 thousand, 1995/96 level. No one has shown

22

their effectiveness. Let's give them another year to try; (3) the 'Sister Cities' program is tourism oriented and not be funded by city, and the $2 thousand should be eliminated from the budget; and (4) eliminate the $15 thousand for the 'VISION'. The 'in kind' office space the City gives them would remain in place. Do we really need to set up a whole function of government for this?" This motion died for lack of a second.

Councilman Worley was puzzled why Councilman Skalski did not give this information to the rest of City Council on June 10 (since the public hearing was held on that date). He felt that might have given Council time to digest the information being presented. Councilman Skalski said that most of the issues have been in front of City Council all year and the budget is an on-going yearly project. Councilman Worley responded that none of these issues had been raised at all during the budget deliberations.

Vice-Mayor Field said that she has received today a copy of a consultant proposal from the Tourism Development Authority ("TDA"), of which she is the City Council liaison. The TDA has asked that Council provide $10,000 to them to help pay for their consultant. She realized that this request is late in the process and the only thing she could suggest to them, because it was so late, was that perhaps Council could earmark $10,000 of the money the City is giving to the Chamber of Commerce to be for this particular project.

Councilman Worley agreed that it is too late to be brought up at this time. However, if Council would have had time to listen and study the proposal to see exactly what it entailed and whether they wanted to appropriate the $10,000, the choices would be the same today as down the road - out of contingency or out of fund balance. He felt that could be decided in the future after Council decides whether it is appropriate or not.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2386. This motion was seconded by Councilman Worley.

On a roll call vote of 6-1 (with Councilman Skalski voting "no"), Ordinance No. 2386 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 249

B. RESOLUTION NO. 97-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH TENNOCA CONSTRUCTION CO. INC. FOR THE PROJECT KNOWN AS WEST AREA ANNEXATION SEWER IMPROVEMENTS PHASE III - CONTRACT A

Assistant City Manager Doug Spell said that this project consists of approximately 3200 linear feet of gravity sanitary sewer which is being put in as part of the West Area annexation service. The location of this phase of the project is in the vicinity of Captain's Drive. The project was designed in-house by the Engineering Department at an estimate of approximately $191,000 for the project construction. The construction time advertised was 45 days. The following four bids were received on June 24, 1997:

Tennoca Construction Co. (Candler, N.C.)	$177,756
Steppe Construction Co. (Mill Spring, N.C.)	$219,389
Precision Contracting (Asheville, N.C.)	$220,405
Wheeler Construction (Weaverville, N.C.)	$220,696

After evaluating the bids, staff recommends Council award the bid to the apparent low bidder - Tennoca Construction Co., Candler, N.C., in the amount of $176,756. Funds have been budgeted in the Capital Improvements Budget for the sanitary sewer improvements as a part of the West Area Annexation.

Councilman Skalski reminded Council that when the City annexes it comes with a price.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-106. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 116

C. RESOLUTION NO. 97-107 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY FOR ASHEVILLE, BUNCOMBE AND HENDERSON AND AWARDING THE BID FOR THE CONSTRUCTION OF WEST AREA ANNEXATION WATER LINE IMPROVEMENTS, WOODSIDE HILLS SECTION - PHASE II PROJECT

Assistant City Manager Doug Spell said that this project scope consists of the replacement of a 2-inch water line with 6-inch water line and fire hydrants to enhance fire protection in this area. The project consists of approximately 4250 linear feet of water line to be installed. The project was designed in-house by the Engineering Department at $232,739. The construction time for the project is 60 days. The following five bids were received on June 12, 1997:

Ronnie Ledford Utilities (Barnardsville, N.C.)	$199,726.50
Cooper Const. Co. (Hendersonville, N.C.)	$209,083.00
Steppe Construction Co. (Mill Spring, N.C.)	$223,767.00
Hobson Const. Co. (Arden, N.C.)	$225,494.00
Buckeye Const. Co. (Canton, N.C.)	$285,981.00

After evaluating the bids, staff recommends Council award the bid to the apparent low bidder - Ronnie Ledford Utilities, Barnardsville, N.C. in the amount of $199,726.50. Sufficient funds for this project are budgeted in the Pipeline Replacement Project account in the Water Capital Projects.

Mr. Spell noted that this project and the recommendation of award was presented to the Regional Water Authority and received favorable approval.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-107. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 121

MICROFILMED BY N.C. DIV. OF ARCHIVES & HISTORY
JUL 16 1997

D. ALL AMERICA CITY CELEBRATION

Upon concurrence of City Council, Mr. Irby Brinson, Director of Parks & Recreation, announced the All America City celebration would beheld on Friday, August 15, 1997, in conjunction with Downtown after Five.

VI. OTHER BUSINESS:

A. CITY COUNCIL/STAFF RETREAT

Upon request of City Manager Westbrook, it was the consensus of Council that the City Council/Staff Retreat be held on Friday, August 22, 1997, beginning at 1:00 p.m. and ending at approximately 6:00 p.m. at the North Fork Clubhouse. The City Manager was instructed to work with City Council, through the Mayor, on the agenda for the retreat.

B. DISTRICT ELECTIONS

Councilman Skalski asked if any Council member was interested in discussing district elections as a possible addition to our change in form of government in order to get better representation throughout the City. He pointed out that in Greensboro and Charlotte they do have district elections.

Upon inquiry of Councilman Hay, City Attorney Oast said that there is insufficient time for district elections to be effective for the 1997 election.

Councilman Cloninger agreed with Mayor Martin in thinking that district elections are not in the best interest of Asheville. He said they may work well in larger cities, but not the size of Asheville. He felt that there is enough divisiveness in our community and district elections would only foster it.

Councilman Skalski said that he would propose that the issue be voted on by the public - not enacted by City Council.

Councilman Worley also felt it would be more divisive to the City than solve any problems. He felt that in cities the size of Asheville, district elections would end up pitting one area of the City against another and pitting one member of Council representing one district against another member of Council. He has not detected, in the slightest, any bias whatsoever on the part of any member of this Council in favor of or against any area of the City. He felt each Council member approached their jobs with the best interest of the entire City in mind. He believed that going to district elections, substantially, would weaken that type of approach.

Councilman Skalski moved, if it's physically and legally possible, to put on the November election ballot a proposal for district elections in Asheville. This motion died for a lack of a second.

C. NO MEETING OF CITY COUNCIL

Mayor Martin announced that City Council will not be meeting on Tuesday, July 1, 1997. The next meeting will be a formal meeting beginning at 5:00 p.m. on Tuesday, July 8, 1997, in the Council Chamber on the second floor of the City Hall Building.

D. CLAIMS

The following claims were received by the City of Asheville during the week of June 6-12, 1997: Zeynad Mohammed (Traffic Engineering), Alice Fontanez (Streets), Bell South (Water), Jackie West (Streets), Kathy Burd (Streets), Jane Tuttle (Inspections), Ricky Morgan (Sanitation) and Bell South (Water).

The following claims were received during the week of June 13-19, 1997: Gregg Moore (Water), Cheryl Swann (Water), Melissa Waldrop (Streets), Janice Wilson (Water), Randy Mehaffey (Parks & Recreation) and Sam Carver (Parks & Recreation).

These claims have been referred to Asheville Claims Corporation for investigation.

E. CLOSED SESSION

At 6:35 p.m., Vice-Mayor Field moved to go into closed session in order to (1) consult with an attorney employed or retained by the City in order to preserve the attorney-client privilege between the attorney and the City - statutory authorization is G.S. 143-318.11 (a) (3); (2) to prevent the disclosure of information that is privileged or confidential pursuant to North Carolina law. That law is G.S. 160A-168, the Personnel Privacy Act - statutory authorization is G.S. 143-318.11 (a) (1); and (3) to discuss matters relating to the location or expansion of industries or other businesses within he area served by the City of Asheville - statutory authorization is G.S. 143-318.11 (a) (4). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:30 p.m., Councilman Skalski moved to go come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 7:30 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - July 8, 1997 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Barbara Field, Presiding; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Russell Martin

INVOCATION

Councilman Worley gave the invocation.

I. PROCLAMATIONS:

A. ASHEVILLE SISTER CITIES

Mr. George Yates, President of Asheville Sister Cities, read a letter from Jean-Paul Hugot, Mayor of our Sister City in Saumur, France. He then proudly announced that Asheville Sister Cities has been selected by Sister Cities International as having the best program in the United States for 1996 for cities under 100,000 in population and under. He also thanked City Council for their $2,000 grant for the coming year. He emphasized that that type of financial support is what made possible such an active and successful program in 1996.

Councilman Worley said that the Sister Cities program not only fosters friendship and understanding, but can also foster some very viable economic ties as well.

B. RESOLUTION NO. 97-108 - RESOLUTION RENAMING THE MONTFORD AMPHITHEATER IN HONOR OF HAZEL ROBINSON

Several members of the Montford Park Players (in costume) invited City Council to their special anniversary celebration on Friday, July 18, 1997, at 7:30 p.m., at the Montford Amphitheater.

Vice-Mayor Field presented Mr. Ernest Thurston, Secretary of the Montford Park Players (MPP), with a proclamation in honor of their 25th Anniversary.

Vice-Mayor Field then read a resolution renaming the Montford Amphitheater in honor of Hazel Robinson. Ms. Robinson founded the MPP in 1973 and has been the group's president, director, and guiding spirit ever since. She has volunteered nearly 25,000 hours and has directed and inspired over 1,000 local actors and actresses in presenting over 600 performances of plays by Shakespeare, Dickens, and other playwrights before audiences totaling around 30,000.

The Parks and Recreation Advisory Board recommends renaming the Montford Amphitheater in honor of Hazel Robinson.

Councilman Worley moved for the adoption of Resolution No. 97-108. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 128

C. PROCLAMATION PROCLAIMING JULY, 1997, AS "RECREATION AND PARKS MONTH"

Vice-Mayor Field read a proclamation proclaiming the month of July, 1997, as "Recreation and Parks Month" in the City of Asheville. She presented the proclamation to Parks & Recreation Director Irby Brinson who praised his staff and briefed the Council on some activities taking place during the month.

D. PRESENTATION OF CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING AWARD

City Manager Westbrook presented Finance Director Bill Schaefer with the Certificate of Achievement for Excellence in Financial Reporting Award. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. The City of Asheville is proud to have received this award for the 17th year.

He also presented R. Patricia Leckey, City Accountant, with the Award of Financial Reporting Achievement. Ms. Leckey was designated the individual primarily responsible for preparing the award-winning comprehensive annual financial report.

Mr. Joe Elkins, Ms. Valerie Brown and Ms. Barbara Smith were also recognized for their work in achieving the awards.

E. PRESENTATION OF DISTINGUISHED BUDGET PRESENTATION AWARD

City Manager Westbrook presented Audit/Budget Director Bob Wurst with the Distinguished Budget Presentation Award for the budget prepared for Fiscal Year beginning July 1, 1996. The Award represents a commitment of the governing body and staff to meeting the highest principles of governmental budgeting.

II. CONSENT:

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

A. RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCEL 5 AT THE CORNER OF COURTLAND AND MONTFORD AVENUE IN THE HEAD OF MONTFORD REDEVELOPMENT PROJECT TO ROBERT EIDUS AND JEANETTE SYPRZAK

Mr. Ed Vess, Field Services Coordinator, said that June 10, 1997, City Council tabled until July 8, 1997, consideration of approval of the sale to Mr. Eidus and Ms. Syprzak after hearing a complaint from Jacqueline Larsen that Mr. Eidus had reneged on an agreement with her regarding the purchase and development of the property. Ms. Larsen requested a meeting with City staff to discuss her complaint and on June 19, 1997, City Attorney Bob Oast and he met with Ms. Larsen and then with Mr. Eidus, Ms. Syprzak and Mr. Randolph Horner, a business associate of Mr. Eidus. They are prepared to make a recommendation to City Council, however, in the meantime they have been in the process of removal of an Underground Storage Tank (UST) on the site.

Work has begun but has not been completed on the removal of a UST on Disposal Parcel 5. Part of the City's commitment in connection with this conveyance was to remove the UST suspected to be on the property, formerly used as a service station. In order to allow time for completion of the removal of the tank, consideration of approval of the authorization of conveyance of the property should be continued for two weeks until July 22, 1997.

The proposed developers Robert Eidus and Jeanette Syprzak have been contacted and concur in the request that the subject be tabled for two weeks.

Community Development staff recommends that consideration of the subject resolution be continued for two weeks.

Ms. Jacqueline Larsen said that she will present Council with a narrative in response to the City's staff report. She said that she would be requesting City Council to reopen the bidding process.

Councilman Skalski moved to table this matter until July 22, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

B. ORDINANCE NO. 2387 - ORDINANCE AMENDING CHAPTER 5 OF THE CODE OF ORDINANCES OF THE CITY OF ASHEVILLE TO RESTRICT DOGS IN RIVERSIDE CEMETERY

Mr. Irby Brinson, Parks & Recreation Director, reviewed a compromise the Parks and Recreation Department and concerned dog owners arrived at concerning dogs at Riverside Cemetery.

At the June 10 City Council meeting, the Parks and Recreation Department was asked to meet with concerned dog owners to explore the possibility of developing a compromise concerning dogs at Riverside Cemetery. Through the facilitation of Kevin Wilson, Training and Quality Coordinator for the City of Asheville, two meetings were conducted over the past two weeks to determine the feasibility of a compromise. The consensus of those present at these meetings is as follows:

> Appropriate signage should be posted at the front gate which would outline the following:
>
> a. Dogs must be leashed and remain on paved roads.
> b. Owners must clean up after the dogs.
> c. Dogs are prohibited during funeral services.
> d. Dogs should have canine "good citizen" training.

Violators of the above regulations will be reported to the Park Warden or the Cemetery staff with as much information as possible. Those individuals who can be identified could face possible banishment from the Cemetery. In addition, an Adopt-A-Cemetery Program will be established which will allow for clean-up of the Cemetery area and beautification projects.

Furthermore, this compromise will be assessed after a six-month period of time to collect data and measure the effectiveness to determine if further additions or changes need to be made.

The Parks and Recreation Department recognizes the need for the future development of dog parks which will allow dogs to run free in open spaces without concern for damaged property.

The Parks and Recreation Department recommends approval of the revision to the Code of Ordinances pertaining to Riverside Cemetery and approval of the compromise.

Upon inquiry of Councilman Sellers, Riverside Cemetery Manager David Olson said that he did not send out a formal letter to all the lot owners regarding this issue because there were thousands of them. He did, however, send out a notice to the property owners who had contacted him regarding this issue. Councilman Sellers felt it would have been only be fair for notification to all property owners since he has received a number of phone calls from those who were not notified.

Councilman Sellers then read a letter from Ms. Ledford who asked that all dogs be banned from the cemetery unless they stay in a vehicle. She felt that Riverside Cemetery (1) is not a recreational facility for dogs, joggers and loiterers; (2) should only be used for the original plan for the use of the cemetery burials and visitations by the loved ones; and (3) should not allow men in the Cemetery half-dressed or lying on the graves sunning. She said many of the monuments are leaning and asked that be addressed. She also said that steps are desperately needed in at least two areas.

Councilman Sellers pointed out that, after visiting Riverside Cemetery, the word "Park" was not in any signage anywhere.

Councilman Sellers, referring to a study entitled "An Assessment of Headstone Damage at Riverside Cemetery: Possible Causes and Solutions" prepared by Kathryn R. Gubista, Ph.D. in the Biology Department at UNC-Asheville, said that there is more to a grave than just headstones. He noted that there would be additional work involved for the Cemetery Manager and his staff in order to police the area and notify the Animal Control Officer when violations occur. He said that he would have to vote against the compromise because of the enforcement issue.

When Councilman Worley asked if there were any representatives of the lot owners at the two compromise meetings held, Mr. Brinson said that maybe three or four attended both meetings and of those present, they felt the compromise was "doable". He did reiterate that his direction from City Council was to work out a compromise with the dog owners and they tried to proceed in that manner.

Councilman Sellers noted that in the survey conducted it stated that it may be possible to rid headstones of urine stains caused by the dogs and that the Adopt-A-Cemetery volunteer group is willing to help clean up the urine stains on the headstones. He had a letter from Rufus Whitmire, Whitmire Monuments on Patton Avenue, which read, in part, that "dog urine permanently stains marble memorials. Riverside Cemetery contains a high percentage of marble memorials. Older marble memorials were generally more ornate than today's memorials and therefore are extremely expensive to duplicate or reproduce. Dog urine will also permanently stain granite monuments if allowed to sit and soak in for a period of time."

Councilman Skalski agreed with Councilman Sellers in that it doesn't appear that the City will be able to monitor the Cemetery to the extent it would have to be done, especially since the City has only one animal control officer. He was concerned about enforcement since we already have an ordinance that requires dogs to be on leashes and it's hard to enforce.

Ms. Frances Robinson urged Council to ban dogs from Riverside Cemetery entirely because she didn't think a cemetery is a place for dogs.

An unidentified lady who was part of the compromise committee reminded Council that dogs will have to be kept on the paved road on leashes and will not be running over the graves or urinating on headstones. She felt that the dog owners are sincere about being park watchers to deter crime in the Cemetery. She urged Council to adopt the compromise for at least a six month period.

Ms. Ruby Leonard spoke in support of the compromise.

Ms. Kathryn R. Gubista, author of the study mentioned above by Councilman Sellers, supported her objective study noting that out of a total of 551 headstones she examined, the most damage was fresh bird droppings found on 48% of the headstones. The least damage was dog urine, found on only 1.1% of the headstones. She felt sure that there was new technology for removal of urine stain and urged Council to adopt the compromise.

Councilman Cloninger moved to amend Chapter 5 of the Code of Ordinances to allow dogs in Riverside Cemetery if said dog is leashed at all times and said leash is held by the person responsible for the dog. Dogs subject to this provision shall be kept on the paved roads within the cemetery and not allowed to defecate or urinate on any grave site, headstone or monument. Any fecal matter deposited by a dog shall be removed from the cemetery by the person responsible for the dog. The main cemetery gate may be posted any time a funeral or other service is in progress and no dogs shall be permitted in the cemetery during such times. This provision shall not apply to dogs assisting persons with sight disabilities, or other disabled persons who require the assistance of a dog. This motion was seconded by Councilman Hay.

Councilman Cloninger respected the concern of property owners, but felt the compromise should be tried for six months. He noted that after the six-month period if the compromise is not working, Council can then consider banning dogs entirely from the Cemetery.

Councilman Worley said that his grandparents were buried in Riverside Cemetery. He felt that the compromise was acceptable on a trial basis.

Vice-Mayor Field said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2387. This motion was seconded by Councilman Hay.

On a roll call vote of 4-2 (with Councilmen Skalski and Sellers voting "no"), Ordinance No. 2387 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 255

Vice-Mayor Field asked for an update on this compromise in six month at which time she also asked staff to address the issue of stray dogs.

C. ORDINANCE NO. 2388 - ORDINANCE AMENDING CHAPTER 3 OF THE CODE OF ORDINANCES OF THE CITY OF ASHEVILLE TO RESTRICT DOGS IN RIVERSIDE CEMETERY

See Item "B" under Unfinished Business.

Vice-Mayor Field said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2388 amending Chapter 3 of the Code of Ordinances to include Riverside Cemetery as an area dogs are permitted, subject to the provisions outlined above in the earlier motion (Item B) concerning a similar issue. This motion was seconded by Councilman Worley.

On a roll call vote of 4-2 (with Councilmen Skalski and Sellers voting "no"), Ordinance No. 2388 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 257

D. RESOLUTION NO. 97-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BUNCOMBE CONSTRUCTION COMPANY INC. FOR CONSTRUCTION OF THE ASHEVILLE TRANSIT CENTER

ORDINANCE NO. 2389 - BUDGET AMENDMENT FOR INSTALLATION OF TWO TRAFFIC SIGNALS

Mr. Carl Ownbey, Urban Planners, aid that the City of Asheville and the Asheville Transit Authority received bids on June 2, 1997, for the proposed transit center to be constructed on Aston Street between Asheland Avenue and Coxe Avenue. After staff reviewed the four submitted construction bids, it was determined that all bids were responsive but higher than the funds available. Therefore, negotiations with the lowest bidder, Buncombe Construction at $706,700, were authorized by City Council.

Taking into consideration the base bid, alternates M-1, E-2, and GC-2, the negotiations outlined changes to several of the amenities and included the addition of landscaping. The results decreased the construction bid to $700,000, which is within the available funding. Funds in the amount of $705,000 are appropriated for this project. Funding for this project has been approved through a Federal Transit Grant with state and local participation.

As indicated at the worksession last month, funding for the traffic signals at the intersection of Asheland and Aston and also at the intersection of Aston and Coxe, which is at each end of this project, was not included. Significant aspects of this portion of the project (reverse flow lanes for the buses, phasing of the signals to accommodate different turning movements, and the use of upgraded computer equipment) was not initially budgeted for in the grant.

Staff requests that the City Council appropriate funds in the amount of $70,000 to install the two traffic signals for this project. Staff has requested funds from NCDOT for these signals but have not received a response to this request.

The Asheville Transit Authority and the Planning staff recommend that the contract for construction of the new transit center be awarded to Buncombe Construction in the amount of $700,000 and that funds be appropriated in the amount of $70,000 for the installation of the two traffic signals.

Upon inquiry of Vice-Mayor Field, Mr. Ownbey said that landscaping is now in the contract price, slightly modified but acceptable.

32

When Councilman Cloninger asked why the 30 cubic yards of rock item was being deleted, Mr. Ownbey said that during negotiations the contractor felt that there was no indication that there would have to be rock removal.

Councilman Cloninger felt it was important that we make the transit center as attractive as possible because that building may serve as a catalyst for further redevelopment all the way down Coxe Avenue.

Upon inquiry of Vice-Mayor Field about a bus stop in Pritchard Park, Mr. Ownbey said that the current design is a stop in-bound and out-bound at Pritchard Park.

Vice-Mayor Field asked about a possible conflict of interest since Buncombe Construction is a company her firm does business with, though neither she nor her firm are involved with this project. City Attorney Oast said that, in his opinion, Vice-Mayor Field would not have a direct financial interest and thus, she would be required to vote.

Councilman Cloninger asked if the deletion of a bench in the negotiations would cause inadequate seating. Mr. Ownbey said that there are five sets of double benches, 8-feet long, which will accommodate up to 60 people and eliminating one bench will not cause much problem. The bench on the very end was deleted due to the design of the island having to be reduced and also because of a safety factor in not wanting a congregation of people right on the end of the island. He did note, however, that the contractor would be installing anchors when they poured the concrete and a bench could be installed later if needed.

Upon inquiry of Councilman Cloninger, Mr. Ownbey said that the construction time is 180 days.

Vice-Mayor Field said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-109. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 129

Vice-Mayor Field said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2389. This motion was seconded by Councilman Sellers.

On a roll call vote of 6-0, Ordinance No. 2389 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 259

V. NEW BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 24, 1997

Mr. Ralph Bishop, resident of the City of Asheville, objected to the minutes being summarized. He asked what authority does the City Clerk have to summarize the minutes noting that G.S. sec. 160A-72 says full and accurate minutes of the Council proceedings must be kept.

City Attorney Oast said that in a fairly recent opinion by the North Carolina Supreme Court, Maready v. City of Winston-Salem in Forsyth County, the Supreme Court spent some time in addressing the very question Mr. Bishop raised. They cited, with approval, provisions of Roberts Rules of Order. He read an excerpt from Roberts Rules as follows: "the record of proceedings of a deliberative assembly is usually called the minutes, or sometimes particularly in legislative bodies, the journal. In an ordinary society, unless the minutes are to be published, they should contain mainly a record of what was done at the meeting, not what was said by the members." At the request of Mr. Bishop, City Attorney Oast said he would be glad to give a copy of that provision.

Vice-Mayor Field noted that over the past few years, Council's minutes have been more and more complete text of what has gone on as well as what has been said. She felt they are much closer to what Mr. Bishop's definition of "full and accurate" means than what we are required to do.

When Mr. Bishop asked if G.S. sec. 160A-72 was still a valid law in the State of North Carolina or has it been declared unconstitutional, City Attorney Oast responded that in its current form it is still the law in the state.

Councilman Sellers moved for the adoption of the minutes of the regular meeting held on June 24, 1997. This motion was seconded by Councilman Worley and carried unanimously.

VI. OTHER BUSINESS:

A. STEPHENS-LEE FINANCING

Councilman Worley asked if it was possible to expedite the renovation of the Stephens-Lee Community Center (without impairing our financial plan) by combining funds from some of the partially funded projects until the Certificates of Participation are sold in the fall. City Manager Westbrook said that could be a real possibility but he would need to investigate the question and report back to City Council at their meeting next week.

B. CONTRIBUTION TOWARDS PURCHASE OF DOWNTOWN STREET CLOCK

Mr. Mark Combs, Director of Public Works, said that Mr. Charles Cunningham has generously offered to donate $6,000 towards the purchase of a street clock for the City which he would like to have installed in celebration of the bicentennial and hopefully in a place that is pedestrian-oriented in downtown.

The Streetscape Committee has been meeting to review the style and design of the clock, the location of the clock and the financial issues associated with the purchase of the clock. The $6,000 donation is about $2,000 lower than the cheapest clock with the style they are looking at to complement the overall streetscape design for downtown. After meeting again with Mr. Cunningham, he committed up to $8,000 at that point to buy the lowest cost clock, however, he was not receptive to the potential location of the clock at the new transit center. Mr. Cunningham said he would be willing to give a donation to Quality Forward to expedite the acquisition of the clock. Since then the Streetscape Committee has agreed to re-look at some locations, based on the financial issues, for possibly a smaller clock in a more pedestrian area. The Committee also asked him to seek guidance from City Council

34

as to whether there should be public fund participation in paying the difference from the donation with streetscape money.

Vice-Mayor Field said that the Downtown Commission has enthusiastically endorsed accepting the gift.

Councilman Cloninger said that it was very generous of Mr. Cunningham to offer this and hoped we could work something out.

When Councilman Cloninger inquired about the clock, Mr. Combs said that the particular model they are looking at (11 feet tall) is approximately $10,500 and the difference would be about $4,500. The Streetscape Committee has asked him to seek guidance from City Council on if it is appropriate policy for them to match Mr. Cunningham's gift with streetscape funds which are available.

Councilman Cloninger wondered if the Streetscape Committee has any feelings about whether allowing that amount to go towards the clock will deter them from meeting other goals they may have for this fiscal year. He felt that if something like this clock is consistent with what they ordinarily do, he would be in favor of taking the funds out of their budget.

Councilman Worley didn't think it was a good policy to look to the streetscape funds for any differential, but that it should be left to the City Council to determine where those funds should come from. He did think it is a wonderful gift Mr. Cunningham has offered and we should do everything we can to accept the gift and do so as a part of the bicentennial celebration.

City Manager Westbrook said probably the only reservation staff had about recommending the difference come out of the streetscape funds would be the appearance of setting a precedent because the next gift the City Council may not like as much as they do Mr. Cunningham's. In order not to give that appearance, an appropriation from the general fund would clearly show it's not a precedent.

Vice-Mayor Field said that Mr. Cunningham had been told, and rightly so, that there is going to be a celebration on November 11 for the chimes and he wanted to be able to have the clock celebration at the same time. It was therefore important that Council make a decision fairly soon so that they can order the clock and have it installed by that time. She noted that the bicentennial season doesn't close until January 27, 1998, so it is possible that there can be a very special celebration for this particular gift if the timeframe doesn't work out.

Mr. Combs said that there is a 90-day construction date that the clock company has to set aside for the building of the clock with a 30 day contingency. He said Public Works staff would construct the pedestal base and the conduit for the electricity and it would take a matter of hours to actually install it when it arrives. He felt that the clock could be ordered before August 15 or earlier to have the celebration on November 11.

Upon inquiry of Councilman Skalski, Mr. Combs said that there is roughly $200,000 in the streetscape fund and about $50,000 is totally unencumbered.

Vice-Mayor Field felt that what the Streetscape Committee is looking for is to find out whether or not the Council wishes to accept the gift and they will work forward from there.

It was the consensus of City Council to accept the generous gift of Mr. Cunningham.

Mr. Combs said that he would come back to Council at their next meeting with a recommendation for funding and the potential source.

Mr. Charles Cunningham said that some of the members of the Committee felt that a larger clock with a larger clock face would be the more logical type of clock to be installed at the corner of Spruce and College Streets. He urged Council to resolve where the additional appropriation of $4,500 needed would come from so the clock could be ordered by August 1. He said that on August 1, Quality Forward should have the money in hand and they can sign the contract for the larger clock. That will give them plenty of time to have the clock installed by November 11. He wanted all money in place by August 1 because he needed some time to get the money out of his foundation which is in the Community Foundation of WNC and they write checks on the 15th and the 1st. He also noted that the clock company requires a 50% down payment when the order for the clock is placed.

When Councilman Cloninger asked if Mr. Cunningham's donation could be used as the down payment for ordering the clock, Mr. Cunningham did not feel it would be safe until all the money was committed.

Councilman Cloninger moved that City Council accept the generous gift from Mr. Cunningham subject to meeting Mr. Cunningham's conditions subject to budgetary approval. This motion was seconded by Councilman Sellers.

Mr. Cunningham said that he and his wife would like the donation to be anonymous.

Ms. Leni Sitnick, Co-Chair of the Bicentennial Committee, said that she would be willing to ask the Bicentennial Committee if there would be a possibility of finding some sponsorship for the additional monies needed, or at least half of those monies. And, if for some reason the timeframe is delayed, there is a plan to celebrate the last day of the bicentennial, which was the first day that the city council sat 200 years ago on January 27, with the possible burying of a time capsule. And perhaps if the clock celebration doesn't occur on November 11, we could coordinate the time clock with the time capsule. She thought Council might want to dress in costume for that day, go down to the site, have the capsule buried and celebrate the standing of the clock.

Vice-Mayor Field thanked Ms. Sitnick for her generous offer to solicit sponsorships said that City Council will find a way to celebrate Mr. Cunningham's gift with as much grandeur as we do any other bicentennial celebration. She also suggested a special bicentennial Christmas gift might be another way to celebrate the clock.

City Manager Westbrook said that Mr. Combs will be meeting with the Streetscape Committee and as a result of that meeting he would bring back an appropriation and a recommendation for source at the next Council meeting.

C. CITY COUNCIL TRIATHLON TEAM

Councilman Hay proudly announced and congratulated the City Council Triathlon Team on winning its division in the RiverLink triathlon. Their outstanding and courageous athletic performance brought them in 9th out of 19 teams, with a very credible time.

36

D. COMMENTS BY MR. RALPH BISHOP RELATIVE TO THE MINUTES

Mr. Ralph Bishop, resident of the City of Asheville, questioned how the Supreme Court could circumvent State law (when it says you don't have to keep full and accurate minutes) without declaring State law invalid.

City Attorney Oast said that the North Carolina Supreme Court, which is the legal authority in this state, has approved the keeping of the minutes in the manner that Asheville keeps them, as specified by the highest and most widely recognized parliamentary authority which is Roberts Rules of Order. He would be happy to furnish Mr. Bishop of that opinion, this rule and or any case he wishes if he will come to his office.

Upon inquiry of Mr. Bishop, City Attorney Oast explained that the Supreme Court interprets State laws.

Vice-Mayor Field suggested Mr. Bishop meet with City Attorney Oast and perhaps Mr. Oast can address his concerns.

E. COMMENTS BY MR. BRIAN PETERSON RELATIVE TO THE UDO

Mr. Brian Peterson brought to Council's attention four possible errors in the labeling of the UDO maps.

Mr. Peterson was especially concerned about the zoning in the Brevard Road area not being changed to RS-8 as was his understanding after adoption of the UDO, and as outlined in a petition presented to City Council. After talking with the Planning staff, he said their view was that the list of roads was a recommendation to staff to look at those areas to see if some of those should be changed from RM-8 to RS-8 and was not directing them to change all of Brevard Road in that area from RM-8 to RS-8. He said that in the Planning & Zoning Commission meeting he set out very clearly that they wanted rezoned was both sides of Brevard Road, all the property along Brevard Road from the Laurelwood Condominiums to the Masonic Lodge, and then he listed the side streets coming off of that area. He was concerned that since those changes have not been made, they would need to go through the entire rezoning process which could take several months.

Planning & Development Director Julia Cogburn said that Planning staff is in the process of investigating the possible error concerning the Vance Crescent area, noting that this is the first time the other three possible errors have been brought to their attention. She said that if there is an error in the maps that was not included in the listing of the PIN Nos. that she read into the minutes on May 27, then to correct that would require going through the rezoning process, because the map that was the point of departure was the map that was advertised in the paper. She explained that all of the PIN Nos. that were read into the record at the May 27 meeting were the changes from that original advertised map and anything that wasn't taken care of through one of those two means would have to go through the formal rezoning process. So, if in fact Planning staff made an error, they will correct it as quickly as possible through that process with the explanation that this was something that in the description of the area and the translation of it through to staff, an error was made. Once again, she is in the process of checking on this possible error.

With respect to the other three areas Mr. Peterson mentioned, they would need to be re-checked as well and if the PIN Nos. were read into the record on May 27 and the map is in error - that can be taken care of without a rezoning. She would need to check Mr. Peterson's map (which is a computer representation of what Planning staff has on record right now) with the larger official UDO zoning maps. She said that she would check all of the final Council votes to make absolutely sure all of those changes were made.

Councilmen Hay and Sellers recollected that what City Council wanted to do was what the Brevard Road neighborhood group requested. Ms. Cogburn understood that as well. She felt it could have been an implementation problem or vague information from the neighborhood to staff.

Upon inquiry of Councilman Hay, Ms. Cogburn said that if an error was made it could go to the Planning & Zoning Commission at their August meeting and then it would come to City Council at the end of August.

Councilman Cloninger stated that as something as complicated and complex as the UDO was, there may have been made honest mistakes made and certainly if that is true the City will correct it as expeditiously as possible. He felt that City Council, City staff and the neighborhoods acted in good faith throughout the process.

F. CLAIMS

The following claims were received by the City of Asheville during the week of June 20-26, 1997: Jeffrey Dameron (Streets), Bill Carter (Water) and Deborah Morris (Police).

These claims have been referred to Asheville Claims Corporation for investigation.

G. CLOSED SESSION

At 7:08 p.m., Councilman Sellers moved to go into closed session for the following reasons: (1) to discuss matters relating to the location or expansion of industries of other businesses in the area served by the City Council - the statutory authority is G.S. sec. 143-318.11 (a) (4); (2) to establish in order to instruct the public body's negotiating agents or staff concerning the position to be taken by or on behalf of the public body negotiating the price and other material terms of a proposed contract for the acquisition of real property by purchase, option, exchange or lease - the statutory authority is G.S. sec. 143-318.11 (a) (5); and (3) to consult with an attorney employed by the City Council in order to preserve the attorney-client privilege between the attorney and the Council - the statutory authority is G.S. 143-318.11 (a) (2). This motion was seconded by Councilman Worley and carried unanimously.

At 8:25 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Field and carried unanimously.

H. COMPUTERS

There followed a brief discussion with City Manager Westbrook and the Council about getting laptop computers for Council members.

There was consensus that the City Manager should work with staff to obtain the computers. They may be available under the terms of the lease that the City has just negotiated.

VII. ADJOURNMENT:

Vice-Mayor Field adjourned the meeting at 8:40 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - July 15, 1997 - 3:00 p.m.

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Park Avenue Subdivision Speed Study

Summary: The City Traffic Engineer has performed the necessary traffic analyses associated with the following locations and is seeking authorization from the City Council to change these speed limits.

Add to 20 MPH

(1) Parkridge Court (entirety)
(2) Clubhouse Court (entirety)
(3) Creekside Court (entirety)
(4) Thistle Knoll Court (entirety)
(5) Briar Knoll Court (entirety)
(6) Gatehouse Court (entirety)

Add to 25 MPH

(1) Park Avenue (entirety)

These locations were reviewed over a period of time and the appropriate speed analyses were conducted.

1. Parkridge Court, Clubhouse Court, Creekside Court, Thistle Knoll Court, Briar Knoll Court and Gatehouse Court

A Speed Study was conducted along these streets in the Park Avenue Subdivision per the request of the citizens of this area. The existing speed limit is 27 MPH. The residential nature of these roadways as well as their widths indicate that the speed limit should be reduced to 20 MPH. The Asheville Police Department concurs with our recommendations.

2. Park Avenue

A Speed Study was conducted along Park Avenue per the request of the citizens of this area and the City of Asheville Police Department. The existing speed limit is 27 MPH. The Speed Study indicates that the 85th percentile speed is 33 MPH and the pace speed range is 21-35 MPH. The residential nature of this roadway and its width suggest that the speed limit be reduced to 25 MPH. The Asheville Police Department concurs with our recommendation.

The Public Works Department recommends the approval of these additions to the speed limit ordinances.

Civic Center Parking Garage Repairs

Summary: The consideration of the selection of a contractor to perform repairs on the Civic Center Parking Garage structure.

City staff prepared bid specifications and cost estimates for repairs and maintenance for the Civic Center Parking Garage. The scope of work was outlined as follows:

40

The proposal includes the items listed below:

- Repair concrete;
- Seal all cracks in concrete;
- Pressure clean and seal all deck surfaces;
- Install vertical and horizontal expansion joints;
- Clean and caulk joint between concrete floor and vertical barrier panels; and
- Repair concrete curbs.

* Bid specifications call for additional work described as painting of parking deck ceilings, surface coatings on columns and walls, and parking lot striping. (See bid results chart below.)

In April 1996, a total of 32 advertisement for bid letters were sent out, including 13 to certified minority businesses registered with the City. Advertisement letters were also sent to the City's Minority Business Office, the Asheville Business Development Center, and other similar business resource organizations. Six bid proposals were received, none from certified minority businesses. The results are listed below:

FIRM NAME	**BASE BID**
Chamberlain Co. Inc.	$ 164,434.00
Salem Contracting & Waterproofing	146,003.00
Construction Adhesives Bonding Inc.	219,358.75
Sigma Construction Co. Inc.	186,971.21
Carolina Preservation & Restoration Co. Inc.	142,317.00
* G.E.M. Constructors Inc.	1,033,161.00

After review of these bid proposals with the Finance Department, who has daily operational management authority for the City's parking structures, it was determined that Carolina Preservation & Restoration Co., Inc., of Asheville, the only bidder with a current City privilege license, would be selected as the lowest responsible bidder. It was then determined that City Staff would seek Council approval to enter into a contract to perform work listed in its proposal for $142,857.00.

Shortly thereafter, City staff determined that other funding options could be available for the parking deck repairs and put the contract processes on hold until March 17, 1997, at which time CPRC was recontacted. CPRC then submitted a revised base bid of $143, 671 for Items 1 - 31 listed in Exhibit B of the contract.

On May 8, 1997, it was determined by the City Attorney's office, who had consulted with the North Carolina Institute of Government, that the bids from 1996 for restoration and repairs to the Civic Center Parking Garage were now "stale" as they were not guaranteed for one year or more, and that North Carolina law required that the City rebid the project.

The project was immediately readvertised for bids. A total of 39 advertisement for bid letters were sent out, including 13 to certified minority businesses registered with the City. Advertisement letters were also sent to the City's Minority Business Office, the Asheville Business Development Center, and other similar business resource organizations. Five bid proposals were received, none from certified minority businesses. The results are listed below:

FIRM NAME	BASE BID
Volunteer Floor Company Inc.	$ 129,727.17
Carolina Preservation & Restoration Co. Inc.	150,013.85
Chamberlain Co. Inc.	167,745.40
Salem Contracting & Waterproofing Inc.	199,113.00
Construction Adhesives Bonding Inc.	260,340.00

Staff recommends Council approval of the lowest responsible bidder, Volunteer Floor Company Inc. of Knoxville, Tennessee, and requests Council direct the City Manager to enter into a contract for $129,727.17 for repair of the Civic Center Parking Garage.

Senior Games Grant

Summary: The consideration of applying for a grant, in the amount of $500, to assist local programs to serve more participants and obtain more visibility for the local Senior Games Program.

Funds are available through the North Carolina Senior Games to provide a year-round health promotion and education program for adults age 55 and older. The City of Asheville wishes to apply for funding to develop a rack card and a speaker's bureau for the Asheville-Buncombe Senior Games.

The Asheville-Buncombe Senior Games are designed to provide athletic and cultural arts activities for adults ages 55 and older. In 1997, 822 people participated in the program. The program included 55 athletic events and 33 artistic events in the categories of Literary, Visual, Heritage, and Performing Arts. Grant funds will be used to implement a rack card and speaker's bureau to promote the Asheville-Buncombe Senior Games. The amount of the grant request is $500.

The Parks and Recreation Department recommends approval of the application for grants funds through the North Carolina Senior Games.

Amboy Road Greenway Grant

Summary: Funds are available through the State of North Carolina, Department of Environment, Health and Natural Resources in the National Recreational Trails Fund Program (NRTFP) from the Federal Highway Administration to provide trails for public use in North Carolina.

The Amboy Road Greenway represents the City of Asheville's next phase of a major greenway system being developed along the French Broad and Swannanoa Rivers. Phase I was completed in 1994 with the completion of French Broad River Park. Phase II was completed in 1996 with the completion of the second half mile loop of trail in the park. French Broad River Park was funded through a partnership between the City, RiverLink, and CP&L.

Phase III, Amboy Road Park, is in the early stage of development and will provide a river front park featuring a boat launch, fishing areas, and support areas for the growing activities in the region. The City of Asheville has been awarded a grant for $20,000 from the North Carolina Fish and Wildlife Resources Commission to assist in the design of the park and has committed another $100,000 for the construction.

42

RiverLink has received a grant for $30,000 through the Pigeon River Fund to build boardwalks over the wetlands of the greenway.

Phase IV, Amboy Road Greenway, is part of the overall plan to complete another section of greenway on the French Broad and Swannanoa Rivers. The cost of the project is approximately $65,000. The Parks and Recreation Department is requesting $30,000 in grant funds which would be matched by 50% of the cost by our crew's labor, equipment, and project supervision.

The Parks and Recreation Department recommends the City Manager to apply for and enter into this agreement.

Accept Recommendations of Regional Water Authority to Award Contract for East Asheville/East Buncombe Pipeline Replacement Program

Summary: The consideration of adopting a resolution awarding the contract to the lowest responsible bidder, Cooper Construction Company Inc. for $694,797.00.

The Engineering Department has developed construction plans for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project. The engineer's estimate for this project is in the amount $804,541.00.

The project was advertised for one month. On Tuesday, May 27, 1997, the Engineering Department received 4 bids for the project. The construction time for this project is identified as 150 calendar days in the contract documents. Funds in the amount of $788,000.00 are budgeted in the Regional Water Authority's Capital Projects Ordinance No. 92-17 (29 Fund).

This project was presented before the Regional Water Authority of Asheville, Buncombe and Henderson on June 24, 1997, at which time they recommended awarding the bid.

Staff recommendations that City Council accept a resolution awarding the bid for Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project - Contract E-422 to the responsible low bidder, Cooper Construction Company Inc. and authorize the City Manager to execute all necessary agreements and contracts.

Accept Recommendations of Regional Water Authority to amend Capital Project Ordinance to Appropriate Funds for the Woodside Hills Project

Summary: The consideration of a budget amendment amending Capital Project Ordinance 82-25 to provide funding in West Area Annexation for Woodside Hills in the amount of $240,000.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by investment earnings, contributions from other funds and appropriated fund balance.

According to the Water Agreement, the Authority is required to fund annexation water improvements. Woodside Hills Subdivision is located off Asbury Road in the recently annexed West Area. The Authority appropriated approximately $850,000 for water system improvements for this area in accordance with the 1988 Plan of Service prepared by Black and Veatch. Subsequent construction contracts and engineering services for these water system improvements totaled approximately $624,000. This resulted in a surplus of approximately $226,000, which has subsequently been transferred to other capital projects.

A part of Black and Veatch's plan of service included the installation of fire hydrants at key locations in Woodside Hills. During the construction contract, existing 2-inch waterlines were discovered at these locations. These 2-inch waterlines will not support a fire hydrant and additional 6-inch waterlines must now be installed to improve fire protection at an estimated cost of $240,000. Approval of this budget amendment will provide the funding required for this additional construction contract and the engineering services associated with it.

Regional Water Authority approved the Woodside Hills Project on June 24, 1997.

Approve amending and restating Capital Project Ordinance 82-25 in order to provide funding in West Area Annexation for Woodside Hills.

At the request of Councilman Skalski, City Manager Westbrook said that he would provide him with a report on the debt of the Water Fund.

Mental Health Managed Care for City Employees

Summary: The consideration to extend an agreement approved in February 1996 to provide mental health managed care to the employee benefits program.

Last year the City decided to put together a HMO look-alike feature for mental health, drug, and alcohol treatment under its employee benefit program. No such programs were commercially available in the community at that time, and a program was put together for the City by Provider's Care Network (PCN (of Asheville) to meet this need.

The success of the program, and the dollar savings to the benefit plan have been exceptional. The proposed agreement will continue that service for two more years.

The cost for this agreement is estimated at $15,450 and sufficient funds are currently budgeted in the 46 fund for fringe benefit costs.

Staff recommends approval of the resolution authorizing the City Manager to execute the proposed agreement with PCN.

Driveway Access Improvements at Airport

Summary: The Asheville Airport is situated on land owned by the City of Asheville and leased to the Airport Authority pursuant to a Lease Agreement dated July 1, 1980. The Authority is undertaking improvements to the driveway and access road at the airport consisting of lengthening the outbound driveway, relocating its intersection with State Road 280 approximately a quarter mile southwest to the signalized intersection with Fanning Bridge Road, and creating a circular drive with in the airport compound. The present location of the exit is on a curve on a high speed fourlane road and left turns are difficult to negotiate. Requests to the NCDOT to signalize the current exit location have been denied, but the State has indicated that it will make appropriate changes to the Fanning Bridge Road signal if the exit is relocated.

Because the intersection will be on State Road 280, the State requires as part of the access permit application that an agreement be entered into whereby construction will be carried out in a certain manner, and the completed driveway will comply and be maintained in accordance with certain standards. The agreement also holds the DOT harmless from damages arising by reason of the construction.

The Lease Agreement provides that the Airport Authority may make capital improvements "for aeronautical purposes and purposes incidental thereto... provided that authority first obtain written approval thereafter by the City."

The Agreement establishing the Airport Authority provides that the Authority may enter into contracts providing for improvements at the Airport, so it appears that the Authority may enter into the Agreement with the DOT. The DOT apparently requires that the property owner also execute the Agreement.

This resolution accomplishes two things: (1) gives the City's written approval to the proposed access improvements as required by the Lease; and (2) authorizes the City Manager to execute the Agreement with DOT.

To the extent that the DOT agreement shifts to or creates any legal responsibility for the City as the owner or the Authority as the lessee/applicant, this responsibility would be the Airport Authority's, as the Lease provides specifically that the Authority is responsible for management, operation, regulation and maintenance of the Airport. I have suggested that the Agreement be modified to indicate that the Authority is the lessee and that the City is the lessor of the property.

Approval of the resolution is recommended.

Agreement with NC DOT re: Sweeten Creek/I-40 Sidewalks and Budget Amendment

Summary: On September, 10, 1996 City Council authorized the City Manger to send a letter to the NC DOT outlining the City's agreement to participate in sidewalks on I-40/Sweeten Creek Roadway Interchange. The NC DOT's preliminary estimate was $37,000 for the sidewalk. The City's portion of the original cost of the sidewalk was 40% or $14,800. The final estimate for the construction of the sidewalk is $38,900, based upon a final design prepared by NC DOT, with the City's portion being $15,560.

The sidewalk would extend from Roberts Road to approximately 200 feet north of I-40. This includes 1,290 square yards of sidewalks. Construction is scheduled to begin fall of 1997.

Staff recommends that City Council authorize the City Manager to sign the Municipal Agreement for improvements at the interchange of Sweeten Creek and I-40. Staff also recommends that City Council appropriate $15,560 for the City's portion of the sidewalk improvements at the same intersection.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRESENTATION OF DIRECTORY COVER COMMEMORATING ASHEVILLE'S BICENTENNIAL

Mr. Chuck Reiley, Mr. Mike Erich, and Ms. Sharon Post, BellSouth representatives of BellSouth, presented City Council with a framed 1997 Directory cover commemorating Asheville's bicentennial.

LAND PURCHASE ON BROADVIEW DRIVE

Mr. Sherman Fearing, Housing Development Analyst, said that the City needs to appropriate funds to purchase vacant property on Broadview Drive for the development of single-family, owner-occupied homes.

On February 14, 1997, the City of Asheville closed on the sale of 17.282 acres of vacant land adjacent to the Meadows Apartments. The City had planned to develop this tract into a subdivision of single-family, owner-occupied affordable housing units. Since there were access problems, the City decided to sell and look elsewhere for an alternate site. The proceeds of $200,000 will be used to purchase 12.23 acres of unimproved land on Broadview Drive in Oakley.

In May 1997, the City executed an Offer to Purchase and Contract, subject to Council's approval, for the Broadview Drive property. The total price of the contract was $190,000. The property has been appraised at $183,500 and the sellers have agreed to sell at this price. The City proposes to develop the Broadview Drive site into a subdivision of single-family, owner-occupied affordable housing units. This property is zoned RS-8 under the UDO. The above $200,000 will be used for the Broadview Drive property as follows:

a.	Capital Outlay Land Acquisition (to cover property purchase and closing costs)	$188,000
b.	Professional Services	$ 12,000

Community Development staff recommends adoption of the Ordinance.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LEASE OF GROVE ARCADE BUILDING

City Attorney Bob Oast said that he is requesting consideration of a resolution authorizing the disposition by lease of the Grove Arcade Building to the Grove Arcade Public Market Foundation ("GAPMF"), and of a budget ordinance amendment appropriating money toward the rehabilitation of the structure.

The Grove Arcade Building was constructed at the beginning of this century as a shopping arcade and was actually used as one until taken over by the Federal Government during World War II. The Federal Government used it as an office building for about 50 years, and the building has been vacant since 1995.

Since the building became vacant, the City and other organizations and entities in the City have been exploring ways to preserve, restore and reuse the Building. For at least the last year, the City has been working with Public Interest Projects and the GAPMF, and most recently with GAPMF only, to rehabilitate and use the Arcade as a public market, with a mixture of commercial/office/residential uses on the upper floors.

The first step in this process was for the City to acquire the building. Initially, the City explored the possibility of an outright conveyance to an entity that would operate the Arcade, but this was not legally possible without paying the government for the property. Under the National Monument Act, the City was able to acquire the Arcade essentially at no cost, but had to agree to rehabilitate the structure and to use it in accordance with certain laws and regulations. The City and GAPMF have been working with the General Services Administration to make sure that the proposed use meets all legal requirements.

Since January, the City and GAPMF have been working on the terms of a Lease Agreement and a Preservation and Operation Agreement by which GAPMF would lease the building from the City, and would assume responsibility for all operational aspects of it, and for compliance with federal laws and regulations. The City and GAPMF have agreed on the substantive terms of these instruments.

In order to give effect to the Agreement between the City and GAPMF, Council needs to adopt an authorizing resolution. The law provides that leases for longer than 10 years shall be treated as sales of real property, and further provides that historically or architecturally significant properties may be disposed of to nonprofit corporations by private negotiation and sale. Accordingly the resolution authorizes the disposition of the Arcade to GAPMF, and outlines the general terms of the proposed transaction. A notice of this resolution must be published at least 10 days prior to the date of the transaction. The law further requires that Council adopt a resolution authorizing a lease, and requires for 10 days advance notice of Council's intent to adopt the resolution.

Accordingly, a resolution is attached that authorizes the disposition of the Arcade, which because of the length of the lease term is required to be treated as a sale, and directs the Clerk to publish a notice of (1) the intended disposition, and (2) of Council's intent to give specific authorization for the lease at a regular meeting.

Part of the agreement with GAPMF is that Council will follow up on its commitment in an earlier resolution to appropriate $100,000.00 toward the improvements to the Arcade. An ordinance amending the budget in accordance with the previous resolution is also necessary.

If Council intends to authorize and proceed with the proposed transaction with GAPMF, adoption of the resolution and budget ordinance amendment is recommended.

City Attorney Oast responded to questions from Council as they related to taxes, improvements to streets and sidewalks around the Grove Arcade, the working relationship between the City and the GAPMF, and most of all, parking.

Upon inquiry of Vice-Mayor Field, City Manager Westbrook said that the City has been negotiating exclusively with the GAPMF.

City Manager Westbrook said that in the near future there will be a joint meeting with City Council and the GAPMF to officially authorize the signing of the lease.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ECONOMIC DEVELOPMENT REQUEST

Mr. John Scaralia, City Business & Development Manager, said that City Council set a public hearing to consider the City's participation in site development improvements requested by J.L. de Ball-Girmes of America, Inc.

J.L. de Ball-Girmes of America, Inc. is looking to locate a supplementary production unit at its existing site on Old Charlotte Highway. Plans call for renovation of 45,000 sq. ft. of the existing 178,000 sq. ft. building in order to begin manufacturing. The company is looking to significantly expand within two years, and plans to accommodate 12 -16 employees by July 1, 1998; up to 50 by January 1, 2000. Wages will average $9 -12.00 per hour.

The firm plans to invest a total of $7 million within two years in the renovation and equipment upgrades for this operation; and $2 million by July 1, 1998. Included will be repairs and upgrades to the roof, HVAC capacity, and plumbing and electrical improvements, as well as major machinery and equipment purchases. Staff has prepared an agreement outlining the terms and conditions of the City's participation.

The agreement consists of the City entering into a contract whereby the City would contribute $51,300 provided the terms of the contract are complied with by J.L. de Ball-Girmes of America Inc. The conditions include: the requirement of the corporation creating a minimum of 12 new jobs by July 1, 1998, with wages at $9-12 per hour; investment of $2,000,000 by July 1, 1998; and expansion to accommodate 50 employees. The guarantee for the City is through a Letter of Credit. The payback period for the City based on this financial assistance will be 4.5 years.

Staff recommends setting a public hearing to consider the City's participation in site development improvements requested by J.L. de Ball-Girmes of America, Inc.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BOOST REPORT

Mr. Irby Brinson, Parks & Recreation Director, said that during the budget work session in May, 1997, with City Council, Council gave approval to continue the study regarding the Parks and Recreation proposal relating to the BOOST Transportation System. Over the past month, staff has met on several occasions with representatives from Buncombe County and the State of North Carolina to investigate this proposal. In the meantime, the Asheville Transit Authority has renewed the Paratransit contract with Laidlaw Transit Service through June 30, 1998. During a meeting with the Transportation Project Consultant through the Division of Public Transportation for the Department of Transportation, discussion centered around a possible study of the entire transportation system throughout the City and the County. This study would include a review the proposal presented by Parks and Recreation as well as a review of the current system being used County-wide. Ninety percent of the funding for this project would be paid for by the State of North Carolina with the remainder being paid by the City and the County. It is anticipated that the City's cost associated with this study would be between $3,000 - $5,000.

The Parks and Recreation Department recommends working with the State of North Carolina and Buncombe County to solicit a consultant to study the transportation system within the City and the County. Staff also recommends City Council consider a budget amendment, in the amount of $5,000, for the City's cost associated with this study.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

STEPHENS-LEE FINANCING

Mr. Irby Brinson, Parks & Recreation Director, said that based upon Council's directive at the July 8, 1997, City Council meeting to expedite the renovation project for the Stephens-Lee Community Center, staff recommends the following steps in order to expedite the letting of contracts for the renovation of the Stephens-Lee Community Center. Current cash is available from the City Hall roof and Municipal Building renovation projects to adequately fund the anticipated contract costs for Stephens-Lee renovations. This contract could be let as early as August and construction could begin as early as September 15. This will allow for this project to begin prior to the other three major projects that are currently anticipated. The certificates of participation will be sold to fund the Municipal Building renovation, the City Hall roof, and the Old Water Maintenance Building. According to the Finance Director, these three projects would make a competitive package for the sale of COP's.

The Parks and Recreation Department recommends City Council approval of a budget amendment to reappropriate a total of $1.4 million from the City Hall roof repairs and the Municipal Building renovations into the Stephens-Lee renovation project.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FIRE STATION 4/POLICE RESOURCE CENTER IN SKYLAND

Fire Chief John Rukavina said that in January, 1995, the City entered into an agreement with Skyland Fire Department, Inc. for a 99-year lease of property for construction of a new fire station. Subsequent to that agreement, the City retained Barney Woodard, AIA, to design, specify and solicit bids for "Asheville Fire Station 4" (and, later, for additional space for an Asheville Police Department Resource Center). Based on Woodard's estimates at the time, approximately $430,000 was budgeted for this facility, with a potential addition of up to $100,000 for the Police Resource Center.

On June 5, 1997, the bids solicited by Woodard were opened and tabulated. The low bid (not including a construction contingency or professional fees) was $784,000. There are insufficient capital improvement funds available to make up the difference between the amount budgeted and available funds.

Staff would like to negotiate with the architect to redesign the station (with expansion opportunities in the future) to one bay (not two); living quarter space for one company; and minor revisions to the space of the Police Resource Center.

Staff recommends (1) that City Council reject bids for Fire Station 4/Police Community Center due to their being significantly over the architect's estimate and budgeted funds; and (2) that City Council direct the City Manager to cause to be prepared an agreement with Barney Woodard to redesign Fire Station 4/Police Community Center on a reduced scale, and in a manner that would allow for future expansion as needed.

Vice-Mayor Field suggested going out for bids again since the bidding environment may have changed. She was concerned about cutting the station down to two bays given the growth in South Asheville. She also suggested a cheaper alternative than a full metal building.

Upon inquiry of Vice-Mayor Field, City Manager Westbrook said that the price per square foot was $82.00. He felt the budget was the problem, not the bidding process. He explained that $430,000 was budgeted for just the Fire Station 4, then $100,000 was added to include the Police Resource Center. That, in addition to the original figure from the architect being 3-4 years old, has the project under-budgeted by approximately $350,000.

Upon inquiry of Councilman Cloninger, City Attorney Oast said that it was his opinion that the law provides that you can negotiate with the lowest bidder in this particular instance.

Fire Chief Rukavina responded to questions from Council regarding how long one bay would serve the existing community.

Mayor Martin asked that the record show that City Council has received this information, instructed the Fire Chief to negotiate with the contractor for a lower bid, and instructed the City Manager to place this item on the next formal City Council agenda.

TELEVISING CITY COUNCIL MEETINGS

Mr. Robin Westbrook, Community & Public Information Coordinator, asked for Council's consideration of the taping formal City Council meetings to be broadcast on InterMedia Cable channel 10 every other Saturday.

The Asheville City Council asked staff to explore the possibility of televising formal City Council meetings. After discussions held with Hometown TV, Asheville City Schools, and Buncombe County, it was determined that taping the formal City Council meetings every other week to be aired on Saturday would best meet the needs of all interested parties.

Effective Client Promotional Services (ECPS) submitted a bid to tape the meetings every other week for a fee of $600 per meeting. They will provide three employees (2 cameramen and 1 engineer), equipment, and lighting for an average annual cost which should not exceed $15,600. She explained why the Asheville City Schools indicated that they could not provide the same service for the cost. This also eliminates the concern about finding someone to tape during the summer months.

Asheville City Schools has given the City and Buncombe County the use of channel 10 on Saturday mornings at 8:00 a.m. Asheville City Council meetings will be aired one week and Buncombe County Commission meetings will be aired the next week.

The taping of the City Council meetings can begin on a trial basis on August 12, 1997. This session will be used to adjust lighting and test equipment. The first taping to air will take place on August 26, 1997. This session will air on Saturday, August 30.

If City Council wishes to broadcast formal meetings, it is the recommendation of staff the City Council adopt a resolution authorizing the City Manager to contract with ECPS in the amount not to exceed $15,600 for one year to tape formal City Council meetings beginning on August 12, 1997. Therefore, a budget amendment in the amount of $15,000 is necessary.

She said that Buncombe County paid $65,000 upfront for the video equipment and accessories and they are paying $340 per meeting for the taping.

Councilman Cloninger supported televising the Council meetings, however, he suggested starting with the taping with the new Council in December. He felt that some people might think this is an attempt on City Council's part to get publicity unfairly during the election campaign, where other candidates would not have that opportunity.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

DOWNTOWN STREET CLOCK

Ms. Suzanne Molloy, Assistant Public Works Director, said that Mr. Charles Cunningham desires to donate $6,000 toward the purchase of a street clock for the City.

Per instructions from City Council at its July 8, 1997, meeting, a subcommittee of the Streetscape Committee met for the purpose of determining the following:

- The best clock design that will complement the overall streetscape design for downtown;
- The optimal location for such a clock; and
- A definitive cost for equipment and installation.

Based upon these goals, the subcommittee recommends a design consistent with downtown architecture and amenities to be located in the grassy island at the intersection of College, Patton and Spruce Street (across from Max's Deli). The estimated cost of the "Georgetown" clock is $10,500 and installation is estimated at $500. Public Works staff intends to construct the pedestal base and coordinate electrical service to the unit. It will subsequently be maintained by public works.

Since the construction time for the clock is 90 days, and it is the donor's desire to dedicate the clock in conjunction with a planned Bicentennial ceremony, it will be necessary to place an order not later than August 1, 1997, to meet this request.

Staff recommends that City Council appropriate $5,000 for the remaining balance necessary to purchase the clock. Mr. Cunningham's donation will be utilized as the down payment (company must have 50%) to place the order. Community groups will make every effort to acquire private funding for the remaining balance over and above the gift amount.

Ms. Leni Sitnick, Co-Chair of the Bicentennial Committee, said that it has just been confirmed by the Sponsorship Committee for the Bicentennial that they will be able to up with at least half of the difference between Mr. Cunningham's contribution and the additional monies needed through pledges to the bicentennial for beautification.

Vice-Mayor Field said that she thought Quality Forward will also be looking for some matching funds.

Ms. Sitnick then passed out a leaflet containing official bicentennial activities. She also informed City Council of another bicentennial project in the making - one in which the public is being asked to write an anthem for Asheville.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MSD ADDITIONS TO WEST ASHEVILLE ANNEXATION SANITARY SEWER IMPROVEMENTS AREA - PHASE I

Ms. Cathy Ball, City Engineer, said that there are seven hundred and eighty-one (781) linear feet of existing 8" sewer line adjacent to this project location that belongs to MSD. Due to the condition of the existing sewer line, MSD would like the City to add this section for replacement to the existing contract with Buckeye Construction Company for West Area Annexation Sewer Improvements - Phase I. This additional work is estimated at $46,453.

City staff requested that MSD provide a check in the amount of $46,453 to us for the cost of this construction. A letter from MSD indicates that they would like for us to proceed with adding this work to our existing contract with Buckeye Construction Company but cannot provide the money until it is approved by the MSD Board. The MSD Board will meet on July 16, 1997, and MSD staff is recommending approval. In the event that the funds are not approved by MSD, City staff will withdraw the recommendation to increase this contract to City Council at the July 22, 1997, Council meeting.

The additional work by Buckeye Construction Company will not be performed until the work in the original contract is completed. Therefore, the additional work requested by MSD will not delay the completion of the original scope of the project.

Staff recommends that City Council authorize the City Manager to increase the total contract price for the West Area Annexation Sewer Improvements - Phase I project by $46,453, which will be reimbursed by MSD.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MSD BILLING COSTS

Assistant City Manager Doug Spell said that for the past year, City staff has been working with representatives of other municipalities and MSD regarding the current per bill amount paid by MSD to local governments for billing and collection of sanitary sewer accounts in their jurisdiction. During this time, he has served on a subcommittee which also included Mike Morgan, Town Manager of the Town of Weaverville and Larry Turner, Deputy Manager for Operations with MSD.

The initial task which we undertook was to survey area municipalities which perform billing services for MSD. He reviewed a copy of the "Direct Billing Cost Summary" which shows the estimated cost per bill ranging from $1.55 to $3.53 for the cities of Montreat, Black Mountain, Weaverville and Asheville. He pointed out that much of the diversity in the range of direct billing costs is based upon the size and complexity of functions performed by the organization, as well as the number of customers served.

For background, the billing charge paid by MSD has remained at an amount of $1.30 per bill since 1990. The concern of local governments performing the billing costs for MSD is our awareness of the increased costs which our municipalities have faced as a result of various increases such as salaries, material costs, operation and maintenance, and postage. In trying to address what a reasonable rate increase would be, staff considered two options. One option would be to hire a consultant to conduct a formal study in order to determine the rates based on specific data. However, the smaller municipalities do not feel that the cost participation in a study on a pro rata basis is beneficial. A second approach which seems reasonable is to base the increased costs on the Consumer Price Index (CPI). Since 1990, the CPI has ranged from 2.5 percent to 3.3 percent each of those years. Based upon this information, the current billing costs would be $1.54 per bill projected from 1990.

In discussing the increase, the information based on the CPI is very close to the lowest billing cost for any of the municipalities participating in the survey. Therefore, staff feels that it is reasonable to request that the increase be in the amount of $0.25 per bill taking the total to $1.55 per bill.

Staff recommends the adoption of a resolution requesting the MSD Board increase the per bill cost by $0.25 based upon survey data from municipalities and the Consumer Price Index for a total amount of $1.55 per bill to assist in the recovery of actual costs.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

AGREEMENT WITH BUNCOMBE COUNTY - FACILITY MAINTENANCE

Assistant City Manager Doug Spell said that over the past several months, City staff has met and coordinated with staff from Buncombe County discussing the area of facility maintenance. This is an area where there is the ability for mutual benefits due to the different staffing and services provided by each respective governmental agency. Buncombe County has a facility maintenance staff that consists of individuals that are licensed and perform construction and maintenance functions in the areas of electrical, plumbing and mechanical systems. In turn, the City of Asheville has necessary equipment to apply sand and salt and perform snow removal and also has other specialized pieces of equipment in our fleet inventory. During the discussions between County staff and City staff it was agreed that this was an area in which cooperation would be mutually beneficial.

The areas which the City would assist the County in pertain to the spreading of sand and salt in the parking lot travel aisles serving the Health Department, Emergency Services access alley, area on east side of Court House, area on north side of County Jail, and Social Services. Snow removal would consist of City staff assisting County staff in the clearing of walk areas around the Health Department and Court House. The other area which the City would be able to provide assistance to the County would be regarding access to various equipment which the City has in our fleet inventory, such as a backhoe or bucket truck based upon availability of equipment and equipment operator. In turn, the County would assist the City in efforts related to evaluation, repair or replacement of various systems serving City facilities with the City paying for all material and equipment costs associated with such projects.

An "Interlocal Agreement and Memorandum of Understanding" was prepared in order to undertake the cooperative efforts in the area of facility maintenance. This agreement was executed on April 21, 1997 for a "pilot project" which would allow the City and the County an initial review of these efforts through June 30, 1997. Following this, on June 17, 1997 City staff met with County Manager Wanda Greene and discussed this initial review. It was agreed that both parties liked the arrangement and it was decided that this area of mutual cooperation should continue. City staff requests City Council endorsement of a "Interlocal Agreement and Memorandum of Understanding" in the area of cooperation for facility maintenance and authorization for the City Manager to execute the Memorandum dated July 22, 1997, extending the agreement for one year until June 30, 1998, with automatic renewal for one year periods for subsequent years subject to termination by written notification of either jurisdiction.

City staff recommends adoption of the resolution authorizing the City Manager to execute a Memorandum extending the Interlocal Agreement and Memorandum of Understanding through June 30, 1998 with automatic renewals for one year for subsequent years.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 4:25 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - July 22, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: City Clerk Magdalen Burleson

INVOCATION

Mayor Martin gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF JOHN J. GUNTHER BLUE RIBBON BEST PRACTICES IN COMMUNITY DEVELOPMENT AWARD

City Manager Westbrook presented Community Development Director Marvin Vierra with the first John J. Gunther Blue Ribbon Best Practices in Community Development Award. This award is a testament to what communities can accomplish when they work in partnership with government, private organizations, local agencies - and most important - with citizens.

B. RESOLUTION NO. 97-110 - RESOLUTION OF APPRECIATION TO HERVE H. CABLE, PUMPS & RESERVOIRS SUPERVISOR

City Manager Westbrook read the resolution stating that Herve Cable has been employed by the City of Asheville for 23 years and has requested retirement from his position as Pumps & Reservoirs Supervisor in the Water Production Division of the Water Resources Department. Mayor Martin expressed City Council's appreciation to Herve for his service to the City of Asheville and its citizens.

Councilman Worley moved for the adoption of Resolution No. 97-110. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 131

II. CONSENT:

At the request of Councilman Skalski, Item D. was removed from the Resolutions & Motions Consent Agenda to be discussed individually.

At the request of Mr. Ralph Bishop, Item A. was removed from the Resolutions & Motions Consent Agenda to be discussed individually.

RESOLUTIONS & MOTIONS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 8, 1997, AND THE WORKSESSION HELD ON JULY 15, 1997

This item was removed from the Consent Agenda to be discussed individually.

B. RESOLUTION NO. 97-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH PCN FOR MENTAL HEALTH MANAGED CARE UNDER THE CITY'S EMPLOYEE HEALTH BENEFIT PLAN

Summary: The consideration to extend an agreement approved in February 1996 to provide mental health managed care to the employee benefits program.

Last year the City decided to put together a HMO look-alike feature for mental health, drug, and alcohol treatment under its employee benefit program. No such programs were commercially available in the community at that time, and a program was put together for the City by Provider's Care Network (PCN (of Asheville) to meet this need.

The success of the program, and the dollar savings to the benefit plan have been exceptional. The proposed agreement will continue that service for two more years.

The cost for this agreement is estimated at $15,450 and sufficient funds are currently budgeted in the 46 fund for fringe benefit costs.

Staff recommends approval of the resolution authorizing the City Manager to execute the proposed agreement with PCN.

RESOLUTION BOOK NO. 24 - PAGE 132

C. RESOLUTION NO. 97-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH VOLUNTEER FLOOR COMPANY INC. TO REPAIR THE CIVIC CENTER PARKING GARAGE STRUCTURE

Summary: The consideration of the selection of a contractor to perform repairs on the Civic Center Parking Garage structure.

City staff prepared bid specifications and cost estimates for repairs and maintenance for the Civic Center Parking Garage. The scope of work was outlined as follows:

The proposal includes the items listed below:

- Repair concrete;
- Seal all cracks in concrete;
- Pressure clean and seal all deck surfaces;
- Install vertical and horizontal expansion joints;
- Clean and caulk joint between concrete floor and vertical barrier panels; and
- Repair concrete curbs.

* Bid specifications call for additional work described as painting of parking deck ceilings, surface coatings on columns and walls, and parking lot striping. (See bid results chart below.)

In April 1996, a total of 32 advertisement for bid letters were sent out, including 13 to certified minority businesses registered with the City. Advertisement letters were also sent to the City's Minority Business Office, the Asheville Business Development Center, and other similar business resource organizations. Six bid proposals were received, none from certified minority businesses. The results are listed below:

Firm Name	Base Bid
Chamberlain Co. Inc.	$ 164,434.00
Salem Contracting & Waterproofing	146,003.00
Construction Adhesives Bonding Inc.	219,358.75
Sigma Construction Co. Inc.	186,971.21
Carolina Preservation & Restoration Co. Inc.	142,317.00
* G.E.M. Constructors Inc.	1,033,161.00

After review of these bid proposals with the Finance Department, who has daily operational management authority for the City's parking structures, it was determined that Carolina Preservation & Restoration Co., Inc., of Asheville, the only bidder with a current City privilege license, would be selected as the lowest responsible bidder. It was then determined that City Staff would seek Council approval to enter into a contract to perform work listed in its proposal for $142,857.00.

Shortly thereafter, City staff determined that other funding options could be available for the parking deck repairs and put the contract processes on hold until March 17, 1997.

The project was immediately readvertised for bids. A total of 39 advertisement for bid letters were sent out, including 13 to certified minority businesses registered with the City. Advertisement letters were also sent to the City's Minority Business Office, the Asheville Business Development Center, and other similar business resource organizations. Five bid proposals were received, none from certified minority businesses. The results are listed below:

FIRM NAME	BASE BID
Volunteer Floor Company Inc.	$ 129,727.17
Carolina Preservation & Restoration Co. Inc.	150,013.85
Chamberlain Co. Inc.	167,745.40
Salem Contracting & Waterproofing Inc.	199,113.00
Construction Adhesives Bonding Inc.	260,340.00

Staff recommends Council approval of the lowest responsible bidder, Volunteer Floor Company Inc. of Knoxville, Tennessee, and requests Council direct the City Manager to enter into a contract for $129,727.17 for repair of the Civic Center Parking Garage.

RESOLUTION BOOK NO. 24 - PAGE 133

D. RESOLUTION AUTHORIZING THE METROPOLITAN SEWERAGE DISTRICT TO INCREASE THE BILLING COSTS PAID TO MUNICIPALITIES FOR SANITARY SEWER CUSTOMERS TO ASSIST IN RECOVERY OF ACTUAL COSTS

This item was removed from the Consent Agenda to be discussed individually.

E. RESOLUTION NO. 97-113 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD THE BID FOR CONSTRUCTION OF PIPELINE REPLACEMENT PROGRAM PHASE II - CONTRACT B, EAST ASHEVILLE/EAST BUNCOMBE WATER LINE PROJECT TO COOPER CONSTRUCTION CO. INC.

Summary: The consideration of adopting a resolution awarding the contract to the lowest responsible bidder, Cooper Construction Company Inc. for $694,797.00.

The Engineering Department has developed construction plans for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project. The engineer's estimate for this project is in the amount $804,541.00.

The project was advertised for one month. On Tuesday, May 27, 1997, the Engineering Department received 4 bids for the project. The construction time for this project is identified as 150 calendar days in the contract documents. Funds in the amount of $788,000.00 are budgeted in the Regional Water Authority's Capital Projects Ordinance No. 92-17 (29 Fund).

This project was presented before the Regional Water Authority of Asheville, Buncombe and Henderson on June 24, 1997, at which time they recommended awarding the bid.

Staff recommendations that City Council accept a resolution awarding the bid for Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project - Contract E-422 to the responsible low bidder, Cooper Construction Company Inc. and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 24 - PAGE 134

F. RESOLUTION NO. 97-114 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. STATE GAMES FOR A GRANT TO DEVELOP AND IMPLEMENT PROMOTIONAL ACTIVITIES TO PROMOTE THE ASHEVILLE-BUNCOMBE SENIOR GAMES

Summary: The consideration of applying for a grant, in the amount of $500, to assist local programs to serve more participants and obtain more visibility for the local Senior Games Program.

Funds are available through the North Carolina Senior Games to provide a year-round health promotion and education program for adults age 55 and older. The City of Asheville wishes to apply for funding to develop a rack card and a speaker's bureau for the Asheville-Buncombe Senior Games.

The Asheville-Buncombe Senior Games are designed to provide athletic and cultural arts activities for adults ages 55 and older. In 1997, 822 people participated in the program. The program included 55 athletic events and 33 artistic events in the categories of Literary, Visual, Heritage, and Performing Arts. Grant funds will be used to implement a rack card and speaker's bureau to promote the Asheville-Buncombe Senior Games. The amount of the grant request is $500.

The Parks and Recreation Department recommends approval of the application for grants funds through the North Carolina Senior Games.

RESOLUTION BOOK NO. 24 - PAGE 135

G. RESOLUTION NO. 97-115 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH N.C. DEPT. OF TRANSPORTATION FOR THE SWEETEN CREEK/I-40 SIDEWALKS PROJECT

Summary: On September, 10, 1996 City Council authorized the City Manger to send a letter to the NC DOT outlining the City's agreement to participate in sidewalks on I-40/Sweeten Creek Roadway Interchange. The NC DOT's preliminary estimate was $37,000 for the sidewalk. The City's portion of the original cost of the sidewalk was 40% or $14,800. The final estimate for the construction of the sidewalk is $38,900, based upon a final design prepared by NC DOT, with the City's portion being $15,560.

The sidewalk would extend from Roberts Road to approximately 200 feet north of I-40. This includes 1,290 square yards of sidewalks. Construction is scheduled to begin fall of 1997.

Staff recommends that City Council authorize the City Manager to sign the Municipal Agreement for improvements at the interchange of Sweeten Creek and I-40.

RESOLUTION BOOK NO. 24 - PAGE 136

H. MOTION AUTHORIZING THE CITY MANAGER TO INCREASE THE TOTAL CONTRACT PRICE FOR THE WEST AREA ANNEXATION SANITARY SEWER IMPROVEMENTS - PHASE I PROJECT

Summary: There are seven hundred and eighty-one (781) linear feet of existing 8" sewer line adjacent to this project location that belongs to MSD. Due to the condition of the existing sewer line, MSD would like the City to add this section for replacement to the existing contract with Buckeye Construction Company for West Area Annexation Sewer Improvements - Phase I. This additional work is estimated at $46,453.

City staff requested that MSD provide a check in the amount of $46,453 to us for the cost of this construction. A letter from MSD indicates that they would like for us to proceed with adding this work to our existing contract with Buckeye Construction Company but cannot provide the money until it is approved by the MSD Board. The MSD Board will meet on July 16, 1997, and MSD staff is recommending approval. In the event that the funds are not approved by MSD, City staff will withdraw the recommendation to increase this contract to City Council at the July 22, 1997, Council meeting.

The additional work by Buckeye Construction Company will not be performed until the work in the original contract is completed. Therefore, the additional work requested by MSD will not delay the completion of the original scope of the project.

Staff recommends that City Council authorize the City Manager to increase the total contract price for the West Area Annexation Sewer Improvements - Phase I project by $46,453, which will be reimbursed by MSD.

I. RESOLUTION NO. 97-116 - RESOLUTION PERMITTING CAPITAL IMPROVEMENTS AT ASHEVILLE REGIONAL AIRPORT AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT FOR RELOCATION OF DRIVEWAY ACCESS ON A STATE ROAD

Summary: The Asheville Airport is situated on land owned by the City of Asheville and leased to the Airport Authority pursuant to a Lease Agreement dated July 1, 1980. The Authority is undertaking improvements to the driveway and access road at the airport consisting of lengthening the outbound driveway, relocating its intersection with State Road 280 approximately a quarter mile southwest to the signalized intersection with Fanning Bridge Road, and creating a circular drive with in the airport compound. The present location of the exit is on a curve on a high speed fourlane road and left turns are difficult to negotiate. Requests to the NCDOT to signalize the current exit location have been denied, but the State has indicated that it will make appropriate changes to the Fanning Bridge Road signal if the exit is relocated.

Because the intersection will be on State Road 280, the State requires as part of the access permit application that an agreement be entered into whereby construction will be carried out in a certain manner, and the completed driveway will comply and be maintained in accordance with certain standards. The agreement also holds the DOT harmless from damages arising by reason of the construction.

The Lease Agreement provides that the Airport Authority may make capital improvements "for aeronautical purposes and purposes incidental thereto... provided that authority first obtain written approval thereafter by the City."

The Agreement establishing the Airport Authority provides that the Authority may enter into contracts providing for improvements at the Airport, so it appears that the Authority may enter into the Agreement with the DOT. The DOT apparently requires that the property owner also execute the Agreement.

This resolution accomplishes two things: (1) gives the City's written approval to the proposed access improvements as required by the Lease; and (2) authorizes the City Manager to execute the Agreement with DOT.

To the extent that the DOT agreement shifts to or creates any legal responsibility for the City as the owner or the Authority as the lessee/applicant, this responsibility would be the Airport Authority's, as the Lease provides specifically that the Authority is responsible for management, operation, regulation and maintenance of the Airport. I have suggested that the Agreement be modified to indicate that the Authority is the lessee and that the City is the lessor of the property.

Approval of the resolution is recommended.

RESOLUTION BOOK NO. 24 - PAGE 137

J. RESOLUTION NO. 97-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT, HEALTH & NATURAL RESOURCES FOR A GRANT TO DEVELOP A GREENWAY TO CONNECT THE AMBOY ROAD AND FRENCH BROAD RIVER PARKS

Summary: Funds are available through the State of North Carolina, Department of Environment, Health and Natural Resources in the National Recreational Trails Fund Program (NRTFP) from the Federal Highway Administration to provide trails for public use in North Carolina.

The Amboy Road Greenway represents the City of Asheville's next phase of a major greenway system being developed along the French Broad and Swannanoa Rivers. Phase I was completed in 1994 with the completion of French Broad River Park. Phase II was completed in 1996 with the completion of the second half mile loop of trail in the park. French Broad River Park was funded through a partnership between the City, RiverLink, and CP&L.

Phase III, Amboy Road Park, is in the early stage of development and will provide a river front park featuring a boat launch, fishing areas, and support areas for the growing activities in the region. The City of Asheville has been awarded a grant for $20,000 from the North Carolina Fish and Wildlife Resources Commission to assist in the design of the park and has committed another $100,000 for the construction. RiverLink has received a grant for $30,000 through the Pigeon River Fund to build boardwalks over the wetlands of the greenway.

Phase IV, Amboy Road Greenway, is part of the overall plan to complete another section of greenway on the French Broad and Swannanoa Rivers. The cost of the project is approximately $65,000. The Parks and Recreation Department is requesting $30,000 in grant funds which would be matched by 50% of the cost by our crew's labor, equipment, and project supervision.

The Parks and Recreation Department recommends the City Manager to apply for and enter into this agreement.

RESOLUTION BOOK NO. 24 - PAGE 138

K. RESOLUTION NO. 97-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT ND MEMORANDUM OF UNDERSTANDING WITH BUNCOMBE COUNTY PERTAINING TO JOINT COOPERATIVE EFFORTS IN THE AREA OF FACILITY MAINTENANCE

Summary: Over the past several months, City staff has met and coordinated with staff from Buncombe County discussing the area of facility maintenance. This is an area where there is the ability for mutual benefits due to the different staffing and services provided by each respective governmental agency. Buncombe County has a facility maintenance staff that consists of individuals that are licensed and perform construction and maintenance functions in the areas of electrical, plumbing and mechanical systems. In turn, the City of Asheville has necessary equipment to apply sand and salt and perform snow removal and also has other specialized pieces of equipment in our fleet inventory. During the discussions between County staff and City staff it was agreed that this was an area in which cooperation would be mutually beneficial.

The areas which the City would assist the County in pertain to the spreading of sand and salt in the parking lot travel aisles serving the Health Department, Emergency Services access alley, area on east side of Court House, area on north side of County Jail, and Social Services. Snow removal would consist of City staff assisting County staff in the clearing of walk areas around the Health Department and Court House. The other area which the City would be able to provide assistance to the County would be regarding access to various equipment which the City has in our fleet inventory, such as a backhoe or bucket truck based upon availability of equipment and equipment operator. In turn, the County would assist the City in efforts related to evaluation, repair or replacement of various systems serving City facilities with the City paying for all material and equipment costs associated with such projects.

An "Interlocal Agreement and Memorandum of Understanding" was prepared in order to undertake the cooperative efforts in the area of facility maintenance. This agreement was executed on April 21, 1997 for a "pilot project" which would allow the City and the County an initial review of these efforts through June 30, 1997. Following this, on June 17, 1997 City staff met with County Manager Wanda Greene and discussed this initial review. It was agreed that both parties liked the arrangement and it was decided that this area of mutual cooperation should continue. City staff requests City Council endorsement of a "Interlocal Agreement and Memorandum of Understanding" in the area of cooperation for facility maintenance and authorization for the City Manager to execute the Memorandum dated July 22, 1997 extending the agreement for one year until June 30, 1998 with automatic renewal for one year periods for subsequent years subject to termination by written notification of either jurisdiction.

City staff recommends adoption of the resolution authorizing the City Manager to execute a Memorandum extending the Interlocal Agreement and Memorandum of Understanding through June 30, 1998 with automatic renewals for one year for subsequent years.

RESOLUTION BOOK NO. 24 - PAGE 139

L. RESOLUTION NO. 97-119 - RESOLUTION SETTING A PUBLIC HEARING FOR AUGUST 12, 1997, ON ECONOMIC DEVELOPMENT APPROPRIATION

Summary: It is necessary for City Council to set a public hearing to consider the City's participation in site development improvements requested by J.L. de Ball-Girmes of America, Inc.

J.L. de Ball-Girmes of America, Inc. is looking to locate a supplementary production unit at its existing site on Old Charlotte Highway. Plans call for renovation of 45,000 sq. ft. of the existing 178,000 sq. ft. building in order to begin manufacturing. The company is looking to significantly expand within two years, and plans to accommodate 12 -16 employees by July 1, 1998; up to 50 by January 1, 2000. Wages will average $9 -12.00 per hour.

The firm plans to invest a total of $7 million within two years in the renovation and equipment upgrades for this operation; $2 million by July 1, 1998. Included will be repairs and upgrades to the roof, HVAC capacity, and plumbing and electrical improvements, as well as major machinery and equipment purchases. Staff has prepared an agreement outlining the terms and conditions of the City's participation.

The agreement consists of the City entering into a contract whereby the City would contribute $51,300 provided the terms of the contract are complied with by J.L. de Ball-Girmes of America Inc. The conditions include: the requirement of the corporation creating a minimum of 12 new jobs by July 1, 1998, with wages at $9-12 per hour; investment of $2,000,000 by July 1, 1998; and expansion to accommodate 50 employees. The guarantee for the City is through a Letter of Credit. The payback period for the City based on this financial assistance will be 4.5 years.

Staff recommends setting a public hearing to consider the City's participation in site development improvements requested by J.L. de Ball-Girmes of America, Inc.

RESOLUTION BOOK NO. 24 - PAGE 142

M. RESOLUTION NO. 97-120 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE INSTRUMENTS FOR THE PURCHASE OF 12.23 ACRES ON BROADVIEW DRIVE FOR THE PURPOSE OF DEVELOPMENT OF SINGLE-FAMILY, OWNER OCCUPIED HOMES

Summary: The consideration of a resolution authorizing the City Manager to execute instruments for the purchase of 12.23 acres and a budget ordinance to appropriate funds to purchase vacant property on Broadview Drive for the development of single-family, owner-occupied homes.

On February 14, 1997, the City of Asheville closed on the sale of 17.282 acres of vacant land adjacent to the Meadows Apartments. The City had planned to develop this tract into a subdivision of single-family, owner-occupied affordable housing units. Since there were access problems, the City decided to sell and look elsewhere for an alternate site. The proceeds of $200,000 will be used to purchase 12.23 acres of unimproved land on Broadview Drive in Oakley.

In May 1997, the City executed an Offer to Purchase and Contract, subject to Council's approval, for the Broadview Drive property. The total price of the contract was $190,000. The property has been appraised at $183,500 and the sellers have agreed to sell at this price. The City proposes to develop the Broadview Drive site into a subdivision of single-family, owner-occupied affordable housing units. This property is zoned RS-8 under the UDO. The above $200,000 will be used for the Broadview Drive property as follows:

a.	Capital Outlay Land Acquisition (to cover property purchase and closing costs)	$188,000
b.	Professional Services	$ 12,000

Community Development staff recommends adoption of the resolution and budget ordinance amendment.

RESOLUTION BOOK NO. 24 - PAGE 143

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Resolutions & Motions Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Resolutions & Motions Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCES:

At the request of Councilman Skalski, Item D. was removed from the Ordinance Consent Agenda to be discussed individually.

At the request of Councilman Cloninger, Item H. was removed from the Ordinance Consent Agenda due to his conflict of interest. This item will be considered under New Business.

A. ORDINANCE NO. 2390 - ORDINANCE CHANGING THE SPEED LIMITS IN PARK AVENUE SUBDIVISION

Summary: The City Traffic Engineer has performed the necessary traffic analyses associated with the following locations and is seeking authorization from the City Council to change these speed limits.

Add to 20 MPH

(1) Parkridge Court (entirety)
(2) Clubhouse Court (entirety)
(3) Creekside Court (entirety)
(4) Thistle Knoll Court (entirety)
(5) Briar Knoll Court (entirety)
(6) Gatehouse Court (entirety)

Add to 25 MPH

(1) Park Avenue (entirety)

These locations were reviewed over a period of time and the appropriate speed analyses were conducted.

1. Parkridge Court, Clubhouse Court, Creekside Court, Thistle Knoll Court, Briar Knoll Court and Gatehouse Court

A Speed Study was conducted along these streets in the Park Avenue Subdivision per the request of the citizens of this area. The existing speed limit is 27 MPH. The residential nature of these roadways as well as their widths indicate that the speed limit should be reduced to 20 MPH. The Asheville Police Department concurs with our recommendations.

2. Park Avenue

A Speed Study was conducted along Park Avenue per the request of the citizens of this area and the City of Asheville Police Department.

The existing speed limit is 27 MPH. The Speed Study indicates that the 85th percentile speed is 33 MPH and the pace speed range is 21-35 MPH. The residential nature of this roadway and its width suggest that the speed limit be reduced to 25 MPH. The Asheville Police Department concurs with our recommendation.

The Public Works Department recommends the approval of these additions to the speed limit ordinances.

ORDINANCE BOOK NO. 16 - PAGE 261

B. ORDINANCE NO. 2391 - BUDGET AMENDMENT TO PURCHASE 12.23 ACRES OF UNIMPROVED LAND ON BROADVIEW DRIVE IN OAKLEY

Summary: This budget amendment, in the amount of $200,000, is to purchase 12.23 acres of unimproved land on Broadview Drive in Oakley.

ORDINANCE BOOK NO. 16 - PAGE 262

C. ORDINANCE NO. 2392 - BUDGET AMENDMENT FOR THE CITY'S PARTICIPATION IN THE SWEETEN CREEK/I-40 SIDEWALK PROJECT

Summary: This budget amendment, in the amount of $15,560, is the City's portion of the sidewalk improvements at the Sweeten Creek Road/I-40 intersection project.

ORDINANCE BOOK NO. 16 - PAGE 264

D. BUDGET AMENDMENT FOR THE CITY'S SHARE IN A STUDY RELATIVE TO THE BOOST TRANSPORTATION SYSTEM

This item was removed from the Consent Agenda for individual discussion.

E. ORDINANCE NO. 2393 - BUDGET AMENDMENT TO PURCHASE A DOWNTOWN STREET CLOCK

Summary: Mr. Charles Cunningham desires to donate $6,000 toward the purchase of a street clock for the City.

Per instructions from City Council at its July 8, 1997, meeting, a subcommittee of the Streetscape Committee met for the purpose of determining the following:

- The best clock design that will complement the overall streetscape design for downtown;
- The optimal location for such a clock; and
- A definitive cost for equipment and installation.

Based upon these goals, the subcommittee recommends a design consistent with downtown architecture and amenities to be located in the grassy island at the intersection of College, Patton and Spruce Street (across from Max's Deli). The estimated cost of the "Georgetown" clock is $10,500 and installation is estimated at $500. Public Works staff intends to construct the pedestal base and coordinate electrical service to the unit. It will subsequently be maintained by public works.

Since the construction time for the clock is 90 days, and it is the donor's desire to dedicate the clock in conjunction with a planned Bicentennial ceremony, it will be necessary to place an order not later than August 1, 1997, to meet this request.

Staff recommends that City Council appropriate $5,000 for the remaining balance necessary to purchase the clock. Mr. Cunningham's donation will be utilized as the down payment (company must have 50%) to place the order. Community groups will make every effort to acquire private funding for the remaining balance over and above the gift amount.

ORDINANCE BOOK NO. 16 - PAGE 266

F. ORDINANCE NO. 2394 - BUDGET AMENDMENT TO REAPPROPRIATE $1.4 MILLION FROM THE CITY HALL ROOF REPAIRS AND THE MUNICIPAL BUILDING RENOVATIONS INTO THE STEPHENS-LEE RENOVATION PROJECT

Summary: Based upon Council's directive at the July 8, 1997, City Council meeting to expedite the renovation project for the Stephens-Lee Community Center, staff recommends the following steps in order to expedite the letting of contracts for the renovation of the Stephens-Lee Community Center. Current cash is available from the City Hall roof and Municipal Building renovation projects to adequately fund the anticipated contract costs for Stephens-Lee renovations. This contract could be let as early as August and construction could begin as early as September 15. This will allow for this project to begin prior to the other three major projects that are currently anticipated. The certificates of participation will be sold to fund the Municipal Building renovation, the City Hall roof, and the Old Water Maintenance Building. According to the Finance Director, these three projects would make a competitive package for the sale of COP's.

The Parks and Recreation Department recommends City Council approval of a budget amendment to reappropriate a total of $1.4 million from the City Hall roof repairs and the Municipal Building renovations into the Stephens-Lee renovation project.

ORDINANCE BOOK NO. 16 - PAGE 268

G. ORDINANCE NO. 2395 - BUDGET AMENDMENT AMENDING AND RESTATING THE REGIONAL WATER AUTHORITY'S CAPITAL PROJECTS ORDINANCE TO APPROPRIATE FUNDING FOR WOODSIDE HILLS PROJECT

Summary: The consideration of a budget amendment amending Capital Project Ordinance 82-25 to provide funding in West Area Annexation for Woodside Hills in the amount of $240,000.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by investment earnings, contributions from other funds and appropriated fund balance.

According to the Water Agreement, the Authority is required to fund annexation water improvements. Woodside Hills Subdivision is located off Asbury Road in the recently annexed West Area. The Authority appropriated approximately $850,000 for water system improvements for this area in accordance with the 1988 Plan of Service prepared by Black and Veatch. Subsequent construction contracts and engineering services for these water system improvements totaled approximately $624,000. This resulted in a surplus of approximately $226,000, which has subsequently been transferred to other capital projects.

A part of Black and Veatch's plan of service included the installation of fire hydrants at key locations in Woodside Hills.

During the construction contract, existing 2-inch waterlines were discovered at these locations. These 2-inch waterlines will not support a fire hydrant and additional 6-inch waterlines must now be installed to improve fire protection at an estimated cost of $240,000. Approval of this budget amendment will provide the funding required for this additional construction contract and the engineering services associated with it.

Regional Water Authority approved the Woodside Hills Project on June 24, 1997.

Approve amending and restating Capital Project Ordinance 82-25 in order to provide funding in West Area Annexation for Woodside Hills.

ORDINANCE BOOK NO. 16 - PAGE 270

H. BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR THE CITY'S CONTRIBUTION TO THE GROVE ARCADE PUBLIC MARKET FOUNDATION FOR THE RESTORATION OF THE GROVE ARCADE BUILDING

This item was removed from the Consent Agenda due to a conflict of interest by Councilman Cloninger. This item will be considered under New Business.

Mayor Martin said that members of Council have been previously furnished with copies of the ordinances on the Ordinance Consent Agenda and they will not be read.

Vice-Mayor Field moved for the adoption of the Ordinance Consent Agenda. This motion was seconded by Councilman Worley.

On a roll call vote of 7-0, the Ordinance Consent Agenda was adopted on its first reading.

Vice-Mayor Field asked that staff notify the Police Chief in Biltmore Forest who lives on Park Avenue that City Council has indeed reduced the speed limit as he has requested.

ITEMS REMOVED FROM THE CONSENT AGENDA TO BE DISCUSSED INDIVIDUALLY

RESOLUTION NO. 97-121 - RESOLUTION AUTHORIZING THE METROPOLITAN SEWERAGE DISTRICT TO INCREASE THE BILLING COSTS PAID TO MUNICIPALITIES FOR SANITARY SEWER CUSTOMERS TO ASSIST IN RECOVERY OF ACTUAL COSTS

Summary: For the past year, City staff has been working with representatives of other municipalities and MSD regarding the current per bill amount paid by MSD to local governments for billing and collection of sanitary sewer accounts in their jurisdiction. During this time, I have served on a subcommittee which also included Mike Morgan, Town Manager of the Town of Weaverville and Larry Turner, Deputy Manager for Operations with MSD.

The initial task which we undertook was to survey area municipalities which perform billing services for MSD. He reviewed a copy of the "Direct Billing Cost Summary" which shows the estimated cost per bill ranging from $1.55 to $3.53 for the cities of Montreat, Black Mountain, Weaverville and Asheville. I would point out that much of the diversity in the range of direct billing costs is based upon the size and complexity of functions performed by the organization, as well as the number of customers served.

For background, the billing charge paid by MSD has remained at an amount of $1.30 per bill since 1990. The concern of local governments performing the billing costs for MSD is our awareness of the increased costs which our municipalities have faced as a result of various increases such as salaries, material costs, operation and maintenance, and postage. In trying to address what a reasonable rate increase would be, staff considered two options. One option would be to hire a consultant to conduct a formal study in order to determine the rates based on specific data. However, the smaller municipalities do not feel that the cost participation in a study on a pro rata basis is beneficial. A second approach which seems reasonable is to base the increased costs on the Consumer Price Index (CPI). Since 1990, the CPI has ranged from 2.5 percent to 3.3 percent each of those years. Based upon this information, the current billing costs would be $1.54 per bill projected from 1990.

In discussing the increase, the information based on the CPI is very close to the lowest billing cost for any of the municipalities participating in the survey. Therefore, staff feels that it is reasonable to request that the increase be in the amount of $0.25 per bill taking the total to $1.55 per bill.

Staff recommends the adoption of a resolution requesting the MSD Board increase the per bill cost by $0.25 based upon survey data from municipalities and the Consumer Price Index for a total amount of $1.55 per bill to assist in the recovery of actual costs.

Councilman Skalski submitted a letter dated May 8, 1990, to Mayor Kenneth M. Michalove from Chairman of the Asheville-Buncombe Water Authority Ralph Morris outlining how the $1.26 (rounded to $1.30) per customer per month reimbursement from MSD was arrived at as the MSD share. He stated that the number of water customers is approximately 42,000 and the number of sewer customers is approximately 28,000.

Councilman Worley noted that the City's actual cost is $3.53 and requesting MSD to go up to $1.55 is still well below our actual cost in preparing those bills.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilman Skalski moved to adopt Resolution No. 97-121. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 144

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 8, 1997, AND THE WORKSESSION HELD ON JULY 15, 1997

Mr. Ralph Bishop said that at the request of Vice-Mayor Field he met with City Attorney Oast. In the information City Attorney Oast gave him, it did not state that City Council could circumvent State law - noting that it did not even cite sec. 160A-72. He said the information related to closed meetings. He said that all he cares about is what happens in open meetings as set forth by State law in G.S. 160A-72.

City Attorney Oast said that he did give Mr. Bishop a copy of Maready vs. City of Winston Salem in Forsyth County which he believed is the legal opinion which is the controlling authority on the Open Meetings Law in North Carolina and the only judicial interpretation of the law that he is aware of. That opinion addresses the issue of keeping full and accurate minutes.

Councilman Worley moved to approve the minutes of the formal meeting held on July 8, 1997, and the worksession held on July 15, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE NO. 2396 - BUDGET AMENDMENT FOR THE CITY'S SHARE IN A STUDY RELATIVE TO THE BOOST TRANSPORTATION SYSTEM

Summary: During the budget work session in May, 1997, with City Council, Council gave approval to continue the study regarding the Parks and Recreation proposal relating to the BOOST Transportation System. Over the past month, staff has met on several occasions with representatives from Buncombe County and the State of North Carolina to investigate this proposal. In the meantime, the Asheville Transit Authority has renewed the Paratransit contract with Laidlaw Transit Service through June 30, 1998. During a meeting with the Transportation Project Consultant through the Division of Public Transportation for the Department of Transportation, discussion centered around a possible study of the entire transportation system throughout the City and the County. This study would include a review the proposal presented by Parks and Recreation as well as a review of the current system being used County-wide. Ninety percent of the funding for this project would be paid for by the State of North Carolina with the remainder being paid by the City and the County. It is anticipated that the City's cost associated with this study would be between $3,000 - $5,000.

The Parks and Recreation Department recommends working with the State of North Carolina and Buncombe County to solicit a consultant to study the transportation system within the City and the County. Staff also recommends City Council consider a budget amendment, in the amount of $5,000, for the City's cost associated with this study.

Upon inquiry of Councilman Skalski, Parks & Recreation Director Irby Brinson said that State would pay for 90% of the study which would be approximately $45-50,000.

Councilman Skalski then thanked Vice Mayor Field, Gordon Myers and Todd Allen for working to secure money to do a comprehensive transportation study, which will include van-pooling and other options.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2396. This motion was seconded by Councilman Skalski.

On a roll call vote of 7-0, Ordinance No. 2396 was adopted on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 272

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

A. RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCEL 5 AT THE CORNER OF COURTLAND AND MONTFORD AVENUE IN THE HEAD OF MONTFORD REDEVELOPMENT PROJECT TO ROBERT RIDUB AND JEANETTE SYPRZAK

At the request of Mr. Ed Vess, Field Services Coordinator, Councilman Worley moved to tabled this matter until August 12, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Martin noted that Ms. Jacqueline Anne Larsen presented City Council with a letter dated July 22, 1997, asking that the bidding process on the Head of Montford Disposal Parcel No. 5 be re-opened. In her letter she wrote that "staff's paraphrasing of Mr. Eides interpretation of his and my agreement are not what I perceived transpired between Mr. Eides and myself regarding his interest in the subject property."

V. NEW BUSINESS:

A. REPORT ON REDESIGN OF FIRE STATION 4/POLICE RESOURCE CENTER IN SKYLAND

Fire Chief Rukavina said that subsequent to City Council's discussion on July 15, 1997, staff met with Barney Woodard, the Station 4/Resource Center architect, who is now researching staff's recommendations and suggestions made at the City Council's worksession of July 15, 1997.

At the City Council's worksession of July 15, 1997, staff and City Council reviewed the status of the new Fire Station 4/Police Resource Center slated for construction in Skyland. During that review, Council members raised questions about negotiating with the low bidder, rebidding the project as originally proposed, and rebidding the project on a smaller scale (staff's recommendation was to rebid on a smaller scale, with provision for expansion in the future).

On July 16, 1997, staff met with Barney Woodard, architect for City proposed building, and shared with him the proposals and questions raised at the July 15 meeting. (Woodard noted, for example, that the building was designed as a block-wall building, rather than steel with block veneer.) Based on that meeting, Barney Woodard will undertake research on those proposals, and is scheduled to meet with staff on July 23, 1997, to present the preliminary results of his research. Based upon this information, staff recommends that the Council defer action on this item until additional information is received and presented at the August 5 Council worksession. The low bidder has agreed to extend their bid until August 6, 1997. A report will be presented to City Council at its August 5, 1997, meeting in connection with final consideration of the resolution authorizing rejection of bids and redesign of the project.

It was the consensus of City Council to have staff work with the architect to assemble the additional information and present that information to Council at their August 5, 1997, worksession.

B. RESOLUTION NO. 97- 122 - RESOLUTION AUTHORIZING THE DISPOSITION OF THE GROVE ARCADE BUILDING TO THE GROVE ARCADE PUBLIC MARKET FOUNDATION

ORDINANCE NO. 2397 - BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR THE CITY'S CONTRIBUTION TO THE GROVE ARCADE PUBLIC MARKET FOUNDATION FOR THE RESTORATION OF THE GROVE ARCADE BUILDING

Councilman Cloninger said that his law firm is acting as legal counsel for the Grove Arcade Public Market Foundation. Therefore, Councilman Worley moved to excuse Councilman Cloninger due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

City Attorney Oast asked City Council to consider a resolution authorizing the disposition by lease of the Grove Arcade Building to the Grove Arcade Public Market Foundation, and a budget ordinance amendment appropriating money toward the rehabilitation of the structure.

The Grove Arcade Building was constructed at the beginning of this century as a shopping arcade and was actually used as one until taken over by the Federal Government during World War II. The Federal Government used it as an office building for about 50 years, and the building has been vacant since 1995.

Since the building became vacant, the City and other organizations and entities in the City have been exploring ways to preserve, restore and reuse the Building. For at least the last year, the City has been working with Public Interest Projects and the Grove Arcade Public Market Foundation (GAPMF), and most recently with GAPMF only, to rehabilitate and use the Arcade as a public market, with a mixture of commercial/ office/residential uses on the upper floors.

The first step in this process was for the City to acquire the building. Initially, the City explored the possibility of an outright conveyance to an entity that would operate the Arcade, but this was not legally possible without paying the government for the property. Under the National Monument Act, the City was able to acquire the Arcade essentially at no cost, but had to agree to rehabilitate the structure and to use it in accordance with certain laws and regulations. The City and GAPMF have been working with the General Services Administration to make sure that the proposed use meets all legal requirements.

Since January, the City and GAPMF have been working on the terms of a Lease Agreement and a Preservation and Operation Agreement by which GAPMF would lease the building from the City, and would assume responsibility for all operational aspects of it, and for compliance with federal laws and regulations. The City and GAPMF have agreed on the substantive terms of these instruments. Those terms are outlined in the Exhibit.

In order to give effect to the Agreement between the City and GAPMF, Council needs to adopt an authorizing resolution. The law provides that leases for longer than 10 years shall be treated as sales of real property, and further provides that historically or architecturally significant properties may be disposed of to nonprofit corporations by private negotiation and sale. Accordingly the resolution authorizes the disposition of the Arcade to GAPMF, and outlines the general terms of the proposed transaction. A notice of this Resolution must be published at least 10 days prior to the date of the transaction. The law further requires that Council adopt a resolution authorizing a lease, and requires for 10 days advance notice of Council's intent to adopt the resolution.

Accordingly, a resolution is attached that authorizes the disposition of the Arcade, which because of the length of the lease term is required to be treated as a sale, and directs the Clerk to publish a notice of (1) the intended disposition, and (2) of Council's intent to give specific authorization for the lease at a regular meeting.

Part of the agreement with GAPMF is that Council will follow up on its commitment in an earlier resolution to appropriate $100,000.00 toward the improvements to the Arcade. An ordinance amending the budget in accordance with the previous resolution is also necessary.

If Council intends to authorize and proceed with the proposed transaction with GAPMF, adoption of the resolution and budget ordinance amendment is recommended.

Vice-Mayor Field stated that in Resolution No. 94-114 entitled "Resolution encouraging the appropriate reuse of the Grove Arcade" adopted on June 7, 1994, it states in part that "the Public Market proposed by the Grove Arcade Foundation is an appropriate use for the building ...." She said that she would not vote against the resolution because a lot of work has gone into it and she feels like the whole community really wants it, however, she was not sure that a public market is an appropriate use for that kind of historic building. She said she's mentioned it several times before, but typically public markets go into large somewhat warehouse kind of buildings, not into a historic property with marble floors that can receive smells and stains from some of the kinds of things that people normally think of as happening in a public market. Another concern of hers is that the elevator core is right in the middle of the view-path from one end to the other and that the floors are sloped. As an architect, she wasn't absolutely sure she could agree that a public market is an appropriate use for the building. But on the other hand, she certainly supports the public market and the building being put back into use for this community. Given that, she will vote in favor the resolution.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 97-122. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 145

Part of the agreement with Grove Arcade Public Market Foundation is that Council will follow up on its commitment in an earlier resolution to appropriate $100,000.00 toward the improvements to the Arcade. This budget amendment will honor that commitment.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2397. This motion was seconded by Councilman Worley.

On a roll call vote of 6-0, Ordinance No. 2397 was adopted on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 274

C. RESOLUTION NO. 97-123 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH EFFECTIVE CLIENT PROMOTIONAL SERVICES TO PROVIDE VIDEO TAPING OF FORMAL CITY COUNCIL MEETINGS

Ms. Robin Westbrook, Community & Public Information Coordinator, asked for Council's consideration of the taping formal City Council meetings to be broadcast on InterMedia Cable channel 10 every other Saturday.

The Asheville City Council asked staff to explore the possibility of televising formal City Council meetings. After discussions held with Hometown TV, Asheville City Schools, and Buncombe County, it was determined that taping the formal City Council meetings every other week to be aired on Saturday would best meet the needs of all interested parties.

Effective Client Promotional Services (ECPS) submitted a bid to tape the meetings every other week for a fee of $600 per meeting. They will provide three employees (2 cameramen and 1 engineer), equipment, and lighting for an average annual cost which should not exceed $15,600. Asheville City Schools has indicated that they could not provide the same service for the cost. This also eliminates the concern about finding someone to tape during the summer months.

Asheville City Schools has given the City and Buncombe County the use of channel 10 on Saturday mornings at 8:00 a.m. Asheville City Council meetings will be aired one week and Buncombe County Commission meetings will be aired the next week.

The taping of the City Council meetings can begin on a trial basis on August 12, 1997. This session will be used to adjust lighting and test equipment. The first taping to air will take place on August 26, 1997. This session will air on Saturday, August 30.

If City Council wishes to broadcast formal meetings, it is the recommendation of staff the City Council adopt a resolution authorizing the City Manager to contract with ECPS in the amount not to exceed $15,600 for one year to tape formal City Council meetings beginning on August 12, 1997.

Upon inquiry of Councilman Skalski, Ms. Westbrook said that she checked with the same places Buncombe County checked with regarding taping of meetings and we found out that the industry standard is $600/hour and what Effective Client Promotional Services came back to us with was $600/meeting.

Upon inquiry of Vice-Mayor Field, Ms. Westbrook said that Asheville High School students tape Buncombe County's meetings but there is intensive staff time that is involved in scheduling the students. The High School is also getting ready to lose all their senior students and will have to retrain. Buncombe County also paid $65,000 upfront for the video equipment and accessories, noting that the video equipment gets outdated very quickly.

Councilman Worley said that this was something he encouraged City Council to do for sometime and it was one of Council's goals established in January. He felt this is a natural extension of our Community Oriented Government by making our Council meetings more accessible for those people who either can't or don't want to give up their Tuesday evenings. He does feel that this is a great service to tape the Council meetings for all of the citizens to see.

Councilman Cloninger agreed with Councilman Worley and strongly supported televising the Council meetings, however, he felt that the taping should begin when the new City Council takes office in December. Therefore, he would be voting against this resolution and the following budget amendment.

Upon inquiry of Councilman Hay, Ms. Westbrook said that we could have an individual tape made of each meeting for the City Clerk's records.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-123. This motion was seconded by Councilman Skalski and carried on a 6-1 vote, with Councilman Cloninger voting "no".

RESOLUTION BOOK NO. 24 - PAGE 148

D. ORDINANCE NO. 2398 - BUDGET AMENDMENT TO TAPE FORMAL CITY COUNCIL MEETINGS TO BE AIRED ON CHANNEL 10 ON SATURDAY MORNINGS AT 8:00 A.M. BEGINNING AUGUST 30, 1997

Ms. Robin Westbrook, Community & Public Information Coordinator, said that this budget amendment, in the amount of $15,000, is to appropriate funds necessary to contract with ECPS for one year to tape formal City Council meetings beginning on August 12, 1997.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Skalski moved for the adoption of Ordinance No. 2398. This motion was seconded by Vice-Mayor Field.

On a roll call vote of 6-1 (with Councilman Cloninger voting "no" - see explanation above on Resolution No. 97-123), Ordinance No. 2398 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 276

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the week of June 27-July 10, 1997: Hilda K. DeBruhl (Streets), Johnny Butler (Water), Asheville Transit (Water), Herbert Hyde (Sanitation), Pat Hair (Water), Anna Zillgitt (Traffic Engineering) and Thomas H. Hopkins (Water).

The following claims were received during the week of July 11-17, 1997: Joseph B. Colvard (Water), Lisa Murphew (Streets), Dorcas Black (Streets) and Alana L. Edmonds (Police).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUIT

The City was served with the following lawsuit on July 14, 1997: Steve Sarant v. City of Asheville - Magistrate Summons and Complaint for Money Owed.

This lawsuit will be handled in-house.

C. CLOSED SESSION

At 5:45 p.m., Councilman Cloninger moved to go into closed session for the following reasons: (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the attorney and the City - statutory authorization is G.S. 143-318.11 (a) (3); and (2) to establish or to instruct the City staff concerning the position to be taken by the City in negotiating the price or other material terms of a proposed contract for the acquisition of real property by purchase, option, exchange or lease - statutory authorization is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:40 p.m., Councilman Cloninger moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 6:40 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday, July 29, 1997 - 7:00 p.m.
North Asheville Community Center

Community Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Martin said that he hoped the new format by the City was successful at this community meeting. He summarized by saying that from 6:00 p.m. - 7:00 p.m. City staff was available at the North Asheville Community Center to meet with the community on any issue. And then the City Council community meeting began at 7:00 p.m. He stressed that City Council is committed to Community Oriented Government.

Ms. Robin Westbrook, Community and Public Information Officer, gave a brief presentation on how communities will be able to access information from City government on a computer located at the Community Center. She also outlined some items on the Council's commitment to community Oriented Government.

The following topics were raised by residents and addressed by City Council and City staff: what type of white goods will the City pick up and if the City doesn't pick them up, what alternatives do the residents have to dispose of them; the Unified Development Ordinance as it relates to duplexes, quadraplexes and triplexes in single-family and multi-family zones; the zoning designation of an area on Chatham Road; no sidewalks and need for street repair in the Jackson Park/Woolsey neighborhood area; how the CBII zoning designation on Charlotte Street was arrived at; procedure for having sidewalks installed in an area; need for curbs on Barnard Avenue; how sidewalks get ranked; violations of parking in apartment building on Chatham Road; need for more than one person to handle property and evidence at Police Department; need for ballfields in North Asheville area and suggestions for trying to find suitable land; loss of housing in the area; need for affordable housing; recycling; desire for additional greenways and greenway connections in the area; appreciation for City Council meetings being taped for viewing on Channel 10; appreciation for new buses, and new bus stops and amenities; need for air conditioning at North Asheville Community Center; possible designation Charlotte Street as a special district similar to the River District; stop sign request on Mt. Vernon Circle and procedure for obtaining stop signs; appreciation to City for obtaining All America City designation; update on Broadway greenway; information concerning new City traffic calming program; and appreciation for neighborhoods forming community associations.

Mayor Martin adjourned the meeting at 8:10 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - August 5, 1997 - 3:00 p.m.

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Vice-Mayor Field introduced and welcomed Ms. Margaret O'Shay who was the tour guide and translator on the Sister City trip to San Cristobal, Mexico.

CONSENT:

Hummingbird Park

Summary: The consideration of City property located at the corner of Starnes and Cumberland be named Hummingbird Park as requested by the Parks & Recreation Department Advisory Board.

In July of 1996, property located at the corner of Starnes and Cumberland was transferred to the Parks and Recreation Department to be used as a passive park. Over the past year, Montford residents have been soliciting names for this park area. The general consensus of the Montford residents is to name this piece of property Hummingbird Park. The residents have suggested this is an appropriate name since the hummingbird has become the official symbol of the Montford historic neighborhood and is displayed on banners, T-shirts, and the newsletter.

The Parks and Recreation Department Advisory Board recommends City Council name City property located at the corner of Starnes and Cumberland as Hummingbird Park.

Regional Hazardous Response Team Contract Extension

Summary: The consideration of a sixty (60) day extension of an agreement for hazardous materials emergency response in Western North Carolina.

The N. C. Dept. of Crime Control and Public Safety's Emergency Management Division has asked the City to extend its present agreement with the State of North Carolina for hazardous materials emergency response in Western North Carolina pending submittal of a new two-year agreement for City Council consideration.

Two years ago, the Asheville Fire Department was selected by the state's Emergency Management Division to respond on behalf of the state to hazardous materials emergencies in Western North Carolina. After adoption of a two-year agreement by the state and the City Council, the Asheville Fire Department became the "regional response team" for hazardous materials incidents in Emergency Management Region F--Western North Carolina.

The Emergency Management Division has asked the City of Asheville to consider a new "regional response team" agreement for fiscal years 1998 and 1999. Pending delivery of that proposed agreement, the Emergency Management Division has asked that the City extend the present agreement for sixty days. Therefore, the extension would be for the time period of July 1, 1997, to August 29, 1997.

The Fire Chief recommends authorization of the City Manager to enter into an agreement to extend the present City of Asheville/State of North Carolina "regional response team" agreement for a period of sixty (60) days.

Unattended Fuel Pumps at Dreamland Convenience Store

Summary: The consideration of a request for a permit to dispense motor fuel from unattended fuel pumps as required by Volume V of the NC State Building Code/Asheville Fire Prevention Code.

The North Carolina State Fire Code (adopted in Asheville as the Asheville Fire Prevention Code) authorizes public service stations to dispense vehicle fuel via credit card (with no attendants present) with approval of the Fire Chief and the City Council.

In 1996, the Asheville Fire Department established minimum safety requirements for such unattended fuel delivery. Those requirements include on-site absorbent that firefighters can use in event of a fuel spill , a telephone within 75 feet of the fuel delivery area for "911" notification of a fuel spill and a limit (either by dollar value or gallons) on how much fuel can be dispensed via credit card.

Paul J. Pless of the Dreamland Convenience Store at the Dreamland Drive-in site has requested a permit for unattended fuel dispensing at the Dreamland Convenience Store. He is familiar with the Asheville Fire Department's safety requirements, and has agreed in writing to meet those requirements.

Based on this agreement, the Fire Chief recommends City Council approval of this permit.

Staff recommends adoption of resolution authorizing Dreamland Convenience Store to dispense motor fuel at unattended fuel pumps, subject to Asheville Fire Department safety requirements.

Airport Grant Agreement

Summary: The Airport Authority has asked City Council to approve a grant from the FAA in the amount of $4,196,897.

This grant, in the amount of $4,196,894, consisting of $3,082,947 for Fiscal Year 1997 and $1,113,947 for Fiscal Year 1998, consists of a project to construct extended safety area, Runway 16 (Phase II) and improve airport access road.

Staff recommends adoption of the resolution.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ECONOMIC DEVELOPMENT - BROADLANDS TECHNOLOGY PARK

City Manager Westbrook said that as part of the 1996-97 budget, the Council adopted two goals. Those goals were to support City-wide economic development and the encouragement of an improved business climate. City staff has been diligently carrying out those efforts. Specifically, staff has been working with Biltmore Farms Inc. and other partners to create some dynamic opportunities for economic development. We have been working with the partnership to develop a technology park within the City of Asheville. This would increase jobs, provide higher paying salaries and wages, and increase business in general within the City of Asheville and Western North Carolina.

This effort began with one of our partners, AdvantageWest, commissioning a study on economic development in this area. The study showed Asheville could become a center that attracts businesses that use high technology as opposed to creating high technology. The City, Biltmore Farms Inc., AdvantageWest, Carolina Power & Light Company, BellSouth, Buncombe County, and the Mission-St. Joseph's Health System are prepared to become partners in helping create the Broadlands Technology Park at Biltmore Park.

City Manager Westbrook then introduced Mr. Jack Cecil, President of Biltmore Farms Inc. who discussed the overall plan and the site at Biltmore Park.

Mr. Dale Carroll from AdvantageWest discussed the flex space building at Broadlands Technology Park, funding from AdvantageWest and the regional aspect and impact of this project.

Ms. Teresa Owen from the Institute at Mars Hill College discussed the Knowledge Center portion of Technology Park. She felt this was a new and exciting idea which will give Asheville the competitive edge in attracting the kind of business we are all looking form.

Mr. David Hester from Carolina Power & Light Company and Mr. Chuck Reiley from BellSouth also spoke about their involvement and commitment with this project.

City Finance Director Bill Schaefer discussed the particular financial aspects of this issue and felt this was a wonderful opportunity for the City.

Councilman Cloninger was impressed with the partners working together and felt this was an excellent opportunity for the City to become a partner as well.

City Manager Westbrook responded to questions from Councilman Hay relative to the payback to the City.

Mayor Martin spoke in support of this project and was pleased that the City is willing to participate in determining the future of development in our City.

Councilman Skalski was concerned about whether the City could afford to participate in this venture and questioned why build structures if we don't have any companies to come into them. He felt that he couldn't vote in favor of this project at this time without further information.

Councilman Worley felt that all too frequently a company is interested in our area but wants to move in immediately. If we don't have a space for them, the company is no longer interested.

Vice-Mayor Field spoke in support of this project and felt it was a win/win situation for all those involved.

Upon inquiry of Councilman Skalski, City Manager Westbrook responded to questions relative to why the Metropolitan Sewerage District isn't providing the sewer lines and why the Regional Water Authority is not involved.

78

City Manager Westbrook said that he would be happy to meet with Councilman Skalski and address any other concerns he may have.

The following information was available for City Council as well:

The City of Asheville has established an ongoing effort to team with private businesses, developers and other agencies to implement economic development opportunities of benefit to the City and surrounding areas. In cooperation with the City and other team members, Biltmore Farms, Inc., of Asheville is proposing to develop a regional, high technology business park called the Broadlands Technology Park. This site is a 110-acre parcel of land within Biltmore Park, a master-planned, mixed use development bordered by Long Shoals Road and I-26. Biltmore Farms, Inc., owner of the property, is requesting that the City of Asheville enter into a partnership with several other public and private entities to create this regional technology center and install the necessary water and sewer lines and help in the construction of a high tech/flex space building planned for this new development. Biltmore Farms, Inc. will petition for annexation into the City in order to come under consideration under the economic development policy.

In a March 1996 feasibility study released by AdvantageWest, it was determined that the Asheville/Buncombe area was well-positioned to be able to attract high tech firms if a park were developed which catered to their needs. Since that time, AdvantageWest and Biltmore Farms, Inc. have been working together to build a diverse coalition of public and private entities interested in the development of this type of concept. Due to the major economic impact this project would have on the entire WNC region, the partnership presently includes Carolina Power & Light (CP&L); BellSouth; Buncombe County; Mission-St. Joseph's Health System and as aforementioned, AdvantageWest and Biltmore Farms, Inc. Moreover, A. Max Lennon, President of Mars Hill College, is currently establishing a consortium of academe which includes the University of North Carolina at Asheville, Warren Wilson College, A-B Tech and other Western North Carolina community colleges, as well as state and regional educational leaders to aid in the development of a Knowledge Center at the site. Besides the Knowledge Center (approx. 40,000 sq. ft.), immediate plans also call for the construction of 50,000 sq. ft. high tech/flex space building.

In order to begin construction of the site and proceed with Phase I of the proposed regional technology park, a sanitary sewer extension and a water line extension is needed. Following is an overview of the estimated costs associated with this proposal:

1. The sewer extension will involve an 8" sewer line of approximately 2200' to connect from the location of the proposed facility to the existing Ducker Creek sewer interceptor. Estimated costs for the sanitary sewer lines, manholes, and laterals is $150,000.

2. The water line size should be a minimum of 12" in diameter, and would require the expansion of approximately 3300' of line, installed within the Schenck Parkway right-of-way. The estimated costs for the water line, valves, and hydrants is $160,000.

3. The high tech/flex space building will be approximately 50,000 sq. ft. Plans call for this building to be adjacent to the Knowledge Center. Estimated cost is $2,500,000 and will require the City of Asheville to issue Certificates of Participation (COPs) in sufficient amount to handle the building construction cost. A triumvirate of the City, AdvantageWest and Biltmore Farms will design, build, market and either sell or lease to the ultimate tenant. Biltmore Farms will

subordinate its land, AdvantageWest will provide debt service payments for up to 24 months after which Biltmore Farms will assume all debt payments until the building is either sold or leased. (Biltmore Farms will provide a Letter of Credit guaranteeing any debt payments which may be required.) If feasible, the City will include the financing requirements of the high tech/flex space building in the same COPs issue as the renovation of the Municipal Building, repair of the City Hall roof and renovation of the Grove Arcade. Contracts for construction of the building will comply with North Carolina General Statutes (NCGS) governing Public Contracts (use of the formal bid process, multi-prime contractor requirements, etc.)

Although the information above addresses only Phase I (Pod 3) of the prospective development, it should be noted that once installed, both lines will have the capacity to serve three out of the five proposed pods, consisting of seven (7) building sites, with an estimated total of 370,000 sq. ft. (excluding Knowledge Center) of commercial building space ('96 estimated market value of $23,225,000 for both land and buildings, excluding equipment and other personal property). He then reviewed a summary of the calculation for Public Investment.

It should also be noted that each of the partners cited earlier have offered to provide additional support to complete this portion of the project if certain thresholds, varying by partner, are met. Buncombe County will contribute toward the site improvement costs under its economic development incentive program; CP&L will construct a feeder line; BellSouth will construct a fiber optic line; Mission-St. Joseph's Health Systems will facilitate the development of the Knowledge Center and AdvantageWest will also support the development of the Knowledge Center and market the Center. Biltmore Farms, Inc. will donate four (4) acres, more or less, for the Knowledge Center to be constructed and will grant the roadway, water, sewer, power, and telephone easements and rights-of-way required for the improvements.

Conformance with City Economic Development Policy:

Below is information detailing the conformance of the Biltmore Farms, Inc. request with the City's Economic Development Policy.

CITY POLICY (CITE)	**BILTMORE REQUEST**
1. Apply to private investment taking place inside city or directly adjacent wherein voluntary annexation could occur if requested. (II).	1. Site adjacent to City. Biltmore Farms, Inc. will petition for voluntary annexation.
2. City participation consistent with NCGS and other pertinent laws. (II).	2. No conflicts known.
3. Funding levels for economic development improvements will be established annually. These funds will be granted for the creation or improvement of public infrastructure and site improvements, such as . . . water lines or sewer lines. (III.A.)	3. No funding budgeted. Would need appropriation.

4. City investment in infrastructure will be publicly owned.	4. Sewer lines and water lines will be deeded to and maintained by Metropolitan Sewerage District and Regional Water Authority of Asheville, Buncombe and Henderson, respectively.
5. Project must involve creation of new jobs over and above what is currently available by the requesting company. (III.B.1.)	5. Based on buildable floor space, 500+ jobs can be projected for the first three pods.
6. Demonstrated need for City assistance. Necessary for project to go forward. (III.B.2. and III.C.1.)	6. Property is currently undeveloped. In order to build multi-million dollar regional technology center, public and private entities have formed partnerships to share in investment, as suggested in feasibility study.
7. The location and type of business is consistent with City plans and development policies. (III.B.3.)	7. The property is located outside city limits. Developer will petition for voluntary annexation. Due to its location along I-26 and Long Shoals Road near the Asheville Regional Airport, the site is particularly well-suited for a business park.
8. All projects meeting the criteria will be discussed on a case-by-case basis and are subject to available funds. (III.B.4.)	8. Council discussion.
9. City funds may not be used for predevelopment or engineering and architectural purposes. (III.B.5)	9. City funds will be for construction only. This provision can be stipulated in any agreement.
10. Staff will investigate financial stability of company. (III.C.3.)	10. Biltmore Farms, Inc.
11. Staff will calculate expected return on investment and present project to City Council for preliminary approval. (III.C.4.)	11. See expected return calculations which follow this chart.
12. Special consideration given to companies that pay employees the State of NC average weekly manufacturing rate, plus 10%; minority and/or female owned businesses that are socially responsible and environmentally sensitive. (Not Policy Requirements).	12. Park will attract information intensive industries, paying above-average professional salaries. Firms will be environmentally sensitive. Will not store nor produce environmentally hazardous materials.

Based upon conformance with the City's Economic Development Policy, staff recommends that Council agree in principal to provide Biltmore Farms, Inc. with the requested water and sewer lines and provide funding for the high tech/flex space building.

CALCULATION FOR PUBLIC INVESTMENT

CITY OF ASHEVILLE
ECONOMIC DEVELOPMENT INCENTIVE POLICY
(RESOLUTION #94-211)

Pod 3 (Phase 1)
(Knowledge Center not included)

Real Estate Investment (Land/Buildings):	$ 6,225,000
City Tax Rate:	$ .57/$100 a.v.
Annual Yield:	$ 35,482
Five-year Projected Yield:	$ 177,410
City Investment (90%):	$ 159,669

Pods 1, 2, 3
(Knowledge Center not included)

Real Estate Investment (Land/Buildings):	$23,225,000.
City Tax Rate:	$ .57/$100 a.v.
Annual Yield:	$ 132,382.
Five-year Projected Yield:	$ 661,912.
City Investment (90%):	$ 595,720.

Should City Council agree in principal to provide Biltmore Farms, Inc. with the requested water and sewer lines and provide funding for the high tech/flex space building, City staff will continue working with those involved in the needed improvements to structure an agreement which will contain performance commitments addressing such factors as:

1. A commitment from Biltmore Farms, Inc. to develop the park site within a specified time period.

2. Detailed performance commitments from Biltmore Farms, Inc. including the commitment to petition for annexation.

3. A commitment from all partners to ensure participation in the project.

4. A schedule of disbursements of public funds.

5. Any other provisions Council may wish to add to insure that the public purpose is being served.

It was the consensus of City Council to agree in principal to provide Biltmore Farms, Inc. with the requested water and sewer lines and provide funding for the high tech/flex space building, and to have City staff continue working with those involved in the needed improvements to structure an agreement which will contain performance commitments outlined above.

ANIMAL CONTROL

Contract with Buncombe County Friends for Animals

Police Chief Will Annarino asked for Council's consideration of entering into a contract with Buncombe County Friends for Animals, Inc., (BCFFA) for the administration, regulation, care and enforcement of animal control services within the City.

The Police Department is seeking authorization to enter into a contract with BCFFA for a twenty one (21) month period beginning on the 1st day of October, 1997, with automatic renewal after the first twenty one (21) months, for twelve (12) month intervals, for the administration, regulation, care and enforcement of animal control within the corporate limits of the City.

Buncombe County Friends for Animals, Inc., is a non-profit organization whose mission is to improve the quality and standards of animal welfare. BCFFA currently operates the pet adoption center (Animal Shelter) as well as providing animal control services to the County of Buncombe.

A contract has been negotiated by BCFFA's and City of Asheville's Staff which describes responsibilities and requirements to be met by BCFFA and an agreed upon budget, for the term of the contract, provided by the City of Asheville.

Major features of the contract include:

1. The terms of the contract will be for twenty one (21) months beginning October, 1997, and renewable on a yearly basis thereafter unless either agency desiring not to renew shall provide the other agency with a one year notice.

2. The City shall compensate BCFFA $72,127.53 for services rendered from October 1, 1997, to June 30, 1998, and shall compensate BCFFA $96,170.00 for services rendered by BCFFA from July 1, 1998, to June 30,1999. The source of all funds will be the City's general fund. The City budget for the Animal Control function for FY 1996/97 was $80,558. Future funding will be determined through the City's budget development process.

3. BCFFA is authorized to act on behalf of the City of Asheville in the administration and enforcement of animal control services, to include enforcing any and all provisions of the City's Animal Control Ordinance and other responsibilities spelled out in the contract for administration of services. These include:

    a. Be available to residents of the City on a 40 hour basis , Monday through Friday, five days per week and subject to on-call response, at all other times, to animal bites, animal injuries, dangerous animal complaints or other cases of emergency.

    b. Provide training to all animal control officers prior to their performing their duties.

    c. Ensure that all policies, practices and procedures of BCFFA comply with federal, state and local laws, rules and regulations.

In reviewing the contract staff feels that the benefits which the City and our citizenry will realize from this contract include:

- Programs currently administered by BCFFA, such as
- Pet Adoptions;
- Spay and Neuter programs;
- Rabies clinics; and
- Pet care and pet educational programs.
- BCFFA can work with pet owners to vaccinate pets.

- Some administrative duties such as follow up previously performed by Captain, Sergeant, or patrol officers will be eliminated.
- Certified Professional Animal Control Officers certified through National Animal Control Academy.
- Additional personnel created through County wide consolidation of Animal Control responsibilities

Staff recommends authorizing the City Manager to contract with BCFFA for the administration, regulation and enforcement of animal control services within the City of Asheville.

Mr. Richard Bass, President of Buncombe County Friends for Animals Inc., reviewed with Council the services the BCFFA can provide and have been providing to Buncombe County. He explained the role of BCFFA.

Ms. Barbara Bellows, Director of Animal Control, also spoke in support of this contract and how the BCFFA will be able to help the City in it's animal control.

Animal Control Ordinance Amendment

Police Chief Will Annarino asked for Council's consideration of an ordinance amending Chapter 3 (Animals) of the Code of Ordinance of the City of Asheville.

The Asheville Police Department is seeking authorization to enter into a contract with Buncombe County Friends for Animals, Inc., for the administration, regulation, care and enforcement of animal control services within the City of Asheville. In order to do so, Chapter 3, Section 3-6 (Administration), of the current Animal Control Ordinance must be revised to allow the City Manager to designate a local agency to administer the City's Animal Control Services.

Staff recommends revising Chapter 3, Section 3-6 (Animals) of the Code of Ordinances of the City of Asheville so as to authorize the City Manager to designate a local agency to administer the City's Animal Control Services.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

HILLS OF BEAVERDAM

Ms. Suzanne Molloy, Assistant Director of Public Works, said that staff has negotiated the terms of a contract for upgrade and acceptance of the streets as City-maintained streets located in the Hills of Beaverdam.

The property owners of Hills of Beaverdam have requested for the City to make improvements to the streets located in the Hills of Beaverdam. Since the adoption of Resolution No. 96-216, staff has negotiated with the property owners as to the requirements of acceptance, necessary easements, and costs. All property owners on the following streets: Skyview Drive, Skyview Circle, Sunset Trail, and Crescent Lane have signed all necessary easements to proceed with the project.

The estimated cost of the project is $137,000 for street improvements to Skyview Drive, Skyview Circle, Sunset Trail, Crescent Lane and the addition of several storm drainage improvements within the development. Upon execution of the agreement, all improvements would be in accordance with the contract and plans as prepared by the City of Asheville and William Lapsley G. Lapsley & Associates, P.A. The project is scheduled to begin in September.

Staff recommends the adoption of the resolution authorizing the City Manager to execute an agreement with the property owners of Hills of Beaverdam for street improvements.

Upon inquiry of Councilman Hay, a representative from the Hills of Beaverdam said that they didn't realize the extent of easements needed and was pleased that the project will now be able to proceed.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FIRE STATION 4/POLICE RESOURCE CENTER

Fire Chief John Rukavina said that at the City Council July 15, 1997 worksession, staff and City Council reviewed the status of bids for the new Fire Station 4/Police Resource Center facility in Skyland, in light of the fact that the lowest bid received exceeded the architect's estimate, as well as budgeted and available funds. During that review, City Council members raised questions and offered suggestions on how to respond to the variance between low bid and available funds.

On July 16, 1997, staff met with Barney Woodard to share the questions raised and suggestions made at the previous day's worksession. Mr. Woodard, in turn, agreed to review his design in light of those questions and suggestions, and to meet with the low bidder, H & M Constructors, to negotiate a reduction, if possible. On July 26, 1997, Mr. Woodard delivered a report and recommendations to staff.

Based on his conversations with a representative of H & M Constructors and his reassessment of the building design, Barney Woodard recommends the following:

(1) The Fire Station 4/Police Resource Center bids currently in hand be rejected, and the building be redesigned and rebid; and

(2) The redesign include a combination of reduction in size of living quarters, deletion of one of two apparatus bays, deletion of a second-floor storage area and/or deletion of certain contract allowances, for total savings that would result in a bid of not more than $600,000.

Staff recommends that the redesign incorporate the following recommendations by Mr. Woodard:

(1) Reduction of living/office quarters by 2006 sq. ft., at an estimated savings of $150,000;

(2) Deletion of certain contract allowances for miscellaneous equipment and identification signs for a cost savings of $34,000; and

(3) As a bid alternate, deletion of one fire apparatus bay.

The Police Chief and Fire Chief concur in this recommendation.

Staff recommends that City Council reject all bids received on June 5, 1997, and adopt a resolution authorizing the City Manager to enter into an agreement with Barney Woodard, AIA, to redesign Fire Station 4/Police Resource Center in a manner consistent with staff's recommendation.

Vice-Mayor Field did not want to eliminate a bay when she felt sure we would need it in the future.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MEMORANDUM OF UNDERSTANDING WITH HABITAT FOR HUMANITY FOR PROPERTY OFF BROADVIEW DRIVE

Mr. Marvin Vierra, Community Development Director, said that the Memorandum of Understanding identifies responsibilities of the City of Asheville and Habitat for Humanity in the joint development of a Single Family Owner-Occupied subdivision off Broadview Drive.

The Memorandum of Understanding provides for a cooperation agreement between the Asheville Area Habitat for Humanity and the City of Asheville in the joint development of 12.23 acres of land off Broadview Drive into an affordable owner-occupied single family housing subdivision. Under cooperation with Habitat, the City will design the subdivision, construct the infrastructure and landscaping, and build five single-family homes within the subdivision. The City will also be working with the neighborhood in the area. The City will also transfer the ownership of the land to Habitat who will construct the remaining homes and sell them to low and moderate income families for homeownership.

The Community Development staff recommends adoption of the Resolution.

Upon inquiry of Councilman Sellers, Mr. Vierra said that there is a good possibility of a park could be built on that land.

Mr. Vierra said that even though the City doesn't have total support from the neighborhood, as concerns were expressed at the community meeting, the City will continue to work with community to show that these homes will increase their property values.

When Councilman Sellers asked about how many houses the City would be building, Mr. Vierra said that the City hoped to build at least 30 houses, noting that the zoning ordinance would allow a developer to come in and build 96 houses on that same property.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REQUEST TO USE CITY LOGO - ASHEVILLE TILEWORKS & POTTERY

Assistant City Manager Doug Spell asked for consideration of a request from Asheville Tileworks & Pottery to use the City logo on commemorative tiles.

The City of Asheville has received a request from Asheville Tileworks & Pottery to allow them to use the Asheville City logo for a tile they would create and sell locally for both residents and visitors. The tile would have the Asheville City logo printed on it and "Asheville" printed beneath the logo. In the July 23, 1997 letter, Mrs. Anne Alexander indicated that the tile would be completely handmade and hand decorated. She also indicated thatshe felt that the "city would benefit in the reinforcement of pride in our city."

As you may recall, in April 1996 a similar request was received from the Lewis Rathbun Wellness Center whereby they would use City Hall as a subject for their collector's series of ornaments. To staff's knowledge, this was the first time that such a request had been received. Therefore, we indicated that City Council could adopt a resolution authorizing the Lewis Rathbun Wellness Center to use the City logo as a subject matter on ornaments they would produce and sell. The difference with respect to this request is that the prior request was from a non-profit agency. In discussions with the City Attorney, he does not foresee any problem arising from the City granting permission to Asheville Tileworks & Pottery to use the City logo as requested herein.

City staff recommends that a resolution be adopted granting permission for Asheville Tileworks & Pottery to use the Asheville City logo as a subject for handmade and hand decorated commemorative tiles which they would create and sell.

City Attorney Oast said that he is investigating avenues which the City can take to ensure that the use of the City logo does not get out of hand if Council feels a request is not representative of the City. He said that he would have a report for Council at the upcoming retreat or at a meeting within the next few weeks.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BUDGET AMENDMENT RE: STATE SALES TAX

Assistant City Manager Doug Spell said that the Asheville Civic Center owes sales tax on alcohol sales to the State of North Carolina in the amount of $17,111.54 for which funding is not currently available.

Many events at the Asheville Civic Center offer the sale of alcoholic beverages. Sales tax is due to the State of North Carolina on the sale of such beverages. It has been the practice at the Civic Center to collect such sales tax from the alcohol patrons. It is, therefore, the responsibility of the Asheville Civic Center to remit such sales tax to the State of North Carolina on a timely basis. For the period April, 1990 through June, 1997, the sales tax from alcohol sales was collected from the patrons but not remitted to the State. The amount of such taxes due for the period is $17,111.54 and is currently due and payable. Sales tax due beginning July, 1997 will be remitted in a timely manner. The Civic Center is seeking additional funding in order to make the payment to the State of North Carolina for the back sales tax due as such funds are not appropriated in the current year. An appropriation of General Fund fund balance is required to meet the funding request.

Staff recommends the City Council approve the $ 17,112 funding request from the Asheville Civic Center for fiscal year 1997/98. Funding shall be provided from an appropriation of General Fund fund balance.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

DISCUSSION REGARDING TOWER ORDINANCE CONSULTANT

Councilman Cloninger said that even though he was pleased with our current telecommunication tower ordinance, he felt that there are some areas which need to be improved. He noted the following four areas in particular: (1) maximizing the coverage area; (2) minimizing the number of towers; (3) maximizing the use of stealth technology; and (4) looking for opportunities to make money off of the companies looking to provide services in these areas. He felt that the City should hire a consultant to help us with addressing this very complicated issue. He was optimistic that the consultant could be paid through fees with minimal out of pocket expense to the City. He hoped that when we develop a more comprehensive ordinance, it is essential to get input from not only the community but also the telecommunication tower industry. Planning & Development Director Julia Cogburn agreed with Councilman Cloninger.

Vice-Mayor Field said that there is a need for better coverage but Council still needs to respond to the needs of the community and neighborhoods. She felt the ordinance should be something that allows us to move forward in the 21st Century in terms of technology and still protect the views that we have.

Councilman Worley also supported this request and stressed that we needed to get better coverage without hampering the views and detracting from the beauty of our area.

Councilman Hay noted that Asheville took a leadership role with the first good strong ordinance regulating telecommunication towers.

It was the consensus of Council to instruct the Planning & Development Department to proceed with preparing a Request for Proposals for a telecommunication tower consultant.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 97-124 - RESOLUTION CALLING FOR A SPECIAL MEETING ON FRIDAY, AUGUST 15, 1997, AT 12:00 NOON AT THE GROVE ARCADE BUILDING FOR THE PURPOSE OF EXECUTING AGREEMENTS WITH THE GROVE ARCADE PUBLIC MARKET FOUNDATION FOR THE LEASE OF THE GROVE ARCADE BUILDING TO THE FOUNDATION, AND FOR THE PRESERVATION AND OPERATION OF THE BUILDING BY THE FOUNDATION

City Attorney Oast said that this Resolution sets a special meeting of the City Council for the purpose of executing the lease and operating agreements with the Grove Arcade Public Market Foundation. The Resolution outlines that the purpose of the special meeting is for the execution of agreements with the Grove Arcade Public Market Foundation for the lease of the building, and preservation and operation of the building by the Foundation. The meeting is to be held at 12:00 Noon on August 15, 1997, at the Grove Arcade Building.

Councilman Worley moved to waive the rules and take formal action on this item. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-124. This motion was seconded by Councilman Sellers and carried unanimously.

88

BOARDS AND COMMISSIONS

As an official duty of the Vice-Mayor to oversee the process of board and commission appointments and for her and the committee members to make recommendations to the entire Council, she recommended that if someone has served one term, is interested in reappointment and has met the attendance requirements, that that person be reappointed to serve a second term.

Subject to the City Clerk verifying the criteria above, the Committee recommended the following: Carole G. Williams and Glenda McDowell be reappointed to the Americans with Disabilities Act Compliance Committee.

Vice-Mayor Field said that because the Minority Business Plan is being revised and in that Plan the make-up of the Minority Business Commission will change, it was the Committee's feeling that City Council should re-appoint the following until the new Plan is adopted: Robbie Williams (YMI Cultural Center representative), Bonnie Habel (A-B Community Relations Council representative) and Ronnie Blythe (A-B Development Center representative) on the Minority Business Commission.

It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork for appointments as outlined above by Vice-Mayor Field.

It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork to appoint Don Tomlinson to the Tourism Development Authority.

It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork to appoint Sam Powers as the Chamber of Commerce representative to the City Business and Development Commission, to serve the unexpired term of Jay Garner, term to expire October 1, 2000.

City Council instructed the City Clerk to determine if Toni Huskey was a City resident and if so, to arrange an interview for her for a vacancy on the Firemen's Relief Fund.

City Council instructed the City to Clerk to contact Nelda Holder to see if she was interested in a vacancy on the Asheville Tree Commission.

City Council instructed the City Clerk to arrange interviews for Max Swicegood, Billie Buie, Jan Davis, Jerry Bailey, Arthur Anderson, Lionel Williams, Anne Campbell, Catherine Gallagher and Bill Moore for the Planning & Zoning Commission.

CLOSED SESSION

At 5:07 p.m., Councilman Worley moved to go into closed session for the following reasons (1) to consider the qualifications, competence, performance, character, or fitness of an individual public officer or employee - statutory authority is G.S. 143-318.11 (a) (6); (2) to prevent disclosure of information that is privileged or confidential pursuant to the laws of North Carolina, specifically, the Personnel Privacy Act, G.S. 160A-168 - statutory authority is G.S. 143-318.11 (a) (1); and (3) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney - statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:20 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 6:20 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - August 12, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman James J. Skalski

INVOCATION

Councilman Hay gave the invocation.

I. PROCLAMATIONS:

A. SISTER CITY PRESENTATION

Mr. George Yates, President of the Asheville Sister City Program, introduced guests from our Sister City in Vladikavkav, Russia.

Mr. Dennis Hodgson, Immediate Past President of the Asheville Sister City Program, presented the Mayor and City Council with a gift from the Mayor of our Sister City in Saumur, France. The gift was a watercolor of the City Hall Building in Saumur, France.

On behalf of the entire City Council, Mayor Martin welcomed our Sister City visitors and expressed thanks for the beautiful gift.

B. PROCLAMATION PROCLAIMING AUGUST 23-24, 1997, AS "STUMP TOWN COMMUNITY REUNION DAYS"

Mayor Martin proclaimed August 23-24, 1997, as "Stump Town Community Reunion Days" and presented the proclamation to Ms. Phyllis Sherrill, who briefed the Council on some activities taking place on those days.

II. CONSENT:

Mr. Ralph Bishop asked that Items A. & I. be removed from the Consent Agenda for discussion.

Resolutions & Motions:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 22, 1997; THE COMMUNITY MEETING HELD ON JULY 29, 1997; AND THE WORKSESSION HELD ON AUGUST 5, 1997

This item was removed from the Consent Agenda for further discussion.

B. RESOLUTION NO. 97-125 - RESOLUTION NAMING THE PROPERTY AT THE CORNER OF STARNES & CUMBERLAND AVENUES IN THE MONTFORD COMMUNITY "HUMMINGBIRD PARK"

Summary: The consideration of City property located at the corner of Starnes and Cumberland be named Hummingbird Park as requested by the Parks & Recreation Department Advisory Board.

In July of 1996, property located at the corner of Starnes and Cumberland was transferred to the Parks and Recreation Department to be used as a passive park. Over the past year, Montford residents have been soliciting names for this park area. The general consensus of the

Montford residents is to name this piece of property Hummingbird Park. The residents have suggested this is an appropriate name since the hummingbird has become the official symbol of the Montford historic neighborhood and is displayed on banners, T-shirts, and the newsletter.

The Parks and Recreation Department Advisory Board recommends City Council name City property located at the corner of Starnes and Cumberland as Hummingbird Park.

RESOLUTION BOOK NO. 24 - PAGE 150

C. RESOLUTION NO. 97-126 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH THE HILLS OF BEAVERDAM HOMEOWNERS ASSOCIATION INC. FOR STREET IMPROVEMENTS

Summary: Staff has negotiated the terms of a contract for upgrade and acceptance of the streets as City-maintained streets located in the Hills of Beaverdam.

The property owners of Hills of Beaverdam have requested for the City to make improvements to the streets located in the Hills of Beaverdam. Since the adoption of Resolution No. 96-216, staff has negotiated with the property owners as to the requirements of acceptance, necessary easements, and costs. All property owners on the following streets: Skyview Drive, Skyview Circle, Sunset Trail, and Crescent Lane have signed all necessary easements to proceed with the project.

The estimated cost of the project is $137,000 for street improvements to Skyview Drive, Skyview Circle, Sunset Trail, Crescent Lane and the addition of several storm drainage improvements within the development. Upon execution of the agreement, all improvements would be in accordance with the contract and plans as prepared by the City of Asheville and William Lapsley G. Lapsley & Associates, P.A.

Staff recommends the adoption of the Resolution Authorizing the City Manager to Execute an Agreement with the Property Owners of Hills of Beaverdam for Street Improvements.

RESOLUTION BOOK NO. 24 - PAGE 151

D. RESOLUTION NO. 97-127 - RESOLUTION AUTHORIZING THE USE OF THE CITY LOGO BY ASHEVILLE TILEWORKS & POTTERY

Summary: Consideration of a request from Asheville Tileworks & Pottery to use the City logo on commemorative tiles.

The City of Asheville has received a request from Asheville Tileworks & Pottery to allow them to use the Asheville City logo for a tile they would create and sell locally for both residents and visitors. The tile would have the Asheville City logo printed on it and "Asheville" printed beneath the logo. In the July 23, 1997 letter, Mrs. Anne Alexander indicated that the tile would be completely handmade and hand decorated. She also indicated that she felt that the "city would benefit in the reinforcement of pride in our city."

As you may recall, in April 1996 a similar request was received from the Lewis Rathbun Wellness Center whereby they would use City Hall as a subject for their collector's series of ornaments. To staff's knowledge, this was the first time that such a request had been received. Therefore, we indicated that City Council could adopt a resolution authorizing the Lewis Rathbun Wellness Center to use the City logo as a subject matter on ornaments they would produce and sell. The difference with respect to this request is that the prior request was from a non-profit agency. In discussions with the City Attorney, he does not foresee any problem arising from the City granting permission to Asheville Tileworks & Pottery to use the City logo as requested herein.

City staff recommends that a resolution be adopted granting permission for Asheville Tileworks & Pottery to use the Asheville City logo as a subject for handmade and hand decorated commemorative tiles which they would create and sell.

RESOLUTION BOOK NO. 24 - PAGE 152

E. RESOLUTION NO. 97-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT EXTENDING THE TERMS OF THE 1995 AGREEMENT ESTABLISHING THE ASHEVILLE FIRE DEPARTMENT AS THE "REGIONAL RESPONSE TEAM" FOR HAZARDOUS MATERIALS EMERGENCIES IN WESTERN NORTH CAROLINA

Summary: The consideration of a sixty (60) day extension of an agreement for hazardous materials emergency response in Western North Carolina.

The N. C. Dept. of Crime Control and Public Safety's Emergency Management Division has asked the City to extend its present agreement with the State of North Carolina for hazardous materials emergency response in Western North Carolina pending submittal of a new two-year agreement for City Council consideration.

Two years ago, the Asheville Fire Department was selected by the state's Emergency Management Division to respond on behalf of the state to hazardous materials emergencies in Western North Carolina. After adoption of a two-year agreement by the state and the City Council, the Asheville Fire Department became the "regional response team" for hazardous materials incidents in Emergency Management Region F--Western North Carolina.

The Emergency Management Division has asked the City of Asheville to consider a new "regional response team" agreement for fiscal years 1998 and 1999. Pending delivery of that proposed agreement, the Emergency Management Division has asked that the City extend the present agreement for sixty days. Therefore, the extension would be for the time period of July 1, 1997, to August 29, 1997.

The Fire Chief recommends authorization of the City Manager to enter into an agreement to extend the present City of Asheville/State of North Carolina "regional response team" agreement for a period of sixty (60) days.

RESOLUTION BOOK NO. 24 - PAGE 153

F. RESOLUTION NO. 97-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BUNCOMBE COUNTY FRIENDS FOR ANIMALS INC. TO PROVIDE ANIMAL CONTROL SERVICES WITHIN THE CITY OF ASHEVILLE

Summary: Consideration of entering into a contract with Buncombe County Friends for Animals, Inc., (BCFFA) for the administration, regulation, care and enforcement of animal control services within the City.

The Police Department is seeking authorization to enter into a contract with BCFFA for a twenty one (21) month period beginning on the 1st day of October, 1997, with automatic renewal after the first twenty one (21) months, for twelve (12) month intervals, for the administration, regulation, care and enforcement of animal control within the corporate limits of the City.

Buncombe County Friends for Animals, Inc., is a non-profit organization whose mission is to improve the quality and standards of animal welfare. BCFFA currently operates the pet adoption center (Animal Shelter) as well as providing animal control services to the County of Buncombe.

A contract has been negotiated by BCFFA's and City of Asheville's Staff which describes responsibilities and requirements to be met by BCFFA and an agreed upon budget, for the term of the contract, provided by the City of Asheville.

Major features of the contract include:

1. The terms of the contract will be for twenty one (21) months beginning October, 1997, and renewable on a yearly basis thereafter unless either agency desiring not to renew shall provide the other agency with a one year notice.

2. The City shall compensate BCFFA $72,127.53 for services rendered from October 1, 1997, to June 30, 1998, and shall compensate BCFFA $96,170.00 for services rendered by BCFFA from July 1, 1998, to June 30,1999. The source of all funds will be the City's general fund. The City budget for the Animal Control function for FY 1996/97 was $80,558. Future funding will be determined through the City's budget development process.

3. BCFFA is authorized to act on behalf of the City of Asheville in the administration and enforcement of animal control services, to include enforcing any and all provisions of the City's Animal Control Ordinance and other responsibilities spelled out in the contract for administration of services. These include:

    a. Be available to residents of the City on a 40 hour basis , Monday through Friday, five days per week and subject to on-call response, at all other times, to animal bites, animal injuries, dangerous animal complaints or other cases of emergency.

    b. Provide training to all animal control officers prior to their performing their duties.

    c. Ensure that all policies, practices and procedures of BCFFA comply with federal, state and local laws, rules and regulations.

In reviewing the contract staff feels that the benefits which the City and our citizenry will realize from this contract include:

- Programs currently administered by BCFFA, such as
- Pet Adoptions;
- Spay and Neuter programs;
- Rabies clinics; and
- Pet care and pet educational programs.
- BCFFA can work with pet owners to vaccinate pets.
- Some administrative duties such as follow up previously performed by Captain, Sergeant, or patrol officers will be eliminated.

- Certified Professional Animal Control Officers certified through National Animal Control Academy.
- Additional personnel created through County wide consolidation of Animal Control responsibilities

Staff recommends authorizing the City Manager to contract with BCFFA for the administration, regulation and enforcement of animal control services within the City of Asheville.

RESOLUTION BOOK NO. 24 - PAGE 154

G. RESOLUTION NO. 97-130 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION GRANT AGREEMENT TO CONSTRUCT EXTENDED SAFETY AREA, RUNWAY 16 (PHASE II) AND IMPROVE AIRPORT ACCESS ROAD

Summary: The Airport Authority has asked City Council to approve a grant from the FAA in the amount of $4,196,897.

This grant, in the amount of $4,196,894, consisting of $3,082,947 for Fiscal Year 1997 and $1,113,947 for Fiscal Year 1998, consists of a project to construct extended safety area, Runway 16 (Phase II) and improve airport access road.

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 155

H. RESOLUTION NO. 97-131 - RESOLUTION AUTHORIZING THE DREAMLAND CONVENIENCE STORE AT 91 SOUTH TUNNEL ROAD TO DISPENSE MOTOR FUEL AT AN UNATTENDED SERVICE STATION FACILITY

Summary: The consideration of a request for a permit to dispense motor fuel from unattended fuel pumps as required by Volume V of the NC State Building Code/Asheville Fire Prevention Code.

The North Carolina State Fire Code (adopted in Asheville as the Asheville Fire Prevention Code) authorizes public service stations to dispense vehicle fuel via credit card (with no attendants present) with approval of the Fire Chief and the City Council.

In 1996, the Asheville Fire Department established minimum safety requirements for such unattended fuel delivery. Those requirements include on-site absorbent that firefighters can use in event of a fuel spill, a telephone within 75 feet of the fuel delivery area for "911" notification of a fuel spill and a limit (either by dollar value or gallons) on how much fuel can be dispensed via credit card.

Paul J. Pless of the Dreamland Convenience Store at the Dreamland Drive-in site has requested a permit for unattended fuel dispensing at the Dreamland Convenience Store. He is familiar with the Asheville Fire Department's safety requirements, and has agreed in writing to meet those requirements.

Based on this agreement, the Fire Chief recommends City Council approval of this permit.

Staff recommends adoption of resolution authorizing Dreamland Convenience Store to dispense motor fuel at unattended fuel pumps, subject to Asheville Fire Department safety requirements.

RESOLUTION BOOK NO. 24 - PAGE 156

I. MOTION AUTHORIZING THE PLANNING & DEVELOPMENT DEPARTMENT TO PREPARE A REQUEST FOR PROPOSALS FOR A TOWER ORDINANCE CONSULTANT

This item was removed from the Consent Agenda for further discussion.

J. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO REZONE A LOT ON LOGAN AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO CB II COMMERCIAL BUSINESS II

K. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO PARTIALLY REZONE 1899 HENDERSONVILLE ROAD FROM HB HIGHWAY BUSINESS TO OB OFFICE BUSINESS

L. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO REZONE 88 LOTS ON BREVARD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO RS-8 RESIDENTIAL SINGLE FAMILY

M. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO REZONE FOUR PROPERTIES ON OR BEHIND EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

N. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO APPLY THE MANUFACTURED HOUSING OVERLAY TO 31 PROPERTIES ZONED RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY IN THE EAST PORTER ROAD AREA

O. MOTION SETTING A PUBLIC HEARING ON AUGUST 26, 1997, TO REZONE PROPERTY ON BOONE STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO INDUSTRIAL DISTRICT

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Resolutions & Motions Consent Agenda and they will not be read.

Councilman Worley moved for the adoption of the Resolutions & Motions Consent Agenda. This motion was seconded by Vice-Mayor Field and carried unanimously.

ORDINANCES:

A. ORDINANCE NO. 2399 - BUDGET AMENDMENT FOR DELINQUENT STATE ALCOHOL SALES TAX AT THE CIVIC CENTER

Summary: The Asheville Civic Center owes sales tax on alcohol sales to the State of North Carolina in the amount of $17,111.54 for which funding is not currently available.

Many events at the Asheville Civic Center offer the sale of alcoholic beverages. Sales tax is due to the State of North Carolina on the sale of such beverages. It has been the practice at the Civic Center to collect such sales tax from the alcohol patrons. It is, therefore, the responsibility of the Asheville Civic Center to remit such sales tax to the State of North Carolina on a timely basis. For the period April, 1990 through June, 1997, the sales tax from alcohol sales was collected from the patrons but not remitted to the State. The amount of such taxes due for the period is $17,111.54 and is currently due and payable. Sales tax due beginning July, 1997 will be remitted in a timely manner. The Civic Center is seeking additional funding in order to make the payment to the State of North Carolina for the back sales tax due as such funds are not appropriated in the current year.

An appropriation of General Fund fund balance is required to meet the funding request.

Staff recommends the City Council approve the $ 17,112 funding request from the Asheville Civic Center for fiscal year 1997/98. Funding shall be provided from an appropriation of General Fund fund balance.

ORDINANCE BOOK NO. 16 - PAGE 278

B. ORDINANCE NO. 2400 - ORDINANCE AMENDING CHAPTER 3 OF THE ANIMAL CONTROL ORDINANCE TO PROVIDE FOR A DIRECTOR OF ANIMAL CONTROL

Summary: Consideration of an ordinance amending Chapter 3 (Animals) of the Code of Ordinance of the City of Asheville.

The Asheville Police Department is seeking authorization to enter into a contract with Buncombe County Friends for Animals, Inc., for the administration, regulation, care and enforcement of animal control services within the City of Asheville. In order to do so, Chapter 3, Section 3-6 (Administration), of the current Animal Control Ordinance must be revised to allow the City Manager to designate a local agency to administer the City's Animal Control Services.

Staff recommends revising Chapter 3, Section 3-6 (Animals) of the Code of Ordinances of the City of Asheville so as to authorize the City Manager to designate a local agency to administer the City's Animal Control Services.

ORDINANCE BOOK NO. 16 - PAGE 280

Mayor Martin said that members of Council have been previously furnished with copies of the ordinances on the Ordinance Consent Agenda and they will not be read.

Councilman Worley moved for the adoption of the Ordinance Consent Agenda. This motion was seconded by Vice-Mayor Field.

On a roll call vote of 6-0, the Ordinance Consent Agenda was adopted on its first reading.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 22, 1997; THE COMMUNITY MEETING HELD ON JULY 29, 1997; AND THE WORKSESSION HELD ON AUGUST 5, 1997

Mr. Ralph Bishop, resident of the City of Asheville, said that 160A-72 of the State law says that the City should keep a full and accurate record of the Council proceedings. He said that 132.6 of the State law says that any citizen is entitled to get a copy of those records upon payment of a fee. He asked why the City Clerk refuses to transcribe the full and accurate record of each Council meeting.

Mayor Martin said that Mr. Bishop's question has been answered a number of times but asked the City Attorney to once again answer Mr. Bishop's concern.

City Attorney Oast said that the General Statute that Mr. Bishop is referring to does require full and accurate minutes to be kept of City Council meetings and the other Statute to which he referred to does require the City Clerk or other appropriate official to furnish records to people if they are willing to pay the appropriate fee. He explained that full and accurate minutes does not mean verbatim minutes. He recently attended a N. C. Association of Municipal Attorney's Conference and he asked his fellow colleagues throughout the state and they all agreed with his interpretation of it stating that was what the Supreme Court affirmed in Maready v. City of Winston-Salem, in Forsyth County. Mr. Bishop can obtain a verbatim transcript of the City Council meeting upon payment of a fee, however, it was his understanding that Mr. Bishop has not paid the fee. He said the tapes are available and they can be transcribed and we will do that for the public if they will pay the appropriate fee.

Mayor Martin said that pursuant to City Council's Rules of Procedures, a written request must be made with the City Clerk with the appropriate fees being paid.

At the request of Mr. Bishop, City Attorney Oast read G.S. 160A-72.

Mr. Bishop then said that what City Attorney Oast is saying is that the Supreme Court re-wrote G.S. 160A-72 to say that full and accurate minutes of the Council meetings shall not be kept.

Mayor Martin said that the Asheville City Council does keep full and accurate Council minutes. He said that the problem is that Mr. Bishop does not agree with the interpretation of the Supreme Court in this instance.

Vice-Mayor Field moved to approve the minutes of the formal meeting held on July 22, 1997; the community meeting held on July 29, 1997; and the worksession held on August 5, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

MOTION AUTHORIZING THE PLANNING & DEVELOPMENT DEPARTMENT TO PREPARE A REQUEST FOR PROPOSALS FOR A TELECOMMUNICATION TOWER ORDINANCE CONSULTANT

Mr. Ralph Bishop asked how much the consultant will cost the taxpayers of Asheville. Councilman Cloninger responded by saying that one of the things we will be asking in our Request for Proposals from the consultants is for them to include in their proposals ideas of how their charges can be paid for from private grants and foundations and also from fees that will be charged to the telecommunication companies. He stated that our goal is that it will not cost the taxpayers any money.

Councilman Cloninger moved to authorize the Planning & Development Department to prepare a Request for Proposals for a telecommunication tower ordinance consultant. This motion was seconded by Councilman Sellers and carried unanimously.

REQUEST REGARDING BROADCASTING OF CITY COUNCIL MEETINGS

Vice-Mayor Field said that since this is the first regular meeting of the City Council which will be televised, she brought up the concern that the viewers do not know what the issues are on the Consent Agenda and wondered if it would be appropriate to read those out prior to the voting.

City Attorney Oast said that it is not required, but it is certainly appropriate to read them if that is the desire of City Council.

Mayor Martin instructed the City Manager to work with the video recorders to see how this could be accomplished without reading all the items on the Consent Agenda.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AUTHORIZE THE MAYOR TO SIGN AN AGREEMENT WITH J.L. de BALL - GIRMES OF AMERICA INC. CONCERNING THE CITY'S PARTICIPATION IN SITE DEVELOPMENT IMPROVEMENTS

RESOLUTION NO. 97-132 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH J.L. de BALL - GIRMES OF AMERICA INC. TO PARTICIPATE IN SITE DEVELOPMENT IMPROVEMENTS

Mayor Martin opened the public hearing at 5:26 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. John Scaralia, City Development Director, said that J.L. de Ball-Girmes of America, Inc. is looking to locate a supplementary production unit at its existing site on Old Charlotte Highway. Plans call for renovation of 45,000 sq. ft. of the existing 178,000 sq. ft. building in order to begin manufacturing. The company is looking to significantly expand within two years, and plans to accommodate 12 -16 employees by July 1, 1998; up to 50 by January 1, 2000. Wages will average $9 -12.00 per hour.

The firm plans to invest a total of $7 million within two years in the renovation and equipment upgrades for this operation; $2 million by July 1, 1998. Included will be repairs and upgrades to the roof, HVAC capacity, and plumbing and electrical improvements, as well as major machinery and equipment purchases. Staff has prepared an agreement outlining the terms and conditions of the City's participation.

The agreement consists of the City entering into a contract whereby the City would contribute $51,300 provided the terms of the contract are complied with by J.L. de Ball-Girmes of America Inc. The conditions include: the requirement of the corporation creating a minimum of 12 new jobs by July 1, 1998, with wages at $9-12 per hour; investment of $2,000,000 by July 1, 1998; and expansion to accommodate 50 employees. The guarantee for the City is through a Letter of Credit. The payback period for the City based on this financial assistance will be 4.5 years.

Staff recommends authorizing the Mayor to sign an agreement with J.L. de Ball-Girmes of America, Inc., concerning the City's participation in site development improvements.

Mayor Martin welcomed J.L. de Ball-Girmes of America Inc. back into the community.

Mayor Martin closed the public hearing at 5:29 p.m.

99

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-132. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 160

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 97-133 - RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCEL 5 AT THE CORNER OF COURTLAND AND MONTFORD AVENUE IN THE HEAD OF MONTFORD REDEVELOPMENT PROJECT TO ROBERT EIDUS AND JEANETTE SYPRZAK

Mr. Ed Vess, Field Services Coordinator, said that on April 22, 1997, the City Council directed the City Clerk to advertise for upset bids on Disposal Parcel 5. The advertisement ran in the Asheville Citizen-Times on April 25, 1997, as provided in G.S. 160A-269. An upset bid was received and the sale was readvertised on May 9, 1997, and May 23, 1997, each time in response to an upset bid. No upset bid was received in response to the advertisement on May 23, 1997. Therefore, the offer to purchase from Robert Eidus and Jeanette Syprzak in the amount of $53,000 was not upset.

On June 10, 1997, City Council tabled until July 8, 1997, consideration of approval of the sale to Mr. Eidus and Ms. Syprzak after hearing a complaint from Jacqueline Larsen that Mr. Eidus had reneged on an agreement with her regarding the purchase and development of the property. Ms. Larsen requested a meeting with City staff to discuss her complaint. On June 19, 1997, Bob Oast and Ed Vess met with Ms. Larsen and then with Mr. Eidus, Ms. Syprzak and Mr. Randolph Horner, a business associate of Mr. Eidus.

Ms. Larsen alleged that Mr. Eidus agreed to sell her his interest in the subject property upon completion of the proposed improvements, and then refused to honor this agreement after it was too late for Ms. Larsen to submit an upset bid. She indicated that she would have submitted an upset bid if she had known that Mr. Eidus would not honor the alleged agreement. Mr. Eidus acknowledged with Ms. Larsen discussing a possible agreement, but indicated that Ms. Larsen was to prepare a written proposal, and that any agreement would be subject to the approval of Mr. Eidus' attorney and business associates. Mr. Eidus said that the written proposal was never submitted.

The bidding process as conducted by the City staff is in compliance with state law. Based on the information available, the City Attorney's opinion is that there does not appear to be an agreement between Ms. Larsen and Mr. Eidus that would constitute a legal impediment to proceeding with the proposed transaction. Mr. Eidus and Ms. Syprzak have submitted a bid which complies with the bid requirements and is $14,000 over the established fair reuse value along with a statement of qualifications and financial responsibility. The upset bid period allowed ample time for Ms. Larsen or any other informed bidder to submit an upset bid. The failed negotiations between Mr. Eidus and Ms. Larsen have no bearing on the validity of the upset bid process nor the acceptability of the bid from Mr. Eidus and Ms. Syprzak. Rejecting the current bid and starting over would not guarantee a higher bid and could result in a lower bid.

Approval of the resolution will authorize the sale of the property to Robert Eidus and Jeanette Syprzak for the amount of $53,000.

Community Development staff recommends adoption of the resolution authorizing the sale of the subject property to Robert Eidus and Jeanette Syprzak in the amount of $53,000.

On July 8, 1997, Ms. Jacqueline Larsen said that she would be presenting Council with a narrative in response to the City's staff report. She said that she would be requesting City Council to reopen the bidding process. On July 22, 1997, Ms. Larsen did present City Council with a letter asking that the bidding process be re-opened.

Upon inquiry of Mayor Martin, City Attorney Oast said that the statute pursuant to which the City is proposed to dispose of this property indicates that the City may accept or reject all offers. If the offer were rejected, the City would not be subject to any legal action as a result of that. However, the City may not receive the same price again if it re-bids, which is $14,000 over the appraised value.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 97-133. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 161

V. NEW BUSINESS:

A. RESOLUTION NO. 97-137 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT LEASING THE GROVE ARCADE BUILDING FROM THE CITY OF ASHEVILLE TO THE GROVE ARCADE PUBLIC MARKET FOUNDATION

Councilman Cloninger said that the law firm of which he is a partner acts as legal counsel for the Grove Arcade Public Market Foundation and asked to be excused from voting. Therefore, Councilman Worley moved to execute Councilman Cloninger from voting on this matter due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

City Attorney Bob Oast said that this is the second step in the two-part process to authorize the City to lease the Grove Arcade Building to the GAPMF. That process was described in detail in the Staff Report submitted to you at your July 15 and 22, 1997, meetings.

If authorized, it is anticipated that the lease and other agreements will be executed at the Special Meeting scheduled for Friday, August 15, 1997.

If Council wishes to authorize the transaction with GAPMF, adoption of the attached resolution is recommended.

Upon inquiry of Vice-Mayor Field, City Attorney Oast explained what would happen to the Grove Arcade Building if the Grove Arcade Public Market Foundation would cease to be. The building would remain the City's, as would any improvements made by the Foundation or its sub-tenants. The City would either step into the shoes of the Foundation, or find another entity to take the Foundation's place.

Mayor Martin praised the work that has gone into this transaction. He said that it is expected that the City may ultimately receive as much as $1,500,000 million in sales tax revenues and we will have some return as a City from taxes or payment in lieu of taxes because of the renovation of this building. This project will hopefully employ as many as 400-600 new people in our downtown area. He hoped as this evolves and as it is restored that it will anchor that part of the downtown area and help to create a more vital downtown.

Mayor Martin invited the members of the public to attend the official ceremonies which will take place on Friday, August 15, 1997, at 12:00 Noon at the Grove Arcade Building.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-137. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 164

B. RESOLUTION NO. 97-134 - RESOLUTION REJECTING BIDS FOR CONSTRUCTION OF FIRE STATION 4/POLICE RESOURCE CENTER IN SKYLAND AND AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND EXECUTE A NEW AGREEMENT FOR REDESIGN OF FIRE STATION 4/POLICE RESOURCE CENTER

Fire Chief John Rukavina said that at the City Council July 15, 1997 worksession, staff and City Council reviewed the status of bids for the new Fire Station 4/Police Resource Center facility in Skyland, in light of the fact that the lowest bid received exceeded the architect's estimate, as well as budgeted and available funds. During that review, City Council members raised questions and offered suggestions on how to respond to the variance between low bid and available funds.

On July 16, 1997, staff met with Barney Woodard to share the questions raised and suggestions made at the previous day's worksession. Mr. Woodard, in turn, agreed to review his design in light of those questions and suggestions, and to meet with the low bidder, H & M Constructors, to negotiate a reduction, if possible. On July 26, 1997, Mr. Woodard delivered a report and recommendations to staff.

Based on his conversations with a representative of H & M Constructors and his reassessment of the building design, Barney Woodard recommends the following:

(1) The Fire Station 4/Police Resource Center bids currently in hand be rejected, and the building be redesigned and rebid; and

(2) The redesign include a combination of reduction in size of living quarters, deletion of one of two apparatus bays, deletion of a second-floor storage area and/or deletion of certain contract allowances, for total savings that would result in a bid of not more than $600,000.

Staff recommends that the redesign incorporate the following recommendations by Mr. Woodard:

(1) Reduction of living/office quarters by 2006 sq. ft., at an estimated savings of $150,000;

(2) Deletion of certain contract allowances for miscellaneous equipment and identification signs for a cost savings of $34,000; and

(3) As a bid alternate, deletion of one fire apparatus bay.

The Police Chief and Fire Chief concur in this recommendation.

Staff recommends that City Council reject all bids received on June 5, 1997, and adopt a resolution authorizing the City Manager to enter into an agreement with Barney Woodard, AIA, to redesign Fire Station 4/Police Resource Center in a manner consistent with staff's recommendation.

Vice-Mayor Field thanked the Fire Chief for his efforts because she felt it was important to try and save the project as designed because she knew that south Asheville is growing and it would be to the City's advantage to provide a building long-term that will fulfill the needs and today's dollars will be cheaper than tomorrow's dollars.

Upon inquiry of Councilman Hay, Fire Chief Rukavina said there was a minor change in the Police Resource Center side in that there was some space set aside for a break area and essentially now they will share that in the form of the Fire Department's kitchen facilities and dining area. Regarding the Fire Department side, it was in essence going from quarters from eight people down to four people, which is the typical company strength that is assigned to that station right now.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-134. This motion was seconded by Vice-Mayor and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 162

C. RESOLUTION NO. 97-135 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MEMORANDUM OF UNDERSTANDING WITH ASHEVILLE AREA HABITAT FOR HUMANITY FOR DEVELOPMENT OF PROPERTY OFF BROADVIEW DRIVE

Community Development Director Marvin Vierra said that the Memorandum of Understanding identifies responsibilities of the City of Asheville and Habitat for Humanity in the joint development of a Single Family Owner-Occupied subdivision off Broadview Drive.

The Memorandum of Understanding provides for a cooperation agreement between the Asheville Area Habitat for Humanity and the City of Asheville in the joint development of 12.23 acres of land off Broadview Drive into an affordable owner-occupied single family housing subdivision. Under cooperation with Habitat, the City will design the subdivision, construct the infrastructure and landscaping, and build five single-family homes within the subdivision. The City will also transfer the ownership of the land to Habitat who will construct the remaining homes and sell them to low and moderate income families for homeownership. They hope to be able to build 30 homes on that property noting that the area is zoned RS-8 which would allow as many as 97 homes to be built. This is the first time the City has been involved in the construction of single-family homes. The homes the City constructs will be in the price range of $75-85,000 and the homes Habitat constructs usually sell for $50-60,000. The Memorandum of Understanding with Habitat requires extensive neighborhood involvement throughout the design and construction of the subdivision. There has already been one neighborhood meeting and hopefully at the next one they will have the engineer present. He said there is enough property for open space, parks and trail development as part of the subdivision.

The Community Development staff recommends adoption of the Resolution.

Councilman Hay, Chairman of the Housing & Community Development Committee, noted that this is really an interesting and exciting project. The City will be using this as a model project for experimenting with building affordable housing in conjunction with the neighborhood. The residents will be participating even to the level of designing the homes.

Vice-Mayor Field, Chairman of the HOME Consortium, said that they have been involved in this project as well and they are very pleased with this project.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 97-135. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 163

VI. OTHER BUSINESS:

A. GROUP DEVELOPMENTS

On May 7, 1991, City Council adopted a procedure whereby the Planning Director reports final recommendations of the Planning and Zoning Commission ("Commission") relative to group developments at the next scheduled regular meeting of the City Council. In accordance with this procedure, the action of the Commission shall be final unless the City Council determines at their meeting to schedule a public hearing on the matter. The following actions were taken by the Commission on August 6, 1997:

Willow Lake Mobile Home Park (formerly Sand Hill Mobile Home Park)

Mr. Carl Ownbey, Urban Planner, said that this proposed development is for an expansion of 25 more lots to the approved 41 lot mobile home park on 12 acres located off Sand Hill Road in West Asheville.

On December 2, 1996, the Planning Department received the site plan for the proposed mobile home park. The proposed project included 41 individual lots to be developed for mobile homes. The site plan was presented to the Technical Review Committee on December 9, 1996, for their comments.

On January 8, 1997, the Commission reviewed the site plan and voted unanimously to approve the project with no conditions. On January 14, 1997, City Council reviewed the site plan and accepted the recommendation of Commission. On June 26, 1997, the revised site plan, now Willow Lake Mobile Home Park, was presented to the Planning staff within the 30 day period and certified that the revised project design was ongoing prior to the adoption of the Unified Development Ordinance. On July 21, 1997, the Technical Review Committee reviewed the revised site plan and made their comments.

On August 6, 1997, the Commission reviewed the revised site plan and voted unanimously to approve the project with the following four conditions: (1) submittal of letters on the availability of water and sewer for the additional home sites; (2) submittal of letter on availability of adequate water flow for fire protection for the additional home sites; (3) submittal of letter on approval of driveway permit; and (4) interior streets and cul-de-sacs be built to City standards.

The Planning staff and the Commission recommend approval of the Willow Lake Mobile Home Park with the four conditions.

Vice-Mayor Field stated that cul-de-sacs don't generate neighborhoods. She asked if there was any possibility for walking or bike paths or some way the people in that community can communicate to each other and to the rest of the neighborhoods around them. Mr. Ownbey said that at the northern side there is an existing mobile home park and on the south areas there is basically I-40. He said there is some open space that may be designed for some paths and trails.

Council accepted the report of the Commission with the above condition, thereby approving the project by taking no action.

Brooks-Howell Village

Mr. Carl Ownbey, Urban Planner, said that the proposed project consists of 11 new residential units (four duplexes and a triplex) and an activities center located on a 1.8 acre portion of the Brooks-Howell property.

Plans for this project were submitted within the 30 day window after the adoption of the Unified Development Ordinance. Therefore, the project is being reviewed as a group development under the previous zoning ordinance (pre-UDO zoning was R-3).

Because the development will provide housing for the elderly, Brooks-Howell is asking that Council allow a reduction in the parking requirements from 24 spaces to 14 spaces.

Council will also be asked to approve an alternative to the buffering requirements along the West property line. The ordinance allowed the buffer to consist of a five foot strip with a six foot fence. Brooks-Howell is working with the adjacent property owner to design a buffer, using primarily vegetation, which meets the intent of the ordinance and is more sensitive to the adjoining property.

At their August 6, 1997, meeting, the Commission voted unanimously to recommend approval of this group development. Additionally, the Commission recommended that Council allow the reduction in parking and approve the alternate buffering plan being developed.

This recommended approval was with three conditions: (1) Receipt of letters of approval for water, sewer and adequate water pressure for fire protection; (2) That the variance for alternate compliance with the City's buffering requirements either be granted by Council or a revised landscape plan must be submitted to staff; and (3) That the required handicap parking space be labeled more clearly on the plans.

Staff recommends City Council set a public hearing to consider the reduction in parking and approval of the alternate buffering plan.

Councilman Worley moved to set a public hearing on August 26, 1997, to consider reduction in parking and approval of the alternate buffering plan for Brooks-Howell Village. This motion was seconded by Councilman Cloninger and carried unanimously.

B. CITY COUNCIL MEETING DATES CHANGED

Councilman Worley moved to cancel the October 21, 1997, City Council worksession due to the N.C. League of Municipalities meeting in Raleigh, N.C. This motion was seconded by Vice-Mayor Field and carried unanimously.

Vice-Mayor Field moved to cancel the September 2, 1997, City Council worksession due to Labor Day holiday. This motion was seconded by Councilman Sellers and carried unanimously. City Attorney Oast said that he would prepare a resolution clarifying the City Council meeting dates in September for action at the next City Council worksession.

C. BICENTENNIAL

Vice-Mayor Field said there seems to be a concern among some Bicentennial Committee volunteers about the financial status of the Bicentennial celebration. She wondered how the City could help, noting, however, that the Committee has not asked the City for monetary help because they have chosen to raise that money in the community and they have done an outstanding effort. She did point out that the City is providing all of the support of the staff and it's facilities for the events.

Mayor Martin said that the City did appropriate $5,000 and the Committee had thought they could raise sufficient money on their own. As of last week they had commitments of $29,500. He understood another $6,000 has been added and potentially another $12,500. He noted, however, that this money is not specifically and only for the Bicentennial celebration but also for beautification efforts in the City. The City wants to make the celebration successful.

Councilman Cloninger was interested in knowing what the Bicentennial Committee has done in the way of trying to raise money.

Councilman Worley said that he would be happy to look at the funding options with the City Manager to see if there are any grants that might be available, what our budget situation is, etc., and report back at the next worksession.

D. BOARD/COMMISSION APPOINTMENTS

At the request of Councilman Hay who will be out of town during the scheduled meeting for the quarterly board/commission appointments, it was the consensus of City Council to postpone action on those appointments until the first formal meeting in September.

E. COMMENTS BY MR. RALPH BISHOP REGARDING CITY COUNCIL MINUTES

Mr. Ralph Bishop, resident of the City of Asheville, stated that G.S. 132.6 states that he can examine the minutes at anytime under the supervision of the Clerk. He asked how he could examine those minutes if they were not transcribed.

Mayor Martin said that Mr. Bishop could pay the appropriate fee to the Clerk and have a portion of the minutes transcribed verbatim. Mr. Bishop said that he paid the City Clerk two or three times upfront and he did not get the transcript verbatim.

City Clerk Burleson said that approximately three years ago Mr. Bishop did pay a fee upfront and she did transcript the portion of the minutes for him. When he read those verbatim minutes, he accused her of deleting words. Mr. Bishop then accompanied her into the Council Chamber to listen to the tape together and he accused her of tampering with the tape.

F. CLAIMS

The following claims were received by the City of Asheville during the week of July 18-24, 1997: Howell Brown (Water), Suzy Liabson (Water), Will Leverette (Water), Burdene Byerly (Water) and Shirley Wells (Streets).

The following claims were received during the week of July 25-31, 1997: Laura Rhymes (Streets), Steve Sarant (Streets), Tyson's Furniture (Streets), April Pendl (Parks & Recreation), Jean Williams (Water) and Ronnie Gentry (Sanitation).

The following claims were received during the week of August 1-7, 1997: James W. Moody (Sanitation), Sheba Bradley (Parks & Recreation), Nappier & Gunnells (Water), Carolyn Klepper (Water), and Gary Meadows (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 6:20 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Friday - August 15, 1997 - 12:00 Noon
Grove Arcade Building

Special Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: Councilman James J. Skalski

Mayor Martin recognized federal, state, and local officials. He stated that the Grove Arcade Building was constructed in the 1920's as a shopping arcade, and was actually used as one until taken over by the federal government during World War II. The federal government used it as an office building for about 50 years, and moved to the new federal court house in 1995. The Grove Arcade Building has historical, architectural, and cultural significance to the City of Asheville and its citizens, as evidenced by the placement of the Arcade on the National Register of Historic Places. Because of its importance to us, in 1994 the City began working to acquire the Grove Arcade Building from the United States government. The City was successful in that effort. On April 30, 1997, the General Services Administration transferred title of the Grove Arcade to the City of Asheville under the National Monument Act.

During the time the building was vacant, the City and other organizations have been exploring ways to preserve, restore and reuse the building. And, since January, the City and the GROVE Arcade Public Market Foundation have worked diligently on an agreement to rehabilitate and use the Arcade as a public market, with a mixture of commercial/office/residential uses on the upper floors.

Earlier this week, City Council authorized the lease of the Grove Arcade to the Grove Arcade Public Market Foundation - finding that the Foundation is a qualified organization to receive the Arcade and will preserve and use the Arcade in a manner that recognizes its significance while complying with the terms of the conveyance from the United States.

Mayor Martin then presented the Grove Arcade Public Market Foundation Chairman Chuck Reiley with a key to the Arcade along with a check in the amount of $100,000 to be used toward the rehabilitation of the Grove Arcade Building. Mayor Martin then signed a lease agreement and operating agreement to lease the Grove Arcade Building to the Grove Arcade Public Market Foundation.

Foundation Chairman Reiley announced and introduced Mr. Rick Skelton from Skelton Development as the selected developer for the project.

Mayor Martin closed the meeting at 1:15 p.m.

Magdalen Burleson
CITY CLERK

Russ Martin
MAYOR

Tuesday - August 19, 1997 - 3:00 p.m.

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field (arrived at 3:15 p.m.); Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman James J. Skalski

CONSENT:

Rhododendron Circle Special Assessments

Summary: The consideration of finding the Rhododendron Circle Special Assessment Project complete, assessing the total costs and calling for a public hearing announcing the completion of the Preliminary Assessment Roll; and accepting Rhododendron Circle as a City Street.

The Public Works Department has assessed the total costs for the Rhododendron Circle project, completed in June 1997 and prepared a preliminary assessment roll.

The property owners residing on Rhododendron Circle (beginning at its intersection with Rhododendron Place and ending at its intersection with Old Haw Creek Road) petitioned the City of Asheville to accept Rhododendron Circle as a City System street. Improvements consisting of spot repairs and patching along, tie-ins to driveways, and total resurfacing were necessary for acceptance of the street. Property owners on Rhododendron Circle should be assessed for fifty percent (50%) of the costs as agreed to in the original petition.

In June 1997, the Rhododendron Circle project was completed. The cost of enhancements to Rhododendron Circle project is $9,365.50 which amount includes the costs of labor, materials, equipment, and the costs of publication of notices and resolution.

A preliminary assessment role for benefited property owners has been prepared. The amount assessed to each benefited property owner is based upon fifty percent (50%) of the enhancement costs at an equal rate per foot of frontage.

The Public Works Department staff recommends the adoption of the Resolution Finding the Rhododendron Circle Project Complete, Assessing the Total Costs and Calling for a Public Hearing Announcing the Completion of the Preliminary Assessment Roll. Staff further recommends acceptance of Rhododendron Circle as a City Street.

Set Public Hearing to Close Old Haywood Road

Summary: The consideration of a resolution setting a public hearing to consider closing a portion of Old Haywood Road, also known as West Haywood Street, between Park Avenue and Roberts Street.

A petition has been received from Duo Investors, Dave Steel Company, Thomas Lee Finger, and Trio Investors requesting that Old Haywood Road, also know as West Haywood Street, between Park Avenue and Roberts Street be permanently closed to public use.

The petition received includes the affidavits of Thomas Lee Finger, A. Jerome Dave (Dave Steel Company), Sherry F. Rice (Duo

Investors), Michael Boyd Rice (Trio Investors). Duo and Trio Investors owns all of the property with frontage on this portion of Old Haywood Road that has been petitioned to be closed.

The permanent closing of the East Haywood Street was approved by City Council in 1987. The remaining portion of the street shown as Old Haywood Road, also known as West Haywood Street, was not closed at this time and has remained vacant.

The Public Works Department staff recommends setting a public hearing to consider permanently closing a portion of Old Haywood Road, also known as West Haywood Street, between Park Avenue and Roberts Street.

Report for Disposal of City-Owned Personal Property

Summary: Consideration of a resolution accepting a report on the sale of City-owned property for the Parks & Recreation Department, the Water Resources Department and the Fleet Management Division.

Resolution No. 85-99 adopted by City Council on June 25, 1985, established procedures for disposing of personal property valued at less than $500. Pursuant to these procedures, the resolution identifies property disposals for the Parks & Recreation Department, the Water Resources Department and the Fleet Management Division during the period of January 1, 1997 through June 30, 1997.

Revenues from these sales totals $2,420.10 and have been deposited as follows: $279.00 in the 20 fund for the Parks & Recreation Department, $405.60 in the 44 fund for Fleet Management Division and $1,735.50 in the 30 fund for the Water Resources Department.

Encroachment Agreement with Norfolk Southern Railway for Pipeline Replacement Program - Phase II, Contract B, East Asheville/East Buncombe Waterline Project

Summary: The consideration of a contract with Norfolk Southern Railway to allow a pipeline under their track as a part of the Pipeline Replacement Program - Phase II, Contract B.

The Engineering Department developed construction plans for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project and this right of way is included to complete the construction of the water pipeline. In order to move forward with the project, a resolution needs to be adopted authorizing the City Manager to execute on behalf of the City of Asheville a contract with Norfolk Southern Railway Company, for the City of Asheville to install, maintain, and operate a six inch water pipeline in a sixteen inch casing pipe, under and across the right of way or property and any tracks of Railway, at Milepost T-8 plus 3,275 feet, wholly with the confines of Candler School Road, for the construction of the Pipeline Replacement Program Phase II -Contract B, East Asheville/East Buncombe Water Line project.

Staff recommendations that City Council adopt a resolution authorizing the City Manager to execute a contract with Norfolk Southern Railway Company for the right of way for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project.

Consumption of Malt Beverages and/or Unfortified Wine at 1997 Goombay Festival

Summary: N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at special event or community festival. The 1997 Goombay! Festival Board, YMI Cultural Center and the Parks and Recreation Department recommends that possession and consumption of malt beverages and/or unfortified wine be allowed at the 1997 Goombay! Festival.

The Parks and Recreation Department recommends that City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 1997 Goombay! Festival.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

FAST TRACKERS SINGLE-FAMILY RESIDENTIAL PLANS REVIEW PROCESS TEAM

Mr. James Cheeks, Traffic Engineer, said that the Fast-Trackers Process Management Team, comprised of City Staff from Public Works, Building Safety, Water Resources and Planning and Development Departments have completed the assignment of reviewing the Single-Family Residence Plan Review Process.

The Fast-Tracker Team has performed the necessary evaluation and analyses associated with reviewing the Single-Family Residence Plan Review Process. The Building Safety Department determined that there was a need to analyze and review this process due to complaints from customers concerning the length of time it took to receive a permit to build a single-family residence in the City of Asheville. The team reviewed data for over 18 months and targeted the effects of the lack of personnel, seasonal increases in workloads, lack of homeowner experience with plans creation, designers inability to interpret the building codes, qualifications of persons submitting plans and changes in the process.

The team reviewed this data to determine countermeasures to reduce the turnaround time for these permits. He reviewed the countermeasures which were adopted by Building Safety Department. The issue of additional personnel was addressed in the Fiscal Year 1998 Budget. Additionally, staff is focusing on eliminating unnecessary steps which will help to further reduce the turnaround times.

The team will continue to monitor these changes to try to consistently provide the 3-day turnaround. If this process begins to operate at peak efficiency, staff will try to replicate it in other areas.

Mayor Martin thanked the team for the improvements they have made to streamline the plan review process.

REQUEST OF HEALTHSOUTH SPORTS MEDICINE AND REHABILITATION FOR DESIGNATION OF AN "OFFICIAL CITY ORNAMENT"

City Manager Westbrook said that HealthSouth Sports Medicine and Rehabilitation requests City Council designate an "Official City Ornament."

Mr. Lacy Dylewski of HealthSouth Sports Medicine and Rehabilitation submitted a letter requesting that the City Council designate an "Official City Ornament" each year which will be produced and sold as a fund raising program for United Cerebral Palsy. Should Council decide to designate an "Official City Ornament," City Manger Westbrook suggested the Vance Monument in Pack Square be chosen this year.

Mr. Eric Yarrington, Physical Therapist with HealthSouth, said that the HealthSouth Holiday Ornament project is a fund raising program that has a successful ten year history beginning in 1987 in Charleston, South Carolina. He explained that the project would be a 24 karat gold on brass or silverplate, three dimensional ornament designed to depict a local landmark in the community. Produced as an annual series, it becomes a collector's item where the community looks forward to seeing the new design each year. The ornament will be contained in a burgundy velvet case with a certificate number, thereby certifying its authenticity as a collector's item. All profits will go to the United Cerebral Palsy Foundation for public awareness for the disease.

Discussion surrounded if the City could, or should, officially designate City ornaments.

City Attorney Oast said that he is looking into the question of property rights the City has in their logo and he will investigate if any policy might be appropriate on this issue.

Mr. Yarrington said that if the City was not comfortable in actually designating an ornament as the "official" city ornament, he felt an endorsement, other than the official designation, would help their purpose.

Ms. Bonnie Brannon, representative from the Lewis Rathbun Wellness Center. said that last year they received an endorsement from City Council of the City Hall ornament. This year's ornament is Pack Square. She felt the Center was the first group to start with this ornament series and to endorse other "City" ornaments would dilute the effect of their sales.

Upon request of Councilman Cloninger to actually see the ornament they are asking to be endorsed, Mr. Yarrington showed them samples of what they have done in the past and Ms. Brannon showed Council the Pack Square ornament.

Mayor Martin felt endorsing the ornaments for non-profits is a nice way the City can lend a helping hand without having to actually spend money.

Vice-Mayor Field felt that since this the City has started receiving these requests, a policy needed to be formulated. She didn't think that the public really cared if the ornament was an "official" City ornament or not. She felt if they liked it, they would buy it.

Because the City has no control if someone wants to use the image of City Hall, etc., Councilman Cloninger felt City Council could perhaps endorse the image.

Councilman Hay suggested that we endorse the group that first started with the series.

Upon inquiry of Councilman Hay, Councilman Worley said that the Vance Monument is owned by the City of Asheville.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

EXCHANGE OF CITY-OWNED REAL PROPERTY ON KENTUCKY DRIVE FOR HOUSING AUTHORITY OWNED REAL PROPERTY ON BARTLETT STREET

Mr. Ed Vess, Field Services Coordinator, said that this is consideration of an exchange of property which has been negotiated with the Housing Authority of the City of Asheville in order to facilitate several beneficial projects.

The City has entered into a contract for the sale of 3 acres of land on Bartlett Street to the Douglas Company for the construction of 48 units of elderly housing subject to obtaining access to the public right-of-way. The Housing Authority owns the 7.4 acres of land surrounding the City's property on Bartlett Street. The City owns 4.9 acres of land on Kentucky Drive which is not currently being utilized.

The Housing Authority has agreed to exchange its land on Bartlett Street for the City's land on Kentucky Drive. Prior to transfer of the Kentucky Drive property to the Housing Authority the City would develop infrastructure for a subdivision on the site to provide homeownership opportunities to public housing residents. The estimated costs of extending the necessary infrastructure to this site is approximately $125,000. The City's Community Development Division desires to collaborate with the Authority in the development of the site in order to expand affordable housing opportunities. They hope to be able to build affordable houses The City's Parks and Recreation Department desires to utilize the Authority's land on Bartlett Street to develop a passive park for special populations in the Asheville community, along with additional greenway and provision of access to the City's Bartlett Street property.

The City's property on Kentucky Drive is valued by the Buncombe County Tax Office at $49,700.00 and the Authority's property on Bartlett Street is valued at $124,800.

Approval of the resolution will initiate the exchange of the properties through the process provided in N. C. G. S. 160A-271.

Mr. Vess said that they have had one meeting with the neighborhood.

Upon inquiry of Councilman Sellers, Mr. Vess said that even though the City is proposing to build 17 single-family homes on that site, 40 units would be allowed under the current zoning designation.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MUNICIPAL AGREEMENT WITH N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS AT THE INTERSECTION OF US 70, US 74 & HAW CREEK LANE

City Engineer Cathy Ball said that this resolution will be to authorize the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation ("NC DOT") for improvements at the intersection of US 70 (Tunnel Road), US 74 (South Tunnel Road) and SR 2863 (Haw Creek Lane).

The City Council authorized the City Manger to negotiate with NC DOT outlining the City's agreement to participate in sidewalks on intersection of US 70 and US 74. The NC DOT's preliminary estimate was $16,300 for the sidewalk. The final estimate for the construction of the sidewalks is $16,300, with the City's portion being 40% of estimate which is $6,520.00. Funding for the South Tunnel Road sidewalk was included in the Fiscal 1995-1996 Sidewalk Program. Construction is scheduled to begin January 1998.

An additional 30-inch water line may need to be relocated as a result of this construction, but the design is not complete at this time. The preliminary estimate NC DOT has given on the relocation of the water line is approximately $93,000. When the design is finalized then staff will request Council approve funds necessary to relocate the water line.

Staff recommends that City Council allow the City Manager to sign the Municipal Agreement for improvements at the intersection of US 70 (Tunnel Road), US 74 (South Tunnel Road) and SR 2863 (Haw Creek Lane).

When Vice-Mayor Field asked with the Dept. of Transportation could do if the City didn't have the money for the relocation of the water line, Assistant City Manager Doug Spell said that they could deduct the amount from Powell Bill revenues.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO 97-136 - RESOLUTION MODIFYING SCHEDULED CITY COUNCIL MEETINGS FOR SEPTEMBER, 1997

City Attorney Oast said that since the proposed schedule change shifts the formal session/work session rotation for four meetings, and could affect the timing of hearings on land use and other matters, it is recommended that the schedule change be effected by written resolution. This resolution leaves open the possibility of holding a community meeting following the second formal meeting on September 30, which is on the fifth Tuesday of the month, when Council has been having such meetings.

The City Attorney's Office recommends adoption of the resolution at the August 19 work session. Adoption of a motion to waive the rules is also recommended.

Vice-Mayor Field suggested that the meetings in September be as follows: September 2 - no meeting; September 9 - formal session at 5:00 p.m.; September 16 - worksession at 3:00 p.m.; September 23 - formal session at 5:00 p.m.; and September 30 be either a worksession and/or community meeting. With this schedule, the City Council formal sessions would not conflict with the Buncombe County Commissioner's formal sessions.

Councilman Worley moved to waive the rules and take formal action on a resolution to modify scheduled City Council meetings for September 1997 as follows: September 2 - no meeting; September 9 - formal session at 5:00 p.m.; September 16 - worksession at 3:00 p.m.; September 23 - formal session at 5:00 p.m.; and September 30 be either a worksession and/or community meeting. This motion was seconded by Vice-Mayor Field and carried unanimously.

Vice-Mayor Field moved for the adoption of Resolution No. 97-136. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 165

APPEALS FROM PLANNING & ZONING COMMISSION DENIALS

After a brief discussion relative to the Planning & Zoning Commission's denial regarding the "Viewsheds of Superior Quality" map, it was the consensus of City Council to instruct the City Manager to place this item on the next formal City Council agenda to authorize the Mayor to file written notice with the City Clerk's Office appealing the decision of the Planning & Zoning Commission and scheduling a public hearing for the "Viewsheds of Superior Quality" map relative to the telecommunication towers and their visibility from the Blue Ridge Parkway for September 9, 1997.

After a brief discussion relative to the Planning & Zoning Commission's denial regarding the rezoning of eight parcels on the southside of Broad Street, it was the consensus of City Council to instruct the City Manager to place this item on the next formal City Council agenda to authorize the Mayor to file written notice with the City Clerk's Office appealing the decision of the Planning & Zoning Commission and scheduling a public hearing before the City Council regarding the rezoning of eight parcels on the south side of Broad Street from RM-16 Residential Multi-Family High Density to Office for September 9, 1997.

ENGAGEMENT OF UNDERWRITER

Finance Director Bill Schaefer said that City Council has previously provided direction to staff to proceed with the following projects: Renovation of the Municipal Building and Water Maintenance Building; Repair of City Hall roof; Team with The Grove Arcade Public Market Foundation to renovate the Grove Arcade; and Team with Biltmore Farms, Inc. and others to construct a High Tech/Flex Space Building. Currently estimated approximate costs of the projects are: $15 million Municipal and Water Maintenance Buildings; $1.1 million City Hall Roof; $2.25 Grove Arcade; and $2.5 High Tech/Flex Space Building. These projects will be financed through the issue of Certificates of Participation. Additionally, current market conditions indicate that it may be cost effective to refinance a portion of the City's presently outstanding debt. Such refinancing will not only result in lower effective interest rates on the "old" debt; but, also may provide flexibility and potentially lower interest rates on the "new" financings. Combining the refinancing and "new" financings in a single offering will result in a significant reduction in the costs of issuance.

The services of a team of underwriters will be required in order to develop the most efficient and economical financing structure and to successfully market the COP issue. A Request for Proposal (RFP) process was used to select the recommended underwriting team. RFPs were sent to 17 underwriting firms (representing regional and nationwide coverage and including racial and gender minority firms). Ten written proposals were received and evaluated. Four were then selected for further evaluation through oral interviews. Based on those evaluations, staff recommends the engagement of: First Union Capital Markets Corp.; Wheat First Butcher Singer; and A.G. Edwards & Sons, Inc. (First Union Capital

Markets Corp. and Wheat First Butcher Singer "teamed" to submit a joint proposal.)

Staff recommends City Council adopt the resolution which engages underwriters for the issue of Certificates of Participation.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER ITEMS

Planning & Zoning Commission Candidates

Vice-Mayor Field said that due to the importance of the Planning & Zoning Commission and the numerous outstanding candidates, she asked if the City Council would be interested in either sending the candidates some questions for written responses or perhaps a second interview. In addition, Councilman Skalski was not present for the oral interviews and she felt it might be better for all Council to be voting with the same level of information.

Since the majority of Council was not interested in Vice-Mayor Field's suggestion, she said that she would call the candidates individually.

City Council Mid-Year Retreat Item

City Manager Westbrook was instructed to add "Minimum Housing Code Inspections" as an item for the City Council mid-year retreat on August 22, 1997, at North Fork.

"Viewsheds of Superior Quality" Map

Mr. Mel Thomason asked that City Council delay the public hearing on adoption of "Viewsheds of Superior Quality" Map relative to telecommunication towers and their visibility from the Blue Ridge Parkway. He said that the Blue Ridge Parkway now desires to start the process over again in terms of public participation and he felt the City would be well served to allow that process to happen. Mayor Martin said that this issue will be on the Council's next formal meeting agenda for consideration.

Councilman Hay was opposed to postponing adoption. He felt it would be a good idea to adopt the map and then at such time as necessary, it could be reviewed.

Exchange of City-Owned Property on Kentucky Drive for Housing Authority-Owned Property on Bartlett Street

The property owner at 41 Kentucky spoke against the exchange of City-owned real property on Kentucky Drive for Housing Authority-owned property on Bartlett Street. He felt that it would not be in the best interest of the City to build houses on greenspace. He felt the City might be better served in looking for land on the outskirts of the City for some 17 low income homes. He said that at neighborhood meeting, the majority of residents spoke in opposition to this exchange. Some neighbors felt the development would be detrimental to property values, no more greenspace and the streets in the area were too small to handle any additional traffic.

Rezoning of Property on Broad Street

A property owner at 91 Broad Street spoke in opposition of rezoning the eight parcels on the southside of Broad Street from RM-16 Residential Multi-Family High Density to Office.

CLOSED SESSION

At 4:28 p.m., Councilman Worley moved to go into closed session for the following reasons: (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the attorney and the City - statutory authorization is G.S. 143-318.11 (a) (3); (2) to discuss matters relating to the location or expansion of industries of other businesses in the area served by the City Council - the statutory authority is G.S. sec. 143-318.11 (a) (4); and (3) to establish or to instruct the City staff concerning the position to be taken by the City in negotiating the price or other material terms of a proposed contract for the acquisition of real property by purchase, option, exchange or lease - statutory authorization is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 5:20 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 5:20 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Friday - August 22, 1997 - 1:00 p.m.
North Fork Reservoir
Mid-Year Retreat

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman James J. Skalski

City Council reviewed their Fiscal Year 1996/97 Strategic Plan.

City Development Director John Scaralia reviewed a revised Economic Development Policy. City Council pointed out some areas where the policy could be strengthened in terms of explanation and wording, and discussed the policy and its impact on the City in general. City Council instructed the City Manager to bring this matter before the Council at a future worksession for discussion before final approval.

Planning & Development Director Julia Cogburn briefed Council on the Map of Consideration (for annexation) and a proposal for the development of a five-year annexation plan. Her comments were made from the standpoint of the City's need to establish reasons for annexation and for having an annexation plan. Budget Director Bob Wurst discussed the financial impact of annexation both on the City and the residents who would be annexed. The major point of his report was the loss of state revenue if the City does not continue to annex and have its population grow when compared to the County and other large municipalities across the state. As a result of the briefing, it was the consensus of City Council to (1) hire a consultant to perform an annexation feasibility study with the possible date to be presented to City Council in March, 1998; (2) that the extraterritorial issue be considered as part of the annexation plan; and (3) that the adoption of the Map of Consideration be considered at a future worksession.

Planning & Development Director Julia Cogburn updated City Council on the nonconforming sign enforcement. She emphasized the amount of work and the volume of signs that had to be reviewed and worked with on an individual basis.

City Attorney Bob Oast reviewed several organizational issues with Council, in addition to the new law which will go into effect on October 1, 1997, relative to closed session. It was the consensus of City Council (1) to eliminate the roll call vote on all ordinance amendments; (2) to delay any changes to the quorum provisions; (3) to instruct the City Attorney to proceed with a Charter change to be consistent with State law relative to the number of times City Council must meet a month; (4) to review information regarding rezonings, land use, etc. at worksessions prior to the scheduled public hearings; and (5) to instruct the City Attorney begin formulating a Rule change to allow routine procedural matters to be acted upon at any meeting properly called.

After City Attorney Oast presented several options on restructuring public comment due to the televised Council meetings, it was the consensus of City Council to not make any changes regarding public comment at this time.

City Manager Westbrook reviewed with City Council the possibility of evolving our current worksession (committee of the whole) to a more specialized standing committee system. Council agreed that a standing committee system has merit and suggested the City Manager have this as a possible topic at the Annual Retreat in January after the new City Council takes office.

Director of Building Safety Terry Summey briefed City Council on the progress and concerns regarding enforcement of the Housing Code. City Council was committed to the enforcement of the Code. It was the consensus of Council to (1) investigate holding water service transfers until a housing inspection is obtained; (2) mandate third party inspectors for all initial inspections; and (3) instruct staff to initiate other changes that would increase the City's ability to inspect its housing stock.

Councilman Worley briefed Council on the Bicentennial Committee's funding. It was the consensus of Council to proceed at the next formal meeting with a budget amendment to match a grant from Carolina Power & Light Company, in the amount of $12,500, for the street festival commemorating the bicentennial.

It was the consensus of City Council, at the request of Vice-Mayor Field, to move quickly on a policy on traffic calming measures and if adopted, to make the policy a part of the Standard Specifications and Details Manual.

Councilman Cloninger felt that the Greenway Committee needed to meet and discuss the $75,000 greenway grant the City has received and how the City will be involved with regard to that grant. He said that after the Committee meets, he will report back to Council.

At the request of Vice-Mayor Field, Planning & Development Director Julia Cogburn explained to Council the status of the affordable housing policy.

Mayor Martin adjourned the meeting at 6:15 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - August 26, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Edward C. Hay Jr.

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. OUTSTANDING RECREATION AND PARK BOARD AWARD

Mayor Martin presented Chairman of the Recreation Board Bill Estes with the Outstanding Recreation and Park Board Award from the North Carolina Recreation and Parks Society. Mr. Estes thanked the Recreation Board members, City Council and City staff for their time, effort, expenditures and interest in parks and recreation in the City of Asheville.

B. PROCLAMATION PROCLAIMING AUGUST 29-31, 1997, AS "GOOMBAY! FESTIVAL DAYS"

Mayor Martin read the proclamation proclaiming Friday, August 29, Saturday, August 30, and Sunday, August 31, 1997, as "Goombay! Festival Days" in the City of Asheville. He presented the proclamation to Mr. Gene Ellison who briefed the Council on the activities that will be taking place on those days.

PUBLIC HEARING RELATIVE TO REZONE PROPERTY ON BOONE STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO INDUSTRIAL DISTRICT

Mayor Martin said that on August 25, 1997, Mr. Barry Eavenson appealed the Planning & Zoning Commission's "negative recommendation" of the 100-foot strip along the vacant lot on Boone Street from RM-8 Residential Multi-Family Medium Density to Industrial District. Since the "affirmative recommendation" of the Commission has been advertised for today, the City Council will need to reschedule this public hearing for September 9, 1997, so that the entire lot can be considered for rezoning.

Vice-Mayor Field moved to reschedule this public hearing for September 9, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

PUBLIC HEARING RELATIVE TO REZONE FOUR PROPERTIES ON OR BEHIND EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Due to an error in advertising, Councilman Worley moved to reschedule the public hearing until September 9, 1997. This motion was seconded by Councilman Skalski and carried unanimously.

II. CONSENT AGENDA:

At the request of Mr. Ralph Bishop, Item A. was removed from the Consent Agenda for discussion.

At the request of Mr. Mel Thomason, Item K. was removed from the Consent Agenda for discussion.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 12, 1997; THE SPECIAL MEETING HELD ON AUGUST 15, 1997; AND THE WORKSESSION HELD ON AUGUST 19, 1997

This item was removed from the Consent Agenda for discussion.

B. RESOLUTION NO. 97-138 - RESOLUTION EXTENDING THE TERMS OF MEMBERSHIP ON THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE FROM TWO TO THREE YEAR TERMS

Summary: City Council feels it would be in the best interest of the City to amend the terms of the Americans with Disabilities Compliance Committee from two years to three years.

RESOLUTION BOOK NO. 24 - PAGE 166

C. RESOLUTION NO. 97-139 - RESOLUTION FINDING THE RHODODENDRON CIRCLE PROJECT COMPLETE, ASSESSING THE TOTAL COST AND CALLING FOR A PUBLIC HEARING ON SEPTEMBER 9, 1997, ANNOUNCING THE COMPLETION OF THE PRELIMINARY ASSESSMENT ROLL

RESOLUTION BOOK NO. 24 - PAGE 167

D. RESOLUTION NO. 97-140 - RESOLUTION TO SET A PUBLIC HEARING ON SEPTEMBER 23, 1997, TO CLOSE PORTION OF OLD HAYWOOD ROAD

RESOLUTION BOOK NO. 24 - PAGE 169

E. RESOLUTION NO. 97-141 - RESOLUTION ACCEPTING A REPORT ON THE DISPOSAL OF CITY-OWNED PERSONAL PROPERTY

Summary: Consideration of a resolution accepting a report on the sale of City-owned property for the Parks & Recreation Department, the Water Resources Department and the Fleet Management Division.

Resolution No. 85-99 adopted by City Council on June 25, 1985, established procedures for disposing of personal property valued at less than $500. Pursuant to these procedures, the resolution identifies property disposals for the Parks & Recreation Department, the Water Resources Department and the Fleet Management Division during the period of January 1, 1997 through June 30, 1997.

Revenues from these sales totals $2,420.10 and have been deposited as follows: $279.00 in the 20 fund for the Parks & Recreation Department, $405.60 in the 44 fund for Fleet Management Division and $1,735.50 in the 30 fund for the Water Resources Department.

RESOLUTION BOOK NO. 24 - PAGE 170

F. RESOLUTION NO. 97-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN ENCROACHMENT AGREEMENT WITH NORFOLK SOUTHERN RAILWAY FOR THE PIPELINE REPLACEMENT PROGRAM - PHASE II, CONTRACT B - EAST ASHEVILLE/EAST BUNCOMBE WATERLINE PROJECT

Summary: The consideration of a contract with Norfolk Southern Railway to allow a pipeline under their track as a part of the Pipeline Replacement Program - Phase II, Contract B.

The Engineering Department developed construction plans for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project and this right of way is included to complete the construction of the water pipeline. In order to move forward with the project, a resolution needs to be adopted authorizing the City Manager to execute on behalf of the City of Asheville a contract with Norfolk Southern Railway Company, for the City of Asheville to install, maintain, and operate a six inch water pipeline in a sixteen inch casing pipe, under and across the right of way or property and any tracks of Railway, at Milepost T-8 plus 3,275 feet, wholly with the confines of Candler School Road, for the construction of the Pipeline Replacement Program Phase II -Contract B, East Asheville/East Buncombe Water Line project.

Staff recommendations that City Council adopt a resolution authorizing the City Manager to execute a contract with Norfolk Southern Railway Company for the right of way for the Pipeline Replacement Program Phase II - Contract B, East Asheville/East Buncombe Water Line Project.

RESOLUTION BOOK NO. 24 - PAGE 172

G. RESOLUTION NO. 97-143 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A UTILITY AGREEMENT WITH N.C. DEPT. OF TRANSPORTATION FOR THE IMPROVEMENTS OF US 70 (TUNNEL ROAD), US 74 (SOUTH TUNNEL ROAD) AND SR 2863 (HAW CREEK LANE) NEAR THE ASHEVILLE MALL

Summary: This resolution will be to authorize the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation ("NC DOT") for improvements at the intersection of US 70 (Tunnel Road), US 74 (South Tunnel Road) and SR 2863 (Haw Creek Lane).

The City Council authorized the City Manger to negotiate with NC DOT outlining the City's agreement to participate in sidewalks on intersection of US 70 and US 74. The NC DOT's preliminary estimate was $16,300 for the sidewalk. The final estimate for the construction of the sidewalks is $16,300, with the City's portion being 40% of estimate which is $6,520.00. Funding for the South Tunnel Road sidewalk was included in the Fiscal 1995-1996 Sidewalk Program. Construction is scheduled to begin January 1998.

An additional 30-inch water line may need to be relocated as a result of this construction, but the design is not complete at this time. The preliminary estimate NC DOT has given on the relocation of the water line is approximately $93,000. When the design is finalized then staff will request Council approve funds necessary to relocate the water line.

Staff recommends that City Council allow the City Manager to sign the Municipal Agreement for improvements at the intersection of US 70 (Tunnel Road), US 74 (South Tunnel Road) and SR 2863 (Haw Creek Lane).

RESOLUTION BOOK NO. 24 - PAGE 173

H. RESOLUTION NO. 97-144 - RESOLUTION APPROVING UNDERWRITER FOR THE ISSUANCE OF CERTIFICATES OF PARTICIPATION

Summary: City Council has previously provided direction to staff to proceed with the following projects: Renovation of the Municipal Building and Water Maintenance Building; Repair of City Hall roof; Team with The Grove Arcade Public Market Foundation to renovate the Grove

Arcade; and Team with Biltmore Farms, Inc. and others to construct a High Tech/Flex Space Building. Currently estimated approximate costs of the projects are: $15 million Municipal and Water Maintenance Buildings; $1.1 million City Hall Roof; $2.25 Grove Arcade; and $2.5 High Tech/Flex Space Building. These projects will be financed through the issue of Certificates of Participation. Additionally, current market conditions indicate that it may be cost effective to refinance a portion of the City's presently outstanding debt. Such refinancing will not only result in lower effective interest rates on the "old" debt; but, also may provide flexibility and potentially lower interest rates on the "new" financings. Combining the refinancing and "new" financings in a single offering will result in a significant reduction in the costs of issuance.

The services of a team of underwriters will be required in order to develop the most efficient and economical financing structure and to successfully market the COP issue. A Request for Proposal (RFP) process was used to select the recommended underwriting team. RFPs were sent to 17 underwriting firms (representing regional and nationwide coverage and including racial and gender minority firms). Ten written proposals were received and evaluated. Four were then selected for further evaluation through oral interviews. Based on those evaluations, staff recommends the engagement of: First Union Capital Markets Corp.; Wheat First Butcher Singer; and A.G. Edwards & Sons, Inc. (First Union Capital Markets Corp. and Wheat First Butcher Singer "teamed" to submit a joint proposal.)

Staff recommends City Council adopt the resolution which engages underwriters for the issue of Certificates of Participation.

RESOLUTION BOOK NO. 24 - PAGE 174

I. RESOLUTION NO. 97-145 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1997 GOOMBAY FESTIVAL

Summary: N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at special event or community festival. The 1997 Goombay! Festival Board, YMI Cultural Center and the Parks and Recreation Department recommends that possession and consumption of malt beverages and/or unfortified wine be allowed at the 1997 Goombay! Festival.

The Parks and Recreation Department recommends that City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 1997 Goombay! Festival.

J. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 9, 1997, TO REZONE EIGHT PARCELS ON THE SOUTHSIDE OF BROAD STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

K. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 9, 1997, TO CONSIDER THE "VIEWSHEDS OF SUPERIOR QUALITY" MAP RELATIVE TO THE TELECOMMUNICATION TOWERS AND THEIR VISIBILITY FROM THE BLUE RIDGE PARKWAY

This item was removed from the Consent Agenda for discussion.

L. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 9, 1997, TO PROPERTY ON EMMA ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO CI COMMERCIAL INDUSTRIAL

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Vice-Mayor Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 12, 1997; THE SPECIAL MEETING HELD ON AUGUST 15, 1997; AND THE WORKSESSION HELD ON AUGUST 19, 1997

Mr. Ralph Bishop, resident of the City of Asheville, spoke to Council about seeking redress relative to City Council's minutes and the meaning of full and accurate minutes.

At the request of Mayor Martin, City Attorney Oast said that it was his opinion on the basis of opinions from the Supreme Court that G.S. 160A-72, which provides for the keeping of full and accurate minutes of the Council proceedings, does not require the keeping of a verbatim record. Roberts Rules of Order states that the minutes shall be a record of what occurred in the meeting, not what was said, and the Supreme Court has specifically endorsed Roberts Rules of Order on that point.

Councilman Worley felt that the problem seems to be that Mr. Bishop takes the statute that says we are required to keep full and accurate minutes (and there is absolutely no question that that is the law) and then translates in his own mind for that to mean verbatim minutes. One of the rules of legal construction is one of strict construction and that is words are construed very strictly when they are interpreted by the courts. If the legislature had intended verbatim minutes, they would have said verbatim minutes. We do keep full and accurate records. Those records contain a full account of everything City Council does and they are accurate. They are not verbatim. He felt that Mr. Bishop believes that the minutes should be verbatim and we've indicated time and time again that our understanding and our construction of the law supported by a Supreme Court case is that they do not have to be verbatim. We are basically at a position where we disagree.

Vice-Mayor Field moved to approve the minutes of the regular meeting held on August 12, 1997; the special meeting held on August 15, 1997; and the worksession held on August 19, 1997. This motion was seconded by Councilman Worley and carried unanimously.

MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 9, 1997, TO CONSIDER THE "VIEWSHEDS OF SUPERIOR QUALITY" MAP RELATIVE TO THE TELECOMMUNICATION TOWERS AND THEIR VISIBILITY FROM THE BLUE RIDGE PARKWAY

Mr. Mel Thomason asked that this public hearing be postponed in order that interested parties can meet and reach some kind of agreement that will be in the best interest of the City. He hoped City Council would give direction to staff that Council is interested in proceeding in this manner.

Councilman Cloninger said that the purpose of the public hearing which was held by the Planning & Zoning Commission and the public hearing which will be held by the City Council - for interested parties to comment. He felt, along with two representatives he has spoken with from the Blue Ridge Parkway, that a map needed to be adopted as expeditiously as possible.

Upon inquiry of Councilman Worley, Mr. Thomason said that the Blue Ridge Parkway representatives expressed to him that they wished they would have had the opportunity to meet with interested parties before endorsing the map.

Planning & Development Director Julia Cogburn said that her staff has been in touch with the Blue Ridge Parkway and a meeting is being scheduled with interested parties. However, she recommended that City Council proceed with adoption of a map or some modification to the map because our ordinance references a map. If, after adoption of the map, changes are recommended, the map can be amended.

Councilman Cloninger moved to set a public hearing on September 9, 1997, to consider the "Blue Ridge Parkway - Viewsheds of Superior Quality" map regarding telecommunication towers and their visibility from the Blue Ridge Parkway. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING A LOT ON LOGAN AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO CB II COMMERCIAL BUSINESS II

City Attorney Oast said that a valid protest petition has been filed. Therefore, any vote in favor of this rezoning will have to pass by a 3/4 majority of the entire Council, and since one member is absent, it would have to be a unanimous vote.

Mayor Martin opened the public hearing at 5:33 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, asked for consideration of an ordinance to rezone one lot on Logan Avenue (PIN No. 9638.11-75-4218) from RM-8 Residential Multi-Family Medium Density to CB II Community Business II.

The subject property is one lot on Logan Avenue. The 2010 Plan indicates low density residential along the rear part of Haywood Road in this area. However, the current character of this immediate area is small commercial with this lot being used for commercial storage. Due to the terrain, the most convenient access to the adjoining commercial property that fronts on Haywood Road is from this lot. The surrounding properties are residential on the north and west and commercial on the south and east.

The Planning staff reviewed the rezoning request and recommended approval of the rezoning of lot 9638.11-75-4218 from RM-8 Residential Multi-Family Medium Density to CB II Community Business II. At their July 2, 1997, the Planning & Zoning Commission voted a tie (3 to 3) on the rezoning request (one commissioner was absent).

On July 17, 1997, Ms. Kathy Plemmons Rathbone appealed the Planning & Zoning Commission's decision to City Council.

Mr. Darrell Rathburn, resident on Logan Avenue, presented City Council with a petition containing 48 signatures opposing the Logan Avenue rezoning. The petition reads "The Logan Ave. & Brownwood Ave. areas were and still are designed and used for residential use. In the last 90 days there have been two (2) motor vehicle accidents at the intersection of Logan Ave. & Brownwood Ave. These accidents are directly related to the improper use of property in this area. In addition there are currently dozen of race car tires being stored in the road. We have called the Police Dept. on several occasions due to this and other problems, such as abandoned vehicles. Please investigate this matter thoroughly before making any decision. Also, please help us with the violations that are currently taking place at Logan Ave. and Brownwood Ave. intersection." In addition to presenting the petition, Mr. Rathburn presented City Council with numerous pictures showing the deplorable condition of the lot that is being requested to be rezoned.

Mr. Craig Justus, attorney representing the parties interested in buying the lot, hoped that City Council would grant a continuation of this public hearing not only due to a valid protest petition being filed, but also it will allow more time within which to meet with the neighborhood, discuss their concerns and try to reach an agreement that would benefit both the neighborhood and the owner of the lot. He said that unfortunately the transition overlay concept cannot be used in a one lot context. He said that his clients were looking at dedicating one part of the property for a park for the neighborhood and didn't intend to build a structure right up on Logan Avenue. He did note that some of the problems on Logan Avenue are attributable to the commercial development on the corner.

Upon inquiry of Vice-Mayor Field, Mr. Justus said that regardless of whether Council rezones this lot or not, his clients will buy the property and use it for the full maximum RM-8 potential and that may not be what the neighborhood ultimately wants.

Ms. Delores Poor, property owner on Logan Avenue, spoke in opposition to the rezoning. She said the area is residential and they are not opposed to houses building built on the lot.

Mr. Bill Allen, property owner on Logan Avenue, spoke against the rezoning. He felt that the street has been neglected by the City and traffic in the area is a real problem. He said that the neighborhood is trying to make their area a nice place to live.

Mr. Larry Hardin, property owner on Logan Avenue, urged council to deny the rezoning request. He felt that to rezone the lot commercial would take away from the improvements the neighborhood is working on.

Mr. David Beebe, property owner on Logan Avenue, spoke against the rezoning stating that access to the area is miserable.

Mr. Ken Lentz, property owner on Logan Avenue, urged Council not to rezone the property because once the property is rezoned, they or further owners can built anything on it allowed in the Commercial Business II.

Mayor Martin instructed the City Manager to investigate the concerns raised regarding traffic, tires on the street which are a hazard and narrows the road width, illegally parked trucks, etc.

Mayor Martin closed the public hearing at 6:05 p.m.

Councilman Sellers moved to continue the public hearing until the entire Council is present. This motion was seconded by Vice-Mayor Field.

Councilman Sellers explained that if it is commercially abutted on both sides and it had an entrance to Haywood Road, it would be a different issue. Postponing this might give the property owner time to see about access to Haywood Road, with possibly a buffer on the back side of Logan Avenue.

When Mayor Martin asked for a vote on continuing the public hearing, Vice-Mayor Field and Councilmen Sellers and Worley voted "yes" and Mayor Martin and Councilmen Cloninger and Skalski voted "no." Therefore, the motion failed.

Councilman Skalski then moved to deny the request to rezone the lot on Logan Avenue from RM-8 to CB II. This motion was seconded by Councilman Worley and carried on a 5-1 vote, with Councilman Sellers voting "no."

B. PUBLIC HEARING TO APPLY THE MANUFACTURED HOUSING OVERLAY TO 31 PROPERTIES ZONED RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY IN THE EAST PORTER ROAD AREA

ORDINANCE NO. 2401 - ORDINANCE TO APPLY THE MANUFACTURED HOUSING OVERLAY TO 31 PROPERTIES ZONED RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY IN THE EAST PORTER ROAD AREA

Mayor Martin opened the public hearing at 6:07 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, asked for consideration of an ordinance which seeks to apply the Manufactured Housing Overlay to 31 (thirty-one) properties in the East Porter Road Area.

The proposed rezoning seeks to apply the Manufactured Housing Overlay to 31 properties in the East Porter Road Area of East Asheville. The properties cover approximately 38 acres and consist of: PIN Nos. 9657.12-96-0622, 0367, 1527, 1670, 2624, 2687, 4783, 6582, 4530, 3338, 5302, 2274, 1198, 0077, 4011, 6130; 9657.12-86-5327, 8590, 8247, 8090; 9657.12-85-5924, 6935, 7000, 8903, 9825; 9657.12-95-4707, 1748, 0716, 7787, 6862; and 9657.16-94-3795. The underlying zoning on all the properties involved is RS-8. The 2010 plan appears to indicate this area as low density residential. The area currently contains a mix of site built and manufactured homes. This area was one of the areas previously identified by the Manufactured Housing Overlay Committee (of the UDO process) as a potential area for the application of the manufactured housing overlay zone. The failure to apply the overlay during the UDO mapping process was due to an oversight on the part of the Planning and Development Department Staff. Staff is, therefore, initiating this rezoning in order to correct this omission.

The Planning and Development Staff initiated and recommended this zoning overlay to the Planning and Zoning Commission at their meeting on August 6, 1997. The Commission unanimously voted to recommend approval of this rezoning to the Asheville City Council.

Vice-Mayor Field noted that manufactured housing does not increase the City's tax base - that is the County's tax base. She personally felt that manufactured housing is much more dangerous in terms of fires, than stick-built homes and felt that there should be a sprinkler requirement for manufactured homes. But, on the other hand, manufactured homes are affordable.

Mayor Martin closed the public hearing at 6:15 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2401. This motion was seconded by Councilman Sellers.

On a roll call vote of 6-0, Ordinance No. 2401 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 281

.C. PUBLIC HEARING RELATIVE TO REZONE 88 LOTS ON BREVARD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM RESIDENTIAL TO RS-8 RESIDENTIAL SINGLE FAMILY

ORDINANCE NO. 2402 - ORDINANCE TO REZONE 88 LOTS ON BREVARD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM RESIDENTIAL TO RS-8 RESIDENTIAL SINGLE FAMILY

Mayor Martin opened the public hearing at 6:16 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, asked for Council's consideration of ordinance to rezone 88 lots on Brevard Road from RM-8 Residential Multi-Family Medium Density to RS-8 Residential Single Family.

The subject properties are 88 lots that front directly on Brevard Road from the Masonic Lodge south to I-240 except for the Lauralwood Condominiums which will remain RM-8. The 2010 Plan indicates low density residential along Brevard Road in this area. This request is to correct a mapping error that was overlooked during the UDO hearings and clearly intended by the Planning and Zoning Commission and City Council to be RS-8.

The Planning staff reviewed the rezoning request and recommended approval to rezone the 88 lots from RM-8 Residential Multi-Family Medium Density to RS-8 Residential Single Family. At the August 6, 1997, Planning & Zoning Commission meeting, the Commissioners voted unanimously to approve the rezoning request.

At the request of Ms. Pauline Parker, Mr. Ownbey explained how this rezoning will affect her property.

Mayor Martin closed the public hearing at 6:21 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2402. This motion was seconded by Councilman Skalski.

On a roll call vote of 6-0, Ordinance No. 2402 passed on its first and final reading.

ORDINANCE BOOK NO. 16 - PAGE 283

D. PUBLIC HEARING RELATIVE TO PARTIALLY REZONING 1899 HENDERSONVILLE ROAD FROM HB HIGHWAY BUSINESS TO OB OFFICE BUSINESS

ORDINANCE NO. 2403 - ORDINANCE TO PARTIALLY REZONING 1899 HENDERSONVILLE ROAD FROM HB HIGHWAY BUSINESS TO OB OFFICE BUSINESS

When Vice-Mayor Field asked if she had a conflict of interest since the petitioner is a client of the architectural firm in which she is employed, City Attorney Oast asked if her firm participated in this rezoning request. When Vice-Mayor Field replied that she was not aware of it, then City Attorney Oast said he saw no reason for her to be excused from voting.

Mayor Martin opened the public hearing at 6:21 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Erin McLoughlin, Urban Planner, said that the petitioner requests that a portion of parcel 9655.13-14-3658 be rezoned from HB Highway Business to OB Office Business.

The petitioner requests that 0.16 acres be rezoned from HB to OB. HB is established to address the needs of commercial development. OB is established for medium scale offices and a limited range of business uses and may serve as a transition area between commercial and residential uses. This request is a minor adjustment of zoning lines and would not impact the surrounding area or infrastructure.

Staff has received no comments in opposition to this rezoning request.

The City Planning and Development staff recommends approval of the rezoning request. At their August 6, 1997, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning request.

Mayor Martin closed the public hearing at 6:24 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2403. This motion was seconded by Councilman Cloninger.

On a roll call vote of 6-0, Ordinance No. 2403 passed on its first and final reading.

E. PUBLIC HEARING RELATIVE TO BROOKS-HOWELL VILLAGE GROUP DEVELOPMENT

Mayor Martin opened the public hearing at 6:25 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planners, said that the proposed project consists of 11 new residential units (four duplexes and a triplex) and an activities center located on a 1.8 acre portion of the Brooks-Howell property.

Plans for this project were submitted within the 30 day window after the adoption of the UDO. Therefore, the project is being reviewed as a Group Development under the previous zoning ordinance (pre-UDO zoning was R-3).

Because the development will provide housing for the elderly, Brooks-Howell is asking that Council allow a reduction in the parking requirements from 24 spaces to 14 spaces.

Council will also be asked to approve an alternative to the buffering requirements along the west property line. The ordinance allowed the buffer to consist of a 5-foot strip with a 6-foot fence. Brooks-Howell is working with the adjacent property owner to design a buffer, using primarily vegetation, which meets the intent of the ordinance and is more sensitive the adjoining property.

At their August 6, 1997, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of this group development. Additionally, the Commission recommended that City Council allow the reduction in parking and approve the alternate buffering plan being developed.

This recommended approval was with three conditions: (1) Receipt of letters of approval for water, sewer and adequate water pressure for fire protection; (2) That the variance for alternate compliance with the City's buffering requirements either be granted by Council or a revised landscape plan must be submitted to staff; and (3) That the required handicap parking space be labeled more clearly on the plans.

Carleton Collins, architect for the project, said that the drawings submitted adhered to the ordinance in terms of what the composition of the buffer should be. He said that the adjacent property owner asked if there was any leeway regarding the buffering and after consultation with the Planning staff it was indicated that there may be some flexibility to allow that buffer to be somewhat less. He said that they will be meeting with the adjacent property owner over the next couple of weeks to determine exactly what the buffer will be and saw no problem with bringing the plan back to City Council on September 23, 1997.

Ms. Betty Lawrence, the adjacent property owner at 142 Hillside Street, felt that an alternate buffering plan could be worked out. She asked if Council could do anything about the requirement to increase the width of their driveway on Hillside Street from approximately 9 feet to 20 feet (to allow two fire trucks to pass each other). She was told it was a Fire Code requirement and was concerned that a rock wall would have to be torn down.

Mr. Collins said that their original drawings indicated the existing driveway width at the entrance to Hillside remain what it is currently. The Fire Department has requested it be widened, primarily because of fire access issues. It was their intention, if they eliminated a portion of the wall, to rebuild a similar corner - just further away to accommodate that request.

Vice-Mayor Field questioned why a 20-foot driveway was required.

City Attorney Oast said that it as his understanding that this is a Fire or Building Code requirement and Council doesn't have the authority to amend those provisions at this time. He said that would have to be an amendment to the appropriate ordinances.

Vice-Mayor Field was under the impression that our technical requirements were not carved in stone and that there was some flexibility. She said City Council needs to have the opportunity and ability to have some narrower driveways.

It was the consensus of Council to direct staff to look into the possibility of more flexibility in our technical requirements, especially relating to driveway widths.

Mayor Martin closed the public hearing at 6:35 p.m.

Councilman Skalski moved to continue the approval of an alternate buffering plan until September 23, 1997. This motion was seconded by Councilman Cloninger and carried unanimously.

Vice-Mayor Field moved to approve the reduction in parking at the Brooks-Howell Village from 24 to 14 spaces. This motion was seconded by Councilman Worley and carried unanimously.

Councilman Worley moved to approve the Brooks-Howell Village group development, subject to final approval of the buffering plan. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. REQUEST FROM HEALTHSOUTH SPORTS MEDICINE & REHABILITATION FOR ENDORSEMENT OF AN "OFFICIAL CITY ORNAMENT" TO BE PRODUCED AND SOLD AS A FUND RAISING PROGRAM FOR UNITED CEREBRAL PALSY

Mayor Martin said that he received a letter dated August 21, 1997, from Lacy Dylewski, PT, Administrator of HealthSouth Sports Medicine & Rehabilitation, stating that they would like to withdraw their request for endorsement of the Holiday Ornament Program from the City of Asheville.

B. RESOLUTION NO. 97-146 - RESOLUTION AUTHORIZING THE CITY CLERK TO PUBLISH A NOTICE ANNOUNCING CITY COUNCIL'S INTENT TO AUTHORIZE EXCHANGE OF CITY-OWNED REAL PROPERTY ON KENTUCKY DRIVE FOR HOUSING AUTHORITY-OWNED REAL PROPERTY ON BARTLETT STREET

Mr. Ed Vess, Field Services Coordinator, said that this is consideration of an exchange of property which has been negotiated with the Housing Authority of the City of Asheville in order to facilitate several beneficial projects.

The City has entered into a contract for the sale of 3 acres of land on Bartlett Street to the Douglas Company for the construction of 48 units of elderly housing subject to obtaining access to the public right-of-way. The Housing Authority owns the 7.4 acres of land surrounding the City's property on Bartlett Street. The City owns 4.9 acres of land on Kentucky Drive which is not currently being utilized.

The Housing Authority has agreed to exchange its land on Bartlett Street for the City's land on Kentucky Drive. Prior to transfer of the Kentucky Drive property to the Housing Authority the City would develop infrastructure for a subdivision on the site to provide homeownership opportunities to public housing residents. The estimated costs of extending the necessary infrastructure to this site is approximately $125,000. The City's Community Development Division desires to collaborate with the Authority in the development of the site in order to expand affordable housing opportunities. They hope to be able to build affordable houses The City's Parks and Recreation Department desires to utilize the Authority's land on Bartlett Street to develop a passive park for special populations in the Asheville community, along with additional greenway and provision of access to the City's Bartlett Street property.

The City's property on Kentucky Drive is valued by the Buncombe County Tax Office at $49,700.00 and the Authority's property on Bartlett Street is valued at $124,800.

Approval of the resolution will initiate the exchange of the properties through the process provided in N. C. G. S. 160A-271.

Mr. Vess stated that the average cost of houses in the neighborhood, based on the County's tax records, is $36,492. He explained there are 13 homes around the Rankin School site and their values range from $17,900 to $67,800. Six homes are valued at less than $30,000; four homes are valued at between $30-40,000; and three homes are valued at between $55-70,000. He said that the homes they are proposing to build on the Rankin School site should range in the $75-85,000 range. He felt that if there was an impact on the value of other properties, it would be a positive impact.

Upon inquiry of Vice-Mayor Field, Mr. Vess said that even though there will be more traffic on the street, it is a two lane road and should accommodate the additional traffic.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-146. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 177

VI. OTHER BUSINESS:

132

A. ORDINANCE NO. 2404 - BUDGET AMENDMENT TO ESTABLISH AN APPROPRIATION FOR THE BICENTENNIAL CELEBRATION

At the request of Councilman Worley after discussion at the City Council mid-year retreat, Mr. Irby Brinson, Director of Parks & Recreation said that this is consideration of a budget amendment to establish an appropriation for the Bicentennial Celebration totaling $111,575 and a supplemental appropriation from the City of $12,500.

The City Council has approved appropriations of $6,540 for Fiscal 1996/97 and $6,900 for Fiscal 1997/98 in support of the Bicentennial Celebration. This Budget action sets up budgets for the Celebration functions totaling $111,575. Because sponsorship revenues are not meeting expectations, it will be necessary for the City to commit $12,500 of City funds to match a $12,500 grant from Carolina Power & Light. This should ensure that the activities are adequately funded. If revenues from sponsorships and/or sales of souvenirs and other revenues are adequate, the City's contribution may not be required.

The staff recommends that funding for the Bicentennial be approved totaling $111,575 and that the General Fund Operating Budget be amended to appropriate $12,500 from Fund Balance for the Bicentennial Celebration.

Upon inquiry of Mayor Martin, Mr. Brinson said that souvenirs can be purchased from the Parks & Recreation Department.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2404. This motion was seconded by Vice-Mayor Field.

On a roll call vote of 6-0, Ordinance No. 2404 was adopted on its first reading.

ORDINANCE BOOK NO. 16 - PAGE 287

B. COMMENTS BY MR. RALPH BISHOP

Mr. Ralph Bishop, resident of the City of Asheville, asked the Mayor to instruct the Police Department personnel to quit "threatening" him regarding disruption of City Council meetings. He emphasized to City Council that he does not come to the meetings seeking redress with the intent to disrupt any meeting.

Mayor Martin said that Mr. Bishop is always welcome to address City Council, but the only objection they have is when he disrupts the Council's proceedings. Mayor Martin said that personnel is only asking him not to disrupt the meetings and the comments are not meant to be threatening.

C. CLAIMS

The following claims were received by the City of Asheville during the week of August 8-21, 1997: BellSouth (Water), Roxanne Wilson (Streets), Robert C. Morgan (Traffic Engineering), Doris Lynch (Parks & Recreation), Margaret B. Mauldin (Inspections), Mae Plemmons (Water), David Freck (Sanitation) and Nellie Parham (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 7:06 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - September 9, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Skalski gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF ALL AMERICA CITY COMMUNITY GRANT FROM THE ALLSTATE FOUNDATION

Mayor Martin introduced Ms. Joyce Boyette, representative from a local Allstate agency here in Asheville, who presented the City of Asheville with a check from the Allstate Foundation in the amount of $10,000 for the All America City community grant.

Mayor Martin said that the City of Asheville is pleased to accept this $10,000 Community Grant from the Allstate Foundation for being one of the 10 All-America Cities chosen this year. Being a part of the delegation from Asheville that traveled to Kansas City, he saw first hand the dedication and support that Allstate has shown for the All-America City Program. It has certainly been a wonderful experience for Asheville and he knows that he speaks for the other 10 cities chosen when he says "thank you" for your continued interest in communities and civic renewal.

This check will be passed along by the City to the three projects featured in our application: HandMade In America, Asheville-Buncombe VISION, and the Minnie Jones Health Clinic, representing the Healthcare Industry. It is fitting to reward these organizations that are doing so much for our community.

B. PROCLAMATION PROCLAIMING THE WEEK OF SEPTEMBER 21-27, 1997, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Mayor Martin read the proclamation proclaiming Friday, September 21-27, 1997, as "Minority Enterprise Development Week" in the City of Asheville. He presented the proclamation to Ms. Catherine Deaverux, First Vice-President of the Minority Business Alliance, who briefed the Council on the activities that will be taking place during that week.

II. CONSENT AGENDA:

Mr. Ralph Bishop asked that Item A. be removed from the Consent Agenda for discussion.

Mr. H.K. Edgerton asked that Item C. be removed from the Consent Agenda for discussion.

A. APPROVAL OF THE MINUTES OF THE MID-YEAR RETREAT MEETING HELD ON AUGUST 22, 1997, AND THE FORMAL MEETING HELD ON AUGUST 26, 1997

This item was removed from the Consent Agenda for discussion.

B. RESOLUTION NO. 97-147 - RESOLUTION REGULATING CONSUMPTION AND POSSESSION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT MARTIN LUTHER KING JR. PARK FOR THE GREAT SMOKIES CRAFT BREWERS INVITATIONAL

Summary: The consideration of a resolution authorizing the possession of open containers of malt beverages and/or unfortified wine and the consumption of malt beverages and/or unfortified wine be allowed at the Great Smokies Craft Brewers Invitational at the Martin Luther King Jr. Park on September 20, 1997.

The Great Smokies Craft Brewers Invitational is a unique celebration of the art of brewing beer in the spirit of Oktoberfest with a smokey mountain twist. The Asheville Downtown Association in conjunction with Barley's Tap Room, the Radisson Hotel, Asheville Parks and Recreation and other local businesses have developed this festival to highlight the quality beers of the region. Over 30 brewers have been invited to present their high quality beers in a festival atmosphere at the Martin Luther King, Jr. Park on September 20, 1997. Local entertainment and food will be available from 1:00 p.m. - 6:00 p.m. Proceeds from the event will benefit the Asheville Urban Trail project. The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during this event on City property.

The Asheville Parks and Recreation Department staff recommends approval of this request.

RESOLUTION BOOK NO. 24 - PAGE 178

C. RESOLUTION AUTHORIZING EXCHANGE OF CITY-OWNED REAL PROPERTY ON KENTUCKY DRIVE FOR HOUSING AUTHORITY-OWNED REAL PROPERTY ON BARTLETT STREET

This item was removed from the Consent Agenda for discussion.

D. RESOLUTION NO. 97-145A - RESOLUTION RATIFYING MODIFICATION OF THE RESOLUTION REGULATING CONSUMPTION AND POSSESSION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1997 GOOMBAY FESTIVAL

Summary: The consideration of allowing alcoholic beverages at the 1997 Goombay! Festival within the area known as "City/County Plaza."

The N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at a special event or community festival. The 1997 Goombay! Festival Board, YMI Cultural Center and the Parks and Recreation Department recommends that possession and consumption of malt beverages and/or unfortified wine be allowed at the 1997 Goombay! Festival.

On August 26, 1997, Council passed such a resolution for the Goombay Festival. However, at the time of the Council action, staff did not know of the desire of the YMI Cultural Center or the 1997 Goombay Festival Board to use City/County Plaza on Friday evening as part of the festival area.

Staff recommends that City Council adopt an addendum to the resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 1997 Goombay! Festival to include the area of City/County Plaza.

RESOLUTION BOOK NO. 24 - PAGE 180

E. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 23, 1997, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE WITH REGARD TO CHANGEABLE COPY SIGNS, CHURCH SIGNS AND SIGNS IN THE RIGHT-OF-WAY

F. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 23, 1997, TO REZONE 11.68 ACRES OF PROPERTY OFF HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO INSTITUTIONAL

G. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 23, 1997, TO ZONE A PARCEL OF LAND WHICH WAS PREVIOUSLY IN THE TOWN OF BILTMORE FOREST ON HENDERSONVILLE ROAD TO INSTITUTIONAL

H. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 23, 1997, TO ADD A MANUFACTURED HOUSING OVERLAY TO PROPERTY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY LOCATED AT THE END OF FOREST RIDGE DRIVE (OLD BEAR CREEK ROAD)

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Field and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION

APPROVAL OF THE MINUTES OF THE MID-YEAR RETREAT MEETING HELD ON AUGUST 22, 1997, AND THE FORMAL MEETING HELD ON AUGUST 26, 1997

Mr. Ralph Bishop, resident of the City of Asheville, spoke to Council about seeking redress relative to City Council's minutes and the meaning of full and accurate minutes.

Councilman Cloninger moved to approve the minutes of the mid-year retreat meeting held on August 22, 1997, and the formal meeting held on August 26, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION NO. 97-148 - RESOLUTION AUTHORIZING EXCHANGE OF CITY-OWNED REAL PROPERTY ON KENTUCKY DRIVE FOR HOUSING AUTHORITY-OWNED REAL PROPERTY ON BARTLETT STREET

Summary: The consideration of authorizing the Mayor to execute necessary documents to effect an exchange of property with the Housing Authority of the City of Asheville in order to facilitate several beneficial projects.

The City Council directed the City Clerk to publish a notice regarding its intent to exchange 4.9 acres of land on Kentucky Drive which the City owns for 7.4 acres of land on Bartlett Street which the Housing Authority owns. The notice was published on August 29, 1997. No public comments have been received.

The exchange will facilitate the following: (1) The construction of 48 units of affordable elderly housing via the sale of the Murray Hill site to the Douglas Company; (2) The construction of 17 units of affordable single family owner-occupied housing via collaboration with the Housing Authority to build a subdivision on the Kentucky Drive site; and (3) The construction of a passive park by Parks and Recreation Department on the Bartlett Street site.

The City's property on Kentucky Drive is valued by the Buncombe County Tax Office at $49,700 and the Authority's property on Bartlett Street is valued at $124,800.

Approval of the resolution will authorize the Mayor to execute the necessary documents to effect the exchange of the properties as provided in N. C. G. S. 160A-271.

Community Development staff recommends adoption of the resolution.

138

Mr. H.K. Edgerton hoped that the housing strategy for the City will include minority developers and all non-profits in the City.

Councilman Hay felt sure that the housing study will be responsive to the comments Mr. Edgerton voiced.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved to approve Resolution No. 97-148. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 182

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING FIVE PROPERTIES ON OR BEHIND EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Mr. Mike Matteson, Urban Planner, said that the petition to rezone was received from four property owners, two of which have asked their properties be removed from consideration. In light of this request, staff is recommending this matter be continued until September 23, 1997.

Councilman Hay moved to continue this matter until September 23, 1997, without further advertisement, in contemplation of the possibility that the petition be withdrawn. This motion was seconded by Vice-Mayor Field and carried unanimously.

B. PUBLIC HEARING RELATIVE TO REZONING PROPERTY ON BOONE STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO INDUSTRIAL DISTRICT

ORDINANCE NO. 2405 - ORDINANCE TO REZONE PROPERTY ON BOONE STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO INDUSTRIAL DISTRICT

Mayor Martin opened the public hearing at 5:25 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, asked for consideration of an ordinance to rezone property on Boone Street from RM-8 Residential Multi-Family Medium Density to Industrial.

The subject property is located off Emma Road on Boone Street and is owned by Appalachian Stove. The 2010 Plan indicates this area to be low density residential; however, the adjacent property is currently zoned industrial and also owned by Appalachian Stove. Access to this property would only be from within the existing industrial development due to the inadequate standards of Boone Street to handle industrial traffic and the noticeable terrain difference between the east and west areas of this lot. After Planning staff reviewed the rezoning request, they recommended approval of PIN No. 9639.19-62-4295, except for a 100 foot strip along Boone Street which should remain RM-8 to deny industrial access to Boone Street from this lot and provide for an opportunity for residential development.

At the August 6, 1997, Planning & Zoning Commission meeting, the Commissioners voted 6-1 to approve the rezoning request, except the 100-foot strip along Boone Street.

On August 25, 1997, the petitioner appealed to City Council that the entire lot, including the 100-foot strip along Boone Street, be rezoned to Industrial.

Mr. Barry Eavenson, President of Appalachian Stove and Fabricators Inc., explained that his company has been a part of the community for many years and they now need to expand. He noted that this lot was zoned industrial prior to Unified Development Ordinance zoning changes. He said that he would be willing to compromise with a 30-foot strip along Boone Street remaining RM-8 realizing that the 30-foot strip could not be used for residential purposes.

Vice-Mayor Field pointed out that if the buffer was reduced from a 100-foot strip to a 30-foot strip, we would be losing over an acre of land that could be used for low density housing.

Councilman Sellers felt that the area is industrial in nature and a 30-foot buffer strip would address the concerns of traffic on Boone Street, while still allowing Appalachian Stove to expand.

When Mr. Ralph Bishop asked that the ordinance be read pursuant to Rule 23 of the City Council Rules & Procedures, City Attorney Oast noted that the Rule states that "requests by members of the public for an ordinance or resolution to be read in its entirety in a council meeting shall only be complied with upon a vote of the majority of the council." City Attorney Oast said that a copy of the ordinance can be provided to him at no charge.

Mayor Martin closed the public hearing at 5:40 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2405, to rezone PIN No. 9639.19-62-4295 to Industrial, except for a 30-foot strip along Boone Street which shall remain zoned RM-8. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 289

C. PUBLIC HEARING RELATIVE TO REZONING PROPERTY ON EMMA ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO CI COMMERCIAL INDUSTRIAL

Mr. Barry Eavenson, President of Appalachian Stove and Fabricators, Inc., asked that this public hearing be continued until October 14, 1997, in order to allow City Council time within which to visit the property being requested to be rezoned.

Councilman Sellers moved to continue the public hearing until October 14, 1997, without further advertisement. This motion was seconded by Councilman Worley and carried unanimously.

D. PUBLIC HEARING RELATIVE TO REZONING EIGHT PARCELS ON THE SOUTH SIDE OF BROAD STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Councilman Worley said that he understands that there is a desire and willingness to continue this public hearing. However, due to the number of people at this meeting, he suggested the public hearing be opened, comments taken, and then continue the public hearing.

At the request of Councilman Cloninger, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Worley and carried unanimously.

Mayor Martin opened the public hearing at 5:46 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that a valid protest petition has been received, thus invoking the 3/4's vote requirement. Since Councilman Cloninger has been excused from voting, there would need to be a unanimous vote by City Council to adopt the ordinance.

Mr. Mike Matteson, Urban Planner, said that this is consideration of rezoning eight properties on the south side of Broad Street (between Madison Avenue and Charlotte Street) from RM-16 to Office.

When Council adopted the Unified Development Ordinance and the official zoning maps, it appears that their intention was to zone at least two of these properties as "Office". That intention, however, was not translated by staff onto the official zoning maps. Rather, these properties were designated as being zoned RM-16. Staff is presenting this rezoning as a way to correct this mapping error and has included the additional properties so as to create a more desirable zoning pattern in the area.

The RM-16 zoning district is a high-density multi-family district allowing up to 16 units per acre. The Office district allows a mixture of small scale office uses and residential uses at a density of up to 8 units per acre.

At their August 6, 1997, meeting, the Planning and Zoning Commission voted 4-3 to recommend denial of the rezoning. City Council then appealed the Planning & Zoning Commission's recommendation.

The following persons spoke against the rezoning for several reasons, some being: the neighborhood wants to keep the area residential; the increase in traffic will threaten the safety of the children in the area; a low income housing neighborhood will be destroyed; the office district will start of precedent of encroachment in the residential community; residents in the area like the convenience of living close to downtown and do not want to feel like they are being chased from their homes; Broad Street is too narrow at one end; there will be an increase in crime; residents want to keep affordable housing in their neighborhood; residents in the neighborhood are renovating their homes; and homeowners will be able to obtain federal tax credits because they are in a national historic district:

Ms. Angela Scotchie, 91 Broad Street
Mr. H.K. Edgerton
Ms. Janet Hart, 60 Baird Street
Ms. Jean Warner, 87 North Liberty Street
Mr. Arthur Davis, 12 Madison Avenue
Mr. Vincent Ramsuer, 111 Broad Street
Ms. Coleen Watkins, 87 Madison Avenue
Mr. Paul Conrad, 91 Broad Street
Mr. Winthrop Holcombe, 45 Madison Avenue
Ms. Roberta Greenspan, 48 Madison Avenue
Ms. Nelda Holder
Mr. Andy Scotchie, 303 Country Club Road
A resident from 19 Washington Road

Mr. Craig Justus, attorney representing Dennie Martin, owner of two lots in the area proposed to be rezoned, noted that throughout the whole Unified Development Ordinance process, Planning staff, the Planning & Zoning Commission and City Council expressed a willingness to rezone this area to office, and it is only because of a mapping error that this matter has been brought back up. He did, however, ask that this issue be tabled to give them an opportunity to meet with the community and see if a solution or at least a compromise can be achieved.

Mr. Ralph Bishop again asked that the ordinance be read pursuant to Rule 23 of the City Council Rules & Procedures. City Attorney Oast again noted that the Rule states that "requests by members of the public for an ordinance or resolution to be read in its entirety in a council meeting shall only be complied with upon a vote of the majority of the council." City Attorney Oast said that a copy of the ordinance can be provided to him at no charge.

Mr. Dennie Martin said that over 15 years ago his company made an investment in a risky neighborhood and they have now built their third facility in that area. He felt that the neighborhood is being revitalized because of some positive environment changes made by people who took chances and made investments in their area. They have made a substantial commitment to the community and feel they have been a positive influence. He said that his goal would be to arrive at a compromise that works for everyone.

Councilman Hay said that from the number and phone calls and letters he's received, he felt there is an opportunity to find some common ground and he would like to explore that before making a final decision.

Councilman Worley moved to continue the public hearing until October 14, 1997, without further advertisement. This motion was seconded by Councilman Sellers and carried unanimously.

E. PUBLIC HEARING RELATIVE TO ADOPTING THE "BLUE RIDGE PARKWAY, VIEWSHEDS OF SUPERIOR QUALITY" MAP REGARDING TELECOMMUNICATION TOWERS AND THEIR VISIBILITY FROM THE BLUE RIDGE PARKWAY

RESOLUTION NO. 97-149 - RESOLUTION ADOPTING A MAP ENTITLED "BLUE RIDGE PARKWAY, VIEWSHEDS OF SUPERIOR QUALITY"

Mayor Martin opened the public hearing at 6:33 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Julia Cogburn, Planning & Development Director, said that this is consideration of a resolution adopting a map entitled "Blue Ridge Parkway, Viewsheds of Superior Quality" as set forth in Section 7-16-2.D.3. of Chapter 7 of the Code of Ordinances of the City of Asheville, North Carolina.

In April of this year, City Council passed an ordinance amendment to provide for regulations established to protect the Blue Ridge Parkway's scenic quality. Included in these regulations was a provision that no telecommunications towers be erected in areas determined by The Asheville City Council to be "Blue Ridge Parkway, Viewsheds of Superior Quality." The ordinance references a map which will be adopted by Council to show the location of the "Viewsheds of Superior Quality." The United States Department of Interior Blue Ridge Parkway Offices have provided advice to the Planning and Development Department in the production of a map indicating proposed "Viewsheds of Superior Quality." The map is presented for City Council's review and adoption.

The Planning and Development staff recommends approval of the proposed map. At the August 6, 1997, meeting of the Planning and Zoning

Commission, the Commissioners voted 4-3 to recommended that the proposed map not be adopted.

Ms. Cogburn briefed Council on the comments she has received.

Discussion surrounded how much of the area within the City limits is residential property.

Mr. John VanDyke, Legislative Chair of the Asheville Board of REALTORS, Inc., read a letter dated September 9, 1997, in which they ask that this matter be tabled to allow the Blue Ridge Parkway staff, the City Planning staff, those affected property owners and other interested parties to meet and discuss other alternatives to this overlay. The letter reads in part:

"It is our understanding that the proposed overlay map is designed to restrict telecommunication towers only. There are some serious concerns that, if this map is approved, additional restrictions on property owners may or can be forthcoming. Our points of understanding and concerns are as follows: (1) An ordinance is in place on telecommunications towers which 'does not allow towers in residential districts'; (2) All of the overlay map areas of Haw Creek are zoned residential and, therefore, telecommunications towers cannot locate there. Why is it necessary to have another form of regulation over private property owners by approving this map overlay? Are you not really setting the wheels in place that could lead to limiting other developments or land uses in the overlay area? (3) The proposed Hendersonville Road map overlay appears to affect commercial and residential areas, and therefore, concerns our organization, as again, the restriction of telecommunications towers could be expanded to other buildings, whether condos, offices, commercial, etc.; (4) It is our understanding your planning commission recommended denial of the map overlays for some of the following reasons; (a) Only two or three people from the Blue Ridge Parkway staff solely picked the map area; (2) There is a concern the Department of Interior will dictate to the City what is 'suitable and unsuitable' and the City will have to pay for the cost of enforcement; (c) The question is asked: Should the federal government buy scenic easements from those property owners affected?; (d) And, finally, 'today it is telecommunications towers, tomorrow will it be buildings?'; and (5) It is also our understanding you are holding this public hearing to appeal the Planning Commission's position."

Mr. Steve Gravenstein, property owner in Haw Creek, spoke in support of Council moving forward with adoption of this map which is necessary to preserve the scenic beauty of our area.

Ms. Barber Melton, Vice-President of the Haw Creek Homeowners Association, urged Council to adopt the viewshed map.

Mr. Karl Koon, member of the Planning & Zoning Commission, reported to Council the reasons why he voted against adoption of the map.

Mayor Martin, along with Councilman Cloninger, spoke in support of adoption of the map noting that we cannot afford to run the risk of having our viewing area littered with telecommunication towers. Both agreed that the map can be amended but in the meantime, we need to protect what we have.

Upon inquiry of Mr. Koon, Councilman Cloninger explained the difference between a telecommunication tower and the use of stealth technology with antennas.

Vice-Mayor Field totally supports protecting the viewshed, however, she had not had an opportunity to actually drive the area with the map to see what viewsheds the Blue Ridge Parkway is asking City Council protect. She said that she would like to see a process put in place for more of a community process in the identification of those areas.

Councilman Worley agreed with Vice-Mayor Field in that he agrees with the concept, but would like the opportunity to view the areas first-hand.

Mr. Mel Thomason urged City Council to postpone adoption of the map and let the interested parties meet to discuss other alternatives.

Mayor Martin closed the public hearing at 7:07 p.m.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-149. This motion was seconded by Vice-Mayor Field and carried unanimously.

Councilman Worley requested a method within which to review this and do whatever fine-tuning is necessary.

Vice-Mayor Field moved to request staff to proceed with setting up a meeting with all the parties involved as soon as possible and report back to Council on what can be done for more community involvement and education (both for Council and the community). This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 183

F. PUBLIC HEARING RELATIVE TO ANNOUNCING THE COMPLETION OF THE PRELIMINARY ASSESSMENT ROLL ON THE RHODODENDRON CIRCLE SPECIAL ASSESSMENT PROJECT

RESOLUTION NO. 97-150 - RESOLUTION CONFIRMING THE PRELIMINARY ASSESSMENTS MADE IN THE RHODODENDRON CIRCLE SPECIAL ASSESSMENT PROJECT

Mayor Martin opened the public hearing at 7:11 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is consideration of confirming the Preliminary Assessments made in the Rhododendron Circle Special Assessment Project.

The Public Works Department has assessed the total costs for the Rhododendron Circle project, completed in June 1997 and prepared a preliminary assessment roll.

The property owners residing on Rhododendron Circle (beginning at its intersection with Rhododendron Place and ending at its intersection with Old Haw Creek Road) petitioned the City of Asheville to accept Rhododendron Circle as a City System street. Improvements consisting of spot repairs and patching along, tie-ins to driveways, and total resurfacing were necessary for acceptance of the street. Property owners on Rhododendron Circle should be assessed for fifty percent (50%) of the costs as agreed to in the original petition.

In June 1997, the Rhododendron Circle project was completed. The cost of enhancements to Rhododendron Circle project is $9,365.50 which amount includes the costs of labor, materials, equipment, and the costs of publication of notices and resolution.

A preliminary assessment role for benefited property owners has been prepared. The amount assessed to each benefited property owner is based upon fifty percent (50%) of the enhancement costs at an equal rate per foot of frontage.

The Public Works Department staff recommends the adoption of the resolution confirming the preliminary assessments made in the Rhododendron Circle Project. Staff further recommends acceptance of Rhododendron Circle as a City Street.

Mayor Martin closed the public hearing at 7:14 p.m.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-150. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 184

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. **RESOLUTION NO. 97-151 - RESOLUTION REAPPOINTING MEMBERS TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE**

Vice-Mayor Field said that the terms of Carol Williams and Glenda McDowell expired on August 22, 1997. This resolution will reappoint Ms. Williams and Ms. McDowell to each serve a three year term, terms to expire August 22, 2000, or until their successors have been appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-151. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 186

B. **RESOLUTION NO. 97-152 - RESOLUTION APPOINTING SAM POWERS AS THE CHAMBER OF COMMERCE REPRESENTATIVE ON THE CITY BUSINESS AND DEVELOPMENT COMMISSION**

Vice-Mayor Field said that Ord. 2309 established the City Business and Development Commission. Said ordinance authorized various agencies to appoint members to the Commission.

Mr. Jay Garner, the Chamber of Commerce representative, has resigned, and the Chamber of Commerce has requested that Mr. Sam Powers, Economic Developer for the Chamber of Commerce be appointed to replace Mr. Garner as the Chamber of Commerce representative.

Mr. Powers will serve the unexpired term of Mr. Garner, said term to expire on October 1, 2000, or until his successor is appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-152. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 187

C. **RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND BOARD OF TRUSTEES**

Vice-Mayor Field said that a representative from Wachovia Bank, which holds the funds for this Board, will be submitting a name for consideration. Therefore, Vice-Mayor Field moved to table this matter until a recommendation is received. This motion was seconded by Councilman Skalski and carried unanimously.

D. **RESOLUTION NO. 97-153 - RESOLUTION REAPPOINTING MEMBERS TO THE MINORITY BUSINESS COMMISSION**

Vice-Mayor Field said that the terms of Robbie Williams, Bonnie Habel and Ronald Blythe expired on August 1, 1997. Since the City and Council have been working on a draft City-County Minority Business Plan, City Council felt it was in their best interest to reappoint these members until the new Plan is adopted.

This action will reappoint Ms. Williams (as representative of the YMI Cultural Center), Ms. Habel (as representative of the Asheville-Buncombe Community Relations Council), and Mr. Blythe (as representative of the Asheville Business Development Center), to each serve an additional two year terms, terms to expire August 1, 1999, or until their successors have been appointed.

Mr. H.K. Edgerton read a statement which informed City Council that the NAACP is appalled that the Council continues to deny the NAACP a seat on the Minority Business Commission as well as the Downtown Development Commission. He urged City Council pay attention to the poor attendance of the members currently on the Commission.

Mayor Martin explained that City Council did not feel it was necessary to make changes to the Commission membership since the Plan is in the process of being amended.

Vice-Mayor Field explained that the Minority Business Commission is made up of business organizations and the NAACP is seen as a civil rights organization. With regard to the City Business & Development Commission, that Commission have appointments from African American business organizations.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-153. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 188

E. RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE TREE COMMISSION

Vice-Mayor Field moved that these appointments be considered again during the next quarterly appointment process. This motion was seconded by Councilman Sellers and carried unanimously.

F. RESOLUTION NO. 97-154 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Mayor Martin said that the terms of Robert Swicegood and Rod Hudgins expired on August 14, 1997.

Each Council member voiced praise about all candidates for the Planning & Zoning Commission. It was the consensus of Council to nominate all candidates interviewed (Mac Swicegood, Arthur Anderson, Billie Buie, Lionel Williams, Anne Campbell, Jerry Bailey and Jan Davis) and to include Luke Carpenter in the nominations at the request of Councilman Skalski.

It was the consensus of Council that the two people who received four votes would be the two members on the Commission. Each Council member then voiced their support of their two choices.

Councilman Cloninger nominated Lionel Williams and Billie Buie.

Vice-Mayor Field nominated Billie Buie and Jan Davis.

Councilman Hay nominated Billie Buie and Jan Davis.

Councilman Sellers nominated Mac Swicegood and Jan Davis.

Councilman Skalski nominated Luke Carpenter and Jerry Bailey.

Councilman Worley nominated Mac Swicegood and Lionel Williams.

Mayor Martin nominated Mac Swicegood and Lionel Williams.

Since Mac Swicegood, Billie Buie, Lionel Williams and Jan Davis each received three votes, City Council again chose two of those four candidates.

Councilman Cloninger nominated Lionel Williams and Billie Buie.

Vice-Mayor Field nominated Billie Buie and Jan Davis.

Councilman Hay nominated Billie Buie and Jan Davis.

Councilman Sellers nominated Mac Swicegood and Jan Davis.

Councilman Skalski nominated Jan Davis and Billie Buie.

Councilman Worley nominated Jan Davis and Lionel Williams.

Mayor Martin nominated Mac Swicegood and Lionel Williams.

Jan Davis received 5 votes, Billie Buie received 4 votes, Lionel Williams received 3 votes and Mac Swicegood received 2 votes. Therefore, Councilman Hay moved to appoint Jan Davis and Billie Buie, to the Planning & Zoning Commission. Mr. Davis and Ms. Buie will each serve a three year term, terms to expire August 14, 2000, or until their successors have been appointed. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 189

G. RESOLUTION NO. 97-155 - RESOLUTION APPOINTING A MEMBER TO THE TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Field said that the term of John Winkenwerder expires on August 30, 1997. This resolution will appoint Don Tomlinson, Quality Inn - Biltmore, (as owner or operator of a hotel, motel or other taxable tourist accommodation) to serve a three year term, term to expire August 30, 2000, or until his successor is appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-155. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 190

VI. OTHER BUSINESS:

A. COMMENTS FROM RALPH BISHOP

Mr. Ralph Bishop spoke to Council relative to full and accurate minutes.

B. CLAIMS

The following claims were received by the City of Asheville during the week of August 22-28, 1997: Fairway Villas (Water), Don G. Bryant (Traffic Engineering), PYPLLC (Streets), Louis J. Mongiovi (Water), Jimmie Deane Parris (Streets), Jody Lyda (Sanitation), W.G. Dixon (Water), James Thrasher (Streets) and James Keefer (Police).

These claims have been referred to Asheville Claims Corporation for investigation.

C. CLOSED SESSION

At 8:00 p.m., Councilman Worley moved go into closed session for the following reasons: (1) to discuss matters relating to the location or expansion of industries or other businesses in the area served by the City - G.S. 143-318.11 (a) (4); and (2) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the attorney and the City. The parties in the lawsuit about which the City expects to received advise are CC&J Enterprises Inc. and the City of Asheville - G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:35 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cloninger and carried unanimously.

150

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 8:35 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - September 16, 1997 - 3:00 p.m.

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski (arrived in meeting at 3:15 p.m.); and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; Assistant City Manager S. Douglas Spell; and City Clerk Magdalen Burleson

Absent: City Manager James L. Westbrook

CONSENT AGENDA:

Submittal of Homeownership Zone Application to HUD

Summary: The consideration of a resolution to approve submittal of funding applications to U. S. Department of Housing and Urban Development to expand homeownership opportunities in the target area.

Public Auction

Summary: Consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

Municipal Records Retention & Disposition Schedule

Summary: The consideration of approving the N. C. Dept. of Cultural Resource's updated Municipal Records Retention and Disposition Schedule issued August 15, 1997.

Purchase of 285 Linear Feet of 8-inch Sewer Line from Beaver Creek Partnership to service Carter Cove Community

Summary: The consideration of authorizing the expenditure of funds in the amount of $12,000 to Beaver Creek Partnership for 285 linear feet of 8-inch private sanitary sewer line to connect an existing Metropolitan Sewage District sewer line to a proposed 8-inch sanitary sewer line to service the Carter Cove community.

Transfer of Wind Song Subdivision Pumping Station Property to City of Asheville

Summary: The consideration of approval of the transfer of property to the City of Asheville for the Wind Song Subdivision pumping station property.

Acceptance of Regional Water Authority's Recommendation to award contract re: Bee Tree Dam Modification Project

Summary: The consideration of awarding an Engineering Services Contract to Applied Geosciences and Engineering, Inc.

Acceptance of Regional Water Authority's Recommendation to award contract re: Gap Creek/Cane Creek 12-inch Waterline Contract

Summary: The consideration of awarding a construction contract to Cooper Construction Company for the Gap Creek/Cane Creek 12-inch Waterline Contract.

65 Starnes Avenue Grocery Sign Request for Designation of Landmark Sign

Summary: The consideration of a request from the owner of the Asheville Store for landmark designation of the Starnes Avenue Grocery Sign, located at 65 Starnes Avenue.

Resolution regulating Consumption and Possession of Malt Beverages and/or Unfortified Wine at the Greek Festival

Summary: The consideration of a resolution allowing alcoholic beverages at Asheville's 11th Annual Greek Festival on October 3-5, 1997.

Authorize City Clerk to Advertise Sale of Disposal Parcel 10.1 on Carroll Avenue

Summary: The consideration of authorizing the Mayor to execute necessary documents to effect an exchange of property with the Housing Authority of the City of Asheville in order to facilitate several beneficial projects.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

GREENWAY MASTER PLAN

Ms. Erin McLoughlin, Urban Planner, said that the Trust for Public Land has received a grant from the Janeirve Foundation to prepare a greenway master plan for the City of Asheville.

The Trust for Public Land applied for and received a Janeirve grant to continue their work on greenways in Asheville. They received a total of $75,000 of which $25,000 is for their continued work on the Broadway Greenway and $50,000 is for a greenway master plan. The Janeirve Foundation stipulated that the master plan monies ($50,000) would need to be matched dollar for dollar. The Planning and Development Department had $30,000 in this year's budget for greenway planning. This money will be used to match $30,000 from the grant. A budget amendment in the amount of $20,280 is necessary for reimbursable expenses that will be incurred during the master plan process. The budget amendment will transfer $20,280 from the General Capital Fund Contingency for this purpose leaving a balance of $70,720 in Contingency.

The City will be responsible only for those expenses actually incurred. Any monies not used in the master plan process will be used to leverage other funds for future greenway work.

The Planning and Development Department recommends (1) that the City Manager be authorized to sign the Conservation Services Agreement with The Trust for Public Land; and 2) that City Council adopt a budget amendment in the amount of $20,280 so that The Trust for Public Land can begin work in September on a master greenway plan for the City.

A representative from The Trust for Public Land responded to questions from Council relative to the Master Plan and stated that the Plan would completed around June of 1998.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DESIGNATION OF PORTION OF LAND CROSSING WATERSHED PROPERTY AS NORTH CAROLINA "MOUNTAIN-TO-SEA" TRAIL

City Attorney Oast said that this is the consideration of a resolution authorizing the designation of an existing trail through the North Fork Watershed Property as a segment of the North Carolina Mountains-to-Sea Trail.

The Carolina Mountain Club has approached the City to request the City's consent to an application for the inclusion of an existing trail through the North Fork Watershed as a segment of the "Mountains-to-Sea" Trail. The application is made to the N. C. Dept. of Environment, Health and Natural Resources. The Club initially communicated to the City that the City's action was not needed until late in the Fall, but later discussions indicated that the City's consent was needed earlier. An appropriate investigation was conducted and there was no apparent problem with consenting to the application. The investigation and results are detailed in a Memorandum and letter, dated August 25, 1997.

Mr. Dwayne Stutzman, Regional Trails Specialist with the N.C. Dept. of Environment, Health & Natural Resources, passed out some information in the history of the Trail.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ADDITIONS TO THE FEES & CHARGES MANUAL

Audit/Budget Director Bob Wurst said that this is consideration of adding three fees to the Fees and Charges Manual to be effective September 23, 1997.

During the budget process, three items related to fees and charges were omitted from the information presented to City Council. Staff requests City Council consideration of these items so as to become effective September 23, 1997.

The Engineering Department of the City of Asheville is requesting that the Asheville Standards Specifications and Details Manual be sold in Manual form for $25 per copy and the standard details be sold in a 10-Disk set for $100, plus shipping charges if applicable.

The Engineering Department is also requesting that a maximum for street cut permit fees be set at $2,500. Staff has evaluated the fee schedule for street cuts and feels that a maximum fee is appropriate for the large job size. This amount was reached based on a review of data from previous projects with large street cuts.

The Administration Department has included a copy fee policy that would be applicable to all City departments and addresses the different types of documents available for duplication.

Staff recommends that the City Council adopt the new fees effective September 23, 1997.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RENOVATION OF CITY DEVELOPMENT BUILDING FACADE

Mr. Lyle Willis, Contract Administrator, said that this is consideration of the selection of a contractor to perform repairs of the facade of the City Development Building (Martin Building).

Over the course of the last few years, it has been determined that the facade of the City Development Building (Martin Building) is in need of repair. There is evidence of stucco and structural fastener deterioration and several large pieces of stucco have completely fallen off the building. A consulting architectural firm, Camille Alberice Architects PA of Asheville, was hired to determine the extent of repairs needed, and bid specifications and plans were drawn up accordingly. The scope of work was outlined as follows: Repair the front and back sides of the parapet wall, sidewalk, drywall ceiling, and structural fasteners (Roof work was not included.).

On July 7, 1997, advertisement for bid letters were sent out requesting proposals for the above-described work. No bid proposals were received by the advertised bid date of July 18, 1997. The contractors were then contacted again, at which time they responded that the project was very specialized and they were therefore reluctant to bid. At that time there was a single contractor who expressed a willingness to research the project further and submit a proposal. On August 21, 1997, staff received a written proposal and, after review of these bid proposals, it was determined that Carolina Cornerstone Construction Inc. of Asheville would be selected as the successful bidder. It was then determined that City staff would seek Council approval to enter into a contract to perform work listed in its proposal for $35,865.

Staff recommends Council approval of the lowest responsible bidder, Carolina Cornerstone Construction. Inc., and requests Council to direct the City Manager to enter into contract for $35,865 for repairs of the facade of the City Development Building (Martin Building).

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REQUEST RESCINDING CONVEYANCE OF SURPLUS BUSES TO ASHEVILLE SISTER CITIES PURSUANT TO THEIR REQUEST

Mr. Carl Ownbey, Urban Planner, said that this is consideration to rescind Resolution 96-172 where the City of Asheville conveyed two of Asheville Transit Authority's surplus buses to the Asheville Sister Cities Program in September of 1996 to be sent to San Cristobal, Mexico, for their public use.

Through the Asheville Sister Cities Program, the City of Asheville had received a request from its Sister City of San Cristobal, Mexico, for surplus buses to be used for their school program. Since the Asheville Transit Authority had just recently replaced its entire fleet of transit buses, there were several buses available to be conveyed to the Sister Cities Program. In a 1996 resolution, the City Council conveyed two of the surplus buses to the Sister Cities Program and authorized the surplus buses to be conveyed for public use by the Town of San Cristobal.

Since the time of conveyance of the two buses, the Sister Cities Program has tried to accomplish the task of shipping the buses to Mexico; however, with limited resources to ship the buses to Mexico, the Sister Cities Program is now declining the offer of the two buses and is requesting that the City of Asheville take the buses back.

The City Planning Staff and the Asheville Transit Authority recommend that the City Council take the two surplus buses back from the

Sister Cities Program and place them in the next public auction (which is scheduled for October, 1997).

Vice-Mayor Field explained that the problem was that they could not cross the border with a vehicle licensed to someone different other than the driver of the vehicle and no one driving the vehicles were willing to take on the ownership.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FURTHER DISCUSSION OF SIGN ORDINANCE

Councilman Cloninger said that he was encouraged by the report Council received from the Planning Department at the mid-year retreat about the progress being made in enforcing the sign ordinance. But, he believed the City can, and should, do more regarding signs. He said "before I explain what I do propose, I would like to first make clear what I do not propose. I do not propose that we made any changes in the current sign ordinance pertaining to on-premises signs - the signs that business owners use on the site of their business to let the public know that they are there. The current ordinance regarding on-site signs is a good one, and we should simply seek to enforce it, and to appoint people to the Board of Adjustment who are willing to enforce it.

"I do propose that we change our ordinance as it pertains to billboards. The benefits of billboards are outweighed by the harm they do to our number one asset - the natural beauty of our area. Furthermore, there are many alternatives to billboards, such as radio, television and the print media. Billboards make us less attractive to tourists and potential new businesses looking to move into the area. They send a message that we don't appreciate the unique natural environment we live in here in the mountains - that we are content to look like just another city.

"We need to send a different message - a message that we understand how fortunate we are to live here, that we greatly value our quality of life and that we want to be good stewards of the natural beauty of this area. One way we can send that message is by eliminating billboards over time.

"Here are my specific proposals for amending the sign ordinance as to billboards: (1) Prohibit any new billboards; (2) Require the removal of all existing billboards within 7 years. (The courts have actually held that cities can require removal in less than 7 years, but I would propose that the billboard companies be given a full 7 years of additional income before having to take them down); (3) As an alternative to #2, that we readopt the language of the 1990 ordinance regarding existing billboards and start a new amortization period as to that readopted language. Under this alternative, no new billboards could be erected and all existing billboards would have to be in compliance with the 1990 ordinance by the end of a new amortization period; this would effectively undo the grandfathering of signs done by the previous City Council in 1995. I prefer the proposals in #1 and #2 above rather than this alternative; and (4) That any change in the language of the ordinance pertaining to billboards not impair the ability of the City to enforce the current sign ordinance during the new amortization period.

"We do not have the authority to regulate billboards along interstates.

"I am not asking City Council members to take a vote today on which, if any, of these proposals. However, I am asking that we today instruct the Planning staff to present to the Planning & Zoning Commission proposed ordinance language similar to these proposals for the Commission to consider at their next scheduled meeting."

City Attorney Oast confirmed that the law does restrict the ability of local governments to regulate signs along some federal highways.

Councilmen Skalski and Sellers both endorsed the idea of moving this forward to the Planning & Zoning Commission.

Planning & Director Julia Cogburn explained that her interpretation of a billboard is outdoor advertising. Councilman Cloninger then stated that this proposal is exclusively for billboards.

It was the consensus of Council to instruct the Planning staff to prepare information for City Council's review at their next meeting. City Council can then review the information and forward it to the Planning & Zoning Commission for their review at their October meeting. Said information should contain draft ordinances to achieve Councilman Cloninger's request, information on how the changes will affect existing billboards, how many billboards will be affected, etc.

REQUEST FOR PLAN REVIEW EXEMPTION

Mr. Terry Summey, Director of Building Safety, said that this is consideration to request The Building Code Council for the authority to review plans at the local level and be exempted from the requirements for certain plans to be reviewed by the Department of Insurance ("DOI").

The North Carolina State Building Code, Volume 1-A, requires plans for certain facilities to be submitted and reviewed by the DOI engineering staff. This review generally takes several weeks, or months, to complete and may delay the issuing of the building permit by the local jurisdiction. If the local jurisdiction has appropriately certified plan review personnel on staff, this requirement may be waived by written request to DOI.

An inspection department may apply to the Building Code Council to review plans and specifications on buildings listed in Table 602. Such authority shall be granted provided:

1. The inspection department shall submit a written request for approval.
2. The inspection department shall state it is adequately staffed and the staff possess Standard Level III Certificates in all areas from the North Carolina Code Qualifications Board.
3. The approval shall be for up to 12 months.
4. The inspection department shall submit an annual written request for approval for the subsequent year by May 1 to be approved at the June meeting for the following year.

The City of Asheville Building Safety Department and the Fire Department's Life Safety Division currently have the following Level III Certifications on staff: Building - 9 Certificates; Electrical - 7 Certificates; Mechanical - 3 Certificates; Plumbing - 8 Certificates; and Prevention - 7 Certificates.

Although the City of Asheville may be approved for local plan review, the below listed buildings will require review by the State Engineering Division, per Volume 1A-section 602.2.2.

1. High Rise (buildings in which the highest occupied floor is more than 75 feet above the highest firefighting vehicle apparatus access area)
2. Group A-1- Large Assembly
3. Group H- Hazardous over 100 people
4. Covered Malls
5. All buildings owned by a city, or county having a total gross area exceeding 10,000 sq. ft. and
6. All buildings owned by the State shall be submitted to the State Property and Insurance Fund Division.

Other jurisdictions which are currently approved for local plan review include: Mecklenburg County and the City of Raleigh.

The Director of Building Safety and the Fire Chief recommend that City Council approve the request to The Building Code Council for the authority to review plans at the local level and be exempted from the requirements for certain plans to be reviewed by DOI.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REVISED CITY'S ECONOMIC DEVELOPMENT POLICY

Mr. John Scaralia, City Development Director, reviewed the revised City's Economic Development Policy which includes establishing grants for eligible firms.

As competition between municipalities for a limited number of business relocations and investments becomes more acute, communities are finding the need to become more proactive in positioning themselves as cost-effective destinations with strong pro-business climates. It follows that in order to expand economic development options and create more employment opportunities for the residents of Asheville, a program should be established which encourages business to locate and expand within the City.

The Economic Development Incentives Policy provides a new way to stimulate business investment within the City by establishing grants for eligible firms based on the amount of investment in the community, the number of quality jobs created, and their ability to meet certain financial and operational criteria.

On March 8, 1996, in response to a lawsuit which argued that business incentives provided by governments to companies are unconstitutional (*Maready vs. City of Winston-Salem)*, the N.C. Supreme Court held "that N.C.G.S. [section] 158-7.1, which permits the expenditure of public moneys for economic development incentive programs, does not violate the public purpose clause of the N.C. Constitution." As a result, municipalities across the state have begun to develop and broaden their incentive policies in order to compete for expanding and relocating businesses.

This proposed revision is based on providing grants to companies seeking to locate and expand within the City, and follows the general format which other N.C. municipalities have adopted. It augments the original guidelines as set forth in Resolution #94-211, adopted by the

City Council on October 1, 1994, and establishes new parameters to help increase the diversity of the tax base, offer quality employment opportunities for its citizens, and promote private business and industrial growth within the City of Asheville.

Staff is recommending that City Council review the draft proposal and consider adoption of the new policy.

City Attorney Oast said that it is important to point out that this is a grant that is based in part on the amount of tax that the City would receive, as the statute permits - not a tax rebate or a tax abatement program.

Councilman Worley stressed that not every company that makes an application will receive a grant. This is discretionary and every application will be researched by staff and reviewed by City Council.

Councilman Skalski pointed out that the City of Portland, Oregon, has a policy statement in their incentive package dealing with job training, which he felt was very important in a good policy. He showed Council a graph which showed that approximately 80% of all new jobs created in the United States come from companies with four or less employees. That statistic relates to the amount of grant money that should be allocated to the different sized companies and he felt that more emphasis should be placed on that. He would work with Mr. Scaralia on this issue. With respect to tax structure and how it relates to jobs, he said the higher your taxes are per capita, the harder it is to attact new businesses into an area. He then questioned Asheville's policies on annexation and showed Council a chart based on the 1994-95 revenues and expenditures taken from "Fiscal Summary of North Carolina Municipalities for the fiscal year ended June 30, 1995." He explained that the chart showed that any city over 50,000 in population has a dramatic increase in taxes and when you annex more land into the City, your taxes go up. He felt Council should look at those items when they are looking at economic plans. He stated he had several other suggestions for possible inclusion in Asheville's package and offered to work with Mr. Scaralia on fine-tuning our policy.

Councilman Cloninger was pleased to see that the incentive policy would also help existing businesses.

Vice-Mayor Field was pleased that we are tailoring our policy to the needs of our community.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

HAW CREEK AREA GREENWAY

City Attorney Oast said that this is consideration of a resolution authorizing the City, through the City Manager, to enter into a Memorandum of Understanding and other agreements on behalf of the City for negotiation of easements with certain property owners along the projected route of a proposed Haw Creek greenway.

The Haw Creek Homeowners Association has been working with the owners of the Haw Creek Mews Apartments and the Ice Service Stores to acquire easements along Haw Creek across their properties. These are relatively large tracts of land, and, because of their location at the intersection of Haw Creek on Beverly Road, acquisition of easements across them is crucial to the success of this neighborhood-initiated Greenway project, and to getting the project off to a good start.

The projected sequence of events and documents, as with the recent greenway project which crossed a portion of UNC-A property, is to enter into a Memorandum of Understanding first, and then to negotiate construction easements and permanent easements as the plans for the greenway develop and construction is undertaken and completed. The Memorandum commits the parties to this process, subject to working out details. No money is committed by the City and no property interest is acquired by the City at this point.

The resolution authorizes the City, Mayor or City Manager, to obtain appropriate agreements for the acquisition of property interests for the Haw Creek Greenway, but contemplates that these agreements will be negotiated by the Haw Creek Homeowners Association. For the present, this resolution will only apply to the two owners named above, but authorizes negotiations with other owners as well. No commitment of funding for construction or maintenance of a greenway is authorized at this time.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PUBLIC WORKS FEES FOR SPECIAL EVENTS

Traffic Engineer James Cheeks said that this is consideration of the fees charged by the Public Works Department for non-sponsored events.

The City currently has a policy for providing City resources such as staff time (overtime), barricades, signs, sanitation services, street cleaning, tip fees, police security and traffic control at no charge to a sponsor(s) if an event is designated as a City co-sponsored event.

The Public Works Department is typically involved in street barricades, banners, signage, sanitation (trash pickup), street sweeping and general labor. He outlined the budgeted costs by the Public Works Department for City co-sponsored events.

Conversely, events that are not co-sponsored by the City are charged based upon an estimate of costs for the aforementioned resources which must be paid in advance. Also, many such events require Public Works, Parks and Recreation and Police staff to work after hours at overtime pay rates. Such events can have a significant impact to operating budgets. He outlined the actual cost assessments for recent non-sponsored events.

For fiscal planning purposes it is important for departments which are supporting co-sponsored events to budget the appropriate funds for necessary services under the current fee system. Non-sponsored customers requesting special event services are assessed estimated actual costs for labor, equipment and supplies, which may give some groups and organizations the perception that there is an inconsistent administration of this program. Secondly, the City may not always possess the appropriate number of barricades for a particular event (due to use in normal operations), which necessitates the rental or purchase of additional barricades (the costs of which are passed on to the sponsor).

He reviewed the information from a telephone survey conducted by staff of North Carolina's seven largest cities. In summary, the information collected provides no definitive or consistent policies among them with the exception of MUTCD standard traffic control plans. Based upon this data, the unique characteristics of each City were in all likelihood considered in developing each policy.

Aside from wear and tear on vehicles and equipment, the use (or loss) of supplies related to special events is primarily due to the damage or theft of traffic control barricades and cones. Thus, in order to maintain the appropriate level of barricades necessary for routine/non-routine public works projects, special construction activities and special events needs, it is necessary to purchase them on a regular basis.

An alternative to the rental and placement of barricades by City staff would be for event sponsors to rent such from private suppliers and placement and removal in accordance with the approved traffic plan.

It is important to strike a balance between the needs of the community and the general public, individuals and businesses potentially affected by special use (and restrictions) of rights-of-ways, through staff accommodation and a sensible policy for the administration of such events.

Based on a balance of needs, following are recommendations as related to Public Works services:

1) City co-sponsored event (as budgeted in approved annual budget):
   No Cost

2) Non-sponsored events utilizing City resources:

   a) Labor: Full cost recovery (to include overtime if necessary) Customer may contact DPW prior to event for estimate of costs.
   b) Barricades (to include rental rates for Special Construction Activities):
      - Type III: $25 each per day
      - Type II: $10 each per day
      - Cones: $5 each per day
      - Detour signs: $5 each per day
      - Meter bags: $5 each per day
   c) Vehicles: (based on fuel, operations, maintenance, and wear and tear)
      - Pickup truck: $12 per hour
      - Aerial bucket truck: $20 per hour
      - Forklift: $15 per hour
      - Sanitation truck: $40 per hour
      - Tipping fee (solid waste): $31 per ton
      - Street Sweeper: $40 per hour
      - Street Flusher: $40 per hour
   d) Banners/decoration installations:
      - $100 deposit
      - $5 per banner (no size limit)

There are currently concessions made for use of City/County Plaza for smaller events (waiver of barricade fees) in an effort to accommodate smaller events.

It is staff's opinion that the above rate schedule represents a fair and equitable compromise between the event sponsor's use of public space and the City's support services.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CONTRACT FOR ENGINEERING SERVICES FOR BROADVIEW DRIVE SUBDIVISION

Mr. Marvin Vierra, Community Development Director, said that the City of Asheville is seeking engineering and site design services for the development of a single family, owner occupied housing subdivision affordable to low and moderate income families.

The Community Development Division issued a Request For Proposals for Engineering Services to design the Broadview Drive single family affordable housing subdivision on August 1, 1997. Eight proposals were received. An RFP Committee of City and Habitat staff reviewed the proposals and selected two firms for interviews. The Committee interviewed two firms and selected Mattern & Craig Inc. based on experience and qualifications. A contract price was then negotiated by staff. The contract includes requirements to design the infrastructure for this affordable housing single family homeownership subdivision including layout of the lots and open space and park area. The engineer is to complete design and have final submittal to the City no later than February 15, 1998. The consultant will prepare bid specifications and assist with awarding the construction contract and inspect the construction of the project. The contract calls for completion of construction by September 1, 1998, and involvement of community residents throughout the design and construction. Cost of the consultant services is $37,300.

Community Development staff recommends approval of the Resolution.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

COMMUNITY MEETING

It was the consensus of City Council to hold a community meeting on September 30, 1997, at 7:00 p.m. The Crowfields community center was discussed as a possible meeting place.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 4:35 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - September 23, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Worley gave the invocation.

INTRODUCTION OF GUESTS

Mayor Martin welcomed Ms. Kathy Kline and her 6th grade students from Carolina Day School.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE MONTH OF SEPTEMBER 1997 AS "SUBSTANCE ABUSE AWARENESS MONTH"

Mayor Martin read the proclamation proclaiming September, 1997, as "Substance Abuse Awareness Month" in the City of Asheville. He presented the proclamation to Mr. Matthew Bacoate who briefed the Council on the activities that will be taking place during the month.

B. PROCLAMATION PROCLAIMING THE MONTH OF OCTOBER AS "ASHEVILLE SISTER CITIES MONTH"

Mayor Martin read the proclamation proclaiming the month of October, 1997, as "Asheville Sister Cities Month" in the City of Asheville. He presented the proclamation to Mr. George Yates who briefed the Council on the activities that will be taking place during the month.

C. PROCLAMATION PROCLAIMING THE MONTH OF OCTOBER AS "DOWN SYNDROME MONTH"

Mayor Martin read the proclamation proclaiming the month of October, 1997, as "Down Syndrome Month" in the City of Asheville. He presented the proclamation to Harry Weiss and his daughter Zoie, Cheryl Posey and her daughter Carolina, and Jeff Mosley and his daughter Beth. Mr. Weiss briefed the Council on the activities that will be taking place during the month.

D. PROCLAMATION PROCLAIMING OCTOBER 5-11, 1997, AS "MENTAL ILLNESS AWARENESS WEEK"

Mayor Martin read the proclamation proclaiming October 5-11, 1997, as "Mental Illness Awareness Week" in the City of Asheville. He presented the proclamation to Mrs. Betty Lane who briefed the Council on the activities that will be taking place during that week.

II. CONSENT AGENDA:

At the request of Councilman Skalski and Mr. Ralph Bishop, Item A. was removed from the Consent Agenda to be discussed individually.

At the request of Mr. Ralph Bishop, Item L. was removed from the Consent Agenda to be discussed individually.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 9, 1997, AND THE WORKSESSION HELD ON SEPTEMBER 16, 1997

This item was removed from the Consent Agenda to be discussed individually.

B. RESOLUTION NO. 97-156 - RESOLUTION AUTHORIZING SUBMITTAL OF FUNDING APPLICATIONS TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT THROUGH THE HOMEOWNERSHIP ZONE AND SECTION 108 LOAN GUARANTEE PROGRAMS

Summary: The consideration of a resolution to approve submittal of funding applications to U. S. Department of Housing and Urban Development (HUD) to expand homeownership opportunities in the target area.

City Council will consider approving the submittal of an application to HUD for funding through the HUD Homeownership Zone and Section 108 Loan Guarantee Programs to increase homeownership opportunities in the target area designated as a homeownership zone. The target area will include the West End/Clingman Avenue neighborhood under Phase I and be expanded to surrounding neighborhoods such as West Asheville's WACT 10 area for the second phase. The goal will be to create at least 300 new single family homeownership opportunities as a result of the project.

Pisgah Legal Services is responsible for preparing the Homeownership Zone funding application and coordination with the private sector to leverage additional funding.

Deadline for submittal of the application is September 30, 1997. The Housing and Community Development Committee discussed the project on August 12, 1997, and September 9, 1997, and is supportive with the funding application.

RESOLUTION BOOK NO. 24 - PAGE 191

C. RESOLUTION NO. 97-157 - RESOLUTION AUTHORIZING THE PURCHASING DIRECTOR TO SELL SURPLUS MOTOR VEHICLES, TRANSIT COACHES, OFF-ROAD EQUIPMENT AND OTHER SURPLUS PROPERTY AT PUBLIC AUCTION

Summary: Consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, transit coaches, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction is to be held Saturday, October 11, 1997, at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

RESOLUTION BOOK NO. 24 - PAGE 192

D. RESOLUTION NO. 97-158 - RESOLUTION APPROVING THE MUNICIPAL RECORDS RETENTION AND DISPOSITION SCHEDULE ISSUED AUGUST 15, 1997

Summary: The consideration of approving the N. C. Dept. of Cultural Resource's updated Municipal Records Retention and Disposition Schedule issued August 15, 1997.

N.C. Gen. Stat. sec. 121-5 mandates that records defined under Chapter 132 may be disposed of only in accordance with an official records retention schedule. The N.C. Dept. of Cultural Resources, Division of Archives and History, has updated the 1984 Municipal Records Retention and Disposition Schedule.

This updated Schedule provides that records listed may be destroyed after the specified retention periods without further approval from the City or the N.C. Dept. of Cultural Resources, provided, the governing body has authorized the records listed for destruction to be destroyed through its blanket approval of the Retention and Disposition Schedule.

RESOLUTION BOOK NO. 24 - PAGE 193

E. RESOLUTION NO. 97-195 - RESOLUTION ENTERING INTO A CONTRACT WITH CAROLINA CORNERSTONE CONSTRUCTION INC. TO REPAIR THE FACADE OF THE CITY DEVELOPMENT BUILIDNG (MARTIN BUILDING)

Summary: The consideration of the selection of a contractor to perform repairs of the facade of the City Development Building (Martin Building).

Over the course of the last few years, it has been determined that the facade of the City Development Building (Martin Building) is in need of repair. There is evidence of stucco and structural fastener deterioration and several large pieces of stucco have completely fallen off the building. A consulting architectural firm, Camille Alberice Architects PA of Asheville, was hired to determine the extent of repairs needed, and bid specifications and plans were drawn up accordingly. The scope of work was outlined as follows: Repair the front and back sides of the parapet wall, sidewalk, drywall ceiling, and structural fasteners. (Roof work was not included.)

On July 7, 1997, advertisement for bid letters were sent out requesting proposals for the above-described work. No bid proposals were received by the advertised bid date of July 18, 1997. The contractors were then contacted again, at which time they responded that the project was very specialized and they were therefore reluctant to bid. At that time there was a single contractor who expressed a willingness to research the project further and submit a proposal. On August 21, 1997, staff received a written proposal and, after review of these bid proposals, it was determined that Carolina Cornerstone Construction Inc. of Asheville would be selected as the successful bidder. It was then determined that City Staff would seek Council approval to enter into a contract to perform work listed in its proposal for $35,865.

Staff recommends Council approval of the lowest responsible bidder, Carolina Cornerstone Construction. Inc., and requests Council to direct the City Manager to enter into contract for $35,865 for repairs of the facade of the City Development Building (Martin Building).

RESOLUTION BOOK NO. 24 - PAGE 195

F. RESOLUTION NO. 97-160 - RESOLUTION RATIFYING THE DESIGNATION OF AN EXISTING TRAIL THROUGH THE NORTH FORK WATERSHED PROPERTY AS A SEGMENT OF THE NORTH CAROLINA MOUNTAIN-TO-SEA TRAIL

Summary: The consideration of a resolution authorizing the designation of an existing trail through the North Fork Watershed Property as a segment of the North Carolina Mountains-to-Sea Trail.

The Carolina Mountain Club has approached the City to request the City's consent to an application for the inclusion of an existing trail through the North Fork Watershed as a segment of the "Mountains-to-Sea" Trail. The application is made to the North Carolina Department of Environment, Health and Natural Resources. The Club initially communicated to the City that the City's action was not needed until late in the Fall, but later discussions indicated that the City's consent was needed earlier. An appropriate investigation was conducted and there was no apparent problem with consenting to the application. The investigation and results are detailed in a Memorandum and letter, dated August 25, 1997.

RESOLUTION BOOK NO. 24 - PAGE 196

G. RESOLUTION NO. 97-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN FOR THE PURCHASE OF 285 LINEAR FEET OF 8-INCH SEWER LINE FROM BEAVER CREEK PARTNERSHIP TO SERVICE THE CARTER COVE COMMUNITY

Summary: The consideration of authorizing the expenditure of funds in the amount of $12,000 to Beaver Creek Partnership for 285 linear feet of 8-inch private sanitary sewer line to connect an existing Metropolitan Sewage District (MSD) sewer line to a proposed 8-inch sanitary sewer line to service the Carter Cove community.

In 1994 Beaver Creek Partnership installed 285 linear feet of 8-inch sanitary sewer line to service a proposed subdivision called Beaver Creek Subdivision. City staff has copies of the receipts for the installation of the sewer line in the amount of approximately $40,000. Following the installation of the sewer line Beaver Creek Partnership did not turn the line over to MSD for ownership, operation and maintenance. Therefore, this sewer line is still privately owned.

By purchasing this sanitary sewer line the City will not be required to acquire a separate easement and install an 8-inch sewer line paralleling the existing sewer line. The purchase of this line will result in a net savings of at least $28,000. Should Council approve this purchase, the sanitary sewer line would be transferred to MSD for ownership, operation and maintenance.

Staff recommends that City Council authorize the City Manager to expend funds in the amount of $12,000 to Beaver Creek partnership for 285 linear feet of 8-inch sanitary sewer line at the intersection of Beaver Dam Road and Carter Cove.

RESOLUTION BOOK NO. 24 - PAGE 197

H. RESOLUTION NO. 97-162 - RESOLUTION RESCINDING RESOLUTION NO. 96-172 WHICH AUTHORIZED THE CONVEYANCE OF SURPLUS BUSES TO ASHEVILLE SISTER CITIES INC.

Summary: The consideration to rescind Resolution 96-172 where the City of Asheville conveyed two of Asheville Transit Authority's surplus buses to the Asheville Sister Cities Program in September of 1996 to be sent to San Cristobal, Mexico, for their public use.

Through the Asheville Sister Cities Program, the City of Asheville had received a request from its sister city of San Cristobal, Mexico for surplus buses to be used for their school program. Since the Asheville Transit Authority had just recently replaced its entire fleet of transit buses, there were several buses available to be conveyed to the Sister Cities Program. In a 1996 resolution, the City Council conveyed two of the surplus buses to the Sister Cities Program and authorized the surplus buses to be conveyed for public use by the Town of San Cristobal.

Since the time of conveyance of the two buses, the Sister Cities Program has tried to accomplish the task of shipping the buses to Mexico; however, with limited resources to ship the buses to Mexico, the Sister Cities Program is now declining the offer of the two buses and is requesting that the City of Asheville take the buses back.

The City Planning Staff and the Asheville Transit Authority recommend that the City Council take the two surplus buses back from the Sister Cities Program and place them in the next public auction (which is scheduled for October, 1997).

RESOLUTION BOOK NO. 24 - PAGE 198

I. RESOLUTION NO. 97-163 - RESOUTION APPROVING THE TRANSFER OF THE WIND SONG SUBDIVISION PUMPING STATION PROPERTY TO THE CITY OF ASHEVILLE

Summary: The consideration of approval of the transfer of property to the City of Asheville for the Wind Song Subdivision pumping station property.

The water pumping station serving the Wind Song Subdivision was constructed in 1987. Since that time the City of Asheville has owned this facility and the Water Resources Department has been operating and maintaining it. It was recently discovered that the property where the pump station is located was never deeded to the City of Asheville. A deed for this property has now been prepared and the property is being offered to the City of Asheville by the Wind Song Estates Homeowner's Association.

It is relatively common for such property transfers to occur. Staff recommends that the City of Asheville accept the property that is being offered.

RESOLUTION BOOK NO. 24 - PAGE 199

J. RESOLUTION NO. 97-164 - RESOLUTION ACCEPTING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO AWARD AN ENGINEERING SERVICES CONTRACT TO APPLIED GEOSCIENCES AND ENGINEERING INC. FOR THE BEE TREE DAM MODIFICATION PROJECT

Summary: The consideration of awarding an Engineering Services Contract to Applied Geosciences and Engineering, Inc., (AG&E)

Proposals for Engineering Services for the Authority's Bee Tree Dam Modification project have been received by the Authority. This project includes multiple components but by far the most significant is the expansion of the Bee Tree Lake's spillway. These proposals were solicited and reviewed in accordance with the policy of the Authority and the City of Asheville. The firm of AG&E was selected for this project and a contract has been negotiated in the amount of $ 229,673.00. In response to the City's Risk Management Office, the Authority also agreed to pay the premium of $ 30,295.00 for additional Professional Liability Coverage in the amount of $ 5,000,000.00.

The Regional Water Authority approved award of this contract to AG&E on Tuesday, August 19, 1997. Staff recommends that City Council concur with the Authority's action by approval of this contract.

RESOLUTION BOOK NO. 24 - PAGE 200

K. RESOLUTION NO. 97-165 - RESOLUTION ACCPETING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO AWARD A CONTRACT TO COOPER CONSTRUCTION COMPANY FOR THE GAP CREEK/CANE CREEK 12-INCH WATERLINE CONTRACT

Summary: The consideration of awarding a construction contract to Cooper Construction Company for the Gap Creek / Cane Creek 12-inch Waterline Contract.

Sealed bids were received for the Authority's Gap Creek / Cane Creek Road 12-inch Waterline on Thursday, July 10, 1997. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. A total of six bids were received, listed below in descending order:

COMPANY	**BID**
Cooper Construction Company	$ 448,987.00
Steppe Construction Company	$ 520,744.00
Hobson Construction Company	$ 524,947.00
Wheeler Construction Company	$ 639,101.00
Buckeye Construction Company	$ 649,135.00
First South Utilities	$ 667,613.00

The Regional Water Authority approved award of this contract to Cooper Construction Company on August, 19, 1997 and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 24 - PAGE 201

L. RESOLUTION DESIGNATING SIGN KNOWN AS STARNES AVENUE GROCERY SIGN LOCATED AT 65 STARNES AVENUE AS A LANDMARK SIGN

This item was removed from the Consent Agenda to be discussed individually.

M. RESOLUTION NO. 97-166 - RESOLUTION REGULATING CONSUMPTION AND POSSESSION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1997 GREEK FESTIVAL

Summary: The consideration of a resolution allowing alcoholic beverages at Asheville's 11th Annual Greek Festival on October 3-5, 1997.

N. C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at special event or community festival. Asheville's 11th Annual Greek Festival Board, Holy Trinity Greek Orthodox Church and the Parks and Recreation Department recommends that possession and consumption of malt beverages and/or unfortified wine be allowed at Asheville's 11th Annual Greek Festival.

The Parks and Recreation Department recommends that City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at Asheville's 11th Annual Greek Festival.

RESOLUTION BOOK NO. 24 - PAGE 202

N. RESOLUTION NO. 97-167 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSERVATION SERVICES AGREEMENT WITH THE TRUST FOR PUBLIC LAND FOR THE GREENWAY MASTER PLAN

Summary: The Trust for Public Land has received a grant from the Janeirve Foundation to prepare a greenway master plan for the City of Asheville.

The Trust for Public Land applied for and received a Janeirve grant to continue their work on greenways in Asheville. They received a total of $75,000 of which $25,000 is for their continued work on the Broadway Greenway and $50,000 is for a greenway master plan. The Janeirve Foundation stipulated that the master plan monies ($50,000) would need to be matched dollar for dollar. The Planning and Development Department had $30,000 in this year's budget for greenway planning. This money will be used to match $30,000 from the grant. A budget amendment in the amount of $20,280 is necessary for reimbursable expenses that will be incurred during the master plan process. The budget amendment will transfer $20,280 from the General Capital Fund Contingency for this purpose leaving a balance of $70,720 in Contingency.

The City will be responsible only for those expenses actually incurred. Any monies not used in the master plan process will be used to leverage other funds for future greenway work.

The Planning and Development Department recommends (1) that the City Manager be authorized to sign the Conservation Services Agreement with The Trust for Public Land; and 2) that City Council adopt a budget amendment in the amount of $20,280 so that The Trust for Public Land can begin work in September on a master greenway plan for the City.

Councilman Hay stated that he was very excited about the greenway master plan which was made possible by a grant from the Janeirve Foundation. He felt this was a small step toward historic ends.

RESOLUTION BOOK NO. 24 - PAGE 205

O. ORDINANCE NO. 2406 - BUDGET AMENDMENT RELATIVE TO THE GREENWAY MASTER PLAN

See Item P. above.

ORDINANCE BOOK NO. 16 - PAGE 291

P. RESOLUTION NO. 97-168 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AGREEMENTS FOR THE ACQUISITION OF PROPERTY INTERESTS FOR THE HAW CREEK GREENWAY

Summary: The consideration of a resolution authorizing the City, through the City Manager, to enter into a Memorandum of Understanding and other agreements on behalf of the City for negotiation of easements for certain property owners along the projected route of a proposed Haw Creek greenway.

The Haw Creek Homeowners Association has been working with the owners of the Haw Creek Mews Apartments and the Ice Service Stores to acquire easements along Haw Creek across their properties. These are relatively large tracts of land, and, because of their location at the intersection of Haw Creek on Beverly Road, acquisition of easements across them is crucial to the success of this neighborhood-initiated Greenway project, and to getting the project off to a good start.

The projected sequence of events and documents, as with the recent greenway project which crossed a portion of UNC-A property, is to enter into a Memorandum of Understanding first, and then to negotiate construction easements and permanent easements as the plans for the greenway develop and construction is undertaken and completed. The Memorandum commits the parties to this process, subject to working out details. No money is committed by the City and no property interest is acquired by the City at this point.

The resolution authorizes the City, Mayor or City Manager, to obtain appropriate agreements for the acquisition of property interests for the Haw Creek Greenway, but contemplates that these agreements will be negotiated by the Haw Creek Homeowners Association. For the present, this Resolution will only apply to the two owners named above, but authorizes negotiations with other owners as well. No commitment of funding for construction or maintenance of a greenway is authorized at this time.

Councilman Worley was pleased on the progress of the greenways in Asheville.

RESOLUTION BOOK NO. 24 - PAGE 206

Q. RESOLUTION NO. 97-169 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER OF PURCHASE FOR UPSET BIDS REGARDING DISPOSAL PARCEL 10.1 ON CARROLL AVENUE IN THE EAST END/VALLEY STREET COMMUNITY

Summary: The consideration of authorizing the Mayor to execute necessary documents to effect an exchange of property with the Housing Authority of the City of Asheville in order to facilitate several beneficial projects.

The City Council directed the City Clerk to publish a notice regarding its intent to exchange 4.9 acres of land on Kentucky Drive which the City owns for 7.4 acres of land on Bartlett Street which the Housing Authority owns. The notice was published on August 29, 1997. No public comments have been received.

The exchange will facilitate the following:

- The construction of 48 units of affordable elderly housing via the sale of the Murray Hill site to the Douglas Company;
- The construction of 17 units of affordable single family owner-occupied housing via collaboration with the Housing Authority to build a subdivision on the Kentucky Drive site; and

- The construction of a passive park by Parks and Recreation Department on the Bartlett Street site.

The City's property on Kentucky Drive is valued by the Buncombe County Tax Office at $49,700 and the Authority's property on Bartlett Street is valued at $124,800.

Approval of the resolution will authorize the Mayor to execute the necessary documents to effect the exchange of the properties as provided in N. C. G. S. 160A-271.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 207

R. RESOLUTION NO. 97-170 - RESOLUTION AUTHORIZING EXECUTION OF A CONTRACT WITH MATTERN AND CRAIG CONSULTING ENGINEERS TO PROVIDE ENGINEERING AND SITE DESIGN SERVICES FOR THE BROADVIEW DRIVE SUBDIVISION

Summary: The City of Asheville is seeking engineering and site design services for the development of a single family, owner occupied housing subdivision affordable to low and moderate income families.

The Community Development Division issued a Request For Proposals for Engineering Services to design the Broadview Drive single family affordable housing subdivision on August 1, 1997. Eight proposals were received. An RFP Committee of City and Habitat staff reviewed the proposals and selected two firms for interviews. The Committee interviewed two firms and selected Mattern & Craig, Inc. based on experience and qualifications. A contract price was then negotiated by staff. The contract includes requirements to design the infrastructure for this affordable housing single family homeownership subdivision including layout of the lots and open space and park area. The engineer is to complete design and have final submittal to the City no later than February 15, 1998. The consultant will prepare bid specifications and assist with awarding the construction contract and inspect the construction of the project. The contract calls for completion of construction by September 1, 1998 and involvement of community residents throughout the design and construction. Cost of the consultant services is $37,300.

RESOLUTION BOOK NO. 24 - PAGE 208

S. RESOLUTION NO. 97-171 - RESOLUTION ADOPTIG FEES AND CHARGES FOR PUBLIC WORKS SERVICES FOR THE CITY'S SPECIAL EVENTS PACKAGE

Summary: The consideration of the fees charged by the Public Works Department for non-sponsored events.

The City currently has a policy for providing City resources such as staff time (overtime), barricades, signs, sanitation services, street cleaning, tip fees, police security and traffic control at no charge to a sponsor(s) if an event is designated as a City co-sponsored event.

The Public Works Department is typically involved in street barricades, banners, signage, sanitation (trash pickup), street sweeping and general labor.

Conversely, events that are not co-sponsored by the City are charged based upon an estimate of costs for the aforementioned resources which must be paid in advance. Also, many such events require Public Works, Parks and Recreation and Police staff to work after hours at overtime pay rates. Such events can have a significant impact to operating budgets.

For fiscal planning purposes it is important for departments which are supporting co-sponsored events to budget the appropriate funds for necessary services under the current fee system. Non-sponsored customers requesting special event services are assessed estimated actual costs for labor, equipment and supplies, which may give some groups and organizations the perception that there is an inconsistent administration of this program. Secondly, the City may not always possess the appropriate number of barricades for a particular event (due to use in normal operations), which necessitates the rental or purchase of additional barricades (the costs of which are passed on to the sponsor).

The information collected provides no definitive or consistent policies among them with the exception of MUTCD standard traffic control plans. Based upon this data, the unique characteristics of each City were in all likelihood considered in developing each policy.

Aside from wear and tear on vehicles and equipment, the use (or loss) of supplies related to special events is primarily due to the damage or theft of traffic control barricades and cones. Thus, in order to maintain the appropriate level of barricades necessary for routine/non-routine public works projects, special construction activities _and_ special events needs, it is necessary to purchase them on a regular basis.

An alternative to the rental and placement of barricades by City staff would be for event sponsors to rent such from private suppliers and placement and removal in accordance with the approved traffic plan.

It is important to strike a balance between the needs of the community and the general public, individuals and businesses potentially affected by special use (and restrictions) of rights-of-ways, through staff accommodation and a sensible policy for the administration of such events.

Based on a balance of needs, following are recommendations as related to Public Works services:

1) City co-sponsored event (as budgeted in approved annual budget):
   No Cost

2) Non-sponsored events utilizing City resources:

   a) Labor: Full cost recovery (to include overtime if necessary) Customer may contact DPW prior to event for estimate of costs.
   b) Barricades (to include rental rates for Special Construction Activities):

· Type III:	$25 each per day
· Type II:	$10 each per day
· Cones:	$5 each per day
· Detour signs:	$5 each per day
· Meter bags:	$5 each per day

c) Vehicles: (based on fuel, operations, maintenance, and wear and tear)
  - Pickup truck: $12 per hour
  - Aerial bucket truck: $20 per hour
  - Forklift: $15 per hour
  - Sanitation truck: $40 per hour
  - Tipping fee (solid waste): $31 per ton
  - Street Sweeper: $40 per hour
  - Street Flusher: $40 per hour

d) Banners/decoration installations:
  - $100 deposit
  - $5 per banner (no size limit)

There are currently concessions made for use of City/County Plaza for smaller events (waiver of barricade fees) in an effort to accommodate smaller events.

It is staff's opinion that the above rate schedule represents a fair and equitable compromise between the event sponsor's use of public space and the City's support services.

RESOLUTION BOOK NO. 24 - PAGE 209

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Vice-Mayor Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

Vice-Mayor Field moved that for future meetings, the approval of the minutes be an item under "Other Business". This motion was seconded by Councilman Worley and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL DISCUSSION

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 9, 1997, AND THE WORKSESSION HELD ON SEPTEMBER 16, 1997

Councilman Skalski asked that the minutes of the September 16, 1997, worksession be amended to include the additional sentences on page 8 in fourth full paragraph, relative to the revised City's Economic Development Policy. "He showed Council a graph which showed that approximately 80% of all new jobs created in the United States come from companies with four or less employees. That statistic relates to the amount of grant money that should be allocated to the different sized companies and he felt that more emphasis should be placed on that. He would work with Mr. Scaralia on this issue. With respect to tax structure and how it relates to jobs, he said the higher your taxes are per capita, the harder it is to attract new businesses into an area. He then questioned Asheville's policies on annexation and showed Council a chart based on the 1994-95 revenues and expenditures taken from "Fiscal Summary of North Carolina Municipalities for the fiscal year ended June 30, 1995." He explained that the chart showed that any city over 50,000 in population has a dramatic increase in taxes and when you annex more land into the City, your taxes go up. He felt Council should look at those items when they are looking at economic plans."

Mr. Ralph Bishop, resident of the City of Asheville, voiced opposition to the adoption of the minutes since he felt that "full and accurate" minutes should be verbatim.

Councilman Sellers moved to approve the minutes of the regular meeting held on September 9, 1997, and the minutes as amended by Councilman Skalski of the worksession held on September 16, 1997. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION NO. 97-172 - RESOLUTION DESIGNATING SIGN KNOWN AS STARNES AVENUE GROCERY SIGN LOCATED AT 65 STARNES AVENUE AS A LANDMARK SIGN

Summary: The consideration of a request from the owner of the Asheville Store for landmark designation of the Starnes Avenue Grocery Sign, located at 65 Starnes Avenue.

The large metal parapet signs located atop the store were installed fifty years ago, when Montford was a much larger community and corner groceries thrived. The sign was intended to reach the larger community in an attempt to draw-in customers.

The sign meets criteria A for landmark designation for the following reasons.

A. The Starnes Avenue Grocery sign is an icon for the Montford Community and is a part of the community's collective memory. Neighborhood corner grocers once the norm are now the exceptions. The sign stands along the rooftop and conveys a message to the reader, it is mixed with names, products, and images of Coca Cola.

B. "Historic signs once allowed buyers and sellers to communicate quickly, using images that were the medium of daily life. Surviving historic signs have not lost their ability to speak. But their message has changed. By communicating names, addresses, prices, products, images and other fragments of daily life, they also bring the past to life."

At their regularly scheduled June meeting, the Historic Resources Commission, by a unanimous vote, recommended to City Council that the Starnes Avenue Grocery signs be designated a landmark sign.

Mr. Ralph Bishop felt that the whole building located at 65 Starnes Avenue should be torn down. And when he inquired who made the landmark sign request, Ms. Maggie O'Connor, HRC Director, said that Diane Young, the owner of 65 Starnes Avenue, made the request.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 97-172. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 211

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING FIVE PROPERTIES ON OR BEHIND EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Mayor Martin said that this public hearing was continued from September 9, 1997, until today in contemplation of the possibility that the petition be withdrawn. Mayor Martin then announced that the petitioners have withdrawn their request.

B. PUBLIC HEARING RELATIVE TO CLOSING A PORTION OF OLD HAYWOOD ROAD

Mayor Martin opened the public hearing at 5:27 p.m.

Councilman Cloninger requested to be excused from voting since one of the petitioners is a long-standing client of the law firm he works for. Councilman Worley moved to excuse Councilman Cloninger from voting. This motion was seconded by Councilman Sellers and carried unanimously.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that a petition which includes the affidavits of Thomas Lee Finger, A. Jerome Dave (Dave Steel Company), Sherry F. Rice (Duo Investors), Michael Boyd Rice (Trio Investors) has been received requesting that Old Haywood Road, also know as West Haywood Street, between Park Avenue and Roberts Street be permanently closed to public use. Duo and Trio Investors own all of the property with frontage on this portion of Old Haywood Road that has been petitioned to be closed.

By use of a maps, she showed Council the portion to be closed. She explained that the road used to go all the way to Clingman Avenue and in 1987 City Council permanently closed the portion of the street known as East Haywood Street. The remaining portion of the street shown as Old Haywood Road, also known as West Haywood Street, was not closed at that time and has remained vacant. The adjoining property owners have actually been using a portion of Old Haywood Road for the past 15 years to store their material on it, under the impression that the entire road was closed in 1987. All but one property owner adjoining this portion signed the petition to close and the property owner was notified by certified mail of this public hearing. The Fire Department has no problem with the closing and all utility companies have been notified. The City of Asheville will need to retain a 20-foot easement for the Metropolitan Sewerage District and a 20-foot easement for the City of Asheville for the full length and width of Old Haywood Road, from Roberts Street to Park Avenue.

The West End/Clingman Avenue neighborhood ("WECAN") has asked that the City not close the portion of this right-of-way due to the fact that there is no plan for the River District and the City should be looking at keeping land so if the City ever decides to put in a greenway or a link between the River and downtown this could be potentially used.

Ms. Molloy said that since the individual has been using a portion of this property for 15 years, as opposed to using the whole portion of the road, he may actually have the right to come back for a withdrawal of dedication on one portion of the road if legally he has the right to withdraw that right-of-way.

Public Works Department staff recommends permanently closing a portion of Old Haywood Road, also known as West Haywood Street, between Park Avenue and Roberts Street.

Upon inquiry of Mayor Martin about the possible use of this as a greenway, Ms. Molloy pointed out, from a Public Works viewpoint, that there is State right-of-way on the right hand side and you can typically get encroachments for greenways. However, that is a dead-end tract and if a greenway were to go through, you would have to re-open the other end of the road and buy property on the other side of the bridge to carry it on through.

Mr. Michael Rice, petitioner, stated that they were under the impression that the road was entirely closed back in 1987 and then they started using the concrete area to store their inventory. After they sold their company, the purchasing company stayed in the facility and as of last year they decided to move out. At that time he did some research on the property and found out that that portion of Old Haywood Road was not closed. All that is there now is part of a street less than 300 feet long going nowhere. They have been maintaining that portion over the past 15 years. He said that closing it will match it up to the rest of the street that has been closed and the City can start collecting taxes on it.

Upon inquiry of Councilman Hay about the urgency to close, Mr. Rice said that the people that are leasing the facility now are uneasy about this because they are storing inventory on the property.

Ms. Geraldine Melendez, homeowner in the West End/Clingman Avenue neighborhood, urged City Council to delay action on this until the neighborhood can explore other opportunities. They are rebuilding their neighborhood and don't want everything to be industrialized. They would like time to discuss this with the property owners, the neighborhood association, and the Planning Department to establish what the long-term plan is for the neighborhood and if that would coincide with the major master plan they want to see their neighborhood turn into. They asked that this matter be postponed for at least a year.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities, said that they are working with the City and the neighborhood association to implement the 2010 Plan for the West End/Clingman Avenue. It is the specific goal of the Plan to foster continued residential uses in the areas above the area between Clingman Avenue and the River. The Plan also calls for a change in land use over time from Heavy Industrial to either commercial industrial or commercial services. The WECAN voted unanimously to ask for a delay. They stated that a more detailed master plan is needed for this neighborhood. The greenway connections between downtown and the River are called for in the Plan and also in RiverLink's plans, but the specific route is not specified. By use of some handouts, he showed Council three possible routes, one of which utilizes this portion of road. He urged City Council to delay so they can work with the Planning Department, RiverLink, the WECAN and the other non-profits involved in the homeownership zone for an intensive master planning effort between now and next summer.

Rev. Pat Jenkins, Pastor of Haywood Street United Methodist Church, urged Council to delay action.

Ms. Sherry Rice, petitioner, stated that they are not planning any changes to the property.

Ms. Lu Heetderks, neighborhood resident, said that once this land is given to private use, the citizens can't get it back as easily. She urged Council to wait until the planning is completed for the riverfront and WECAN area.

Mayor Martin closed the public hearing at 5:50 p.m.

176

Vice-Mayor Field said that since the greenway master planning process is scheduled to be completed in June, she suggested delaying action on this matter until the end of June. She saw no reason not to close this portion if the City didn't need it for a greenway.

Vice-Mayor Field asked if there would be a problem with the owner using the property as they have used it for the past 15 years if Council delayed this matter. City Attorney Oast said that he would investigate as to whether or not it would be possible to enter into some sort of interim arrangement that would permit that use during the time City Council was waiting to decide, if that is what Council chooses.

Vice-Mayor Field then moved to (1) table this matter pending receipt of further information relative to the advisability of including this within the greenway master plan but to come back to City Council no later than the end of June, 1998 for action, and (2) instruct the City Attorney to come up with some kind of agreement with the property owner so that they can continue to use the property until such time City Council makes a decision on this issue. This motion was seconded by Councilman Skalski.

City Attorney Oast said that when the matter is brought back to City Council the individuals who spoke tonight will receive notification.

C. **PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE WITH REGARD TO CHANGEABLE COPY SIGNS, CHURCH SIGNS AND SIGNS IN THE RIGHT-OF-WAY**

ORDINANCE NO. 2407 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE WITH REGARD TO CHANGEABLE COPY SIGNS, CHURCH SIGNS AND SIGNS IN THE RIGHT-OF-WAY

Mayor Martin opened the public hearing at 5:56 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Julia Cogburn, Planning & Development Director, said that the Planning and Zoning Commission has recommended an ordinance amendment to Chapter 7, the Unified Development Ordinance, with regard to changeable copy signs, church signs and signs in the right-of-way.

She gave a brief description of each of the proposed changes:

1) Changeable copy signs - the wording amendment changes the definition of changeable copy signs to allow for automatic changeable copy signs in addition to manual changeable copy signs. Automatic changeable copy signs are those changed by computer rather than by physically changing the letters on a sign. Other cities have made similar definition changes noting as we have the change in technology and the fact that automatic changeable copy signs often have a better appearance and are easier to maintain than the manual changeable copy signs.

2) Right-of-way signs - this wording amendment extends the permitted right-of-way signage to allow for signs which designate the right-of-way as being maintained by a certain group and/or in recognition of a certain person. This wording amendment came about after a request for a permit from an organization wishing to erect just such a sign. An allowed sign would have to be approved by the governing

body having jurisdiction over the right-of-way and could be no greater than six (6) square feet per face or taller than four (4) feet high.

3) Signs for churches in residential districts - this wording amendment increases the size of allowable signage for churches, schools and other institutions in residential districts by only six (6) feet over the currently permitted signage, however, the amendment allows for greater flexibility in using the signage allowed.

The Planning and Development Staff recommends approval of the wording amendment. At the meeting of the Planning and Zoning Commission on September 3, 1997, the Commission voted 5-0 to recommend the wording amendment to the Asheville City Council.

Upon inquiry of Mr. Ralph Bishop about ordinances being read on three separate days, City Attorney Oast said that on June 28, 1993, the N. C. Gen. Assembly ratified changes in Asheville's City Charter. One change included in that legislation is the repeal of the Charter requirement that ordinances be read on three separate days. The general law to which the City is subject requires a second reading where an ordinances does not receive 2/3's vote. At Mr. Bishop's request, City Attorney Oast said that he would furnish Mr. Bishop with a copy of that Session Law.

Mayor Martin closed the public hearing at 6:03 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2407. This motion was seconded by Vice-Mayor Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 293

D. PUBLIC HEARING TO REZONE 1741 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO INDUSTRIAL

ORDINANCE NO. 2408 - ORDINANCE TO REZONE 1741 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO INDUSTRIAL

Mayor Martin opened the public hearing at 6:04 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger asked to be excused from voting since the petitioner, Mr. Carroll Hughes, is a client of the law firm for which he works. Councilman Worley moved to excuse Councilman Cloninger from voting. This motion was seconded by Councilman Sellers and carried unanimously.

Vice-Mayor Field asked to be excused from voting since the petitioner is her employer. Councilman Sellers moved to excuse Vice-Mayor Field from voting. This motion was seconded by Councilman Worley and carried unanimously.

Ms. Erin McLoughlin, Urban Planner, said that this is consideration of an ordinance to rezone 11.68 acres off Hendersonville Road (PIN No. 9655-05-29-2688) from RM 16 to HB.

The subject property is located east of Hendersonville Road, behind the Hollywood Cinemas. The current RM16 zoning is a multi-family high density residential district which permits a full range of high density multi-family housing types along with limited institutional, public and commercial uses appropriate within high density residential areas. The Highway Business district is established to address the needs of commercial development along major thoroughfares. After reviewing the request, which included a review of the 2010 plan, current land use, current zoning patterns and infrastructure, staff feels that Institutional zoning may be most appropriate for this area. The Institutional district was established to reserve land for the development of educational facilities, major medical facilities and other complementary and supporting uses such as health related developments, office developments, and public services. Development standards for uses in this district are established to minimize conflict with adjacent land uses.

Staff has received no comments in opposition to this rezoning.

The City Planning and Development staff recommends denial of the HB rezoning request. Staff recommends the Institutional district as an appropriate district for this area.

At their September 3, 1997, meeting, the Planning and Zoning Commission voted 5-0 to recommend approval of the Institutional district for this parcel.

Mr. Tracy McFarland, resident of Crowfields, spoke in favor of the rezoning this land to Institutional.

Mayor Martin closed the public hearing at 6:09 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 240. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 295

E. PUBLIC HEARING TO ZONE A PARCEL OF LAND OFF HENDERSONVILLE ROAD (WHICH WAS PREVIOUSLY IN THE TOWN OF BILTMORE FOREST) TO INSTITUTIONAL

ORDINANCE NO. 2409 - ORDINANCE TO ZONE A PARCEL OF LAND OFF HENDERSONVILLE ROAD (WHICH WAS PREVIOUSLY IN THE TOWN OF BILTMORE FOREST) TO INSTITUTIONAL

Mayor Martin opened the public hearing at 6:10 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Erin McLoughlin, Urban Planner, said that this is consideration of an ordinance to zone a parcel of land which was previously in the Town of Biltmore Forest (PIN No. 9647-11-66-4454) to Institutional.

The subject property is located west of Hendersonville Road and south of I-40. It is 10.16 acres in size. Currently this parcel is vacant and relatively flat. The parcel is bordered by Institutional zoning to the east, the Town of Biltmore Forest to the west and south, and I-40 to the north.

Staff has received no comments in regard to this zoning.

The City Planning and Development staff recommends Institutional as the appropriate zoning for this parcel.

At their September 3, 1997, meeting, the Planning and Zoning Commission voted 5-0 to recommend Institutional zoning for this parcel.

Mayor Martin closed the public hearing at 6:12 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2409. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 297

F. PUBLIC HEARING TO ADD A MANUFACTURED HOUSING OVERLAY TO PROPERTY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY LOCATED AT THE END OF FOREST RIDGE DRIVE (OLD BEAR CREEK ROAD)

ORDINANCE NO. 2410 - ORDINANCE TO ADD A MANUFACTURED HOUSING OVERLAY TO PROPERTY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY LOCATED AT THE END OF FOREST RIDGE DRIVE (OLD BEAR CREEK ROAD)

Mayor Martin opened the public hearing at 6:14 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that the petitioner, Trina Chapman, requested consideration of a manufactured housing overlay to three lots, comprising of 16 acres, zoned RM-16 Residential Multi-Family High Density located on Old Bear Creek Road and Forest Ridge Drive. PIN Nos. for the lots are: 9629.18-30-5167, 9628.06-39-4975, and 9628.06-49-3422. The lots are zoned RM-6. Two are currently vacant and one has a single family home on it. They are adjacent to an existing Manufactured Housing Overlay zone located on Old County Home Road. The Asheville City 2010 Plan calls for low density residential in this area. A number of area residents and property owners have voiced opposition to the application of the zoning overlay.

Staff recommended that application of the Manufactured Housing Overlay be approved for an approximately three acre northern portion of one lot (PIN No. 9629.18-30-5167) and denied for the other two lots. Upon reviewing the request and hearing from the petitioner and the public, the Planning & Zoning Commission recommended that the Manufactured Housing Overlay be approved as recommended by the staff.

The Asheville Planning & Zoning Commission, by a 5-0 vote, recommended that the Manufactured Housing Overlay zone be applied to an approximate three acre northern portion of one lot (PIN No. 9629.18-30-5167) and denied for the other two lots.

Mayor Martin closed the public hearing at 6:16 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2410 to add the Manufactured Housing Overlay zone be applied to an approximate three acre northern portion of PIN No. 9629.18-30-5167. This motion was seconded by Councilman Skalski and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 299

V. UNFINISHED BUSINESS:

A. CONTINUATION OF APPROVAL OF THE BUFFERING PLAN FOR THE GROUP DEVELOPMENT OF BROOKS-HOWELL VILLAGE

Mayor Martin said that the public hearing on this matter was held on August 26, 1997. On that date, Mr. Carleton Collins, architect for the project, said that even though the drawings submitted adhered to the ordinance in terms of what the composition of the buffer should be, he would be happy to meet with the adjacent property owner to determine exactly what the buffer would be.

Mr. Mike Matteson, Urban Planner, described the landscape buffer plan along the west property line between the proposed multi-family development and a single family residence. That plan was the result of the meeting between the architect and property owner. Staff feels this plan meets the intent of our landscape ordinance and the City's landscape architect feels the plan is an appropriate design.

Ms. Betty Lawrence, property owner, felt that the plan will meet the intent of the ordinance. She suggested that the plants be flagged by the landscape architect.

Mr. Carleton Collins, architect for the project, said that it is not their intent to have the landscape architect flag the plants, however; he felt sure that they would be laid out in a nice pattern between the trees.

Councilman Cloninger moved to approve the alternate buffering plan for Brooks-Howell Village. This motion was seconded by Councilman Sellers and carried unanimously.

V. NEW BUSINESS:

A. DISCUSSION - SIGN ORDINANCE REGARDING OUTDOOR ADVERTISING

Planning & Development Director Julia Cogburn said that at the Council Worksession held September 16, 1997, City Council directed staff to look at revisions to the Unified Development Ordinance as it pertains to outdoor advertising signs and to come back to them with additional information on some suggested revisions. The particular suggested revisions deal with the regulations pertaining to outdoor advertising signs (billboards). Council's interest was in looking at sending these wording amendments to the Planning & Zoning Commission for review at their October meeting.

The three draft ordinance changes which will be considered by the Planning & Zoning Commission are as follows:

1) Prohibiting any new outdoor advertising signs in the City of Asheville's zoning jurisdiction.

2) Requiring some/all existing outdoor advertising signs in the city's jurisdiction to come into compliance within a seven year period (signs in addition to those currently subject to coming into compliance). The additional signs required to come into compliance could incorporate:

a) all outdoor advertising signs in the city's jurisdiction; or

b) all outdoor advertising signs in the city's jurisdiction not currently complying with the city's sign regulations (this would cause to come into compliance those currently grandfathered due to their compliance with the 1977 regulations).

The current sign regulations classify outdoor advertising as off-premise signage and do not distinguish billboards, or outdoor advertising, from other kinds of off-premise signage. Off-premise signs are allowed in the CBII(Community Business II), HB(Highway Business), RB(Regional Business), CI(Commercial Industrial) and I(Industrial) districts, with a limitation of 150 feet per face and a maximum of 25 feet in height. A number of spacing restrictions are also included in the ordinance requirements.

On September 16, the Council indicated that it did not want to look at prohibiting other, directional-type, off-premise signs, nor did it want to look at requiring those signs to come into compliance beyond what is already required. The staff is looking, in conjunction with Council's request, at new regulations effecting the other types of off-premise signage.

Council had asked for some information indicating the numbers of signs that might be affected by the suggested changes. A chart is provided below.

Total Outdoor Advertising (Billboard) Signs (1990 Survey Base Data)	165
Removed to Date	39
Subject to Federal Law Protections (Cannot Be Subject to Coming into Compliance)	22
Comply with Current Sign Ordinance Regulations	14
Comply with 1977 Ordinance but Not Current Sign Ordinance Regulations	48
Signs Still to Come Down/Into Compliance Per the Current Regulations	42

After all signs are brought into compliance under the current regulations, 84 outdoor advertising signs will remain in the city's jurisdiction. An ordinance requiring all signs to come down (if Council passes an ordinance prohibiting outdoor advertising) would affect 62 signs. Those 22 remaining would be those subject to protection under state and federal laws. An ordinance requiring those not complying with the current regulations to come down would affect 48 signs -- leaving 36 signs within the city's jurisdiction.

Upon inquiry of Vice-Mayor Field, Ms. Cogburn said that since the 1989 ordinance was enacted, only one application has been received for a billboard. The application was approved, however, the billboard was never erected.

Discussion surrounded what type of signs would be required to come into compliance.

Mr. Darryl Merchant, General Manager of Fairway Outdoor Advertising, stated that his company provides a valuable and essential service to business. Fairway has and continues to try to comply with the many changes Asheville requires of sign companies and they have made significant expenditures coming into compliance. He urged City Council to consider the economic impact, impact to the traveling public, economies of other communities in the area, and impact on loss of jobs in billboards and tourism related fields if they proceed in the direction Councilman Cloninger is requesting.

Mr. Mike McCurry, tourist, said that he would rather not see the billboards along the highway.

Ms. Anne Campbell, Asheville native, said that she returned to Asheville because of the beautiful mountains and felt that billboards obliterate the view of those mountains. She said the topography of this area is very special and should be enhanced, not blocked by billboards. She urged Council to move forward with the elimination of billboards.

Mr. Frank Martin, resident of Asheville, cited several states that prohibit billboards noting that those states are prosperous and destination states for vacations. They have control over their environment and felt Asheville should do the same. Since Asheville has been designated as an All America City, we should protect it.

Mr. Jeff Nolan, Fairway Outdoor Advertising, said that the reason there has only been one application applied for since 1989 is that restrictions on new sign locations in Asheville are so restrictive. Because of those restrictions, the prohibition of new billboards is already being accomplished. He said that signs are erected because businesses need them. His company has spent millions of dollars to lease and buy property in Asheville and they are a legitimate business working with the City to come into compliance. They have already taken three structures down at considerable expense with no compensation.

Councilman Cloninger felt that people come to Asheville for the natural beauty of the area and we need to do what we can to protect that beauty.

City Attorney Oast said that no action is necessary by City Council at this time since at their worksession last week Council instructed Planning staff to draft revisions pertaining to outdoor advertising signs for presentation to the Planning & Zoning Commission at their October meeting.

B. RESOLUTION NO. 97-173 - RESOLUTION AMENDING THE CITY'S FEES & CHARGES MANUAL

City Manager Jim Westbrook said that during the budget process, three items related to fees and charges were omitted from the information presented to City Council. Staff requests City Council consideration of these items so as to become effective September 23, 1997.

The Engineering Department of the City of Asheville is requesting that the Asheville Standards Specifications and Details Manual be sold in Manual form for $25 per copy and the standard details be sold in a 10-Disk set for $100, plus shipping charges if applicable.

The Engineering Department is also requesting that a maximum for street cut permit fees be set at $ 2,500. Staff has evaluated the fee schedule for street cuts and feels that a maximum fee is appropriate for the large job size. This amount was reached based on a review of data from previous projects with large street cuts.

The Administration Department has drafted a copy fee policy that would be applicable to all City departments and addresses the different types of documents available for duplication.

Staff recommends that the City Council adopt the new fees effective September 23, 1997.

Mayor Martin said that members of Council have been previously furnished with copies of the resolution and it will not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-173. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 213

C. RESOLUTION NO. 97-174 - RESOLUTION REQUESTING THE BUILDING CODE COUNCIL FOR THE AUTHORITY TO REVIEW PLANS AT THE LOCAL LEVEL AND BE EXEMPT FROM THE REQUIREMENTS FOR CERTAIN PLANS TO BE REVIEWED BY THE DEPARTMENT OF INSURANCE

Director of Building Safety Terry Summey said that this is consideration of a request to The Building Code Council for the authority to review plans at the local level and to be exempt from the requirements for certain plans to be reviewed by the Department of Insurance.

The North Carolina State Building Code, Volume 1-A, requires plans for certain facilities to be submitted and reviewed by the Department of Insurance (DOI) engineering staff. This review generally takes several weeks, or months to complete and may delay the issuing of the building permit by the local jurisdiction. If the local jurisdiction has appropriately certified plan review personnel on staff, this requirement may be waived by written request to DOI.

An inspection department may apply to the Building Code Council to review plans and specifications on buildings listed in Table 602. Such authority shall be granted provided:

1. The inspection department shall submit a written request for approval.
2. The inspection department shall state it is adequately staffed and the staff possess Standard Level III Certificates in all areas from the North Carolina Code Qualifications Board.
3. The approval shall be for up to 12 months.
4. The inspection department shall submit an annual written request for approval for the subsequent year by May 1 to be approved at the June meeting for the following year.

The City of Asheville Building Safety Department and The Fire Department's Life Safety Division currently have the following Level III Certifications on staff: Building - 9 Certificates; Electrical - 7 Certificates; Mechanical - 3 Certificates; Plumbing - 8; Certificates; and Fire Prevention - 7 Certificates.

Although the City of Asheville may be approved for local plan review, the below listed buildings will require review by the State Engineering Division, per Volume 1A-section 602.2.2.

1. High Rise (buildings in which the highest occupied floor is more than 75 feet above the highest firefighting vehicle apparatus access area)
2. Group A-1- Large Assembly
3. Group H- Hazardous over 100 people
4. Covered Malls
5. All buildings owned by a city, or county having a total gross area exceeding 10,000 sq. ft. and
6. All buildings owned by the State shall be submitted to the State Property and Insurance Fund Division.

Mecklenburg County and the City of Raleigh are other jurisdictions which are currently approved for local plan review.

The Director of Building Safety and the Fire Chief recommend that The City Council approve the request to The Building Code Council for the authority to review plans at the local level and to be exempt from the requirements for certain plans to be reviewed by the Department of Insurance.

Councilman Worley felt this was a great way to speed up the review process.

Mayor Martin said that members of Council have been previously furnished with copies of the resolution and it will not be read.

Councilman Worley moved for the adoption of Resolution No. 97-174. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 215

D. RESOLUTION NO. 97-175 - RESOLUTION ADOOPTING THE REVISED CITY'S ECONOMIC DEVELOPMENT POLICY

City Development Director John Scaralia said that this is consideration of revisions to the City's Economic Development Policy which includes establishing grants for eligible firms.

As competition between municipalities for a limited number of business relocations and investments becomes more acute, communities are finding the need to become more proactive in positioning themselves as cost-effective destinations with strong pro-business climates. It follows that in order to expand economic development options and create more employment opportunities for the residents of Asheville, a program should be established which encourages business to locate and expand within the City.

The Economic Development Incentives Policy provides a new way to stimulate business investment within the City by establishing grants for eligible firms based on the amount of investment in the community, the number of quality jobs created, and their ability to meet certain financial and operational criteria.

On March 8, 1996, in response to a lawsuit which argued that business incentives provided by governments to companies are unconstitutional (*Maready vs. City of Winston-Salem*), the N.C. Supreme Court held "that N.C.G.S. [section] 158-7.1, which permits the expenditure of public moneys for economic development incentive programs, does not violate the public purpose clause of the N.C. Constitution." As a result, municipalities across the state have begun to develop and broaden their incentive policies in order to compete for expanding and relocating businesses.

This proposed revision is based on providing grants to companies seeking to locate and expand within the City, and follows the general format which other N.C. municipalities have adopted. It augments the original guidelines as set forth in Resolution #94-211, adopted by the City Council on October 1, 1994, and establishes new parameters to help increase the diversity of the tax base, offer quality employment opportunities for its citizens, and promote private business and industrial growth within the City of Asheville.

Councilman Skalski congratulated Mr. Scaralia, the City Manager and the Finance, Legal and Planning Departments for the fine effort they made over the past few months to begin forming one small "piece of the pie" to help economic development in Asheville. He said "the financial grants are one 'piece of the pie' that would fit very well with many other pieces. It should be pointed out that, in order for economic development to be successful, the entire pie must be in place. Here is the core of the 'pie' needed for economic development:

*1. Public Schools: Must be dramatically improved by providing more local control and family empowerment. Consider adding a new school for the arts, science and technology which could offer technical training to many of the brightest students beginning at the junior and senior high school levels.

*2. Technology: Such as adding a new Engineering School at UNC-A. Educated citizens with technical schooling and skills training are technology.

*3. Infrastructure: Fix it first! Upgrade and maintain our present system of public transportation, roads, sidewalks, water, sanitary and storm sewers. The current zoning ordinance (UDO) has set aside 15 percent of our land for industrial purposes. This is three times what most cities need. Statewide studies have shown that annexation causes taxes to increase significantly. Lower taxes are good for business! Therefore, we should avoid annexation.

4. Business Community Involvement: Without all the business stakeholders participation and empowerment, a community can not compete in a world economy. Skilled people are technology. Leaving them out weakens a city's economic development capabilities.

5. Comprehensive, Strategic, Economic Plan: What are the long range goals and objectives of Asheville's economy? Right now we are racing toward an economy that is almost entirely dependent upon tourism and retirees. Tourism spending and retiree location are totally discretionary in nature. Aren't retirees going to head to neighboring Henderson County where the taxes are 45 percent less than Buncombe County's?

* Studies have shown that cities with a well-educated work force and a solid, comprehensively planned infrastructure in place are very likely to have quality businesses, jobs, and an overall stronger and a more sustainable, growing, economy than cities that don't. (Items #1, 2 and 3 from the core of economic development).

"These above five economic issues are vastly more important than the new UDO zoning ordinance. Why did we only spend six weeks on this

'Economic Development Incentives Policy' to provide financial grants for businesses? We spent six years working on the new UDO! This makes no sense. Providing financial grants doesn't begin to address the primary issues of economic development in the Asheville area.

"Here are a few comments on the 'Incentives Policy,' financial grants: (1) small businesses with less than four employees should be given the highest priority; (2) the grant thresholds appear to be much too high; (3) why not use tax incentives; (4) why not include education and job training in the package; (5) what about putting grant money on jobs created and maintained, not capital investment; (6) how much participation and empowerment does the Asheville community have in this process now; (7) what kind of jobs will fit the existing trained workforce; (8) what kind of training should we implement how in anticipation of what kind of businesses; (9) how many jobs will this create; and (10) how much money can the City afford?

"Six or seven weeks is not much time to fully develop an economic policy, but John Scaralia and other department heads have made a good start.

"Why not set a business community task force to work on these issues? Shouldn't the core issues be discussed first? This is a vital issue of concern for everyone."

Mr. Scaralia said that they have been working on this policy since the fall of 1996 and staff feels this is the best policy adhering to local and state laws. The policy will need to be continuously measured and assessed stressing that the policy is just a tool that will help Asheville.

Councilman Worley felt that this policy is a good expansion to our existing policy. He then responded to some of Councilman Skalski's suggestions.

Mayor Martin addressed many of Councilman Skalski's questions and concerns. He felt that the Plan was very important and we needed to move forward and be innovative. He noted that the policy can always be amended.

Mayor Martin said that members of Council have been previously furnished with copies of the resolution and it will not be read.

Councilman Worley moved for the adoption of Resolution No. 97-165. This motion was seconded by Vice-Mayor Field and carried on a 6-1 vote, with Councilman Skalski voting "no".

RESOLUTION BOOK NO. 24 - PAGE 216

VI. OTHER BUSINESS:

RESOLUTION NO. 97-176 - RESOLUTION ADOPTING WRITTEN DECISION DENYING APPLICATION BY CC&J ENTERPRISES INC. FOR GROUP DEVELOPMENT PERMIT FOR "UNIVERSITY PLACE"

City Attorney Oast said that the City Council, at its regular meeting on March 25, 1997, and following a public hearing, denied approval to a proposal by CC&J Enterprises Inc. to construct a group development proposal by the name of "University Place" on Barnard Avenue in the City of Asheville. The Council's decision was appealed to Superior Court of Buncombe County where, on September 5, 1997, an Order was entered remanding the matter to City Council for entry of a written decision. The Council's decision was made by a 4-3 vote as indicated in the official minutes of that meeting. He presented City Council with a proposed written decision which reflects the reasoning of those members who voted in the majority. He stressed that even though some members of the City Council continue to disagree with the majority's decision, it is the decision of the Asheville City Council.

Councilman Skalski asked the City Attorney to make sure that if there was anything in the record about children, family size, demographics of the neighborhood, or any reference to parks, that it be included.

At this time (7:38 p.m.), Councilman Worley left the meeting not excused.

Upon inquiry of Vice-Mayor Field, City Attorney Oast said that he felt sure this would be scheduled for hearing as soon as possible after September 30, 1997.

Mayor Martin said that members of Council have been previously furnished with copies of the resolution and the findings and they will not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-176. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 217

N.C. LEAGUE OF MUNICIPALITIES ANNUAL MEETING

Councilman Sellers appointed Vice-Mayor Field as the Asheville voting delegate at the N.C. League of Municipalities annual meeting in Raleigh in October and Councilman Worley as the alternate. This motion was seconded by Councilman Hay and carried unanimously.

HOUSING & COMMUNITY DEVELOPMENT

Councilman Hay was pleased to report that the Housing & Community Development Committee approved (on a 2-1 vote) the firm of Housing & Community Insight to prepare a five-year long range affordable housing strategy plan for Asheville. The study will consist of a comprehensive survey of the current housing situation and an evaluation of needs and organize strategy. He outlined the scope of work to be completed within four months at a cost of $27,200.

Vice-Mayor Field agreed with Councilman Hay in that we needed this plan for a long time in the City. She said that all firms were well qualified and each had some good strategies of involving the public. She was totally supportive of the plan which will let us know what we have, what we need, and how best to spend our housing money.

Councilman Skalski said that even though he basically is not against the affordable housing plan, he voted against it because he felt that it has to be included as part of a total package - and that was jobs. Studies have shown that unless you address quality jobs in your area, there is no way you can address housing. Another reason he felt the study is premature is because Asheville doesn't have a program in place to create jobs in Asheville, however, he did understand that there is a need for housing in the City.

Mayor Martin stated that programs do ultimately work together.

ONE YOUTH AT A TIME PROGRAM

Vice-Mayor Field said that she has received a request, as she was sure other Council members had also, from Rev. L.C. Ray to fund $10,000 to the One Youth at a Time Program. They have a $50,000 Community Foundation matching grant and have received $40,000 from Buncombe County. She felt that the jobs placement program has been a good and worthwhile program and recommended the City contribute $10,000 to the program based on receipt of information that the City would normally request to fund an outside agency.

Vice-Mayor Field moved to fund the One Youth at a Time Program, in the amount of $10,000, contingent upon receipt of the appropriate documentation that the City would normally receive to fund an outside agency. This motion was seconded by Councilman Cloninger and carried unanimously.

COMMUNITY MEETING

Due to the location of the September 30, 1997, City Council community meeting being unknown, Mayor Martin suggested that the City Clerk try to make arrangements at the Valley Springs Middle School or the Skyland Volunteer Fire Department. Vice-Mayor Field reported that the Crowfields Community Center was too small for a Council community meeting.

CLAIMS

The following claims were received by the City of Asheville during the week of August 29-September 11, 1997: Rainbow's End (Streets), Donna Robb (Streets), Paul Benson (Water), Becky Gudger (Streets), Charles Randle (Fire), Bell South (Water), Josephine Roberts (Sanitation), Lynn Holland (Water), Ruth Moraga (Sanitation), Beth Allender (Water) and William H. Melton Jr. (Water).

The following claims were received during the week of September 12-18, 1997: Blake Lasher (Water), The Summitt (Water), Laurie Sanders (Water) and Hyatt Electric (Inspections).

These claims have been referred to Asheville Claims Corporation for investigation.

LAWSUIT

The City was served with a Complaint on September 8, 1997, which is generally described as follows: Dept. of Transportation v. Josephine Simms Hammond, et vir, et al. The nature of the proceedings is condemnation proceeds of property in the Haw Creek Township at the intersection of Highways No. 70 and 74 and SR 2863 (Haw Creek Lane).

This matter will be handled in-house.

CLOSED SESSION

At 8:01 p.m., Councilman Cloninger moved to go into closed session for the following reasons: (1) to prevent the disclosure of information that is privileged or confidential pursuant to the laws of this State, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information being considered confidential is G.S. 160A-168, the Personnel Privacy Act - the statutory authority is G.S. 143-318.11 (a) (1); (2) to establish or to instruct the public body's staff concerning the position to be taken by or on behalf of the public body in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property - the statutory authority is G.S. 143-18.11 (a) (5); and (3) to consult with an attorney employed by the City Council in order to preserve the attorney-client privilege between the attorney and City Council - the statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:55 p.m., Councilman Skalski moved to come out of closed session. This motion was seconded by Councilman Cloninger and carried unanimously.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 8:55 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT AGENDA:

Tree Ordinance Amendments

Summary: The consideration of several minor revisions to the Tree Ordinance.

All America City Budget Amendment

Summary: The consideration of appropriating the $10,000 Community Grant already received by the City to Asheville-Buncombe VISION, HandMade In America and The Minnie Jones Health Center.

At the request of Councilman Skalski, Audit/Budget Director Bob Wurst said that he would obtain the final figures on how much it cost the City of Asheville for the designation of All America City.

When Councilman Skalski asked if the $10,000 grant could go back into the General Fund, City Manager Westbrook said that the grant was given to the City with the understanding that it would be distributed to the community through the projects that were specified in the All America City application.

Councilman Skalski then suggested that since Asheville-Buncombe VISION has already received money from the City that its portion of the grant be designated for something else. He felt strongly that there is no overall comprehensive criteria on who gets the money and how much.

Amendments to Regional Water Authority Capital Project Ordinances (35 Fund and 29 Fund)

Summary: The consideration of housekeeping amendments to reflect the transfer of completed projects to the City's fixed asset ledger to be capitalized rather than expensed.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund.

Staff recommends Council approve amending and restating Capital Project Ordinance 82-25 and Capital Project Ordinance 92-17 in order to reflect the transfer of completed projects to the City's fixed asset ledger.

The Regional Water Authority approved a resolution amending and restating Capital Project Ordinance 82-25 and Capital Project Ordinance 92-17 on September 16, 1997.

At the request of Councilman Skalski, Assistant City Manager Doug Spell said that he would provide him with information on how much is in the Water Fund fund balance now.

Increase in Festivals Support Budget Amendment

Summary: The consideration of a budget amendment, in the amount of $90,000 to increase Festivals support, the cost of which will be offset by increased revenues.

Intent to Enter into Lease Agreement for Reid Annex

Summary: The consideration of resolution directing the City Clerk to advertise an offer to lease the Reid Annex Building to the Opportunity Corporation of Madison-Buncombe County for renovations.

West Area Annexation Sewer Improvements - Phase II

Summary: The consideration of adopting a resolution awarding the contract for the West Area Sanitary Sewer Improvements, Phase II, to Wheeler Construction Company Inc. in the amount of $367,615.

Bids on Bridge Replacement Materials

Summary: Consideration of a resolution to award Bid Request No. 469-98 for the purchase of pre-fabricated bridge replacement materials for the Public Works Department's Elizabeth Street Project.

Renewal of Regional Hazardous Materials Emergency Response Team Status with State of N.C.

Summary: The N.C. Department of Crime Control/Public Safety's Emergency Management Division has asked the City of Asheville to renew its agreement with the State to provide hazardous materials emergency response in Western North Carolina through September of 1999.

Haw Creek Fire Protection Agreement Extension

Summary: The consideration of a resolution authorizing the City Manager to sign a two-year fire protection agreement with the Haw Creek Fire Department for a term through June 30, 1999.

Subordination of Certain Demolition Liens

Summary: The consideration of a resolution authorizing the City Manager and others to subrogate demolition liens on certain properties.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RESOLUTION NO. 97-177 - RESOLUTION DIRECTING THE DIRECTOR OF BUILDING SAFETY TO WAIVE THE PERMIT FEES FOR THE COMMUNITY PLAYGROUND TO BE BUILT BY VOLUNTEERS AT THE EMMANUEL LUTHERAN CHURCH AND SCHOOL

Mr. Terry Summey, Director of Building Safety, asked for consideration of a request to waive permit fees for a major community playground at the Emmanual Lutheran Church.

A major community playground is to be built by over 700 volunteers during October 22-26, 1997. at the Emmanuel Lutheran Church. Many volunteers have worked for over a year to spearhead building a community playground at the Emmanuel Lutheran Church and School. The playground will be available for community usage after Church activities. The playground has been designed by professional architects that have coordinated similar projects at other cities around the country.

The Director of Building Safety recommends that the City Council adopt the resolution waiving the $90 permit fee for this community project.

Councilman Sellers read a letter from the Mr. Robert C. Foerster, Principal of Emmanuel Lutheran Church and School, asking for the waiver of fees for this community oriented project.

When Councilman Skalski asked if the City has a policy for waiving these fees for any other groups, City Manager Westbrook said that the policy is that everyone pays the permit fee unless it is waived by City Council.

Councilman Skalski suggested a way of letting the community know that a waiver of fees might be possible, especially if it is a community oriented project.

Councilman Worley moved to waive the rules and take formal action at this meeting. This motion was seconded by Vice-Mayor Field and carried unanimously.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-177. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 223

RESOLUTION ENDORSING LEGISLATION FOR LOCAL ZONING AUTHORITY FOR ADULT ESTABLISHMENTS

Councilman Sellers said that "I, along with numerous others, am concerned that the opening of several establishments for the purpose of entertainment by 'topless' bare-breasted women in Asheville and/or Buncombe County is not in agreement with the strong family values this community has been established upon.

"This form of entertainment contributes to an attitude that is conducive to behavior that promotes molestation, rape, sex crimes and sexually transmitted diseases. These establishments discourage the channeling of sexual energies toward the constructive ends of marital fidelity and family commitment. This form of entertainment degrades womankind by exploiting them for selfish sexual ends and negatively affects individuals' attitudes toward sexuality.

"The youth in this community see these establishments as an accepted legitimate business and will receive a distorted impression of right and wrong. The tourists who visit Asheville for wholesome and decent reasons will receive a wrong message about our community.

"These businesses attract and encourage gambling, prostitution and drunk driving and will put an undue burden upon the Police Department Vice Division.

"We, the community strongly object and consider such businesses to be immoral, obscene and a public nuisance and should be closed. As a council we are changed with stewardship to our citizens now and generations to come. I hope each of you will support me on this matter."

City Attorney Oast explained that what is before City Council is a resolution endorsing Senate Bill 452 Strengthening Local Control Over Sexually Oriented Businesses.

Even though zoning and local use controls are recognized to be matters of concern for local governments, North Carolina statutes regulating sexually explicit conduct and adult establishments (sexually oriented business) have been interpreted by the courts in such a way as to establish a de facto doctrine of State pre-emption with respect to such matters. Localities still maintain some control over the location of sexually oriented businesses through zoning ordinances.

In the 1997 Session of the North Carolina General Assembly, a bill was introduced, Senate Bill 452, that would restore a measure of regulatory authority to local governments with respect to sexually oriented businesses, and partially abrogate the State's judicially-established pre-emption in this area. The bill requires that the constitutional protections that apply to such activities continue to be recognized.

The bill passed the Senate hardily, and seemed likely to pass the House as well, but failed to come out of committee before the Legislature adjourned in August. The bill had the support of the N.C. League of Municipalities and many local governments. Senator Roy Cooper of Rocky Mount introduced the bill, and expects it to be considered during the Short Session of the Legislature in 1998.

The resolution, if adopted, will express the Council's support for Senate Bill 452. Copies of the resolution will be sent to Senator Cooper, and to those members of North Carolina House whose districts include the City of Asheville.

City Attorney Oast felt it would be good for Asheville to have that additional regulatory authority; whether and how it is exercised is up to Council.

Vice-Mayor Field felt that Asheville should endorse any bill that strengthens the authority of local governments to regulate sexually-oriented businesses within their jurisdiction.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEGOTIATION OF INSTALLMENT PURCHASE CONTRACT

Finance Director Bill Schaefer said that this is consideration of a resolution authorizing the negotiation of an installment purchase contract, directing the publication of notice with respect thereto and providing for certain related matters.

Financing of the renovation of the Municipal Building, Water Maintenance Building and the City Building Roof; renovation of the first floor of the Grove Arcade as a public market; the construction of a high tech/flex building at Broadlands Technical Park and refunding of the Series 1991 COPs (which funded the acquisition of the Public Works Facilities) will require the issue of Certificates of Participation (COPs). The actual issuer of the COPs is Asheville Public Financing Corporation (APFC), a not for profit corporation which was formed to aid the City of Asheville in complex financing such as this COPs. In order to service the debt, the City will enter into an amendment to the existing 1991 installment purchase contract with APFC whereby the City agrees to provide periodic payments (which equal the debt service). The debt is to be secured by a deed of trust on the Municipal Building, the City Building, the Water Maintenance Building and a continued deed of trust on the Public Works Facilities (which was pledged for the 1991 COPs). In furtherance of the issue of COPs, the resolution provides the following:

1. Authorizes the City Manager and Finance Director to negotiate the APFC contract amendment and convey the deeds of trust to facilitate financing in an amount not to exceed $27,000,000.
2. Directs the Finance Director to file the required financing application with the Local Government Commission.
3. Directs the City Manager and Finance Director to retain Parker, Poe, Adams & Bernstein as Special Counsel and First Union Capital Markets, Corp.; Wheat First Butcher Singer; and A.G. Edwards & Sons Inc. as Underwriters.
4. Establishes a public hearing by City Council, on October 28, 1997 at 5:00 p.m., concerning the contract amendment, the deeds of trust, proposed projects and associated transactions

Mr. Schaefer responded to several questions from Councilman Skalski as they related to the Stephens-Lee Community Center financing, and the public non-taxable portion of the project which includes the Municipal Building, Water Maintenance Building and the City Building Roof and the private taxable portion which includes the renovation of the first floor of the Grove Arcade as a public market and the construction of a high tech/flex building at Broadlands Technical Park.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BREVARD ROAD SANITARY SEWER EASEMENTS

City Engineer Cathy Ball said that the City of Asheville has previously awarded a contract for the installation of a gravity sanitary sewer system to serve the Brevard Road and construction is underway. This project will provide access to public sanitary sewer service within the area.

Over the past several months, easement negotiations have been ongoing with property owners in this area. However, there are seven properties in which agreement has not been reached at this time regarding a sanitary sewer easement. Due to the need to complete the project, staff requests Council's consideration of a "Resolution of Condemnation" on seven properties in which easement negotiations have not been finalized. These properties are as follows:

- Pin Number 9627-20-81-3926 - Lelia Page Cornwell (along Dogwood Road)
- Pin Number 9627-20-82-3216 - Western Carolina Forklift (along Dogwood Road)

- Pin Number 9627-20-80-9493 - Leonard J. Effler and Tammy F. Effler (along Poodle Way)
- Pin Number 9627-20-80-7448 - Leonard J. Effler and Tammy F. Effler (along Poodle Way)
- Pin Number 9627-20-90-3807 - Joseph A. Dennis and Ronda H. Dennis (along Poodle Way)
- Pin Number 9627-20-80-2403 - A. Brigman, Heirs (along Pine Lane)
- Pin Number 9627-20-80-3312 - Fred Mathis and Flaura F. Mathis (along Pine Lane)

The City has just received appraisals if each of the properties to determine the fair market value of the property taking into consideration the provision of sanitary sewer service. From the City's perspective, this is a definite enhancement of the properties.

The City will continue to work with these property owners to attempt to finalize the easement negotiations. The primary purpose of the "Resolution of Condemnation" is to establish a time parameter of 30 days, which is a prerequisite to the filing of the complaint and "Declaration of Taking" so that construction may proceed.

Upon inquiry of Councilman Sellers, Ms. Ball said that most of the property owners want more money for their easement and one person, in particular, would like to build a shed in the easement area which MSD will not allow.

Staff recommends the resolution of condemnation be approved for the seven properties listed herein with direction for staff to continue to negotiate with the property owners to try and reach resolution if possible.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UPDATE ON FINANCING OF WOODRIDGE APARTMENTS

Mr. Larry Holt, Deputy Executive Director of the Housing Authority, explained that the Housing Authority has agreed in principle to issue up to $4,900,000 of its housing revenue bonds to finance a loan to Asheville - Woodridge LLC. Asheville-Woodridge LLC will use the loan proceeds for the renovation of the Woodridge Apartments development in Asheville, and to pay related expenses. The U.S. Internal Revenue Code ("Code") requires that for such bonds to be issued on a tax-exempt basis, the Asheville City Council must first approve their issuance. The Housing Authority will be holding a hearing on October 21, 1997, on the issuance of the bonds as required by the Code. The Housing Authority will report the proceedings of such hearing to the Council.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the formal City Council agenda on October 28, 1997.

CHEROKEE ROAD WALL CONTRACT

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is consideration of the selection of a contractor to reconstruct a retaining wall along a portion of Cherokee Road.

The City, through the Public Works Department, solicited bids for this project. Four bid proposals were received. The bidders were qualified and listed below:

196

Company	MB Part	Drug Free	Bond	Bid
Thorpe Construction Co.	8.02%	Yes	Yes	$231,685
Buncombe Construction	2.1%	No	Yes	$247,100
Taylor and Murphy	0%	No	Yes	$280,000
R.E. Burns and Sons, Inc.	9.4%	No	Yes	$320,000

The Engineer's estimate for this project was $138,000. After review of these proposals and qualifications of the bidders, it was determined that the bids were too high and the engineer's estimate was too low. Staff has initiated negotiations with the lowest bidder, Thorpe Construction Company.

Staff is currently working with Day Engineering Services, P.A., Director of Historic Resources Commission, and Thorpe Construction Company to negotiate a cost for the project taking into consideration all available options. The cost to restore the historical nature of the wall is approximately $45-50,000. At this time, negotiations are still on-going.

If negotiations are successful and contingent upon Historic Resources Commission approval, the Public Works Department staff recommends City Council adopt a resolution authorizing the City Manager to enter into contract with Thorpe Construction Company to reconstruct the Cherokee Road retaining wall. Additionally, a budget amendment, in the amount of $240,000, will be required in order to appropriate funds for reconstruction of the retaining wall.

Upon inquiry of Councilman Worley, Ms. Molloy said the road has been closed since March of 1997. The community likes the road closed, however, for safety reasons, the road should be opened as soon as possible.

Councilman Cloninger asked about the difference in appearance of a regular retaining wall vs. the historical look of the wall. Ms. Maggie O'Connor, HRC Director, said that even though the HRC Commission has not reviewed the project yet, she felt sure the Commission would feel very strong, as well as the community, to reconstruct the wall back to its historical nature.

Upon inquiry of Councilman Sellers, Ms. Molloy said that the $240,000 would include the repaving and reconstruction of road.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RETREAT

City Manager Westbrook asked for guidance from City Council as to the location of their City Council retreat in January 1998. If City Council chooses an out of town retreat, staff will need to begin to look for a suitable spot early enough to ensure the reservation.

After each Council member expressed their views on an out of town vs. in town retreat, Mayor Martin instructed the City Manager to bring the topic up again at a future date.

197

CHARLOTTE STREET ADVISORY COMMITTEE

Mr. Jerry Bailey, member of the Charlotte Street Advisory Committee, briefed Council on the progress, or lack thereof, of the Committee. He said that they will be meeting with City staff this week and will report back to Council their concerns.

Vice-Mayor Field said that if the Committee cannot come to consensus, and that is what City Council would prefer, then City Council will make the decisions.

RESCHEDULING OF NOVEMBER 4, 1997, CITY COUNCIL WORKSESSION

Mayor Martin noted that City Council has a scheduled worksession on Tuesday, November 4, 1997, which is election day for the Mayor and Asheville City Council. It was the consensus of City Council that if a worksession is needed that week, that the Tuesday, November 4, 1997, worksession be rescheduled until 3:00 p.m. on Wednesday, November 5, 1997, in the First Floor North Conference Room.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 4:27 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - October 14, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Martin gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SATURDAY, OCTOBER 18, 1997, AS "JAMES McCONNELL SMITH DAY"

Mayor Martin proclaimed Saturday, October 18, 1997, as "James McConnell Smith Day" in City of Asheville and presented the proclamation to Mr. Ron Holland who accepted the proclamation on behalf of Ms. Frances McDowell. He briefed the Council on the activities that will be taking place during that day.

B. PRESENTATION OF GRANTS IN RECOGNITION OF ALL AMERICA CITY DESIGNATION

Mayor Martin said that when the City of Asheville received the All America City designation in June, we qualified to submit a proposal to the Allstate Foundation for a $10,000 community grant. This grant was to be funneled back into the community for community projects. Handmade in America, the Asheville-Buncombe Vision, and the Minnie Jones Family Health Care Center were projects that were instrumental in our receiving the All America City designation. For this reason, we are dividing this grant between these three projects that are promoting partnerships, collaboration, and community input.

Vice-Mayor Field presented a check in the amount of $3,333.33 to Ms. Rebecca Anderson, representing HandMade in America. Councilman Worley presented a check in the amount of $3,333.33 to Ms. Minnie Jones, representing the Minnie Jones Health Center. Councilman Hay presented a check in the amount of $3,333.33 to Pam Wahl and Benson Slosman, representing the Asheville-Buncombe VISION. All recipients thanked Council for their support and explained how the grant funds would be used to benefit the City of Asheville and its citizens.

II. CONSENT:

At the request of Councilman Skalski, Items H, L and O were removed from the Consent Agenda for further discussion.

At the request of Mr. Ralph Bishop, Item C was removed from the Consent Agenda for further discussion.

A. RESOLUTION NO. 97-178 - RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCEL 10.1 ON CARROLL AVENUE IN THE EAST END/VALLEY STREET REDEVELOPMENT AREA TO DEIRDRE RENEE TOBE

Summary: The consideration of conveyance of Disposal Parcel 10.1 on Carroll Avenue to Deirdre Renee Tobe in the amount of $7,875.

On September 23, 1997, the City Council directed the City Clerk to advertise for upset bids on Disposal Parcel 10.1 in the East End/Valley Street Community Improvement Area. The advertisement ran in the Asheville Citizen-Times on September 26, 1997, as provided in N. C. Gen. Stat. sec. 160A-269. No response was received. Therefore, the offer to purchase from Deirdre Renee Tobe in the amount of $7,875 was not upset and the sale to Deirdre Renee Tobe should be approved.

Approval of the resolution will authorize the sale of the property to Deirdre Renee Tobe for the amount of $7,875.00.

RESOLUTION BOOK NO. 24 - PAGE 224

B. RESOLUTION NO. 97-179 - RESOLUTION AUTHORIZING THE CITY ATTORNEY TO FILE A COMPLAINT AND DECLARATION OF TAKING AND OTHER RELATED DOCUMENTS IN BUNCOMBE COUNTY SUPERIOR COURT FOR THE CONDEMNATION OF CERTAIN TRACTS OF REAL PROPERTY LOCATED IN PHASES I OF THE BREVARD ROAD ANNEXED AREA FOR THE CONSTRUCTION AND INSTALLATION OF WASTEWATER LINES

Summary: The consideration of adopting a "Resolution of Condemnation" for seven properties located in the Brevard Road area.

The City of Asheville has previously awarded a contract for the installation of a gravity sanitary sewer system to serve the Brevard Road and construction is underway. This project will provide access to public sanitary sewer service within the area.

Over the past several months, easement negotiations have been on-going with property owners in this area. However, there are seven (7) properties in which agreement has not been reached at this time regarding a sanitary sewer easement. Due to the need to complete the project, staff requests Council's consideration of a "Resolution of Condemnation" on seven properties in which easement negotiations have not been finalized. These properties are as follows:

- Pin Number 9627-20-81-3926 - Lelia Page Cornwell (along Dogwood Road)
- Pin Number 9627-20-82-3216 - Western Carolina Forklift (along Dogwood Road)
- Pin Number 9627-20-80-9493 - Leonard J. Effler and Tammy F. Effler (along Poodle Way)
- Pin Number 9627-20-80-7448 - Leonard J. Effler and Tammy F. Effler (along Poodle Way)
- Pin Number 9627-20-90-3807 - Joseph A. Dennis and Ronda H. Dennis (along Poodle Way)
- Pin Number 9627-20-80-2403 - A. Brigman, Heirs (along Pine Lane)
- Pin Number 9627-20-80-3312 - Fred Mathis and Flaura F. Mathis (along Pine Lane)

The City is in the process of appraising each of the properties to determine the fair market value of the property taking into consideration the provision of sanitary sewer service. From the City's perspective, this is a definite enhancement of the properties.

The City will continue to work with these property owners to attempt to finalize the easement negotiations. The primary purpose of the "Resolution of Condemnation" is to establish a time parameter of 30 days, which is a prerequisite to the filing of the complaint and "Declaration of Taking" so that construction may proceed.

Staff recommends the Resolution of Condemnation be approved for the seven properties listed herein with direction for staff to continue to negotiate with the property owners to try and reach resolution if possible.

RESOLUTION BOOK NO. 24 - PAGE 225

C. RESOLUTION ENDORSING LEGISLATION FOR LOCAL ZONING AUTHORITY FOR ADULT ESTABLISHMENTS

This item was pulled from the Consent Agenda for further discussion.

D. RESOLUTION NO. 97-181 - RESOLUTION OF INTENT TO ENTER INTO A LEASE AGREEMENT WITH THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES FOR THE RENOVATIONS TO THE REID ANNEX

Summary: The consideration of resolution directing the City Clerk to advertise an offer to lease the Reid Annex Building to the Opportunity Corporation of Madison-Buncombe County for renovations.

The Parks and Recreation Department submitted a reengineering proposal during the budget process to develop a collaborative effort to renovate the Reid Recreation Center Annex for Child Care. This effort resulted in working with the Opportunity Corporation of Madison-Buncombe County to provide the funding for the renovation of the Reid Annex and to operate a Head Start Child Care Program. The Opportunity Corporation has successfully received grant funding totaling $670,000 for the renovation which is scheduled to begin by the end of this calendar year. The Parks and Recreation Department will be working closely with the Opportunity Corporation and the Arts Alliance to develop an innovative program that will not only provide child care but also expose these children to a cultural arts environment. The Parks and Recreation Department is excited about this collaborative effort which will result in renovating an existing City facility at no cost to the City of Asheville. More importantly, this effort will provide a much-needed child care facility for parents who could not otherwise afford this service.

The Parks and Recreation Department recommends adoption of the resolution directing the City Clerk to advertise an offer to lease the Reid Annex Building to the Opportunity Corporation of Madison-Buncombe County for renovations.

RESOLUTION BOOK NO. 24 - PAGE 228

E. RESOLUTION NO. 97-182 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH WHEELER CONSTRUCTION CO. INC. FOR THE WEST AREA ANNEXATION SANITARY SEWER IMPROVEMENTS PHASE II

Summary: The consideration of adopting a resolution awarding the contract for the West Area Sanitary Sewer Improvements, Phase II, to Wheeler Construction Company Inc. in the amount of $367,615.

The City Council approved 3.2 million dollars for sewer improvements. This project is known as West Area Annexation Sanitary Sewer Improvements, Phase II. These funds were to be used for priority sewer improvements.

The City Engineering Department has developed construction plans for the West Area Annexation Sanitary Sewer Improvements, Phase II. The engineer's estimate for this project is in the amount of $420,900.

On Tuesday, September 30, 1997, at 9:00 a.m., the Engineering Department received four bids for the project. A tabulation of bids is as follows:

Wheeler Construction Co., Weaverville, N.C.	$367,615.00
Steppe Construction Co., Mill Spring, N.C.	$411,700.00
Hobson Construction Co. Inc., Arden, N.C.	$419,625.00
Buckeye Construction Inc., Canton, N.C.	$499,297.50

The construction time for this project is identified as 75 calendar days in the contract documents. If Contractor shall neglect, fail or refuse to complete the work within the time herein specified, then the Contractor pays the sum of $250 as liquidated damages for such breach of contract as hereinafter set forth, for each and every calendar day that the Contractor shall be in default after the time stipulated in the contract. There are only four easements left to be signed on the project.

Staff recommends that City Council accept a resolution awarding the bid for West Area Annexation Sanitary Sewer Improvements, Phase II to the responsible low bidder, Wheeler Construction Company Inc., in the amount of $367,615, and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 24 - PAGE 229

F. RESOLUTION NO. 97-183 - RESOLUTION AWARDING BIDS FOR PRE-FABRICATED BRIDGE REPLACEMENT MATERIALS TO POMONA SUPPLY COMPANY

Summary: Consideration of a resolution to award Bid Request No. 469-98 for the purchase of pre-fabricated bridge replacement materials for the Public Works Department's Elizabeth Street Project.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish pre-fabricated bridge replacement materials for the Public Works Department's Elizabeth Street Project. Three (3) bidders submitted proposals as shown below:

Pomona Supply Co, Greensboro, N.C.	$57,543.50
Roger F. Williams Co., Asheville, N.C.	$62,710.20
Roger F. Williams Co., Asheville, N.C. (Alternate)	$58,678.20
Permatile Concrete Prod., Bristol, VA/TN	$84,004.18
Permatile Concrete Prod., Bristol, VA/TN (Alternate)	$80,650.18

Bid specifications permitted bids on either precast concrete bridge sections or on aluminum box culvert. In addition to the standard evaluation criteria, which includes compliance to specifications, cost, etc., bids were also evaluated on the basis of total overall cost to purchase the pre-fabricated bridge materials, as well as cost of work to be undertaken and materials to be furnished by the City for installation of the bridge. The bid summary shows the total overall cost to the City for each bid replacement method proposed.

Bids have been reviewed for technical compliance to specifications by the Public Works Department, and their concurrence received in the recommendation.

Funds for this purchase are to be from the Public Works Department appropriations, Account Code 60-430-15-851-13-4410.

Subject to Council's approval, it is recommended that the award be made to the bidder with the lowest overall cost, Pomona Supply Company, Inc., Greensboro, N. C., in the amount of $48,580.50 for the purchase of aluminum box culvert bridge materials.

RESOLUTION BOOK NO. 24 - PAGE 232

G. RESOLUTION NO. 97-184 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH THE STATE OF N.C. FOR SELECTION OF THE ASHEVILLE FIRE DEPARTMENT'S HAZARDOUS MATERIALS RESPONSE TEAM AS "REGIONAL RESPONSE TEAM" FOR MAJOR HAZARDOUS MATERIALS EMERGENCIES IN WESTERN NORTH CAROLINA

Summary: The North Carolina Department of Crime Control/Public Safety's Emergency Management Division has asked the City of Asheville to renew its agreement with the State to provide hazardous materials emergency response in Western North Carolina through September of 1999.

In 1994, the North Carolina General Assembly established funding for a "regional response" approach to hazardous materials emergencies. This approach involved selection of the state's top six local fire department hazardous materials response teams to respond to multi-county areas in case of emergency, using vehicles and equipment furnished by the state.

In late 1994, the Asheville Fire Department's "haz mat team" was selected by the State's Emergency Management Division as the "regional response team" for Western North Carolina. In mid-1995, the City and the State entered into an agreement through which AFD's hazardous materials response team was furnished with a response vehicle and equipment, and through which the State agreed to reimburse the City for training, maintenance, administrative and related expenses for regional response. Since this agreement was established, Asheville's "Regional Response Team 6" has responded to a major railroad derailment, an acid tanker overturn, a chemical warehouse fire and other significant regional incidents, as well as dozens of smaller local chemical emergencies.

The agreement between the City and the State expired in July, 1997. In early August, the City and State agreed to extend that agreement through the end of September in anticipation of a new agreement. That new agreement has been delivered to the City and reviewed by City staff and recommended to the City Manager for City Council approval.

The new agreement provides for hazardous materials emergency response for major incidents in North Carolina's 20 western counties. The State will continue to provide and maintain the team's response vehicle ("RRT 6") and to reimburse the City for provision of a vehicle to tow a newly-provided Regional Response Team trailer. The State will also reimburse the City for training expenses (up to $14,000), administrative expenses (up to $18,000), workers compensation expenses (up to $5,000) and medical surveillance/evaluation (up to $5,000) for each year of the proposed two-year agreement.

The Fire Chief recommends City Council adoption of a resolution authorizing the Mayor to enter into an agreement with the State of North Carolina through which the City of Asheville will provide hazardous materials emergency response in Western North Carolina, and the State will furnish response equipment and reimburse expenses of the City's hazardous materials response team for such response.

RESOLUTION BOOK NO. 24 - PAGE 234

H. RESOLUTION AUTHORIZING THE NEGOTIATION OF AN INSTALLMENT PURCHASE CONTRACT REGARDING FINANCING OF THE RENOVATIONS OF THE MUNICIPAL BUILDING, WATER MAINTENANCE BUILDING AND THE CITY BUILDING ROOF; RENOVATION OF THE FIRST FLOOR OF THE GROVE ARCADE AS A PUBLIC MARKET; CONSTRUCTION OF A HIGH TECH/FLEX BUILDING AT BROADLANDS TECHNICAL PARK; AND REFUNDING OF THE SERIES 1991 CERTIFICATES OF PARTICIPATION

This item was pulled from the Consent Agenda for further discussion.

I. RESOLUTION NO. 97-185 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A TWO-YEAR FIRE PROTECTION AGREEMENT WITH THE HAW CREEK FIRE DEPARTMENT

Summary: The consideration of a resolution authorizing the City Manager to sign a two-year fire protection agreement with the Haw Creek Fire Department for a term through June 30, 1999.

In 1988, when the City of Asheville annexed in the Haw Creek area, the City entered into a fire protection agreement with the Haw Creek Fire Department. This agreement was pursuant to North Carolina law which requires a good-faith offer of a five-year fire protection agreement between the annexing city and any affected rural fire department in order to provide for makeup of lost "fire tax" revenue. In 1992, the City again annexed in the Haw Creek area; the 1988 agreement was amended and incorporated as part of a new five-year 1992 fire protection agreement, again in compliance with the aforesaid state law.

Although there is no longer a legal requirement that the City contract with Haw Creek Fire Department, there are benefits to continuing the present contractual relationship for a two-year period. Haw Creek has a five-day-a-week on-duty firefighter, who, with Haw Creek's equipment and volunteer personnel, serves as a "back-up" for Asheville Fire Department's Engine 8 (housed at Avon and Tunnel Road). Haw Creek also responds on a "first-in" basis (along with AFD resources) in Haw Creek and Sondley Estates.

At Haw Creek's request--and with the review and approval of the City Manager--Asheville Fire Department representatives met with Haw Creek Fire Department's Board of Directors in August and September to review the 1992 annexation contract and to identify future relationships. All participants agreed on the following points:

1. The Haw Creek Fire Department's existence should not depend on whether the City contracts with Haw Creek for fire protection services; and

2. As long as there are definable benefits to both parties to contract for services, continuation of an agreement is in the best interests of the City and Haw Creek.

Based on agreement on these points, Haw Creek and City staff representatives are proposing an agreement substantially similar to the annexation agreement agreed to and adopted in 1992, with the following two exceptions: First, reimbursement by the City would be at $53,760, which is less than half of the total amount budgeted for the last year of the 1992 agreement ($108,827), and, second, the Haw Creek Fire Department would agree to make a good faith effort to expand its fire tax protection area and/or look to partnerships with neighboring fire departments to provide for a revenue base that will leave the Haw Creek Fire Department independent of Asheville financial support. At the end of the two (2) year term the City would reassess benefits to the City from the Haw Creek Fire Department.

The relationship between the City and Haw Creek in the wake of annexation has been a success story. While the City's 1988 and 1992 annexations resulted in Haw Creek's loss of 90% or more of its fire tax area, the City and Haw Creek--with state approval--joined together so that Haw Creek could be eligible for fire tax revenue from the Chunn's Cove area (an area that Haw Creek had covered for years with no financial support from Chunn's Cove residents). Because Asheville's fire headquarters was within five road miles of the Chunn's Cove community (and Haw Creek's station was not), Asheville agreed to file for recognition as a "substation" for Haw Creek, so Haw Creek would be eligible for fire tax support from Chunn's Cove. As a result, Haw Creek depends on Asheville not for 90% of its revenues, but for about one-third of those revenues.

Haw Creek representatives have clear plans to develop a new all-weather road access that should result in the addition of new fire-tax response areas that are expected to correspondingly reduce Haw Creek's reliance on revenues from the City of Asheville.

The Fire Chief recommends that City Council adopt a resolution authorizing the City Manager to sign a two-year fire protection agreement with the Haw Creek Fire Department for a term through June 30, 1999.

RESOLUTION BOOK NO. 24 - PAGE 235

J. RESOLUTION NO. 97-186 - RESOLUTION AUTHORIZING SUBORDINATION OF CERTAIN DEMOLITION LIENS

Summary: The consideration of a resolution authorizing the City Manager and others to subrogate demolition liens on certain properties

When the City demolishes a dwelling that has been found to be dilapidated under the Minimum Housing Code, a lien for the cost of the demolition attaches to the property, and has the same priority as a lien for special assessments. The liens remain valid for 10 years.

Occasionally, the owners of the lots wish to rebuild on them, or have the opportunity to convey the lots to persons wishing to rebuild, but the demolition lien is a cloud on the title and may keep a person from conveying the lot or obtaining a construction loan. The result is that sometimes an otherwise desirable or buildable lot will remain vacant, and continue to be a blight on a neighborhood undergoing revitalization. As enforcement of the Minimum Housing Code is emphasized, and as rebuilding in the central city and infill development increase, this situation is likely to occur more frequently.

The resolution would give limited authority to the City Manager, the Planning Director and the Community Development Director, to enter into agreements to subordinate demolition liens in designated redevelopment areas. This is similar to the authority that now exists to subordinate deeds of trust on properties in redevelopment areas.

The resolution limits to $12,000 the principal amount of liens that may be subordinated, and requires that such subordinations be reported in the same manner as for deed of trust subordinations. The subordination would apply only to the extent needed to obtain construction financing, and the lien would have to be satisfied in order to obtain clear title to the affected property.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 24 - PAGE 236

K. ORDINANCE NO. 2411 - ORDINANCE AMENDING THE TREE ORDINANCE

Summary: City staff presented the Tree Ordinance to City Council at their worksession on May 20, 1997. The following are minor revisions to that ordinance:

1) Section 20-4: ADD "Engineering Director: The head of the City of Asheville Engineering Department or his / her designee."

2) Section 20-4: ADD "Parks and Recreation Director: The head of the City of Asheville Parks and Recreation Department or his / her designee."

3) Section 20-5 (B): "Additional Duties"

(a) Replace "1. The Planning and Development Director shall be responsible for formulating a Master Street Tree Plan (MTSP)...".

WITH: "1. The Parks and Recreation Director shall be responsible for formulating a Master Street Tree Plan (MTSP)...".

(b) Replace: "2. The Planning and Development Director shall have prepared another document entitled 'The Public Improvements Design Manual', which shall contain the guidelines and specifications for tree planting, care, maintenance, removal, and landscape design entitled Guidelines and Specifications of Tree Planting on Public and Private Property, which shall be adopted by City Council and used by developers, landscape architects, designers, and the general public in furtherance of the requirements and intent of this chapter. The guidelines shall be reviewed, at a minimum, every two (2) years by the Planning Department Director, the Public Works Director, and the Tree Commission. Major revisions to the Guidelines shall be approved by City Council."

WITH: "The Engineering Director shall have prepared another document entitled Asheville Standards Specifications and Details" manual, which shall contain the guidelines and specifications for tree planting, care, maintenance, removal and landscape design entitled Guidelines and Specifications of Tree Planting on Public and Private Property, which shall be adopted by City Council and used by developers, landscape architects, designers, and the general public in furtherance of the requirements and intent of this chapter. The Guidelines shall be reviewed, at a minimum, every two (2) years by the Planning and Development Department Director, the Parks and Recreation Director, the Engineering Director, the Public Works Director, and the

206

Tree Commission. Major revisions to the Guidelines shall be approved by City Council."

4) Article IV, Section 20-52, "Inspection of Sites"

(a) Replace: "A. The Public Works Director and the Director of Planning and Development may periodically inspect areas subject to the provisions of this chapter."

WITH: "A. The Public Works Director, the Parks and Recreation Director, and the Director of Planning and Development may periodically inspect areas subject to the provisions of this chapter."

Staff recommends the adoption of the above revisions to Chapter 20 (Trees).

L. BUDGET AMENDMENT RELATIVE TO THE ALL AMERICA CITY GRANT

This item was pulled from the Consent Agenda for further discussion.

M. ORDINANCE NO. 2412 - BUDGET AMENDMENT TO REPROGRAM LINE ITEMS IN THE CAPITAL PROJECT ORDINANCE (35 FUND) TO REFLECT THE TRANSFER OF COMPLETED PROJECTS TO THE CITY'S FIXED ASSET LEDGER

Summary: The consideration of housekeeping amendments to reflect the transfer of completed projects to the City's fixed asset ledger to be capitalized rather than expensed.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund.

Approve amending and restating Capital Project Ordinance 82-25 and Capital Project Ordinance 92-17 in order to reflect the transfer of completed projects to the City's fixed asset ledger.

The Regional Water Authority approved a resolution amending and restating Capital Project Ordinance 82-25 and Capital Project Ordinance 92-17 on September 16, 1997.

O. BUDGET AMENDMENT TO PROVIDE ADDITIONAL FUNDING FOR FESTIVALS AND SECIAL EVENTS FROM REVENUES GENERATED BY THESE EVENTS

This item was pulled from the Consent Agenda for further discussion.

P. MOTION SETTING A PUBLIC HEARING ON OCTOBER 28, 1997, TO REZONE TWO LOTS ON WESTWOOD PLACE AND ARGYLE LANE FROM RM-8 TO CBD AND ONE LOT FROM RM-8 AND CB II TO CBD.

Q. MOTION SETTING A PUBLIC HEARING ON OCTOBER 28, 1997, TO REZONE A PORTION OF 1897 HENDERSONVILLE ROAD FROM RM-6 TO OFFICE BUISNESS, RS-2 AND RS-4.

R. MOTION SETTING A PUBLIC HEARING ON OCTOBER 28, 1997, TO REZONE PROPERTY AT YORKSHIRE AND REED STREETS FROM RS-8 TO OFFICE

S. MOTION SETTING A PUBLIC HEARING ON OCTOBER 28, 1997, TO CONSIDER A MODIFICATION REQUEST FROM THE SUBDIDIVISON STANDARDS TO PERMIT THE FLAGPOLE PORTION OF A LOT LOCATED ON OAKLEY SCHOOL ROAD TO BE USED IN CALCULATING COMPLIANCE WITH MINIMUM LOT AREA REQUIREMENTS

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously

ITEMS REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

RESOLUTION NO. 97-180 - RESOLUTION ENDORSING LEGISLATION FOR LOCAL ZONING AUTHORITY FOR ADULT ESTABLISHMENTS

Summary: The consideration of a resolution endorsing Senate Bill 452 Strengthening Local Control Over Sexually Oriented Businesses

Even though zoning and local use controls are recognized to be matters of concern for local governments, North Carolina statutes regulating sexually explicit conduct and adult establishments (sexually Oriented Business) have been interpreted by the courts in such a way as to establish a de facto doctrine of State pre-emption with respect to such matters. Localities still maintain some control over the location of sexually oriented businesses through zoning ordinances.

In the 1997 Session of the North Carolina General Assembly, a bill was introduced, Senate Bill 452, that would restore a measure of regulatory authority to local governments with respect to sexually oriented businesses, and partially abrogate the State's judicially-established pre-emption in this area. The bill requires that the constitutional protections that apply to such activities continue to be recognized.

The bill passed the Senate hardily, and seemed likely to pass the House as well, but failed to come out of committee before the Legislature adjourned in August. The bill had the support of the North Carolina League of Municipalities and many local governments. Senator Roy Cooper of Rocky Mount introduced the bill, and expects it to be considered during the Short Session of the Legislature in 1998.

The resolution, if adopted, will express the Council's support for Senate Bill 452. Copies of the resolution will be sent to Senator Cooper, and to those members of North Carolina House whose districts include the City of Asheville.

At the request of Mr. Ralph Bishop, a copy of the resolution was furnished to him.

Mayor Martin said that members of Council have been previously been furnished with a copy of the resolution and it will not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-180. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 227

H. RESOLUTION NO. 97-187 - RESOLUTION AUTHORIZING THE NEGOTIATION OF AN INSTALLMENT PURCHASE CONTRACT REGARDING FINANCING OF THE RENOVATIONS OF THE MUNICIPAL BUILDING, WATER MAINTENANCE BUILDING AND THE CITY BUILDING ROOF; RENOVATION OF THE FIRST FLOOR OF THE GROVE ARCADE AS A PUBLIC MARKET; CONSTRUCTION OF A HIGH TECH/FLEX BUILDING AT BROADLANDS TECHNICAL PARK; AND REFUNDING OF THE SERIES 1991 CERTIFICATES OF PARTICIPATION

Summary: Consideration of a resolution authorizing the negotiation of an installment purchase contract, directing the publication of notice with respect thereto and providing for certain related matters.

Financing of the renovation of the Municipal Building, Water Maintenance Building and the City Building Roof; renovation of the first floor of the Grove Arcade as a public market; the construction of a high tech/flex building at Broadlands Technical Park and refunding of the Series 1991 COPs (which funded the acquisition of the Public Works Facilities) will require the issue of Certificates of Participation (COPs). The actual issuer of the COPs is Asheville Public Financing Corporation (APFC), a not for profit corporation which was formed to aid the City of Asheville in complex financing such as this COPs. In order to service the debt, the City will enter into an amendment to the existing 1991 installment purchase contract with APFC whereby the City agrees to provide periodic payments (which equal the debt service). The debt is to be secured by a deed of trust on the Municipal Building, the City Building, the Water Maintenance Building and a continued deed of trust on the Public Works Facilities (which was pledged for the 1991 COPs). In furtherance of the issue of COPs, the attached resolution provides the following: (1) Authorizes the City Manager and Finance Director to negotiate the APFC contract amendment and convey the deeds of trust to facilitate financing in an amount not to exceed $27,000,000; (2) Directs the Finance Director to file the required financing application with the Local Government Commission; (3) Directs the City Manager and Finance Director to retain Parker, Poe, Adams & Bernstein as Special Counsel and First Union Capital Markets, Corp.; Wheat First Butcher Singer; and A.G. Edwards & Sons Inc. as Underwriters; and (4) Establishes a public hearing by City Council, on October 28, 1997 at 5:00 p.m., concerning the contract amendment, the deeds of trust, proposed projects and associated transactions.

Councilman Skalski was concerned that the City would be going in debt for $27 million in financing and $16 million in interest for a total of $43 million. He said the City's debt is now approximately $38 million. A lot of that money is on the municipal bonds that were taken out for sidewalk repairs, Pack Place Project and various small leasing agreements. He said that approving this finance will basically double our debt. He said the Municipal Building project is slated to cost about $14.2 million plus approximately $6 million in interest. He did feel this project should go forward and was long overdue.

Finance Director Bill Schaefer said that the proposal is to fund the entire package, not separate pieces. He pointed out that the debt of $27 million and the interest in the amount of $16.5 is over the life of the financing. When you finance, you look at what you are buying it for at the present value of the money. Over the life of the money that you borrow, you will pay interest on it - that's the value of that money. But what you are getting is not a debt of that interest, but a debt of the principle only.

Councilman Skalski said that the Water Maintenance Building project and the City Building roof project, each at $1.3 million, are also projects that should go forward. He was concerned, however, that according to the budget projections, in the year 2002, the City will have a $3.2 million shortfall, stressing that revenue is not increasing from the state and federal government. It will be tough for the City to meet its financial obligations.

Mayor Martin said that the debt is $27 million, not $43 million and you cannot include potential interest paid as debt.

Councilman Skalski said that if we borrow on the three publicly owned projects, that is approximately $16.5 million to borrow. He felt the City has an obligation for those buildings. He felt that before the City agrees to borrow the money to renovate of the first floor of the Grove Arcade as a public market and the construct a high tech/flex building at Broadlands Technical Park, we should take a look at where that money is going. He said the Grove Arcade renovation is basically going to be a privately done project by private investments. If the City signs that note for $2.25 million and then pays another $200,000 from the City's fund to do publicly owned infrastructure work then it will cost about $3.5 million. If something goes wrong, the City will be obligated to pay that off.

Councilman Skalski said the other project he has serious reservations about is the privately developed project at Broadlands Technical Park. This is a $2.5 million loan that the City will guarantee with public money for a private venture with a little over $300,000 of utility infrastructure that the City will provide. Can the City afford to do it? Should the City become a bank for private investors? What about the other thousands of businesses in Asheville talked about in the economic development policy? Where is the money going to come from to help them?

Mr. Schaefer said that the City proposes to finance approximately $2,250,000 for renovation of the first floor of the Grove Arcade. That is being done as a public market. The City's involvement is in lending our good name in the financing. The Grove Arcade Public Market Foundation in return for our assistance has pledged the revenues from its rents of the upper floors to service that debt. There is some minimal risk to the City on the financing; that should those rents be insufficient to service the debt, we could be in the real estate market. However, the debt is structured such that it can be repaid at anytime without penalty. Should the project not happen, the City can back out of it very quickly, smoothly and efficiently.

210

Mr. Schaefer said that regarding the Broadlands building, the City is proposing to reimburse Biltmore Farms up to $310,000 for infrastructure - the water and sewer lines and the access road - and to finance construction, acquisition and equipping of the building to the extent of $2.5 million. There are other participants in addition to Biltmore Farms. The main participant, as far as financial banking, is AdvantageWest - the economic development arm of the State. AdvantageWest will provide for debt service from completion of the building for two years thereafter in order to provide time to market the building and find a permanent tenant or buyer. The developer, Biltmore Farms, will back the financing with full credit pledged to buy out the City two years after completion of the building should we not have a permanent tenant or buyer. That will be available from the initiation of the agreement. Once again, there is a minimal risk to the City. The financing is structured so that without penalty we can get out of it at anytime. He felt the Council has weighed the benefits against that risk and found it to be an advantageous route to go.

Mr. Schaefer pointed out the refunding of the 1991 COPs constitutes about $4.4 million of the $27 million we are proposing. The reason for that is the reduction in interest rates with a potential savings to the City of about $360,000 over the remaining life of that financing. That is not new money - the $4.4 million is old money and it is definitely the smart way to proceed now.

Mayor Martin said we have discussed this a number of times. The Grove Arcade is a historic landmark in the City of Asheville and a very unique building. It has the potential of having a very positive effect on downtown Asheville. The very minimal risk pales by comparison to the risks other cities take for far less worth-while projects than this. The benefits could be a million dollars in sales tax revenues every year. There is good reason for us to lend our name especially when a known developer enthusiastically embraces the project. As far as Broadlands building, we have practically no risk. This could provide a lot of jobs in the future for Asheville. These are the risks that we need to take. We need to do something in a positive fashion in order to get jobs - we can't wait for them to come because other cities are trying to get them. The danger is doing nothing.

Councilman Worley said that we have discussed these before and have agreed to do both of these projects. Beyond that, we are talking about a vision for Asheville. With any vision there are risks to be taken. We have analyzed both of these projects and they both have minimal risk. The Grove Arcade is an embodiment of our vision for an even better downtown and we have worked on that vision for a number of years. The Broadlands Technology Park is part of our vision for economic development - an effort to keep good paying jobs in Asheville.

Upon inquiry by Councilman Skalski, Mr. Schaefer said that we are not approving the final allocation of money by adoption of the resolution, only setting a public hearing.

Upon inquiry of Vice-Mayor Field about the City's debt margin, Mr. Schaefer said that as of June 30, 1997, the City can borrow $283,859,825 and we have only borrowed less than 1% of that amount.

Upon inquiry of Councilman Hay, Mr. Schaefer said that the $4.4 million refunding replaces existing debt. Debt service for the $5.3 on the taxable portion for the Grove Arcade and the Broadlands building are to be funded from other sources. That leaves the City with only the three facilities that Councilman Skalski addressed as being uniquely municipal responsibilities.

Councilman Hay said that finance is what his law practice is about and he is very familiar with risk when he sees it. It was his opinion that something backed by AdvantageWest and Biltmore Farms is virtually risk-free.

Upon request of Mr. Ralph Bishop, a copy of the resolution was furnished to him. He did not support the financing and wondered why the resolution has already been written to employ bond counsel.

Mr. Schaefer explained that before Council can consider the resolution approving the financing, those resolutions must be drafted and when you go into the bond market, you need nationally recognized bond counsel. For that reason, in advance of approving the financing itself, the City must retain counsel. The counsel will be paid from the proceeds of the borrowing - that is a cost of the issuance of the debt. The underwriter must be obtained in advance of the sale of the bond also in that they are the ones that underwrite it and actually sell the issue. The underwriter will be paid a portion of the proceeds but until the sale is consummated, there is no payment to the underwriter.

Upon inquiry of Councilman Cloninger due to a conflict of interest since he has been excused from voting in any matters involving the Grove Arcade, it was the opinion of the City Attorney that he should be excused from voting on this matter. Therefore, Councilman Worley moved to excuse Councilman Cloninger from voting. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Martin said that members of Council have been previously been furnished with a copy of the resolution and it will not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-187. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 237

L. ORDINANCE NO. 2414 - BUDGET AMENDMENT RELATIVE TO THE ALL AMERICA CITY GRANT

Summary: This consideration of appropriating the $10,000 Community Grant already received by the City to Asheville-Buncombe VISION, HandMade In America and The Minnie Jones Health Center.

The City is in receipt of the grant in the amount of $10,000 from the Allstate Foundation. This action appropriates funding to allow disbursement of the grant funds to the recipient agencies.

Staff recommends approval of the budget amendment.

Councilman Skalski pointed out that it cost the City $53,500 to obtain the All America City designation. He felt that the City had to take almost $1 million out of Fund Balance to balance the budget this year and it doesn't make sense to spend $53,000 to get a $10,000 grant and then give it away.

Finance Director Bill Schaefer said that the $53,500 figure is appropriate right for the total expenses, however, a number of the participants indicated that they would be willing to reimburse the City for the expenses of their participation. But, in accordance with the sense of Council, that was not to be a limitation towards anyone participating, whether or not they could reimbursement. We are in the process now of soliciting those contributions which should be approximately $10,000.

City Manager Westbrook said that the Council originally authorized an expenditure of $30,000 which was based on 20 participants. Once plans started being formulated, it was determined that there was a much broader field that needed to go to Kansas City in order to present Asheville in the way it should be presented to maximize our chance to win. There were 56 who traveled and he felt that was the difference from the original authorization, noting that we are trying to collect some of those reimbursements.

Councilman Skalski pointed out that the City presented Handmade in America with a check earlier in the meeting. Even though he felt that Handmade is a very worthwhile project that helps a lot of small businesses, they have already received this year a $200,000 grant from the state from a $21 million state overflow fund that was handed out by different politicians throughout the state. He said there was really no public input on how that money was to be distributed. He felt that all the businesses in Asheville that need help should have been looked at, since Handmade already received a $200,000 grant and he knows they received money from other sources, like the Dept. of Transportation. He asked that an article dated February 18, 1997, from the News & Observer in Raleigh entitled "Passing Out the Goodies" be submitted for the record. (The article is kept on file in the Office of the City Clerk.)

Mayor Martin said that members of Council have been previously been furnished with a copy of the ordinance and it will not be read.

Councilman Worley moved for the adoption of Ordinance No. 2414. This motion was seconded by Vice-Mayor Field and carried on a 6-1 vote with Councilman Skalski voting "no".

ORDINANCE BOOK NO. 16 - PAGE 307

O. ORDINANCE NO. 2415- BUDGET AMENDMENT TO PROVIDE ADDITIONAL FUNDING FOR FESTIVALS AND SECIAL EVENTS FROM REVENUES GENERATED BY THESE EVENTS

Summary: The consideration of a budget amendment, in the amount of $90,000 to increase Festivals support, the cost of which will be offset by increased revenues.

Upon inquiry of Councilman Skalski, Parks & Recreation Director Irby Brinson explained that during the fiscal 1997/98 budget process, Parks & Recreation submitted a request to use revenue generated from festivals to increase administrative and technical support for festival activities and special events. This request is based upon recommendation from the Bele Chere Strategic Plan which was presented to City Council at their retreat in early 1997. It is proposed that revenues will be used to fund part-time staff to assist with the operations of over 35 festivals and special events produced by the department. Providing part-time assistance will allow the festival staff to aggressively work towards increasing revenue support to fund various events. In addition, funds will be used to enhance the logistical needs for these events which include improving electrical requirements, purchasing tents, physical landscape improvements downtown and other support features. This funding is only approved with the understanding that if the revenue producing festivals such as Bele Chere and First Night begin to lose money, then this additional financial support would not be available.

Mayor Martin said that members of Council have been previously been furnished with a copy of the ordinance and it will not be read.

Councilman Worley moved for the adoption of Ordinance No. 2415. This motion was seconded by Vice-Mayor Field and carried on a 6-1 vote, with Councilman Skalski voting "no".

ORDINANCE BOOK NO. 16 - PAGE 309

III. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING RELATIVE TO REZONING EIGHT PARCELS ON THE SOUTHSIDE OF BROAD STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Mayor Martin said that this public hearing was opened on September 9, 1997, and continued until this date.

Mr. Mike Matteson, Urban Planner, said that on September 9, 1997, City Council continued the public hearing so that the property owner and representatives of the neighborhood could meet to see if there was a mutually agreed upon solution or compromise. They did meet on two separate occasions but there was not a resolution. The City has received a request from the property owner who made the original request during the UDO process, Mr. Dennie Martin, to continue this public hearing again since he is out of town and would like to be present. City staff felt it was good planning sense to request City Council continue the hearing until November 25, 1997, because there are two other rezoning requests on Broad Street. The two requests are scheduled for the November 5 Planning & Zoning Commission meeting and they will more than likely be before City Council on November 25. Council's other options are to hear the rezoning tonight or, since the City is the petitioner, City Council can withdraw the petition.

The following persons urged City Council to vote at the meeting today and not continue the public hearing until November 25. Some reasons were, but are not limited to: Mr. Dennie Martin was aware that the public hearing was continued until this date and he has other partners and/or his attorney who could represent his interests; the continuation might be a way to hold off a decision until after the November 4 elections; many residents took time off from their jobs to come to this meeting; and a policy should be adopted on postponements so that people are not inconvenienced:

Mr. Vincent Ramsuer, 111 Broad Street
Mr. Arthur Davis, 12 Madison Avenue
Ms. Angela Scotchie, 91 Broad Streets
An area resident

Mayor Martin said that he received a letter dated October 6, 1997, from Mr. Dennie Martin which reads in part "I therefore request that the Council consider withdrawal of the pending petition for rezoning and add the area in question to the areas which are being considered by the Charlotte Street Plan." He asked Mr. Craig Justus, attorney representing Mr. Martin, if that is his client's wishes.

Mr. Justus said that in talking with staff, the property owners have filed an application to rezone what is now Office all the way down Broad Street to Mr. Martin's present business to Residential. He felt it made sense to consider all the Broad Street rezoning requests at one public hearing. Mr. Justus said that he did not represent Mr. Martin at any of the meetings nor did he attend them. Therefore, he cannot speak as his representative regarding what happened at those meetings. He believed Mr. Martin wanted the opportunity to speak to City Council on what happened at those meetings from his prospective, since City Council was asked not to attend the meetings.

Vice-Mayor Field said it sounded reasonable to look at the whole street at one time based on a more holistic view of the impact.

Upon inquiry of Councilman Hay, Mr. Matteson explained that if the City withdrew the petition, the zoning would remain RM-16, and would not be considered with the other two rezoning petitions which will be before City Council on November 25. He said that City Council or the property owner could bring the issue back again before Council in the form of a new petition.

City Attorney Oast also pointed out that in the case of a denial, Council can't take action on that particular request again for a year.

Upon inquiry of Councilman Skalski, Mr. Matteson said that one of the rezoning petitions coming to City Council involved about 12-14 lots going west from these 8 lots on Broad Street and the other rezoning petition is 22 Broad Street.

Councilman Skalski felt a small area plan, not on the scale of Charlotte Street, would benefit the entire area and would result in a compromise for everyone involved.

Mr. Matteson said that a small area plan typically involves more than just deciding the zoning of properties. He pointed out that staff is currently working on the Charlotte Street Small Area Plan and there are a number of other areas who have either requested a small area plan or that staff is considering a small area plan.

Councilman Hay was not inclined to postpone the hearing. He felt that it was already postponed for the parties involved in order to try to come up with a compromise. He didn't think postponement was fair to everyone who participated to this point. He felt Council should withdraw the application which leaves it at RM-16. But, it also creates an opportunity, if Mr. Martin chooses to do so, to submit a rezoning petition requesting that his lots be rezoned and by the time that process works its way through, perhaps Council can look at Broad Street all at one time.

Councilman Worley didn't feel that there would be enough time for a new rezoning petition to go through the process in order that it be considered at the November 25 meeting.

City Attorney Oast pointed out that Councilman Cloninger has previously been excused from voting on this matter due to a conflict of interest.

Councilman Worley moved to continue the public hearing until November 25, 1997. This motion was seconded by Councilman Sellers.

Upon inquiry of Councilman Skalski, City Attorney Oast felt that City Council should take some action on the request, however, if Council takes no vote at the meeting today, it would automatically be continued until their next meeting.

City Attorney Oast said that to leave the zoning the way it is now, Council has the options of voting to deny the rezoning petition or withdrawing the petition. He explained that the only difference is that unless there is a 3/4's vote of Council to resurrect the issue, it can't come back before Council for one year.

Vice-Mayor Field said that the community has strong feelings and there is a need for affordable housing. She also felt that it would be nice to do a small area plan, however, there are three rezoning requests that need to be dealt with, therefore, she would support continuing the public hearing until November 25. She suggested that City Council hold a worksession prior to November 25 to look at the all the rezonings. The worksession could be held in the evening.

Councilman Hay felt it was a good idea to get together at a worksession. He said that if Council withdraws the petition, the antagonism will be taken out of the process and neighborhood will have an obligation to work with Mr. Martin to control the progress of their own application on the rest of Broad Street. He, therefore, made a substitute motion to withdraw the application. This motion was seconded by Councilman Skalski.

Councilman Worley could easily vote to withdraw the petition if the other two rezoning petitions would be withdrawn too, because then all three issues could be discussed at one time. However, as long as the other two rezonings are scheduled for November 25, then Council should continue this hearing so they all stay on the same track.

Upon inquiry of Mayor Martin, Mr. Matteson said that if the petition is withdrawn, the earliest a new rezoning petition could be considered by the Planning & Zoning Commission would be at their December meeting.

City Attorney Oast pointed out that if the rezoning petition is withdrawn, the whole process starts again. Right now if the matter is continued, the protest petition remains valid. However, if the rezoning petition is withdrawn, the protest petition will need to be re-filed in order to be valid.

Mayor Martin then asked for a voice vote on Councilman Hay's substitute motion to withdraw the petition. Councilman Hay's motion failed on a 2-4 vote with Councilmen Hay and Sellers voted "yes" and Mayor Martin, Vice-Mayor Field and Councilmen Sellers and Worley voting "no".

Mayor Martin then asked for a voice vote on Councilman Worley's motion to continue the public hearing until November 25, 1997. Councilman Worley's motion carried on a 4-2 vote with Mayor Martin, Vice-Mayor Field and Councilmen Sellers and Worley voting "yes" and Councilmen Hay and Skalski voting "no".

Councilman Skalski moved to do a small area plan for this area. This motion died for a lack of a second.

Ms. Leni Sitnick, Asheville resident, suggested City Council consider establishing a public hearing/agenda item/postponement policy. That way neighborhoods who take time off from work, get baby-sitters, etc., are not inconvenienced. The policy should address a timely notice to go out to all the affected citizens.

Mayor Martins said that was an interesting suggested, however, you can't make a single policy that will be applicable in all situations.

216

B. PUBLIC HEARING RELATIVE TO REZONING PROPERTY ON EMMA ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO CI COMMERCIAL INDUSTRIAL

Mayor Martin said that on September 9, 1997, this public hearing was continued until today at the request of the petitioner.

Mayor Martin opened the public hearing at 6:40 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is consideration of an ordinance to rezone property on Emma Road (PIN Nos. 9639.18-31-8279 and 9639.18-31-5890) from RM-8 Residential Multi-Family Medium Density to CI Commercial Industrial.

The subject property is located on Emma Road and is owned by Appalachian Stove. The 2010 Plan indicates this area to be low density residential. These two vacant tracts of land are surrounded on north, east, and west by mobile home parks and on the south by a golf course. One lot currently has one residential structure next to the main road. Emma Road is a narrow (only 17 feet wide) and winding, highly traveled residential collector street with no sidewalks and very little shoulder. This immediate area would need to be upgraded for access to any large permitted use in the CI district.

This site was reviewed by the Technical Review Committee and they confirmed that this site/area does not currently have the infrastructure to support every commercial/industrial development permitted in the CI district. The street is inadequate from design standards at any point of ingress to these properties. Limited turning movements from Louisiana Avenue onto Emma Road has dictated some restrictions on large vehicle use. Water flow for fire protection for certain uses could exist from the fire hydrant found on the property; however, any large permitted use would require infrastructure upgrades. Sewer service is available across Emma Road and the Southern Railway tracks but would also need upgrades for large development.

This property is outside the City limits of Asheville.

The Planning staff reviewed the rezoning request and recommended denial of PIN Nos. 9639.18-31-8279 and 9639.18-31-5890 from RM-8 Residential Multi-Family Medium Density to CI Commercial Industrial. At the August 6, 1997, the Planning & Zoning Commission meeting, the commissioners voted unanimously to deny the rezoning request of the two lots on Emma Road.

On August 18, 1997, Mr. Barry Eavenson, President of Appalachian Stove and Fabricators Inc. appealed the Planning & Zoning Commission's decision to City Council.

Mr. James Rice, one of the property owners, stressed that the property was originally zoned R-5 before the UDO changed its zoning and part of it was also zoned commercial industrial. He said that the size of and traffic on the road is common to the Emma community. He said water, sewer and a fire hydrant is on the property. He said there is electricity to the property and it's on a bus route. He said the plans for the property are to build small type businesses and office structures to support small businesses in this area. Their goal is to improve the community. He noted that this area is a very mixed area.

Upon inquiry of Councilman Worley, Mr. Ownbey said that other uses were looked at, but industrial did not allow both office and warehouses which the petitioner had requested. The commercial industrial district was the only zone that would allow both of those uses.

Mr. Ownbey answered questions from Councilman Worley relative to infrastructure limitations in that area.

Councilman Sellers said that he visited the property and felt that the community does limit itself to light industrial.

City Attorney Oast reminded City Council that any use in the commercial industrial district will be allowed if rezoned.

Mayor Martin closed the public hearing at 6:53 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved to rezone the property on Emma Road from RM-8 to CI. This motion was seconded by Councilman Worley and failed on a 2-4 vote, with Councilmen Sellers and Worley voting "yes" and Mayor Martin, Vice-Mayor Field and Councilmen Cloninger, Hay and Skalski voting "no."

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THORPE CONSTRUCTION COMPANY TO RECONSTRUCT THE CHEROKEE ROAD RETAINING WALL

B. BUDGET AMENDMENT TO RECONSTRUCT THE CHEROKEE ROAD RETAINING WALL

At the request of City staff, these items were postponed until October 28, 1997.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 23, 1997, AND THE WORKSESSION HELD ON OCTOBER 7, 1997

Councilman Worley moved for the adoption of the minutes of the regular meeting held on September 23, 1997, and the worksession held on October 7, 1997. This motion was seconded by Vice-Mayor Field and carried unanimously.

B. ORDINANCE NO. 2416 - BUDGET AMENDMENT RELATIVE TO THE HILLS OF BEAVERDAM

City Manager Westbrook said that this is consideration of a budget amendment, in the amount of $138,745, to establish a budget for the Hills of Beaverdam Street Improvement Project.

On August 12, 1997 Resolution No. 97-126 was adopted authorizing the City Manager to enter into an agreement with the Hills Of Beaverdam Homeowners Association, Inc. for street improvements. The City received the funding in the amount of 137,050 from the Homeowners Association on August 27, 1997, and additional funds of $337 on September 29, 1997. The City will also collect an additional $1,357 for driveway pipe installation not included in the original agreement. This budget amendment will reallocate all of the funding to the appropriate line item in order to purchase the materials for this project.

The Public Works staff recommends that a budget amendment in the amount of $138,745 be approved.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Skalski moved for the adoption of Ordinance No. 2416. This motion was seconded by Vice-Mayor Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 311

C. COUNCIL OF INDEPENDENT BUSINESS OWNERS RESOLUTION

Mr. Bob Selby, President of the Council of Independent Business Owners, read the following resolution dated October 14, 1997:

"WHEREAS, after years of struggling with amortization and sign control issues, the City of Asheville appeared to have come to a point of Resolution. There was no litigation and the outdoor advertising companies were voluntarily complying with the takedown orders; and

"WHEREAS, after years of factionalism, divisiveness, and interest group conflict, our community had come together in the Asheville Buncombe Visioning process to build a consensus for the future of our community and to emphasize the things that all of us could agree on and work on together; and

"WHEREAS, the recent proposals run the outdoor advertising companies completely out of Asheville and to severely restrict off-premise signs of all kinds made by Councilman Chuck Cloninger is made suddenly, without notice to the community and in the midst of a campaign for his re-election to City Council; and

"WHEREAS, the proposal was run through the Planning and Zoning Commission so rapidly that the Commission voted on drafts of the proposed ordinance which they had not even been able to read because they were handed out just before the meeting; and

"WHEREAS, the proposals are to be considered by the City Council of the City of Asheville.

"NOW, THEREFORE, be it resolved that the City Council of the City of Asheville is urged to reject Councilman Cloninger's proposals to ban off-premise signs in the City of Asheville because the proposal is misguided and bad for our community. The proposal is divisive and exclusionary. It violates property rights. It is extremely detrimental to many small businesses in the City of Asheville and it undermines the consensus building process that has been so successful over the last two years."

D. CITY SHOP

Mr. Harley Dunn suggested the City of Asheville open a shop that would sell extra City T-shirts, old street signs, old parking meters, etc. He felt that would be an excellent source of revenue.

City Manager Westbrook explained that Asheville has already looked into a shop of that type and outlined some of the obstacles to opening that shop.

E. REQUEST FROM COVEN OLDENWILDE

Ms. Niki Thurston, representing Dixie Deerman and Steve Rasmussen of Coven Oldenwilde in Asheville, requested City Council vote to recommend that the East Memorial Stadium's floodlights be turned off for the 3rd Annual Witch Ritual and hold Coven Oldenwilde responsible for lighting the area for the participants. The atmosphere that would generated by the lights in the stadium would be very harsh and it would not be conducive to the ritual Rite. They have come up with some alternate lighting that would provide safety for the individuals and would be more conducive to the religious and respectful atmosphere that they are trying to create for this particular ritual. She said that in addition to their lighting, there is (1) ambient lighting coming from McCormick Field below, (2) ambient lighting coming from the housing project and park directly behind there, and (3) there is fluorescent lighting in the parking lot abutting the stadium.

Mr. Irby Brinson, Director of Parks & Recreation, explained that in June they were contacted with an original application to conduct a 3rd Annual Witches Ritual at Memorial Stadium. The permit was approved and sent back on July 9. Mr. Jeff Joyce, Athletic Programs Supervisor, met with Ms. Deerman to discuss several items at that particular time about their particular use which included using the rest rooms, concession stand, having electrical outlets in the pressbox, and that they would have lighting with torches. Mr. Joyce suggested that they submit in writing their particular needs and he did receive their request on September 30. Outlined in their letter were eight specific needs. These needs ranged from removing goal posts and steel cable, repairing holes in fencing, to not turning on the Stadium lights. In their letter they referred to the potential for participants bumping into the goal posts and injuring themselves. They also referred to the fact that many may trip over the cable and hurt themselves. Mr. Joyce then brought the letter to his attention who recommended the letter be referred to the City's Risk Manager John Miall and the City Attorney Bob Oast.

Mr. Miall responded by stating that the City should rent the facility as is without modifications, and that the City should not agree to turn off any lights. Turning off the lights would be highly irresponsible of the City and would expose the City to an unacceptable level of risk. Mr. Miall faxed our excess liability carrier a copy of the request for their review and the carrier agreed with Mr. Miall. The effect of this is that having been advised to keep the lights on, the City may be denied coverage in the event of a loss if the lights are off. Mr. Joyce outlined this in a letter to the group dated October 2.

Upon inquiry of Councilman Sellers, Mr. Brinson said that the cost to rent the Stadium is $25 and since this is football season and the stadium is used by the West Asheville Youth Football, the goal posts are up.

Ms. Thurston said that regarding the goal posts, they have decided to make them very identifiable by using them in part of their Rite by decorating them and making it so that people have to go around them. The fixed steel cable will also be decorated, with some curtain-type ribbon that is very light and they will also have snap-sticks which will be used so that it will be easily identifiable to anyone going by there.

Upon inquiry of Vice-Mayor Field, Mr. Miall said that having the insurance carrier's recommendation in hand to not turn off the lights, would expose the City to the possibility of a loss for which they would deny coverage.

When Vice-Mayor Field asked Mr. Miall if he told the insurance carrier that there would be ambient light on the field, Mr. Miall responded that when Ms. Deerman called him, he conferenced the call to the insurance carrier and they talked about the possibility of dimming lights or turning on every other bank of lights. It was the insurance carrier's recommendation to not turn the lights off.

Upon inquiry of Councilman Sellers, Mr. Brinson said that each group is responsible to clean up after themselves.

Mr. Brinson pointed out that there are also drains in the field and impressions that when the field is lit, they are obvious, but not lit to standards would be a hazard as well.

Ms. Christie Howard, also speaking on behalf of Dixie Deerman and Steve Rasmussen, stressed that they are asking for alternative lighting, not total darkness, that will be more conducive to a spiritual atmosphere and a religious ritual. They have a good safety record and even requested a better, flatter site this year to take care of safety. They will be decorating the posts and cable so they won't be a hazard. They have 40 torches and 40 additional lights that will be hung onto the torches that will take care of the light, but won't be as brilliant and glaring as the floodlights. The City has waived their signing a hold harmless agreement and also waived their having to have liability insurance. They feel their risk has been reduced due to their diligent planning. This will be a controlled environment.

Mayor Martin explained that it would be hard for the City to create a potential liability. Even though they are a responsible group, they can't absolve the City from liability.

Upon inquiry of Vice-Mayor Field, Ms. Howard explained why APD Captain Lambert suggested Memorial Stadium as an alternate site this year.

Upon inquiry of Councilman Sellers, City Attorney Oast said that the City's policy is that the facility is available for use in accordance with our rules and regulations which have been established through the Parks & Recreation Department and other City departments. The only motion Council would need to make in this instance, if one is to be made, is to authorize staff to vary from that policy.

Councilman Skalski felt that he could not vote intelligently since he has not seen the alternative lighting plan.

Mr. Brinson said that the City's insurance carrier has recommended that the City not turn off the lights because it would expose the City to the possibility of a loss for which they would deny coverage.

Councilman Skalski moved to turn the floodlights off, subject to the group providing alternative lighting as outlined above, and the decoration of goal posts and steel cables. This motion died for lack of a second.

Vice-Mayor Field said that she has great respect for the religious observance that they intend to celebrate on October 31, but felt that Memorial Stadium was a totally inappropriate place for the event. She wished there was a more appropriate place at a reasonable price. Ms. Thurston responded that they have been denied neighborhood parks.

F. CLAIMS

The following claims were received by the City of Asheville during the week of September 19-25, 1997: Alice Weatherman (Water), Nancy Hudgins (Water), Reggie Sellers (Water), Wendy Medford (Streets), Brad Griffin (Streets) and Michelle LeBlanc (Streets).

The following claims were received during the week of September 26-October 2, 1997: John E. Grear (Water), Jim Gaddy (Sanitation), Urban Trail (Parks & Recreation) and Marilyn Gaines (Parks & Recreation).

The following claims were received during the week of October 3-9, 1997: Denise Sales (Civic Center), Fusia Davis (Streets), Marci Shipman (Water), Richard Pressley (Sanitation), Jack Pruitt (Streets) and Dany Roberts (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 7:23 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - October 28, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

I. PROCLAMATIONS:

II. CONSENT:

Mayor Martin announced that Item G. will be removed from the Agenda.

A. RESOLUTION NO. 97-188 - RESOLUTION ENTERING INTO A LEASE AGREEMENT WITH THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES FOR THE RENOVATION TO THE REID ANNEX

Summary: The Parks and Recreation Department submitted a reengineering proposal during the budget process to develop a collaborative effort to renovate the Reid Recreation Center Annex for Child Care. This effort resulted in working with the Opportunity Corporation of Madison-Buncombe County to provide the funding for the renovation of the Reid Annex and to operate a Head Start Child Care Program. The Opportunity Corporation has successfully received grant funding totaling $670,000 for the renovation which is scheduled to begin by the end of this calendar year. The Parks and Recreation Department will be working closely with the Opportunity Corporation and the Arts Alliance to develop an innovative program that will not only provide child care but also expose these children to a cultural arts environment. The Parks and Recreation Department is excited about this collaborative effort which will result in renovating an existing City facility at no cost to the City of Asheville. More importantly, this effort will provide a much-needed child care facility for parents who could not otherwise afford this service.

RESOLUTION BOOK NO. 24 - PAGE 242

B. ORDINANCE NO. 2417 - BUDGET AMENDMENT TO REALLOCATE FUNDS FOR THE PURCHASE OF A FIRE DEPARTMENT RESCUE TRUCK

Summary: Pursuant to G.S. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a fire rescue truck to the City Fire Department. One bid was received.

In addition to evaluating the proposed equipment to determine compliance with bid specifications, an analysis of the sole bidder's price was conducted. From the analysis it was determined that the price bid the City reflects a discount of $80,000 off the manufacturer's list price and when compared to other municipalities' cost for comparable equipment, our price is considered to be very competitive, fair and reasonable.

The City of Asheville Capital Improvement Budget (CIB) included a proposal for purchase of a fire rescue truck in Fiscal Year 1999 at a cost of $120,000. Two months ago, Asheville Fire Department representatives learned of the availability of a fire rescue vehicle "demonstrator" with an estimated value of $200,000 or more available for $120,000. After local evaluation of that vehicle for mechanical soundness, and agreement on the part of the vendor to furnish all "as-new" warranties, the City Manager approved a reallocation of Fire Department CIP monies in this year's budget so the City could proceed with acquisition of this vehicle. This reallocation consists of postponement of replacement of a staff vehicle and some small-capital equipment.

This bid has been reviewed with Fire Chief John Rukavina, who supports this recommendation.

Funds for this purchase will be provided by a capital project established for the payment of the vehicle over a minimum five year period.

Staff recommends that the bid be awarded to the sole bidder, Chief's Fire and Rescue Inc., Jefferson, NC, in the amount of $120,000 for the purchase of a fire rescue truck consisting of a 1994 White Volvo model WG 42 cab and chassis with a 21 ft. Ranger Body.

C. **RESOLUTION NO. 97-189 - RESOLUTION AWARDING BID TO CHIEF'S FIRE AND RESCUE INC. FOR A FIRE RESCUE TRUCK**

Summary: See Item B. above.

RESOLUTION BOOK NO. 24 - PAGE 243

D. **RESOLUTION NO. 97-190 - RESOLUTION APPROVING THE ISSUANCE BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE OF UP TO $4,900,000 REVENUE BONDS FOR IMPROVEMENTS TO THE WOODRIDGE APARTMENTS DEVELOPMENT AND TAKING RELATED ACTIONS**

Summary: The Housing Authority has agreed in principle to issue up to $4,900,000 of its housing revenue bonds to finance a loan to Asheville - Woodridge LLC. Asheville-Woodridge LLC will use the loan proceeds for the renovation of the Woodridge Apartments development in Asheville, and to pay related expenses. The U.S. Internal Revenue Code ("Code") requires that for such bonds to be issued on a tax-exempt basis, the Asheville City Council must first approve their issuance. The Housing Authority held a hearing on October 21, 1997, on the issuance of the bonds as required by the Code.

RESOLUTION BOOK NO. 24 - PAGE 245

E. **RESOLUTION NO. 97-191- RESOLUTION FIXING DATE OF PUBLIC HEARING ON NOVEMBER 11, 1997, REGARDING ANNEXATION OF PROPERTY LOCATED WEST OF OVERLOOK ROAD (SECTION 9 OF BILTMORE PARK)**

RESOLUTION BOOK NO. 24 - PAGE 256

F. **RESOLUTION NO. 97-192 - RESOLUTION REJECTING BIDS FOR THE CONSTRUCTION OF THE MORROW STREET SUBDIVISION**

Summary: McGill Associates on behalf of the Community Development Division opened bids for the construction of Morrow Street Subdivision on August 14, 1997. The lowest bid received for the project was in the amount of $229,620 from Thorpe Construction Company. The engineer's estimate for the project is in the amount of $164,863. The amount of funds available for the project is $187,000.

Community Development staff recommends rejection of the bids because all bids exceed the amount of available funds for the project. The Housing and Community Development Committee has concurred in the staff recommendation.

Due to the high cost of developing affordable home sites in the Morrow Street area, staff will be looking at other options in the Montford area for developing affordable housing sites.

RESOLUTION BOOK NO. 24 - PAGE 249

G. RESOLUTION ENTERING INTO A CONTRACT WITH JRM & ASSOCIATES FOR WIRELESS TELECOMMUNICATIONS CONSULTING SERVICES AND PROPERTY MANAGEMENT FOR COMMUNICATION FACILITIES

This item was removed from the Agenda.

H. RESOLUTION NO. 97-193 - RESOLUTION RESCHEDULING THE CITY COUNCIL WORKSESSION AGENDA FROM TUESDAY, NOVEMBER 4, 1997, TO WEDNESDAY, NOVEMBER 5, 1997, BEGINNING AT 3:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM, CITY HALL BUILDING

RESOLUTION BOOK NO. 24 - PAGE 250

I. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 11, 1997, TO CONSIDER OFF PREMISE ADVERTISING SIGNS IN THE CITY OF ASHEVILLE'S ZONING JURISDICTION

J. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 11, 1997, TO CONSIDER MINOR REVISIONS TO THE UNIFIED DEVELOPMENT ORDINANCE WHICH REVISIONS DO NOT ALTER THE INTENT OR PURPOSE OF THE STANDARDS

K. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 11, 1997, TO CONSIDER A SECTION 108 LOAN GUARANTEE APPLICATION IN CONNECTION WITH THE CITY-WIDE RESIDENTIAL REHABILITATION PROGRAM

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Vice-Mayor Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A MODIFICATION REQUEST FROM THE SUBDIVISION STANDARDS TO PERMIT AN IRREGULAR PORTION OF A LOT LOCATED ON OAKLEY SCHOOL ROAD TO BE USED IN CALCULATING COMPLIANCE WITH MINIMUM LOT AREA REQUIREMENTS

Mayor Martin opened the public hearing at 5:03 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is a request to approve a modification from the subdivision standards to permit an irregular portion of a lot located on Oakley School Road to be used in calculating compliance with minimum lot area requirements.

This modification is for a specific lot located on Oakley School Road. The lot is approximately 13,000 square feet and zoned RS-8 (which requires a minimum lot size of 5445 square feet). This lot currently has two residential structures and the owner wishes to subdivide the lot into two separate residential lots. During the review with the surveyor, the staff was attempting to assist the property owner to determine how to meet the setback requirements with the existing structures and comply with the 25 foot flagpole width requirement (this did require the owner to purchase some land from the adjoining property owner) and incorrectly stated that the flagpole area could be used in calculating compliance with the lot area requirement. Subsection 7-15-1.K.2.d.3. of the subdivision regulations does not permit that.

When the minor subdivision plat was presented for approval, the error was discovered. City staff informed the surveyor and owner that the best way to correct this error was to request a modification from the subdivision requirements for this lot. This modification, under Section 7-15-1. J. of the UDO, may be approved by City Council, upon receiving the recommendation of the Planning and Zoning Commission. This modification request is on a case-by-case basis and is not an amendment to the subdivision regulations.

The Planning staff presented the modification request to the Planning and Zoning Commission at their October 1 meeting and the Commission voted unanimously to recommend approval of the modification for this particular lot only.

Mayor Martin closed the public hearing at 5:06 p.m.

Vice-Mayor Field moved to approve the modification request from the subdivision standards to permit an irregular portion of a lot located on Oakley School Road to be used in calculating compliance with minimum lot area requirements. This motion was seconded by Councilman Sellers and carried unanimously.

B. PUBLIC HEARING RELATIVE TO CONTRACT AMENDMENT TO THE EXISTING 1991 INSTALLMENT PURCHASE CONTRACT WITH ASHEVILLE PUBLIC FINANCING CORPORATION RELATIVE TO NEGOTIATION OF AN INSTALLMENT PURCHASE CONTRACT REGARDING FINANCING OF THE RENOVATION OF THE MUNICIPAL BUILDING, WATER MAINTENANCE BUILDING AND THE CITY BULDING ROOF; RENOVATION OF THE FIRST FLOOR OF THE GROVE ARCADE AS A PUBLIC MARKET; CONSTRUCTION OF A HIGH TECH/FLEX BUILDING AT BROADLANDS TECHNICAL PARK; AND REFUNDING OF THE SERIES 1991 CERTIFICATES OF PARTICIPATION

RESOLUTION NO. 97-194 - RESOLUTION APPROVING AN AMENDMENT TO THE INSTALLMENT PURCHASE CONTRACT WITH ASHEVILLE PUBLIC FINANCING CORPORATION AND RELATED MATTERS

Mayor Martin opened the public hearing at 5:07 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger asked to be excused due to a conflict of interest relative to the Grove Arcade as a public market. Councilman Worley moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Sellers.

Councilman Skalski asked if it would be possible to break down the different items in the package so that Councilman Cloninger can vote on the projects separately. Councilman Cloninger said that he talked with the City Attorney about that earlier and the City Attorney advised him that it would not be feasible to do that because of the financing involved.

Councilman Skalski then asked if Council could vote separately on the projects, not because of a conflict of interest, but because of a matter of principle. City Attorney Oast said that the matters are coming before Council as a package and any change would require a redrafting of the resolution. It was his opinion that Council could vote on the projects separately as to certain parts of it because Council does have the ability, pursuant to their Rules, to divide a question. However, Councilman Cloninger's conflict transcends all of these particular issues.

Mayor Martin then asked for a voice vote on the motion to excuse Councilman Cloninger from voting due to a conflict of interest. Said motion carried unanimously.

Mr. Bill Schaefer, Finance Director, said that this is consideration of a resolution approving an amendment to an installment purchase contract with Asheville Public Financing Corporation and providing for certain related matters.

Financing of the renovation of the Municipal Building, Water Maintenance Building and the City Building Roof; extension of water and sewer lines and an access road to Broadlands Technical Center; renovation of the first floor of the Grove Arcade as a public market; the construction of a high tech/flex building at Broadlands Technical Center and refunding of the Series 1991 COPs (which funded the acquisition of the Public Works Facilities) will require the issue of Certificates of Participation ("COPs"). The actual issuer of the COPs is Asheville Public Financing Corporation (APFC), a not for profit corporation which was formed to aid the City of Asheville in complex financings such as this COPs. In order to service the debt, the City will enter into an amendment to the existing 1991 installment purchase contract with APFC whereby the City agrees to provide periodic payments (which equal the debt service). The debt is to be secured by a deed of trust on the Municipal Building, the City Building, the Water Maintenance Building and a continued deed of trust on the Public Works Facilities (which was pledged for the 1991 COPs). In furtherance of the issue of COPs, the resolution provides the following: (1) Ratifies all actions of the City, City Manager, Finance Director, City Clerk and City Attorney in effectuating the financing; (2) Authorizes and approves the Preliminary Official Statement and Official Statement in connection with the financing; (3) Approves the Contract Amendment and authorizes and directs the City Manager and City Clerk to execute and deliver the Contract Amendment; (4) Authorizes and directs the City Manager and City Clerk to execute and deliver the Deed of Trust; (5) Approves the Financing Statements and authorizes the City Manager to execute and deliver them; (6) Approves the Certificate Purchase Agreement and authorizes the City Manager to execute the associated Letter of

Representation; and (7) Designates the City Manager as the City's Representative to act on behalf of the City in connection with the financing and authorizes, empowers and directs the City Manager, Finance Director and City Clerk to take necessary actions to carry out the financing.

Mr. Schaefer then briefed Council on public municipal financing and specific details of this financing. He outlined the municipal funding options for large projects which are (1) pay as you go; (2) General Obligation Bonds; (3) Revenue Bonds; and (4) Certificates of Participation. The City is proceeding with Certificates of Participation for which a public hearing is required. The certificates' debt service is subject to annual appropriations and is secured by property liens. In this case, we propose to place a lien on the Municipal Building, the Water Maintenance Building and a continuation of the lien on the Public Works Facility. He then reviewed the specific financing, noting that the total financing is not to exceed $27,000,000. He noted that the costs in this presentation are estimates because we don't know the true interest rates yet on the date we will go to market. However the not to exceed figure is firm.

We currently have a statutory debt limit for the City of $283.9 million - that's what we are allowed under North Carolina to issue. As of June 30, 1997, we have outstanding against that statutory limit $14.63 million. If we add the current proposed financing - $41.63 million, we are only approximately 15% of that total statutory limit.

He reviewed Series 1997A which are traditional municipal sorts of projects: Municipal Building renovation - $13.5 million; Water Maintenance Building renovation - $1.3 million; City Building Roof renovation - $1.413 million; Economic Development - $310,000; and Contingency - $660,000. The total project amount is $17.183 million. Additionally proposed to be financed is the cost of issuance (payment of the underwriters, printing of notices, payment to special counsel, etc.) - $161,000; and insurance on issue (insurance decreases our interest rate we will pay over the life of the issue) - $71,000. The total Series 1997A financing is $17.415 million. The Series 1997A has a cap figure of $18.5 million.

Series 1997B is a refunding of the callable portions of our 1991 Certificates of Participation which are currently outstanding - $3.4 million. Those Certificates were used for the financing of the Public Works Facility. The cost of issuance is $34,000 and the insurance is $15,000. The Series 1997B financing is $3.449 million. The Series 1997B has a cap figure of $4 million. We are refinancing this portion to obtain a lower interest rate. Our lower interest that we anticipate at this time will provide us an annual savings each year between $25,000-$30,000 through 2011, which is the final maturity on the debt. The net present value of that savings that we would realize is $277,000.

Series 1997C includes a loan to the Grove Arcade Public Market Foundation ("GAPMF") for renovation of the first floor in the amount of $2.25 million. The other project is the high tech/flex building at Broadlands Technical Park in the amount of $2.5 million. Other portions to be financed will be the cost of issuance - $28,000, insurance - $28,000 and capitalized interest - $767,000. He explained that we plan on financing the interest for the first 2.5 years. The total Series 1997C financing is $5.573 million. The Series 1997C has a cap figure of $6.5 million.

He explained the Grove Arcade project. He outlined the debt service sources - capitalized interest for 2.5 years. He said the

City's lease agreement with the GAPMF provides that the GAPMF pledged their rents that they receive from their developer of the upper floors of the Grove Arcade to the City. Rents start out at approximately $120,000 per year and escalate from the time the developer achieves 25% occupancy, plus a CPI based increase or 3% per year, whichever is higher. For security he stressed that the City owns the building. We advance funds only as construction progresses. As we advance those funds, the value of our building goes up. Our alternative, in event of default, is that we could repossess our building with our own improvements to that building. There is also a guarantee in a form from the developer in that he has five years to be up and operating. Some benefits include a potential for increased jobs in the area. Early studies show 70 new shops in the public market portion and throughout the entire building 600 new jobs. Increase of approximately $288,000 on the estimated sales tax; increase of state income tax; and a very small increase in property taxes. The developer plans on putting approximately $14 million of his own money into renovation of the upper floors. The project will sustain revitalization of the downtown area and provides a good anchor for the west side.

He then explained the high tech/flex space building. He outlined a debt service source of capitalized interest for 2.5 years. In this case we have Biltmore Farms and AdvantageWest that have a financial commitment to the operation. At the end of the construction, AdvantageWest stands to pick up debt service for 2 years thereafter. For security the land is subrogated to the City and the City will own the building. Funds are advanced under the loan only as construction progresses. We are looking to have a permanent occupant of that building and should we sell the building prior to 2 years after completion, those that have a financial interest in it (City, Biltmore Farms and AdvantageWest) will participate in any profits that may be realized. If after 2 years after completion the building is not sold, then Biltmore Farms buys out the City's interest and we have a guarantee by Biltmore Farms in the form of a letter of credit. Some benefits include a potential for increased jobs in the area. They anticipate by the completion of the flex space building itself to have approximately 35-50 new local hire jobs, paying as much as $12. This building is just the first segment of the Broadlands Technical Park, and as the entire project is built-out, we are looking at approximately 500 jobs. We anticipate an increase of approximately $3 million in property taxes and as the build-out proceeds, it is anticipated as much as $23 million worth of assessed valuation on the build-out producing approximately $131,000 per year at our present tax rates. This project is a nucleus for further growth. In our past experience with Biltmore Farms, they have gone through voluntary annexations and to date approximately 125 homes have been built with over $37 million in assessed valuation.

Councilman Skalski asked which financing will cost the taxpayers the least amount of money. Mr. Schaefer said that on the absolute straight rates, traditionally the General Obligation ("GO") bonds. However, when you look at the Series 1997C, we are looking at some flexibility in financing to be able to, with the Broadlands building, buy out of that whenever the opportunity presents itself at no penalty to us. That is not traditionally possible under a GO issue. In this kind of case, our proposed Certificates of Participation (COPs) financing that we have is probably the least expensive. It provides us with that flexibility and additionally, there are associated costs of issue on a GO issue that are not found in the COPs, i.e., conducting the public referendum. Additionally, we have some immediate needs on our buildings that should a public referendum fail, then we have no options. The COP's issue allows us to go forward in a very financially sound manner.

Councilman Skalski felt that General Revenue bonds in general would be cheaper. Mr. Schaefer said that there is absolutely no way to finance this under a revenue issue. He said there are no significant revenues associated with this to pledge.

Councilman Skalski talked about the Fiscal Year 1996 budget and what the City is obligated to now. Using the Fiscal Year 1996 budget book as a guide, he said the City has a $300 million infrastructure need that needs to be paid for before we begin to talk about economic development. He said that next year, MSD will have to finance a $24 million bond to begin to deal with that infrastructure need. With projects like this, the City does not need to become a bank. He noted that in the budget book, the outlook states that "Asheville's tax base continues to grow at a sluggish pace. That fact combined with the significant revenues controlled by the State which have little or no growth and Federal and State funding sources which in fact may not be available at all, are of great concern. Innovative management will work to provide City services more effectively at less cost." He felt that we are going to have to struggle with what we have on the table right now, let alone take on more. He said that in Fiscal Year 1996/97 reengineering proposals totaled $290,000 and we are proposing to do the same the next year. These savings will help, but they will not balance the budget. To balance the budget this year we had to take $905,000 out of our Fund Balance which takes it down to 16% of our total budget. In a typical North Carolina city Asheville's size, they have an average of 24% of their money kept in Fund Balance. He said we are running one third below the average.

Councilman Skalski inquired about the statement in the budget book that reads the General Capital Reserve Fund is balanced with a $3.4 million from the General Fund. He noted that it states that "the Municipal Building which houses the Police Department and Fire Administration and Station #1 is funded and we will begin complete renovations to the building at an estimated cost of $14 million. He asked why is the City borrowing another $14 million if the project is already funded. Mr. Schaefer said that in the Capital Improvements Plan the project is financed over 20 years and the first year's debt service is included.

Councilman Skalski said that in our Street & Sidewalk Fund, there is a total appropriation of $700,000 from the General Fund and it costs approximately $200,000 to do one mile of sidewalks. If a project comes up that has to be done, where will we get the money? He said that we are putting into Parking Services from the General Fund another $80,000 and that does not include the lease payments that we make on the garages.

He noted that every year we get $2 million in Powell Bill funds from the State to maintain our streets and sidewalks. We have had to supplement $1.7 million out of the General Fund for the Street and Sidewalk Reserve. To put things in perspective, he said that we are having to pay back $280,000 on the Pack Place debt and $1.8 million on the Sidewalk Bonds. There goes the entire $2 million from our Powell Bill funds that were supposed to go for streets and sidewalks. We are basically having to take $2 million out of the General Fund to provide for our street maintenance. How can Asheville afford to get into the private banking business with those kind of obligations on our books.

Mayor Martin said that the $17 million bonds which we floated were necessary for this community. It was perfectly legal and proper for Asheville to use the money from the Powell Bill fund to repay those bonds. He said that over the past 10 years, citizens have said that we can't continue to send our young people outside of Western North Carolina to seek employment. This has a potential of bringing 600-700 jobs to our community. We have found an innovative way to be of some assistance. We can sit and do nothing or we can try to attract the kind of industry that we want to have in our community.

City Manager Westbrook said that the economic outlook hasn't changed in a number of years. He said that we have to and do live within a balanced budget every year, but that doesn't mean we only concentrate on one thing. If we don't concentrate on everything we need to do to bring out a broad balanced, well diversified city, then we will lose. One thing that we have to do is work on economic development. Even though the funds may be slowing down from the Federal government, the City cannot slow down - we are in competition with other cities around the region for good solid business growth. This is an innovative way to provide economic development as well as the general municipal improvements we need to make to our buildings. In the budget regarding the Municipal Building, we showed a revenue stream coming from general City revenues sufficient to pay the debt service to be able to finance the reconstruction and renovation of that building starting this year. He noted that one of the goals arrived at during the Council retreat last year was encouraging City-wide economic development and improving the business climate. This is following through with that goal. He explained that Powell Bill funds from the State is actually money that comes from the State gasoline tax. All of that money goes back into streets, whether it is used by Public Works in our street crews or in direct repairs to the street. Since we have a greater need, last year we put in additional money for streets and sidewalks above and beyond whatever else we could do. We need to do that much and more every year.

City Manager Westbrook noted that the partners in the Broadlands project, in addition to the City and Biltmore Farms, are AdvantageWest, Carolina Power & Light Company, BellSouth and Buncombe County.

Mr. Aaron Zaretsky, on behalf of the GAPMF, thanked City Council for their cooperation and clarified that the bonds for the Grove Arcade Public Market do not in any way benefit the private developer. One hundred percent of those bonds go toward the non-profit creation of the Grove Arcade Public Market. However, if those bonds are not paid back, the City not only gets the $2.25 million in improvements on the building, but also the $10-15 million in private development on the building. The project will be generating jobs, generating opportunities for people and generating new taxes.

Mr. Chris Peterson, taxpayer and former member of City Council, was totally opposed to "giving sweetheart deals to millionaire business people." He felt Biltmore Farms does not need $2.6 million, neither does the developer from Atlanta that plans to develop the Grove Arcade. He felt that Council will have to raise taxes if it adds an additional $27 million onto the deficit. He felt this is a bad example for future Councils and Asheville government should not be getting into the banking business, especially with wealthy developers.

Mr. Jack Cecil, representing Biltmore Farms, said that they are pleased to be participating with the City in this economic development initiative. They see it as a way the City can grow the economic tax base of the City to the extent that they are willing to subordinate their land up-front to make this project go forward. Also in cooperation with AdvantageWest, they are willing to take the City out of any commitment of the $2.5 million if the building is not leased or is not sold within the 24 month period of time after the initial construction. He said that Biltmore Farms will also be contributing 4-5 acres of land to help jump-start the Knowledge Center which also is a partnership of public entities, non-profits and private development.

Upon inquiry of Councilman Skalski, Mr. Cecil said his definition of economic development is "through the expansion and retention of existing businesses within the City limits or the recruitment of new industries and businesses which will bring better higher paying jobs in town." The Knowledge Center will try to recruit smaller companies who pay higher wages so that we can facilitate the job base in order to have something for our future generations. It is also coupled with community development and residential development that we have done in Biltmore Park.

Councilman Skalski said that the top 20 cities in the country say that economic development is technology through job training. The best economic development policies in the country are totally tied to accountability. The company does not get either tax rebates, tax credits or stipends of any kind until they actually show that they have created the jobs. The Biltmore Farms proposal has no such mechanism. Asheville should be putting money into job training at the junior and senior high school levels for skilled trades and working with companies that actually have on-site jobs. This is more like a real-estate venture rather than economic development.

Mr. Dale Carroll, representing AdvantageWest, reiterated that this is not a recent initiative. This goes back to a study by Arthur Anderson with their expertise throughout this country and other parts of the world looking at how we can diversify the economy in Western North Carolina. We have been significantly dependent on traditional manufacturing wages. We are going to have to move away from that if we are going to make progress. Information technology companies that are going to be targeted to come into this technology park are the kinds of businesses that will put minimal strain on Asheville's infrastructure, will pay excellent wages, will provide good benefits and will be the type of corporate citizens that we would all be proud to have in the region and in Asheville. He feels that this is a unique opportunity to find an innovative solution to moving the economy forward.

Upon inquiry of Councilman Hay on why this project cannot go forward with private financing, Mr. Carroll said that you have to have the momentum to get a project like this started. The high tech flex space involves a certain amount of risk so with a partnership that includes the City, the regional commission AdvantageWest, and Biltmore Farms Inc. we were able to go into this together in a way that does not unreasonably burden any one of our three organizations. Without someone stepping up and making that high tech flex space available, we don't have any product to show the kinds of high growth companies that come in and maybe give you only hours to make your best proposal. With that in mind, we all have to be a part of stepping up and making an investment so we have a product to make available to the clients and consultants.

Upon inquiry of Councilman Skalski about how an empty building can create jobs, Mr. Carroll explained that if you reduce the amount of lead time for a fast growing company to get into production or operation, you have a competitive advantage.

Councilman Skalski felt you need to have skilled people first. He relayed a story about a company in Weaverville that wanted to employ an additional 100 skilled welders, but since they couldn't get the skilled workers, they couldn't expand.

Ms. Susan Andrew spoke in support of public/private partnership and economic development, however, she did not want the City to use public funds to help a wealthy developer. She felt they should sell some of their assets for this project and leave the public money to the public. She suggested this be put on the ballot for a public vote.

Ms. Leah Karpen, Charlotte Street resident, questioned why can't the Broadlands Technical Park get bank financing. There is no guarantee that there will be tenants or people to work in those places. She understands that the City's buildings need to be repaired, but the City has other needs and desires which were brought out in the Vision process, like greenways, public parks and things that people can use.

Mr. Richard Green, South Asheville resident and small developer, was concerned that the City could be setting a bad precedent in giving away $300,000 for infrastructure for this new project as well as a low interest loan. He asked what the City's policy is going to be on this in the future. He said he's in the process of building a project in the County and when the project is completed he would be very much in favor of going for voluntary annexation in order to get his share of the money available to developers in South Asheville.

Mayor Martin said that this is a well constructed business deal which will prove long term benefits to the City. He suggested Mr. Green talk to the City Manager and Finance Director about entering into a public/private partnership if he's interested in that.

City Attorney Oast explained that the $300,000 is for infrastructure and is not a grant. That type of economic development is specifically authorized by the General Statutes of North Carolina.

Upon inquiry of Ms. Terri Meinhold, dentist in Arden, Mayor Martin said that she could obtain a copy of the map of consideration regarding annexation from the City Manager's Office when that map is made available since it has not come before Council for action.

Mayor Martin closed the public hearing at 6:16 p.m.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-194. This motion was seconded by Councilman Worley.

Councilman Skalski made a substitute motion to vote on the private developments separately and put it to a vote of the people. This motion died for a lack of a second.

Councilman Skalski said that he was in favor of allocating the money for the renovation of the Municipal Building, Water Maintenance Building, City Building roof and the refinancing of the Series 1991 COP's, noting that he has consistently asked this Council to approach the State legislature for money to be able to pay for our roads and infrastructure. However, he felt strongly that the City should not allocate money for the renovation of the first floor of the Grove Arcade as a public market nor for the construction of a high tech/flex building at Broadlands Technical Park. Therefore, he will have to vote against the entire resolution since the projects cannot be separated out. He saw no specific proposal or business plan to show how, in fact, we would be getting all the high paying jobs. Economic development is jobs and most cities that have serious economic development proposals base all their tax incentives or grant money on actual on-the-job performance.

It makes those companies accountable to the taxpayers. If all we do is go out and do real estate development and annex, we will only raise taxes. A study done by the N.C. League of Municipalities last year showed that every time a city goes over 50,000 in population, the taxes increase by 30-40% almost across the board. He felt that this idea of providing real estate development for some imaginary jobs that may or may not happen is not going to lower our taxes. He felt that City Council was going to have to raise taxes.

City Manager Westbrook explained that the City cannot operate legally with a deficit situation. There are no plans, from his standpoint, of raising taxes anytime in the future for these financings or any others. We will have to live within the means of our current tax structure.

Councilman Worley said that if you serve on Council you should have a vision for the future. You need to look down the road at the City's needs and look for ways to fulfill those needs. A theme consistently heard is that we need jobs in our community, economic development, and ways to keep our young people at home. Economic development of this type increases our tax base, makes us a more viable City, and allows us to do what we have done for the last nine years in maintaining our tax rate without any increase. Concerns he has heard are that we don't want to "spend" taxpayers money for a totally public and a public/private partnership. He stressed that when you look at the way they are being financed and the security that we have, it's a can't lose situation. We are not "spending" a dime of the taxpayers money on the Broadlands Technology Park. We are making that money available but if you look at the security that we have, we are absolutely guaranteed to get that money back and to not pay one dime in debt service and not have to raise taxes for that project. The same is true of the Grove Arcade. He believed that if you have a vision of what we need in the City, this is the thing to do.

Mayor Martin asked for a voice vote on the motion to adopt Resolution No. 97-194. This motion carried on a 5-1 vote, with Councilman Skalski voting "no".

RESOLUTION BOOK NO. 24 - PAGE 251

C. PUBLIC HEARING TO REZONE TWO LOTS ON WESTWOOD PLACE AND ARGYLE LANE FROM RM-8 TO CBD AND ONE LOT FROM RM-8 AND CB II TO CBD

ORDINANCE NO. 2418 - ORDINANCE TO REZONE TWO LOTS ON WESTWOOD PLACE AND ARGYLE LANE FROM RM-8 TO CBD AND ONE LOT FROM RM-8 AND CB II TO CBD

Mayor Martin opened the public hearing at 6:36 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Due to a conflict of interest, Councilman Sellers asked to be excused from voting. Therefore, Vice-Mayor Field moved to excuse Councilman Sellers from voting due to a conflict of interest. This motion was seconded by Councilman Cloninger and carried unanimously.

Mr. Carl Ownbey, Urban Planner, said that this Ordinance seeks the rezoning of two lots on Westwood Place and Argyle Lane (PIN Nos. 9638.15-54-4644 and 5708) from RM-8 to CBD and one lot (PIN No. 9638.15-54-5671) from RM-8 and CB II to CBD.

The subject properties are located on Westwood Place and Argyle Lane in West Asheville. Two of the parcels of land have existing commercial structures that are currently vacant and are zoned residential. The third lot has an existing commercial structure and is split zoned between residential and commercial. The 2010 Plan shows the area to be low density residential with some institutional and commercial development along Haywood Road. This rezoning will allow the existing structures to be used as commercial.

The zoning boundary line for south portion of lot 9638.15-54-5708 which is requested to be rezoned to CBD is to begin at the northeast corner of lot 9638.15-54-3772 and in a straight line direction approximately 80 feet to the northwest corner of lot 9638.15-54-6732.

The Planning staff reviewed the rezoning request and recommended approval of PIN Nos. 9638.15-54-4644 and 5708 from RM-8 to CBD and 9638.15-54-5671 from RM-8 and CB II to CBD. At their October 1, 1997, the Planning & Zoning Commission voted unanimously to approve the rezoning request.

Mayor Martin closed the public hearing at 6:38 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2418 This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 315

D. PUBLIC HEARING TO REZONE A PORTION OF 1897 HENDERSONVILLE ROAD FROM RM-6 TO OFFICE BUSINESS, RS-2 AND RS-4

ORDINANCE NO. 2419 - ORDINANCE TO REZONE A PORTION OF 1897 HENDERSONVILLE ROAD FROM RM-6 TO OFFICE BUSINESS, RS-2 AND RS-4

Mayor Martin opened the public hearing at 6:39 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the petitioner seeks to rezone a portion of 1897 Hendersonville Road (PIN No. 9655-09-15-0034) lot from RM-6 (Residential Multi-Family, six units per acre) to OB (Office Business), RS-2 (Residential Single-Family, two units per acre), and RS-4 (Residential Single-Family, four units per acre).

This property is located west of Hendersonville Road. It is bordered on the west by Residential uses in a RS-4 zoning district, on the south by residential uses in a RS-2 zoning district, on the north by vacant land in a RS-6 zoning District, and on the east by commercial uses along Hendersonville Road. The petitioner is asking the rezoning to extend the existing OB zone westward towards the residential uses along Deer Run Road. In so doing, the petitioner has also asked that the residential zoning (RS-4) of the areas along Deer Run Road be extended eastward into the subject property by 75 feet, thus forming a buffer of 75 feet plus the setbacks required by future development between the future uses on the OB section of the land, and the residential uses to the west. The same thing has been done concerning the residential uses to the south of the proposed rezoning to create buffer for that area.

The 2010 plan shows this area as a transitional use area, and OB is considered a transition district between the residential areas, and the Highway Business zoning along Hendersonville Road.

Staff has received no comments opposed to this rezoning, and has received support from neighbors in the residential area to the west.

The City Planning and Development staff recommends approval of the rezoning request.

At their meeting of October 1, 1997, the Planning and Zoning Commission recommended unanimously to approve the proposed rezoning.

Mr. Laura Eide spoke in favor of the rezoning. She said that since the Office Business District and the Office District are quite different, she suggested perhaps and Office I District and an Office II District be explored.

Mayor Martin closed the public hearing at 6:44 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Skalski moved for the adoption of Ordinance No. 2419. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 317

E. PUBLIC HEARING TO REZONE PROPERTY AT YORKSHIRE AND REED STREETS FROM RS-8 TO OFFICE

ORDINANCE NO. 2420 - ORDINANCE TO REZONE PROPERTY AT YORKSHIRE AND REED STREETS FROM RS-8 TO OFFICE

Mayor Martin opened the public hearing at 6:46 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger asked to be excused from voting since his law firm is doing real estate work regarding this transaction. Therefore, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Worley and carried unanimously.

Vice-Mayor Field asked to be excused from voting since the applicant is her employer. Therefore, Councilman Worley moved to excuse Vice-Mayor Field from voting due to a conflict of interest. This motion was seconded by Councilman Skalski and carried unanimously.

Mr. Bruce Black, Urban Planner, said that the petitioner seeks to rezone the property at Yorkshire and Reed Streets (PIN Nos. 9647-12-85-1834,1964, a part of 5761) from RS-8 (Residential- eight units per acre) to O (Office).

This property is one block east of Hendersonville Road on Yorkshire Street, southeast of the intersection of Yorkshire and Reed Streets. It is currently vacant land. It is mildly steep near the Yorkshire Road and Reed Street intersection, and very steep as it moves southeasterly away from the intersection. The initial request by the applicant was for the rezoning of 2.8 acres. After working with the staff, the applicant has agreed to seek the rezoning as suggested by the Planning staff. This will place the front of the rezoned piece adjacent to an existing office zone, and will utilize existing city right-of-ways along the back of the property as buffers between the proposed office uses and the existing residential developments.

Staff has received no comments opposed to this rezoning, and has received three phone calls from a neighboring church supporting this rezoning.

The City Planning and Development staff recommends approval of the rezoning request.

At their meeting of October 1, 1997, the Planning and Zoning Commission recommended unanimously to approve the proposed rezoning.

Mayor Martin closed the public hearing at 6:49 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2420. This motion was seconded by Councilman Skalski and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 319

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 97-195 - RESOLUTION ESTABLISHING A HOLIDAY LIGHTING INCENTIVE PROGRAM

Mr. Mark Combs, Director of Public Works, asked for consideration of creating an incentive program for downtown businesses to mount holiday lights on their buildings.

Based upon the past success of holiday lighting in Biltmore Village by businesses in that area, last year staff and other interested persons promoted a similar program for Downtown businesses.

As an incentive to encourage businesses, the City is willing to provide "seed" money toward the purchase of the lights. This incentive will be a one time effort and businesses will be responsible for installing and maintaining the lights.

Also, with the impending renovation of Pritchard Park and the decrepit condition of the wiring, no holiday lighting is planned for that area. All of the Lexington Avenue trees will be wired and operated by businesses in that area for the first time.

It is hoped that the expansion of holiday lighting to buildings and streets in the Central Business District will assist in developing a public/private "partnership" that will increase retail potential, tourist interest, and overall community holiday spirit.

In view of Public Works efforts last year in stringing lights for longevity, it is estimated that approximately $5,000 in budgeted funds could be utilized for the purchase of lights for businesses who are willing to install them on their buildings.

Staff recommends that a program be established earmarking $5,000 for the purchase of holiday lights for downtown businesses. Staff will formulate a short, detailed policy to encourage maximum participation.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-195. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 258

B. RESOLUTION NO. 97-196 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THORPE CONSTRUCTION COMPANY TO RECONSTRUCT THE CHEROKEE ROAD RETAINING WALL

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is consideration of the selection of a contractor to reconstruct a retaining wall along a portion of Cherokee Road.

The City, through the Public Works Department, solicited bids for this project. Four bid proposals were received. The bidders were qualified and listed below:

Company	MB Part	Drug Free	Bond	Bid
Thorpe Construction Co.	8.02%	Yes	Yes	$231,685
Buncombe Construction	2.1%	No	Yes	$247,100
Taylor and Murphy	0%	No	Yes	$280,000
R.E. Burns and Sons, Inc.	9.4%	No	Yes	$320,000

City staff has negotiated with the lowest bidder, Thorpe Construction Company, in efforts to lower the costs of construction. Alternative designs to reconstruct the wall and lower costs were not found to be acceptable by the Public Works Department. Therefore, upfront costs have not been identified to lower the costs. Should specific conditions be encountered during construction, construction requirements may be modified to bring down costs; however, at this time, the contract should remain as originally bid.

Ms. Molloy said that the design by the Public Works Department does include putting back on a stone veneer because we want to receive a Certificate of Appropriateness. The only way we have found we might lower the cost is that during construction if we find a portion of the wall that does not need to be repaired, that part will not be repaired. However, at this time we cannot verify that can be done. If that is the case, we would not expend all the funds approved today.

City Manager Westbrook said that the $240,000 is the worst case scenario. He felt the road is important for public access up the mountain, in particular from a public safety standpoint.

Councilman Cloninger said that he hoped that staff will continue to look at ways to save money on the project. When he looked at the side of the wall, he noticed it was covered with ivy and will no doubt will be again and as far as spending a substantial amount of additional money just to put a stone facade on the wall, he was just not sure it's justified. He is very supportive of historic property and historic projects, but was a little skeptical in this case. He did agree that the wall needed to be repaired.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-196. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 259

C. ORDINANCE NO. 2421 - BUDGET AMENDMENT TO RECONSTRUCT THE CHEROKEE ROAD RETAINING WALL

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this budget amendment, in the amount of $240,000, is to reconstruct the Cherokee Road retaining wall.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Skalski moved for the adoption of Ordinance No. 2421. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 321

D. RESOLUTION NO. 97-197 - RESOLUTION AUTHORIZING ESTOPPEL CERTIFICATE FOR AIRPORT PROPERTY

City Attorney Bob Oast said that the City owns certain real property near the Airport on which is situated a Holiday Inn.

Davidson Hotel Partners, (herein "DHP"), the limited partnership that owns and operates the Airport Holiday Inn, has requested that the City execute an estoppel letter indicating that DHP is not in default on the lease. This is necessary in order for DHP to use its interest in the lease as security for new financing that it is obtaining.

A similar estoppel letter was executed by the City in 1994.

Staff recommends adoption of the resolution.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 97-197. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 260

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 14, 1997

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on October 14, 1997. This motion was seconded by Vice-Mayor Field and carried unanimously.

B. TRAFFIC STUDIES UNDER THE UNIFIED DEVELOPMENT ORDINANCE

Vice-Mayor Field said that the new Unified Development Ordinance ("UDO") requires certain projects obtain a traffic study. There are no certified traffic engineers in Asheville and the two that are available from the state have notified us that they are so busy they can't perform a traffic study for the next 8-10 weeks. Since we are at the beginning of this process, she suggested that in order not to hold projects up, that that they be allowed to provide the City with a traffic study a certain number of weeks down the road. The whole idea of the UDO is to facilitate and make it easier to do development - not to slow it down. She suggested staff report back to City Council with some recommendations very quickly on how to address this concern. She said another option would be to allow architects to perform those studies, since they technically have engineering degrees as well as architectural degrees. She felt that with a certain amount of training from City staff, that local architects might be allowed to be able to do some of this work.

It was the consensus of City Council to have staff look at the suggestions outlined by Vice-Mayor Field.

C. COVEN OLDENWILDE

Ms. Christy Howard, speaking on behalf of Dixie Deerman and Steve Rasmussen of Coven Oldenwilde in Asheville, said that John Miall was to have sent all members of Council a memo indicating that Dixie Deerman and Steve Rasmussen of Coven Oldenwilde have signed a hold harmless agreement that waives the City of Asheville of all liability for the 3rd Annual Witch Ritual. The memo should also read that they have secured $3 million of event insurance for any liability. She had a letter in hand stating that City staff will allow them to do the lighting as they see fit. The City does, however, recommend that the lighting be left on but they will show Coven Oldenwilde how to control the lighting, if they choose to change it.

City Attorney Oast said that City staff has not had time to prepare the memo to Council because the documents were not executed until Noon today. Following Council's last meeting, Council's concern was with the City agreeing to allow that the lights to be turned off - that it might expose the City to an unreasonable degree of risk. We have worked with Coven Oldenwilde and they have secured a policy of insurance that the City believes is sufficient to cover the risk associated with what they wanted to do. We have also obtained an indemnity agreement from them. We still suggest that the lights remain on, but if they don't, the City is covered. This requires no action from Council.

D. CLAIMS

The following claims were received by the City of Asheville during the week of October 10-23, 1997: Retaw (Water), Carlotta Roberts (Sanitation), Charlyn Acres (Water), James Moore (Traffic Engineering), Chris Beddingfield (Water), Michael McClanahan (Water), Joan Nicholson (Water) and Laura Petriz (Police).

These claims have been referred to Asheville Claims Corporation for investigation.

E. CLOSED SESSION

At 7:12 p.m., Councilman Worley moved to go into closed session (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the attorney and the City - statutory authority is G.S. 143-318.11 (a) (3); (2) to investigate a grievance by a public employee - statutory authority is G.S. 143-318.11 (a) (6); and (3) to discuss matters relative to the location or expansion or other businesses in the area served by the City of Asheville - statutory authority is G.S. 143-318.11 (a) (4). This motion was seconded by Vice-Mayor Field and carried unanimously.

At 7:30 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 7:45 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Wednesday - November 5, 1997 - 3:00 p.m.

Worksession

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Speed Limit Changes

Summary: The consideration of an ordinance to establish 15 mph on Lynmar Avenue; establish 20 mph on Swangar Road, Woodvale Avenue, Melrose Avenue, Manetta Road, Harrison Street, Starmount Drive, Covington Street, Sondley Drive, Sondley Drive North, Sondley Woods Place and South Sondley Drive; establish 25 mph on Sondley Parkway; reduce speed to 25 mph on Beaucatcher Road and Annadale Avenue; and reduce speed on King Street to 20 mph.

Mr. Doug Birch, representative of the Sondley Homeowners Association, asked that only one sign be posted for 25 mph at the entrance of the subdivision on Sondley Parkway. He said that they do not want different speeds posted on the different streets in the subdivision. Their primary request is that the speed be the same throughout the subdivision and their second request is that the speed be 25 mph.

Councilman Worley brought up the fact that each street must be posted with a speed limit for it to be enforced.

It was the consensus of City Council to remove the streets in the Sondley Subdivision from being considered at this time and instruct the Traffic Engineer to review the request.

Municipal Agreement for Bridge Inspections

Summary: The consideration of a municipal agreement with the N. C. Dept. of Transportation on a bi-annual basis for the re-inspection of bridges on the Municipal Street System.

Municipal Agreement for Maintenance of Street Lights along West Asheville/Riverlink Bridge

Summary: The consideration of an agreement with the N.C. Dept. of Transportation for the maintenance of nine street lights along Haywood Road at the West Asheville/Riverlink Bridge.

Budget Amendment re: Traffic Engineering Budget Transfer

Summary: The consideration of transferring the budget in the amount of $115,909 for the Traffic Engineer from Public Works to Engineering Department.

Agreement with Norfolk Southern Railway re: West Annexation Area Sewer System Improvements Phase II

Summary: The consideration of a contract with Norfolk Southern Railway Corporation for the City of Asheville to install an 8-inch pipeline beneath the railroad in connection with the West Annexation Area Sanitary Sewer System Improvements Phase II Project.

Withdrawal of Dedication of Overlook Drive

Summary: The consideration of finding the right-of-way known as Overlook Drive off Springdale Avenue not part of an adopted street plan.

Parks & Recreation Director Authority to Sign Contract Agreements

Summary: The consideration of a resolution authorizing the Director of Parks & Recreation to enter into co-sponsorship agreements and class instruction agreements for providing recreation services.

Railroad Crossing Signal on Bruce Road

Summary: The consideration of entering into an agreement with the N.C. Dept. of Transportation for a railroad crossing signal on Bruce Road.

West Asheville Reservoir & Water System Improvements Contract

Summary: The consideration of awarding construction contract to Cooper Construction Company for the West Asheville Reservoir and Water System Improvements Contract.

Mountaineer Inn Neon Signs at 155 Tunnel Road - Landmark Signs

Summary: The consideration of designating the large metal parapet signs atop the Mountaineer Inn at 155 Tunnel Road as landmark signs.

Lease of Portion of old Water Maintenance Building to Asheville City Schools

Summary: The consideration of a resolution directing the City Clerk to provide notice to the public of the intent of the City of Asheville to lease a portion of the Old Water Maintenance Building to the Asheville City Schools.

Agreement with Chamber of Commerce for Outside Agency Funding

Summary: The consideration of authorizing the City Manager to execute a contract with the Chamber of Commerce to receive the outside agency funding of $100,000 for Fiscal Year 1997/98.

Amendments of Regional Water Authority Capital Project Ordinance (Fund 35)

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund) to reflect actual monetary commitments in that Fund.

Amendments of Regional Water Authority Capital Project Ordinance (Fund 29)

Summary: The consideration of a budget amendment to reprogram funds in the 29 Fund from the 19&23/West Buncombe Water Line and Pipeline Phase III to the Mills River Water Resources Project.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these item on the next formal City Council agenda.

CONTRACT FOR PROPERTY MANAGEMENT SERVICES FOR COMMUNICATIONS FACILITIES AND WIRELESS TELECOMMUNICATIONS CONSULTING SERVICES

Mr. Gerald Green, Urban Planner, said that in September, the City distributed two Requests for Proposals (RFP) soliciting assistance in the development of a comprehensive ordinance establishing standards for the placement of wireless telecommunications facilities in the City's jurisdiction and for the management of the city's property for the location of communications facilities. In response to the RFP's, proposals were received from only one firm for the two (2) identified tasks.

Regarding the wireless telecommunications consulting services, he outlined that the City's existing ordinance which regulates telecommunication towers does not address (1) stealth technology; (2) areas that may not be able to be served due to restrictions imposed; (3) review fees; and (4) anticipate new technology. There is a need for a new ordinance incorporating standards to address those issues. After the City solicited proposals for revising the current telecommunications ordinance, the RFP identified minimum qualifications for a consultant, those being (1) knowledgeable about telecommunications technology and (2) knowledge of local zoning issues. An evaluation committee composed of City staff reviewed the proposals and identified the proposals best meeting the criteria set forth in the RFP's. The evaluation committee is recommending that the City enter into contracts with Jenkins, Reed, Madison and Associates ("JRM") for the ordinance development.

The proposal submitted by JRM identifies the following tasks: (1) orientation meetings; (2) review and critique existing ordinance; (3) wireless training session (4) meet with wireless providers; (5) consultations with Planning staff and drafting proposed ordinance; (6) public participation workshop; and (7) present ordinance to City Council. The cost of the 148 hours of consulting services, travel expenses and related costs for telephone, copying and miscellaneous services is $21,790.

Development of a comprehensive wireless telecommunications ordinance which anticipates changes and new technology would put the City ahead of issues. The City would be better able to deal with issues related to telecommunications facilities, assuring that adequate service is provided while protecting those unique resources which make Asheville great.

Councilman Cloninger felt this comprehensive, cutting-edge ordinance will link Asheville to other cities for a regional approach to telecommunications towers.

Upon inquiry of Councilman Skalski, Mr. Green said that once the contract is approved, it would involve approximately 25 hours of Planning staff time.

It was the consensus of City Council to proceed with this contract and for City staff to continue to look for ways to reduce the cost.

Regarding the property management services for communications facilities, he said the City owns numerous properties which may be appropriate locations for communications facilities. The location of communications facilities on City property could generate revenue. Two obstacles to locating communications facilities on City property are (1) properties have not been evaluated for suitability; and (2) lack of staff to market and manage properties. The City has identified need for outside expertise to assist with this task. After the City solicited proposals from firms capable of undertaking this project, the RFP established certain minimum requirements, those being (1) experience in property management, including marketing of property; (2) experience in locating communications facilities; and (3) knowledge of communications facilities market and demand. An evaluation committee composed of City staff reviewed the proposal and recommended that the City enter into contracts with Jenkins, Reed, Madison and Associates ("JRM") for the property management services.

The scope of services to be provided by JRM includes: (1) audit and evaluation of City property to determine capacity; (2) marketing and advertising of City property wireless service providers; (3) intermodulation studies to determine electronic compatibility of tenants; (4) lease/license negotiation services to optimize revenues; (5) review of plans for facilities to assure aesthetic compatibility; (6) site construction coordination; (7) billing and collection services for all communications facilities; and (8) review of plans to assure compliance with FCC and FAA regulations. The management fee for services is 30% of total collected services. The term of the agreement is a five year initial term with a renewal term of three years.

The marketing and management of the City's property for the location of communications facilities has the potential to generate a substantial amount of revenue for the City.

Contract negotiations will be necessary, as there are some outstanding issues to be addressed in each of the contracts as presented by the proposer. These issues have been identified by the evaluation committee. The contract negotiations should address those issues identified by the evaluation committee and these issues should be resolved to the satisfaction of the City prior to signing of the contracts.

By use of a slide, he showed a five year projected revenue model of the VA Medical Center which showed a cumulative gross revenue of $221,612.

Mr. Green responded to questions from Councilman Hay regarding the management fee and what is involved in marketing.

Vice-Mayor Field suggested asking the consultants about their experiences with technology commissions, which are made up of citizens who advise the councils on technology.

Councilman Cloninger emphasized that the site management plan is not for the City to put towers on publicly owned property, but to maximize the use of stealth technology throughout the community. He stressed the City needs to regulate towers, not antennas that are approximately 10 feet tall. He explained that if we can use publicly-owned property, like existing building, water towers, etc., to put up antennas, then we can reduce the number of towers.

Councilman Cloninger pointed out that JRM is a minority owned business.

It was the consensus of City Council to proceed with this contract and for City staff to continue to look for ways to reduce the cost.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

COST OF SERVICES INCREASE FOR BASIC CABLE RATE

Assistant City Attorney Patsy Meldrum said that on March 1, 1997, InterMedia filed with the City of Asheville two FCC Forms, 1205 and 1240, both dated March 1, 1997, for the purpose of requesting an annual increase in its monthly rates and hourly service charges for its basic cable service tier. With the March 1, 1997, filing InterMedia proposed to increase the monthly rate for its basic cable service tier from $10.46 to $10.91, its expanded basic service tier from $13.55 to $14.09 and its hourly service charge from $19.58 to $36.72. By letter dated May 16, 1997, InterMedia filed FCC Form 1235 entitled "Abbreviated Cost of Service Filing for Cable Network". In its filing dated May 16, 1997, InterMedia proposed to increase its basic service rate by $1.00 per month and its expanded basic service rate by $3.00 per month, based on the cost of the rebuild of the cable system.

On June 10, 1997, the City Council adopted Resolution No. 97-90 which invoked additional time to review the requests of InterMedia, thereby giving the City until November 15, 1997, to review the requests. That resolution directed the City Manager to provide notice to InterMedia of that order extending the time for review of the requests. After receipt of that notice by InterMedia, InterMedia sent to the City Manager a letter dated July 30, 1997, stating that they were changing the monthly rate for the basic service back so that the $1.00 per month rate increase would not be implemented at that time.

The City of Asheville contracted with Rice, Williams Associates to provide certain consulting services for the cable television franchise of InterMedia. Rice, Williams Associates reviewed the proposed rate increases and furnished the City of Asheville with a report analyzing those proposals and recommending denial of the proposed rate increases. She briefly reviewed their report.

The City Manager and the City Attorney's Office recommend approval of the resolution.

Intermedia has requested that the City of Asheville reconsider denying the request and allow them to supplement their filing and issue an accounting order.

Ms. Meldrum responded to questions from Councilman Hay regarding the rebuild of the system.

Upon inquiry of Councilman Cloninger, Ms. Meldrum said that the City only has the ability to review, but the review is limited by the formula developed by the FCC. As long as they comply with the formulas then we have no other choice but to not act on the rates and let them go into effect or take some affirmative action.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

STEPHENS-LEE CONSTRUCTION CONTRACT

Mr. Lyle Willis, Contract Administrator, said that this resolution is consideration of entering into a construction contract to renovate the Stephens-Lee Center.

In October, 1997, City Staff solicited bids from eleven contractors to renovate the Stephens-Lee Center. Sealed bids as both single prime and separate prime contractors were received on September

18, 1997, at 3:00 p.m. based on design plans and specifications by Mathews and Glazer Architects. An estimate for construction cost was prepared by Mathews and Glazer Architects in the amount of $ 1,300,000.00 excluding site work and landscaping. The bid process resulted in the following three single prime bids:

Buncombe Construction Co., Inc.	$ 1,545,800.00
H&M Constructors, Inc.	$ 1,594,577.00
Donald C. Neal Construction Co., Inc.	$ 1,526,787.00

City staff has researched references given by the lowest bidder and concluded that they are a competent General Contractor. Sufficient funds are appropriated in the budget for this project.

The Parks and Recreation Department requests City Council to direct the City Manager to enter into a contract for $ 1,526,787.00 dollars with Donald C. Neal Construction Co., Inc.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

SCHEDULE OF CITY COUNCIL MEETINGS FOR DECEMBER 1997

It was the consensus of City Council to modify the City Council meeting schedule for December 1997 as follows: December 2, 1997 - formal; December 9, 1997 - worksession; December 16, 1997 - formal; December 23, 1997 - cancel meeting; and December 30, 1997 - cancel meeting.

Mayor Martin asked that the record show that City Council has instructed the City Manager to place this item on the next formal City Council agenda.

BOARDS & COMMISSIONS

As an official duty of the Vice-Mayor to oversee the process of board and commission appointments and for her and the committee members to make recommendations to the entire Council, she recommended that if someone has served one term, is interested in reappointment and has met the attendance requirements, that that person be reappointed to serve a second term.

Subject to the City Clerk verifying the criteria above, the Committee recommended the following: reappoint Rose Rose and Allen Roderick as Alternates to the Board of Adjustment; reappoint Carol King, Beth Lazer and Tim Fierle to the Asheville Downtown Commission; reappoint Ron Lambe and Althea Goode to the Transit Authority; and reappoint Bill Schaefer and Doug Spell to Victoria of Asheville.

Vice-Mayor Field said that the City Business & Development Commission has asked that Carol King be appointed as the Asheville Downtown Commission representative. The representatives for AdvantageWest, Asheville Downtown Association and Asheville Merchants Association have not been recommended at this time.

It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork for appointments as outlined above by Vice-Mayor Field.

It was the consensus of City Council to instruct the City Clerk to prepare the property paperwork to appoint Councilman Charles R. Worley to fill the vacancy on the ABC Board; appoint Vice-Mayor Barbara Field to fill the vacancy on the Metropolitan Sewerage District Board; appoint Karen Tessier to fill the vacancy on the Asheville Downtown Commission; appoint Peter Gentling and Jerry Bailey to the Tree Commission; and appoint Lionel Williams to the A-B Community Relations Council.

It was the consensus of City Council to wait for a recommendation from Wachovia Bank to fill the vacancy on the Firemen's Relief Fund.

It was the consensus of City Council to wait until the new Budget Director was hired to fill the vacancy on the Victoria of Asheville Board.

City Council instructed the City Clerk to arrange an interview with Willie McDaniel for a vacancy on the Transit Authority.

RESOLUTION NO. 97-198 - RESOLUTION AUTHORIZING THE EXCHANGE OF CITY OWNED REAL PROPERTY LOCATED ON BARTLETT STREET FOR REAL PROPERTY LOCATED NEAR BARTLETT STREET (PART OF THE MURRAY HILL PARK PROPERTY) OWNED BY OVERLOOK APARTMENTS LIMITED PARTNERSHIP

City Attorney Oast explained that the City of Asheville owns real property on Bartlett Street and Overlook Apartments Limited Partnership ("Developer") has contracted with the City to purchase from the City real property located near Bartlett Street consisting of 2.9 acres, more or less. The properties are adjacent to one another, and the City wishes to develop a park on part of the property owned by the Developer, and the Developer wishes to use part of the City's property in connection with its proposed housing development. The City and Developer have determined that it is in their mutual best interest for the City to exchange part of its property for part of the Developer's property, and have further determined that said exchange represents full and fair consideration to both parties. This resolution will authorize the Mayor to enter into Exchange Agreement and authorize the City Clerk to cause the notice to be published in the paper of Council's intent to authorize the exchange.

Mr. Ed Vess, Field Services Coordinator, illustrated and explained the transaction.

Councilman Worley moved to waive the rules and take formal action at this meeting on this matter. This motion was seconded by Vice-Mayor Field and carried unanimously.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilman Worley moved to adopt Resolution No. 97-198. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 261

ADJOURNMENT:

Mayor Martin adjourned the meeting at 4:28 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - November 11, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

II. CONSENT:

A. RESOLUTION NO. 97-199 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR BRIDGE INSPECTIONS

Summary: The consideration of a municipal agreement with the N. C. Dept. of Transportation (NC DOT) on a bi-annual basis for the re-inspection of bridges on the Municipal Street System.

In 1983 the Federal Highway Administration developed the Federal Off-System Bridge Replacement Program. Since the establishment of the program, the City has replaced 16 bridges through the program. The program is funded 80% through federal funds and 20% through City funds and administered by NC DOT. To remain eligible for replacement funds and avoid penalties, it is required that all public bridges are inspected every two years. The NC DOT offers three options for meeting the bi-annual inspection requirements - (1) inspection with City forces; (2) City to hire a consultant to do the inspections; and (3) allow the NC DOT to do the inspections through a qualified private engineering firm.

Since 1983, the City has elected to execute an agreement with NC DOT to accomplish the required inspection through their personnel or engineering consultants. This process allows high numbers of bridges to be inspected under one contract or operation, and therefore, results in minimum inspection cost per bridge. NC DOT representatives anticipate the inspection costs to be $1800 per bridge for the upcoming inspection. The City has 24 bridges in need of inspection this year which would bring the cost to $43,200. The City's share of 20% is $8640. Funds for the City's share are budgeted in the Capital Projects Fund through the Bridge Replacement Program.

The Public Works Department staff recommends adoption of the resolution authorizing the Mayor to execute a municipal agreement with NC DOT for inspection of bridges on the Municipal Street System.

RESOLUTION BOOK NO. 24 - PAGE 262

B. RESOLUTION NO. 97-200 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH NORFOLK SOUTHERN RAILWAY FOR THE INSTALLATION OF AN 8-INCH PIPELINE BENEATH THE RAILROAD IN CONNECTION WITH THE WEST ANNEXATION AREA SANITARY SEWER IMPROVEMENTS PHASE II PROJECT

Summary: The consideration of a contract with Norfolk Southern Railway Corporation for the City of Asheville to install an 8-inch pipeline beneath the railroad in connection with the West Annexation Area Sanitary Sewer System Improvements Phase II Project.

This contract will require the City of Asheville to install, maintain, operate and remove an eight inch sanitary sewer pipeline in an eighteen inch casing pipe, under and across the right of way or property and any tracks of Railway, at Milepost T-5 minus 1,575 feet, for the construction of the West Annexation Area Sanitary Sewer System Improvements Phase II project and to pay the appropriate fees associated with the encroachment.

The Engineering Department developed construction plans for the West Annexation Area Sanitary Sewer System Improvements and this right of way is included to complete the construction of the sewer pipeline. The cost of the encroachment is $1,600 and the cost for insurance requirements is $350.00.

Staff recommends that City Council accept a resolution authorizing the City Manager to execute a contract with Norfolk Southern Railway Company for the right of way for the West Annexation Area Sanitary Sewer System Improvements Phase II and pay appropriate fees associated with the encroachment.

RESOLUTION BOOK NO. 24 - PAGE 263

C. RESOLUTION NO. 97-201 - RESOLUTION FINDING THAT THE DEDICATION DESCRIBED IN THE PROPOSED DECLARATION OF WITHDRAWAL FOR OVERLOOK DRIVE IS NOT PART OF THE STREET PLAN

Summary: The consideration of finding the right-of-way known as Overlook Drive off Springdale Avenue not part of an adopted street plan.

According to North Carolina General Statutes sec. 136-96, a right-of-way not utilized within 15 years of dedication can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Mr. John D. Wilson, owner of PIN 9658-18-21-8701 and 9658-18-22-22-6371 has requested that the City of Asheville verify if the specific right-of-way is or is not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating the right-of-way to be abandoned is or is not part of a proposed street plan. The unused road right-of-way off Springdale Avenue, named Overlook Drive, as shown on Plat Book 2, page 124, is not part of any such plan and is not a City maintained right-of-way; therefore, the City has determined that all necessary requirements of the statute will have been met by adopting the resolution.

The Public Works Department staff finds that the right-of-way known as Overlook Drive, from the intersection with the southwest corner of PIN No. 9658-18-21-6806 and southeast corner of PIN No. 9658-18-22-6371, in its entirety, as shown on Plat Book 2, Page 124 is not part of an adopted street plan and recommends the adoption of this resolution.

RESOLUTION BOOK NO. 24 - PAGE 264

D. RESOLUTION NO. 97-202 - RESOLUTON AUTHORIZING THE PARKS & RECREATION DIRECTOR TO EXECUTE CERTAIN CO-SPONSORSHIP AND CLASS INSTRUCTIONAL AGREEMENTS

Summary: The consideration of a resolution authorizing the Director of Park & Recreation to enter into co-sponsorship agreements and class instruction agreements for providing recreation services.

The Parks and Recreation Department is currently involved with over 100 co-sponsored groups that jointly provide recreation service with the department. In addition, instructor agreements are signed to provide fee-based recreation class instruction in a variety of areas. Currently, the City Manager is the only person authorized to sign these agreements. Through recommendation from the City Manager, the Parks and Recreation Department is asking City Council's approval for this responsibility to be given to the Director of Parks and Recreation.

The Parks and Recreation Department requests City Council approval for the Director of Parks and Recreation to enter into co-sponsorship and class instructor agreements.

RESOLUTION BOOK NO. 24 - PAGE 265

E. RESOLUTION NO. 97-203 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR A RAILROAD CROSSING SIGNAL AT BRUCE ROAD

Summary: The consideration of entering into an agreement with the N.C. Dept. of Transportation for a railroad crossing signal on Bruce Road.

Each year, the State of North Carolina examines all of the public-highway grade crossings in the State and ranks them according to their need for improvement. Based on an engineering investigation, the intersection of Bruce Road and Norfolk Southern Railway tracks qualifies for grade signalization improvements.

Under this program, the Federal Government will pay 90 percent of the eligible project cost. The City will be required to pay all costs not covered by Federal funds. Also, the City will be responsible for one-half of the annual maintenance cost of the signal installation.

The estimated cost for the Bruce Road Project is $90,000. The City's share of this cost is $9,000 for design and installation, and $1,058.50 annually for maintenance.

Based on current funding, this project will be scheduled for construction during the Federal fiscal year which begins October 1, 1997.

The Engineering Department recommends adoption of this resolution.

RESOLUTION BOOK NO. 24 - PAGE 266

F. RESOLUTION NO. 97-204 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR MAINTENANCE OF STREET LIGHTS ALONG WEST ASHEVILLE/RIVERLINK BRIDGE

Summary: The consideration of an agreement with the N.C. Dept. of Transportation ("NC DOT") for the maintenance of nine street lights along Haywood Road at the West Asheville/Riverlink Bridge.

The City Traffic Engineer made a request to NCDOT that the street lights along the West Asheville/Riverlink Bridge (Bridge No. 705) be repaired, pursuant to complaints from residents and motorists who use this facility. The City Traffic Engineer has performed the necessary analyses associated with the need to provide lighting in this area. NCDOT agreed to make the necessary repairs to the lighting standard at no cost to the City of Asheville. The City of Asheville currently pays the cost of electricity for these fixtures at a rate of $70.00 per month.

After completion of the repair by NCDOT, the City of Asheville will be responsible to make and/or pay for all necessary repairs to keep the lighting standards working properly. Staff has monitored these fixtures for the last ten months and are satisfied with their operation.

The Engineering Department recommends adoption of this resolution which will allow the City to control the maintenance and construction activities associated with lighting along this area.

RESOLUTION BOOK NO. 24 - PAGE 267

G. RESOLUTION NO. 97-205- RESOLUTION RESCHEDULING THE MEETINGS OF THE ASHEVILLE CITY COUNCIL IN DECEMBER 1997

Summary: Due to a change in City Council, it is necessary to reschedule the City Council meetings in December, 1997.

RESOLUTION BOOK NO. 24 - PAGE 268

H. RESOLUTION NO. 97-206 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD A CONTRACT TO COOPER CONSTRUCTION COMPANY FOR THE WEST ASHEVILLE RESERVOIR AND WATER SYSTEM IMPROVEMENTS CONTRACT

Summary: The consideration of awarding construction contract to Cooper Construction Company for the West Asheville Reservoir and Water System Improvements Contract.

Sealed bids were received for the Authority's West Asheville Reservoir and Water System Improvements Project on September 26, 1997. This project consists of the installation of approximately 9,000 linear feet of 16-inch waterline on Deaverview Road in West Asheville and the construction of a new 5 million gallon reservoir on Candler Knob Road, next to an existing 3 million gallon reservoir. This is a Phase II Master Plan project that will significantly increase water system storage as well as improve the reliability of water service to the Downtown and West Asheville areas.

Construction on this project is scheduled to begin in late November, 1997 with 210 days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. Funds in the amount of $1,562,000 are budgeted for the project in the Water Bond Capital Projects Fund. The engineer's estimate for the project was in the amount of $1,562,000. A total of six (6) bids were received, listed below in order of bid amount:

COMPANY	**BID**
Cooper Construction Company, Hendersonville, N.C.	$ 1,552,064.00
Buckeye Construction Company, Canton, N.C.	$ 1,588,980.00
Hobson Construction Company, Arden, N.C.	$ 1,665,825.00
Goodwater Construction Company, Greenville, S.C.	$ 1,775,250.00
Bryant Electric Company, Archdale, N.C.	$ 1,823,344.00
Ruby-Collins Incorporated, Smyma, GA	$ 2,086,566.00

The Regional Water Authority approved award of this contract to Cooper Construction Company on October 21, 1997, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 24 - PAGE 269

I. RESOLUTION NO. 97-207 - RESOLUTION DESIGNATING MOUNTAINEER INN NEON SIGNS LOCATED AT 155 TUNNEL ROAD AS LANDMARK SIGNS

Summary: The consideration of designating the large metal parapet signs atop the Mountaineer Inn at 155 Tunnel Road as landmark signs.

The neon signs atop the Mountaineer Inn located at 155 Tunnel Road were installed forty-five years ago. The sign meets criteria A, B, & C for landmark designation for the following reasons: (A) The Mountaineer Inn neon signs are an icon for the City of Asheville and are a part of our collective memory. "Historic signs give continuity to public spaces, becoming part of the community memory. They sometimes become landmarks in themselves, almost without regard for the building to which they are attached, or property on which they stand. Furthermore, in an age of uniform franchise signs and generic plastic "box" signs, historic signs often attract by their individuality: by a clever detail, a daring use of color and motion, or reference to particular people, shops, or events." (Preservation Brief #25); (B) The Mountaineer Inn neon signs are fine examples of the creative possibilities of neon. "Neon is a great 20th century contribution to the signmaker's art. 'Neon' coined from the Greek word for 'new,' is a 'new gas.' It has the property of glowing when an electric charge passes through it. (Argon, Krypton, xenon and helium share this property....Encased in glass tubes shaped into letters or symbols, neon offered signmaker's an opportunity to mold light into an infinite variety of shapes, colors, and images. Combined with an electric timer, the neon tubing could present images moving in succession. Neon first appeared in the 1920s and reached its height of popularity in the 1940s." (Preservation Brief #25); (C) The Mountaineer Inn and its signs are a good example of post World War II, roadside art and architecture.

At their regularly scheduled August meeting, HRC, by a unanimous vote, recommends to City Council that the neon Mountaineer Inn signs be designated landmark signs.

RESOLUTION BOOK NO. 24 - PAGE 270

J. RESOLUTION NO. 97-208 - RESOLUTION DIRECTING THE CITY CLERK TO PROVIDE PUBLIC NOTICE OF THE INTENT OF THE CITY OF ASHEVILLE TO LEASE A PORTION OF THE OLD WATER MAINTENANCE BUILDING TO THE ASHEVILLE CITY BOARD OF EDUCATION

Summary: The consideration of a resolution directing the City Clerk to provide notice to the public of the intent of the City of Asheville to lease a portion of the Old Water Maintenance Building to the Asheville City Schools.

The Asheville City Schools now use a portion of the basement of the Municipal Building for its Maintenance Division, pursuant to a 1996 agreement with the City of Asheville. With the renovations of the Municipal Building, the maintenance operations for Asheville City Schools will be moved to space in the Old Water Maintenance Building. The Asheville City Schools will be paying for alternates for construction which will provide them adequate space to provide their maintenance services. The terms and conditions of the agreement regarding the use of a portion of the Old Water Maintenance Building will be set forth in a lease.

The Parks and Recreation Department recommends City Council approval of the resolution directing the City Clerk to provide notice to the public of the proposed lease between the Asheville City Schools and the City of Asheville.

RESOLUTION BOOK NO. 24 - PAGE 272

K. RESOLUTION NO. 97-209 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH DONALD C. NEAL CONSTRUCTION COMPANY INC. TO RENOVATE THE STEPHENS-LEE RECREATIONAL CENTER

Summary: The consideration of entering into a construction contract to renovate the Stephens-Lee Center.

In October, 1997, City Staff solicited bids from eleven contractors to renovate the Stephens-Lee Center. Sealed bids as both single prime and separate prime contractors were received on September 18, 1997, at 3:00 p.m. based on design plans and specifications by Mathews and Glazer Architects. An estimate for construction cost was prepared by Mathews and Glazer Architects in the amount of $ 1,300,000.00 excluding site work and landscaping. The bid process resulted in the following three single prime bids:

Buncombe Construction Co., Inc.	$ 1,545,800.00
H&M Constructors, Inc.	$ 1,594,577.00
Donald C. Neal Construction Co., Inc.	$ 1,526,787.00

City staff has researched references given by the lowest bidder and concluded that they are a competent General Contractor. Sufficient funds are appropriated in the budget for this project.

The Parks and Recreation Department requests City Council to direct the City Manager to enter into a contract for $ 1,526,787.00 dollars with Donald C. Neal Construction Co., Inc.

RESOLUTION BOOK NO. 24 - PAGE 273

L. RESOLUTION NO. 97-210 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH THE ASHEVILLE AREA CHAMBER OF COMMERCE

Summary: The consideration of authorizing the City Manager to execute a contract with the Chamber of Commerce to receive the outside agency funding of $100,000 for Fiscal Year 1997/98.

The City Council Outside Agency Committee met to discuss the funding requests of all outside agencies during the budget process for the 1997/98 fiscal year. The Committee recommended approval and the full City Council did approve funding for the Asheville Area Chamber of Commerce at $100,000 for the 1997/98 fiscal year. Due to the amount of the approved funding, in order for the outside agency contract with the Chamber to be executed by the City, the City Council must adopt a resolution which authorizes the City Manager to execute the contract. No additional funding is requested.

City staff recommends approval of the resolution to authorize the City Manager to execute the outside agency contract with the Asheville Area Chamber of Commerce in the amount of $100,000 for the 1997/98 Fiscal Year.

RESOLUTION BOOK NO. 24 - PAGE 274

M. ORDINANCE NO. 2422 - BUDGET AMENDMENT TO REPROGRAM LINE ITEMS IN THE CAPITAL PROJECT ORDINANCE (29 FUND) FROM THE 19&23/WEST BUNCOMBE WATER LINE AND PIPELINE PHASE III TO THE MILLS RIVER PROJECT

Summary: The consideration of a budget amendment to reprogram funds in the 29 Fund from the 19&23/West Buncombe Water Line and Pipeline Phase III to the Mills River Water Resources Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund.

Staff is recommending reprogramming funds in the amount of $1,535,056 from the US 19&23/West Buncombe Water Line Project and the Pipeline Phase III Project to the Mills River Regional Water Resources Project. This will more accurately reflect the appropriation required for the original construction contracts, engineering fees and related expenses for the Mills River Water Resources Project. It will also provide adequate funding for change orders one through seven ($411,391) for Metric Construction as well as provide for a contingency ($745,524) in the Mills River Water Resources Project.

Staff recommends adoption of the budget amendment which will reprogram funds from the 19&23/West Buncombe Water Line and the Pipeline Phase III to the Mills River Regional Water Resources Project.

ORDINANCE BOOK NO. 16 - PAGE 323

N. ORDINANCE NO. 2423 - BUDGET AMENDMENT TO REFLECT ACTUAL MONETARY COMMITMENTS IN THE WATER MAJOR CAPITAL PROJECTS ORDINANCE (35 FUND)

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund) to reflect actual monetary commitments in that Fund.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance. Staff is recommending the following changes to Ordinance 82-25 (35 Fund):

- Close out Contingency ($151,171);
- Clout out the Southern Railway Project ($1,929) - this project was approved in 1991 and no request for payment has been received from DOT to date
- Reduce the Regional Water Resource Improvements from $534,105 to $373,232 - this will more accurately reflect the projected costs for South Buncombe Phase II and the remainder of the North Fork and Bee Tree Chemical Improvements

The deletion of these projects will bring the fund total in line with the current balance. This will result in a new total of $2,953,464 for the 35 Fund.

Staff recommends adoption of the budget amendment which will delete contingency and the Southern Railway Project and reduce Regional Water Resource Improvements to better reflect actual commitments for budgeted projects.

ORDINANCE BOOK NO. 16 - PAGE 325

O. ORDINANCE NO. 2424 - BUDGET AMENDMENT TO TRANSFER THE TRAFFIC ENGINEER FROM THE PUBLIC WORKS DEPARTMENT TO THE ENGINEERING DEPARTMENT

Summary: The consideration of transferring the budget in the amount of $115,909 for the Traffic Engineer from Public Works to Engineering Department.

Effective September 15, 1997, the Traffic Engineer function is moved from Public Works to Engineering Department. The "Traffic Operations" portion of this budget will remain with Public Works. This transfer between departments requires a formal budget amendment. This action transfers one full time position, fringe benefits and operating cost totaling $115,909 from the Public Works Department to the Engineering Department.

There is no net budget increase associated with this action.

Staff recommends consideration of the budget amendment.

ORDINANCE BOOK NO. 16 - PAGE 327

P. ORDINANCE NO. 2425 - ORDINANCE ESTABLISHING AND/OR CHANGING SPEED LIMITS ALONG CERTAIN CITY-MAINTAINED STREETS

Summary: The City Traffic Engineer has performed the necessary traffic analyses associated with the following locations as per the Manual on Uniform Traffic Control Devices and the North Carolina Supplement and is seeking authorization from the City Council to establish and /or change these speed limits:

Establish 15 MPH

(1) Lynmar Avenue (entirety)

Establish 20 MPH

(1) Swanger Road (entirety)
(2) Woodvale Avenue (entirety)
(3) Melrose Avenue (entirety)
(4) Manetta Road (entirety)
(5) Harrison Street (entirety)
(6) Starmount Drive (entirety)
(7) Covington Street (entirety)

Change to 20 MPH

(1) King Street (entirety)

Change to 25 MPH

(1) Beaucatcher Road (entirety)
(2) Annadale Avenue (entirety)

These locations have been reviewed over the past twelve months as per the request of residents and motorists who utilize these roadways. Field surveys and speed studies were conducted and data reviewed based upon the 85 th percentile speed, which is the speed at or below which 85 percent of the vehicles are moving. This speed is reviewed in relationship to the median speed and the pace speed range. The pace speed range is the range of speeds at which the largest concentration of motorists drive. These speeds were reviewed to address the speeding problems in the areas.

ORDINANCE BOOK NO. 16 - PAGE 330

Q. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO CONSIDER REZONING PROPERTY ON AZALEA ROAD FROM RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT TO RIVER DISTRICT

R. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO CONSIDER REZONING PROPERTY LOCATED OFF BROAD STREET, WASHINGTON ROAD AND MADISON AVENUE FROM OFFICE DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

S. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) TO ESTABLISH A DEFINITION FOR GRADING IN THE HILLSIDE AREA DEVELOPMENT STANDARDS

T. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE DEFINITION OF ASSISTED LIVING FACILITIES

U. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE RIVERFRONT DISTRICT DESIGN COMMITTEE AND RIVERFRONT DESIGN GUIDELINES

V. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 25, 1997, TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING LEVEL I SITE PLAN REVIEW PROCESS

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions and ordinances on the consent agenda and they will not be read.

Councilman Worley moved for the adoption of the consent agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER OFF-PREMISES ADVERTISING SIGNS IN THE CITY OF ASHEVILLE'S ZONING JURISDICTION

ORDINANCE NO. 2426 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES PROHIBITING FUTURE BILLBOARDS AND OTHER LARGE OFF-PREMISES SIGNS

ORDINANCE NO. 2427 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REQUIRING ALL OFF-PREMISES SIGNS NOT COMPLYING WITH NEW STANDARDS TO COME INTO COMPLIANCE WITHIN SEVEN YEARS

Mayor Martin opened the public hearing at 5:04 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that on November 6, 1997, a several protest petitions were received by the City Clerk filed by representatives of Fairway Outdoor Advertising Inc. and Outdoor Communications Inc. After examining the protest petitions and the law relating to protest petitions, it was his opinion that because the proposed amendments are text amendments, they are not appropriate for the filing of a protest petition. But, even if the protest petitions were appropriate, based on the City's review of the percentages necessary and how the language of the statute is to be applied, the property with respect to which the petition has been filed does not come to 20% of the property that would be involved in the ordinance under consideration. Therefore, it was his opinion that the protest petitions are not valid and therefore a 3/4's vote is not required - just a simple majority vote. In order to avoid a second vote, however, the ordinance will require a 5-2 vote. He also pointed out that Mr. Albert Sneed and Mr. Robert Long have submitted letters with the City Clerk indicating their objection to the ruling on the protest petition issue.

Ms. Julia Cogburn, Planning & Development Director, said that at the Council worksession on September 23, 1997, the Asheville City Council directed staff to prepare revisions to the Unified Development Ordinance as it pertains to outdoor advertising signs and take these revisions to the Planning and Zoning Commission for their review. Outdoor advertising signs are currently regulated under the category of "off-premises signs" in our ordinance. They are allowed in the higher impact commercial and industrial districts and are restricted to 150 square feet per face, two faces per sign and 25 feet in height. There are a number of spacing requirements pertinent to off-premises signs as well.

Additionally, under the current regulations, off-premises and on-premises signs in Asheville, erected prior to 1990, are subject to coming into compliance if not complying with either the 1990 ordinance (current ordinance) or the ordinance by which it was preceded (1977).

At the September 23 worksession, Council had indicated an interest in the Planning & Development staff and the Planning & Zoning Commission looking at ordinances which would do two things. The first would be to prohibit any additional outdoor advertising signs from being erected in the City's jurisdiction. And secondly, to consider additional amortization of outdoor advertising signs.

She then summarized the major provisions of the three proposed amendments to be considered by City Council:

1) Ordinance #1 - This ordinance would amend the regulations concerning off-premises signs to allow only off-premises signs that are a maximum of six (6) square feet per side and six (6) feet high. This ordinance would have the effect of prohibiting future billboards and other large off-premises signs. This ordinance does not have any impact on existing signs. This ordinance provides that the Board of Adjustment could not grant a variance to allow a larger off-premise sign. An amendment the Planning & Zoning Commission made deals with the spacing requirement. Basically as the regulations exist now, no off-premises sign can be located within 75 feet of an intersection. That provision was looking at larger off-premises signs. The Commission didn't feel that it was necessary anymore, if Ordinance #1 is adopted. And basically suggested that the wording be changed so that no off-premises sign shall be located within nor cause obstruction to the site visibility triangles of street intersections as described in a different section in the ordinance.

258

2) Ordinance #2 - This ordinance would require all off-premises signs not complying with the standards in Ordinance #1, if adopted, to comply with those standards within 7 years.

3) Ordinance #3 - This ordinance would require all off-premises signs not complying with the standards in Ordinance #1, if adopted, to come into compliance within 7 years unless those signs comply with regulations adopted as of August 28, 1990. This ordinance would require those currently grandfathered, due to their compliance with the 1977 ordinance, to come into compliance within 7 years.

Ordinances #2 and #3 delete the provision allowing for off-premises signs which have obtained a variance to remain. If you kept in provisions where signs that had obtained variances were allowed to stay, it defeated the intent of each of those amortization provisions. It was her understanding that there are approximately 10 billboards that since 1977 that have been granted variances and the majority of those were obtained before 1990. She believed only one has been granted since 1990. They have suggested that the provisions allowing signs that have obtained variances to remain be deleted.

Ordinances #2 and #3 also introduced a new provision that would not have subsequent text and map changes trigger new amortization unless specifically called for with the amendment and except in the case of jurisdictional extension. This was suggested for administrative purposes basically thinking that every time a rezoning or text change took place a clock would start ticking on an amortization provision. While staff may still want to address this type of provision in the future, they felt it complicated the issue before Council today and therefore they strongly recommend going back to the original language with a minor change to Sec. 7-13-8 D 3 which basically provides that when map and text amendments take place, the amortization provisions are as previously stated.

Council previously received information on the numbers of billboards that might be affected by the suggested changes. Staff has worked to fine-tune these numbers and Ms. Cogburn used a map to illustrate the sign locations. The total outdoor advertising signs in the 1990 survey data base as of 11/11/97 is 149; signs that the City still has on record to come down or into compliance per the current regulations is 46; signs that are subject to federal law protections and not subject to coming into compliance is 25; signs that comply with the current regulations is 17; and signs that comply with the 1977 ordinance but do not comply with the current regulations is 61. Ordinance #2 would amortize 78 signs and leave in the City's jurisdiction 25 signs. Ordinance #3 would amortize 61 signs and leave in the City's jurisdiction 42 signs.

She said that since the Planning & Zoning Commission meeting, she has received one letter from John Modaff basically in favor of further regulations in terms of billboards; one call from Betty Madsen from Marshall in favor of billboards because they help her when she is traveling; and one call from an unidentified woman who felt if the City was interested in prohibiting billboards they should start with the All America City billboard.

At their meeting on October 1, 1997, the Asheville Planning and Zoning Commission recommended adoption of Ordinances #1 and #3 to the City Council. She clarified the vote from the Commission with respect to Ordinance #3. There were only six members present at that meeting - two of those members were opposed to any additional amortization provisions; two were in favor of Ordinance #2 and two were in favor of

Ordinance #3. Basically the four that were in favor of some additional amortization provision, in essence, compromised on Ordinance #3.

Upon inquiry of Vice-Mayor Field about how the six square feet came about, Ms. Cogburn said that it was suggested by staff after researching other ordinances throughout the state.

When Councilman Worley asked what kinds of signs are the 25 non-billboard off-premises signs, Ms. Cogburn said that typically they are directional signs.

The following individuals spoke against and commented on the ordinances as outlined above. Some comments are, but are not limited to: 28 are interstate protected and permitted signs; since Council adopted strict laws in 1977, the number of signs have dropped by over 150 and are now confined in the major commercial areas; Council should not take away the signs from the owners without just compensation; signs are a form of commercial speech that is confined to commercial areas; adopting the ordinances will result in litigation; people cannot afford to spend out substantial money for what was regarded as legal at the time and have it taken away from them; no problem with prohibiting future signs but leave the leave signs that are in existence left alone and left to the natural attrition that laws about spacing, etc., have resulted in; the people that will be hurt by the ordinance if you pass the amortization provision are the people that have to tear their own property down and over 20% of those people have filed a protest petition; it is practically impossible to build any more billboards with the current regulations as seen by only one permit being issued since 1990; objection to the compulsory taking of property without just compensation; the entire cost of eliminating billboards will be borne by the people who own the billboards - they paid the filing fee, obtained building permits and relied on the laws in good faith; disagreement with definition of amortization; Fairway Outdoor is voluntarily taking signs down and working with the City to take more down; it's not right nor fair to amortize these signs; the City should purchase the signs and not amortize them; the ordinance passage will affect approximately 50 employees; the lawsuit Fairway will be bringing before the City of Asheville will cost the citizens of Asheville hundreds of thousands of dollars; do not pass the amortization provisions; the business community has tried to comply with existing sign ordinance; effort to eliminate these businesses from our community without just compensation goes against the fabric of our community; this will run legitimate businesses out of Asheville; this is anti-business regulation; Outdoor Communication has spent millions of dollars and borrowed money to purchase an existing business in Asheville and their loans will not be forgiven in seven years; this will deter businessmen who may purchase existing businesses in Asheville; the Constitution of the United States says that government cannot take private property without just compensation; amortization is not compensation, just a delayed taking; there are no other amortizations in Asheville and they should not start with billboards; people do not carry televisions in their cars so they need a billboard or some other means to find lodging; small restaurants cannot afford to advertise with the larger restaurants on television; not fair for signs on the federal roadways that do not comply are allowed to stay up while others have to be removed; be fair to the small business people and people in the hotel and tourist industry; citizens of Asheville should be allowed to express their opinions on this issue as other polls have showed that the vast majority felt billboards were not a top problem; the definition of off-premise advertising will eliminate the banners on poles and trucks with City logos; according to the proposed ordinances if you annex property that has a billboard on it, the billboard would have to come down immediately with no compensation; it is everyone's goal to maximize scenic beauty in our city but destroying billboards is only a small step if indeed a step at all toward our goal; even if you take out the six billboards on Tunnel Road which are peacefully coexisting with a multitude of business identification signs, it is still ugly area with power poles, telephone poles, power lines, and telephone lines; City should concentrate on comprehensive program of fixing streets, repairing potholes, picking up trash, sweeping streets, and eliminating weeds in streets; billboards are some businesses only means of advertising because of their market, i.e. young kids driving on the roads; billboard companies give back to the community through donated space; billboard companies are a permanent part of this community; removal of signs will result in smaller signs more congested and closer together; a few billboards will not drive anyone away from Asheville; inconsistency toward businesses; business community needs the service of billboards; amortization will not increase tourism; the billboard industry would be willing to formulate a committee to find what they can do to work with the City Council to make the ordinance fair; there has not been a problem with tourism decreasing because of the billboards; regarding the issue of personal property there is the issue of relocation costs - if you deprive a person of all reasonable use of his property, the property owner is entitled to compensation; and 39 structures have already been lost due to attrition, loss of lease or development of properties which will continue:

Mr. Robert B. Long Jr., Attorney representing Outdoor Communications Inc. (presented a binder with pictures of off-premises permitted billboards)
Mr. Albert L. Sneed Jr., Attorney representing Fairway Outdoor Advertising Inc.
Mr. Darryl Merchant, General Manager of Fairway Outdoor Advertising Inc.
Mr. Bob Selby, President of Council of Independent Business Owners
Mr. Richard Drummond, Division Manager for Outdoor Communications for Tennessee and North Carolina
Mr. Carl Ricker, business owner with several companies in Asheville that employ over 3,000 employees
Mr. Tim Avery, employee of Outdoor Communications, and resident of Johnson City, Tennessee
Mr. Loyd Kirk, 866 Hendersonville Road, and owner and operator of the Forest Manor Inn on Hendersonville Road
Mr. Bill Lack, owner of small business
Mr. John Baggett, employee of Outdoor Communications
An employee of Outdoor Communications
Ms. Carol Collins, owner of small consulting business
Mr. Kerry Coxe, employee of Fairway Outdoor Advertising
Mr. Matt Mattan, Asheville resident
Mr. Kip Martin, majority owner of the Fuddruckers Restaurant
Mr. Roberts
Mr. Doug Thrash, property owner
Mr. Jeff Nolan
Mr. Kelly Mason, Asheville resident and employee of Fairway Outdoor Advertising

The following individuals spoke in support of the ordinances outlined above for several reasons, some of which are: never met anyone who visited or moved to Asheville because of a billboard; no knowledge of a business going out of business because they didn't advertise on a billboard; if Asheville allows a few businesses to use this form of advertising, what kind of message are we giving to other businesses who are prohibited from having this privilege - it is setting up an unfair obstacle for new businesses; billboard companies don't care about the beauty of our area; everyone benefits from keeping our area beautiful and only a few benefit from the huge billboards; billboard companies should be offered reasonable compensation based on depreciated value of their signs; billboards force advertising on individuals and communities; billboards violate citizens' rights to privacy and make citizens a captive audience to advertising; there are alternative ways of advertising other than billboards that provide the same information at less cost without degrading our landscape; billboards are a pollution; signage is a legitimate form of business but they should be limited in size, height, placement and number; billboards are oversized, badly located and too numerous; some billboards interfere with recognizing on-premise signs on Hendersonville Road; billboards are inappropriate in Asheville and neighborhoods; we don't need billboards on the highways advertising franchise properties that are in their own town; billboards deteriorate the scenic beauty; 60 competitive towns in North Carolina which do not allow billboards are successful resort beautiful communities; quality of our visitors is in no way enhanced by billboards; our focus on vision is for a scenic, beautiful and historic city; a national study made finds that historic, scenic cities in the United States are visited more often and have more dollar spending visitors than other cities in the United States; seven years should be sufficient for billboard companies to earn back their investment on the signs; regulation of billboards is not a taking of property; public doesn't want billboards; billboard companies are selling something they do not own; billboard companies are not interested in improving Asheville; and billboards are personal property and can be removed by the owners and put back up somewhere else:

Mr. Walter Plowe, small business owner in Asheville
Ms. Shirley Birdie, 706 River Ridge Drive
Ms. Betty Anthony, South Asheville resident
Mr. Jack McCuen, Innkeeper of Cedar Crest Victorian Inn
Mr. Hiram S. Cody, representative of the Western Coalition for Scenic Beauty (passed out a list of communities in North Carolina that do not allow new billboards and well-known facts concerning billboards)
Ms. Jane Bingham
Ms. Anne Campbell
Ms. Sunny Early, Asheville resident
Mr. Robert Fletcher
Ms. Hazel Fobes, Asheville resident
Mr. Dick Dawster
Mr. Frank Martin, Coordinator for the Coalition for Scenic Beauty

Councilman Cloninger said that the United States Supreme Court Justices have ruled that amortization is a valid means of removing billboards.

Mayor Martin closed the public hearing at 7:06 p.m. and announced a 10 minute break.

Mayor Martin said that members of Council have been previously furnished with copies of the ordinances and they would not be read.

Councilman Cloninger moved to adopt Ordinance No. 2426 prohibiting future billboards and other large off-premises sign. This motion was seconded by Councilman Skalski.

When Vice-Mayor Field asked what is reasonable compensation for the 78 billboards, Councilman Cloninger pointed out that the courts have ruled that amortization constitutes just compensation. City Attorney Oast said that until we have all the information, there is really no way of predicting how much it would cost, if anything.

Upon inquiry of Vice-Mayor Field regarding depriving someone all reasonable use of the property the billboards are on, City Attorney Oast said that he could not say conclusively that it is not an issue. The prospective ban is certainly less of an imposition than amortization would be because it just prohibits future use, it doesn't require the removal or amortization of anything.

Mayor Martin called for a vote on Ordinance No. 2426 and said motion carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 331

Councilman Cloninger moved to adopt Ordinance No. 2427 incorporating the two amendments outlined above by the Planning Department. This motion was seconded by Councilman Sellers.

Councilman Hay felt that basically there is a general agreement in the community that we want to eliminate billboards in the future. In addition, it represents an expression by our community of who we are. We set standards for ourselves and we express that, just like we do in our own lives. He was concerned about the fairness issue and the property rights issue and take some comfort in the fact that the courts have dealt with this. The constitutional issues seem to be well resolved and he felt there is some question as to how you go forward with the amortization and trust the courts to sort that out, if that what it comes to. The real question is do we compensate by paying up front or is amortization a fair and legal way to do that compensation.

Councilman Worley said that when the City passed the existing ordinance in 1990 and there was a tremendous amount of divisiveness at that time. Since then staff has been working closely with the sign companies and have made a lot of progress in that area. A number of signs have been removed with a schedule for removal of the rest of non-conforming signs. This Council can be pro-active in working to educate property owners and working with land owners as leases expire. I felt there is an issue of compensation for property and the possibility of lawsuits. He offered a substitute motion to instruct our staff to continue working pro-actively with the sign companies over then next two years to continue removing signs that are non-conforming under the current ordinance, and work with them to voluntarily remove other signs that have complied with our current ordinance and to report back to City Council by December 31, 1999, on the progress made. At that time Council can review that progress and make a decision whether to go forward with something as drastic as amortization. This motion was seconded by Vice-Mayor Field.

Councilman Cloninger felt that our staff has already been instructed to enforce the current sign ordinance.

Councilman Worley felt that his motion added an additional component of asking staff to work pro-actively on existing signs that do comply with the existing ordinance, to remove those. He felt we all have the same goal to protect our scenic beauty. It's a question of how we get to that goal. When each sign was constructed, they were permitted by our ordinances and legally built. Construction is not cheap and there is a significant legal investment in this type of property. He knows business well enough to suspect very strongly that the price the sign companies paid was not based upon the value of the sign as constructed, but rather the long term income stream that the sign will produce. Since financing is frequently tied in with that, he suspected that it is a sizable investment that seven years of income from amortization will not replace. If you put the issue into prospective, Council needs to consider similar regulation of other types of property. In no other instance has Council considered forcing the owner of property that has become non-compliant as a result of a change in our zoning ordinances to remove that property without compensation. The removal of the billboards is an emotional issue and if we really want to require elimination within seven years, then let's do it. But, let's do it with compensation and start a fund-raising drive among our citizens to raise the money to provide that compensation. He felt that amortization was not right and not fair with no compensation, considering the investment involved.

Vice-Mayor Field felt this was a very difficult issue. She has talked with the Planning Department staff and they were very enthusiastic about how cooperative the sign companies are being in taking down about 44 signs and the possibility of doing even more than that. She would like to see the opportunity to give the Planning staff a chance to resolve this problem. She felt we need to have the chance to work with people and she supports the process they went through developing the sign ordinance. Her concerns is that with seven years amortization, a new Council can be elected and bring the issue up again. She did not want to rip this community apart over this issue again if a consensus can be reached.

Mayor Martin also spoke with Planning Department staff and found that Fairway has been voluntarily removing some of the signs. He asked if Councilman Worley's substitutive motion passed, would Fairway be willing to continue that process. A representative from Fairway replied that they would be happy to.

Councilman Cloninger agreed that the sign issue has been divisive in the past, however, it's important to point out that we are only dealing with billboards. He is convinced that the overwhelming majority of the public wants the elimination of billboards. He also pointed out that the billboard companies are not voluntarily coming to the City and working with the City to remove billboards. The fact is that they only came to the table because this City Council made it clear to the billboard companies that they were going to start enforcing the sign ordinance. Notices of violations were sent to those companies and they were told that they would be fined.

Mayor Martin asked for a show of hands in favor of Councilman Worley's substitute motion. Said motion failed on a 3-4 vote, with Mayor Martin, Vice-Mayor Field and Councilman Worley voting "yes" and Councilmen Cloninger, Hay, Sellers and Skalski voting "no".

Mayor Martin then asked for a show of hands for Councilman Cloninger's motion to adopt Ordinance No. 2427. This motion carried on a 4-3 vote with Councilmen Cloninger, Hay, Sellers and Skalski voting "yes" and Mayor Martin, Vice-Mayor Field and Councilman Worley voting "no".

City Attorney Oast stated that since the ordinance passed by a simple majority, it will require a second vote which he recommended occur at the next formal meeting on November 25, 1997.

ORDINANCE BOOK NO. 16 - PAGE 334

B. **PUBLIC HEARING TO CONSIDER MINOR REVISIONS TO THE UNIFIED DEVELOPMENT ORDINANCE**

ORDINANCE NO. 2428 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO INCORPORATE VARIOUS MINOR REVISIONS

Mayor Martin opened the public hearing at 7:47 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this ordinance will consider revisions to the Unified Development Ordinance (UDO) addressing minor wording changes which do not alter the intent or purpose of the standards.

As part of the on-going review of the UDO to assure that the standards and regulations in the ordinance meet the needs of the city, staff has identified a number of minor revisions. These revisions include new and revised definitions, permitting the TRC to "table" or "continue" consideration of development site plans, clarifying conditions for the issuance of permits, etc. The proposed revisions will not alter the intent of the standards established in the UDO. Existing standards and regulations will be clarified through the proposed revisions. The Planning and Zoning Commission reviewed the proposed revisions, made comments resulting in minor changes, and recommended adoption of the proposed revisions. He summarized the proposed revisions to the following sections:

Sec. 7-2-5 Definitions;
Sec. 7-5-1 Permits & Approvals;
Sec. 7-5-5 Conditional Use Approvals;
Sec. 7-5-9 Site Plan Review;
Sec. 7-5-19 Certificate of Occupancy;
Sec. 7-7-4 Review by the Asheville Planning & Zoning Commission;
Sec. 7-9-5 Manufactured Housing Rental Community Overlay District;
Sec. 7-10-2 Required Setbacks; Allowable Encroachments Into Required Set;
Sec. 7-10-3 Fences and Setbacks;
Sec. 7-11-1 Parking, Loading, and Access Standards;
Sec. 7-11-5 Traffic Impact Analysis;
Sec. 7-12-2 Soil Erosion & Sedimentation Control;
Sec. 7-15-1 Subdivisions;
Sec. 7-15-2 Figure 15-2;
Sec. 7-16-1 Uses by Rights, Subject to Special Requirements;
Sec. 7-17-5 Nonconforming Open Uses of Land; and
Sec. 7-17-8 Maintenance and Repair of Nonconforming or Conforming Structures on Nonconforming Lots.

The Asheville Planning and Zoning Commission, by a 6-0 vote, recommended adoption of the minor revisions to the UDO. The staff of the Planning and Development Department had recommended approval of the minor revisions.

Mr. Green responded to a concern of Councilman Hay relative the time frame involved if the applicant cannot both resubmit the revised site plan and appeal the Technical Review Commission decision.

Ms. Cathy Ball, City Engineer, responded to questions from Vice-Mayor Field relative to requirements for a traffic impact analysis and who can perform those analyses.

When Councilman Worley inquired about the standard: "The home occupation shall not increase the traffic which is found in its vicinity when the use is not in operation." Mr. Green responded that it is up to the interpretation of the enforcement staff after visiting the site. City Attorney Oast agreed the standard is not real clear but it is a similar criteria that is included in a lot of other zoning ordinances across the state. He would advise the Board of Adjustment, if they had to consider this, that it would be a "reasonable" increase.

Mayor Martin closed the public hearing at 8:04 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2428. This motion was seconded by Vice-Mayor Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 339

C. PUBLIC HEARING TO CONSIDER ANNEXATION OF PROPERTY LOCATED ON COLUMBINE ROAD (SECTION 9 OF BILTMORE PARK)

ORDINANCE NO. 2429 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE, NORTH CAROLINA, BY ANNEXING A CONTIGUOUS AREA LOCATED ON COLUMBINE ROAD AND KNOWN AS SECTION 9 OF BILTMORE PARK

Mayor Martin opened the public hearing at 8:05 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Paul Benson, Urban Planner, said that Biltmore Farms, Inc. has submitted an annexation petition for an 18.7 acre area (platted for 56 single family lots) identified as Biltmore Park, Section 9. This is the ninth annexation petitioned by Biltmore Farms, Inc. for property located on Columbine Road. This area is contiguous to corporate limits, specifically to Biltmore Park, Sections 6 and 7, which have been previously annexed. Biltmore Farms Inc. has requested that the effective date of the ordinance be effective in six months on May 11, 1998. The estimated tax base that this would represent upon development is approximately $13 million with an annual revenue of $75,000.

Mayor Martin closed the public hearing at 8:06 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2429. This motion was seconded by Councilman Cloninger and carried on a 6-1 vote, with Councilman Skalski voting "no".

ORDINANCE BOOK NO. 16 - PAGE 349

D. PUBLIC HEARING TO CONSIDER A SECTION 108 LOAN GUARANTEE APPLICATION IN CONNECTION WITH THE CITY-WIDE RESIDENTIAL REHABILITATION PROGRAM

RESOLUTION NO. 97-211 - RESOLUTION AUTHORIZING SUBMITTAL OF A FUNDING APPLICATION TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT THROUGH THE SECTION 108 LOAN GUARANTEE PROGRAM FOR THE CITY OF ASHEVILLE RENTAL REHABILITATION FOR OWNERS AND TENANTS (CARROT) LOANS

Mayor Martin opened the public hearing at 8:07 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Ed Vess, Field Services Coordinator, said that, this is consideration of a resolution to approve submittal of an application to the U. S. Department of Housing and Urban Development (HUD) for a Section 108 Loan Guarantee to generate 1.5 million dollars for rental rehabilitation loans.

The Section 108 loan guarantee program enables CDBG entitlement grantees to borrow money from the federal government at low interest rates for Community Development Block Grant ("CDBG") eligible activities. The proposed application is for a $1.5 million loan. If approved the money will be loaned to investor owners through the City of Asheville Rental Rehabilitation for Owners and Tenants (CARROT) loan program. The Section 108 loan funds will be used to provide decent housing opportunities for low and moderate income households at affordable rents. The Section 108 loan will be repaid using program income from the CARROT loans, program income from the existing rehabilitation loan portfolio and for the first three years a portion of the CDBG entitlement funds. It is anticipated that over the long term the program income from the CARROT loans will exceed the total repayments of the Section 108 loan by over $1 million. The goal of the Section 108 project is to rehabilitate 150 rental units over a three year period of time.

A public hearing on the draft application was conducted by Community Development staff on October 27, 1997, at 6:00 p.m. in the Wolcott Building.

Approval of the resolution will authorize submittal of the application for a Section 108 loan guarantee.

Mr. Vess then responded to various questions from Council.

Vice-Mayor Field was pleased that Asheville is in a place where we are leveraging our money as best we can to do more for the housing community.

Councilman Hay noted that the Housing & Community Development Committee recommends the approval of this as well.

Mayor Martin closed the public hearing at 8:18 p.m.

Mayor Martin said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Field moved for the adoption of Resolution No. 97-211. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 275

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 97-212 - RESOLUTION POSTPONING A DECISION ON THE REQUEST OF BRENMOR CABLE PARTNERS, L.P., (D/B/A INTERMEDIA) FOR AN ANNUAL INCREASE FOR ITS MONTHLY RATES FOR THE BASIC CABLE SERVICE TIER

B. RESOLUTION NO. 97-213 - RESOLUTION DIRECTING BRENMOR CABLE PARTNERS, L.P., (D/B/A INTERMEDIA) TO KEEP AN ACCURATE ACCOUNT PURSUANT TO SECTION 76.933 OF THE CODE OF FEDERAL REGULATIONS REGARDING ITS PROPOSED RATE INCRASE FOR COST-OF-SERVICE DUE TO REBUILD OF ITS SYSTEM

Ms. Patsy Meldrum, Assistant City Attorney, said that this resolution would deny the rate increases requested by InterMedia for the basic cable service tier.

By letter dated March 1, 1997, InterMedia filed with the City of Asheville two FCC Forms, 1205 and 1240, both dated March 1, 1997, for the purpose of requesting an annual increase in its monthly rates and hourly service charges for its basic cable service tier. With the March 1, 1997, filing InterMedia proposed to increase the monthly rate for its basic cable service tier from $10.46 to $10.91, its expanded basic service tier from $13.55 to $14.09 and its hourly service charge from $19.58 to $36.72. By letter dated May 16, 1997, InterMedia filed FCC Form 1235 entitled "Abbreviated Cost of Service Filing for Cable Network". In its filing dated May 16, 1997, InterMedia proposed to increase its basic service rate by $1.00 per month and its expanded basic service rate by $3.00 per month, based on the cost of the rebuild of the cable system.

On June 10, 1997, the City Council adopted Resolution No. 97-90 which invoked additional time to review the requests of InterMedia, thereby giving the City until November 15, 1997, to review the requests based on the rebuild of the system. That resolution directed the City Manager to provide notice to InterMedia of that order extending the time for review of the requests. After receipt of that notice by InterMedia, InterMedia sent to the City Manager a letter dated July 30, 1997, stating that they were changing the monthly rate for the basic service back so that the $1.00 per month rate increase would not be implemented at that time.

The City of Asheville contracted with Rice, Williams Associates to provide certain consulting services for the cable television franchise of InterMedia. Rice, Williams Associates reviewed the proposed rate increases and furnished the City of Asheville with a report analyzing those proposals.

In the consultant's report of their review of the rate increase for the hourly service charges, they found that appeared to be correct. With regard to their review of the annual rate increase, they did find some errors in that filing which had to do with the time period for the fees and the use of an incorrect inflation factor in their filing. On that basis, their recommendation was for denial of that rate increase.

The City provided Intermedia a copy of that report and Intermedia asked the City to review additional information. On November 7, 1997, Intermedia provided the City with an amended form for that annual rate increase. Therefore, staff is requesting that the decision on the request of Intermedia for an annual increase in its monthly rates for the basic service tier be postponed until review by the City can be completed within the time period and according to the regulations of the FCC.

With regard to their hourly service charge, since the consultant deemed that to be complete, the City would not be doing any further review at this time.

When the question came up on whether the City could require a rebuild of the system and whether or not once a company decides to rebuilt the system could we ask them to stop the rebuild of the system because subscribers would rather keep the old system and pay the old rates. Under federal law whenever there is a renewal of a franchise we can require them to rebuild the system. In this case because we are not yet at the formal renewal process under federal law, it's their election to determine whether or not to rebuilt the system and they have made that election. Since they have made that election, we can't stop them from doing the rebuilt. All we can do is review the rates that they are proposing as a result of the rebuilt to see that they comply with the federal regulations.

In the consultant's report, they did find some errors in the filing among which were inadequate information about the phasing in of the rebuild of the system. In addition, there was some discrepancy in information about the number of channels and that plays into the formula to determine the monthly rate that is allowed under the cost-of-service filing. Also there was no information regarding how they comply with the technical specifications under the federal law and finally they were doing it before completion of the entire rebuild of the system so there will be some numbers submitted to us once the rebuild is complete. Our choices are (1) do nothing and the rates go into effect; (2) issue an order regarding what the rates should be; (3) issue an accounting order directing them to keep track of all the actual costs of the rebuild of the system and at a later time after that accounting has been done, the City reviews that data and determines whether or not to issue a rate order and determines whether or not the increase requested is allowed by federal regulations or whether refunds would be appropriate to subscribers; and (4) deny the increase.

Based upon other information provided to the City by Intermedia, City staff recommends directing Intermedia to keep an accurate account of all amounts received by reason of the rate increase requested pursuant to federal regulations in order that the City may, at its option, subsequently issue a written decision regarding the rate increase and determine whether or not refunds should be provided to subscribers.

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions and they will not be read.

Councilman Hay moved for the adoption of Resolution No. 97-212. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 276

Councilman Hay moved for the adoption of Resolution No. 97-213. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 278

B. RESOLUTION NO. 97-214- RESOLUTION AUTHORIZING THE CIYT MANAGER TO ENTER INTO A CONTRACT WITH JENKINS, REED, MADISON & ASSOCIATES INC. FOR WIRELESS TELECOMMUNICATIONS CONSULTING SERVICES

RESOLUTION NO. 97-215 - RESOLUTION AUTHORIZING THE CIYT MANAGER TO ENTER INTO A CONTRACT WITH JENKINS, REED, MADISON & ASSOCIATES INC. FOR PROPERTY MANAGEMENT SERVICES FOR COMMUNICATION FACILITIES

ORDINANCE NO. 2430 - BUDGET AMENDMENT TO PROVIDE FUNDING FOR CONSULTING SERVICES TO ASSIST IN ESTABLISHING STANDARDS FOR WIRELESS TELECOMMUNICATIONS FACILITIES

Mr. Gerald Green, Urban Planner, said that in September, the City distributed two Requests for Proposals (RFP) soliciting assistance in the development of a comprehensive ordinance establishing standards for the placement of wireless telecommunications facilities in the City's jurisdiction and for the management of the city's property for the location of communications facilities. In response to the RFP's, proposals were received from only one firm for the two (2) identified tasks.

Regarding the wireless telecommunications consulting services, he outlined that the City's existing ordinance which regulates telecommunication towers does not address (1) stealth technology; (2) areas that may not be able to be served due to restrictions imposed; (3) review fees; and (4) anticipate new technology. There is a need for a new ordinance incorporating standards to address those issues. After the City solicited proposals for revising the current telecommunications ordinance, the RFP identified minimum qualifications for a consultant, those being (1) knowledgeable about telecommunications technology and (2) knowledge of local zoning issues. An evaluation committee composed of City staff reviewed the proposals and identified the proposals best meeting the criteria set forth in the RFP's. The evaluation committee is recommending that the City enter into contracts with Jenkins, Reed, Madison and Associates ("JRM") for the ordinance development.

The proposal submitted by JRM identifies the following tasks: (1) orientation meetings; (2) review and critique existing ordinance; (3) wireless training session (4) meet with wireless providers; (5) consultations with Planning staff and drafting proposed ordinance; (6) public participation workshop; and (7) present ordinance to City Council. The cost of the 148 hours of consulting services, travel expenses and related costs for telephone, copying and miscellaneous services is $21,790.

Development of a comprehensive wireless telecommunications ordinance which anticipates changes and new technology would put the City ahead of issues. The City would be better able to deal with issues related to telecommunications facilities, assuring that adequate service is provided while protecting those unique resources which make Asheville great.

270

A budget amendment will be necessary, in the amount of $22,000, to provide for the consulting services in connection with establishing standards for wireless telecommunications facilities.

Mr. Green said that some other cities have expressed interest in participating with the City and that would lower the cost. Also, the staff person with the N.C. Division of Community Assistance has expressed an interest in their agency participating with the City in this study and they would underwrite some of the costs to further reduce the City's cost.

Councilman Skalski was encouraged about other cities participating in this study and asked staff to continue to look for ways to reduce the cost, possibly regarding the travel expenses.

Upon inquiry of Councilman Skalski about the $150 per hour rate, Mr. Green responded that the hourly rate ranges depending on their expertise and their locality. He speculated that this is probably a Washington, D.C., per hour rate but not a Western North Carolina per hour rate by any means.

Vice-Mayor Field was pleased that this firm is a 100% African American owned business.

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions and ordinance and they will not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-214 with staff continuing to look for way to reduce the cost. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 280

Councilman Cloninger moved for the adoption of Resolution No. 97-215. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 281

Councilman Hay moved for the adoption of Ordinance No. 2430. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 352

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 28, 1997, AND THE WORKSESSION HELD ON NOVEMBER 5, 1997

Councilman Hay moved for the adoption of the minutes of the regular meeting held on October 28, 1997, and the worksession held on November 5, 1997. This motion was seconded by Councilman Sellers and carried unanimously.

B. RESCHEDULING OF NOVEMBER 18, 1997 WORKSESSION

Because a number of City Council members will be out of town on November 18, Councilman Worley moved to (1) reschedule the Tuesday, November 18, 1997, worksession to Wednesday, November 19, 1997, to begin at 3:00 p.m. in the First Floor North Conference Room in the City Hall

Building; and (2) hold the Broad Street rezoning worksession at 7:00 p.m. on Wednesday, November 19, 1997, in Room 623 of City Hall Building. This motion was seconded by Councilman Sellers and carried unanimously.

C. BURTON STREET UPDATE

Upon inquiry of Councilman Cloninger, Planning & Development Director Julia Cogburn updated City Council on the efforts staff is taking with regard to some violations on Burton Street.

D. REQUEST OF DR. ALBERT ANDERSON

Dr. Albert Anderson explained that he is in the process of constructing a building on Asheland Avenue and his permit has been temporarily held up by the permitting process because of the requirement for the installation of a fire hydrant on the property. The Code requires that fire hydrants be located not less than 1,000 feet from each other and that is not the case on Asheland Avenue. He felt that, among other things, that the cost of the hydrant should be treated as a public benefit, like a street, especially since the City is supposed to be providing fire protection.

Fire Chief John Rukavina said that the State Fire Code requires that the "maximum distance from the nearest hydrant to the most remote exterior point of any building shall be 500 feet. The distance shall be measured on a roadway surface meeting the Fire Department access requirements of Section 602.6 of the Fire Prevention Code." He said the building meets the Code in all respects and from a fire protection standpoint the hydrant is something that would be very desirable. Dr. Anderson's building is in excess of 600 feet from the nearest hydrant and the cost for the hydrant would be approximately $2,000.

Councilman Cloninger suggested that if the new hydrant will benefit adjacent owners as well, perhaps they might share in the cost of the new hydrant.

City Manager Westbrook said that normally it is the developer's responsibility, not the taxpayers, who would pay for improvements for a piece of property being developed. If someone was building at the edge of the City where there were no hydrants, it would be the developer's responsibility to put those in as well as the roads and other infrastructure that would go into a development.

Vice-Mayor Field felt the City had some responsibility in this case since the fire hydrants are not less than 1,000 feet apart and it's in the center of our urban area.

City Manager Westbrook felt that City Council should be prepared to face this situation every time the City redevelops in the urban area and the area gets more dense.

City Attorney Oast agreed with the City Manager in that this may have a potential impact in the future.

Vice-Mayor Field moved to direct staff to take the appropriate steps to install the fire hydrant since this is in the Central Business District. This motion was seconded by Councilman Skalski and carried unanimously.

City Manager Westbrook felt that Council might be interested in staff bringing back what other cities do in this area.

Vice-Mayor Field said that the City should have fire hydrants within 1,000 feet from each other within the Central Business District and we might benefit from a survey of where the hydrants are and where there might be potential problems.

E. CLAIMS

The following claims were received by the City of Asheville during the week of October 24-30, 1997: Marilyn Muccio (Finance), Cecil Holt (Water) and Anna Day (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

F. CLOSED SESSION

At 9:07 p.m., Councilman Worley moved to go into closed session (1) to discuss matters relating to the location on expansion of industries or other businesses into the area served by the City - statutory authority is G.S. 143-318.11 (a) (4); and (2) to consult with an attorney employed or retained by the City Council in order to preserve the attorney-client privilege between the City and its attorney - statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 9:37 p.m, Councilman Worley moved to come out of closed session. This motion was seconded by Vice-Mayor Field and carried unanimously.

[redacted]

Mayor Martin adjourned the meeting at 9:37 p.m.

CITY CLERK

MAYOR

Wednesday-November 19, 1997 - 3:00 p.m.

Worksession

Present:	Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

CONSENT:

Establishing Price for 110 Morris Street

Summary: The consideration of establishing $79,500 as the price for surplus real property at 110 Morris Street which has been recommended for sale by the Planning & Development Department.

Contract for Old Water Maintenance Building Renovations

Summary: The consideration of allowing the City Manager to enter into construction contracts to renovate the Old Water Maintenance Building as follows:

General Separate Prime	Buncombe Construction Co., Inc.	$ 770,500
Plumbing Separate Prime	Bolton, Inc.	$ 32,650
Electrical Separate Prime	Bolton, Inc.	$ 82,920
Mechanical Separate Prime	Pyatt Heating and Cooling, Inc.	$ 50,300
Total Project Cost:		**$ 936,370**

Contract for Renovation of Restrooms at Civic Center

Summary: The consideration of allowing the City Manager to enter into a construction contract to renovate the restrooms at the Asheville Civic Center as follows:

Single Prime Contractor James Michael Keys; Keko, Inc. DBA Keys Construction	$ 93,501.00
Alternate 1	$ 30,646.40
Bid Total	$ 124,147.40

Budget Amendment re: Murray Hill Park

Summary: The Parks and Recreation Advisory Board and staff recommend approval of appropriation from the sale of a portion of property at Murray Hill for the development of a park.
The appraised value is $136,000 and the commitment for park development, in addition to the appraised value, is $50,000.

West Area Annexation Sewer Improvements Phase III, Contract B

Summary: The consideration of adopting a resolution awarding the contract to the lowest responsible bidder, Buckeye Construction Company Inc., in the amount of $340,494.

Speed Limit Changes - Sondley Subdivision

Summary: The consideration of establishing speed limits along Sondley Parkway, Sondley Drive, Sondley Drive North, Sondley Woods Place and South Sondley Drive at 25 mph.

Acceptance of Grant to Reduce Crime and Improve Public Safety and Appropriate Match

Summary: The consideration of a resolution authorizing the City Manager to accept grant funds under the U. S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance, Local Law Enforcement Block Grant Program. This budget amendment will recognize as revenue the funds for the state grant and appropriate these funds.

Budget Amendment re: Fair Housing Assistance Program 11th Year

Summary: The consideration of a budget amendment, in the amount of $15,300, to continue federal funding for the eleventh year of the Fair Housing Assistance Program.

Approval of Computer Hardware/Software Contract

Summary: Consideration of a resolution approving the award of a contract to H.T.E. Inc. provide computer hardware/software and associated training and technical support.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CONTRACT FOR CITY BUILDING EXTERIOR RENOVATIONS

Mr. Lyle Willis, Contract Administrator, said that in August, 1997, City staff solicited bids from twelve contractors for the City Building Exterior Renovation work, which he explained. Three sealed bids from single prime contractors were received on October 8, 1997, at 3:00 p.m. based on design plans and specifications by Westcott & Harris Architects. An estimate for construction cost was prepared by Westcott & Harris Architects in the amount of $1,081,022.00. The total time it will take to complete this project will be 300 consecutive calendar days. The City staff agreed that liquidated damages were not needed as an incentive to complete this project.

The bid process resulted in the following three single prime bids:

Midwest Maintenance, Inc.	$ 1,194,892.00
Western Waterproofing Company of America	$ 1,334,090.00
Service One, Inc.	$ 2,147,846.00

City staff has researched references given by the lowest bidder and concluded that they are a competent General Contractors. Sufficient funds are appropriated through the approved financing for this project.

The Parks and Recreation Department requests City Council to direct the City Manager to enter into a contract for $1,194,892.00 with Midwest Maintenance Inc. and adopt a budget amendment to finance the contract.

Upon inquiry of Councilman Sellers, Mr. Willis said that Midwest Maintenance Inc. is located out of Michigan, Western Waterproofing

Company of America is out of Knoxville, Tennessee, and Service One, Inc., is a local company.

Vice-Mayor Field praised the work of Service One Inc. and said that their bid was high because that they were going to have to hire people that type of experience to do the work.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CONTRACT FOR MUNICIPAL BUILDING RENOVATIONS

Mr. Lyle Willis, Contract Administrator, explained how this process started and why it was determined that renovation of the Municipal Building was the most appropriate way to proceed. He then explained how the project would be done in two phases and where employees and equipment would be relocated during each phase, noting that some employees may be able to relocate to the 7th and 8th floors of the City Hall Building after some Building Code problems have been addressed.

He then explained that in September, 1997, City staff solicited bids from 41 contractors to renovate the Municipal Building, 21 of which were certified minority contractors. Fifteen sealed bids as both single prime and separate prime contractors were received on November 3, 1997, at 3:00 p.m. based on design plans and specifications by ENG\6A Architects. An estimate for construction cost was prepared by ENG\6A Architects in the amount of $12,520,000.00 including site work and landscaping. The project specifications require the project to be completed with 26 months from the notice to proceed issued to the Contractor and the Contractor will be assessed $500.00 per day everyday thereafter as liquidated damages. The formal bid process resulted in the following separate prime low bidders:

General Separate Prime	
Rentenbach Constructor, Inc.	$ 5,316,500
Plumbing Separate Prime	
ABL Plumbing and Heating Corp.	$ 749,495
Electrical Separate Prime	
Hayes & Lunsford Electrical Contractors, Inc.	$ 1,150,600
Mechanical Separate Prime	
Triangle Contractors, Inc.	$ 1,320,000
Total Project Cost:	$ 8,536,595

City staff and ENG/6A Architects have researched references given by the apparent lowest bidders and concluded that they are well qualified to compete this project. Sufficient funds are appropriated through the approved financing for this project.

The Parks and Recreation Department requests City Council to direct the City Manager to enter into multiple contracts for $8,536,595.00 with the listed above contracts and adopt a budget amendment to finance the contracts.

Councilman Worley was pleased that the bids came in $4 million under the estimate.

Upon inquiry of Councilman Cloninger about a possible conflict of interest because Hayes & Lunsford Electrical Contractors is a client of his law firm, City Attorney Oast said that he would investigate that concern and make a determination on it before formal action is taken.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ECONOMIC DEVELOPMENT INCENTIVE - LUSTAR DYEING & FINISHING

Mr. John Scaralia, City Development Director, said that he is requesting City Council set a public hearing to consider an economic development incentive for Lustar Dyeing and Finishing. He then explained that Lustar Dyeing and Finishing, located at 144 Caribou Road, is the first local existing business which has made an application for an economic development grant.

He went through the company profile by stating that they (1) are an international manufacturer of knit fabrics; (2) are a subsidiary of Ge-Ray Fabrics from New Jersey; (3) were established in 1972; (4) have been in Asheville for nine years; (5) have a current employment of 295 full-time employees; and (6) have an annual payroll of $7.8 million.

He then explained their request of $3,600,000 which includes a capital equipment expansion of 6 dye machines - $1,989,000; dryer, compactor - $1,107,000; and the expansion of their existing facility of a 6k sq. ft. addition - $500,000.

He reviewed their current revenue of real property totaling $1,632,200 (land - $302,700 and buildings - $1,329,500); personal property totaling $5,362,270 for a total assessed valuation of $6,972,950. The City tax is $39,746.

He explained the following grant and projected revenue:

Assessment	One Year	Five Year
$3.6 M x. 0057	$20,520	$102,600
Level 1 (75%)	$15,390	$ 76,950
*Act. Tax Paid	$44,876	$224,380

*Current taxes of $39,746 plus after-grant tax of $5,130

Combined Assessment (end of grant period)
$10,572,950 (assessed valuation)
$60,266 taxes (plus 51.6% change)

He outlined the additional benefits being job creation (direct new jobs - 20; direct and indirect - 32); wages $500 ($469.14 ESC); community earnings $1,144,000; cost of job - $3,847.50 and economic return per dollar grant - $14,87.

Councilman Hay was pleased that the first grant application is from a local company expanding.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CABLE TELEVISION FRANCHISE RENEWAL

RESOLUTION NO. 97-216 - RESOLUTION MODIFYING SCHEDULED CITY COUNCIL MEETING TIME ON DECEMBER 2, 1997

Ms. Patsy Meldrum, Assistant City Attorney, stated that after a year of negotiations with Intermedia, an agreement has been reached for cable franchise renewal. She explained some of the changes since the 1967 franchise agreement.

She then summarized the cable television franchise renewal by explaining that the franchise will serve local residents well as the information highway evolves. The cable television system is being rebuilt to a capacity of 550 MHz. This will allow up to 80 analog channels and potentially hundred more as digital technology becomes available. Of special significance in this area is the fiber-to-the-feeder system which will ensure excellent picture quality. Activation of the upstream capacity by the Company during the rebuild will allow the system to provide Internet access and a wide range of future services. The Franchise requires the Company to make state-of-the-art improvements as new technologies become available and are implemented.

Other top-notch features of the Franchise include:

- Substantial regulatory oversight, including bonds and insurance provisions, transfer approval, revocation procedures, right-of-way management, and customer service standards with corrective action to be taken if standards are not met.

- Four channels available for local programming over the term. Initial funds of $200,000 for equipment and facilities access, and on-going support for access beginning in year 8 of about $36,000 per year. A portion of such funds will be treated as external costs, pursuant to FCC rules and agreements.

- A state-of-the-art fiber optic institutional network for voice, data, and video transmission to multiple public buildings for City and Asheville City Board of Education use. The ability to extend the network to new sites. The cost of the institutional network will be treated as external costs, pursuant to FCC rules and agreements.

- A franchise fee settlement of $150,000 plus approximately $260,000 in additional franchise fees over what would have been the remaining term of the existing franchise, based upon a 5% franchise fee being paid on gross annual revenues throughout the franchise renewal term.

- A seventeen year term.

She requested City Council schedule on November 25, 1997, three items: (1) an ordinance regulating cable service providers with an opportunity for public comment; (2) an ordinance granting the franchise to Intermedia for the operation and maintenance of a cable system with an opportunity for public comment; and (3) a budget amendment for cable consultant services since we have done more than initially budgeted.

Mayor Martin thanked Ms. Meldrum, City Manager Westbrook and the consultants for the work associated with this franchise renewal. He also thanked Mr. Joe Haight, Intermedia General Manager, for his assistance in working with the City on this franchise agreement.

City Attorney Oast explained that ordinances granting franchises are required to be considered at two different scheduled meetings of City Council. He suggested City Council take action on the items noted by Ms. Meldrum at the November 25 meeting, and that Council reschedule the December 2 meeting to begin at 3:00 p.m. with the only order of business to be the second vote by the outgoing Council on the franchise ordinance.

Councilman Worley moved to waive the rules to take formal action at this meeting on the scheduling of the cable television items. This motion was seconded by Councilman Sellers and carried unanimously.

Vice-Mayor Field moved to schedule on the November 25, 1997, meeting the following: (1) an ordinance regulating cable service providers with an opportunity for public comment; (2) an ordinance granting the franchise to Intermedia for the operation and maintenance of a cable system with an opportunity for public comment; and (3) a budget amendment for cable consultant services, and related items. This motion was seconded by Councilman Worley and carried unanimously.

City Attorney Oast then read a resolution as follows: Whereas, the Asheville City Council has the authority pursuant to G.S. 160A-71 to fix the time and place of their regular meetings; and Whereas, unfinished business will require a change in the time set for the regular meeting of City Council on December 2, 1997. Now, therefore, be it resolved by the City Council of the City of Asheville that the time of the regular meeting on December 2, 1997, shall be set for 3:00 p.m. in the First Floor North Conference of the City Building, and the swearing-in ceremony scheduled for 4:00 p.m. and the formal session scheduled to begin at 5:00 p.m., both in the Second Floor Council Chamber in the City Building, shall remain so scheduled and the 3:00 p.m. meeting shall be adjourned or rescheduled, as appropriate, to those later sessions.

Councilman Worley moved for the adoption of Resolution No. 97-216. This motion was seconded by Vice-Mayor Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 282

Councilman Hay noted that the City has been working on this franchise renewal for two years and felt adopting the agreement on December 2 was the most efficient way to finalize the negotiations.

Mayor Martin asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

BOARDS & COMMISSIONS

It was the consensus of City Council to have the City Clerk prepare the proper paperwork for appointing William L. Schaefer Jr. to the Firemen's Relief Fund.

It was the consensus of City Council to wait until AdvantageWest, Asheville Downtown Association and Asheville Merchants Association appoint their members on the City Business & Development Commission.

It was the consensus of City Council to wait until a new Budget Director is appointed to fill the vacancy on Victoria of Asheville Board of Directors.

OPPORTUNITY CORPORATION REQUEST

Mayor Martin said that he has received a proposal from the Opportunity Corporation of Madison-Buncombe Counties which requests the City of Asheville deed a small piece of property to the Corporation so that they may build a program service, customer intake and administrative building. The property is directly behind the Reid Center Annex playground and consists of approximately 1 and 1-1/2 acres. The Corporation requests the City deed this property for their service building as an "exchange" for the work that they are conducting on the Reid Center Annex. They plan to renovate that building to current standards and use it, in partnership with other community organizations, to operate a full day, year-round Head Start Child Development facility.

City Manager Westbrook recommended City Council refer the request to City staff and let staff review the proposal and report back on the December 9 worksession with a recommendation.

Ms. Vicki Heidinger, Executive Director of the Opportunity Corporation, said that they would be happy to work with the City within that timeframe.

PENALTY ABATEMENT

City Council instructed the City Manager to review the ordinance which makes the City Council the only authority to abate a penalty regarding the lack of obtaining a building permit. They suggested he bring back an ordinance change directing that responsibility to perhaps a review board or some other individual on staff.

CLOSED SESSION

At 4:20 p.m. Councilman Worley moved to go into closed session (1) to discuss matters relating to the location or expansion of industries or other businesses within the area served by the City Council - statutory authority is G.S. 143-318.11 (a) (4); and (2) to establish or to instruct the City staff concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a proposed contract for the acquisition of land by purchase or exchange - statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Cloninger and carried unanimously.

Mayor Martin said that an announcement could be made after coming out of closed session.

At 4:55 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Vice-Mayor Field and carried unanimously.

OFFER TO PURCHASE THE PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY

Mr. Irby Brinson, Parks & Recreation Director, said that the City of Asheville owns property known as Memorial Stadium and property adjacent thereto. The Parks and Recreation Department has been working for several months on the possibility of selling Memorial Stadium and using the revenue to further develop and enhance recreation facilities in the community.

The City of Asheville has received an offer from Robert Camille, Jr. to purchase Memorial Stadium and associated property in the amount of $1,400,000. The sale of this property is authorized under N.C. General Statute sec. 160A-266 which authorizes cities to dispose of real property. The sale is subject to the upset bid process established by N.C. General Statute under sec. 160A-269. Recognizing that approximately $20 million is necessary over the next 15 years in order to enhance recreation facilities in the community, the Parks and Recreation Department has been exploring alternative financing to meet these needs without a tax increase. The revenue generated from the sale of Memorial Stadium will be used to develop and renovate other recreation facilities within Asheville. These include development of a multi-field youth baseball complex at Richmond Hill for use by the North Asheville Little League. In addition, a youth football field would be constructed to be used by the West Asheville Youth Football and the Asheville Rugby Club. The sale of Memorial Stadium also includes the purchase of approximately 100 feet of right-of-way at the end of Richmond Hill Drive into the Richmond Hill property. Funds will also be used to renovate the existing Mountainside Park to include new playground equipment and play area.

He said that he has talked with all the users of Memorial Stadium and they are in support of this proposal.

Mayor Martin noted that the City will still be able to use the existing facility until they break ground and the City will not have to acquire the right-of-way at the end of Richmond Hill Drive - it will be deeded back to the City.

Councilman Skalski was concerned about the economy of scale and referred to a chart based on the 1994-95 revenues and expenditures taken from "Fiscal Summary of North Carolina Municipalities for the fiscal year ended June 30, 1995." He explained that the chart indicates that any city over 50,000 in population has a dramatic increase in taxes and when you annex more land into the City - taxes go up. He also expressed concern over the comprehensive parks and recreation plan.

Vice-Mayor Field asked for a report regarding the increase in population and how it affects Asheville's taxes, in particular if the population goes up from 67,000 to 68,000.

Mr. Brinson responded to questions from Councilman Skalski as they related to other alternatives for the use of Memorial Stadium and the associated property.

It was the consensus of City Council to direct the City Manager to place a resolution authorizing the City Clerk to advertise an offer to purchase the property known as Memorial Stadium and associated property on the next formal City Council agenda.

BROAD STREET REZONING WORKSESSION

Mayor Martin said that City Council had received today an agreement signed by Mr. Dennie Martin, representing the Chestnut Hill Associates, and Arthur Davis, Vincent Ramsuer, Angela Scotchie and Colleen Watkins, representing the Chestnut Hill Neighborhood Association. Said agreement is dated November 17, 1997, and reads: "(1) The Association and Mr. Martin hereby jointly request a 30-day postponement of the public hearing scheduled for November 25, concerning the eight-lot section of Broad Street property. This rezoning request (RM-16 to Office) was petitioned by City Council, and involves two lots owned by Chestnut Partners. Postponement is requested in order to give the parties time to finalize negotiations for the purchase of said two Broad Street lots by Neighborhood Housing Services, for multi-family housing. (2) In consideration for these ongoing negotiations, the Broad Street neighbors will respect Mr. Martin's request that they also ask for postponement of the November 25 hearing regarding their own rezoning petition to change a 12-lot residential area from Office to RM-8 designation. (3) Mr. Martin, in return, agrees not to enter a Protest

Petition regarding the 12-lot rezoning request, pending the closing of the sales transaction with Neighborhood Housing Service."

City Manager Westbrook said that since the City Council had scheduled a Broad Street rezoning worksession for 7:00 p.m. later that evening with the community being invited, he thought Council may wish to postpone the worksession in light of the agreement.

Mayor Martin agreed that the new City Council might benefit from a worksession after they take office and there would be no need for the present Council to review the rezoning issues.

Planning & Development Director Julia Cogburn said that after contacting the neighborhood representative, Angela Scotchie, to see if their would be any objection to City Council canceling the 7:00 p.m. worksession, Ms. Scotchie replied that she did not see any problem and would contact the rest of the neighborhood. Ms. Scotchie did request that City Council postpone the public hearings scheduled for November 25, according to the agreement between the parties. Ms. Cogburn said that a message would be given to Dennie Martin of the worksession cancellation.

Councilman Skalski moved to cancel the 7:00 p.m. Broad Street rezoning worksession scheduled for later that day. This motion was seconded by Councilman Worley and carried unanimously.

It was the consensus of City Council that on November 25, 1997, the two scheduled public hearings involving Broad Street rezoning would be continued until January 13, 1998.

ADJOURNMENT:

Mayor Martin adjourned the meeting at 5:16 p.m.

Magdalen Paulson
CITY CLERK

MAYOR

Tuesday - November 25, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Russell Martin, Presiding; Vice-Mayor Barbara Field; Councilman M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Thomas G. Sellers; Councilman James J. Skalski; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Skalski gave the invocation.

I. PROCLAMATIONS:

II. CONSENT:

At the request of Councilman Cloninger, Item O. was removed from the Consent Agenda to be discussed individually.

At the request of Councilman Skalski, Item D. was removed from the Consent Agenda to be discussed individually.

A. RESOLUTION NO. 97-217 - RESOLUTION ESTABLISHING MINIMUM PRICE FOR PROPERTY AT 110 MORRIS STREET

Summary: The Planning & Development Department, at the request of the Director of Parks & Recreation has recommended that surplus real property at 110 Morris Street be offered for sale. The property recommended for sale has undergone extensive interdepartmental review to insure that the property is not currently being utilized by the City and does not have an identifiable potential for future use by the City.

The parcel has been appraised by Ricky D. McClure at a value of $79,500.00 and that value is the recommended minimum price.

Resolution No. 95-134 adopted by City Council authorized the City Manager to execute an agreement with Russell G. Wood of Beverly Hanks and Associates to market and sell certain City owned properties. The Planning & Development Department recommends listing the subject parcel for sale as part of said agreement.

Approval of the resolution will establish a minimum price for the property at 110 Morris Street and authorize offering the parcel for sale by and through an agreement with Beverly Hanks and Associates.

RESOLUTION BOOK NO. 24 - PAGE 283

B. RESOLUTION NO. 97-218 - RESOLUTION ENTERING INTO A CONTRACT WITH BUNCOMBE CONSTRUCTION CO. INC., BOLTON INC., AND PYATT HEATING AND COOLING INC. FOR THE RENOVATION OF THE OLD WATER MAINTENANCE BUILDING

Summary: In September, 1997, City staff solicited bids from thirty-seven, 16 of which were certified minority contractors, to renovate the Old Water Maintenance Building. Nine sealed bids from both single prime and separate prime contractors were received on October 2, 1997, at 3:00 p.m. based on design plans and specifications by Padgett and Freeman Architects. An estimate for construction cost was prepared by Padgett and Freeman Architects in the amount of $ 1,234,837 including site work and landscaping. The project specifications require the project to be completed in 160 consecutive calendar days with $300 per day for liquidated damages assessed everyday thereafter. The bid process resulted in the following separate prime low bidders:

General Separate Prime -Buncombe Construction Co., Inc.	$ 770,500
Plumbing Separate Prime -Bolton, Inc.	$ 32,650
Electrical Separate Prime -Bolton, Inc.	$ 82,920
Mechanical Separate Prime -Pyatt Heating and Cooling, Inc.	$ 50,300
Total Project Cost:	**$ 936,370**

City staff has researched references given by the lowest bidders and concluded that they are competent Contractors. Sufficient funds are appropriated through the approved financing for this project.

RESOLUTION BOOK NO. 24 - PAGE 284

C. RESOLUTION NO. 97-219 - RESOLUTION ENTERING INTO A CONTRACT WITH JAMES MICHAEL KEYS; KEKO, INC., D/B/A KEYS CONSTRUCTION TO RENOVATE THE RESTROOMS AT THE ASHEVILLE CIVIC CENTER

Summary: In September, 1997, City staff solicited bids from 21 contractors to renovate the restrooms in the Asheville Civic Center, five of which were certified minority contractors. Two sealed bids from single prime contractors were received on October 9, 1997, at 4:00 p.m. based on design plans and specifications by Mathews and Glazer Architects. An estimate for construction cost was prepared by Mathews and Glazer Architects in the amount of $80,651.00. The project specifications require the project to be completed in 90 consecutive calendar days. The City staff agreed that liquidated damages were not needed as an incentive to complete this project. The informal bid process resulted in the following single prime low bidder:

Single Prime Contractor James Michael Keys; Keko, Inc. DBA Keys Construction	$ 93,501.00
Alternate 1	$ 30,646.40
Bid Total	$ 124,147.40
Total Project Cost:	$ 124,147.40

City staff has researched references given by the low bidder and concluded that James Michael Keys; Keko, Inc. DBA Keys Construction is a competent Contractor. Sufficient funds are appropriated in the Civic Center Budget.

RESOLUTION BOOK NO. 24 - PAGE 285

D. RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE THE PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY

This item was removed from the Consent Agenda for discussion.

E. RESOLUTION NO. 97-220 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BUCKEYE CONSTRUCTION CO. INC. FOR THE PROJECT KNOWN AS WEST AREA ANNEXATION SANITARY SEWER IMPROVEMENTS PHASE III, CONTRACT B

Summary: The consideration of adopting a resolution awarding the contract to the lowest responsible bidder, Buckeye Construction Company Inc., in the amount of $340,494.

The City Council approved 3.2 million dollars for sewer improvements. This project is known as West Area Annexation Sewer Improvements, Phase III - Contract B. These funds were to be used for priority sewer improvements in the West Area and Brevard Road annexation area.

The Engineering Department has developed construction plans for the West Area Annexation Sewer Improvements, Phase III - Contract B. The engineer's estimate for this project is in the amount of $410,274.

The project was advertised for one month. On Tuesday, October 21, 1997, at 4:00 p.m., the Engineering Department received two bids for the project.. Therefore, a new advertisement was issued for bids to be opened on November 6, 1997, at 3:00 p.m., which was fifteen days from the first formal bid date. Bids were opened on November 6, 1997, at 3:00 p.m. and three bids were received. The low responsible bidder was Buckeye Construction Company Inc. of Canton, N.C., in the amount of $340,494. This contractor has previously performed contract work for the City. The construction time for this project is identified as 120 calendar days in the contract documents. The contract stipulates liquidated damages in the amount of $250 per calendar day beyond the approved contract time.

RESOLUTION BOOK NO. 24 - PAGE 286

F. RESOLUTION NO. 97-221 - RESOLUTION LEASING A PORTION OF THE OLD WATER MAINTENANCE BUILDING TO ASHEVILLE CITY SCHOOLS

Summary: The consideration of entering into an agreement with the Asheville City Schools to lease a portion of the Old Water Maintenance Building.

The Asheville City Schools now uses a portion of the basement of the Municipal Building for its Maintenance Division pursuant to a 1996 agreement with the City of Asheville. With the renovations of the Municipal Building, the maintenance operations for Asheville City Schools will be moved to a space in the Old Water Maintenance Building. The Asheville City Schools will pay for alternates for construction which will provide them adequate space in order to carry out their functions. The terms and conditions are outlined in the agreement.

RESOLUTION BOOK NO. 24 - PAGE 289

G. RESOLUTION NO. 97-222 - RESOLUTION AUTHORIZING THE EXCHANGE OF CITY-OWNED REAL PROPERTY LOCATED ON BARTLETT STREET (PART OF MURRAY HILL PARK PROPERTY) OWNED BY OVERLOOK APARTMENTS LIMITED PARTNERSHIP

Summary: This resolution will authorize the Mayor to convey City-owned real property on Bartlett Street in exchange for real property owned by Overlook Apartments Limited Company located near Bartlett Street (part of the Murray Hill Park property).

The City conveyed to Overlook Apartments LLC approximately 3 acres of land near Bartlett Street for the construction of 48 units of elderly housing subject to Overlook Apartments constructing a passive park. The city owns approximately 7.4 acres of land surrounding Overlook's property.

Overlook has agreed to exchange a portion of its land near Bartlett Street for a portion of the City's land on Bartlett street in a negotiated exchange whereby the passive park will be constructed as well as a greenway by the City.

The portion of real property owned by the City to be exchanged with Overlook has an estimated fair market value of $21,555. The portion of real property owned by Overlook to be exchanged with the City has an estimated fair market value of $53,583.

Approval of the resolution will initiate the exchange of the properties through the process provided in North Carolina General Statute Section 160A-271.

RESOLUTION BOOK NO. 24 - PAGE 290

H. RESOLUTION NO. 97-223 - RESOLUTION APPROVING AWARD OF CONTRACT WITH H.T.E. INC. TO PROVIDE A COMPUTER HARDWARE/SOFTWARE SYSTEM

Summary: The consideration of a resolution approving the award of a contract to provide computer hardware/software and associated training and technical support.

The City's present central computer systems are obsolete by today's industry standards and, most importantly, are not Year 2000 compatible. Additionally, several of the City's functions which could benefit from the speed and efficiency of computerization currently rely on manual recordkeeping and computation. To remedy these deficiencies, the City used a Request for Proposal process to select the best solution to our major computer automation needs. A team, with staff representation from each of the City's departments, developed central computer requirements for inclusion in an RFP and then evaluated contractors' proposals in response to the RFP. Proposals were solicited from eight companies; six of which responded. The evaluation process included: narrowing of the number of vendors under consideration by ranking of each of their written proposals; demonstrations of their systems by the selected vendors; site visits to other local governments with a vendor's systems in operational use; and extensive telephone discussions with other customers across the country. H.T.E., Inc. was selected as providing the best solution to the City's central computer hardware/software needs. Among the functions provided by the system are: accounting, cash receipts, inventory, purchasing, fixed assets, fleet management, work orders/facility management, personnel, land management, building permits, code enforcement, planning & zoning, business licenses. The initial cost of the H.T.E. system (including: license fees, training, data conversion, project management, technical support, and system hardware and software) is $1,033,962.10. Subsequent year's continuing licensing and support is $79,925.00. These amounts will spread across a five year lease of the system, as subsequent equipment schedules under the City's existing computer master lease agreement with Ontario Investments, Inc.

Funding for this project is budgeted in the Capital Improvement Plan beginning in the current fiscal year.

RESOLUTION BOOK NO. 24 - PAGE 291

I. RESOLUTION NO. 97-224 - RESOLUTION SETTING A PUBLIC HEARING ON DECEMBER 16, 1997, ON AN ECONOMIC DEVELOPMENT APPROPRIATION TO LUSTAR DYEING AND FINISHING LOCATED AT 144 CARIBOU ROAD

Summary: The consideration of a resolution setting a public hearing on an economic development appropriation to Lustar Dyeing and Finishing, Inc.

Lustar Dyeing and Finishing, Inc. is looking to modernize and expand its manufacturing facility located at 144 Caribou Road. Plans call for the addition of 6,000 sq. ft. to the existing building and the major purchase of machinery and equipment in order to increase production. The company plans to hire an additional 20 employees by July 1, 1998. Wages will average $12.50 per hour.

The firm plans to invest a total of $3.6 million within six months in the renovation and equipment upgrades for this project.

Staff recommends that City Council provide a grant under the terms and conditions set forth in the City's current economic development incentive policy. Specifically, it is recommended that the award be limited to no more than the maximum allowed under the current guidelines, estimated at approximately $15,390. per year for five years, for a total of $76,950 based on current assessments.

RESOLUTION BOOK NO. 24 - PAGE 292

J. RESOLUTION NO. 97-225 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT A GRANT FROM THE US DEPT. OF JUSTICE TO REDUCE CRIME AND IMPROVE PUBLIC SAFETY

Summary: The consideration of a resolution authorizing the Mayor to accept grant funds under the U. S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance, Local Law Enforcement Block Grant Program.

The City of Asheville has been awarded a grant under the Fiscal Year 1997 Local Law Enforcement Block Grants Program in the amount of $127,050. A local match of $14,117 is required. The purpose of the grant program is to fund projects, allowed under the grant program, designed to reduce crime and improve public safety. The specific program for which these funds will be used by the City has not yet been determined.

This budget amendment will recognize as revenue the funds for the state grant and appropriate these funds.

City staff recommends adoption of the resolution authorizing the Mayor to accept the award and adoption of a budget amendment to provide for the local matching contribution.

RESOLUTION BOOK NO. 24 - PAGE 293

K. ORDINANCE NO. 2431 - BUDGET AMENDMENT, IN THE AMOUNT OF $147,167, TO SET UP A BUDGET FOR THE GRANT FROM THE US DEPT. OF JUSTICE TO REDUCE CRIME AND IMPROVE PUBLIC SAFETY

Summary: See above Item. J.

ORDINANCE BOOK NO. 16 - PAGE 354

L. ORDINANCE NO. 2432 - ORDINANCE ESTABLISH 25 MILES PER HOUR ON SONDLEY PARKWAY, SONDLEY DRIVE, SONDLEY DRIVE NORTH, SONDLEY WOODS PLACE AND SOUTH SONDLEY DRIVE

Summary: The City Traffic Engineer has performed the necessary traffic analyses associated with the following locations as per the Manual on Uniform Traffic Control Devices and the North Carolina Supplement and is seeking authorization from the City Council to establish these speed limits:

Establish 25 MPH
(1) Sondley Parkway (entirety)
(2) Sondley Drive (entirety)
(3) Sondley Drive North (entirety)
(4) Sondley Woods Place (entirety)
(5) South Sondley Drive (entirety)

These locations have been reviewed over the past twelve months as per the request of residents and motorists who utilize these roadways. Field surveys and speed studies were conducted and data reviewed based upon the 85th percentile speed, which is the speed at or below which 85 percent of the vehicles are moving. This speed is reviewed in relationship to the median speed and the pace speed range. The pace speed range is the range of speeds at which the largest concentration of motorists drive. These speeds were reviewed to address the lack of posted speed limits in the area.

ORDINANCE BOOK NO. 16 - PAGE 356

M. ORDINANCE NO. 2433 - BUDGET AMENDMENT FOR THE FAIR HOUSING ASSISTANCE PROGRAM 11TH YEAR FUNDING

Summary: On April 28, 1987, the City of Asheville was recognized by HUD as having a fair housing enforcement program which is substantially equivalent to that of the Federal Fair Housing Act. The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988.

The City has received approval from HUD of $15,300 for the Fair Housing Assistance Program. This will be the eleventh year of funding through this program. The program is administered under contract by the Asheville-Buncombe Community Relations Council which provides staff support to the Asheville-Buncombe Fair Housing Commission. The City Community Development Division serves as Lead Entity and monitors the program.

ORDINANCE BOOK NO. 16 - PAGE 357

N. ORDINANCE NO. 2434 - BUDGET AMENDMENT TO APPROPRIATE FUNDING TO CONSTRUCT A PARK AT MURRAY HILL FROM REVENUES GENERATED FROM THE SALE OF PROPERTY

Summary: The Parks and Recreation Advisory Board and staff recommend approval of appropriation from the sale of a portion of property at Murray Hill for the development of a park.

Over the past year and a half, through a joint effort of Community Development and Parks and Recreation, an opportunity to develop a public/private venture has occurred with David Douglas and Associates. David Douglas proposed to purchase approximately three acres from the City of Asheville to construct 48 units for senior housing. The appraised value is $136,000 and the commitment for park development, in addition to the appraised value, is $50,000. The funds collected from the sale of the property will be used to construct a special populations park on the remaining land at Murray Hill.

The Parks and Recreation Advisory Board and the Parks and Recreation staff request approval by City Council of the budget amendment.

ORDINANCE BOOK NO. 16 - PAGE 359

O. BUDGET AMENDMENT TO ESTABLISH A PROJECT BUDGET FUNDED FROM CERTFICATES OF PARTICIPATION ISSUES 1997A AND 1997C

This item was removed from the Consent Agenda for discussion.

Mayor Martin said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Field and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION

RESOLUTION NO. 97-226 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE THE PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY

Summary: The Parks and Recreation Department has been working for several months on the possibility of selling Memorial Stadium and using the revenue to further develop and enhance recreation facilities in the community.

Parks & Recreation has been in contact with a local architectural firm who has expressed interest in purchasing the property. The zoning of the property is institutional. The sale of this property is authorized under N.C. General Statute sec. 160A-266 which authorizes cities to dispose of real property. The sale is subject to the upset bid process established by N.C. General Statute under Section 160A-269.

Recognizing that approximately $20 million is necessary over the next 15 years in order to enhance recreation facilities in the community, the Parks and Recreation Department has been exploring alternative financing to meet these needs without a tax increase. The revenue generated from the sale of Memorial Stadium will be used to develop and renovate other recreation facilities within Asheville. These include development of a multi-field youth baseball complex at Richmond Hill for use by the North Asheville Little League. In addition, a youth football field would be constructed to be used by the West Asheville Youth Football and the Asheville Rugby Club. Until construction is started, all activities can continued to use the area. The sale of Memorial Stadium also includes the purchase of approximately 100 feet of right-of-way at the end of Richmond Hill Drive into the Richmond Hill property. Funds will also be used to renovate the existing Mountainside Park to include new playground equipment and play area.

The Parks and Recreation Department recommends approval of a resolution authorizing the City Clerk to advertise an offer to purchase the property known as Memorial Stadium and associated property.

Councilman Skalski was concerned with selling 21 acres of park land in the middle of the City when Asheville needs more parks. He suggested City Council hold a public hearing to get input from the residents on this issue. He also felt that the 10 day upset bid process (established by State law) was too short for a company to prepare a proposal if they were interested in bidding on the property.

Mr. H.K. Edgerton encouraged City Council to hold a public hearing on this matter, especially because of the proximity to Mountainside Apartments.

Mayor Martin noted that even though this area is 21 acres, there is only five acres that can be used as a park because the rest is hillside property.

Upon inquiry of Councilman Hay, Mr. Brinson said that a portion of the funds from the sale will be used to upgrade the playground facilities at Mountainside Apartments.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-226. This motion was seconded by Vice-Mayor Field and carried on a 6-1 vote, with Councilman Skalski voting "no".

RESOLUTION BOOK NO. 24 - PAGE 294

ORDINANCE NO. 2435 - BUDGET AMENDMENT TO ESTABLISH A PROJECT BUDGET FUNDED FROM CERTFICATES OF PARTICIPATION ISSUES 1997A AND 1997C

At the request of Councilman Cloninger, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Skalski and carried unanimously.

Summary: The consideration of a budget amendment, in the amount of $19,025,060 to establish capital projects for improvements to the Municipal Building, Water Maintenance Building, City Hall and economic development projects for the Grove Arcade and Broadlands Building.

This budget amendment will establish project budget appropriations in the City's General Capital Projects Fund as follows:

	Total Appropriation
Costs of Issue	$220,238
Municipal Building	11,071,595
Water Maintenance Building	1,145,370
City Hall	1,528,457
Broadlands Infrastructure	310,000
Economic Development Loan	2,500,000
Grove Arcade Loan	2,250,000
	$19,025,660

Funding will be provided as follows:

Sale of C.O.P.s 97A	$13,771,965
Sale of C.O.P.s 97C	4,587,000
Construction Interest	666,692
	$19,025,660

Funding for debt service for the capital projects has been included in the City's Capital Improvement Plan adopted each year by City Council.

Councilman Skalski said that he was opposed to giving City money for private development.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2435. This motion was seconded by Councilman Worley and carried on a 6-1 vote, with Councilman Skalski voting "no".

ORDINANCE BOOK NO. 16 - PAGE 361

III. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING RELATIVE TO REZONING EIGHT PARCELS ON THE SOUTHSIDE OF BROAD STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Mayor Martin said that City Council had received on November 19, 1997, an agreement signed by Mr. Dennie Martin, representing the Chestnut Hill Associates, and Arthur Davis, Vincent Ramsuer, Angela Scotchie and Colleen Watkins, representing the Chestnut Hill Neighborhood Association. Said agreement is dated November 17, 1997, and reads: "(1) The Association and Mr. Martin hereby jointly request a 30-day postponement of the public hearing scheduled for November 25, concerning the eight-lot section of Broad Street property. This rezoning request (RM-16 to Office) was petitioned by City Council, and involves two lots owned by Chestnut Partners. Postponement is requested in order to give the parties time to finalize negotiations for the purchase of said two Broad Street lots by Neighborhood Housing Services, for multi-family housing. (2) In consideration for these ongoing negotiations, the Broad Street neighbors will respect Mr. Martin's request that they also ask for postponement of the November 25 hearing regarding their own rezoning petition to change a 12-lot residential area from Office to RM-8 designation. (3) Mr. Martin, in return, agrees not to enter a Protest Petition regarding the 12-lot rezoning request, pending the closing of the sales transaction with Neighborhood Housing Service."

Vice-Mayor Field moved to continue the public hearing until January 13, 1998, without further advertisement. This motion was seconded by Councilman Worley and carried unanimously.

B. PUBLIC HEARING RELATIVE TO REZONING TWELVE LOTS LOCATED OFF BROAD STREET, WASHINGTON ROAD AND MADISON AVENUE FROM OFFICE DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

See Item A. above.

Councilman Worley moved to continue the public hearing until January 13, 1998, without further advertisement. This motion was seconded by Vice-Mayor Field and carried unanimously.

C. PUBLIC HEARING TO CONSIDER REZONING PROPERTY ON AZALEA ROAD FROM RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT TO RIVER DISTRICT

Mayor Martin said that on November 24, 1997, City Council received a letter from Mr. Craig D. Justus, attorney representing the petitioner Darius Corbin. Mr. Justus said that his client is currently negotiating with RiverLink to donate one of the parcels to that organization. "The RiverLink Board is meeting December 4, 1997, to consider the donation. Since RiverLink's decision to accept this tract for a potential river park will play a major role in our rezoning application, my client and I would respectfully request that the public hearing be postponed until the Council's second meeting in December."

A representative of the Blue Ridge Parkway noted that the Parkway has a concern relative to an access issue and also a concern regarding land use. She requested Council continue the hearing until January 13, 1997.

Mr. Justus, attorney representing the petitioner, said that the access issue is moot and that the Parkway should have an opportunity to voice their concerns about land use at the public hearing.

Councilman Cloninger moved to continue the public hearing until December 16, 1997, without further advertisement. This motion was seconded by Vice-Mayor Field and carried unanimously.

D. PUBLIC HEARING TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE DEFINITION OF ASSISTED LIVING FACILITIES

ORDINANCE NO. 2436 - ORDINANCE TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE DEFINITION OF ASSISTED LIVING FACILITIES

Mayor Martin opened the public hearing at 5:24 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the Planning and Zoning Commission has recommended an ordinance amendment to the Asheville City Council which deals with the definition of Assisted Living Facilities.

This ordinance amends Chapter 7 -Unified Development Ordinance- as it relates to the definition of Assisted Living Facilities.

The Planning staff has encountered some confusion by users of the Unified Development Ordinance pertaining to the extent and density of development for Assisted Living Facilities. Several zoning districts have density limits that are expressed both in terms of dwelling units per acre for residential development, and in square feet for non-residential uses. In one case, fear that the project would be classified as residential and thus subject to that standard very nearly caused a land sale contract to not be signed. This could have cost the city an assisted living facility development serving citizens and creating jobs.

In another case, a Realtor sought to have Assisted Living Facilities judged to be a residential use, in order to have it as a possible use for some land he was trying to sell that was zoned as Residential Single Family.

The proposed amendment more carefully defines the use, and places it in a non-residential category, which is commensurate with the zoning districts within which it is currently allowed.

The Planning and Zoning Commission unanimously recommended an amendment to Chapter 7 -Unified Development Ordinance- as it relates to the definition of Assisted Living Facilities.

Mayor Martin closed the public hearing at 5:27 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2436. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 263

E. PUBLIC HEARING TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE RIVERFRONT DISTRICT DESIGN COMMITTEE AND RIVERFRONT DESIGN GUIDELINES

ORDINANCE NO. 2437 - ORDINANCE TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING THE RIVERFRONT DISTRICT DESIGN COMMITTEE AND RIVERFRONT DESIGN GUIDELINES

Mayor Martin opened the public hearing at 5:27 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the Planning and Zoning Commission has recommended an ordinance amendment which deals with the Riverfront District Design Committee and the Riverfront Design Guidelines.

This ordinance amends Chapter 7 -Unified Development Ordinance- as it relates to the basis of the design review and composition of the River District Design Committee.

1. River District Review Guidelines: The Unified Development Ordinance (UDO) calls for mandatory review and voluntary compliance with design guidelines in the River District. This review is to be based upon the "River District Design Review Guidelines". These have been drafted by planning staff, and eventually need to be considered and enacted. There is no provision in the UDO for approval of these guidelines. This amendment makes it clear that the design guidelines for the River District will be considered and approved by City Council.

2. Composition of the River District Design Review Committee: There is a detailed provision in the UDO for the composition of the River District Design Review Committee. It was felt by staff that the scope of the

requirement that two members be "design professionals" could be defined to include, for the purposes of the River District Design Review Committee, artists (a predominate sector of the commercial business community presently occupying sections of the river), architects, and engineers. Although it would not be necessary for an artist to be appointed under this category, it may serve to create more flexibility for the council in the use of the one free category of person to be selected at councils discretion.

3. Rules and Records: The UDO clearly spells out the procedures the River District Design Review Committee should follow in its review of a submitted project. However, it makes no provision for other rules of procedure which would delineate such things as policy on absences, what constitutes a quorum, etc. This amendment to the UDO would grant the River District Design Review Committee the right to promulgate rules necessary for its smooth functioning.

4. The Riverfront Plan does not contain actual architectural guidelines. It is a plan for the type and extent of development in the area.

The Riverfront Open Space Design Guidelines contain guidelines which are appropriate in style and scale for the area immediately adjacent to the French Broad River, the development of which is contemplated as recreational. They do not contain guidelines that are appropriate for the redevelopment of the blighted areas of the river core area, not immediately adjacent to the French Broad River, nor, for the rest of the already developed areas of the river district.

Although respecting the spirit and direction of the Riverfront Plan, and the Open Space Design Guidelines is a primary objective of staff in creating the River District Design Guidelines, it was found that these guidelines needed to encompass many issues and problems of redevelopment and existing development which are not included in either document.

For these reasons, references to the Riverfront Plan and the Riverfront Open Space Design Guidelines as containing the Architectural Guidelines which create the standard for the Riverfront Design Review Guidelines against which the Riverfront Design Review Committee must compare plans are proposed to be removed from the UDO. This will allow a broader approach in constructing the Riverfront Design Guidelines. Planning staff recommends that the City hold a public meeting and seek public input concerning the Guidelines. It is further believed that requiring Council approval of the Guidelines (see above) would be an adequate safeguard for the interests of all involved.

The Planning & Development staff recommends approval of this amendment. The Planning & Zoning Commission unanimously recommended City Council amend Chapter 7 -Unified Development Ordinance- as it relates to the Riverfront District design committee and the Riverfront Design Guidelines.

Vice-Mayor Field suggested that the Riverfront District Design Review Committee include a landscape architect as well.

Mayor Martin closed the public hearing at 5:32 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2437, with the inclusion of a landscape architect on the Riverfront District Design Review Committee. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 364

F. PUBLIC HEARING TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) TO ESTABLISH A DEFINITION FOR GRADING IN THE HILLSIDE AREA DEVELOPMENT STANDARDS

ORDINANCE NO. 2438 - ORDINANCE TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) TO ESTABLISH A DEFINITION FOR GRADING IN THE HILLSIDE AREA DEVELOPMENT STANDARDS

Mayor Martin opened the public hearing at 5:34 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is consideration of an amendment to the Unified Development Ordinance to establish a definition for grading in the Hillside Area Development Standards.

During the review of a project subject to the provisions of the Hillside Area Development Standards, several questions arose related to the definition of grading. Due to the limitations of the current definition of grading, many of these questions could not be answered immediately. The proposed revision provides a comprehensive definition of grading, as it is applied with the Hillside Area Development Standards. Those questions regarding what constitutes grading which were raised during application of the Hillside Area Development Standards are addressed in the revised definition of grading. Issues addressed in the revised definition include the removal of trees, the installation of underground utilities, and the creation of stormwater drainage and erosion control ditches. The revised definition of grading will improve administration and enforcement of the Hillside Area Development Standards.

The Planning and Zoning Commission unanimously recommended adoption of the revision to the Unified Development Ordinance to provide an improved definition of grading in the Hillside Area Development standards. The staff of the Planning and Development Department have also recommended approval of the revision.

Mayor Martin closed the public hearing at 5:36 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2438. This motion was seconded by Vice-Mayor Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 369

G. PUBLIC HEARING TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING LEVEL I SITE PLAN REVIEW PROCESS

ORDINANCE NO. 2439 - ORDINANCE TO AMEND CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) REGARDING LEVEL I SITE PLAN REVIEW PROCESS

Mayor Martin opened the public hearing at 5:36 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the Planning and Zoning Commission has recommended an ordinance amendment which deals with the Level I Review process.

The proposed amendments extend the ten working day review requirement to all reviewing city departments, and define the forwarding of information required of the city by outside permitting agencies upon which the issuance of city permits depends, as an action which satisfies the ten working day requirement.

This amendment would not affect Level II or Level III site project reviews in any fashion.

The amendment also allows reviewing personnel to notify applicants by many different means as to the status of their project, including its approval. If a project were to be denied, the applicant would be informed in writing as to why the project was denied, and this notice could be delivered by either Certified Mail, or by Hand Delivery.

The Planning & Development staff recommends approval of this amendment. The Planning & Zoning Commission voted unanimously to recommend City Council amend Chapter 7 -Unified Development Ordinance- as it relates to the Level I Review process.

Mayor Martin closed the public hearing at 5:40 p.m.

Mayor Martin said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Field moved for the adoption of Ordinance No. 2439. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2427 - SECOND READING OF ORDINANCE NO. 2427 TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES REQUIRING ALL-OFF PREMISES SIGNS NOT COMPLYING WITH THE NEW STANDARDS TO COME INTO COMPLIANCE WITHIN SEVEN YEARS

Mayor Martin said that the public hearing and first reading of this ordinance took place on November 11, 1997.

City Attorney Oast said that he received a letter today from Robert B. Long Jr., attorney representing Outdoor Communications Inc., for himself and for Albert L. Sneed Jr., attorney representing Fairway Outdoor Advertising Inc., in which they object to the ruling regarding the protest petition that was issued last week. There was no new information presented and his opinion on that issue has not changed. He will submit a copy of the letter to the City Clerk.

Vice-Mayor Field said that "several people have written to me and asked me about my position. And I believe I was fairly clear at the last meeting, but I'd just like to, one more time, make it very clear that I did vote for the elimination of billboards in the future, and had we had the opportunity, I would have voted for reversing the grandfathering which I had not voted for when we did that in 1993. However, I worked very hard on the sign ordinance with a lot of folks and we came to a consensus in the community, and I feel strongly that those signs that comply with the latest sign ordinance, which I believe is the 1990 or 1991 sign ordinance, should be allowed to remain. I do not think that it's fair for us to do as much in the community, to bring everybody together to come to some kind of consensus, to say this particular issue is okay and then a couple of years later, change our minds. It has nothing to do with billboards. I don't like billboards. I don't particularly think that Asheville should have billboards, but I do feel strongly that people should be able to depend on government, that we should be consistent and that I should be consistent. The other thing that concerns me is that a seven year amortization period means that the next Council election, if there is a will by the other side of this issue, then there may well be three new council members and a couple years later one more council member and the whole thing is reversed again, throwing the whole community back into turmoil again. I just don't want to do that. So, I am going to continue to vote against the ordinance to eliminate all billboards and amortize all existing billboards. We are talking about 22 billboards that are legal based on our 1990 sign ordinance. I think for 22 signs I don't want to tear this community in half again."

Mayor Martin said that he "feels very similarly to Vice-Mayor Field on this. I don't think this is a situation where we are talking about what you do with a end product, but how you go about it. I would really hate to subject the community, once again, to trouble and strife that we have gone through already. My vote will be against the ordinance once again, but it's not that I like billboards, it's just that I think this is not the right way to do it."

Councilman Worley said that he "voted against the ordinance and I intend to vote against it again today. I agree with what Vice-Mayor Field and Mayor Martin have said. I think in addition to that, I feel that it is inappropriate for someone to construct something, which has been done in a proper manner, to remove that without compensation. I understand that we are allowed to amortize so that they can recoup their investment but I'm not sure altogether that that is true. So I intend to continue to vote against the ordinance."

Councilman Cloninger said that he continues "to believe that eliminating all existing billboards within our jurisdiction is the right thing to do. It's a move that is supported by the overwhelming majority of the citizens of Asheville, I believe. I would just again Mayor, make the point that the divisiveness that's been created in this community in the past has been largely due to the issue of on-premises signs, not billboards."

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the second and final reading of Ordinance No. 2427. This motion was seconded by Councilman Sellers and carried on a 4-3 vote, with Councilmen Cloninger, Hay, Sellers and Skalski voting "yes" and Mayor Martin, Vice-Mayor Field and Councilman Worley voting "no".

ORDINANCE BOOK NO. 16 - PAGE 334

V. NEW BUSINESS:

A. RESOLUTION NO. 97-227 - RESOLUTION ENTERING INTO A CONTRACT WITH MIDWEST MAINTENANCE INC. FOR THE CITY BUILDING EXTERIOR RENOVATIONS

Mr. Lyle Willis, Contract Administrator, said that in August, 1997, City staff solicited bids from twelve contractors for the City Building Exterior Renovation. Three sealed bids from single prime contractors were received on October 8, 1997, at 3:00 p.m. based on design plans and specifications by Westcott & Harris Architects. An estimate for construction cost was prepared by Westcott & Harris Architects in the amount of $1,081,022.00. The total time it will take to complete this project will be 300 consecutive calendar days. The City staff agreed that liquidated damages were not needed as an incentive to complete this project.

The bid process resulted in the following three single prime bids:

Midwest Maintenance, Inc.	$ 1,194,892.00
Western Waterproofing Company of America	$ 1,334,090.00
Service One, Inc.	$ 2,147,846.00

City staff has researched references given by the lowest bidder and concluded that they are a competent General Contractors. Sufficient funds are appropriated through the approved financing for this project.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-227. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 294

B. RESOLUTION NO. 97-228 - RESOLUTION ENTERING INTO A CONTRACT WITH RETENBACH CONSTRUCTOR INC., ABL PLUMBING AND HEATING CORP., AND TRANGLE CONTRACTORS INC. FOR THE RENOVATION OF THE MUNICIPAL BUILDING

RESOLUTION NO. 97-229 - RESOLUTION ENTERING INTO A CONTRACT WITH HAYES AND LUNSFORD ELECTRICAL CONTRACTORS INC. FOR THE RENOVATION OF THE MUNICIPAL BUILDING

Councilman Cloninger said that Hayes and Lunsford Electrical Contractors Inc. is an on-going client of his firm and asked that he be excused from voting on that portion. City Attorney Oast said that City Council could vote on three contracts and then take a separate vote on the electrical contract. Therefore, Councilman Worley moved to excuse Councilman Cloninger from voting on the electrical contract due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

Mr. Lyle Willis, Contract Administrator, said that in September, 1997, City staff solicited bids from 41 contractors to renovate the Municipal Building, 21 of which were certified minority contractors. Fifteen sealed bids as both single prime and separate prime contractors were received on November 3, 1997, at 3:00 p.m. based on design plans and specifications by ENG\6A Architects. An estimate for construction cost was prepared by ENG\6A Architects in the amount of $12,520,000.00 including site work and landscaping. The project specifications require the project to be completed with 26 months from the notice to proceed issued to the Contractor and the Contractor will be assessed $500.00 per day everyday thereafter as liquidated damages. The formal bid process resulted in the following separate prime low bidders:

General Separate Prime	
Rentenbach Constructor, Inc.	$ 5,316,500.00
Plumbing Separate Prime	
ABL Plumbing and Heating Corp.	$ 749,495.00
Electrical Separate Prime	
Hayes & Lunsford Electrical Contractors, Inc.	$ 1,150,600.00
Mechanical Separate Prime	
Triangle Contractors, Inc.	$ 1,320,000.00
Total Project Cost:	$ 8,536,595.00

City staff and ENG/6A Architects have researched references given by the apparent lowest bidders and concluded that they are well qualified to compete this project. Sufficient funds are appropriated through the approved financing for this project.

The Parks and Recreation Department requests City Council to direct the City Manager to enter into multiple contracts for $8,536,595 with the listed above contracts.

Upon inquiry of Councilman Hay, Mr. Willis outlined what is done to investigate a contractor, noting that the general prime is the contract expediter.

Councilman Worley was pleased to have award a bid that is $4 million less than the estimate.

At the request of Councilman Cloninger, Mr. Willis explained the track record of Rentenbach Constructor, Inc.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved to adopt Resolution No. 97-228. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 295

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-229. This motion was seconded by Councilman Hay and carried unanimously (Councilman Cloninger was excused from voting).

RESOLUTION BOOK NO. 24 - PAGE 296

C. **ORDINANCE REGULATING CABLE SERVICE PROVIDERS**

ORDINANCE GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA) FOR THE OPERATION AND MAINTENANCE OF A CABLE SYSTEM

RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A SETTLEMENT AGREEMENT WITH BRENMOR CABLE PARTNERS, L.P. (d/b/a INTERMEDIA) AND TELE-COMMUNICATIONS INC. (UACC MIDWEST, INC., d/b/a TCI) REGARDING FRANCHISE FEES

ORDINANCE NO. 2440 - BUDGET AMENDMENT, IN THE AMOUNT OF $30,000, FOR CABLE CONSULTANT SERVICES

Summary of ordinance adopting regulations for cable service providers located in the City of Asheville:

The City of Asheville does not now have an ordinance regulating cable service providers. Article 8 of Chapter 160A of the North Carolina General Statutes authorizes North Carolina cities to adopt ordinances in the exercise of police power delegated to them. N. C. Gen. Stat. sec. 160A-319 authorizes North Carolina cities to grant franchises to public enterprises, including, but not limited to, cable television systems. Federal and State law authorize cities to regulate cable service providers in other ways. This ordinance would include provisions regarding the granting of franchises to cable service providers and regulations regarding their use of the public- rights-of-way.

The City Manager and the City Attorney's Office recommend adoption of the ordinance regulating cable service providers.

Summary regarding granting a cable television franchise to Brenmor Cable Partners (d/b/a Intermedia):

At an election held on July 28, 1967, the citizens of the City of Asheville approved, by referendum, the granting of a franchise to Thoms Broadcasting Companies, Inc., for the construction and operation of a community antenna television system in the City of Asheville. The cable television franchise granted to Thoms Broadcasting Companies, Inc., has been transferred to successive franchisees and Brenmor Cable Partners, L.P. (d/b/a InterMedia) is the current franchise holder.

That franchise was granted for thirty five (35) years, which time period would end in the year 2002. Many technological advances have occurred and various regulatory laws have changed since 1967. As part of those technological advances, InterMedia is in the process of completing a rebuild of the cable system within its franchise areas in the City of Asheville and in Buncombe County.

As a result of the rebuild of the cable system, InterMedia requested that the City of Asheville enter into renewal negotiations. Based upon technological and regulatory changes since 1967, the City of Asheville was also interested in negotiating a renewal of the franchise terms and conditions. The City of Asheville and Brenmor have completed negotiations and have agreed to proposed terms and conditions for a franchise renewal to present to the City Council of the City of Asheville for receipt of public comments on the proposed franchise renewal and consideration by the City Council of an ordinance granting the franchise renewal to InterMedia.

The proposed franchise renewal includes, among other provisions, major terms and conditions as follows:

1. The rebuild of the cable system will increase capacity from 350 Megahertz to 550 Megahertz. This capacity will allow up to 80 analog channels, with 57 channels being activated upon

completion of the rebuild, and potentially hundreds more channels as digital technology becomes available.

2. The rebuilt system will use fiber optics which will ensure excellent picture quality.

3. Activation of the upstream capacity of the cable system during the rebuild will enable the cable company to provide Internet access and a wide range of future services to subscribers.

4. Four channels will be dedicated solely for governmental, educational and/or public access programs as designed by the City of Asheville. InterMedia will provide $200,000 for equipment and facilities for the access channels. In addition, InterMedia will provide on-going support for the access channels in the amount of about $36,000 per year, beginning in the eighth year of the franchise term.

5. A-state-of-the-art fiber optic institutional network is included which can provide voice, data and video transmission to multiple public buildings for use by the City of Asheville and Asheville City Board of Education.

6. The franchise term includes the next four years and eight months of the 1967 franchise and a new term of twelve years and four months, for a total of seventeen years.

7. Franchise fees will be paid to the City of Asheville by InterMedia in the amount of 5% of the gross annual revenues from the cable system in Asheville.

8. A requirement is included that InterMedia make state-of-the-art improvements as new technologies become available and are implemented in areas served by InterMedia which are comparable to the cable system in the City of Asheville.

9. Other terms include regulatory oversight, bonds and insurance provisions, transfer approval requirements, revocation procedures, management of the public rights-of-way and customer service standards.

The City Manager and the City Attorney's Office recommend consideration and approval of the ordinance granting the franchise to InterMedia.

City Manager Westbrook introduced Ms. Jean Rice, partner of Rice, Williams & Associates, the firm which provided consulting services in the negotiations of a franchise renewal with Brenmor Cable Partners, L.P. (d/b/a Intermedia).

Ms. Rice gave City Council a brief overview of proposed cable television ordinance and franchise and the highlights of the entire package. She reviewed the changes in the cable television industry and industry factors. She reviewed the renewal process which involved a community needs assessment, request for proposal and renewal proposal. It has taken about 2 years to work through the details of the proposal and their main concern was to keep the subscriber cost low.

She then outlined the major key elements:

(1) Rebuild - 80 channels (550 Mhz); fiber to the feeder design; 1,000 homes per node design; upstream capacity from nodes to be activated at completion of the rebuilt; standards for supervision of construction and cut over plan to minimize disruption; subscriber notification of construction schedule; rebuilt construction completion in one year; stereo signals; service to all residences meeting a density of 20 homes per mile or proportionate distance; back-up power at the headend and at every fiber node; ongoing technical standards; detailed construction standards; emergency alert continuation and upgrade; and a state of the art clause that will keep Asheville current with similar size cities.

(2) Access - three access channels to be provided after rebuild and one for expansion; prior to rebuild, Channel 10 to be made available for access; access equipment - $200,000 for initial equipment; ongoing support and replacement for equipment of 15 cents per month per subscriber starting in year 8 (minimum of $360,000); company to provide free drops to public buildings; and closed circuit programming to be available to non-I-net sites.

(3) Institutional Network - company to install and maintain fiber I-net to 21 city and educational sites; 4 fibers to each location; I-net to support video, voice, and data applications for governmental and educational purposes; capability to add to the network in the future for the cost of construction to any new sites; estimated incremental cost of $380,000; and company to maintain the I-net.

(4) Consumer Practices - 57 active channels after the rebuild; City right to regulate rates retained; FCC standards to be complied with; outage rebate for outages of 6 hours or more; company will respond to repair calls with 24 hours; parental control; and business office in the City.

(5) Term - 5 years of existing term; and 12 years thereafter.

(6) Franchise Fee - 5% of gross revenues; and $150,000 plus over $200,000 over next five years.

(7) Regulatory Provisions - transfer and revocation provisions; insurance and bond requirement; indemnification provision; and City's rights reserved.

Ms. Rice then answered various questions and comments from Council, some of which were the definition of gross revenue, competition by other companies, the difference of between 550 digital and 750 analog; what the contract offers the City; state of the art clause; what is the fiber to feeder design; the uniqueness of the Institutional Network; the reason why the City would want to enter into the franchise agreement with one company for 17 years; would a subscriber have to have a digital television set to get digital channels; the reasoning behind a 17 year franchise agreement; what the $200,000 for initial equipment might consist of; the cost to equip the 21 sites and will the equipment last through the term of the franchise agreement; what the value is to the City with this franchise agreement; what type of increases could be passed onto the subscriber; and how the franchise agreement can be reviewed.

When Ms. Rice was asked about the state of the art clause, she said that it would be maintained equivalent to other Intermedia systems in communities of similar size in the three-state area of the Carolinas and Georgia - not the whole country.

When Ms. Rice was asked what would be the cost to equip the 21 sites with the initial equipment for I-net, her response was inconclusive.

Upon inquiry of Councilman Skalski about what the typical cable rate if increase over the next 10 years would be, Ms. Rice said that it was estimated that it might go up about 105%. That would mean a typical current monthly rate of $30 would increase to about $60. Councilman Skalski stated that he had a real problem with negotiating a 17 year long contract with so many variables and having little control over the rates.

Councilmen Hay and Skalski asked if other cable companies could have been approached for competitive quotes - either now or later. Ms. Rice said that no one else would be interested at this time. Both Ms. Rice and City Manager Westbrook stated that it would be unlikely that any other company would come into the Asheville market within the 17-year life of this proposed contract currently being negotiated with Intermedia. One of the reasons, continued City Manager Westbrook, was that a new company would have to negotiate with Intermedia to purchsae the cable, in the ground, from Intermedia.

City Manager Westbrook said that the I-net did not include the City's elementary schools, only the middle and high school.

When Councilman Hay asked how important was it to the cable company to renegotiate the franchise now, Ms. Rice said to some extent they have started their rebuild and it is somewhat more to our benefit given the franchise fees at this point in time and the I-net construction.

Upon inquiry of Councilman Cloninger, Ms. Rice said that cable digital will not require more transmission towers.

Councilman Skalski felt City Council needed more time within which to review this contract.

Upon inquiry of Mayor Martin, Ms. Rice said that given the market here and what impact you wanted on the rate, which was low, she felt this was a good contract.

Assistant City Attorney Patsy Meldrum read the revised definition of "gross annual revenues" noting that another revision to the ordinance is language on how transfers are to occur.

Ms. Meldrum then reviewed with Council the resolution which would authorize the Mayor to execute a settlement agreement with InterMedia and TCI regarding franchise fees.

The 1967 franchise requires that the franchise holder pay to the City of Asheville 6% of the gross monthly service charges collected annually for providing the radio and television signals over the cable system within the corporate limits of the City of Asheville. Under the 1967 franchise, that payment was deemed to be full compensation for use of the City's property rights, services rendered, supervision and inspection of equipment and facilities.

Concerns had been raised by the City of Asheville regarding whether or not the City had been paid all of the fees due under the 1967 franchise. The City of Asheville, Tele-Communications, Inc. (UACC Midwest, Inc., d/b/a TCI), and the current franchise holder, Brenmor Cable Partners, L.P. (d/b/a InterMedia) have reviewed the language of the 1967 franchise and franchise fee payments made to the City of Asheville during the last few years. As a result of discussions by the parties regarding this issue, the City of Asheville, InterMedia and TCI have reached an agreement to settle any concerns regarding prior payments of franchise fees under the terms of the 1967 franchise.

The agreement would result in a total cash payment to the City of Asheville of $150,000, payable in three installments of $50,000 over the next three years. In addition, the City and InterMedia have negotiated terms and conditions of a franchise renewal which include more specific language regarding the payment of franchise fees from the gross annual revenues of the cable system in the City of Asheville. Those new terms and conditions will result in the City of Asheville receiving approximately $260,000 in additional franchise fees over what would have been the remaining term of the 1967 franchise.

A settlement agreement has been prepared to reflect the understanding of the parties.

The City Manager and the City Attorney's Office recommend approval of the settlement and of the resolution.

When asked how the proposed settlement amount was arrived at, Ms. Meldrum said that it was based on an audit done by the Consultants Rice & Williams. Ms. Meldrum said that the audit only reached back over the past three years.

Ms. Meldrum then summarized the budget ordinance amendment would transfer $30,000 to the account for payment of services to the cable television consultant.

The City of Asheville has previously entered into an agreement with Rice, Williams Associates for the provision of consulting services in the negotiations of a franchise renewal with Brenmor Cable Partners, L.P. (d/b/a InterMedia). In addition, Rice, Williams Associates has furnished other services regarding franchise fee payment review and rate review for the cable television franchise with InterMedia.

Due to the length of the negotiation process with InterMedia for the franchise renewal and other review matters which are ongoing, additional funds are needed to pay for those services. This budget ordinance amendment would authorize an increase of $30,000 for the budget for these services during the next several months.

Staff recommends adoption of the budget ordinance amendment.

Upon inquiry of Councilman Hay about the urgency of adopting these items, Ms. Meldrum said that the reason is that it has taken a couple of years to get to this point. Basically this process started with this City Council two years ago. During those two years Council has been kept informed of the different steps which started with the community needs assessment, compliance audit, the audit of the franchise fees, putting together the request for proposal, and their response. All through that two year process Council has been tracking the progress. Staff is trying not to lose the memory bank process that might occur and that is the reason why the timing is so important.

Councilman Hay asked if it would be any harm to the negotiating process if Council needed a couple more months to educate the new Council members about this issue. Ms. Meldrum said there could be some impact on that because things change over time, like a change in their corporate structure or changes in technology. She felt that was difficult to forecast.

At 7:35 p.m., Vice-Mayor Field asked to be excused for a prior commitment regarding her job. Therefore, Councilman Hay moved to excuse Vice-Mayor Field. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilman Cloninger felt that City Council needed to postpone voting on these matters until they have had ample opportunity to review the documents which City Council has recently received. He complimented Mr. Haight, staff and the consultant for the hard work and time that they put into the documents. He felt that if this is a good agreement then it will stand the test of public scrutiny and if the agreement needs improvement then that public scrutiny will help Council improve it.

Councilman Skalski agreed that these matters should be postponed until Council, as well as the public, has had an opportunity to review the documents. He further stated that he had only received the draft of the proposed franchise agreement 2-1/2 days ago, late Saturday morning. He said that he had a great many questions himself and from the public which he could not answer. One week was not enough time to negotiate a contract this large. The new Council would take office in one week and he could see no reason why the new Council couldn't continue on with this matter, noting that surely it would be at least $200 million over 17 years.

Councilman Worley stated pros and cons relative to continuing these matters. He noted this Council has been very involved with the negotiations over the past two years. He offered a proposal to go forward and vote on these matters today recognizing that it is not the final vote. The final vote will be taken in one weeks and if Council's questions and concerns are not answered within the week, then Council can postpone action at that time. If the questions and concerns are answered, Council can then take a final vote.

Councilman Cloninger felt City Council should have an opportunity to discuss these matters at a worksession along with a public hearing at a regular Council meeting. Therefore, Councilman Cloninger moved to table these matters until such time as the new Council members take office and discuss scheduling dates. This motion was seconded by Councilman Skalski and failed on a 3-3 vote, with Councilmen Cloninger, Hay and Skalski voting "yes" and Mayor Martin and Councilmen Sellers and Worley voting "no".

Mr. Joe Haight, General Manager of Intermedia, spoke at length about the system they are installing along with the benefits to both the cable company and the City if they enter this franchise agreement. He then outlined some statistics regarding the cable system.

At 8:00 a.m., Mayor Martin announced a 10 minute break.

Upon inquiry of Councilman Hay, Mr. Haight said that if Council postponed action on these matters for a couple of months, it would change his schedule. He would have to know that there was a contract in place before he could proceed. He noted they proceeded in a good faith. He hoped that if the agreement was not signed, that his company would go forward with the rebuild, but it would probably not have some of the benefits to the City.

Mr. Haight then responded to several questions and comments from Council and the public. He defended his company's decision to limit the system band width to 550 Mhz rather than the 750 Mhz being built by many other cable systems around the country. He acknowledged that the additional 200 Mhz in other systems is reserved for advanced digital services. He said that Intermedia's proposed system for Asheville would concentrate on delivering conventional alalog TV programming only. He said, repeatedly, that the 550 Mhz system could employ digital compression to squeeze more channels out of the 550 band width. He said that the cost of going digital over the I-net would be born by the City.

When Councilman Skalski inquired as to what the current yearly gross sales were, Mr. Haight responded that in the Asheville market, Intermedia currently has 31,000 subscribers, with an average monthly bill of $31. Mr. Haight said that Intermedia's gross revenues for 1997 would be approximately $7.8 million.

Mr. Chris Peterson spoke in opposition of the franchise agreement and expressed why he felt the agreement was not a good deal for the City of Asheville.

Mr. Wally Bowen asked, and Mr. Haight responded, to several questions relative to the franchise agreement. Mr. Bowen urged Council not to vote on these matters until more public input could be obtained. He felt this is a very complex issue and it requires time to study. He also felt the longer Council waits to review the agreement, the stronger the City's position is for possible other competitors to come in.

Mr. Charlie Patton, subscriber, felt that City Council should depend on City staff and the consultants who are technically informed. He thought Council should vote on the matter.

Mr. Mark Rosenstein, volunteer of Mountain Area Network, suggested City Council delay any decision on this matter that will affect the community for more than the 17 years of the franchise agreement. He felt the public has not had an opportunity to review the agreement and comment accordingly.

Mr. Steve Curtis, Contractor for the current cable operator and other cable operators in Western North Carolina, urged City Council to proceed with voting on these matters so the City won't be left behind and not get some of the benefits of the franchise agreement.

Mayor Martin said that the City has a professional staff and a qualified consultant hired to negotiate these documents. If they feel the contract is the best contract the City can obtain, then he felt we should listen to them.

Councilman Sellers said that he would have to rely on staff's recommendation on this complex contract.

Mr. Phil Davis urged City Council not to vote on these matters tonight.

Mayor Martin said that members of Council have been previously furnished with a copy of the ordinance regulating cable service providers and it would not be read.

Councilman Worley moved to adopt the ordinance regulating cable service providers. This motion was seconded by Councilman Sellers and failed on a 3-3 vote, with Mayor Martin and Councilmen Sellers and Worley voting "yes" and Councilmen Cloninger, Hay and Skalski voting "no".

City Attorney Oast informed City Council that since the ordinance failed, proceeding with the ordinance granting a franchise and the resolution authorizing the Mayor to execute a settlement agreement would not be necessary.

Councilman Hay suggested that the first order of business when the new Council takes office should be this matter.

Mayor Martin said that members of Council have been previously furnished with a copy of the budget amendment ordinance for the cable consultant services and it would not be read.

Councilman Hay then moved to adopt Ordinance No. 2440. This motion was seconded by Councilman Skalski and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 373

D. RESOLUTION NO. 97-230 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Summary: The term of Osborne Hart expired on November 13, 1997. This resolution will appoint Charles R. Worley to serve a three year term, term to expire November 13, 2000, or until his successor is appointed.

Mr. Everett Parrish voiced opposition to the appointment of Councilman Worley to the ABC Board because of the appearance of impropriety arising out of his membership in a club which met on City property in which alcohol reportedly was consumed. He also felt that the stipend and per diem for meetings may be looked upon as a reward for past civil service duties.

At the request of Councilman Worley, Councilman Sellers moved to excuse Councilman Worley from voting due to a question regarding his official conduct. This motion was seconded by Councilman Hay and carried on a 5-1 vote, with Councilman Skalski voting "no".

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 97-230. This motion was seconded by Councilman Hay and carried on a 5-1 vote, with Councilman Skalski voting "no".

City Clerk Burleson informed City Council that a new Chair for the ABC Board would need to be appointed.

Councilman Cloninger moved to appoint Ralph Morris as Chair of the ABC Board. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 297

E. RESOLUTION NO. 97-231 - RESOLUTION REAPPOINTING ALTERNATE MEMBERS TO THE BOARD OF ADJUSTMENT

Summary: The terms of Rose Rose and Allen Roderick as alternates on the Board of Adjustment expire on January 21, 1998. This resolution will reappoint Mrs. Rose and Mr. Roderick to each serve a three year term as Alternates to the Board of Adjustment. Their terms will expire January 21, 2001, or until their successors have been appointed and qualified.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Skalski moved for the adoption of Resolution No. 97-231. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 298

F. RESOLUTION NO. 97-232 - RESOLUTION CONFIRMING CAROL KING AS THE ASHEVILLE DOWNTOWN COMMISSION REPRESENTATIVE ON THE CITY BUSINESS AND DEVELOPMENT COMMISSION

Summary: Ord. 2309 established the City Business and Development Commission. Said ordinance authorized various agencies to appoint members to the Commission.

The term of Scott Jarvis, the Asheville Downtown Commission representative, has expired and the Downtown Commission has requested that Ms. Carol King be appointed as their representative for a three year term. Her term will expire on October 1, 2000, or until her successor is appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 97-232. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 299

G. RESOLUTION NO. 97-233 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Summary: The term of Leslie Daugherty expires on December 31, 1997.

Councilman Cloninger moved to (1) appoint Martha Fawbush to the Community Relations Council to serve a three year term, term to expire December 31, 2000, or until her successor is appointed; and (2) to forward to the Community Relations Council the applications of Mr. Robert Campbell and Mr. William Bailey who they felt were also exceptionally well qualified. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 300

H. RESOLUTION NO. 97-234 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE DOWNTOWN COMMISSION

Summary: The terms of Alan Levy, Carol King, Beth Lazer and Tim Fierle expire on December 31, 1997. This resolution will appoint Karen Tessier and reappoint Carol King, Beth Lazer and Tim Fierle to each serve a three year term. All terms will expire on December 31, 2000, or until their successors are appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-234. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 301

I. RESOLUTION NO. 97-235 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Summary: The term of Mitch McEntire, as a member of the Firemen's Relief Fund Board of Trustees expires on January , 1998. This resolution will appoint William L. Schaefer Jr. to serve a two year term, term to expire January 1, 2000, or until their successor has been appointed and qualified.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 97-235. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 302

J. RESOLUTION NO. 97-236 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD

Summary: The term of Ben Slosman expires on January 19, 1998. This resolution will appoint Barbara Field to serve a three year term. Her term will begin on January 20, 1998, and expire on January 19, 2001, or until her successor is appointed.

Councilman Skalski felt it was not a good idea for a citizen board to have a City Council member on it.

Mr. Everett Parrish voiced opposition to the appointment of Vice-Mayor Field to the MSD Board because he felt that due to her employment with an architectural firm, there was an implied conflict of interest.

City Attorney Oast said that Vice-Mayor Field would be subject to the same conflict of interest rules on the MSD Board that she is subject to on City Council.

Councilman Hay said he spoke with Vice-Mayor Field concerning Mr. Parrish's concern. He said Vice-Mayor Field is simply not involved in projects at her architectural firm at the stage when infrastructure is being considered, in particular where her vote on the MSD Board would have any connection with any job they may later receive in the future. If her firm does eventually work on projects, that work would come long after the infrastructure decisions have been made.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-236. This motion was seconded by Councilman Sellers and carried on a 5-1 vote with Councilman Skalski voting "no".

RESOLUTION BOOK NO. 24 - PAGE 303

K. RESOLUTION NO. 97-237 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE TRANSIT AUTHORITY

Summary: The terms of Ron Lambe, Althea Goode and David Fort expire on December 31, 1997.

Councilman Cloninger moved to (1) reappoint Ron Lambe and Althea Goode to each serve a four year term, terms to expire December 31, 2001, or until their successors have been appointed; and (2) to appoint Willie McDaniel to serve a four year term. His term will also expire on December 31, 2001, or until his successor has been appointed. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 304

L. RESOLUTION NO. 97-238 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE TREE/GREENWAY COMMISSION

Summary: The term of Leni Sitnick, as a member of the Asheville Tree/Greenway Commission, expired on August 1, 1997, and Joey Moore has resigned leaving an unexpired term. This resolution will appoint Dr. Peter Gentling to serve a three year term, term to expire July 1, 2000, or until his successor has been appointed. This resolution will also appoint Mr. Jerry Bailey to serve the unexpired term of Mr. Moore, term to expire July 1, 1999, or until his successor has been appointed.

City Council will also need to appoint, at the request of the Asheville Tree/Greenway Commission, the non-voting ex-officio members. Those members are: a representative from the N.C. Arboretum, a representative from the N.C. Agricultural Extension Service, a representative of BellSouth, and Dr. Lowell Orbison, 60 Brookwood Road, Asheville, N.C.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-238. This motion was seconded by Councilman Skalski and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 305

M. RESOLUTION NO. 97-239 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF DIRECTORS OF VICTORIA OF ASHEVILLE INC.

Summary: The terms of William L. Schaefer, S. Douglas Spell and Robert G. Wurst, as members of the Board of Directors of Victoria of Asheville Inc., expire on November 29, 1997. This resolution will reappoint Mr. Schaefer and Mr. Spell to each serve a three year term, terms to expire on November 29, 2000, or until their successors have been appointed.

Mayor Martin said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 97-239. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 306

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 11, 1997, AND THE WORKSESSION HELD ON NOVEMBER 19, 1997

Councilman Worley moved for adoption of the minutes of the regular meeting held on November 11, 1997, and the worksession held on November 19, 1997. This motion was seconded by Councilman Skalski and carried unanimously.

B. ORGANIZATION MEETING OF CITY COUNCIL

City Manager Westbrook said that at the recent organization meeting of the Mayor-Elect and two Councilmembers-Elect, it was suggested that the organization meeting be held at 4:00 p.m. on December 2, 1997, in the Public Works Facility at 161 South Charlotte Street. He noted that the Civic Center Banquet Room was not available.

It was the consensus of City Council that the organization meeting be held at 4:00 p.m. on Tuesday, December 2, 1997, in the Council Chamber of the City Hall Building due to the historical nature of the Council Chamber.

Because the cable television issue will not require a second vote on Tuesday, December 2, City Manager Westbrook suggested Council cancel their 3:00 p.m. meeting time on that date. Therefore, Councilman Skalski moved to reschedule the beginning of their December 2, 1997, meeting from 3:00 p.m. until 4:00 p.m. in the Council Chamber on the Second Floor of the City Hall Building. This motion was seconded by Councilman Worley and carried unanimously.

C. REQUEST OF BRIAN FELDSTEIN

After hearing a complaint from Mr. Brian Feldstein, Mayor Martin suggested Mr. Feldstein meet with the City Manager to see if his concerns could be addressed.

D. REQUEST OF WILLIAM IRBY

After hearing a concern of Mr. William Irby about parking in an alley, City Attorney Oast said that he would need to investigate whether the alley in question is a public or private alley. He said that he would investigate the matter and contact Mr. Irby with his findings.

E. CLAIMS

The following claims were received by the City of Asheville during the week of October 31 - November 13, 1997: Gwendolyn Thrasher (Streets), Betty Allen (Water), Bob Scroggs (Water) and Dan Pisano (Water).

The following claims have been received by the City of Asheville during the week of November 14-20, 1997: Julia Curry (Water), Karen Kalka (Civic Center) and Joe Eckert (Inspections).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Martin adjourned the meeting at 9:56 p.m.

Magdalen Burleson
CITY CLERK

Ami Sitnick
MAYOR

Tuesday - December 2, 1997 - 4:00 p.m.

ORGANIZATIONAL SESSION:

Mayor-elect Leni Sitnick welcomed everyone to the organizational session and introduced Dr. Buddy Corbin, Calvary Baptist Church; Rabbi Shmuel Birnham, Beth Israel Synagogue; and Dr. John Grant, Mt. Zion Missionary Baptist Church, each who gave the invocation.

The Honorable Ronald K. Payne, Buncombe County Superior Court Judge, administered the Oath of Office to the following:

Mayor Leni Sitnick
Councilman M. Charles Cloninger
Councilman H. Earl Cobb
Councilwoman Barbara Field
Councilman Edward C. Hay Jr.
Councilman Thomas G. Sellers
Councilman O.T. Tomes

RESOLUTION NO. 97-240 - RESOLUTION OF APPRECIATION FOR MAYOR RUSSELL M. MARTIN

Mayor Sitnick read the resolution.

Resolution No. 97-240 was adopted by acclamation.

Mayor Sitnick presented Mr. Martin with the resolution, a plaque, his name plate and a City pen.

RESOLUTION BOOK NO. 24 - PAGE 307

RESOLUTION NO. 97-241 - RESOLUTION OF APPRECIATION FOR COUNCILMAN JAMES J. SKALSKI

Councilman Cloninger read the resolution.

Resolution No. 97-241 was adopted by acclamation.

Councilman Cloninger presented Mr. Skalski with the resolution, a plaque, his name plate and a City pen.

RESOLUTION BOOK NO. 24 - PAGE 308

RESOLUTION NO. 97-242 - RESOLUTION OF APPRECIATION FOR COUNCILMAN CHARLES R. WORLEY

Councilwoman Field read the resolution.

Resolution No. 97-242 was adopted by acclamation.

Councilwoman Field presented Mr. Worley with the resolution, a plaque, his name plate and a City pen.

RESOLUTION BOOK NO. 24 - PAGE 309

Mayor Sitnick recognized Dr. Wayne Montgomery, Mr. Richard Wood, Mr. Eugene C. Ochsenreiter Jr. , Mr. Larry McDevitt, Mr. W. Louis Bissette and Mr. Kenneth M. Michalove, all former Mayors of Asheville.

Mr. George Breece then read the following letter to Mayor Sitnick: "Congratulations on your election as Mayor of Asheville. You have earned the trust of the people of your community and you deserve to be proud of this tremendous achievement. I look forward to working with you as we seek to improve our country. Hillary and I send our best for a very successful term. Sincerely, Bill Clinton." President Clinton also sent Mayor Sitnick the Presidential Pin which Mr. Breece presented to her in memory of her mother.

ELECTION OF VICE-MAYOR

Councilwoman Field nominated Councilman Hay as Vice-Mayor of the City of Asheville.

There being no further nominations, Councilwoman Field moved to elect Councilman Hay as Vice-Mayor. This motion was seconded by Councilman Cloninger and carried unanimously.

Mayor Sitnick announced that a recess would be held for approximately 20 minutes.

REGULAR MEETING:

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. MOTION SETTING A PUBLIC HEARING ON DECEMBER 16, 1997, RELATIVE TO THE TRANSIT OPERATING ASSISTANCE GRANT APPLICATION

Councilman Cloninger moved to set a public hearing for December 16, 1997, relative to the transit operating assistance grant application. This motion was seconded by Councilwoman Field and carried unanimously.

B. RESOLUTION NO. 97-243 - RESOLUTION FIXING DATE OF PUBLIC HEARING FOR DECEMBER 16, 1997, ON THE QUESTION OF ANNEXATION OF PROPERTY KNOWN AS SECTION 10 OF BILTMORE PARK

Mr. Paul Benson, Urban Planner, said that Biltmore Farms, Inc. has submitted an annexation petition for a 3.9 acre area identified as Biltmore Park, Section 10. This is the tenth annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Section 5.

Upon inquiry of Councilman Tomes, Mr. Benson explained that a voluntary annexation is when the property owner has come to the City and has requested annexation.

Vice-Mayor Hay further explained that as sections in Biltmore Park are developed, they are petitioning for annexation. He noted this is the 10th time they have petitioned for annexation.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mr. Ralph Bishop asked that Mayor Sitnick investigate the possibility of having resolutions and ordinances read at the meetings so that people who attend the meetings know what is taking place.

Mayor Sitnick said that she would be happy to discuss the request with the entire Council.

Councilman Tomes moved for the adoption of Resolution No. 97-243. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 310

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON NOVEMBER 25, 1997

Because former Councilman James Skalski submitted proposed amendments to the November 25, 1997, minutes, it was the consensus of Council to delay approving or amending those minutes until Council has had an opportunity to review the proposed amendments. Mayor Sitnick said that this item would be postponed until the December 16, 1997, meeting.

B. COMMENTS BY MR. RALPH BISHOP

Mr. Ralph Bishop asked for a statement in writing by a "court order" or a "judicial opinion" that (1) they have abolished G.S. 160A-72; (2) specifically stating that G.S. 160A-72 is unconstitutional; and (3) Asheville does not have to keep full and accurate minutes of Council proceedings.

Mayor Sitnick said that she has talked with some "lawmakers" in Raleigh, in addition to some staff at the Institute of Government, and the law says that you must keep accurate minutes on what is done, but not necessarily what is said. Audio and video tapes of our Council meetings are available.

City Attorney Oast said that the Asheville City Council does keep full and accurate minutes within the meaning of the law. Asheville does abide by Robert's Rules of Order and the Supreme Court cited Robert's Rules of Order with approval and that provides specifically that the minutes are a record of what is done and not what is said.

Mayor Sitnick offered to meet with Mr. Bishop, discuss his concerns and see what can be done to satisfy those concerns.

Mr. Daniel Breen suggested the City investigate some computer software that will transcribe tapes verbatim.

C. COMMENTS BY MR. JOHN REDMOND

Mr. John Redmond asked City Council to investigate concerns that the City of Asheville is trying to remove Mr. Jones, owner of Jolly Cab Company, from his property inappropriately.

City Attorney Oast said that the City of Asheville has an on-going civil action against the property which is occupied by Mr. Jones. This is a nuisance abatement action and he is not at liberty to comment on it any more at this time. He said that he would be happy to brief Council on this matter in an appropriate manner and at an appropriate time.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 9, 1997 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman H. Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT AGENDA:

Agreement with N.C. Dept. of Transportation for Improvements at NC 151/Pisgah Highway from Fowler Mountain Road to US 19-23-74

This item was removed from the Consent Agenda.

Agreement with N.C. Dept. of Transportation for Improvements at US 74 from I-40 Interchange to SR 2775 which includes Mine Hole Gap

This item was removed from the Consent Agenda.

Establishing Price for Certain City-owned Parcels of Real Property

Summary: The consideration of establishing minimum prices for certain parcels of surplus real property that have been recommended for sale by the Planning & Development Department.

At the request of Councilwoman Field, Mr. Ed Vess, Field Services Coordinator, said that he would update the tax values to make sure that they were the present tax values and not the tax values from the re-evaluation done four years ago.

Mr. Vess explained that the contract with the Realtor was authorized in 1995, noting that other Realtors could work through that Realtor.

Prescription Drug Card Company Administrator

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Smith Premier Drug Company to administer the Employee Benefit Drug Card.

Budget Amendment re: State Controlled Substance Excise Tax

Summary: The consideration of a request that $30,000 of the State Controlled Substance Excise Tax funds be appropriated to enhance law enforcement activities in fiscal 1997/98.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

AUDIT REPORT

Finance Director Bill Schaefer said that as required by N. C. General Statute 159-34, outside auditors Crisp Hughes Evans LLP of Asheville, North Carolina, performed an audit of the

City of Asheville for the fiscal year ended June 30, 1997. They gave the City a "clean" audit opinion.

Mr. Ed Cody, Engagement Partner, highlighted information about the audit, the audit process and their results.

City Council discussed briefly the City's fund balance and the deficit of the Civic Center.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BUDGET AMENDMENT RE: WATER RESOURCES DEPARTMENT

Assistant City Manager S. Douglas Spell, said that this is consideration of adjusting budget expenditures in order to more accurately match projected revenues for the FY 1998 Water Resources Department budget.

Within the last several weeks it has come to staff's attention of a need to make an adjustment to the FY 1998 Water Resources Department's budget. City staff continually monitors the budget to ensure that revenues and expenditures fall within an acceptable range during the budget year. Based on that review, staff recommended several adjustments to the expenditure side of the budget. These recommendations were presented to the Water Authority at their meeting on November 18, 1997. The Water Authority approved staff's recommendation.

As background, during the preparation of the FY 1998 budget, revenues for utility charges were projected to be $18,253,660.00. The actual utility charges in FY 1996 were $15,510,505.00 and for FY 1997 $15,987,651.00. As a result of the review process, staff forecasts revenues in the current fiscal year to be $16,307,404.00. Staff therefore recommends reducing the revenue budget to meet the forecast above.

A significant portion of the overstated revenue is as a result of a billing adjustment error that occurred during the prior year when the new billing software system was brought on-line. The old system and new system were run in parallel for approximately 30 days when the old system went down and the new system had to be operated alone. The amount of the adjustment error used in the projections for utility charges was in the amount of $783,484.00. This amount projected across the full year resulted in approximately a $2.2 million over-projection of total revenue for FY 1997/1998.

Another item that affects the budget is the requirement as a part of the bond covenants to have 120% of the debt service. The additional 20% "cushion" amounts to the need for an additional $426,400.00.

Finally, an error in the computation estimated for the cost allocation plan resulted in a shortfall of funds. This error resulted in an amount of $229,000.00.

In order to meet the revised forecast revenue projections, the expenditure side of the budget would also need to be adjusted. The net budget adjustments consist of approximately $2.2 million. Over the past month, City staff have begun a review of the monthly reports and yearly trends compared to first quarter data. These trends and forecasts are consistent with the most recent revenue projections provided by the City Finance Department. Staff met with Division Heads in the Water Resource Department to outline the budget adjustments necessary and solicit their comments, support and suggestions.

As a result of those meetings and detailed analysis by Water Resource Department staff, the following strategies were utilized in order to identify budget adjustments:

318

- The filling of vacant positions was postponed with the exception of one meter reader position which was critical to on-going needs in this Division;

- The purchase of new capital equipment was delayed except for several pieces of equipment which were necessary due to safety concerns including backhoe trailers and portable lights;

- Various other line items were reduced based upon historical expenditure in the line item accounts;

- Capital Projects were analyzed in order to determine if any projects could be delayed until future years.

In moving forward with this strategy, it was our goal to not adversely affect any service programs and continue the high level of service the City is committed to providing. Several other line items which have not been reduced were identified and discussed with Division Heads as being essential that we not exceed the budgeted funds. Examples of these pertain to overtime and materials line items. Additionally, the Department has begun to examine various reengineering areas within the Department to provide increased productivity and try to reduce costs by trying to "work smarter".

City staff also looked at a couple of industrial water accounts which have announced closings. Even though these two accounts would have no significant impact on the current year's revenues, staff reviewed these to determine future impact. In discussions with officials at Gerber, it is my understanding that they plan to close their production facility on April 3, 1998. Currently, the City receives approximately $400,000.00 per year in water revenues from the water use by Gerber. Therefore, the impact for FY 1998 is projected to be approximately $100,000.00 for the three months they are expected to be closed during this budget year. The other industry which has a lesser impact is National Linen. It is my understanding that this facility closed on November 1, 1997. However, the water usage from this facility is approximately $48,000.00 per year. Therefore, the revenue impact for FY 1998 is projected to be $32,000.00. Staff will take these into consideration as a part of the revenue projections for next year.

The Regional Water Authority has reviewed and approved these budget adjustments. Upon approval of the necessary budget adjustments, the budget will also require approval by Buncombe County consistent with the agreement dated November 11, 1995.

Mr. Spell answered various questions from Council regarding postponement of filling vacant positions to line item reviews.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

DISPOSITION OF REAL PROPERTY POLICY

Mr. Ed Vess, Field Services Coordinator, said that this is consideration of adopting a Real Property Disposition Policy which has been developed to govern the sale of City-owned real property.

The purpose of the Real Property Disposition Policy is to provide a clear and consistent process for the disposition of City-owned real estate which complies with applicable federal and state regulations; is understandable, accessible and fair to the general public; and maximizes the return to the City considering both monetary and public benefit.

The objective is to assign responsibility within the City for coordinating the disposition of real property, and to establish requirements for determining the availability of real property for disposition; procedures for carrying out the disposition of real property; and, conditions for participation by real estate brokers in the sale of City-owned real property.

Under the proposed policy the Director of Planning & Development will be responsible for maintaining an inventory of City-owned property and coordinating the sale of same.

Approval of the resolution will establish the policy for disposition of City-owned real property.

Councilman Hay felt it was good to have this written policy in place so the public will know exactly what they need to do if they are interested in purchasing some City property.

Upon inquiry of Councilman Tomes, Mr. Vess said that the City never has had a written policy regarding the disposition of City property but has followed State law.

Councilman Tomes felt that since the City never had a policy in the past, he felt he needed additional information on why a policy was needed now. Mr. Vess responded that staff has been working on this policy for a long time and even though the written policy is not critical, it will make a structured and predictable procedure. With a written policy there will be no confusion as to how this process is supposed to work.

Councilwoman Field inquired about the possibility of a staff person becoming a real estate broker so the City wouldn't have to pay a broker's commission. Mr. Vess responded that he was a broker and has handled a number of sales for the City. He did specifically point out the provision in the policy stating the circumstances that a commission would not be paid to a broker.

City Attorney Oast clarified the statement which read "The City Council reserves the right to reject any and all bids and to waive any irregularities in the bidding process."

Mr. Vess responded to questions from Councilman Cobb relative to lots being available for affordable housing and where does the money go from the sale of the property.

Mayor Sitnick wanted staff to make sure that all City property is being used to the highest benefit.

Mayor Sitnick suggested developing an inventory of developable and non-developable properties. With non-developable properties, the City might consider donating some larger parcels for neighborhood parks and smaller parcels to possibly Magic Community Gardens. This way the property is off our maintenance rolls and helping the community.

Mayor Sitnick said that when the City develops an affordable housing policy, the issue of lots for affordable housing and other of issues can be addressed.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

VOLUNTARY ANNEXATION OF SECTION 10 OF BILTMORE PARK

Mr. Paul Benson, Urban Planner, explained to Council that North Carolina law permits cities to annex property if annexation is requested in writing by 100% of the property owners of the property to be annexed. However, these annexations are limited to property within three miles of the existing corporate limits and no closer to another city. If they meet these conditions they may be contiguous to the existing city limits or satellite areas. Typically, annexations are petitioned for 1 of 2 reasons: 1) to extend city services, especially water and sewer, or 2) to permit a restaurant or nightclub to serve alcoholic beverages that are permitted in the city but not in the surrounding county.

In the case of Biltmore Park, the owner, Biltmore Farms Inc. and the City of Asheville entered into an agreement by which the city would pay up to $185,000 in partnership with Buncombe County and Biltmore Farms Inc. to extend a sanitary sewer line along Long Shoals Road from Estes Elementary School to the French Broad River. In return, Biltmore Farms Inc. has agreed to petition for annexation of their property, within 6 months of development.

Including the pending petition, Biltmore Farms has petitioned 10 sections of the residential development, located west of Overlook Road and north of Long Shoals Road, called Biltmore Park. Together, these annexations include 176 acres subdivided into 233 lots. With an estimated contribution to the city tax base of $250,000.00 per lot when developed these annexations have increased the tax base by approximately $58,250,000. This tax base yields over $300,000 per year in property tax to the city at current tax rates.

All improvements such as internal utilities, street and sidewalk construction, street signs and lighting are made by the developer. The city is responsible for normal city maintenance services upon the effective date of annexation.

The Section 10 annexation consists of a single lot of 3.9 acres located north of Holt Lane and contiguous with Section 5, which was annexed on August 21, 1995. A public hearing on this annexation was set by City Council resolution for December 16, 1997. The applicant has requested a six month delay of the effective date to June 16, 1998.

Mr. Benson responded to questions from Councilman Cobb relative to City's standards regarding street construction, the projected final size of the development and if the developer is setting property aside for parks,

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

1997 BELE CHERE REPORT

Mr. Irby Brinson, Parks & Recreation Director, introduced Ms. Joyce Harrison, the 1998 Bele Chere Chair. He then presented the 1997 report of Bele Chere which includes a financial statement and status of Bele Chere Strategic Plan.

In January, 1997, City Council approved the Bele Chere Strategic Plan for the next five years. A part of that plan included an annual report to City Council each year after the festival was completed. He then reviewed an update of the Strategic Plan and a financial statement for the 1997 festival. The financial statement shows that Bele Chere made a total of $64,941. This is due largely to an overall increase in sponsorships of approximately $30,000 from 1996 and better accountability for the sale of beverages. The profit made from Bele Chere will go into the festival fund and will be used to enhance Bele Chere as well as other festivals and special events produced by the department, therefore reducing the City's taxpayers' support of these events. The highlights from the Strategic Plan include a reduction in the number of arrests made in this year's festival compared to 1996. Arrests were down approximately 60%. In addition, a proactive dialogue was established with downtown merchants to discuss on-going issues regarding the festival. This has resulted in better communication and trust by both groups. The Bele Chere Festival could not possibly be produced at its current level of quality without the continued support of all City departments. Without their commitment to this festival, the behind-the-scenes functions of this event would not be possible.

The Parks and Recreation Department recommends City Council's endorsement of the annual report for Bele Chere.

Discussion surrounded whether the City should accept contributions or sponsorship from Harrah's Casino in Cherokee, N.C., for the 1998 Bele Chere Festival, noting that they were a $9,000 sponsor last year.

Councilman Sellers felt that the City should not accept sponsorship from Harrah's Casino in that the City is trying to make Bele Chere more family oriented by trying to phase out alcohol and felt it was not appropriate to accept contributions from a gambling casino. Councilman Cloninger agreed.

Councilwoman Field had a different point of view. She felt that the City should take advantage of whatever sponsorships they could. She did not feel that Asheville would be bringing gambling into the festival, noting that they did support three events last year and she didn't see any gambling at that festival.

Mayor Sitnick agreed that gambling does not go hand-in-hand with family festivals and felt that the City could generate money in other places.

Mr. Brinson responded to questions from Councilman Cobb about the budget figures for the City's involvement with the festival and whether the festival is still manageable.

At the request of Councilman Sellers, City Attorney Oast said that he would prepare a resolution for Council's consideration next week directing the Bele Chere Board not to accept contributions or sponsorship from businesses that promote gambling.

Councilwoman Field suggested remaining silent on this issue and just not accept the contribution. Councilman Cobb agreed with Councilwoman Field.

Mr. Brinson felt that he preferred some specific direction for not only this issue, but other sponsorship issues in the future.

Mayor Sitnick suggested the City Attorney draft a resolution to be discussed at the next formal City Council meeting.

RETREAT

It was the consensus of City Council to hold the City Council/staff retreat on either the weekend of January 9 or January 30, 1998, depending on the availability of Highland Lake or Freedom Retreat.

City Manager Westbrook said that he would meet with the Council Retreat Committee on a draft agenda for the retreat.

Mayor Sitnick suggested a procedure whereby each Council member would create a list prior to the retreat that incorporates all of the issues that they would like to bring to fruition or any new thoughts or concerns that were brought up during the campaign. City Manager Westbrook said that the Committee would work on that procedure.

City Manager Westbrook was given direction from City Council as to what they would like the role of departments to play in the retreat.

RESCHEDULING JANUARY 6, 1998, WORKSESSION

Due to the number of City Council members involved in the newly elected officials school offered by the Institute of Government, Councilwoman Field moved to reschedule the Tuesday, January 6, 1998, worksession to Monday, January 5, 1998. The worksession would begin at 3:00 p.m. in the First Floor North Conference Room in the City Hall Building. This motion was seconded by Councilman Sellers and carried unanimously.

At 5:00 p.m., Mayor Sitnick announced a five minute break.

CITY COUNCIL BOARD/COMMISSION LIAISONS

Mayor Sitnick reviewed the City Council Board/Commission liaison and members list and where appropriate, with the concurrence of the entire Council, assigned Council members. For those appointments requiring Council approval, they will be scheduled at the next formal City Council meeting.

ABC Board	Earl Cobb - Liaison
ADA Compliance Committee	Earl Cobb - Member
Air Pollution Control	Chuck Cloninger - Liaison
Airport Authority	Edward Hay - Liaison
Arts Alliance	Barbara Field - Liaison
Asheville Downtown Commission	Barbara Field - Member Chuck Cloninger - Member
Asheville Regional Housing Consortium	Barbara Field - Chairman
Asheville School Board	Edward Hay - Liaison O.T. Tomes - Liaison
Bele Chere "Where We Go In The Future	Tommy Sellers - Liaison
Boards & Commissions	Edward Hay - Chairman Barbara Field Tommy Sellers
Board of Adjustment	Earl Cobb - Liaison

Buncombe County Drug Commission	O.T. Tomes - Liaison
Carriage Permit Advisory	No liaison
Charlotte Street Small Area Plan	Tommy Sellers
Citizens/Police	Tommy Sellers - (non-voting Member)
City Business & Development	Barbara Field - Member till 10/1/98 Vacancy - Member till 10/1/99
Civic Center Commission	Edward Hay - Liaison
Civic Center Future Task Force	Edward Hay, Chair Tommy Sellers Charles Worley
Civil Service Board	O.T. Tomes - Liaison
Community Relations Council	Edward Hay - Liaison
County Environmental Affairs	Barbara Field - Member (County appoints)
County Solid Waste Committee	Barbara Field - Member (County appoints)
CrimeStoppers	Tommy Sellers - Member
Disability Review Board	Chuck Cloninger, Chair
Electrical Examiners	Tommy Sellers - Liaison
Fair Housing Commission	Earl Cobb - Liaison
Fees & Charges Committee	Barbara Field Tommy Sellers Earl Cobb
Festivals	Leni Sitnick - Member
Firemen's Relief Fund	No liaison
Greenway Commission	Chuck Cloninger. Chair Barbara Field Edward Hay
Historic Resources Commission	Chuck Cloninger - Liaison
Housing Authority	Leni Sitnick - Liaison
Housing & CD Committee	Barbara Field, Chair Edward Hay O.T. Tomes

Land of Sky Regional Council	Leni Sitnick O.T. Tomes - Alternate
Light Up Your Holidays	Tommy Sellers - Liaison
Mayor's PACE Committee	Leni Sitnick Barbara Field Chuck Cloninger
Metropolitan Sewerage Board	Barbara Field - Member
Minority Business Commission	O.T. Tomes - Liaison
Opportunity Corporation	No liaison
Outside Agency Reviews	Tommy Sellers Chuck Cloninger Earl Cobb
Pack Place Board of Trustees	Edward Hay - Member
Planning & Zoning Commission	Tommy Seller - Liaison
Recreation Board	Earl Cobb - Liaison
Mayor's Retreat Committee	Chuck Cloninger Leni Sitnick O.T. Tomes
Resource Centers	Tommy Sellers Earl Cobb O.T. Tomes
Steering Committee for Visioning	Rock McClure - Member Edward Hay - Member
Tourism Development Authority	Barbara Field - Ex-officio Member
Transit Authority	Chuck Cloninger - Liaison O.T. Tomes - Liaison
Transportation Advisory Committee	Chuck Cloninger - Chair Leni Sitnick - Member Earl Cobb - Liaison
Tree Commission	Chuck Cloninger - Liaison

It was the Council's consensus to refer the vacancy on the City Business and Development Commission to the Boards & Commissions Committee.

CABLE FRANCHISE AGREEMENT

At the request of Councilman Cloninger, it was the consensus of City Council to instruct the City Manager to prepare a timetable at the January 5, 1998, regarding the cable television franchise agreement. The timetable should suggest (1) a worksession date for staff and the consultant to bring the new Council members up to date; (2) a date and place for a public educational meeting whereby members of the public could ask questions; and (3) a date and place for a public hearing on the cable TV franchise agreement. City Council agreed that the public meeting should be held in the evening and individuals should try to submit questions and comments prior to the meetings.

AMERICAN HERITAGE RIVER INITIATIVE

Ms. Carol A. Collins, Buncombe County Chapter Chairman of The Preservation of Private Property Rights Alliance of Western North Carolina, read a prepared statement and distributed to Council several documents. Said statement, reads in part: "We ... request that each governing body reconsider their earlier endorsement and promotion of the American Heritage Rivers Initiative and application of the French Broad River as a river so designated. While it is believed that there is considerable honor in the designated title and a possible benefit to tourism, it is apparent that the federal attention and expedited funding is seen as the most desirable benefit to be derived from this designation. However, as citizens are learning of the vagueness of this arrangement, there is considerable growing concern that the honor of the title and the enticement of the federal funding would result in onerous federal government intrusion with all the federal attention from the River Navigator and the 13 federal agencies coordinating the funding and assistance. Many are realizing that when the Departments of Agriculture, ... get involved, there not be 'new regulations' to complicate the situation for property owners who reside in the entire watershed of the French Broad. Because the coordinating agency, the Council on Environmental Quality, is not granted the power to govern or regulate rivers or watersheds within sovereign states, this initiative represents a challenge of the Congress' s powers and rights of states, in line with the protections granted in the Fourteenth amendment. In fact, the issue of the challenge of Congress's power has been central to the outcry about this initiative since it's announcement in the Federal Register last spring. Because American Heritage River nominations are expected for, but not limited to 79 American rivers, ..., we are gravely concerned that in piecemeal fashion the American Heritage Rivers Initiative will rapidly acquire federal jurisdiction of the entire nation's waterways, ports and private property in the broad watersheds. The ... Initiative is so loosely written that it could be interpreted to mean that if a portion of a river is designated, the entire watershed is impacted. This has enormous consequences. With ... respect, our organization contends that only part of the 'river community' has been heard from in Buncombe County ...; and many who earlier endorsed the local application were uninformed about the complex nature and potential complications of the initiative. Representing another dimension of the 'river community' we announce our intention to officially file our request to opt The French Broad out of the controversial competition for designation as an American Heritage River."

After brief discussion, Councilmen Hay and Cloninger, with the consensus of City Council, instructed the City Attorney to prepare a resolution for the next formal Council meeting reaffirming support for efforts to designate the French Broad River as an American Heritage River.

PLANNING & ZONING COMMISSION MEETING LOCATION REQUEST

Chair of the Planning & Zoning Commission Jane Mathews requested that the Planning & Zoning Commission be allowed to use the Council Chamber for their regularly scheduled meetings.

After discussing the pros and cons of the Council Chamber and other alternate meeting places, it was the consensus of Council to pursue this matter further.

MEETING TIMES OF CITY COUNCIL BOARDS AND COMMISSIONS

Mr. Brian Peterson asked City Council to adopt a policy requesting all boards and commissions to meet at times that would not require the volunteer members to leave their jobs to attend the meetings.

Councilwoman Field said that each board and commission is empowered to set their own meeting times.

CLOSED SESSION

At 6:42 p.m., Councilwoman Field moved to go into closed session for the following reasons (1) to prevent the disclosure of information that is privileged or confidential pursuant to G.S. 160A-168, the Personnel Privacy Act - statutory authorization 143-318.11 (a) (1); (2) to consult with an attorney employed by the City Council in order to preserve the attorney-client privilege between the attorney and the Council - statutory authorization 143-318.11 (a) (3) - the parties in the lawsuit about which the Council expects to receive advice are CC&J Associates, the City of Asheville, and the Jackson-Woolsey Neighborhood Association; and (3) to establish, or to instruct the City's staff concerning the position to be taken by or on behalf of the public body in negotiating the price and other material terms of a contract for the acquisition of real property - statutory authorization is 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:32 p.m., Councilman Cloninger moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:32 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 16, 1997 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION BY ALBEMARLE PARK MANOR GROUNDS ASSOCIATION

Mr. Rich Mathews, representing the Albemarle Park Manor Grounds Association briefed Council on the background of Albemarle Park's Centennial. He urged Council to celebrate their Centennial with them and presented each member with a ticket for the upcoming house and grounds tour. He also thanked Council for the opportunity to participate in the neighborhood matching grant program.

B. HOUSING AUTHORITY PRESENTATION

Ms. Annette Coleman, Chairman of the Housing Authority Board of Directors, presented City Council with two checks totaling $76,749.82 for payment in lieu of taxes. This payment brings their total to $1.1 million through 1996. She thanked Council for all of their support and assistance in helping the Housing Authority in its goal to provide affordable housing to our residents in the community.

II. CONSENT:

A. RESOLUTION NO. 97-244 - RESOLUTION APPROVING THE DISPOSITION OF REAL PROPERTY POLICY

Summary: The purpose of the Real Property Disposition Policy is to provide a clear and consistent process for the disposition of City-owned real estate which complies with applicable federal and state regulations; is understandable, accessible and fair to the general public; and maximizes the return to the City considering both monetary and public benefit.

The objective is to assign responsibility within the City for coordinating the disposition of real property, and to establish requirements for determining the availability of real property for disposition; procedures for carrying out the disposition of real property; and, conditions for participation by real estate brokers in the sale of City-owned real property.

Under the proposed policy the Director of Planning & Development will be responsible for maintaining an inventory of City-owned property and coordinating the sale of same.

RESOLUTION BOOK NO. 24 - PAGE 312

B. RESOLUTION NO. 97-245 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH SMITH PREMIER PHARMACY PLAN INC. TO ADMINISTER ITS EMPLOYEE DRUG BENEFIT CARD

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Smith Premier Drug Company to administer the Employee Benefit Drug Card.

Since 1994 the City has contracted with Pharmacy Network National Corporation to administer its drug card. In the past several years there have been several problems with the administration of that card. Attempts to rectify those problems have been only partially successful.

In October, 1996 a letter was given to the current carrier outlining specific problem areas that needed to be addressed to continue its administration of the City's card. As of this date only about half of the problems have been corrected.

Further, since the advent of the card program the City has seen its drug costs increase at a fairly high rate. The proposal from Smith Premier Drug shows approximately a $90,000 per year reduction in plan costs over the current administrator largely based on administrative fees, and drug costs.

One other proposal was considered, but it was marginally more expensive than the recommended contract, and did not adequately address some elements of cost relating to the program.

The cost for this contract is fully budgeted in the employee benefit line item, and will require no additional appropriation of funds.

RESOLUTION BOOK NO. 24 - PAGE 313

C. RESOLUTION NO. 97-246 - RESOLUTION APPOINTING A MEMBER TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE

Summary: At the City Council worksession held on December 9, 1997, the City Clerk was instructed to prepare the proper paperwork to appoint Councilman Earl Cobb as a member of the Americans with Disabilities Act Compliance Committee to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 24 - PAGE 314

D. RESOLUTION NO. 97-247 - RESOLUTION APPOINTING A MEMBER TO THE POLICE OFFICERS & FIREFIGHTERS DISABILITY REVIEW BOARD

Summary: At the City Council worksession held on December 9, 1997, the City Clerk was instructed to prepare the proper paperwork to appoint Councilman Cloninger as the Chairman to the Police Officers & Firefighters Disability Review Board to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 24 - PAGE 315

E. ORDINANCE NO. 2441 - BUDGET AMENDMENT TO ALLOW THE STATE CONTROLLED SUBSTANCE EXCISE TAX BE APPROPRIATED TO ENHANCE LAW ENFORCEMENT ACTIVITIES

Summary: The consideration of a request that $30,000 of the State Controlled Substance Excise Tax funds be appropriated to enhance law enforcement activities in fiscal 1997/98.

The City receives a share of the proceeds from the State Controlled Substance Excise Tax. To date, approximately $37,000 has been received. These funds cannot be used to fund Police Department General Operations and must be appropriated to enhance law enforcement activities. The Police Department has identified specific uses for approximately $30,000 of these funds, at this time. One use will be the preparation of an A.P.D. recruitment video. This action will establish a special appropriation within the Police Department Administration budget in the amount of $30,000. Use of the funds will be monitored to ensure compliance with State requirements.

ORDINANCE BOOK NO. 16 - PAGE 375

F. ORDINANCE NO. 2442 - BUDGET AMENDMENT TO ADJUST EXPENDITURES IN THE FISCAL YEAR 1998 WATER RESOURCES DEPARTMENT BUDGET

Summary: The consideration of adjusting budget expenditures in order to more accurately match projected revenues for the FY 1998 Water Resources Department budget.

Within the last several weeks it has come to staff's attention of a need to make an adjustment to the FY 1998 Water Resources Department's budget. City staff continually monitors the budget to ensure that revenues and expenditures fall within an acceptable range during the budget year. Based on that review, staff recommended several adjustments to the expenditure side of the budget. These recommendations were presented to the Water Authority at their meeting on November 18, 1997. The Water Authority approved staff's recommendation.

As background, during the preparation of the FY 1998 budget, revenues for utility charges were projected to be $18,253,660.00. The actual utility charges in FY 1996 were $15,510,505.00 and for FY 1997 $15,987,651.00. As a result of the review process, staff forecasts revenues in the current fiscal year to be $16,307,404.00. Staff therefore recommends reducing the revenue budget to meet the forecast above.

A significant portion of the overstated revenue is as a result of a billing adjustment error that occurred during the prior year when the new billing software system was brought on-line. The old system and new system were run in parallel for approximately thirty (30) days when the old system went down and the new system had to be operated alone. The amount of the adjustment error used in the projections for utility charges was in the amount of $783,484.00. This amount projected across the full year resulted in approximately a $2.2 million over-projection of total revenue for FY 1997/1998.

Another item that affects the budget is the requirement as a part of the bond covenants to have 120 percent of the debt service. The additional twenty (20) percent "cushion" amounts to the need for an additional $426,400.00.

Finally, an error in the computation estimated for the cost allocation plan resulted in a shortfall of funds. This error resulted in an amount of $229,000.00.

In order to meet the revised forecast revenue projections, the expenditure side of the budget would also need to be adjusted. The net budget adjustments consist of approximately $2.2 million. Over the past month, City staff have begun a review of the monthly reports and yearly trends compared to first quarter data. These trends and forecasts are consistent with the most recent revenue projections provided by the City Finance Department. Staff met with Division Heads in the Water Resource Department to outline the budget adjustments necessary and solicit their comments, support and suggestions.

As a result of those meetings and detailed analysis by Water Resource Department staff, the following strategies were utilized in order to identify budget adjustments:

- The filling of vacant positions was postponed with the exception of one (1) meter reader position which was critical to on-going needs in this Division;
- The purchase of new capital equipment was delayed except for several pieces of equipment which were necessary due to safety concerns including backhoe trailers and portable lights;
- Various other line items were reduced based upon historical expenditure in the line item accounts;
- Capital Projects were analyzed in order to determine if any projects could be delayed until future years.

In moving forward with this strategy, it was our goal to not adversely affect any service programs and continue the high level of service the City is committed to providing. Several other line items which have not been reduced were identified and discussed with Division Heads as being essential that we not exceed the budgeted funds. Examples of these pertain to overtime and materials line items. Additionally, the Department has begun to examine various reengineering areas within the Department to provide increased productivity and try to reduce costs by trying to "work smarter".

City staff also looked at a couple of industrial water accounts which have announced closings. Even though these two (2) accounts would have no significant impact on the current year's revenues, staff reviewed these to determine future impact. In discussions with officials at Gerber, it is my understanding that they plan to close their production facility on April 3, 1998. Currently, the City receives approximately $400,000.00 per year in water revenues from the water use by Gerber. Therefore, the impact for FY 1998 is projected to be approximately $100,000.00 for the three (3) months they are expected to be closed during this budget year. The other industry which has a lesser impact is National Linen. It is my understanding that this facility closed on November 1, 1997. However, the water usage from this facility is approximately $48,000.00 per year. Therefore, the revenue impact for FY 1998 is projected to be $32,000.00. Staff will take these into consideration as a part of the revenue projections for next year.

The Regional Water Authority has reviewed and approved these budget adjustments. Staff will be glad to respond to any questions regarding the proposed budget adjustments. Upon approval of the necessary budget adjustments, the budget will also require approval by Buncombe County consistent with the agreement dated November 11, 1995.

ORDINANCE BOOK NO. 16 - PAGE 377

G. MOTION RELATIVE TO ENDORSING THE 1997 BELE CHERE ANNUAL REPORT

H. MOTION SETTING A PUBLIC HEARING ON JANUARY 13, 1998, TO ESTABLISH A NEW THESHOLD FOR THE PREPARATION OF TRAFFIC IMPACT ANALYSES

I. MOTION SETTING A PUBLIC HEARING ON JANUARY 13, 1998, TO REZONE PROPERTY ON GLENDALE AND SPRINGVALE AVENUES FROM RM-16 TO CI

J. MOTION SETTING A PUBLIC HEARING ON JANUARY 13, 1998, RELATIVE TO LEVEL THREE PLANNING REVIEW FOR THE MEADOWS APARTMENTS- PHASE II LOCATED ON ASCENSION DRIVE IN WEST ASHEVILLE

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER REZONING PROPERTY ON AZALEA ROAD FROM RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT TO RIVER DISTRICT

Mayor Sitnick opened the public hearing at 5:07 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that the original request was to rezone two lots on Azalea Road from RS-2 Residential Single Family Low Density District to River District.

The two parcels of land (PIN Nos. 9668.00-42-4133 and 9668.18-31-2659) are currently vacant. One has been used for placement of rock and soil and filled well above the floodplain and the other adjacent parcel (still in the floodplain) is used as access. However, the only access to these two parcels of land is across a 20 foot bridge that has been indicated to be substandard and on land not owned by the petitioner. This adjacent land is owned by the Blue Ridge Parkway which has not given permission to rezone their property and opposes the rezoning of the two lots. This area is basically farm land and open space and not suitable for any high intensity development. Information received from the Technical Review Committee revealed the infrastructure (water, sewer and street) is basically inadequate for the type of development permitted in the River District. However, MSD has indicated that a 48-inch sewer line does exist on the north side of Azalea Road across from this site. There is a private sewer line that exists underneath the bridge that runs to The Cove, but it would be the developer's responsibility to get permission to tie into that private line. The 2010 Plan designates this area to be parks and open space.

The Planning staff has reviewed the request and recommended to the Planning and Zoning Commission to deny the request. At their November 5, 1997, meeting, the Planning & Zoning Commission voted 5-2 to deny the rezoning request.

On November 6, 1997, the petitioner appealed the Planning & Zoning Commissioner's decision to City Council.

On December 16, 1997, a letter was received by the petitioner's attorney withdrawing "PIN No. 9668.00-42-4133 from his rezoning application out of deference to the Blue Ridge Parkway and to show his intentions to work with RiverLink on turning this area into a river park." The letter also reads that it is his "client's intentions to remove the bridge spanning under the Blue Ridge Parkway Bridge as primary access to the property designated as PIN No. 9668.18-31-2659. Instead, my client intends to construct a bridge across the Swannanoa River to the City of Asheville's specifications, and dedicate that bridge to the City. That bridge could possibly be used by the City's Parks and Recreation Department in their plans for soccer fields on the adjoining land now being negotiated by the City for purchase."

Mr. Ownbey answered various questions from Council, some being, but not limited to, how the Blue Ridge Parkway Overlay relates to this property, if the property would be subject to a traffic impact study and who would make the improvements if the study showed a need for improvements, if floodplain restrictions would apply to this property, if the property is visible from the Blue Ridge Parkway, why would someone want to put a single family home on that property since it is so close to a railroad track, what kind of buffering would be required if the property were developed, and why the petitioner is requested the River District opposed to a Commercial District.

Upon inquiry of Councilwoman Field about this being a possible spot zoning, City Attorney Oast said that only a court can determine whether something is spot zoning or not. He felt that it depends on the facts and circumstances on each case. He has looked at some case law, and under at least one case on facts very similar to this (Godfrey v. Union County), the courts have found spot zoning.

Mayor Sitnick said that City Council has talked about developing the Lake Craig property which would probably be using Azalea Road for access. She questioned how would the developing of the Lake Craig property impact the rezoning of this property. Mr. Ownbey responded that it would depend on the development and whether the City would upgrade Azalea Road since it is a City street.

When Councilwoman Field asked about the amount of traffic Azalea Road could carry, Mr. Ownbey said it could carry about 4,000 cars a day if it were a standard City two lane road (22 feet wide). However, Azalea Road is maybe 16-18 feet in some places.

Mayor Sitnick asked about the reasoning behind the staff's and the Planning & Zoning Commission's denial. Mr. Ownbey said that staff felt it was inappropriate area for any kind of River District development. The 2010 Plan calls for this area to be an open and green space area for low intense development.

Discussion then surrounded the impact of rezoning this property in conjunction with the Lake Craig property, noting that if the City does develop the Lake Craig property for soccer fields, additional traffic would be on Azalea Road.

Councilman Tomes wondered how the City could justify developing parcels adjacent to this piece of property for recreational activities which will have a large gathering and deny the rezoning of this property because of the amount of traffic it will generate on Azalea Road.

Councilman Cloninger pointed out that the City is only speculating about the Lake Craig property.

Mr. Craig Justus, attorney representing the petitioner Darius Corbin, urged City Council to rezone this property noting that the sole issue is whether this piece of property is suitable for the River District. He said that the purpose of the River District is set up to provide flexibility to turn unproductive land that is near the river into productive land. The River District provides incentives for those owners to promote public access and greenways that protect the river resources as well as to provide opportunities for people to actually come to the river and use it. This is a 20 acre tract that has problems being used for residential development. The Planning & Zoning Commission even said that this property is really not suitable for any kind of residential use since it is located close to the highway and the railroad track. He felt the ordinance has built in protections to the river resource as well as promoting opportunities from people to come down and use the river. He said that the 2010 Plan calls for this area to be parks and open space for the reason of holding property for the Lake Craig recreational soccer fields. He felt that an open space and park is not providing any productive uses for the City - no tax benefits and unless the City has the money to buy it, it's not providing any benefits to the public to use it. Regarding traffic, no matter if the property remains zoned RS-2 or River District, they will be problems on Azalea Road. He stressed that the ordinance is built to address these situations - the traffic impact study requirement. He said the buffer overlay is set up and it provides for height restrictions, but it also provides for buffering. He passed out pictures noting that while you're on the Blue Ridge Parkway on a bridge, you can only see the property for two seconds which property is about 1/4 mile away. He felt that with the buffer overlay district that exists to protect the Parkway, that that would be sufficient to address any visibility questions the Parkway may have. There is a large power line that runs through the middle of this property and to move the power line and acquire the easements to move the power line would cost $305,000 - which is another reason why it's not suitable for residential. The N.C. Dept. of Transportation reports that Azalea Road should be able to handle 3-5,000 vehicles per day unless they arrive and depart at the same time.

The following individuals spoke against the rezoning of this property for several reasons, some being, but not limited to: the neighborhood has submitted a petitioned from residents on Azalea Road, Gash Farm Road and Gashes Creek Road opposing the rezoning because of the traffic impact; Azalea Road is very narrow, windy, has blind curves, is caving in at some points and no shoulders; the development proposed is not just a flea market, but a big commercial business; flea markets should not be located in residential areas; the Dreamland Drive-In flea market is only a few miles down the road; the Dreamland Drive-Inn already has a lot of traffic congestion; the rezoning will add a tremendous traffic impact on Swannanoa River Road which is already a busy road; traffic safety of children who ride bikes at Recreation Park and people who bring their pets by the River; when tourists drive on the Parkway, we don't want them to see a flea market; this crossing is the only open area viewed along the Parkway in the Asheville area and this is significant to the Blue Ridge Parkway because there are only four river crossings in 470 miles of the Parkway; and some homes can see this property.

Nancy Richards, 23 Gash Farm Road (passed out a newspaper article)
Davon Heath, 15 East Hawthorne Drive - Beverly Hills Area (passed out pictures in front of Dreamland Drive-Inn showing congestion)
Susie Lapson, 13 Gash Farm Road (passed out pictures showing the view from the Blue Ridge Parkway)
Laura Rotegard, Community Planner representing the Blue Ridge Parkway
Brian McKenna, 137 Beverly Road in Beverly Hills

City Attorney Oast said that Council has heard indications on what the property will be used for. He reminded Council that if they rezone the property, any use in the River District is allowed. Councilman Cloninger read the uses allowed in the River District.

Upon inquiry of Vice-Mayor Hay, Senior Planner Gerald Green briefed Council on the status of the design guidelines for the River District.

Upon inquiry of Councilwoman Field, Assistant City Manager Doug Spell indicated that the parking lots can be an impervious surface like gravel.

Ms. Bette Jackson, 128 Beverly Road and President of the Beverly Hills Neighborhood Association, said that when the Lake Craig property issue was first in the paper she spoke with Ms. Julia Cogburn and they agreed that there would be a team effort to work on the traffic patterns. She felt that they will be part of the planning process.

Mr. Darius Corbin, petitioner, presented City Council with a petition containing 8 names of people who live within 400 feet of the proposed rezoning which "do not oppose the flea market location on Azalea Road or the rezoning."

Mayor Sitnick closed the public hearing at 6:20 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Sellers moved to rezone PIN No. 9668.18-31-2659 from RS-2 to River District. This motion was seconded by Councilman Tomes.

Councilman Sellers said that he felt that even though he is concerned about the traffic and respects the neighbors concerns, he feels that with the proper buffering the area is suitable for a River District rezoning.

Vice-Mayor Hay felt that there was a lot of debate about how to design the River District during the UDO process and Council ended up with a split vote. He was concerned that any thing can go in the River District and there is no other District in the UDO that is as wide-open as the River District.

Councilman Cloninger felt this is an issue of viewshed protection for the Blue Ridge Parkway. He felt that the previous Council took aggressive action to try to protect the viewsheds along the Parkway and if Council were to rezone this property that would be inconsistent with the previous efforts made to protect the scenery along the Parkway.

Councilman Cobb felt that while the property is not developed yet, with the growth in Asheville we need to protect our neighbors.

Mayor Sitnick said that she has great respect for the 2010 Plan in that it helps create our visions for the future. She too was concerned about the traffic on Azalea Road and will also be concerned with any potential development of the Lake Craig property as well. She expressed concern about the infrastructure and given the high intensity of the development proposed, she felt it would be a burden on the existing infrastructure already there.

Councilwoman Field stressed that Azalea Road needs to be looked at for improvements regardless what happens with this rezoning request.

Mayor Sitnick then called for a show of hands on Councilman Seller's motion. Said motion failed on a 3-4 vote, with Councilwoman Field and Councilmen Sellers and Tomes voting "yes" and Mayor Sitnick, Vice-Mayor Hay and Councilmen Cloninger and Cobb voting "no".

B. PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT APPROPRIATION TO LUSTAR DYEING AND FINISHING LOCATED AT 144 CARIBOU ROAD

RESOLUTION NO. 97-248 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH LUSTAR DYEING AND FINISHING TO PARTICIPATE IN CAPITAL IMPROVEMENTS

Mayor Sitnick opened the public hearing at 6:28 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. John Scaralia, City Development Director, said that Lustar Dyeing and Finishing, Inc. is looking to modernize and expand its manufacturing facility located at 144 Caribou Road. Plans call for the addition of 6,000 sq. ft. to the existing building and the major purchase of machinery and equipment in order to increase production. The company plans to hire an additional 20 employees by July 1, 1998. Wages will average $12.50 per hour.

The firm plans to invest a total of $3.6 million within six months in the renovation and equipment upgrades for this project.

Staff recommends that City Council provide a grant under the terms and conditions set forth in the City's current economic development incentive policy. Specifically, it is recommended that the award be limited to no more than the maximum allowed under the current guidelines, estimated at approximately $15,390. per year for five years, for a total of $76,950 based on current assessments.

He went through the company profile by stating that they (1) are an international manufacturer of knit fabrics; (2) are a subsidiary of Ge-Ray Fabrics from New Jersey; (3) were established in 1972; (4) have been in Asheville for nine years; (5) have a current employment of 295 full-time employees; and (6) have an annual payroll of $7.8 million.

He then explained their request of $3,600,000 which includes a capital equipment expansion of 6 dye machines - $1,989,000; dryer, compactor - $1,107,000; and the expansion of their existing facility of a 6k sq. ft. addition - $500,000.

He reviewed their current revenue of real property totaling $1,632,200 (land - $302,700 and buildings - $1,329,500); personal property totaling $5,362,270 for a total assessed valuation of $6,972,950. The City tax is $39,746.

He explained the following grant and projected revenue:

Assessment	One Year	Five Year
$3.6 M x. 0057	$20,520	$102,600
Level 1 (75%)	$15,390	$ 76,950
*Act. Tax Paid	$44,876	$224,380

*Current taxes of $39,746 plus after-grant tax of $5,130

Combined Assessment (end of grant period)
$10,572,950 (assessed valuation)
$60,266 taxes (plus 51.6% change)

He outlined the additional benefits being job creation (direct new jobs - 20; direct and indirect - 32); wages $500 ($469.14 ESC); community earnings $1,144,000; cost of job - $3,847.50 and economic return per dollar grant - $14,87.

Mr. Scaralia answered various questions from Councilman Tomes regarding what standards are required to qualify for the grant, and what instruments have been put in place to by the City to ensure that the standards are met.

Councilman Tomes said that he has been somewhat disenchanted with incentive grants, especially on the part of government, because they don't actually address the problem of trying to enhance the economic base of people who are in the workforce. He feels that not only is there a responsibility, but there is some sense of accountability that we must be sensitive to as we deal with grants.

Mayor Sitnick asked that the City Manager furnish all Council members with a copy of the economic development policy.

Mayor Sitnick was pleased that this grant will benefit a local company which provides jobs for Asheville residents. When a company comes in from another area, she hoped they would hire a large percentage of local people and not just bring a lot of their workforce.

Vice-Mayor was pleased that the first grant is to a local company.

Mr. Larry Casper, General Manager of Lustar Dyeing and Finishing, explained their workforce and thanked Council for their support with this grant.

Mayor Sitnick closed the public hearing at 6:49 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 97-248. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 316

C. PUBLIC HEARING TO CONSIDER THE FILING OF AN APPLICATION WITH THE FEDERAL TRANSIT ADMINISTRATION FOR A TRANSIT OPERATING ASSISTANCE GRANT

RESOLUTION NO. 97-249 - RESOLUTION AUTHORIZING THE FILING OF AN APPLICATION WITH THE FEDERAL TRANSIT ADMINISTRATION

Mayor Sitnick opened the public hearing at 6:50 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this grant will assist in offsetting the operating cost of the Asheville Transit Authority. These funds will be used for operating the fixed route transit system and assists in funding the City's comparable paratransit program operated under "BOOST".

The estimated net project cost is $1,362,741. The federal share is estimated at $367,091, the local share is estimated at $813,485, and the state share is estimated at $182,165.

Mayor Sitnick closed the public hearing at 6:51 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 97-249. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 317

D. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED NORTH OF THE HOLT AT BILTMORE PARK (SECTION 10 OF BILTMORE PARK)

ORDINANCE NO. 2443 - AN ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO PROPERTY LOCATED NORTH OF THE HOLT AT BILTMORE PARK (SECTION 10 OF BILTMORE PARK)

Mayor Sitnick opened the public hearing at 6:52 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Paul Benson, Urban Planner, said that Biltmore Farms, Inc. has submitted an annexation petition for a 3.9 acre area located north of Holt Lane identified as Biltmore Park, Section 10. The applicant has requested a six month delay of the effective date to June 16, 1998. This is the tenth annexation petitioned by Biltmore Farms Inc. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Section 5, which was annexed on August 21, 1995.

Upon inquiry of Councilman Cobb, Mr. Benson explained that the developer requests the effective date of the annexation be six months after adoption because that allows them time to develop the property and sell the lots prior to the annexation becoming effective.

Mayor Sitnick closed the public hearing at 6:55 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No 2443. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 385

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE DOCUMENTS FOR THE SALE OF PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY TO ROBERT CAMILLE JR. IN THE AMOUNT OF $1,400,000

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department has been working for several months on the possibility of selling Memorial Stadium and using the revenue to further develop and enhance recreation facilities in the community.

The Department has been in contact with a local architectural firm who has expressed interest in purchasing the property. The sale of this property is authorized under N.C. General Statute sec. 160A-266 which authorizes cities to dispose of real property. This sale was subject to the upset bid process established by N.C. General Statute under Section 160A-269.

Recognizing that approximately $20 million is necessary over the next 15 years in order to enhance recreation facilities in the community, the Parks and Recreation Department has been exploring alternative financing to meet these needs without a tax increase. The revenue generated from the sale of Memorial Stadium will be used to develop and renovate other recreation facilities within Asheville. These include development of a multi-field youth baseball complex at Richmond Hill for use by the North Asheville Little League. In addition, a youth football field would be constructed to be used by the West Asheville Youth Football and the Asheville Rugby Club. The sale of Memorial Stadium also includes the purchase of approximately 100 feet of right-of-way at the end of Richmond Hill Drive into the Richmond Hill property. Funds will also be used to renovate the existing Mountainside Park to include new playground equipment and play area.

On November 25, 1997, City Council authorized the City Clerk to advertise an offer to purchase City-owned property known as Memorial Stadium. No upset bids have been received.

Discussion surrounded the draft Offer to Purchase and Contract, which was only furnished to City Council earlier in the day.

City Attorney explained the ways in which City Council can dispose of its property.

Councilman Sellers noted that there is only 6-7 acres of this property that is suitable for development due to the steep grades. Councilman Tomes felt, however, that given the technology available, there may be ways in the future to develop the other acreage.

Upon inquiry of Councilman Cobb, Mr. Brinson said that the Parks & Recreation Department is currently doing a Master Plan for parks and recreation. At the Master Plan meeting held last night, the central area has more park land than any other area of the City. He stressed that what will come out of the master plan will be to enhance what we have and expand park facilities to those other areas.

Upon inquiry of Councilman Cobb, Mr. Brinson explained that he contacted the users of Memorial Stadium and that from a recreation standpoint, the neighborhood would be enhanced with the renovation of Mountainside Park.

Mr. Brinson said that since Memorial Stadium is not on the tax rolls, with the sale not only will it be put back on the tax rolls, but we will get tax revenue from that sale.

Council then discussed the pros and cons of selling Memorial Stadium.

Mayor Sitnick was a firm supporter of parks and recreation but felt that this issue has been brought to the table, especially with three new Council, without ample time for not only their review, but for public comment as well. She supported a city-wide parks bond and felt the community would support one as well. She felt it was poor public policy to sell parks reminding Council that she urged the prior Council for a parks designation as part of the UDO. She was concerned we are in the middle of doing a Master Plan for parks and recreation and wished Council could wait until that was finished to see how Memorial Stadium fits into the scheme of the plan. She felt the opportunity for upset bids was too short. She said that she would like to postpone this issue until she had more time to assess all of the ramifications of selling a City park.

Councilman Tomes agreed that the matter should be postponed so he could review the documents in detail.

Councilman Cobb felt that a public hearing might be in order to see if anyone else had a better idea for the use of the Stadium property.

When Vice-Mayor Hay asked if delaying action on this matter would interfere with the plans for development in a significant way, Mr. Robert Camille responded that since there is a third party involved and they have been working with the City for over a year, he was unsure how much longer they would be willing to wait. He noted that Memorial Stadium is rarely used and out of the six or seven developable acres, the City is retaining three of those for a playground.

Mr. Doug Claxton, attorney representing Mr. Robert Camille, said that all the concerns expressed at this meeting have been addressed and carefully considered.

Mr. Brian Peterson, on behalf of the Coalition of Asheville Neighborhoods, asked City Council to reject the bid or to postpone action on this matter. He urged Council not to be short-sited and sell the property.

Ms. Susan Andrew, 419 Beaucatcher Road, urged Council to allow additional public comment on this issue and suggested contacting the immediate neighbors as well.

Councilman Cloninger felt that if the City were to sell this property and use the proceeds for something other than parks, he would be against it. However, he stated that the sale of this property will result in badly needed parks in other parts of Asheville.

Mr. Tom Asick, 1998 President of the North Asheville Little League, urged City Council to proceed with the sale of this property and briefed Council on the need for a suitable field in North Asheville.

Vice-Mayor Hay said that for several years City Council has been trying to find a place in North Asheville to build a field and Richmond Hill is the only place.

Mayor Sitnick said that she is not against recreation because she feels it is the best investment on the front-end for our children, but she still preferred to have additional time to review this matter and solicit public comment.

Mr. Jim Orr, Vice-Chair of the Parks and Recreation Advisory Board, said that the Board unanimously supported moving forward with the sale of Memorial Stadium.

Mr. Tom Wilson, resident of North Asheville, realized the need for a ballpark in North Asheville, but voice opposition to selling Memorial Stadium for that purpose.

Councilman Tomes moved to delay action on this matter and set a public hearing for February 10, 1997. This motion was seconded by Councilman Cobb.

Councilwoman Field said that this is a culmination of a lot of hard work from the Parks & Recreation Department staff who have absolutely the best interests of the City at heart. She has seen the property and knows how difficult and expensive it would be to development.

Mayor Sitnick asked for a show of hands on Councilman Tomes' motion. This motion carried on a 4-3 vote, with Mayor Sitnick, Vice-Mayor Hay and Councilmen Cobb and Tomes voting "yes" and Councilwoman Field and Councilmen Cloninger and Sellers voting "no".

City Manager Westbrook stated that the Parks and Recreation Department is nationally accredited and exceeds national standards for their work.

Councilman Cloninger understood the request for postponement, but was concerned that there was a potential for losing the buyer.

Councilman Tomes then moved to reconsider the motion. This motion was seconded by Vice-Mayor Hay and carried unanimously.

Councilman Tomes moved to delay action on this matter and set a public hearing for January 27, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

At 8:15 p.m., Mayor Sitnick announced a ten minute break.

B. RESOLUTION NO. 97-250 - RESOLUTION DIRECTING THE BELE CHERE BOARD NOT TO ACCEPT CONTRIBUTIONS OR SPONSORSHIP FROM BUSINESSES THAT PROMOTE GAMBLING

City Attorney Oast said that at general direction from City Council, he has prepared a draft resolution directing the Bele Chere Committee to turn down proposed offer of sponsorship by Harrah's Casino.

Councilman Sellers said that he has worked the last couple of years toward making the Bele Chere festival a little more family oriented. He felt that this resolution will help to work toward that goal.

Councilwoman Field said that mentioning Harrah's name specifically in the resolution concerns her in that it makes it look like the people who work at, and who own, Harrah's are bad when they are actually doing something absolutely legal where they are doing it (in Cherokee). She didn't see how accepting sponsorship by Harrah's can possibly hurt the Bele Chere festival and would not support the resolution. She wondered why we were singling out not accepting sponsorship from gambling businesses and not alcohol businesses.

City Attorney Oast then read the resolution deleting the reference to Harrah's Casino.

Councilman Sellers moved for the adoption of Resolution No. 97-250. This motion was seconded by Councilman Cloninger and carried on a 6-1 vote with Councilwoman Field voting "no".

RESOLUTION BOOK NO. 24 - PAGE 318

C. RESOLUTION NO. 97-251 - RESOLUTION REAFFIRMING SUPPORT FOR EFFORTS TO DESIGNATE THE FRENCH BROAD RIVER AS AN AMERICAN HERITAGE RIVER

City Attorney Oast said that at the direction from City Council, he prepared a draft resolution reaffirming support for efforts to designate the French Broad River as an American Heritage River.

Vice-Mayor Hay felt that the designation is an excellent opportunity to do some special things for the French Broad River and whole-heartedly supported the application for designation. He then read the resolution.

Ms. Karen Cragnolin, Executive Director of RiverLink, spoke in support of the designation listing the many organizations and people who also supports the plan.

Vice-Mayor Hay moved for the adoption of Resolution No. 97-251. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 319

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE FORMAL MEETINGS HELD ON NOVEMBER 25, 1997, DECEMBER 2, 1997, AND THE WORKSESSION HELD ON DECEMBER 9, 1997

Councilman Cobb moved for the adoption of the minutes of the formal meeting held on November 25, 1997, as amended by Mr. Jim Skalski and City Clerk Burleson; the formal meeting held on December 2, 1997, and the worksession held on December 9, 1997. This motion was seconded by Councilman Cobb and carried unanimously.

B. RESOLUTION NO. 97-252 - RESOLUTION RATIFYING ACTION OF THE CITY MANAGER REGARDING A GIFT OF STOCK TO THE CITY'S URBAN TRAIL PROGRAM

Audit/Budget Director Bob Wurst said that Ms. Martha Gentry wishes to donate Barnett Bank shares with an approximate value of $10,000 to the Urban Trail Program in memory of her husband Hugh E. Gentry. This resolution will authorize the City Manager to accept said donation and to execute an agreement authorizing Wachovia Bank & Trust to sell the aforementioned stock on behalf of the City and remit the proceeds to the City of Asheville.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 97-252. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 320

C. CITY COUNCIL RETREAT

City Manager Westbrook announced that the City Council retreat would be held on February 6-8, 1998, at Highland Lake Inn.

Mayor Sitnick requested that City Council submit their "lists" to the City Manager or City Clerk as soon as possible for culmination of one list for the Retreat Committee to review.

D. PRIMARY ELECTION RESULTS - CITY OF ASHEVILLE - OCTOBER 7, 1997

GENERAL ELECTION RESULTS - CITY OF ASHEVILLE, NOVEMBER 7, 1997

Attached hereto as Exhibit "A" is the abstract containing the number of legal votes cast in the Primary Election, City of Asheville, held on October 7, 1997. Also attached as Exhibit "B" is the abstract containing the number of legal votes cast in the General Election, City of Asheville, held on November 7, 1997.

E. TELECOMMUNICATION TOWERS

Councilman Cloninger said that a company is proposing to build a telecommunication tower in East Asheville outside the City's jurisdiction. He requested, and the City Council concurred, that the City Manager prepare a statement making them aware of the goals of the City Council and how we are attempting to meet those goals with our telecommunication tower ordinance. He was directed to encourage them to use stealth technology instead of a conventional tower if at all possible.

F. LAUREL EIDE

Ms. Laurel Eide presented Christmas center pieces to Vice-Mayor Hay, Councilman Cloninger and Senior Planner Gerald Green for their hard work regarding zoning issues on the Blake Mountain area. She noted that her "buffer" gift was made with the pine needles and holly bushes.

G. CLAIMS

The following claims were received by the City of Asheville during the week of November 21-28, 1997: Heather Taylor (Water), Jeremy Sizemore (Water), Richard Bowden (Water), Shelia Balentine (Water), Sonny Johnson (Water), Melissa Watkins (Water), Steven Lee Poore (Water), and James Griffee (Water).

The following claims were received during the week of November 28-December 11, 1997: Jeri Swaim (Water), Shelia Davis (Water), Bell South (Streets), Marilyn Schlosser (Fire) and Wayne Erbsen (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

H. LAWSUIT

On December 8, 1997, the City was served with a Notice of Charge of Discrimination from Teresa L. Flowers. The nature of the proceeding is sexual discrimination charging the City of Asheville, naming Steve Hughes, former Operations Manager of the Asheville Civic Center.

This lawsuit will be handled in-house.

I. CLOSED SESSION

At 8:45 p.m., Councilwoman Field moved that City Council go into closed session in order to consult with an attorney-client employed by the Council in order to preserve the attorney-client privilege between the Council and its attorney - statutory authorization is G.S. 143-318.11 (a) (3). The parties in the lawsuit about which the Council expects to receive advice are the City of Asheville, C.C. & J. Enterprises Inc. and the Jackson-Woolsey Neighborhood Association. This motion was seconded by Councilman Sellers and carried unanimously.

At 9:15 p.m., Councilwoman Field moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

City Attorney Oast announced that City Council directed him to institute an appeal in the matter of C.C. & J. Enterprises Inc. v. the City of Asheville.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr. Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Emergency Mutual Aid Agreement

Summary: The North Carolina League of Municipalities has drafted the first multi-purpose, standardized, mutual aid agreement for providing and receiving assistance among governments that is more effective and efficient, and also provides faster reimbursement from FEMA, and also covers concerns related to insurance and liability issues.

Bids relative to a Street Sweeper

Summary: It is recommended that the bid be awarded to the low bidder, N. C. Equipment Company, Asheville, N. C., in the amount of $110,368.00 for the purchase of a 1997 'Ford' CF-8000 cab and chassis with a 'Johnston' model 605 sweeper.

Bids relative to Motor Vehicles

Summary: Consideration of a resolution to award Bid Request No. 472-98 for the purchase of seventeen (17) assorted fleet vehicles. It is recommended that awards be made to the low bidder of each item as follows:

Bid items 1, 2, 3, 4, and 6 award to Matthews Ford, Asheville, N. C. in the amount of $265,275.00 for the purchase of vehicles described in the bid summary for these items.

Bid item 5 award to Carolina Truck Center, Hickory, N. C. in the amount of $37,593.00 for the purchase of the vehicle described in the bid summary for this item.

Grand total of all awards as recommended $302,868.

Radio Maintenance Contract Award

Summary: The consideration of a resolution to renew the City's radio system maintenance agreement for one additional year with Motorola Communications and Electronics Inc. The renewal agreement includes a monthly increase of $282.50, which covers additional equipment purchased by the City that has come out of warranty during the past year. The total monthly cost of this service during the renewal period will be $11,619.15.

Bid award for Central Business District Waterlines - Phase I

Summary: The consideration of awarding a construction contract to Cooper Construction Company for the " Asheville Central Business District Waterlines-Phase I"

Design Phase II for W.T. Weaver Boulevard Greenway

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Genesis Group Inc. for the development of the W.T. Weaver Boulevard Greenway - Phase II.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REPORT FROM THE TASK FORCE ON THE FUTURE OF THE CIVIC CENTER

Vice-Mayor Hay, Chairman of the Task Force on the Future of the Civic Center, briefly reviewed with City Council the purpose of the Task Force and how Hunter Interests Inc. was selected as the consultant. He then reviewed the consultant's report on the market overview for the Asheville Civic Center expansion prepared by the consultant. He outlined the market area analysis, the competitive environment, the overview demand analysis, their recommendations, and the preliminary estimated utilization in a stabilized year of operation.

In summary, based on the market overview analysis, the recommended expansion should include a high quality 18,000- to 30,000-square foot ballroom that is divisible into four rooms, and 10,000 to 15,000 square feet of high quality meeting/breakout space which should include tiered seminar rooms. This facility should be supported by a private-sector-developed headquarters hotel of at least 250-guest rooms. It is imperative that the conference/convention component be developed in a first class manner and include sophisticated telecommunication capabilities and an integrated hotel to ensure that Asheville realizes its maximum return on this considerable investment.

Vice-Mayor Hay said that the Task Force supports these recommendations and asked City Council to approve proceeding to Phase II of the feasibility study which is a detailed market analysis. He noted that the amount is budgeted.

Vice-Mayor Hay then answered various questions from City Council relating to the size of the addition, the parking problems in downtown, the flow of traffic in the area, the anticipated completion date of Phase II, and Buncombe County's participation.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MINORITY BUSINESS PLAN

Finance Director Bill Schaefer said that in 1993, the City contracted with Research and Evaluation Associates, Inc. for a "Minority Business Study to Support City of Asheville Minority Business Plan". The study's purpose was to determine whether there was sufficient evidence of discrimination in the award of contracts and procurement of supplies, materials and services during the past to justify continuance of the then-existing Minority Business Plan and, if so, to identify any modifications to the plan which would be required to place the plan on a legally defensible basis. The City's current Amended Minority Business Plan, dated December 6, 1994, incorporated revisions recommended by the disparity study. In July 1996 the City and County established a joint Minority Affairs Office. In November 1996, the Minority Business Commission held a retreat at the YMI Cultural Center to begin the process of developing a joint Minority Business Plan to provide policy and direction for a joint City/County minority business program. They used the City's existing 1994 plan as the baseline from which to develop the new joint plan. During the ensuing year, the Commission held a series of meetings with various constituencies, including representatives of minority businesses, the general public, and City and County staffs, to receive their comments and recommendations regarding the joint plan. The draft City of Asheville/County of Buncombe Minority Business Plan is recommended by the Minority Business Commission for adoption by the City and County.

Mr. Schaefer then reviewed the significant changes from the 1994 Plan as follows:

Inclusion of Buncombe County in all aspects of the Plan. Note: separate goals are established for the City and County (Section VII.D.3; page 17 of draft). The City goals are at the same as adopted in the 1994 Plan.

Minority Business Commission Membership: Increases membership from 9 to 11(Sec IV.A.3; page 4 of draft).
Retains: Council of Independent Business Owners, Associated General Contractors of America, Women in Construction, Asheville Area Chamber of Commerce, Asheville-Buncombe Community Relations Council, and Asheville Business Development Center.
Deletes : Black Business and Professional League, YMI Cultural Center, and American Institute of Architects.
Adds: Minority Business Alliance, NAACP, and Three Certified Minority Business Owners (one each from the four categories for which goals have been established: construction, professional services, procurement, and other services). Note: Past suggestions to include representation by the NAACP have not been adopted.

Staff Evaluations: Requires as part of the evaluation of department heads, that good faith efforts towards goal attainment be a consideration in evaluations and that City and County Managers meet semi-annually, at the request of the Commission, to discuss specific concerns. (Sec IV.B.3; page 6 of draft). Note: Similar evaluation requirements were suggested for inclusion in previous editions of the Plan; however, they were not adopted.

Certification of Minority Business Firms: Changes responsibility for certification of firms from the Minority Business Commission to the Minority Affairs Office and clarifies procedures and responsibilities for appeals of certification denial (Sec VII; pages 12 through 16).

Enforcement: Strengthens enforcement options: Bids containing no documentation of good faith efforts shall be deemed non-responsive. Expands sanctions for failure to make or maintain good faith efforts to add provisions for removal of bidders from bid lists and/or debarment for a period of one year (Sec VI; pages 17 - 19)

Grievance Procedure: Clarifies the procedures and responsibilities. Provides that when a grievance has been submitted, the bid process shall be held and no award will be made until such time as the grievance is resolved or a final decision regarding the grievance is made by the City or County Manager (Sec IX; page 19).

Additionally, numerous changes have been made to improve clarity, to streamline procedures and to generally enhance the plans functionality in fulfilling its purposes of widening opportunities for participation, increasing competition, and ensuring the proper and diligent use of public funds.

City staff recommends continuing to work with County staff to incorporate, in the Minority Business Commission-recommended draft of the Plan, mutually acceptable language regarding any issues for which Council suggests revisions to the Commission's draft.

Ms. Laura Todd, Chair of the Minority Business Commission, spoke in support of the Plan and answered questions from City Council.

There was some discussion about the Commission make-up. Councilwoman Field explained why the American Institute of Architects representative was originally included on the Commission. She also wondered whether the three certified minority business owners members on the Commission would have a conflict of interest and not be allowed to bid for either the City or County contracts during their term on the Commission.

Councilman Tomes felt that the commitment to this Plan should be mandated by the City Manager to City department heads and reviewed during their evaluations. City Manager Westbrook said that it is part of their evaluations, but not mandated. He feels that their commitment to the Plan is just as important as customer service, community sensitivity, etc., all of which are incorporated into their evaluations.

Mr. Schaefer then answered various questions from City Council relative to the Plan and stressed that the City of Asheville is committed to making improvements.

It was the consensus of City Council that the City staff continue to work with County staff to address City Council's concerns.

In addition, Mayor Sitnick established a Mayor's Committee consisting of Councilwoman Field and Councilmen Cobb and Tomes to review City Council's concerns with the Commission and the Minority Affairs Office and bring back to City Council additional recommendations.

CONSIDERATION OF PURCHASE OF REAL PROPERTY - FRENCH BROAD GOLF COURSE AND SETTING A PUBLIC HEARING TO BE HELD ON TUESDAY, JANUARY 13, 1998, AT 5:00 P.M. IN THE COUNCIL CHAMBER, SECOND FLOOR OF THE CITY HALL BUILDING

Mr. Irby Brinson, Parks & Recreation Director, said that the Parks and Recreation Department and the Parks and Recreation Advisory Board have been investigating alternative means of financing Parks and Recreation capital projects.

In 1996, City Council approved a long-range plan for Parks and Recreation. It was recognized in that plan that approximately $20 million in capital improvement is necessary over the next 15 years to enhance and maintain the Parks and Recreation facilities and services for this community. The department is currently undertaking a comprehensive Master Plan which has already identified additional needs and services. These include the development of new and comprehensive recreation centers, greenway development, riverfront development, more athletic fields, additional passive park areas, development of district and regional parks, and enhancing cultural programs and facilities. Currently, the Parks and Recreation Department receives an average of about $500,000 per year in capital improvement dollars through the annual budget process. The majority of these funds are used to maintain and repair existing facilities with little funding going to new projects. In reviewing possible funding sources, the likelihood of increasing taxes and increasing fees and charges is not a viable solution to this concern. The department, over the past few years, has looked at alternative means of financing which includes grants and foundation funding. The department has been successful in securing over the past year approximately $300,000 in grants. In addition, the department has sold property which has very little recreation use and will use the revenue to further develop recreation facilities. However, the results of the above covers only a small percentage of the needs.

Recreation departments throughout the country recognize that the only facilities that generate a profit from their operations are golf courses. The City of Asheville has an opportunity to purchase the French Broad River Golf Course. The staff has, over the past several months, investigated the feasibility of the purchase of this golf course and solicited the services of the National Golf Foundation to complete a market analysis and feasibility study. The results of that review by the National Golf Foundation states that the purchase of the French Broad River Golf Course is very positive and represents a potentially successful financial investment. In addition, Parks and Recreation staff has physically reviewed the course's potential and recommends purchase as well. The current sale price for the facility is $3.5 million. The initial investment of the course was $5.2 million by the previous owner. The projected ten-year cash flow for the French Broad River Golf Course shows a potential of making revenue in the second year as well as paying off the debt service for the loan for the purchase.

The Parks and Recreation Department feels very comfortable with the cash flow analysis. It should be noted that the profit received from the golf course will be used to help fund the above mentioned needs. Selling of certificates of participation in the amount of $1 million represents an annual payment of approximately $90,000 per year. The cash flow analysis shows that the department could successfully borrow several million dollars in the future and allow the profit from the golf course to pay the debt service as well. The Parks and Recreation Department suggests that a public hearing be held on January 13, 1998, to allow the public an opportunity for input in regard to this issue.

The Parks and Recreation Department and Advisory Board recommends holding a public hearing to discuss the possible approval by City Council to proceed with financing for the purchase of the French Broad River Golf Course by the City of Asheville.

Mr. Brinson then went into detail of the National Golf Foundation's findings noting that the future success of the Golf Course is dependent upon making physical improvements to the golf course, upgrading the maintenance program, providing excellent customer service and maximizing revenues from the various profit centers.

Mr. Brinson then addressed the issue of flood problems at the Golf Course.

He recommended City Council to tour the Golf Course with him at 2:00 p.m. on Tuesday, January 13, 1998.

Mayor Sitnick praised the City Manager and Mr. Brinson for being creative and looking for alternative funding for parks and recreation, which is of great importance to City Council and the community. She noted that she has received several comments from the community, some being, but not limited to, the aroma from the farm land nearby; flooding concerns; if the private sector couldn't make the Golf Course successful, then how can the City; the cost for improvements recommended; will the capital improvements turnout the revenues anticipated in a timely manner; and since the course is in bankruptcy and has been for sale for a number of years, can the City wait and negotiate a better price?

Mr. Brinson responded to each of the comments outlined by Mayor Sitnick.

Mayor Sitnick noted that the prospect of the additional 9.5 acres was interesting. She said that she talked with Mayor Winston Heston of Sanford, N.C., who has a similar situation in Sanford. Mayor Heston felt that it was a good deal for the City of Sanford and felt the most important thing was to make sure that the City owns the golf course and not to let the ownership or control out of the City.

Fletcher Mayor Bob Parrish and Fletcher City Manager Craig Honeycutt noted that this property is located entirely in the Town of Fletcher which is located in Henderson County. They voiced concerns about matters such as police and fire protection. They noted that if the property is purchased by the City, it will become tax exempt and the Town of Fletcher will lose approximately $11,000 in tax revenue. They hoped to be able to work out some type of agreement with the City to compensate the Town for the loss of revenues.

City Manager Westbrook said that he planned on contacting the Town of Fletcher after City Council has instructed him to proceed with the possible purchase.

It was the consensus of City Council to hold a public hearing on Tuesday, January 13, 1998, at 5:00 p.m. in the Council Chamber, Second Floor, City Hall Building, to receive comments on the proposed purchase of the French Broad River Golf Course by the City.

CABLE TELEVISION FRANCHISE REVIEW SCHEDULE

City Manager Westbrook said that City Council instructed him to develop a procedure for consideration by City Council for setting forth the dates and times for public input for the proposed ordinance regulating cable service providers, the proposed ordinance granting a cable television franchise to InterMedia, and the proposed franchise fee settlement agreement.

At the December 9, 1997, Council worksession, staff was given direction by Council to schedule a worksession, a public input meeting and a public hearing for consideration of the proposed ordinance regulating cable service providers, the proposed ordinance granting a cable television franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia), and the proposed franchise fee settlement agreement ("cable television documents"). The purpose of this report is to recommend the following meeting dates and times for the proposed public input:

A. January 20, 1998 - Council Worksession - 3:00 p.m. in the 1st Floor North Conference Room - City Hall Building. The purpose of this item on the Council worksession agenda will be to review the cable television documents with Council. This will be primarily for the benefit of new Council Members but will also be of benefit to the public in understanding the proposed cable television documents.

B. February 10, 1998 - Community Meeting - 7:00 p.m. in the William F. Wolcott Jr. Building - 161 S. Charlotte Street. The purpose of the community meeting will be to allow the community to meet with City staff, the City's consultant and the cable television company on an informal basis to discuss the cable television documents and to ask questions. It is my understanding from the previous worksession that Council wants to be part of the audience for this meeting.

C. February 24, 1998 - Public Hearing - 5:00 p.m. in the Council Chamber - 2nd Floor of the City Hall Building. This will be a regular public hearing held by City Council at a formal Council meeting to receive further input prior to making a decision on the cable television documents.

If this report reflects the direction of Council for public input on the cable television documents, City Manager Westbrook recommended Council formally approve this process at their next regular Council meeting.

Mr. Wally Bowen, Citizens for Media Literacy, thanked City Council for the additional opportunities for input but hoped that the timetable outlined would not lock Council into a deadline for exploring all the issues. He passed out an article from the New York Times that reported "around the country, some small towns and cities are fed up with high cable TV rates and limited choices are building their own cable networks to compete with large, private cable companies."

When Mr. Mark Rosenstein inquired about the appropriate time for public comments, Mayor Sitnick said that worksessions are typically for staff to meet with Council with information they have gathered at Council's request in order that City Council can become educated and familiar with the issues.

After some discussion about public input, City Attorney Oast cautioned City Council on allowing public comment at worksessions when there is a public hearing scheduled. There might be a perceived unfair advantage for people to be allowed to comment substantially on an item at a worksession and then again at the public hearing, whereas some people may only come to the scheduled public hearing thinking that is the appropriate time for their comments to be heard.

Vice-Mayor Hay felt that it needs to be made clear to the public when public comments are acceptable.

Mayor Sitnick was committed to allowing flexibility for speakers at worksessions because if they have taken time out to come to a meeting, they should be allowed to be heard. She felt that Council should create a statement about public comments at worksessions, public hearings, public forums, community meetings etc. She felt that at the upcoming City Council Retreat this can be defined.

Ms. Nelda Holder thanked City Council for the opportunity for additional input from the public and felt Council needed to look at as much a broad spectrum as possible.

Mr. Scott Barber felt that access to communications media is vital to democracy.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LEVEL III PUBLIC HEARING WORKSHOP

Since the January 13, 1998, would be the first Level IIII public hearing considered by City Council since the adoption of the Unified Development Ordinance, City Attorney Oast reviewed how City Council should proceed with the quasi-judicial hearing.

It was the consensus of City Council that after the hearing if the project was approved, that staff draft the Order and have the Mayor sign it. If the project is denied, staff will draft the Order and bring the Order back to the City Council for adoption. A second vote may be required in some instances.

MASSACRE IN MEXICAN STATE OF CHIAPAS

Mayor Sitnick said that there is a public effort to raise funds to help the people who have been massacred in Chiapas, which is close to Asheville's Sister City San Cristobal de Las Casas. It was the consensus of City Council to send a letter of sympathy to those families.

MEETINGS

Councilman Tomes agreed to attend the N.C. Coalition for Public Transportation meeting in Raleigh, N.C., on January 21, 1998.

It was noted that a member of the Asheville Transit Authority Board might consider attending the forum on bus rapid transit on January 15, 1998.

NC LEAGUE OF MUNICIPALITIES

It was the consensus of City Council to have the Mayor write a letter on behalf of the City Council supporting Councilwoman Field's candidacy to fill out the term of former Councilman Charles Worley as a member of the North Carolina League of Municipalities Board of Directors.

BROWNFIELDS AGREEMENT APPLICATION

Through a request of Mr. Reese Lasher, Councilwoman Field showed a drawing of a proposed project located on Fairview Road and said that the State requires a letter of support from the City of Asheville. It was the consensus of City Council instruct the City Manager to write a letter in support of the Brownfields Agreement Application and to place this item on the next formal City Council agenda.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 13, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor Hay gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE WEEK OF JANUARY 12-16, 1998, AS THE "ASHEVILLE AREA CHAMBER OF COMMERCE WEEK"

Mayor Sitnick read the proclamation proclaiming the week of January 12-16, 1998, as the " Asheville Area Chamber of Commerce Week" in honor of the Asheville Area Chamber of Commerce Centennial. She presented the proclamation to Mr. Jay Garner and Mr. Ray Bailey who thanked City Council for their support.

B. PROCLAMATION PROCLAIMING THE WEEK OF JANUARY 12-19, 1998, AS "DR. MARTIN LUTHER KING JR WEEK"

Councilman O.T. Tomes read the proclamation proclaiming the week of January 12-19, 1998, as "Dr. Martin Luther King Jr. Week" in the City of Asheville and presented it to Ms. Oralene Simmons. Ms. Simmons briefed City Council on some events and activities that would be taking place during the week.

C. RECOGNITION AND APPRECIATION TO ANN VASILIK FOR THE BICENTENNIAL PIECE LOCATED ON THE FIRST FLOOR OF THE CITY HALL BUILDING

Mayor Sitnick recognized the expressed City Council's appreciation to Ms. Ann Vasilik for the bicentennial art piece located on the First Floor of the City Hall Building.

Ms. Vasilik hoped that City Council would allow the art piece to be displayed in other locations such as the library, schools and hospitals.

II. CONSENT:

A. RESOLUTION NO. 98-1 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. LEAGUE OF MUNICIPALITIES FOR PROVIDING AID TO OTHER MUNICIPALITIES WITHIN THE STATE OF NORTH CAROLINA IN THE EVENT OF A NATURAL OR MAN-MADE DISASTER

Summary: The North Carolina League of Municipalities has drafted the first multi-purpose, standardized, mutual aid agreement for providing and receiving assistance among governments that is more effective and efficient, and also provides faster reimbursement from FEMA, and also covers concerns related to insurance and liability issues.

In responding to mutual aid rendered to municipalities impacted by Hurricane Fran, a generic agreement was drafting which covered the following:

- Basic time for assistance is seven days, but can be modified when parties agree.
- Establishes that needs of 'home' municipal residents are first priority, and a municipality may decline to provide assistance.
- When a disaster strikes, a city may request help if it determines that its own resources are inadequate.
- Requests can be made directly to another city or through an emergency management system.
- Outlines required information such as conditions, type of assistance needed (personnel, equipment), length of time, etc.
- The City receiving a request for aid would agree or decline to provide assistance.
- The *requesting City* is responsible for basic employee needs, work assignments, documented actual costs and expenses (to include personnel, equipment and materials), and direction and record-keeping to provider.
- The *providing City* is responsible for direct supervision of their personnel and equipment, crew communications, daily time records, (personnel, equipment hours, etc.) customary pay (to be reimbursed), and submittal of invoices for reimbursement.
- Each party holds the other harmless from liability.
- All activities performed are declared government functions.
- Agreement to last for at least one year, and for one year in subsequent years, unless terminated by a 60-day notice.

Key staff (including the Legal, Risk Management, Police, Fire, Parks and Recreation, and Public Works Departments) have reviewed the document and agree with the intent and language of the Agreement.

RESOLUTION BOOK NO. 24 - PAGE 321

B. RESOLUITON NO. 98-2 - RESOLUTION AWARDING BID TO N.C. EQUIPMENT COMPANY FOR A STREET SWEEPER FOR THE PUBLIC WORKS DEPARTMENT

Summary: Consideration of a resolution to award Bid Request No. 473-98 for the purchase of a street sweeper for the City of Asheville Public Works Department, Street Division.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a street sweeper for the Public Works Department, Street Division. The following two bids were received:

N.C. Equipment Company, Asheville, N.C.	$110,368
Johnston Sweeper Company, Chino, CA	$127,931

Bids have been reviewed for technical compliance to specifications by the Public Works Department and the Fleet Management Division, and their concurrence received in the following recommendation.

Funds for this purchase are to be from the Street Division's appropriations, Account Code 20-430-15-427-00-5740.

Subject to Council's approval, it is recommended that the bid be awarded to the low bidder, N. C. Equipment Company, Asheville, N. C., in the amount of $110,368.00 for the purchase of a 1997 'Ford' CF-8000 cab and chassis with a 'Johnston' model 605 sweeper.

RESOLUTION BOOK NO. 24 - PAGE 322

C. RESOLUTION NO. 98-3 - RESOLUTION AWARDING BIDS FOR FLEET VEHICLES

Summary: Consideration of a resolution to award Bid Request No. 472-98 for the purchase of seventeen (17) assorted fleet vehicles.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish the Police, Fire, Parks, Building Safety and Public Works Departments, and Asheville Transit Authority as bid items 1 through 6. Matthews Ford, Asheville, N.C., was the sold bid meeting specifications for bid items 1,2, 3, 4, and 6 as follows:

Bid Item 1 - Five 1998 Ford Crown Victoria for Police Department	$96,960
Bid Item 2 - Two 1998 Ford F-150 for Fire Department	$39,740
Bid Item 3 - One 1998 Ford F350 Van for Parks & Recreation Dept.	$21,887
Bid Item 4 - Seven 1998 Ford Rangers for Building Safety Dept.	$92,505
Bid Item 6 - One 1998 Ford Taurus for Transit Authority	$14,183

The following bids were received for one 1998 International Cab & Chassis with a Heil Dumping Unit for the Public Works Department:

Bid No. 5:

Carolina Truck Centers, Hickory, N.C.	$37,593.00
Volvo & GMC Truck Center, Hickory, N.C.	$38,480.00
Carolina Truck & Body, Asheville, N.C.	$38,839.00
W. Carolina Freightliner, Asheville, N.C.	$39,800.00
Volvo & GMC Truck Center, Hickory, N.C.	$43,899.5 0

Bids have been reviewed for technical compliance to specifications by the Fleet Management Division and their concurrence received in the following recommendations.

Funds for the purchase of these vehicles are to be from the requisitioning departments capital equipment appropriations for FY 97/98. All vehicles are budgeted as replacement vehicles.

Subject to Council's approval, it is recommended that awards be made to the low bidder of each item as follows:

Bid items 1, 2, 3, 4, and 6 award to Matthews Ford, Asheville, N. C. in the amount of $265,275.00 for the purchase of vehicles described above.

Bid item 5 award to Carolina Truck Center, Hickory, N. C. in the amount of $37,593.00 for the purchase of the 1998 International Cab & Chassis with a Heil Dumping Unit.

Grand total of all awards as recommended $302,868.00.

RESOLUTION BOOK NO. 24 - PAGE 324

D. RESOLUTION NO. 98-4 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH GENESIS INC. FOR DESIGN PHASE II OF THE W.T. WEAVER BOULEVARD GREENWAY

Summary: The Parks and Recreation Department was directed to select the services of an interdisciplinary firm to provide a complete scope of design and engineering services for the W.T. Weaver Boulevard Greenway - Phase II.

The City of Asheville is continuing its greenway development along Glenn's Creek on W.T. Weaver Boulevard and within the UNC-A campus. The construction of the first phase of this development is complete and extends from Merrimon Avenue to Barnard Avenue (approximately 2,200 feet in length). The second phase of the W.T. Weaver Boulevard Greenway project shall extend from Barnard Avenue to Broadway (approximately 2,100 feet in length). It will tie into the sidewalks and future greenway along Broadway.

The greenway will be located mostly within the campus of the University of North Carolina at Asheville (which includes the land outside of the Botanical Gardens), with some portions located within the City of Asheville's right-of-way for W.T. Weaver Boulevard and the North Carolina Department of Transportation's right-of-way at Broadway. The staff of the City of Asheville and UNC-A have been working together to execute the necessary agreements and easements for this greenway project.

Most of the planning, design and construction was accomplished by City of Asheville staff in Phase I, the majority of the planning and design work in Phase II will be done by private consultants with construction eventually implemented by private contractors. Staff was charged to solicit the services of an interdisciplinary team (landscape architects, architects, engineers, etc.) with one lead firm who can provide planning, design, construction drawings and specifications, contract documents, bidding procedure, quality assurance of construction, and as-built drawings for the W.T. Weaver Boulevard Greenway - Phase II.

The City of Asheville Parks and Recreation Department solicited requests for proposals from qualified planning and design professionals. The proposal review team to select a firm via city policy included Erin McLoughlin (Planning & Development Department), Suzanne Molloy (Public Works), Al Kopf and Alan Glines (Parks and Recreation), Melissa Acker (UNC-A), and Susan Roderick (Tree and Greenway Commission). After reviewing the proposals and interviewing several firms, the team recommended the selection of Genesis Group, Inc. Staff has been negotiating with the Genesis Group, Inc. to reach a reasonable scope of work and fee estimate.

The following scope of work and associated fee estimates reflect "turn-key" professional consultant services by Genesis Group, Inc. (with the exception of trail easements to be performed by staff) as delineated in the city's request for proposal:

Stage I - Pre-Design Analysis	$ 5,200
Stage II - Conceptual Design	14,520
Stage III - Construction Documentation	14,382
Stage IV - Construction Administration	15,000
Site Survey	2,500
Soil Testing and Engineering	3,500
Reimbursable Expenses	2,000
Total	$57,102

Stages I and II are specific in terms of professional labor estimates, Stages III and IV reflect estimated costs which might vary pending the final design solution. Genesis Group, Inc. proposes a nine month completion process for planning, design, and implementation.

The Parks and Recreation Department recommends that authorization be given to the City Manager to enter into a contract with Genesis, Inc. for the development of the W.T. Weaver Boulevard Greenway - Phase II.

RESOLUTION BOOK NO. 24 - PAGE 328

E. RESOLUTION NO. 98-5 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SERVICE AGREEMENT RENEWAL WITH MOTOROLA COMMUNICATIONS & ELECTRONICS INC. RELATIVE TO MAINTAINING THE CITY'S RADIO SYSTEM AND ASSOCIATED EQUIPMENT

Summary: In August of 1994, the City of Asheville entered into a service agreement with Motorola Communications and Electronics, Inc. for the maintenance of the City's radio communication system. Due to the wide range and diversity of high technology used in the City's radio systems and the complex integration of the technologies of each segment, it was determined that a single vendor contract would best fulfill the City's need for reliability of the radio system and rapid response maintenance for any portion of the system that may fail. The agreement provides for a fixed rate maintenance cost per unit of equipment for a three year period. Although the three year period has now expired, a renewal clause in the agreement allows the City to renew for a period of one additional year at the original maintenance cost per unit.

The renewal agreement includes a monthly increase of $282.50, which covers additional equipment purchased by the City that has come out of warranty during the past year. The total monthly cost of this service during the renewal period will be $11,619.15.

Funds have been appropriated in the Finance Department, Information Services Division, Account No. 10-410-10-441-08-4400 to cover the monthly cost of this agreement.

RESOLUTION BOOK NO. 24 - PAGE 329

F. RESOLUTION NO 98-6 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT THE FINDINGS OF HUNTER INTERESTS INC. REGARDING ITS PHASE I MARKET OVERVIEW REPORT SUBMITTED TO THE TASK FORCE ON THE FUTURE OF THE CIVIC CENTER AND TO PROCEED WITH PHASE II

Summary: Based on the market overview analysis, the recommended expansion should include a high quality 18,000- to 30,000-square foot ballroom that is divisible into four rooms, and 10,000 to 15,000 square feet of high quality meeting/breakout space which should include tiered seminar rooms. This facility should be supported by a private-sector-developed headquarters hotel of at least 250-guest rooms. It is imperative that the conference/convention component be developed in a first class manner and include sophisticated telecommunication capabilities and an integrated hotel to ensure that Asheville realizes its maximum return on this considerable investment. The Task Force supports these recommendations and recommends City Council proceed to Phase II which is a detailed market analysis.

RESOLUTION BOOK NO. 24 - PAGE 330

G. RESOLUTION NO. 98-7 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD THE BID OF ASHEVILLE'S CENTRAL BUSINESS DISTRICT WATERLINES - PHASE I PROJECT TO COOPER CONSTRUCTION COMPANY

Summary: Sealed bids were received for the Authority's " Asheville Central Business District Waterlines-Phase I" project on December 2, 1997. This Master Plan Phase II project includes the installation of new waterlines on Haywood Street from College Street to Patton Avenue and a section of Biltmore Avenue from Meadow Road to Forest Hill Drive. The project was bid such that either street section could be accepted separately. This project will improve available fire protection, improve the reliability of water service and help reduce the unaccounted for water percentage. Three bids were submitted with Cooper Construction Company submitting the low bid of $1,656,057. All the bids received are listed below in the order of their bid:

COMPANY	BID
Cooper Construction Company Hendersonville, North Carolina	$ 1,656,057
Hobson Construction Company Arden, North Carolina	$ 1,742,110
Ruby-Collins Incorporated Smyrna, Georgia	$ 3,201,550

Only $ 760,000 is budgeted for the construction of this project. Staff discussed this project and determined that the Biltmore Avenue component of the project offered greater immediate benefit to the operation of the water system. Also, the Biltmore Avenue waterline component of the project was within the funds allocated, the Haywood Street waterline was not. Accordingly, staff recommended and the Regional Water Authority approved award of a modified contract to Cooper Construction Company for the Biltmore Avenue 12-inch component of the project. Cooper's low bid price for this component of the project was $ 550,131.00. The planned 12-inch waterline installation on Haywood Street will be considered in the future as possibly a joint project with other utilities desiring to upgrade their existing facilities along Haywood Street. Construction on this project is scheduled to begin in late January, 1998 with 180 days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan.

372

The Regional Water Authority approved award of this modified contract to Cooper Construction Company on December 16, 1997, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 24 - PAGE 331

H. MOTION ADOPTING DATE AND TIMES FOR PUBLIC INPUT FOR THE PROPOSED ORDINANCE REGULATING CABLE SERVICE PROVIDERS, THE PROPOSED ORDINANCE GRANTING A CABLE TELEVISION FRANCHISE, AND THE PROPOSED FRANCHISE FEE SETTLEMENT AGREEMENT

Summary: At the December 9, 1997, Council worksession, staff was given direction by Council to schedule a worksession, a public input meeting and a public hearing for consideration of the proposed ordinance regulating cable service providers, the proposed ordinance granting a cable television franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia), and the proposed franchise fee settlement agreement ("cable television documents"). The purpose of this report is to recommend the following meeting dates and times for the proposed public input:

A. January 20, 1998 - Council Worksession - 3:00 p.m. - First Floor North Conference Room - City Hall Building. The purpose of this item on the Council worksession agenda will be to review the cable television documents with Council. This will be primarily for the benefit of new Council Members but will also be of benefit to the public in understanding the proposed cable television documents.

B. February 10, 1998 - Community Meeting - 7:00 p.m. - William F. Wolcott Jr., Building - 161 South Charlotte Street. The purpose of the community meeting will be to allow the community to meet with City staff, the City's consultant and the cable television company on an informal basis to discuss the cable television documents and to ask questions. It is my understanding from the previous worksession that Council wants to be part of the audience for this meeting.

C. February 24, 1998 - Public Hearing - 5:00 p.m. - Council Chamber on the Second Floor of the City Hall Building. This will be a regular public hearing held by City Council at a formal Council meeting to receive further input prior to making a decision on the cable television documents.

Staff recommends Council approve the processes outlined in this report to provide public input on the proposed cable television documents.

I. MOTION SETTING A PUBLIC HEARING ON JANUARY 27, 1998, TO REZONE 216 SHELBURNE ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO INSTITUTIONAL

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING RELATIVE TO REZONING EIGHT PARCELS ON THE SOUTH SIDE OF BROAD STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY TO OFFICE

Mayor Sitnick said that this public hearing was opened on September 9, 1997, and continued until October 14, 1997. On October 14, 1997, the public hearing was again continued until November 25, 1997. On November 25, 1997, the petitioner requested the public hearing be continued again until this date.

City Attorney Oast reminded City Council that on September 9, 1997, Councilman Cloninger was excused from voting on this matter due to a conflict of interest.

City Attorney Oast also said that a valid protest petition has been received, thus invoking the 3/4's vote requirement. Since Councilman Cloninger has been excused from voting, there would need to be a unanimous vote by City Council to adopt the ordinance.

Mr. Mike Matteson, Urban Planner, said that this is consideration of rezoning eight properties on the south side of Broad Street (between Madison Avenue and Charlotte Street) from RM-16 to Office.

When Council adopted the Unified Development Ordinance and the official zoning maps, it appears that their intention was to zone at least two of these properties as "Office". That intention, however, was not translated by staff onto the official zoning maps. Rather, these properties were designated as being zoned RM-16. Staff is presenting this rezoning as a way to correct this mapping error and has included the additional properties so as to create a more desirable zoning pattern in the area.

The RM-16 zoning district is a high-density multi-family district allowing up to 16 units per acre. The Office district allows a mixture of small scale office uses and residential uses at a density of up to 8 units per acre.

At their August 6, 1997 meeting, the Planning and Zoning Commission voted 4-3 to recommend denial of the rezoning.

Mr. Matteson said that there have been negotiations taking place for the past couple of months between the property owner and Neighborhood Housing Services. Those negotiations have resulted in the Neighborhood Housing Services purchasing the two properties in question. Therefore, the individual making the original request that precipitated this rezoning petition no longer owns the property and the new owner is content with the with the existing zoning. In light of those recent developments, staff is recommending that City Council, as the petitioner in this case, withdraw the petition whereby leaving these properties zoned residentially.

Mayor Sitnick closed the public hearing at 5:30 p.m.

Councilwoman Field moved to withdraw the rezoning petition. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE

B. PUBLIC HEARING RELATIVE TO REZONING TWELVE LOTS LOCATED OFF BROAD STREET, WASHINGTON ROAD AND MADISON AVENUE FROM OFFICE DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 2444 - ORDINANCE TO REZONE TWELVE LOTS LOCATED OFF BROAD STREET, WASHINGTON ROAD AND MADISON AVENUE FROM OFFICE DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

Mayor Sitnick said that this public hearing was continued from November 25, 1997, pursuant to a request of the petitioners.

Mayor Sitnick opened the public hearing at 5:31 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this request is to rezone twelve properties on either Broad Street, Madison Avenue or Washington Road from Office to RM-8 Residential Multi-Family Medium Density.

The twelve properties total approximately 1.8 acres in size and are surrounded by RM-8 zoning to the North, RM-16 zoning to the East and Office zoning to the South and West.

The Office District allows a mixture of small scale office uses and residential uses with a density of up to eight units per acre. The RM-8 District allows single or multi-family residential uses with a density of up to eight units per acre.

Staff recommends approval of the rezoning for the following reasons: (1) All of the properties are currently used for residential purposes; and (2) The 2010 plan calls for residential uses for these properties.

At their November 5, 1997, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning.

Ms. Angela Scotchie, 91 Broad Street; Mr. Arthur Davis, 12 Madison Avenue; and Mr. Vincent Ramsuer, 111 Broad Street; all spoke in support of the rezoning of the area.

Mayor Sitnick closed the public hearing at 5:35 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2444. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE

C. PUBLIC HEARING TO REZONE PROPERTY ON GLENDALE AND SPRINGVALE AVENUES FROM RM-16 TO CI

ORDINANCE NO. 2445 - ORDINANCE TO REZONE PROPERTY ON GLENDALE AND SPRINGVALE AVENUES FROM RM-16 TO CI

Mayor Sitnick opened the public hearing at 5:36 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is consideration of an ordinance to rezone property on Glendale and Springvale Avenues from RM-16 Multi-Family Residential to CI Commercial Industrial.

The majority of these lots are vacant tracts of land and are surrounded on the north and west by commercially zoned lots and on the south and east by residential property. This area of residential lots has diminished over the years and the houses in the area are abandoned or have been demolished. The development trend for this area seems to be toward commercial industrial and not residential.

The Technical Review Committee states that this area has substandard water flow for fire protection for commercial development with only a 2" line on Springvale and Dogwood. However, the 6" line on Glendale Avenue can be accessed. The Technical Review Committee states that the streets in the area are substandard for any commercial development and any access would need to be upgraded by the developer.

This property is within the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended approval of PIN # 9658.17-21-4378 and 9658.18-21-5239, 5291, 5593, 5636, 6455, 7317 from RM-16 Multi-Family Residential to CI Commercial Industrial except for a 20 foot buffer strip of lots 5291 and 7317 along Dogwood Lane which was recommended to be rezoned to RS-8 to be compatible with the residential zoning on the other side of Dogwood in order to restrict any commercial access from these lots onto Dogwood Lane.

At the December 3, 1997, Planning & Zoning Commission, the Commissioners voted 3 to 2 (with 2 commissioners absent) to accept staff's recommendation to approve the rezoning request except the buffer strip should be 5 foot instead of 20 foot.

Upon inquiry of Councilman Sellers, Mr. Ownbey explained that buffer strip would keep any commercial development from these lots having direct access onto Dogwood Lane. He noted that there will be a 25 foot buffer strip required in addition to the 5 foot strip.

When Councilman Cobb questioned traffic improvements, Mr. Ownbey said that under the UDO the developer will be responsible to improve McArthur Lane, Springvale Drive and Dogwood Lane to City standards, if they use those as access to the flea market proposed across the street from these lots.

Upon inquiry of Councilwoman Field, Mr. Ownbey said that multi-family can be built on commercial industrial property.

Mr. Ownbey responded to questions from Councilman Cobb as it related to buffer requirements and if the buffer can be reduced if a fence were built.

Mr. Clay Mooney, landscape architect representing one of the property owners involved in this rezoning request, explained that his client owns 4 of the 7 parcels requested to be rezoned. He said the use of the four lots will be for overflow parking from the flea market across the street. In the present plans, there is sufficient parking on the site of the flea market based on a ratio developed by the Planning Department to accommodate the number of vendors anticipated.

City Attorney Oast reminded City Council that if the rezoning is granted, the property will be available for any use allowed in the Commercial Industrial District.

Due to a conflict of interest, Councilman Hay moved to excuse Councilman Cloninger from voting on this issue. This motion was seconded by Councilman Sellers and carried unanimously.

Due to a conflict of interest, Councilman Hay moved to excuse Councilwoman Field from voting on this issue. This motion was seconded by Councilman Cobb and carried unanimously.

Mr. Bob Mayhew, one of the partners of the property, spoke in support of the rezoning noting that they will also be adding low income housing on 2 of the lots.

Upon inquiry of Mayor Sitnick, Mr. Mayhew said that they will only pave the walk-way in the flea market area. As for the other parking portion, most of it will be gravel mixed with mulch in order to try and get a grass coverage so that in 3-4 years they can mow it and have a compacted area for parking. He said they will not pave the whole 12-15 acres.

Mr. Mayhew responded to Councilman Sellers question about traffic patterns in the area and if there was a need for additional signalization.

Mr. Ron Chandley, representing vendors of the old flea market, urged Council to rezone this property noting that a flea market needs ample parking to be successful.

Mr. Bob Long Jr., attorney representing owner of the lot located at the corner of Glendale Avenue and Dogwood Lane, requested Council to rezone the property and that the buffer be held to five feet.

Mr. Pat Logan, resident in the Oakley community, spoke in support of the rezoning and felt it may help improve a blighted area.

Mr. Ownbey noted that the Planning & Zoning Commission has requested the City Engineer to investigate the possibility of installing no parking signs on Glendale Avenue, Dogwood Lane and Springvale Avenue, even if this area does not get rezoned.

When Mayor Sitnick asked Mr. Ownbey why some Commission members voting against the rezoning, Mr. Ownbey recalled that they basically wanted to retain multi-family residential in the area.

Mr. James Cheeks, Traffic Engineer, responded to questions relative to the traffic in the area.

Mayor Sitnick closed the public hearing at 6:12 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2445. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 389

D. PUBLIC HEARING FOR THE LEVEL III PLANNING REVIEW FOR THE MEADOWS APARTMENTS - PHASE II LOCATED ON ASCENSION DRIVE IN WEST ASHEVILLE

Mayor Sitnick said that next on the agenda is the application of Meadows Apartments for a conditional use permit to build Phase II of an apartment complex, which is a Level III project, on property situated on Ascension Drive in West Asheville. This is a public hearing for Council to consider whether the requested permit should be issued. There being no preliminary matters to be considered, she opened the public hearing at 6:21 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing. She then administered the oath to anyone who anticipated speaking on this matter.

Mayor Sitnick reviewed the procedures for this hearing by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. Hearing no questions about the procedure, she asked for staff's presentation.

Mr. Carl Ownbey, Urban Planner, said that this is consideration of Conditional Use approval and permit (as outlined in the UDO) for the Meadows Apartments - Phase II located on Ascension Drive in West Asheville.

By use of a map, he reviewed the location of the project with Council. This project is for the 168 unit expansion of the Meadows Apartments. The project has been submitted and reviewed under Level Three - subsection 7-5-9(A) of the UDO by the Technical Review Committee. They have approved this project with several conditions which the developer has addressed except for approval of revised water and sewer installation plans. This property is within the City Limits of Asheville.

City Council must take formal action as set forth in subsection 7-5-5 (E) 2 and shall state if the proposed conditional use meets or does not meet each of the standards set forth in subsection 7-16-2 (C).

He then reviewed the standards and the recommended findings on those standards as follows:

Conditional Use Standards:

1. That the proposed use or development of the land will not materially endanger the public health or safety:

The proposed development conforms to the development standards of the current zoning ordinance and is the second phase to the existing apartment complex. The proposed development has been approved for water and sewer service.

2. That the proposed use is reasonably necessary for the health and general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region:

The proposed development increases the range of housing opportunities to the community and increases the available affordable housing for the City.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property:

The proposed development is consistent with the residential development to the south (Meadows Apartments - Phase I) and is adequately buffered from the single-family developments to the west and north.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located:

The proposed 168 unit residential development will the constructed on approximately 17 acres of adjacent land. This equates to approximately 9.8 units/acre. The current zoning permits 16 units/acre. The adjacent single-family residential development is zoned for 8 units/acre.

5. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City:

The proposed development conforms to the 2010 Plan in that the plan indicates this area to be low to medium density residential which outlines 8 to 10 units/acre.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities:

The proposed development is within the city limits and will receive water and sewer services, police and fire protection, and public transportation is provided to the existing apartments.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard:

The proposed development was required to provide a "traffic impact analysis" outlining the project's impact on the surrounding streets and traffic patterns. The report was reviewed and approved by City staff. The report recommended that access to the Camelot neighborhood through Ector Street be limited. That has been set up in the form of a gate at Ector Street onto Evelake Drive. It will be open only during certain hours during the day allowing no access from Meadows Apartments except during certain hours. The bus will be re-routed to accommodate that gate.

The Planning staff and the Technical Review Committee recommend approval of the Conditional Use Permit for the Meadows Apartments - Phase II located on Ascension Drive in West Asheville with the condition that water and sewer installation plans are approved by the City prior to any construction.

Upon inquiry of Vice-Mayor Hay about who will manage the gate, Mr. Ownbey said that it will be part of Meadows Apartments and they are working out the specifics where it will be accessible for emergency vehicles.

When Councilman Cobb asked about recreational facilities for the children, Mr. Ownbey said that they will have a community building, swimming pool and recreational land.

Responding to questions from Councilman Cobb, Mr. James Cheeks, Traffic Engineer, said that the traffic impact study did not recommend a traffic signal or any kind of modification to the existing traffic signal at Evelake and Leicester Highway due to the distance between the existing drive and that signal.

When Mayor Sitnick asked if there are any provisions for walkways, Mr. Ownbey said that the project was required to have a sidewalk all the way around the interior plus the green area will have some designs.

Mr. John Crabtree, President of Meridia Inc., briefed Council on how this will be combined with Phase I. He noted that the property is significantly under the maximum density allowed under the zoning and they have complied or exceeded the requirements of the traffic impact analysis.

Upon inquiry of Councilwoman Field, Mr. Crabtree said that the average rental price of a unit would be from mid-$500 to $750. He said there are 61 one-bedroom units, 96 two-bedroom units and 12 three-bedroom units. He said the Phase I of the project has predominantly three-bedroom units. He said that the do rent to families with children.

A resident of 37 Evelake Drive stated that it would be nice to have additional space between the end of the backyards and the beginning of the parking lot.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 6:40 p.m.

Councilwoman Field moved to approve the Conditional Use Permit for the Meadows Apartments - Phase II located on Ascension Drive in West Asheville with the condition that water and sewer installation plans are approved by the City prior to any construction. This motion was seconded by Councilman Tomes.

Mayor Sitnick then said that there has been a motion and a second to approve the conditional use permit as presented by staff with the condition that water and sewer installation plans are approved by the City prior to any construction, and the Council is required to determine that certain standards have been met based on the evidence presented at today's hearing. She then said that she would read the list of standards, and if Council wishes to take a separate vote on any one of the standards, so say when she reads it out, or Council's silence, you will be indicating it's agreement that the standard has been satisfied.

Mayor Sitnick said the actual vote should be: The Asheville City Council finds, after consideration of the information presented at this public hearing, that the Conditional Use Permit for the Meadows Apartments - Phase II located on Ascension Drive in West Asheville, if developed as proposed in accordance with the submitted plans and with the condition that water and sewer installation plans are approved by the City prior to any construction, together with any modifications or conditions approved by Council:

(a) will promote and not endanger the public health or safety.
(b) will not injure the value of adjoining or abutting property.
(c) will be in harmony with the character of the neighborhood.
(d) will generally conform with the comprehensive plan.
(e) is appropriately located for utilities and service delivery.
(f) will not cause undue traffic congestion or hazards.
(g) will comply with all required standards and specifications.

Mayor Sitnick said that hearing no negative votes of the foregoing standards, she asked for a vote on Councilwoman Field's motion to grant the Conditional Use Permit. Said motion carried unanimously.

E. PUBLIC HEARING TO RECEIVE COMMENTS ON THE PROPOSED PURCHASE OF THE FRENCH BROAD RIVER GOLF COURSE BY THE CITY OF ASHEVILLE

Mayor Sitnick opened the public hearing at 6:42 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Irby Brinson, Director of Parks and Recreation, gave City Council an overview of the flooding situation that occurred at the French Broad River Golf Course. Staff has evaluated the situation over the past few days to determine the best means of removing the water, however, it will be costly. Based upon that, staff is recommending that the City not purchase the French Broad River Golf Course at this time. He did emphasize that this was a mechanism to generate revenue for parks and recreation needs. We still have those needs and they will continue to grow. He estimated approximately $30 million for the next 15 years. He said that he will not shy away from bringing creative ideas to City Council. He felt that it was in their best interest to look at all alternatives to help increase funding for parks and recreation and they will continue to do that.

The Mayor and Council thanked Mr. Brinson for reaching out to new ways to bring in revenue into the City. They encouraged him to continue to bring those ways to Council along with his recommendations.

Council also thanked the people in the community who called and wrote letters for and against the purchase of the golf course.

Upon inquiry of Frank Young, City Attorney Oast said that if this issue is again considered by City Council, it will be advertised.

Mr. Samuel Camp, member of the Parks and Recreation Advisory Board, felt that the newspaper unfairly reported that there was "undercover dealings" going on with regard to the possible purchase - which is totally inaccurate. He said that the Advisory Board is, and will continue to, look at providing recreation for all citizens of Asheville.

Mr. Jerry Rice, County resident, passed out to Council a list of properties and programs the City gave to the County when the Water Agreement was being negotiated. The tax rate impact on County residents ended up, according to his calculations, being 2.95 cents. He hoped City Council would take these items back.

Dr. Bruce Baker urged Council to look at other places for parks and recreation that doesn't have as much risk as a golf course.

Mayor Sitnick closed the public hearing at 7:04 p.m.

Councilman Tomes moved to accept staff's recommendation that the City not purchase the French Broad River Golf Course at this time. This motion was seconded by Councilman Cobb and carried unanimously.

F. PUBLIC HEARING RELATIVE TO AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO ESTABLISH A NEW THRESHOLD FOR THE PREPARATION OF TRAFFIC IMPACT ANALYSES AND MAKING MINOR CLARIFICATIONS IN THE INFORMATION REQUIRED IN THE ANALYSES

ORDINANCE NO. 2446 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH A NEW THRESHOLD FOR THE PREPARATION OF TRAFFIC IMPACT ANALYSES AND MAKING MINOR CLARIFICATIONS IN THE INFORMATION REQUIRED IN THE ANALYSES

Mayor Sitnick opened the public hearing at 7:07 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that the Unified Development Ordinance currently requires that a Traffic Impact Analysis be prepared for all Level II and Level III projects and for those Level I projects for which the city's Traffic Engineer determines that an analysis is needed. The building size (square footage) of a project determines the level of that project. Therefore, the requirement that a Traffic Impact Analysis be prepared is currently based on the size of a project instead of the traffic generated by the project.

Based upon projects reviewed since the adoption of the UDO, it has become clear that size of a project is not the most reasonable indication of traffic impacts. The proposed amendment would base the requirement that a Traffic Impact Analysis be prepared upon the traffic generated by the development instead of on the building size of the development. Developments generating 100 or more trips during the peak hour will be required by the proposed revision to prepare a Traffic Impact Analysis. This revision fosters a relationship between the traffic impact of a project and the requirement for an analysis, assuring that those projects with a more significant impact on the traffic identify actions to mitigate them.

The Asheville Planning and Zoning Commission, by a 5 - 0 vote, recommended adoption of the revision to the UDO to revise the threshold for preparation of a Traffic Impact Analysis. The staff of the Planning and Development Department has also recommended approval of the revision.

Mr. Green then explained what a traffic impact analysis is and why and how they chose 100 or more trips as the requirement.

Councilwoman Field said that since there are no traffic engineers in Asheville that a person can hire to do traffic impact analyses and the ones in North Carolina are very busy, could architects be trained and then allowed to do those traffic impact analyses. City Attorney Oast said that it is his opinion that Council can specify appropriate professionals such as planners, engineers, architects, etc. who could obtain the basic training and certification to present that kind of information. Since we do have a traffic engineer on staff, he could analyze that information to make sure that it complies with the requirements.

City Engineer Cathy Ball said that according to state statutes, architects were not supposed to do traffic engineering studies. She did not have a problem with allowing them to perform those studies, as long as they were trained in how to conduct those studies. Her concern was that we may need to look at it from a legal standpoint.

Councilwoman Field felt that the City should make the language as broad a possible in order that qualified professionals from our own community can provide this service.

Mr. James Cheeks, Traffic Engineer, responded to questions from Mayor Sitnick about the way the traffic impact studies are conducted, noting many adjustments are made in the reports, for instance seasonal adjustments.

Mayor Sitnick closed the public hearing at 7:21 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2446. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 391

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. MOTION AUTHORIZING THE MAYOR TO WRITE A LETTER IN SUPPORT FOR A BROWNFIELDS AGREEMENT APPLICATION BEING MADE FOR PROPERTY LOCATED AT 105 FARIVIEW ROAD

Planning & Development Director Julia Cogburn said that at the worksession on January 5, 1998, the Asheville City Council directed staff to look into a request submitted to them by Reese Lasher of Western Investment Company. The request was for the City Council to provide him with a letter of support for a Brownfields Agreement Application being submitted by Western Investment Company for property located at 105 Fairview Road.

The North Carolina General Assembly, during the 1997 legislative session, authorized and approved a new state initiative. The new initiative, named the Brownfields Property Reuse Act, is designed to allow prospective developers to develop a contaminated piece of property with less than complete clean up of the contamination on the site and without threat of legal action by the Environmental Protection Agency. The purpose of the Act is to encourage the reuse or development of properties known as "brownfields properties" (those that may have been or were contaminated by past industrial and commercial activities), but are still attractive locations for redevelopment. The properties are closely monitored during development to ensure safe development.

The property at 105 Fairview Road is a former industrial site. Carolina Production Finishing Incorporated was located there until it closed in the mid-1980's. The property was sold to the proposed developer in early 1997 by Buncombe County at a tax foreclosure proceeding. The property had been unattractive to prospective buyers because of the perceived contamination on the site.

The property is located in a primarily industrial area. It is zoned CI (Commercial Industrial) and is 6.18 acres in size. The current tax value on the property is listed at $235,600. The property currently contains two buildings. The property had previously been studied as a superfund site but did not qualify. Some cleanup of the property has occurred to date (tank removal, etc.) but the cleanup was not complete in nature.

The developer proposes to redevelop the property. Their plans are to rehab the existing building on the site and to make it available to some company who wish to use it for appropriate uses in the commercial industrial district --- offices, warehousing, light industrial, etc.

The developer, if receiving designation under the Brownfields Property Reuse Act, would be required to do certain additional cleanup as required by the state to provide for safe development of the site. As she understand it, there has been a Phase II Environmental Assessment that has already been conducted and there are only very minor problems which remain on the site.

As part of the preliminary assessment by the State into the Brownfields Application, letters of support from the community are required. These letters can come from many different sources. One of the most common, obviously, is to seek the support of the local government in whose jurisdiction the property lies. This is why the request has come to Council.

The letter will of course need to indicate that all development will be done in accordance with all city regulations, etc. This appears to be a wonderful opportunity to put a piece of property back to use, to increase the City's tax base on this property and to gain additional and safe cleanup of the site.

Staff recommends that Council direct staff to draft a letter in support of the redevelopment of the property at 105 Fairview Road by Western Investment Company.

Upon inquiry of Councilman Tomes, Ms. Cogburn said that Ms. Jeannette Stanley, with the NC Superfund Section, indicated that the developer is responsible for cleaning up, to their satisfaction, property so that workers would not be jeopardized.

After discussion, Councilwoman Field moved to table this issue until responses to Council's concerns could be addressed, in particular if there has been any indication of off-site substance migration and if there are any reports on ground water contamination. This motion was seconded by Councilman Tomes and carried unanimously.

Councilman Cloninger said that he has read several articles about what other cities in North Carolina are doing to facilitate the reclamation of hazardous sites, including tax breaks. He asked the City Manager to look into whether there might be some potential for us to do that in Asheville. The City Manager reported to him that thankfully we don't have very many sites that fit into that category. However, he hoped we could keep this in mind and then in the future if we have more of these kinds of sites realized, perhaps on the river, that we might develop some sort of policy to provide incentives for them to be reclaimed.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 16, 1997, AND THE WORKSESSION HELD ON JANUARY 5, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on December 16, 1997, and the worksession held on January 5, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. PUBLIC INPUT

At the request of Councilman Cloninger and as a result of inaccurate information in the newspaper, it was the consensus of City Council that Mayor Sitnick and Vice-Mayor Hay meet with the Citizen-Times editorial staff to advise them of Council's policy regarding public input, when the use of closed sessions are appropriate, and also what Council's policy will be in the future. Mayor Sitnick felt that perhaps a press conference to educate the media would be appropriate as well.

C. AMERICAN HERITAGE RIVER INITIATIVE

Ms. Karen Cragnolin, updated City Council on the status of the American Heritage River Initiative, bringing with her 4,000 letters of support for the designation of the French Broad River as an American Heritage River. She urged City Council to contact Representative Charles Taylor and ask that he meet with RiverLink representatives to discuss this Initiative, the benefits it will bring our regional, and his opposition to it.

Councilwoman Field moved that the Mayor contact Representative Taylor and request a meeting with City Council and/or representatives of RiverLink as soon as possible because the announcement will be made soon of the ten rivers which will be part of the program. This motion was seconded by Councilman Sellers and carried unanimously.

D. REQUEST OF RICHARD ROBERTS OF 3 OAKS DRIVE

Mr. Richard Roberts, 3 Oaks Drive off Rice Branch Road, asked the City to help them with the maintenance of their road.

Public Works Director Mark Combs said that he has met with Mr. Roberts and some of his neighbors and have given them a package of materials which contains information on what it would take for the City to legally take over maintenance of a road. He recommended that unless the street is accepted by the City, that the City not provide any maintenance of that street. He said that he would be happy to meet with Mr. Roberts and his neighbors to discuss the policy of 50/50 participation with the City by special assessments or upfront costs for upgrading that street to City standards.

E. COMMENTS FROM JERRY RICE REGARDING WATER RESOURCES BUDGET

Mr. Jerry Rice voiced concern over the Water Resources Department mid-year adjustment budget amendment which was adopted by the Regional Water Authority of Asheville, Buncombe and Henderson, the Asheville City Council and the Buncombe County Commissioners. He felt the errors in the budget were not caused by a computer, but were human errors.

Mayor Sitnick suggested Mr. Rice meet with the City Manager to review the matter and then, if he would like, she would be happy to meet with him.

F. ASHEVILLE SISTER CITIES

Councilwoman Field updated City Council on the massacres in Mexican State of Chiapas, which is close to Asheville's Sister City San Cristobal de Las Casas. She hoped that the Citizen-Times newspaper would report as events occur there in order to keep concerned the public more informed.

G. YMI CULTURAL CENTER REQUEST

Mayor Sitnick said that she has received information along with a letter of request from Mr. Gene Ellison regarding the establishment of a reorganization committee relative to the YMI Cultural Center. She felt it would be appropriate to establish a Mayor's Committee to meet with Mr. Ellison to discuss his request and to keep City Council informed of whether City Council should take any actions. She appointed Vice-Mayor Hay as Chair, Councilwoman Field and Councilman Tomes.

H. CLAIMS

The following claims were received by the City of Asheville during the week of December 12-31, 1997: Michell Leonard (Water), Vernon L. Grimsley (Fire), Shambra Hall (Police), Nina Smith (Water), Martha Parker (Water), Randy McKinney (Water), Jeff Foster (Parks & Recreation) and William Rickman (Sanitation).

The following claims were received during the week of January 1-8, 1998: Julius Siebert (Streets), Mary Sagonias (Water); Timothy A. Hoglen (Police); Susan Livingston (Sanitation); Sandra Hines (Police); Dillingham Construction (Water); Lalani Roberts (Streets) and Jennifer Stastny (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

I. LAWSUIT

On December 29, 1997, the City was served with the following lawsuit: Gabriel Ferrari v. City of Asheville - invasion of privacy and miscellaneous other claims.

This lawsuit will be handled by an outside attorney.

J. CLOSED SESSION

At 8:08 p.m., Councilwoman Field moved to go into closed session (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties in the lawsuits about which the Council expects to receive advice are: Tiffany Livengood, Robert Moore and the American Knights of the Ku Klux Klan, and the City of Asheville; Morris Communications Corporation d/b/a Fairway Outdoor Advertising, Outdoor Communications Inc., and Maple Cove Inc. and the City of Asheville; and the State of North Carolina, City of Asheville, and Elijah Ulysses Jones - statutory authority is G.S. 143-318.11 (a) (3); to (2) establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract for the acquisition of real property by purchase - statutory authority is G.S. 143-318.11 (a) (5); (3) to prevent the disclosure of information that is privileged or confidential pursuant to the law of this State, specifically, the Personnel Privacy Act, G.S. 160A-168 - statutory authority is G.S. 143-318.11 (a) (1); and (4) to discuss matters relating to the location or expansion of industries or other businesses in the area served by the City - statutory authority is G.S. 143-318.11 (a) (4). This motion was seconded by Councilman Sellers and carried unanimously.

At 9:20 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

386

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 20, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Request for The Faith Tabernacle Congregation Sign located at 36 Michigan Avenue be designated as a Landmark Sign

Summary: The consideration of a request from The Faith Tabernacle Congregation that their 40 year old hand crafted metal sign located at 36 Michigan Avenue be designated a landmark sign.

Clerk authorized to Advertise Offer to Purchase Disposal Parcels 1A and 52A at the Intersection of Hilliard and Asheland Avenues

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids regarding Disposal Parcels 1A and 52A at the intersection of Asheland and Hilliard Avenues.

The bid of Price Associates in the amount of $101,000.00 for the purchase of Disposal Parcels 1A and 52A in the East Riverside Redevelopment Project is not less than the established minimum price of $101,000.00.

City Attorney Oast said that before the next formal meeting, he would have an opinion relative to the real estate commission.

Releasing of Any Potential Interest in Real Property located on Mount Clare Avenue

Summary: The consideration of adopting a resolution releasing any interest, if any, the City may have against real property located on Mount Clare Avenue.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REPORT BY THE PRESERVATION SOCIETY

Mr. Harry Weiss presented City Council with a check in the amount of $5,000 which represented the amount of the City's participation in 1990 to help fund the rehabilitation of the Jenkins Building at 32 Broadway, which was damaged by a fire. He presented City Council with photographs of the building.

Mr. Weiss then reviewed with Council the new historic preservation state tax credits that became effective January 1, 1998, noting that this is an exciting time for rehabilitation and housing incentives for our community.

388

RIVER DISTRICT DESIGN GUIDELINES

Mr. Bruce Black, Urban Planner, said that the Unified Development Ordinance requires the River District Design Guidelines be approved by the City Council. The Guidelines have been reviewed by the Planning and Zoning Commission, and they have recommended unanimously that the Guidelines be adopted by the Council.

The River District Guidelines concentrate primarily upon the River Core Area (the area from Lyman Road north to the train trestle across the French Broad River), establishing Character Buildings upon which future design and renovation should be based. It is part of an overall attempt to create a similarity in design such that the area remains recognizable as a district.

Other areas of the River District are also addressed, but not to the same extent as the River Core Area. All facets of building appearance, and site design are dealt with.

It is the intent of the Guidelines to be general, flexible, and constructive in nature, allowing constructive and creative dialogue between the Design Review Committee and the building or site designer.

The Planning staff has held a public meeting at A-B Tech on December 16, 1997. All property owners of record in the River District were notified of the meeting by U.S. Mail. Twenty-eight people attended, including residents, people who work in the area, and business owners.

In addition, a number of business owners in the River Core Area were contacted individually, and the contents of the River District Design Guidelines were reviewed with them.

There were no objections to the contents of the guidelines, and there were several constructive suggestions for improving the River Core District, which will be pursued.

The UDO requires that the review by the Design Review Committee is mandatory, and that compliance is voluntary.

City staff recommends City Council adopt the River District Design Guidelines.

At the request of Councilwoman Field, Mr. Black said that he would be happy to meet with her to help her understand the guidelines and address any concerns she may have.

Mr. Black then responded to questions from Council as they related to flooding in the area.

Mayor Sitnick noted that Council will be discussing at their upcoming retreat working with colleges and universities to produce some art pieces for the public open spaces. She felt the River District might be a good place for those art pieces.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

YMI CULTURAL CENTER

Mr. Gene Ellison, Interim Director and Chairman of the YMI Reorganization Committee, briefed Council on the importance of the YMI Cultural Center to the entire community and brought them up-to-date on the progress being made to date on the reorganization. He understood why City Council declined to appropriate any funds to the YMI in 1997, however, he now urged Council to reconsider appropriating $25,000 to the YMI - $10,000 which would go directly to the Internal Revenue Service and $15,000 to the YMI for operating expenses.

Mayor Sitnick commended Mr. Ellison's effort and stated that last week she appointed an ad hoc committee of Vice-Mayor Hay, Councilwoman Field and Councilman Tomes to review the documents previously submitted, meet with Mr. Ellison and report back to Council as soon as possible.

Councilman Cobb felt that if the community was made aware of the dollars needed for air conditioning and an elevator, they might be willing to help.

Councilman Tomes also commended Mr. Ellison for his unselfish efforts with the YMI Cultural Center. He stressed that the YMI Cultural Center is a showcase for Asheville.

Mayor Sitnick felt that this City Council is committed to working with groups on The Block to enhance, improve and empower it. They will be very serious in their considerations.

Mr. H.K. Edgerton, tenant in the YMI Cultural Center, spoke in support of Mr. Ellison's efforts.

STATUS REPORT ON THE BILTMORE AVENUE PROPERTIES

Mr. Ed Vess, Field Services Coordinator, said that certain real properties acquired under redevelopment and held for higher marketing potential are currently being rented and should be reviewed for consideration for sale in light of current downtown market conditions.

The properties located at 5, 7 1/2, 9, & 11-13 Biltmore Avenue were acquired as part of the Pack Plaza Redevelopment Project. At the time the properties were acquired they were in a run-down condition as were many of the surrounding properties before the completion of the Pack Plaza Project.

At the time the properties were acquired the market for downtown property was depressed, but there were signs that with the investment in the Pack Plaza Redevelopment Project a resurgence of the downtown was in the offing. A plan was developed to hold and manage the properties until the effects of the Pack Plaza Project and the anticipated private investment had boosted downtown property values. Part of the plan was to lease, at below market rates, to tenants willing to spend money upfront renovating the buildings. In order to make the buildings more rentable, the City through the Housing Authority replaced the old leaky built-up roofs on the buildings with new single ply membrane roofs.

In August of 1988, the Arts Council leased 11-13 Biltmore Avenue and spent in excess of $100,000 on improvements to the building. Not long thereafter, Be Here Now leased 5 Biltmore Avenue spending over $50,000 for improvements and WNC Habitat for Humanity leased 9 Biltmore Avenue and spent about $50,000 for improvements.

The property at 135 Cherry Street was acquired as part of the Head of Montford Redevelopment Project. It was leased to Neighborhood Housing Services of Asheville who spent about $25,000 for renovations.

All of the buildings are in generally good maintainable condition at the present time. However, window repairs are needed at 5 Biltmore Avenue and 11-13 Biltmore Avenue at an estimated cost of about $10,000.

The high demand for downtown property indicates that it would be prudent to consider selling the property at this time and putting this property back on the tax rolls. The revenue would be Community Development program income and could be used for eligible CDBG purposes. On the other hand, due to current market conditions, the property has potential to generate greater lease revenues than is presently being realized. If the property is retained for the lease revenues, consideration should be given to bringing rents up to market rate as soon as feasible under the leases and in a manner that is fair to the tenants.

He reviewed the schedule of leases which showed the tenant, the current lease status, the current rental amount and the estimated market rent for each unit.

The three non-profit tenants are currently paying well below market rates. If the rent is increased to market rate under the lease, Council if inclined to do so, could allow a rent abatement to reduce the rent to a lesser amount on an annual basis. That would allow Council to provide assistance to the non-profits, if desired, while avoiding the negative effect on the market value of the property a below market lease would cause.

City staff recommends the properties located at 5, 7 1/2, 9, & 11-13 Biltmore Avenue be (1) reviewed for consideration for sale in light of current downtown market conditions; or (2) the rents be brought to market rates as soon as feasible.

Councilwoman Field asked if the City sold the properties would the leases go with them. Mr. Vess responded that they would, however, the new owner could raise the rents when the leases expire.

Upon inquiry of Councilman Tomes, Mr. Vess said that he has contacted all the tenants and advised them he was bringing this report to the Council. He felt that most of the tenants would like to continue to lease their properties for a long term. Mr. Vess said that if they were to sign a new lease, the lease it should be at the new market rates.

When Mayor Sitnick asked if the revitalization efforts at the Head of Montford might increase the value of the property, Mr. Vess felt that it would. He also felt that the property in downtown Asheville would increase as well. He outlined advantages to Council of selling the property and the advantages of holding onto it.

Councilwoman Field felt that the City should not sell the buildings at this time because the property values will increase. She felt Council may want to look at this issue again in a year or so.

Councilman Cloninger agreed with Councilwoman Field in that he wanted to be cautious about selling property that has a good revenue stream. He did feel it would be appropriate to bring the rents up to market value and that it needed to be done in a fair way.

Vice-Mayor Hay felt that as long as the City owns the property, it will stay the way it is. If it's sold, a developer can make improvements which will help Biltmore Avenue flourish. If the City sells the property now, we may have an opportunity to do something for affordable housing in the future - maybe a revolving fund.

It was then the consensus of Council for Mr. Vess to obtain appraisals on the properties, thus allowing him to provide additional information to Council on the projected revenue streams.

Mr. H.R. Miller, Jr., owner of the business located at 5 Biltmore Avenue - Be Here Now, presented City Council with a letter asking that their lease which will expire on April 30, 2000, be continued for an additional three years to April 30, 2003, with a five year option to renew. He felt Council should take into consideration their substantial improvements to the building, among other things, and let them recoup their investment by the continuance of the lease.

CONVEYANCE OF PROPERTY TO ON BREVARD ROAD TO HENDERSON COUNTY

Assistant City Manager Doug Spell said that on November 11, 1995, the Regional Water Authority, City of Asheville, Buncombe County, and Henderson County entered into the Water Agreement. This agreement was a part of the overall provision of water service via the Mills River Water Treatment Plant.

One condition which is a part of the aforementioned Water Agreement pertains to the City of Asheville transferring by deed 137.21 acres to Henderson County on Brevard Road (NC 191). The stipulation outlined in Section XXII of the Agreement indicates that Henderson County must convey the property to MSD to be used for a wastewater treatment plant site within ten (10) years or convey it to a regional water and sewer authority of which Henderson County, the Authority and Asheville are a part. If neither of these conditions are complied with within the 10 year date of the transfer of the deed to Henderson County the property automatically reverts back to the City of Asheville.

The City Attorney's office has reviewed the deed prepared by the attorney for the Regional Water Authority. The deed has been prepared to take into account the automatic reversion to the City of Asheville in the event the property is not utilized in accordance with the stipulations of the agreement.

Staff recommends that City Council authorize the Mayor to execute the deed transferring the property to Henderson County in accordance with the Water Agreement dated November 11, 1995.

Councilman Tomes asked for the City Manager to provide him with additional information on the Water Agreement.

Councilwoman Field noted that the agreement was signed over two years ago. The ten year stipulation does not come into effect until the transfer is complete and the longer we wait to transfer the property, the chances are they'll meet the stipulations.

Mayor Sitnick was not comfortable in making a decision to transfer 137.21 acres to Henderson County until she fully understands the history and details of the agreement. She suggested Council table this matter until all of Council has had sufficient time to be educated on this item.

Councilman Cloninger agreed with Mayor Sitnick, but noted that we should not send any signals to Henderson County that we do not intend to abide by the contractual legal obligations that we have.

It was the consensus of City Council to postpone action on this matter until the Council understands the details.

CABLE TV FRANCHISE REVIEW

Assistant City Attorney Patsy Meldrum reviewed the proposed cable television documents with City Council not only for the benefit of the new Council members, but for the benefit of the public in understanding the proposed cable television documents. She also included some responses to recent inquiries sent to the City Council about the proposed documents.

She reviewed the history of the renewal process: (A) TCI requested renewal discussions and City agreed; (B) City did Request for Request for Proposals ("RFP") for consultant; (1) list of consultants (a) N.C. League of Municipalities; (b) National Association of Telecommunications Officers and Advisors (NATOA); (c) seminars; (d) certified minority business list; (2) contacted three consultants and requested proposals; (3) comparison chart done; references checked; (4) presentation to City Council; (6) Rice, Williams Associates selected; agreement for services; (C) renewal process outlined by the consultant (not in formal renewal window/process): (1) initial consultation; (2) community needs assessment; (3) compliance evaluation; (4) technical analysis; (5) prepare request for proposals; (6) response to RFP from cable company; (7) evaluate RFP; (8) negotiate documents; (9) prepare documents; and (10) present documents for consideration by city council; (D) collateral issues which affected process/negotiations: (1) transfer of TCI to InterMedia (Nov. 1995 to Sept. 1996); (2) franchise fee issue; (3) City's authority limited by federal laws and regulations.

Throughout Ms. Meldrum's presentation, she and the City's consultant Jean Rice, responded to various questions from Council. Some questions were, but are not limited to, who was contacted in the community needs assessment, if the community needs assessment was outdated, the definition of "gross annual revenues", why it's in the City's best interest to require a franchise agreement, why there is a slim chance of another cable company operating in Asheville, could Asheville negotiate an exclusive franchise, how is it in the City's benefit to go with a long-term franchise, why is the City limited in its ability to regulate cable rates, clarification of the state-of-the-art clause, the reasons why the City could deny a franchise to InterMedia, what it means to a city to own their own cable system, approximately how much would it cost the City to purchase a cable system, what would be the monetary advantage to the City today if the franchise were granted, and exactly what an analog channel is.

Additional information requested by Council included a summary of the events leading up to the 1967 franchise, how the current proposal differs from the RFP, and a list of the four tests the cable company has to meet in order that a franchise renewal be granted under the formal renewal process.

She then outlined one element of the proposal which is the regulatory ordinance (ordinance regulating cable service providers): (1) establishes definitions - most importantly = "gross annual revenues" and "transfer"); (2) registration and franchise required; (3) application and approval standards for franchise; (4) franchise fees required; right to audit; (5) right to inspect records and cable system; (6) access channels, access equipment and institutional network required; (7) customer service standards (subject to federal laws and regulations): (a) standard installation = not less than 150 feet; (b) no fee for disconnection unless agreed to by subscriber; (c) credit for outages; (d) business office; (e) telephone answering; (f) complaint handling; (g) subscriber information; (h) response to service complaints and outages; (I) subscriber privacy) and (j) rate regulation; (8) performance evaluation/annually/public; (9) construction and technical standards; (10) technical performance testing; (11) removal or abandonment of cable plant; (12) transfer of franchise, ownership or control (a) transfer of ownership of 10% or more requires City approval; (b) transfer of franchise or control requires City approval; (c) reimbursement of City's expenses; (13) construction and performance bonds required; (14) insurance requirements; (15) indemnification requirements; (16) termination of revocation process (a) defaults listed; (b) hearing process described; (c) remedies for City; (17) penalty provisions.

One inquiry related to the annual performance evaluation and whether or not the public could be provided with the same 30 day notice as the cable company prior to the annual performance evaluation. Ms. Meldrum stated that at the time the notice is given to the cable company, we could let the public know by a notice in the newspaper.

She then reviewed another element of the proposal, which is the franchise ordinance (ordinance granting franchise to Brenmor d/b/a InterMedia): (1) non-exclusive franchise; (2) subject to regulatory ordinance; (3) term (a) 1967 franchise would expire in July of 2002 (four years and six months left); (b) twelve years and six months added; (4) franchise fee of 5%; (5) franchise area includes current and future city limits; (6) extension standards included (includes cost-sharing formula); (7) system rebuild requirements (a) 550 MHz; (b) 80 analog channels and/or capacity for digital transmission; (c) completion by December 31, 1998; (d) design standards; (e) emergency alert system requirements; (f) maintenance requirements; (g) parental control devices; (h) performance testing (subject to federal laws and regulations); and (8) construction standards.

Ms. Meldrum asked that InterMedia address the reason that a 550 MHz system is being constructed rather than a 750 MHz system.

Mr. Joe Haight, General Manager of InterMedia, explained why the franchise is for a 550 MHz rebuild and not a 750 MHz rebuild.

Ms. Meldrum then reviewed with Council the Institutional Network: (a) four fibers; (b) City of Asheville and City School sites; (c) no maintenance or use costs to City; (d) video, voice, data transmission and other telecommunications applications; and (e) completed with rebuild of cable system (cable company may elect to pass through all or portion of cost to subscribers).

Mr. Haight then addressed questions of the City Council about the Institutional Network (I-NET) and the Public, Educational and Governmental (PEG) Access Channels. He then responded to various questions from Council, some being, but are not limited to, what the benefits of the I-NET would be to the City and who bears what costs related to the I-NET, and if the I-NET is cost effective. He stated that InterMedia will absorb 40% of the cost of the Institutional Network and will only pass along to the subscriber 60% of the cost, with no interest on that 60% being passed along to the subscribers. He also discussed how future negotiations can occur, any possibility of negotiating on the length of the franchise agreement, are three PEG channels sufficient and is there an ability to negotiate for more PEG channels, the projected monthly fees in ten years and if an educational component could be built in for the public to realize the difference in rates for basic cable vs. expanded cable, are there discounts for senior citizens, and will there be an increase in the number of channels for basic cable.

Upon inquiry of Councilman Cloninger about Internet service to the elementary schools, Ms. Meldrum said that it is her understanding that as a matter of policy, InterMedia would provide Internet connections for all school sites. When she asked Mr. Haight to confirm this, he did, noting that InterMedia would provide one modum per school for the Internet.

Mr. Haight invited City Council on a tour of his facility. At the request of City Council, City Manager Westbrook said that he would be happy to work with Mr. Haight on those arrangements.

394

Councilman Cloninger suggested that this worksession be continued until the next worksession, February 3, 1998, in order for Council to continue their questioning of not only these issues, but the many issues yet to be reviewed by Ms. Meldrum. It was confirmed that Ms. Rice would be available to come back to Asheville on February 3.

At the request of Mayor Sitnick, City Manager Westbrook briefed Council on the structure of the community meeting, noting that staff and the consultant would be available to answer questions. He felt it would be a dialog for the public to get the same kind of information as City Council received today. Mayor Sitnick wanted to make sure that since several groups are interested in this topic, that they be allowed to either make a presentation or be allowed to ask questions to staff and the consultant. City Manager Westbrook said that there will be some upfront discussion about the rules of the meeting and the City will have a facilitator along with visual aids and hand-outs.

It was the consensus of Council that after this worksession, the community meeting and the public hearing that each member of Council list their concerns, if any, or request additional information so that their concerns may be addressed, either by discussion in closed session, if legally appropriate, or in open session. After the February 24 public hearing, Council agreed to "digest" the information and then at the worksession on March 3, 1998, determine whether Council should proceed by voting at the March 10, 1998, meeting or determine what action to take.

City Council asked what specific issues about the franchise agreement could be discussed in closed session. City Council stressed that they want the public to know as much as possible about the negotiations. Mayor Sitnick suggested the City Attorney explain at the public hearing on February 24 what the City Council is allowed to discuss in closed session.

It was the consensus of Council to note that the City is not interested in owning it's own cable system.

It was the consensus of City Council to continue this worksession until the next worksession on February 3, 1998, in order for Council to continue their questioning of not only these issues, but the many issues yet to be reviewed by Ms. Meldrum.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:54 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 27, 1998 - 5:00 p.m.

DUE TO ADVERSE WEATHER CONDITIONS, THE MEETING OF THE ASHEVILLE CITY COUNCIL FOR TUESDAY, JANUARY 27, 1998, WAS CANCELLED

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 3, 1998 - 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman O.T. Tomes

PUBLIC RECORDS

City Attorney Oast briefed City Council on why the City of Asheville could not release certain records regarding franchise fee payments from the cable television company to the media. N.C. Gen. Stat. sec. 160A-208.1 provides that tax records which contain information about a taxpayer's income or receipts are not public records, and it prohibits officials from releasing that information. Also, N.C. Gen. Stat. sec. 160A-214 characterizes cable TV franchise fee payments as a "franchise tax." Based upon that statute and the statute prohibiting disclosure of tax records, it was his opinion that we not release the records. He noted that he has looked for a way to se if the information could be made available, however, as he reads the statutes, it is prohibited and the penalty for an improper release is severe.

Mayor Sitnick pointed out that it is her intent and the intent of this Council to have an open dialog on all issues. She also stated that besides the documents which by law cannot be released, many other documents have been provided to the media per their request.

CONSENT AGENDA:

Mayor Sitnick announced that because the formal meeting of January 27, 1998, was cancelled due to adverse weather conditions, City Council is anticipated taking action on the items that were scheduled on January 27, 1998.

Councilwoman Field moved to waive the rules and take action on the items originally scheduled for the January 27, 1998, meeting. This motion was seconded by Councilman Sellers and carried unanimously.

A. RESOLUTION NO. 98-8 - RESOLUTION DESIGNATING THE FAITH TABERNACLE CONGREGATION SIGN LOCATED AT 36 MICHIGAN AVENUE AS A LANDMARK SIGN

Summary: The consideration of a request from The Faith Tabernacle Congregation that their 40 year old hand crafted metal sign located at 36 Michigan Avenue be designated a landmark sign.

Signs may be designated historically significant or landmark signs by the Asheville City Council provided the sign satisfies one or more of the following criteria:

A. The sign is significant to the history of the City of Asheville, including but not limited to, the character of the city as a tourist attraction or cultural center.

B. The sign is unique, notably aesthetic or creative so as to make a significant contribution as a work of art.

C. The sign merits recognition as an important example of technology, craftsmanship, materials or design of the period in which it was constructed and may no longer be economically feasible to produce or manufacture the sign today.

The Historic Resources Commission found that the Faith Tabernacle sign meets criteria A, B, & C for landmark designation for the following reasons:

A. The sign is significant to the history and character of the City as a cultural center.

B. It is unique because it is part of the Church structure. The handcrafted metal sign is attached to a wrought iron porch railing.

C. It is an excellent example of self-reliant mountain craftsmanship of the 1950s.

At their regularly scheduled November 1997 meeting, the Historic Resources Commission, by a unanimous vote, recommended to City Council that the Faith Tabernacle handcrafted metal sign located at 36 Michigan Avenue be designated a landmark sign.

RESOLUTION BOOK NO. 24 - PAGE 332

B. RESOLUTION NO. 98-9 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE DISPOSAL PARCELS 1A AND 52A LOCATED AT THE INTERSECTION OF ASHELAND AND HILLIARD AVENUES

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids regarding Disposal Parcels 1A and 52A at the intersection of Asheland and Hilliard Avenues.

The bid of Price Associates in the amount of $101,000.00 for the purchase of Disposal Parcels 1A and 52A in the East Riverside Redevelopment Project is not less than the established minimum price of $101,000.00.

Disposal Parcels 1A and 52A are zoned RB-Regional Business District and located approximately 100 feet south of the intersection of Asheland and Hilliard Avenues. Comprising 25,246 square feet, the property extends from the east side of Asheland Avenue to the west side of Federal Street. The frontage along Asheland Avenue lies some 10 to 15 feet below street grade with the frontage along Federal Street being near street grade. The overall terrain is level to light sloping. Price Associates is currently leasing the property and has improved the property with a paved parking lot containing 31 parking spaces. The bid from Price Associates for Disposal Parcels 1A and 52A includes the proposal to incorporate the property into the adjoining property currently owned by Price Associates. There are no additional improvements proposed at this time. Price Associates is a partnership owned entirely by Charles R. Price.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 334

C. RESOLUTION NO. 98-10 - RESOLUTION RELEASING A LIEN, IF ANY, AGAINST REAL PROPERTY LOCATED ON MOUNT CLARE AVENUE RESULTING FROM THE DEMOLITION LIEN AGAINST THE PROPERTY LOCATED ON 65 WOODROW AVENUE

Summary: The consideration of adopting a resolution releasing any interest, if any, the City may have against real property located on Mount Clare Street.

During the early part of 1997, the City of Asheville through its Housing Code Enforcement Division notified the owner of the real property located at 65 Woodrow Avenue of various housing code violations existing at said structure with a requirement that the code violations be remedied. The conditions existing constituted extremely dilapidated conditions. The property owner, Robert B. Lassiter, did not respond in any manner. Proceeding in accordance with the One Step Process set forth under the City's Housing Code, the City entered into a contract with NEO Corporation to demolish the structure located at 65 Woodrow Avenue. NEO Corporation demolished the structure at said address on the 7th day of April 1997 for a total sum of $10,500.00, the lowest responsible bidder to submit a bid for said demolition work. In accordance with the City's Housing Code, other cost were tabulated representing the cost of the title search, publication cost, etc. bringing the total cost of the demolition lien to $10,860.00. This lien was recorded in the Buncombe County Clerk of Court's Office.

Mr. Lassiter owns real property located on Mount Clare Street that he has under a pending contract of sale for approximately $6,000.00. However, the potential buyers of the Mount Clare Street property will not purchase the property unless they are assured that the City's lien against Mr. Lassiter's Woodrow Avenue Property is not a lien against his Mount Clare Street Property.

Mr. Lassiter has requested that the City release any lien the City may have against his Mount Clare Street property and in consideration thereof has agreed to pay to the City the sum of $3,000 to reduce the indebtedness of the $10,860.00 lien plus the City continues to retain its lien against the Woodrow Avenue property until same is paid in full. The $3,000 will come out of the purchase price for the property on Mount Clare Street with the remaining portion going towards closing cost and to Mr. Lassiter.

Staff recommends that Mr. Lassiter's offer be accepted.

RESOLUTION BOOK NO. 24 - PAGE 335

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they would not be read.

Vice-Mayor moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

MOTION AUTHORIZING THE MAYOR TO WRITE A LETTER IN SUPPORT FOR A BROWNFIELDS AGREEMENT APPLICATION BEING MADE FOR PROPERTY LOCATED AT 105 FARIVIEW ROAD

At the request of Planning & Development Director Julia Cogburn, Councilwoman Field moved to continue this item until the February 10, 1998, City Council meeting. This motion was seconded by Councilman Cobb and carried unanimously.

MOTION TO (1) SCHEDULE A WORKSESSION ON FEBRUARY 17, 1998, RELATIVE TO THE POSSIBLE SALE OF CITY-OWNED PROPERTY KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY; AND (2) CONTINUE THE PUBLIC HEARING UNTIL MARCH 10, 1998

Mayor Sitnick noted that the original public hearing was set for January 27, 1998, however, that meeting was cancelled due to adverse weather conditions. Because it was the consensus of City Council that a worksession on this matter might be beneficial prior to the public hearing, Councilman Cobb moved to set a worksession on this matter on February 17, 1998, and continue the public hearing until March 10, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

At the request of Council, staff was instructed to invite the appraiser and Mr. Camille to the worksession on February 17, 1998. Also, it was the consensus of City Council to tour Memorial Stadium at approximately 1:30 p.m. on Tuesday, February 17, 1998.

MOTION TABLE PUBLIC HEARING RELATIVE TO REZONING 216 SHELBURNE ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY TO INSTITUTIONAL UNTIL JULY 28, 1998

Mayor Sitnick said that this public hearing was scheduled for January 27, 1998. City Council has received a letter from Associate Pastor Jerry R. Young from Trinity Baptist Church stating that after a meeting with their neighbors on Sunday, January 27, 1998, they feel that it would be advantageous that they ask this rezoning petition be tabled for a couple of months. This will allow them an opportunity to work with their neighborhood on a conditional type zoning for their property, that it would give the neighborhood assurances that the property would never be anything other than a church, and allow the Church to continue with their planned expansion for the future ministries of the church. He also requested that City Council direct Planning & Zoning to solve the unique problems presented in the UDO for granting conditional type uses of church properties.

Planning & Development Director Julia Cogburn said that it is staff's intent to bring this matter back to City Council at a worksession in two-three months with some information on what other cities are doing with conditional type uses, etc., prior to staff drafting the ordinance as it would be an extensive ordinance amendment. After that direction from Council, Planning staff will draft an ordinance for the Planning & Zoning Commission's review prior to bringing it to City Council.

Vice-Mayor Hay moved to table this matter until July 28, 1998. This motion was seconded by Councilwoman Field and carried unanimously.

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 13, 1998, AND THE WORKSESSION HELD ON JANUARY 20, 1998

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on January 13, 1998, and the worksession held on January 20, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION NO. 98-11 - RESOLUTION ADOPTING THE RIVER DISTRICT DESIGN GUIDELINES DATED FEBRUARY 3, 1998

Mr. Bruce Black, Urban Planner, said that the Unified Development Ordinance requires the River District Design Guidelines be approved by the City Council. The Guidelines have been reviewed by the Planning and Zoning Commission, and they have recommended unanimously that the Guidelines be adopted by the Council.

The River District Guidelines concentrate primarily upon the River Core Area (the area from Lyman Road north to the train trestle across the French Broad River), establishing Character Buildings upon which future design and renovation should be based. It is part of an overall attempt to create a similarity in design such that the area remains recognizable as a district.

Other areas of the River District are also addressed, but not to the same extent as the River Core Area. All facets of building appearance, and site design are dealt with.

It is the intent of the Guidelines to be general, flexible, and constructive in nature, allowing constructive and creative dialogue between the Design Review Committee and the building or site designer.

The Planning staff has held a public meeting at A-B Tech on December 16, 1997. All property owners of record in the River District were notified of the meeting by U.S. Mail. Twenty-eight people attended, including residents, people who work in the area, and business owners.

In addition, a number of business owners in the River Core Area were contacted individually, and the contents of the River District Design Guidelines were reviewed with them.

There were no objections to the contents of the guidelines, and there were several constructive suggestions for improving the River Core District, which will be pursued.

The UDO requires that the review by the Design Review Committee is mandatory, and that compliance is voluntary.

Mr. Black said that after the worksession on January 20, 1998, Councilwoman Field met him and suggested some revisions to the Guidelines which would allow the document to be flexible, clear and give guidance. He then reviewed the nine suggested amendments.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-11 with the nine amendments outlined by Mr. Black. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE

THE FOLLOWING ARE ITEMS ON THE REGULAR 2/3/98 WORKSESSION AGENDA

CONSENT AGENDA:

Portion of Iron Street and Raleigh Avenue (formerly Carolina Avenue) not part of an Adopted Street Plan

Summary: William C. Burgin and Biltmore Heights, LLC, a North Carolina Limited Liability company, have requested that City Council adopt a resolution stating the rights-of-way known as Raleigh Avenue (formerly Carolina Avenue) and a portion of Iron Street as shown in

Plat Book 5, page 27, are not part of an adopted street plan in accordance with N. C. Gen. Stat. sec. 136-66.2.

Setting a public hearing for Drhumor Building located at 48 Patton Avenue to be designated as a local historic landmark

Summary: The consideration of setting a public hearing on February 24, 1998, to designate the Drhumor Building located at 48 Patton Avenue as a local historic landmark.

Councilman Cloninger noted that he is one of the owners of the Drhumor Building and asked that this item not be placed on the Consent Agenda at the next formal meeting due to his conflict of interest.

Budget Amendment re: Transit Center Traffic Signalization Grant

This item was postponed until the worksession on February 17, 1998.

Acceptance of new propose street name - East End Place

This item was postponed until the worksession on February 17, 1998.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRESENTATION REGARDING VANDERBILT BUILDING

Mr. Jim Sawyer, Chairman of the Board of Vanderbilt Apartments, along with Mr. Ed Smith and others, presented City Council with a request to help fund the renovation of the Vanderbilt Apartment Building located between the Civic Center and the main Library.

heir presentation included details of the building as affordable low cost housing for senior citizens: 158 units (132 studio and 26 one bedroom); rents $200-$270 for studio apartment and $230-$310 for one bedroom; rent cannot exceed 30% of income and operated as a private non-profit organization.

The age and income of residents are: 65% are 70 years old or older; 28% are 80 years old or older; 43% have incomes of less than $6,000 a year; 72% have incomes of less than $9,600 a year; and 16% have incomes of $12,000 or higher.

By use of a computer powerpoint demonstration, he showed the structural problems of the building which include: (1) exterior brick "skin" is not properly attached to the structural frame; (2) mortar joints have deteriorated, bricks have broken and some are in danger of falling; and (3) unsafe structure which must be repaired if occupancy is to continue. The effect on residents, if problem is not solved, will be 158 very elderly and very low income persons will need to find other housing options and independent living will not be an option for some. Some other possible outcomes, if the building is not repaired, include imminent severe danger to the residents and public that travel near the building, condemnation by the City or bankruptcy.

They outlined the actions taken by the Vanderbilt Apartment Board which include (1) 400 "helifix" anchors installed as a temporary fix; (2) applying for a $2,141,936 HUD 241 Preservation Loan/Insured Mortgage; (3) requesting permission from HUD to raise rents which will generate $14,307/month; and (4) after receiving bids for repairs of the building, $2,300,000 is needed to repair the building. They noted that HUD requires local participation in order to approve their loan request.

The local help needed to keep the building open and rents stable include: (1) $200,000 from local sources (applications made to Community Block Grant and Home Investment Partnership Program); and (2) need approximately $45,000/year to hold rent stable for all residents (HUD will pay the increase for 62% of the residents who are receiving rent support).

They requested a commitment of $22,500 from each the City of Asheville and Buncombe County for 5 years to hold rents stable for unsubsidized residents. The Vanderbilt Board believes that saving low cost housing will be cost effective for the entire community. They urged City Council to help this affordable housing continue to be available in Asheville.

Representatives from the Board responded to several questions from Council, some being, but not limited to, the amount requested from the HOME Program and the Community Development Block Grant Program, what other foundations have they requested money from, when they will be requesting money from Buncombe County, who actually owns the building, what the volunteer Board make-up is, has the Board looked at ways to cut the cost on the bid amount, who was the lowest bidder,

Councilwoman Field explained how the HOME Consortium has asked HUD to do a reevaluation of the Section 8 rental subsidies.

Councilwoman Field stated that she was concerned about housing in the community and very concerned about the public safety issue. However, she noted that City Council could not guarantee to HUD that every year money would be allocated to Vanderbilt Apartments because of the make-up of the different committees. She noted that the $150,000 being requested in HOME Program is almost Asheville's entire amount of money because the money is allocated out amongst nine municipalities and four counties. There are other commitments by the City and of the portion that we are allocated, a certain amount has to go to non-profits that provide housing for the community. With regard to CDBG funds, those funds have just been cut and she was unsure if the City could respond with the urgency that this request needs.

Because of the public safety issue, Mr. Sawyer explained that they are inspecting the bricks on a daily basis.

Upon inquiry of Vice-Mayor Hay, Mr. Sawyer said that it would take approximately $5.3 million to replace the units.

When Vice-Mayor noted that finding $150,000 in the CDBG funds would be next to impossible, Mr. Sawyer again stated that HUD would not act favorably on their loan application unless there was local participation and they will not proceed with any repairs until the total financing is in place.

Mayor Sitnick was very concerned about the public safety issue with regard to the falling bricks. She hoped that on the south side of the building next to the main Library, which has the most amount of pedestrian traffic, some kind of effort be made to secure that side.

Mr. Sawyer noted that before they fix just part of the building, they would probably choose to close it down because a big part of the cost is the set-up. Mayor Sitnick noted that closing the building won't stop the bricks from falling.

Councilwoman Field suggested and City Council concurred that we refer this request to the Housing and Community Development Committee and have our City staff look for some creative ways to assist with this request. Mayor Sitnick further suggested and City Council concurred that City staff see if there are any measures that can be taken to at least let people know who are walking on the sidewalk by the building of the potential danger.

BUDGET AMENDMENT RE: COUNCIL CHAMBER RENOVATION DESIGN

Mr. Lyle Willis, Contract Administrator, said that on February 25,1997, City Council passed Resolution No. 97-19 authorizing the City Manager to enter into a contract with Electronic Interiors, Inc. for professional services to design and upgrade the audio-visual and other electronic capabilities of the Council Chamber in the City Building.

In November, 1997, Electronic Interiors, Inc. completed the Phase I portion of their contract which included meetings with city staff on programming and presentations resulting in the completion of schematic design drawings and preliminary budget estimates. He then presented the design drawing to Council for their review.

Based on information obtained in the Phase I portion of Electronic Interiors, Inc.'s contract, a proposal with related costs for design services for Phases II-III was received by City staff. The proposal for Phases II-III incorporates services for the design development, complete construction documents and construction administration through out the project. This scope of services will cost an additional $19,000 currently not appropriated or approved by City Council.

The Parks and Recreation Department requests City Council appropriate an additional $19,000 and to authorize the City Manager to enter into an agreement with Electronic Interiors, Inc. for Phases II-III of the Electronic Interiors, Inc. contract.

Mayor Sitnick said that she was pleased that this will improve both audio and visual conditions in the Chamber. In the future she hoped that we can create some way that people who cannot be seated in the Council Chamber who have to stand in the hall will be able to at least hear and view the Council proceedings. Mr. Willis said that once the design drawings and specifications are in place, Council can look at audio and visual in the hallway, however, we can't take away from the fabric of the hallway.

Councilman Cloninger hoped that there would be a table reserved for the press at the front of the room.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LOCAL PLAN APPROVAL OF WATER LINE EXTENSION CONSTRUCTION PLANS

Ms. Cathy Ball, City Engineer, asked City Council to consider adopting an ordinance to allow the Engineering Department of the City of Asheville to review and approve water line extension plans and revise the Fees and Charges Manual to include charging $200 review fee for each project.

The current process for reviewing and approving water line extension plans requires that the City of Asheville review the plans to insure that they conform with our standards specifications and details and forward the plans to the N.C. Dept. of Environment and Natural Resources (NCDENR) for final approval. This process often takes six to eight weeks. By adoption of this ordinance, the amount of plan review time will decrease to approximately two weeks. This will be a significant benefit to the development community by expediting the approval process and facilitating the construction process beginning sooner.

NCDENR has developed a program by which local governments can be delegated the responsibility of reviewing and approving water line extension plans provided they have an ordinance to enforce compliance with the approved plans and adequate staff and resources to properly review the plans. Staff has met with the local NCDENR and received approval for the latter requirement. A draft copy of the ordinance has been approved by the state office of NCDENR.

Staff is also requesting that the current Fees and Charges Manual be revised in order to allow the City of Asheville to charge $200 for the review of the water line plans. Currently there is no charge for this plan review. The amount of $200 per project was determined by looking at the actual staff time and resources that are currently required to review plans. Depending on the size of the project, the actual cost to the City to review plans ranges from $150 to $300. In the fiscal year 97-98, staff reviewed 108 projects.

Staff recommends that City Council adopt an ordinance allowing the City of Asheville to review and approve water line extension plans and revise the Fees and Charges Manual to include charging $200 per project for the review of the water line extension plans.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

AGREEMENT WITH SKYLAND FIRE DEPARTMENT

Fire Chief John Rukavina explained that this resolution would allow the City to enter into an agreement with the Skyland Fire Department that would allow use of parts of Skyland's fire station by Asheville firefighters.

In consideration of assuming 50% of the cost of utilities of Skyland's fire station, and up to 50% of repair/maintenance costs, the Skyland Fire Department is willing to let the Asheville Fire Department use Skyland facilities for housing on-duty Asheville firefighters.

Acceptance of this agreement on the part of the City of Asheville would allow avoidance of the cost of constructing living quarters for firefighters in Asheville Fire Station 4, the new Asheville fire station to be built adjoining Skyland's station. Only apparatus bays and facilities for the Asheville Police Department substation would be required at this time.

The proposed agreement provides a five-year notice for the City in the event that Skyland wishes to discontinue the agreement at some time in the future. This notice would provide time necessary to develop a funding plan as part of the City's Capital Improvement Program to add living quarters to the Fire Station 4 "shell."

At the present time, the City is using space in Skyland's fire station, and is reimbursing Skyland an amount equal to 40% of its utility costs.

The City Attorney has reviewed the proposed agreement, and notes, that, while technical changes may be required prior to execution of the agreement, the substance of the agreement is in order.

Because bids have been opened for the construction of Fire Station 4, and because execution of this agreement would significantly reduce construction costs, time is of the essence in regard to City Council action authorizing the City Manager to enter into an agreement with the Skyland Fire Department.

Upon inquiry of Councilman Cobb, Fire Chief Rukavina said that a conservative estimate of $100,000, even possibly $200,000 will be saved if the living quarters are not constructed.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

COOPERATION OF CITY DEPARTMENTS DURING WINTER STORM

Mayor Sitnick thanked the Public Works Department, Water Resources Department, Police Department, Fire Department, Parks & Recreation Department, Engineering Department, Building Safety Department and Personnel Department on how well they responded to the recent winter storm in January 27, 1998. There will be an after action review meeting to discuss how well the City did in preparing for the event, how well we did once it was underway, what we didn't do as well as we should have, and what we can improve for the future. She felt that some public education ads in the newsprint, on the television and on the radio might be beneficial to the public. She also stressed that as a community we need to find ways to address the problem of when kids are out of school, some don't eat the first two meals of the day.

On behalf of Jim McCulley, Councilwoman Field thanked the departments that assisted him during the storm.

Fire Chief John Rukavina said that they have information which they will distribute to the public of a checklist on how to be self-sufficient for 72 hours.

CABLE TV FRANCHISE REVIEW

Mayor Sitnick announced that this cable TV franchise review began at Council's worksession on January 20, 1998, and was continued until this date.

Ms. Patsy Meldrum, Assistant City Attorney, said that at the worksession on January 20, City Council asked for information regarding a brief summary of the history of the 1967 cablevision franchise, a brief summary of the renewal processes for cablevision franchises and a comparison chart of what was requested of the cablevision company in the Request for Renewal Proposal and what is included in the proposed franchise. She then reviewed the requested information with City Council.

Ms. Jean Rice, the City's consultant, then explained the comparison chart of what was requested in the Request for Renewal Proposal and why InterMedia did not agree to them.

Assistant City Attorney Patsy Meldrum continued with her review of the proposed cable television documents with City Council not only for the benefit of the new Council members, but for the benefit of the public in understanding the proposed cable television documents.

She reviewed the franchise ordinance (ordinance granting franchise to Brenmor d/b/a InterMedia): (1) system services (a) subscribers; (b) leased access channels; (c) free cable drops and monthly service to sites passed by activated cable plant and within city limits: (i) all city and county schools; (ii) city police and fire stations/facilities; (iii) all "city and county libraries"); (iv) all city buildings; (d) scrambled institutional programming - for governmental and educational access channels to all local governmental and educational locations receiving free drops and monthly service; and (2) state-of-the-art clause (a) cable systems owned by Brenmor/InterMedia in North Carolina, South Carolina, Georgia and/or Tennessee; (b) similar system (size, population, etc.); and (c) public hearing may be held by City Council.

Throughout Ms. Meldrum's presentation, she and Ms. Rice, responded to various questions from Council. Some questions were, but are not limited to, how many cities in North Carolina own their own cable system and do those cities hire employees with expertise or hire an outside company to run the system, was the information from the community needs assessment included in our Request for Renewal Proposal, what is the benefit for the City and InterMedia with regard to the state-of-the-art clause, how can the City trigger the state-of-the-art clause, what is involved in monitoring other communities regarding state-of-the-art systems, do other cities have stronger language in their state-of-the-art clauses, what the difference is between a 550 MHz rebuild and a 750 MHz rebuild, and how does the proposed franchise agreement define cities of similar size in the state-of-the-art clause.

Upon inquiry of Councilman Cloninger, Mr. Joe Haight, General Manager of InterMedia, said that InterMedia will provide Internet connections for all school sites, however, they do not want it incorporated into the agreement because it is a matter of policy. He noted that InterMedia would provide one modem per school for the Internet.

Mr. Haight responded to questions from City Council about how the state-of-the-art clause in the franchise agreement is an opportunity for dialog. He said that it is their intent to keep the costs to their customers reasonable and they expect revenue increases will come from additional services that they offer, not from the basic services they have. He then answered various other questions, some being, but not limited to, why the basic service rate payers will have to pay for a rebuild even if they don't want those extra services, and what the cost difference was between the 550 MHz rebuild and the 750 MHz rebuild.

Mr. Bruce Stewart, attorney for InterMedia, also responded to questions from Council noting that they are acutely aware of the costs and are being respectful of providing the services.

Upon inquiry of Mayor Sitnick, Ms. Rice said that they are comfortable with InterMedia providing the 550 MHz rebuild.

Ms. Meldrum reviewed the franchise ordinance (ordinance granting franchise to Brenmor d/b/a InterMedia): (1) public, educational and governmental (PEG) access channels (a) three channels required within 90 days of City's request (after rebuild completed); (b) one additional channel required when threshold met; (c) administration and management may be coordinated by city and cable company or city may assign to third party or cable company; city has sole authority to designate channels and use of channel capacity; (d) initial access equipment and facilities -- $200,000 (paid over first two years; first $50,000 may be paid by cable company "in-kind" with equipment; cable company may elect to pass through all or portion to subscribers); (e) replacement equipment, maintenance, support and facilities -- minimum of $36,000/year or 15-cent/subscriber/month, whichever is greater, during years 8-17 (cable company may elect to pass through all or portion to subscribers); (2) subscriber services and standards (subject to federal laws and regulations) (a) subscriber information; (b) customer service standards; (c) subscriber complaints; (d) downgrades and disconnects; (e) outages; (f) repair calls (four hour windows); (3) construction bond ($300,000); performance bond ($350,000); (4) insurance requirements (general liability; workers' compensation; employers liability; automobile liability); (5) indemnification requirements; (6) most favored nations (a) other cable franchises granted by City must have similar requirements, subject to exclusion of small cable systems; (b) indemnification of City by cable company; and (7) transfers, renewals and termination/revocation governed by regulatory ordinance and federal laws and regulations.

She then continued with the final element of the proposal which is the franchise fee settlement: (1) franchise fee audit for four years (January 1, 1992 - December 31, 1995); (2) payments made by basic and expanded basic service revenues; no payments made from premium channels (HBO, Cinemax, etc.), pay-per-view, home shopping channels or other revenues; (3) settlement from InterMedia and TCI (a) $150,000 - payable in three installments of $50,000 over three years; (b) additional franchise fees from new definition of "gross annual revenues" if franchise renewal completed - estimated by cable company to be $260,000 from 1997 - 2002 (rest of 1967 franchise term).

Again, throughout the presentation, Ms. Meldrum and Ms. Rice responded to questions from Council, some being, but not limited to, how may public access channels do other cities of Asheville's size have, how does the number of PEG channels relate to the needs assessment survey, will the PEG channels be in the basic service tier, do other cable companies fund the access studios, what the pros and cons are for having the access studio located in the cable company location, does InterMedia have complete discretion in what is included in the basic tier service, how the $200,000 for initial access equipment and facilities was arrived at, how was the construction bond figure obtained, what happens to the equipment, etc., if the cable company fails, and how the $260,000 figure was arrived at regarding additional franchise fees until the end of the franchise term in 2002.

Councilwoman Field suggested a regional access studio for several communities to band together at one center to do programming. Ms. Rice addressed questions about that suggestion.

Mr. Haight also responded to various comments, some being, but not limited to, a negotiated shared channel with Charter and Marcus Cable, and why the cable company paid the City 6% in franchise fees when the law only said they needed to pay 3%.

Councilwoman Field noted that the Forum in Pack Place was designed to be used for production.

Ms. Meldrum explained thoroughly why the City asked for a franchise fee audit of three years and received an audit for a four year time period and the issues regarding going back further in time.

Councilman Cloninger asked if there were any binding arbitration clauses in the agreement. Ms. Meldrum responded that we do have arbitration for one issue, however, it is not binding arbitration. Councilman Cloninger suggested we might consider it on other issues. Mr. Stewart responded that they would prefer to have full rights of appeal, even if arbitration is included.

Ms. Meldrum answered several questions from Vice-Mayor Hay about why the settlement from InterMedia and TCI should be agreed upon at the same time the franchise agreement is agreed upon.

Councilman Cloninger asked what specific issues about the franchise agreement could be discussed in closed session, noting that the City has an obligation to negotiate the best possible agreement. He stressed that they want the public to know as much as possible about the negotiations. City Attorney Oast said that there is clear authority in the Open Meetings Law to receive legal advise from an attorney and to discuss matters in litigation or headed for litigation, however, he would prefer to have an opportunity to review all facets of the question before issuing an opinion.

Mayor Sitnick noted that on Tuesday, February 10, 1998, at 7:00 p.m. in the William F. Wolcott Jr. building at 161 South Charlotte Street there will be a community meeting. On February 24, 1998, at 5:00 p.m. in the Council Chamber, 2nd Floor, City Hall Building, there will be a public hearing on the cable TV franchise renewal issue. She noted that City Council is not required to vote at the public hearing and suggested that after the hearing all the input from the public and recommendations from the City Manager and City Attorney, City Council will be in a better position to know how they wish to proceed.

At the request of Councilwoman Field, Ms. Rice responded briefly to a letter dated February 3, 1998, from Mr. Bill Fishburne, Vice-President and General Manager of Internet of Asheville, in which he felt that the Institutional Network as proposed by InterMedia was not a good deal.

Mr. Bill Fishburne reviewed his letter and suggestions to Council.

Ms. Meldrum noted that the City Council has received comments from the following individuals: Mark Rosenstein on January 15, 1998; Nelda Holder on January 19, 1998; and Wally Bowen, representing Citizens for Media Literacy, on January 16, 1998. She said that she has reviewed all of their comments and tried to address those comments during her presentation.

In addition to the cable franchise matters, Ms. Meldrum noted that the City Council had received information regarding review of the 1997 annual rate increase request of InterMedia. She said that by a letter dated March 1, 1997, InterMedia filed FCC Forms 1205 and 1240, both dated March 1, 1997, for the purpose of requesting and justifying an annual increase in its monthly rates and hourly service charges for cable services on the basic service tier. Those documents were received by the City on March 3, 1997.

The City has reviewed the FCC Forms 1205 and 1240 and attachments filed by InterMedia on March 3, 1997. The City's review concluded that InterMedia made certain errors in the Form 1240 filing, but that the Form 1205 filing was correct. The City informed InterMedia of those errors in the Form 1240 filing and attachments. InterMedia subsequently filed with the City an amended FCC Form 1240 on November 7, 1997.

Rice, Williams Associates, the City's cablevision consultant, has completed a review of the amended FCC Form 1240 filed with the City by InterMedia on November 7, 1997. Rice, Williams Associates has furnished the City with a report regarding their review of the amended FCC Form 1240. That report concludes that there were errors in the calculations of the maximum permitted rate, related to inflation factors used. A copy of that report was furnished to InterMedia.

InterMedia has asked that they have additional time to show that its rate filing was accurate, therefore, Ms. Meldrum recommended, and City Council concurred, that this issue be discussed at the worksession held on February 17, 1998, and a public hearing be scheduled for February 24, 1998. She noted that Council will need to take action on the request on February 24, 1998.

Mayor Sitnick stated that the community meeting on February 10, 1998, will be as open as possible with cross dialog.

MORATORIUM ON ADULT ESTABLISHMENTS

Councilman Sellers asked for Council's support on a resolution imposing a moratorium on adult establishments until House Bill 588 is considered and acted on by the General Assembly.

City Attorney Oast noted that this will involve a public hearing on the issue and that he would be happy to prepare a resolution to be considered at Council's worksession on February 17, 1998.

CITY COUNCIL RETREAT

Mayor Sitnick invited the public to the City Council annual retreat beginning at 1:00 p.m. on Friday, February 6, 1998, through 12:00 Noon on Sunday February 8, 1998, at Highland Lake Inn in Flat Rock, N.C.

ERSKINE STREET PLAYGROUND NAME REQUEST

Mayor Sitnick received a request from the Parks and Recreation Advisory Board asking for City Council to recommend to the Housing Authority that the Erskine Street playground be named in honor of Herb Watts.

It was the consensus of City Council to write a letter to the Housing Authority supporting the Advisory Board's recommendation.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 735 p.m.

Friday - February 6, 1998 - 1:00 p.m. -
Sunday, February 8, 1998 - 10:30 a.m.
Highland Lake Inn, Flat Rock, N.C.

City Council Annual Retreat

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Friday, February 6, 1998

Local Thoroughfare Plan - Cathy Ball, City Engineer, reviewed with Council the request to establish a list of local (City maintained streets) transportation projects.

It was the consensus of City Council to have staff follow through with work to create a local Thoroughfare Plan which would utilize the information provide from a consultant, which the City is currently in the process of trying to retain, for a public involvement study for the Asheville area. The date from the study will be utilized to establish our goals and objectives for a local transportation improvement program.

Traffic Calming Policy - Cathy Ball, City Engineer, reviewed with Council a draft residential traffic management policy. This policy will formalize a system whereby citizens can initiate a process for the evaluation of residential streets and roads for the purpose of increasing traffic safety. The policy also provides a citizen with information necessary to understand the parameter under which both the citizens and the government must operate. The policy provides an evaluation questionnaire, petition, step-by-step procedure, traffic calming selections survey and a follow-up survey.

It was the consensus of City Council to solicit comments from the public on this policy and bring back a draft to Council in the spring. The funding will be presented to City Council in their annual budget process.

Small Area Plans - Julia Cogburn, Planning & Development Director, explained that small area plans are land use and development plans that are typically comprehensive in nature but cover a small defined area. Three plans have been adopted since 1989 - Biltmore Village Development Plan in May of 1992, the Hendersonville Road Corridor Plan in March of 1993, and the West End/Clingman Avenue Neighborhood Plan in January of 1996. The Charlotte Street Small Area Plan will be before Council in April of this year. Ms. Cogburn presented a list of small area plans that were either requested by the public, by Council, or were needed from a staff's point of view. Those plans include: the Swannanoa Corridor (from Biltmore Village to Tunnel Road), Broadway (from 19-23 to downtown), and Haywood Road (the entire corridor). Other plans to be considered are WACT 10 (Census Tract 10 - bounded by French Broad River on the east and south, I-240 on the west, and 19-23 on the north); Sweeten Creek Corridor (from Biltmore Village to Airport Road); Hospital Area - Kenilworth Area; A-B Tech; McDowell and Biltmore Avenues and surrounding neighborhoods; UNC-Asheville/Jackson Park - Woolsey - UNC-Asheville/Weaver Boulevard/Jackson Park - Woolsey neighborhood; Hill Street (area from Montford Avenue down to Hill Street around to Courtland Avenue); Overlook Road (Overlook Road corridor from Hendersonville Road to Long Shoals Road); Merrimon Avenue (corridor study); Central Avenue (Broad Street/Hillside area - area from Charlotte Street to Merrimon Avenue going back to Coleman); and Tunnel Road (corridor study). Other plans under consideration include the downtown master plan and the river core area plan.

It was the consensus of City Council to review the 2010 Plan and directed staff to recommend a priority among the plans, and to present them as part of the budget process.

Minimum Housing Code Update - Terry Summey, Director of Building Safety, updated City Council on the efforts to increase the number of rental residential properties in the City that are inspected and brought up to Minimum Housing Code. The emphasis is on having inspections made in accordance with the Minimum Housing Code schedule before July 1, 1999. Two recent major changes have occurred: (1) Effective on October 1, 1997, initial Housing Code inspections are made by one of the approved third party inspectors; and (2) Effective on January 1, 1998, before water services changes are made for new residential tenants, a verification is made that a housing inspection has been made in accordance with the Code and schedule. Increased efforts have also been made to address residential structures that negatively impact neighborhoods and need to be demolished. In addition, a systematic Inspection Program has begun in the Clingman Avenue area.

It was the consensus of Council that if we are going to review the goals set in the current Minimum Housing Code ordinance, that it be done in plenty of time before certain target dates in the current ordinance are reached.

Neighborhood Inspection Program - Terry Summey, Director of Building Safety, updated City Council on the Neighborhood Citizen Inspector Program which involves neighborhoods helping to address problem issues in their community. This is a pilot program to occur between May 1 and September 30 to involve two neighborhoods with inspecting and addressing issues in their community. The main objectives of the program will be the following: (1) to clean up the exteriors of residential buildings, grounds, and vacant lands; (2) to stem further blight of neighborhoods; and (3) to foster community involvement in the upkeep of their neighborhood. The anticipated results of the program will be: (1) increase neighborhood participation and input; (2) reduce environmental nuisance conditions and neighborhood blight; (3) allow the City staff to focus more on the problem cases; and (4) reduce the number of conversions from owner occupancy to rental. The program is still in the process of being finalized and two pilot neighborhoods have yet to be identified.

Council endorsed this concept and directed staff to conduct a pilot program and to bring back to City Council the results from the pilot program prior to full implementation.

Annexation - It was the consensus of Council to hold a worksession in early March to discuss with the consultants issues on which they need guidance in progressing with the annexation study. Said worksession is to be at 5:30 p.m. in the Public Works Facility. Some items to be discussed at the worksession should include our annexation policy, the history of annexation, what areas have been annexed, what are the services required by law that we provide and the timeframe we have within which to start those services, what is the financial impact on the people who are annexed and on the Asheville citizens who pays both City and County taxes, what some amenities are that the County residents are using but City residents are paying for, the laws regarding annexation, questions regarding if the annexed areas are being properly served, along with a van tour of development taking place outside the City limits. On a related issue, Council also wanted to discuss the extraterritorial jurisdiction areas and its relationship to annexation.

1998 Legislative Agenda - City Attorney Oast updated City Council on several legislative items. It was the consensus of Council to have the City Attorney introduce for the Short Session (1) the local act (applicable to Buncombe and Henderson Counties) requiring Dept. of Transportation reimbursement for non-betterment costs of relocation of water and sewer lines in connection with NC DOT projects; (2) legislation endorsing the proposal by the Asheville-Buncombe Community Relations Council to become a deferral agency for employment discrimination complaints; (3) and legislation to repeal some provisions of Asheville's Charter in order that our Charter not conflict with State law.

Saturday, February 7, 1998

City Council Rules of Procedure - City Attorney Oast reviewed with Council some of the issues discussed at City Council's mid-year retreat in August, 1997: (1) Roll call votes - eliminated; (2) Quorum - need to amend rules regarding quorums in order to be consistent with State law and charter. Ordinarily in cities where Mayor votes as a regular Council member, quorum is a simple majority. Our Rules provide that a quorum is a majority of Council plus the Mayor; and (3) Public Comment/Public Hearings - (a) staff has recommended that land use matters be presented to Council at worksessions in advance of the public hearings on those items. Currently they are not. In August, the Council expressed some interest in this approach, but has since expressed concern that public comment cannot be taken a worksessions for items for which a public hearing is required. Staff has hesitated to implement this practice pending further direction from Council; and (b) conditional use permit hearing process has been drafted, implemented and used once. He then reviewed the closed session processes and the open meetings law.

It was the consensus of Council to instruct the City Attorney to amend their Rules (1) regarding quorums in order to be consistent with State law and the Charter; and (2) to be consistent with State law regarding City Council has to meet at least once a month and adopt a resolution or and ordinance at the first of the year outlining their meeting schedule.

It was the consensus of City Council to ask the consultants, who are redesigning the Council Chamber, about a mechanism to alert speakers when their speaking time is up.

After discussion of the meeting time for worksessions, it was decided that this item needed further discussion and thought.

Strategic Planning Process

The strategic planning process began with City Council discussing over 153 topics.

Sunday, February 8, 1998

Strategic Planning Process

The following are the top 10 goals arrived at after discussing and combining over 153 smaller topics: (1) Encourage City/County Comprehensive Multi-Model Transportation Plan; (2) Adopt Affordable Housing Policy; (3) Adopt Parks and Recreation Master Plan; (4) Improve traffic management system; (5) Develop and fund economic development strategic plan; (6) Adopt Civic Center Master Plan; (7) Establish a neighborhood/community outreach program; (8) Celebrate cultural diversity; (9) Adopt comprehensive parking plan; and (10) Review Sign Enforcement - Resources and Efforts.

The following goals were equally important: (1) Develop policy on public art; (2) Adopt comprehensive tower ordinance; (3) Consider federal regulations regarding stormwater; (4) Maintain fiscal policy and financial health; (5) Partner with effort to establish comprehensive riverfront development plan; (6) Enhance community litter clean-up (Adopt a Street, state system streets, education); (7) Review management structure of transit system; (8) Continue to identify and fund infrastructure needs; (9) Enforce street numbering ordinance; and (10) Strengthen day care system.

4

Miscellaneous Topics

Many topics were brought up and discussed during this portion of the meeting. Some being, but are not limited to, rotating seating arrangements in Council Chamber; stipends for City Council; concerns about how the process of the retreat was handled; review of the Unified Development Ordinance with guidance from staff and public; need to put all planning processes together; the need to continue community meetings; better communication with the media; look at real estate around the Civic Center when it becomes available; prohibiting of phones and pagers in Council meetings; perhaps one worksession a month devoted to boards & committee reports; forming of an Asheville Film Committee; suggestion for a City-wide bus tour to look at neighborhoods, businesses, streets, traffic, etc.; request for a Unity Statement by the City; look at all revenue producing potential that Asheville is not getting; see if All America Pins can be bought from supplier in the United States, not China; brief explanation of the composition of the Planning & Zoning Commission; need for after-event review of storms and try to remember that kids who don't go to school don't eat two meals a day; address issue of school buses not having seat belts; the need to resolve the issue regarding the Rod and Gun Club; YMI Cultural Center reorganization; and better communication with the media.

Mayor Sitnick adjourned the meeting at 10:15 a.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 10, 1998 - 5:00 p.m.

Regular Meeting

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF AWARD GIVEN TO MOUNTAIN HOUSING OPPORTUNITIES INC. AND THE CITY OF ASHEVILLE FROM THE NORTH CAROLINA FINANCE AGENCY

Mayor Sitnick said that the City of Asheville and Mountain Housing Opportunities have received an award from the North Carolina Housing Finance Agency.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities Inc. said that the Mountain Housing Opportunities' Laurel Bridge Apartments project has been selected to receive the 1997 Housing North Carolina award from the North Carolina Housing Finance Agency.

In selecting this project, the Agency noted that the project provides an innovative approach involving the City of Asheville and Mountain Housing Opportunities, Inc. (MHO) to empower renters and homeless families to become homeowners. The project competed against affordable housing projects from other cities and counties across North Carolina. The award was presented to the City and MHO representatives in Raleigh on December 11, 1997. He was asked to present the City their award on behalf of the North Carolina Housing Finance Agency.

On behalf of City Council, Mayor Sitnick thanked everyone associated with this endeavor

II. CONSENT:

A. RESOLUTION NO. 98-12 - RESOLUTION FINDING THE RIGHTS-OF-WAY KNOWN AS RALEIGH AVENUE (FORMERLY CAROLINA AVENUE) AND A PORTION OF IRON STREET ARE NOT PART OF AN ADOPTED STREET PLAN

Summary: William C. Burgin and Biltmore Heights, LLC, a North Carolina Limited Liability company, have requested that City Council adopt a resolution stating the rights-of-way known as Raleigh Avenue (formerly Carolina Avenue) and a portion of Iron Street as shown in Plat Book 5, page 27, are not part of an adopted street plan in accordance with N. C. Gen. Stat. sec. 136-66.2.

According to N. C. Gen. Stat. sec. 136-96, a right-of-way not utilized within 15 years of dedication can be abandoned through a recording of a Declaration of Withdrawal.

6

To proceed with this process, William C. Burgin and Biltmore Heights, LLC owner of PIN Nos. 9647.12-85-1964, 9647.12-85-5761, 9647.12-85-1834, and 9647.12-86-3100 have requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating the right-of-way to be abandoned is or is not part of a proposed street plan. The unused rights-of-ways are not part of any such plan and are not City maintained right-of-way; therefore, the City has determined that all necessary requirements of the statute will have been met by adopting the resolution, thus allowing William C. Burgin and Biltmore Heights, LLC, to withdraw these specific rights-of-way.

The Public Works Department staff finds that the rights of way known as Raleigh Avenue (formerly Carolina Avenue) from the intersection with Reed Street and Margaret Street and a portion of Iron Street from the intersection of Raleigh Street and the Southeastern corner of PIN No. 9647.12-85-1964, in their entirety, as shown on Plat Book 5, Page 27 are not part of an adopted street plan and recommends the adoption of this resolution.

RESOLUTION BOOK NO. 24 - PAGE 337

B. RESOLUTION NO. 98-13 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE SKYLAND FIRE DEPARTMENT INC. FOR USE BY THE CITY OF ASHEVILLE FIRE DEPARTMENT OF PART OF THE SKYLAND FIRE STATION AT 9 MILLER ROAD

Summary: This resolution would allow the City to enter into an agreement with the Skyland Fire Department that would allow use of parts of Skyland's fire station by Asheville firefighters.

In consideration of assuming 50% of the cost of utilities of Skyland's fire station, and up to 50% of repair/maintenance costs, the Skyland Fire Department is willing to let the Asheville Fire Department use Skyland facilities for housing on-duty Asheville firefighters.

Acceptance of this agreement on the part of the City of Asheville would allow avoidance of the cost of constructing living quarters for firefighters in Asheville Fire Station 4, the new Asheville fire station to be built adjoining Skyland's station. Only apparatus bays and facilities for the Asheville Police Department substation would be required at this time.

The proposed agreement provides a five-year notice for the City in the event that Skyland wishes to discontinue the agreement at some time in the future. This notice would provide time necessary to develop a funding plan as part of the City's Capital Improvement Program to add living quarters to the Fire Station 4 "shell."

At the present time, the City is using space in Skyland's fire station, and is reimbursing Skyland an amount equal to 40% of its utility costs.

The City Attorney has reviewed the proposed agreement, and notes, that, while technical changes may be required prior to execution of the agreement, the substance of the agreement is in order.

Because bids have been opened for the construction of Fire Station 4, and because execution of this agreement would significantly reduce construction costs, time is of the essence in regard to City Council action authorizing the City Manager to enter into an agreement with the Skyland Fire Department.

The Fire Chief and City Manager recommend City Council adoption of a resolution authorizing the City Manager to enter into an agreement with the Skyland Fire Department, such resolution to be adopted at Council's 10 February 1998 regular meeting.

Adoption of resolution authorizing the City Manager of the City of Asheville to enter into an agreement with the Skyland Fire Department to provide for use by the City of Asheville Fire Department of living-quarters space in Skyland's fire station.

RESOLUTION BOOK NO. 24 - PAGE 338

C. ORDINANCE NO. 2447 - BUDGET AMENDMENT TO PROCEED WITH PHASES II AND III FOR THE COUNCIL CHAMBER RENOVATION PROJECT

Summary: On February 25,1997, City Council passed Resolution No. 97-19 authorizing the City Manager to enter into a contract with Electronic Interiors, Inc. for professional services to design and upgrade the audio-visual and other electronic capabilities of the Council Chamber in the City Building.

In November, 1997, Electronic Interiors, Inc. completed the phase I portion of their contract which included meetings with city staff on programming and presentations resulting in the completion of schematic design drawings and preliminary budget estimates.

Based on information obtained in the phase I portion of Electronic Interiors, Inc.'s contract, a proposal with related costs for design services for phase II-III was received by city staff. The proposal for phase II-III incorporates services for the design development, complete construction documents and construction administration through out the project. This scope of services will cost an additional $19,000 currently not appropriated or approved by City Council.

The Parks and Recreation Department requests City Council appropriate an additional $19,000 and to authorize the City Manager to enter into an agreement with Electronic Interiors, Inc. for phase II-III of the Electronic Interiors, Inc. contract.

ORDINANCE BOOK NO. 24 - PAGE 396

D. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 24, 1998, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORIDNANCE TO PROVIDE THE BOARD OF ADJUSTMENT AUTHORITY TO VARY THE REQUIREMENTS FOR LOT SIZE AND DIMENSION

E. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 24, 1998, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORIDNANCE TO AMEND THE DEFINITION OF "FAMILY CARE HOMES" TO INCLUDE CHILDREN

F. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 24, 1998, TO CONSIDER THE MANUFACTURED HOUSING OVERLAY ZONING DISTRICT TO 15 LOTS ON ROBIN LANE

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinance on the consent agenda and they will not be read.

8

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. MOTION AUTHORIZING THE MAYOR TO WRITE A LETTER IN SUPPORT FOR A BROWNFIELDS AGREEMENT APPLICATION BEING MADE FOR PROPERTY LOCATED AT 105 FARIVIEW ROAD

Planning & Development Director Julia Cogburn said that at the worksession on January 5, 1998, the Asheville City Council directed staff to look into a request submitted to them by Reese Lasher of Western Investment Company. The request was for the City Council to provide him with a letter of support for a Brownfields Agreement Application being submitted by Western Investment Company for property located at 105 Fairview Road.

The property is located in a primarily industrial area. It is zoned CI (Commercial Industrial) and is 6.18 acres in size. The current tax value on the property is listed at $235,600.

Staff recommends that Council direct staff to draft a letter in support of the redevelopment of the property at 105 Fairview Road by Western Investment Company. The letter will of course need to indicate that all development will be done in accordance with all city regulations, etc. This appears to be a wonderful opportunity to put a piece of property back to use, to increase the City's tax base on this property and to gain additional and safe cleanup of the site.

At the City Council meeting on January 13, 1998, this matter was tabled until responses to Council's concerns could be addressed, in particular if there has been any indication of off-site substance migration and if there are any reports on ground water contamination.

Mr. Reese Lasher presented City Council with a letter from Alpha Environmental Sciences Inc. detailing their assessment report. In part the letter stated "Based on their findings, it appears that the former Celestin/Carolina Production Finishing site has been very minimally impacted by the manufacturing processes formerly operated at the facility. The detected compounds at low parts per billion levels at depths of 10 to 25 feet below existing ground surface appear to pose a minimal risk to human health or the surrounding environment."

Mr. Lasher then explained that the project costs of the rehabilitation of two existing buildings located at 105 Fairview Road. These buildings have been vacant for several years and they will sell or lease the facilities to new tenants. The basic construction plan is to fix the property for warehouse and or light manufacturing utilization. It is expected that a significant company (or companies) could use this space due to its convenience and size (approximately 23,000 square feet).

Councilman Cobb indicated that the Oakley community is very interested in finding out what is happening with this property and suggested Mr. Lasher contact area representations to inform them of this project.

Councilwoman Field moved to authorize the Mayor to write a letter in support for a Brownfields Agreement Application being made for property located at 105 Fairview Road. This motion was seconded by Councilman Cloninger and carried unanimously.

B. ORDINANCE NO. 2448 - ORDINANCE CREATING CHAPTER 21 OF THE CODE OF ORDINANCES ENTITLED "WATER DISTRIBTUION SYSTEM" TO ENABLE THE ENGINEERING DEPARTMENT TO REVIEW AND APPROVE WATER LINE EXTENSION PLANS

Ms. Cathy Ball, City Engineer, asked City Council to consider adoption of an ordinance to allow the Engineering Department of the City of Asheville to review and approve water line extension plans and revise the Fees and Charges Manual to include charging $200 review fee for each project.

The current process for reviewing and approving water line extension plans requires that the City of Asheville review the plans to insure that they conform with our standards specifications and details and forward the plans to the North Carolina Department of Environment and Natural Resources (NCDENR) for final approval. This process often takes six to eight weeks. By adoption of this ordinance, the amount of plan review time will decrease to approximately two weeks. This will be a significant benefit to the development community by expediting the approval process and facilitating the construction process beginning sooner.

NCDENR has developed a program by which local governments can be delegated the responsibility of reviewing and approving water line extension plans provided they have an ordinance to enforce compliance with the approved plans and adequate staff and resources to properly review the plans. Staff has met with the local NCDENR and received approval for the latter requirement. A draft copy of the ordinance has been approved by the state office of NCDENR.

Staff is also requesting that the current Fees and Charges Manual be revised in order to allow the City of Asheville to charge $200 for the review of the water line plans. Currently there is no charge for this plan review. The amount of $200 per project was determined by looking at the actual staff time and resources that are currently required to review plans. Depending on the size of the project, the actual cost to the City to review plans ranges from $150 to $300. In the fiscal year 97-98, staff reviewed 108 projects.

Staff recommends that City Council adopt an ordinance allowing the City of Asheville to review and approve water line extension plans and revise the Fees and Charges Manual to include charging $200 per project for the review of the water line extension plans.

Upon inquiry of Councilman Cobb, Ms. Ball explained how the $200 per project fee was arrived at, noting that NCDENR charges $400 per plan for the review of sanitary sewer plans.

When Vice-Mayor Hay asked if we anticipated a workload problem, Ms. Ball said that City staff already reviews the plans and has already received approval based on the current staff. She said that she does not anticipate the need for additional staff funding.

Ms. Ball explained that this would apply to a water line that is extended when the City of Asheville will take over the line, not for a service line to an individual building.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

10

Councilman Tomes moved for the adoption of Ordinance No. 2448. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 398

C. RESOLUTION NO. 98-14 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL TO INCLUDE A $200 REVIEW FEE FOR EACH WATER LINE EXTENSION PLAN REVIEWED BY THE ENGINEERING DEPARTMENT

Summary: See Item "B" above.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-14. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE

D. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 24, 1998, TO CONSIDER THE DRHUMOR BUILDING LOCATED AT 48 PATTON AVENUE AS A LOCAL HISTORIC LANDMARK

Councilman Cloninger asked that he be used from voting on this since he is part owner of the Drhumor Building. Therefore, Councilwoman Field moved to excuse Councilman Cloninger from voting on this matter due to a conflict of interest. This motion was seconded by Councilman Tomes and carried unanimously.

Councilman Hay moved to set a public hearing on February 24, 1998, to consider the Drhumor Building located at 48 Patton Avenue as a local historic landmark. This motion was seconded by Councilman Sellers and carried unanimously.

VI. OTHER BUSINESS:

A. YMI CULTURAL CENTER

Vice-Mayor Hay stated that the City had a request from the YMI to assist with the current reorganization and restoration efforts that are taking place at the YMI Cultural Center. Mayor Sitnick appointed a committee of Councilwoman Field, Councilman Tomes and himself to meet with Mr. Gene Ellison who is presenting heading up the reorganization effort. That meeting has taken place and as a result of the remarkable leadership of Mr. Ellison, and others on the committee, good things are happening at the YMI and the City is eager to join in those efforts and find a role for the City. He noted that the problems with the IRS have been addressed in a forthright way, they have loan approval from the Bank of Asheville to refinance the debt, and they have found a way to get the community to support their efforts.

Vice-Mayor Hay said that Parks & Recreation Director Irby Brinson reported that his Department has been interested in some time in creating a new cultural arts program and that the City would be very interested in looking into that on a long term basis. He felt the YMI might be a look location for that activity to take place. Therefore, the Committee recommends, as a long term plan, that the Council authorize Mr. Brinson to commence negotiations and discussions with the YMI Board with an eye towards placing City cultural arts programs at the YMI Cultural Center.

11

He said that the Stephens-Lee Renovation Project is underway and that facility has been shut down during the renovations. The community services that have been taking place at Stephens-Lee have been spread around the City. Therefore, the Committee recommends that we take those activities, under City supervision and with City staff (perhaps Oralene Simmons), and re-center them at the YMI during the balance of the term of the Stephens-Lee Renovation Project - July 1. In addition, we recommend that Mr. Brinson be authorized to spend up to $3,000 per month to pay operating expenses (like utility bills) at the YMI.

Mr. Gene Ellison explained some of the current efforts continuing with the YMI reorganization and thanked City Council for their support of this treasure.

Mayor Sitnick thanked the YMI Reorganization Committee, the Council committee, all the volunteers, City Manager Westbrook and Mr. Brinson for working expeditiously to bring these recommendations to Council.

Councilwoman Field was pleased that the City will have this partnership with the YMI that they haven't had before and was excited about the cultural arts program.

Councilman Tomes was also pleased of this relationship with the YMI.

Councilman Cobb commended the YMI Reorganization Committee for their efforts and noted that the City invested $500,000 in the YMI Cultural Center building and the debt service is approximately $30-35,000 annually.

Vice-Mayor Hay moved to authorize the City Manager to enter into an agreement with the YMI Cultural Center for cultural programming. This motion was seconded by Councilwoman Field and carried unanimously.

Vice-Mayor Hay moved to authorize the City Manager to enter into an agreement with the YMI Cultural Center for the operation of the Stephens-Lee Community Center programs, including staffing and up to $3,000 per month for operating expenses, until the completion of the renovations of the Stephens-Lee Community Center. This motion was seconded by Councilman Cobb and carried unanimously.

B. UNITY STATEMENT

It was the consensus of City Council to adopt the following unity statement: We, the undersigned, have formed a partnership to emphasize the unity that exists among our citizens and to encourage an even stronger spirit of neighbor helping neighbor. We wish to stress that our All America City will not be affected by efforts to promote divisiveness and hatred among our people. We encourage citizens to become involved in one of the many positive activities being offered on CommUNITY Day (May 2) and to demonstrate our commitment to a unified community.

Mayor Sitnick presented the statement to a representative of the United Way.

C. APPROVAL OF THE MINUTES OF THE CANCELLED FORMAL MEETING WHICH WAS TO BE HELD ON JANUARY 27, 1998, AND THE WORKSESSION HELD ON FEBRUARY 3, 1998

Councilman Cobb moved for the minutes of the cancelled formal meeting which was to be held on January 27, 1998, and the worksession held on February 3, 1998. This motion was seconded by Councilman Cloninger and carried unanimously.

12

D. CABLEVISION FRANCHISE FEES - PUBLIC RECORDS

Mr. George Benge, Executive Editor of the Asheville Citizen-Times, said "I am here before City Council today on behalf of the *Asheville Citizen-Times* to address the refusal of the City of Asheville to provide documents related to the payment of franchise fees from cablevision companies that have operated under a franchise agreement with the City since 1967. We feel strongly that these documents are not only relevant but also proper and necessary for the public to be fully informed and to be able to participate in a meaningful way at the public hearing that will be held concerning the upcoming franchise agreement.

"Our staff writer, Mark Blaine, requested these documents through the City Attorney's office and on January 27th received a one page response that simply indicated that these fees were 'tax records' and therefore could not be disclosed under certain statutory provisions and further that the same would not constitute 'public records' which would clearly be available for our inspection.

"First of all we feel that the City Attorney's office and therefore City Council is taking a legally unsound position. I will address this issue in a moment. More importantly, however, we feel that by endorsing such an approach the City Council is losing sight of the duty that it owes to the public in general to make a full disclosure of all facts related to the upcoming franchise agreement in order to allow free inquiry and dialog concerning that agreement. Our suspicions are immediately raised when the position of public trust that has been given to you as a governing body becomes subordinate to legalese and questionable legal authority.

"It is our feeling that the City Attorney's office and now City Council is losing site of the fact that the right to franchise cable companies within the City is for the public benefit and once Council loses site of that underlying premise then it is ignoring its duty to the public.

"As early as 893 the Supreme Court of the United States held that franchise fees are not taxes but essentially are a form of rent, he price paid to use the public rights-of-way. That case is *City of St. Louis v. Western Union Telegraph Company*, 148 U.S. 92 (1983). That case of course did not involve cablevision but rather the Western Union Telegraph Company but the theory is exactly the same. In 1955 the Supreme Court of California took the same position in *Pacific Telephone and Telegraph Company v. City of Los Angeles* and that same position was taken in 1988 by the Third Circuit Court of Appeals in the *Erie Telecommunications v. City of Erie, Pennsylvania*. It's clear that the Courts of our nation have uniformly adopted a rule that these franchise fees are in the nature of a rental price being paid to use the public right of way and are not taxes. Interestingly enough, the City Attorney's office even calls the charges 'franchise fees' in its response to us denying us access to the documents we have requested.

"The thought of litigation to obtain these documents is distasteful to us and it should be distasteful to City Council. You should be mindful that if we have to pursue litigation to obtain these records, then there is a specific provision within the Public Records Act which allows us to recover reasonable attorney's fees if we are successful in compelling the disclosure of these records. It is our opinion, it is unconscionable that this Council would purport to represent the people, schedule a public hearing on an important issue to the people and then deny the people access to the documents that they might need to create meaningful dialogue at that meeting. The only conclusion that we can be left with, if you refuse to disclose these documents, is that there must be something within the documents that you do not want us to know about and that you feel would have some influence on the public's perception of either the way the franchise agreement has been handled with the cablevision company over the past many years or might give credence to the way that the upcoming agreement will be drafted that would not be to the benefit of the general public.

"The power that you have as the governing board of this City is, as the courts have noted, '...the power to control for public benefit.' We only ask that you exercise that power for the public benefit and allow us the right to review these documents and to be fully informed of the action that you will be taking in the granting of this franchise."

Mr. Benge further stated that "in addition to that, I see a very distinct possibility of a conflict of interest. I question the propriety and perhaps even the ethics of Assistant City Attorney Meldrum being deeply involved in the negotiations of this contract which were done, by and large, in secret, and also being one of the signers of the document along with the City Attorney, refusing us access to this document. In effect we have a person who is both creating the document behind closed doors and also being the person who says 'no one can have it.' I think there's a glaring absence of checks and balances. And I think it's up to this group to correct that problem. Otherwise, the situation is very much like the fox guarding the hen house and denying the access to the farmer who owns it. Finally, if it weren't enough that we have all of these, Supreme Court, the Supreme Court of California and other courts citing with the legal position that we support, the General Manager of the InterMedia Cable Company himself has said himself that he has no problem with this information being released. He is on the record, published in our newspaper as saying he has no problem with it if the City wants to do it, fine, they should do it."

Councilman Cloninger said "Mr. Benge, their attorney is on record as saying we are not to release that information. He stated that last week."

Mr. Benge continued by saying that "these courts and even the company manager himself has said that we should have access to these records and in fact there is no way that fees can be construed as rent. I would say also that as elected representatives of the public, it is your sacred trust to serve that public. I would ask that you ask yourself this question 'whose interests are being served here, the publics or Patsy Meldrums?' I would like you to make a timely decision in this matter because the public hearing on this issue is only two weeks away. And I would ask you here as I stand before you, will you instruct the City Attorney's, who after all work for you, not you for they, to give this information to the public now."

Mayor Sitnick said "at the worksession last week, Mr. Haight and his lawyer were there. I asked them if they would release the documents and they refused, saying that they were, it was inappropriate to do so. So that was in conflict to what Mr. Haight has said prior to that and it was the very reason I asked it. In addition to that, you mentioned something about our power and that's true we do have some power. The negotiations that went on to my understanding, because I was not on this Council at the time, went on legally in closed session. When the former Council was presented with the document, realizing its complexity to their credit, they delayed the vote and it was returned to this Council. There were three new members on the Council and I believe I recall that all three of us expressed the desire to be brought up to speed on this very complex issue. And it was also stated in the record by a number of the members of Council that we wanted to conduct some worksessions for further explanation and exploration, that we wanted to hold a community meeting for dialog rather than just a listening process, and then that we would schedule a public hearing - all of which we have done. And that was within our power as well - for the very purpose of opening up this discussion, because we do serve the people. I don't know that our power extends to instructing the City Attorney to break the law. According to the documents I have seen and members of Council have seen, the North Carolina law dealing with cable franchise fees is within the tax statutes and it is called a tax."

City Attorney Oast said "we have told the newspaper reporters, told Mr. Benge and written him a letter and then explained to Council that the North Carolina law very clearly classifies taxes imposed on cable television companies franchised under G. S. 160A-319 as taxes and the statutes also prohibit the disclosure of that information and prescribes severe penalties for an improper disclosure. I further think that even if the cable companies authorize that disclosure that Council couldn't do it because it's a criminal statute. The only place where the information can come from, in my opinion, is from the cable companies themselves and they have refused to release them. Mr. Benge is absolutely right - the Public Records Law does provide a mechanism by which anyone who thinks that information has not be disclosed that should have been disclosed can challenge it in court."

Mayor Sitnick said "we appreciate your bringing the open government aspect of this Council's work to the fore. We are about open government. There is no denying that. The irony here, as I understand it, we would like to release it. We have nothing, no reason not to - other than the fact that we are prohibited to, by law."

Mr. Benge asked the "City Attorney to cite any case law affirming the position you're taking with regard to the opinion from a book by the Institute of Government."

City Attorney Oast said "I've just cited the statutes of North Carolina. I don't understand how it could be clearer."

Mr. Benge asked "can you cite any case law where it was ruled on in a way that you're suggesting?"

City Attorney Oast said "I can't cite a case that says it hasn't been ruled on that way. I'm having to rely on the language of the statute."

Mr. Benge said "but you also say that you're basing your interpretation upon what has been written in a book by a professor of a very fine university, but nonetheless, it's a book that is strictly his opinion and has no weight of law behind it whatsoever. Would you agree with that?"

City Attorney Oast replied "I'm not basing my opinion on David Lawrence's opinion. I'm basing my opinion on my reading of the law. I would point out that when David Lawrence agrees with the media, you have no hesitation citing him as authority."

Mr. Benge said that "I take it your answer is 'no' that you will not request for your attorney's to provide the information that we are seeking."

Mayor Sitnick said that "we have requested that the attorney, and the attorney himself, was perfectly willing to release all information. There have been reporters and members of the public pouring over documents on a daily basis in this building for weeks. The only reason these particular documents are being withheld, because of the General Statute that forbids their release. The cable company lawyer himself agreed with that. Our consultant, when we asked her at either the last worksession or the one before whether or not it is considered that the cable franchise fee is considered a tax or a rent - she said it's a tax."

Mr. Benge said "I understand your position and what you're saying is that if litigation is required to resolve this, you have no problem with that."

Mayor Sitnick said that "it would be my hope that that was not the case, but it's certainly your right to do that. Can I ask if you have seen a copy of the N.C. General Statutes?"

City Attorney Oast said that he sent him a copy and Mr. Benge said "right, and he has cited that that is his reason why it was not provided."

Councilman Cobb said that when he "became a member of Council, he had to take an Oath to swear to abide by the laws of the land. There is a penalty charge in this thing that we can't release them or we could be subject to going to jail. Are you suggesting that we should go ahead and ignore law and give you these records?"

Mr. Benge said "no, I'm suggesting to you that perhaps you are not receiving the most prudent advise from your counsel. I'm not suggesting that you violate the law. I'm suggesting that perhaps you're receiving bad advice on the law."

Councilman Cobb said "when you read a copy of the law, did you think the law was not valid? When he sent you a copy of it and told you what the law was. Are you saying that law is not valid?"

Mr. Benge said "If you would like, I can re-read all the information I have in the documentation for you. I'm citing case history from the U.S. Supreme Court as far back as the 19th Century that upholds the principle that I'm up here discussing. I see no case law whatsoever that affirms the opposite."

Councilman Cobb said that "we are trying to hold open Council meetings and open hearings and give everybody an opportunity to give input and I resent the insinuation that we are trying to hide something illegally or otherwise. I'm going to abide by the law. I don't want to go to jail to give these records out."

Mayor Sitnick said "I would only say one thing in support of the law, at least. We are sworn to uphold it. Our very existence, as a council and as a city, is created by General Statutes. I know there are penalties for Mr. Oast, for members of Council if we break that law, but there could also be the penalty that we could vote ourselves out of existence if we voted to break the law."

Councilwoman Field said "this is in no way adversarial, I'm just curious. I'm trying to understand what information could be gathered from the documents that you want. What's in it that you're looking for and how would that give you more information than we have out there already?"

Mr. Benge said "actually we have the same question. We'd like to know the answer to that question, which would probably be contained in these documents. These are documents that relate to how much the City was paid by InterMedia for the use of the public right of way in order to, as a franchise fee - the payment for the right to use the public right of way in this matter. We'd like to have the documentation that shows exactly what was paid and the yearly and the letter, and all the information that accompanies it."

When Councilwoman Field asked "is it a line item in the budget?", Mr. Benge responded "no it's not. It comes in a separate document as I understand it, that has not been included in the information that's been given to us."

City Manager Westbrook said "I'm not sure whether it's a separate item line in the budget - it may be combined with some other revenues of that type. But there's an estimate for the revenue that we will receive from the cable TV company in the budget. And then when the audit report is printed, it is printed in actual. But once again they are usually large numbers together - maybe several other revenues rolled into it. The audit report is public record."

When Mayor Sitnick asked if Mr. Benge had a copy of the audit report, he replied "I believe we do, but I think what we are lacking is the specific information - in very specific forms what's being paid as a fee and we don't have that."

16

Mayor Sitnick said that "we were happy to have you have that information. It's the very reason after Mr. Haight's comment to you in the paper that he didn't mind if it was released. It was the very reason I asked his attorney to do so. Thinking surely he would say yes, of course, we will, to support Mr. Haight's comment. We were surprised, I was surprised, when he refused."

Mr. Benge said "I think we're playing semantical games here. I support what you said. Mr. Haight did indeed say that he would not release it, but he said he had no problem if the City wanted to release it, or words to that effect. He said, if they want to release it, fine with me, or words to that effect."

Councilwoman Field said "and we're saying, if he wants to release it, it's fine with us."

Mayor Sitnick said that "the law even says that we cannot release it with the permission of the cable company owner."

Mr. Benge said "you're accepting the attorney's interpretation of this as a tax record when in fact it clearly is a payment for using the public right of way."

Mayor Sitnick said "I've read it. I've read it myself, it was very clear. Cable franchise fees are a tax. That's what it says in the statutes."

Mr. Benge said "I would only ask that if you can, please take the time to carefully read the documentation. I have specific case law here cited that certainly does not support what you're saying. With all due respect."

Councilwoman Field said "I don't think I want to get into a lawsuit with the Citizen-Times over this. Could we ask our City Attorney to find out what kind of case law there is out there?"

City Attorney Oast said that he "would be glad to examine Mr. Benge's statement and see if it leads to a different conclusion. But so far I haven't seen any persuasive authority to the contrary."

Councilwoman Field said that "on the other hand, I'm not an attorney and we pay Mr. Oast good money to be our attorney and therefore we trust him, we hired him, and so I'm going to depend on him. If he tells me something that he's using his best professional knowledge to do that and certainly if we lose our confidence in him, or if we feel as though he needs help, we can get another opinion. That's where I'm coming from anyway."

Councilman Tomes said "I personally, I have had some questions throughout this entire process. However, as a Councilmember, I want to be a law abiding person. I'm not a lawyer, even in the pastoral relation. If people come in and I sense there is a legal problem, I will quickly say 'you need to see an attorney.' I'm comfortable in my role pastorally and I feel the same way as a Councilmember. I've briefly read your document here, but I would not want us to enter into a confrontation between one ... for the media and for our attorney. If they can reconcile whatever the technicality is and the information can be released, I would support that. But if the law says that it can't, then I'll have to support that."

Mayor Sitnick said "I'll have to echo that. If we can find a way to release these documents, you've got them."

Mr. Benge said "I and the public would appreciate that very much. I don't mean to seem presumptuous, I really don't, but the public hearing is two weeks away and all the information the public needs in order to adequately assess this process, I think should be forthcoming quickly. So, where does this leave us with regard to this request."

City Attorney Oast said that he "would be glad to review the information Mr. Benge has provided to see if it could possibly change my opinion. I would point out that we have given the Citizen-Times, as we always try to, the documents they've asked for unless the law legally prohibits us from doing it. I've invited Mr. Benge, if he has any problems with the way we respond to their document request, to pick up the phone and call me and let me know that there's a problem. We support full disclosure as much as possible if in fact the law requires it. In this case, the law requires the documents not to be disclosed."

Mayor Sitnick said "I think Mr. Oast will diligently look at the law and see if he can cite case law. Shall we leave it that you call Mr. Benge when you have further information?"

City Attorney Oast said that he "would get in touch with him one way or the other - either in writing or by phone."

When Mr. Benge asked when they could expect this communication, City Attorney Oast said that he would contact them "as soon as I can get it done."

Vice-Mayor Hay said "I can't stand by while you attack Patsy Meldrum. Patsy Meldrum is a dedicated public servant, she's a fine lawyer, she's a fine person and meets the highest ethical standards. You may disagree with our legal position here. But our staff is working hard and doing what they are supposed to do and I don't want to hear anymore personal attacks on Patsy Meldrum, please."

Mr. Douglas Haldane said that that he personally trusts "the elected officials of this City far more than I trust the foreign ownership and management of our, what used to be, local newspaper. I would urge the Council to stand fast and not succumb to the crude and rude and ineffective blusterings and threats of the representatives of this newspaper."

E. CLAIMS

The following claims were received by the City of Asheville during the week of: January 9-15, 1998: Phyllis Arthur (Water), Travis McClure (Police), George Lemieux Jr. (Streets), Janet Smith (Traffic Engineering) and Jewell Logan (Police).

The following claims were received during the week of January 16-22, 1998: Bob Didiego (Streets) and Greg Ellis (Streets).

The following claims were received during the week of January 23-29, 1998: Bobby Roseboro (Police); Alton Scott (Streets); Bell South (Water); and Bell South (Water).

The following claims were received during the week of January 30-February 6, 1998: Juanita Medford (Streets), Bell South (Water), Jimmy Webb (Parks & Recreation), Round About Trans. (Streets) and James C. Smith (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

F. LAWSUITS

The City was served with the following Complaint and Motion for Preliminary Injunction on January 8, 1998: Tiffany Livengood v. Robert Moore, Exalted Cyclops; The Ku Klux Klan; the City of Asheville. The nature of the proceeding is a complaint and motion for preliminary injunction to enjoin Mr. Moore and the Ku Klux Klan from obtaining permits, holding demonstrations, marches and protests/rallies; to enjoin the City from issuing said permits.

The City was served with the following Complaint; Declaratory Relief; Inverse Condemnation; Taking action on January 9, 1998: Morris Communications Corporation d/b/a Fairway Outdoor Advertising; Outdoor Communications, Inc.; and Maple Cove Inc. The nature of the proceeding is the plaintiffs complain that City of Asheville Ordinance No. 2427 dealing with nonconforming signs, is unconstitutional. Plaintiffs allege that they are entitled to just compensation for taking of their property.

The City was served with the following lawsuit on January 9, 1998: Loretta B. Terry v. John E. Bancroft and the City of Asheville. The nature of the proceeding is an automobile accident with Fire Department vehicle. Plaintiff is alleging negligence, personal injury and property damage.

The City was served with the following lawsuit on January 20, 1998: Buncombe County v. Mary Shivers, property owner; William F. Slawter, Substitute Trustee for the City of Asheville; City of Asheville, lienholder; William F. Slawter, Trustee for Neighborhood Housing Services of Asheville, N.C., Inc.; and Neighborhood Housing Services of Asheville, N.C., Inc., lienholder. The nature of the proceeding is a tax foreclosure in which the City of Asheville's interest is lienholder, by virtue of a Deed of Trust recorded in Deed of Trust Book 1599.

The City was served with the following Complaint; Declaratory Relief; Inverse Condemnation; Taking action on January 30, 1998: Morris Communications Corporation d/b/a Fairway Outdoor Advertising; Outdoor Communications, Inc.; and Maple Cove Inc. (Federal Court). The nature of the proceeding is the plaintiffs complain that City of Asheville Ordinance No. 2427 dealing with nonconforming signs, is unconstitutional. Plaintiffs allege that they are entitled to just compensation for taking of their property.

The lawsuits filed on January 8 and January 20 will be handled in-house. Both lawsuits filed on January 9 and the lawsuit filed on January 30 will be handled by outside counsel.

G. CABLE TV FRANCHISE REVIEW COMMUNITY MEETING

Mayor Sitnick invited the Council and public to the cable TV franchise review community meeting to be held later that evening at 7:00 p.m. in the William F. Wolcott Jr. Building (Public Works Facility) at 161 South Charlotte Street.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:20 p.m.

CABLE TV FRANCHISE REVIEW COMMUNITY MEETING

This community meeting was held in the William F. Wolcott Jr. Building beginning at 7:00 p.m. Mayor Sitnick and other members of the Council were present as well as City Manager Jim Westbrook, the City's cable television consultant Jean Rice, and Assistant City Attorney Patsy Meldrum.

Ms. Meldrum reviewed the proposed cable television documents. She, along with the City Manager and Ms. Rice, responded to many questions and comments raised by the public concerning the franchise agreement.

This meeting adjourned at 9:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 17, 1998- 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Sitnick recognized some students from the Western Carolina University Masters of Public Administration Program.

CONSENT AGENDA:

Acceptance of new proposed street name - East End Place

Summary: The developers and owners of all lots in the East End Place Subdivision project located off Dr. Martin Luther King Jr. Drive have petitioned the City of Asheville to adopt the new street name of East End Place.

Acceptance of new proposed street name - Buttonwood Court

Summary: The City of Asheville, Community Development Division, owner of all lots in Rankin Heights Subdivision, located off of Kentucky Drive in West Asheville, have petitioned City Council to adopt the new street name of Buttonwood Court.

Acceptance of new proposed street names and changing duplicate street names in the Deerfield Episcopal Retirement Community

Summary: Deerfield Episcopal Retirement Community, located off of Hendersonville Road and Lambeth Drive, has petitioned the City of Asheville to: (1) Adopt the following street name changes: (A) Rename South Lambeth Circle to Lambeth Drive; and (B) Rename North Lambeth Circle to Sheffield Circle; and (2) Accept the following street names: (A) Wakefield Drive; (B) Highbridge Crossing; (C) St. Albans Court; and (D) St. Giles Place.

Budget Amendment re: Transit Center Traffic Signalization Grant

Summary: The consideration of a budget amendment to establish a budget for a N.C. Dept. of Transportation grant for traffic signalization improvements for the new transit center.

Lease of Antenna Facilities at White Fawn Reservoir

Summary: The consideration of a resolution authorizing the execution of lease agreement with BellSouth Mobility for City-owned antenna facilities and space for the siting of related transmission equipment at White Fawn Reservoir.

Finance Director Bill Schaefer responded to many questions from Council as they related to co-locating antennas on an existing city-owned tower.

Councilman Cloninger noted that the City is trying to encourage co-location on existing towers so we can eliminate the need to have additional towers elsewhere in the City, However, he would be interested in hearing from our consultant, who is working on the City's telecommunication tower ordinance, on this matter. He also stated that he was concerned that the lease was for nine years.

Councilwoman Field asked that Mr. Schaefer provide the Council with the names of the tenants who have antennas on our towers, the length of the leases and how much money these leases have brought to the City.

Lease of City Telephone System

Summary: The consideration of a resolution authorizing the execution of a Master Municipal Rental Agreement with Southeastern Telecom for the purpose of leasing a telephone system.

Upon inquiry of Vice-Mayor Hay, Finance Director Bill Schaefer explained that this lease has the flexibility for growth and accommodation for new technology as it comes along.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DEMONSTRATION OF COMMUNITY IMAGE SURVEY

Mr. Jerry Brown explained the Community Image Survey ("CIS") Road Show project which is a proactive, field-tested program which has great potential for healing thorny issues like residential density. The CIS is one of the best tools they've seen to give all residents a chance to visualize choices for how to build on the best of what they already have and make their communities even better for land use and transportation options. Some communities that have used the CIS or visual tools like it, are Portland, Oregon; Helena, Montana; Chattanooga, Tennessee; and Fort Collins, Colorado, as well as rural areas like Madison County and Comer, both in Georgia. People in these places have said that their CIS identified latent common ground already in their community on how to encourage development of: (1) more lively, successful retail districts; (2) more and better affordable housing; (3) more neighborly neighborhoods; (4) safer, more convenient transportation options; and (5) more preserved greenspace.

Ms. MacLeod explained how the CIS could be used in Asheville/Buncombe County: (1) make the Unified Development Ordinance ("UDO") updating match the preferences of a statistically reliable, broad-based segment of the community; (2) make the UDO updating process user-friendly and fun while building trust in the land planning; (3) provide key information on community preferences needed for the 2010 Plan update; (4) show how key goals of the Asheville-Buncombe Vision can be realized by better land use and transportation decisions; and (5) provide a visual document for developers on preferred development patterns.

Ms. MacLeod said that they would like City Council to support this process and support the planning staff in hiring a person who has done this process. She said that she will be meeting with the County Planning Department in the near future to discuss this concept with them.

Councilwoman Field felt this would be useful in the 2010 Plan update.

Upon inquiry of City Manager Westbrook, Ms. MacLeod said that the cost could range anywhere from $5,000 to $100,000 depending on the size of the community for the survey. Mr. Brown noted, however, that they will be asking the County and others for funding to help offset the cost. Mayor Sitnick felt that we should get an estimate of the cost for doing the survey for Asheville alone and then a cost for doing the survey for all of Buncombe County.

City Manager Westbrook said that City Council will be looking at the funding of the 2010 Plan update during their budget negotiations.

On behalf of City Council, Mayor Sitnick said that the City is interested in exploring how we can work together with the County, the Land-of-Sky Regional Council and/or the Chamber of Commerce on this new technology.

CHATHAM ROAD ZONING STUDY

Mr. Mike Matteson, Urban Planner, said that the Planning and Development Department has received a petition for a zoning study which includes ten properties in the Chatham Road/Weaver Boulevard area.

The ten properties total approximately 5.29 acres. The petition included signatures of individuals who own nine of the ten properties. These nine properties total approximately 3.39 acres or approximately 64% of the total acreage of the requested study area.

Section 7-7-2 of the Unified Development Ordinance states that "a zoning study of a defined area may be requested upon submittal to the planning and development department of a petition signed by 51 percent of the property owners in the defined area for which the zoning study is requested who own at least 51 percent of the property (acreage) in the defined area for which the zoning study is requested". The petition does meet the above referenced criteria.

Council is asked to determine whether a zoning study should be initiated for this defined area or for a portion thereof. The City Council may initiate the zoning study, elect not to initiate the zoning study, or reduce the size of the area to be included in the zoning study and initiate a zoning study of the reduced area.

Mr. Matteson responded to various questions from Council as they related to staff resources, the procedures involved in a zoning study, and how the properties were zoned prior to adoption of the Unified Development Ordinance.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FIRE STATION 4/POLICE RESOURCE CENTER

Fire Chief John Rukavina said that in July, 1997, the City Council authorized commencement of the bidding process for construction of a new fire station—Fire Station 4—for the south Asheville area. The low bid, of nearly $800,000, exceeded available funds, so City Council authorized a rewrite of the specifications by Barney Woodard, AIA, with the intent of soliciting and receiving new bids within the range of funds available (a total of $600,000).

Based on City Council's recent authorization of the City Manager to enter into an agreement with the Skyland Fire Department for use of firefighter living quarters in Skyland's station (which will immediately adjoin Fire Station 4), Barney Woodard recommends award of the bid for Fire Station 4 to Cooper Construction Company of Hendersonville, N.C., for Construction Option 2, Alternate 1, in an amount not to exceed $596,060. The Fire Chief concurs in this recommendation. The resolution provides for award of the bid to Cooper Construction, and authorizes the City Manager to enter into an agreement with Cooper Construction for this work.

22

Option 2, Alternate 1 provides for construction of a police substation, a fire station with two fire apparatus bays, a storage room, and a structural enclosure for the space originally proposed for firefighter living quarters, so those quarters could be built at a later date.

Barney Woodard is working with—and continues to work with—Cooper Construction on identifying opportunities for cost reduction. To date, over $20,000 in such opportunities have been identified. Barney Woodard advises that actual construction cost is expected to be below the low-bid amount of $596,060.

In order to provide a sufficient funding package for Fire Station 4, the Finance Director and Budget Director recommend transferring funds from general fund un-appropriated fund balance in the present fiscal year to cover construction costs of Fire 4. Given the priority that Council has placed on this station, use of general fund un-appropriated fund balance is a viable option.

The Budget Director, Finance Director and Fire Chief recommend adoption of the budget amendment ordinance for Fire Station 4 and the Asheville Police Department substation. The Fire Chief recommends City Council adoption of architect Barney Woodard's recommendation of bid award to Cooper Construction Company for Construction Option 2, Alternate 1 of the City of Asheville specifications for construction of Fire Station 4 and an Asheville Police Department substation in south Asheville in an amount not to exceed $596,060 through adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PURCHASE OF LAND LEASED BY THE CITY UPON WHICH THE CIVIC CENTER PARKING GARAGE IS BUILT

Mr. Bill Schaefer, Finance Director, said that the City of Asheville entered into a lease agreement with George E. and Edith A. Parker Dawson on January 1, 1974, for the parcel of property described as "all of Lots 6,7,8,9 and 10 as shown on a plat recorded in the Office of the Register of Deeds for Buncombe County, North Carolina, in Plat Book 198, at Page 212," and upon which the Civic Center parking garage was constructed. The terms of the lease were such that the lease period would end the earlier of December 31, 1998, or upon the date of death of the lessor. The lessor died on February 4, 1998. Upon termination of the lease, the City may exercise an option to purchase the property for $65,000 within 90 days of the date of death. Staff believes that it is in the best interest of the City of Asheville to acquire the property.

Funds for this purchase will be provided by transfer of $65,000 from the Fiscal Year 1997-98 Fund Capital Contingency to the Parking Capital Fund.

Staff recommends the City Council approve the budget amendment and resolution authorizing the City Manager to purchase the property upon which the Civic Center Parking Garage is built.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

MOTION SETTING A PUBLIC HEARING ON FEBRUARY 24, 1998, RELATIVE TO REQUEST OF BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA) FOR AN ANNUAL INCREASE IN ITS MONTHLY RATES FOR THE BASIC SERVICE TIER

Ms. Patsy Meldrum, Assistant City Attorney, said that a request has been received from Brenmor Cable Partners, L.P. (d/b/a/ InterMedia) for an Annual Increase for its Monthly Rates for the Basic Service Tier for the time period from June 1, 1997 to May 31, 1998

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchise area of InterMedia within the corporate limits of the City.

By letter dated March 1, 1997, InterMedia filed FCC Forms 1205 and 1240, both dated March 1, 1997, for the purpose of requesting and justifying an annual increase in its monthly rates and hourly service charges for cable services on the basic service tier. Those documents were received by the City on March 3, 1997.

Rice, Williams Associates, the City's cablevision consultant, reviewed the FCC Forms 1205 and 1240 and attachments filed by InterMedia on March 3, 1997. They furnished the City with a report that concluded that InterMedia made certain errors in the Form 1240 filing, but that the Form 1205 filing was correct. The City provided InterMedia with a copy of that report.

InterMedia subsequently filed with the City an amended FCC Form 1240 on November 7, 1997. On November 11, 1997, the City Council of the City of Asheville adopted Resolution No. 97-212, which resolution postponed a decision on the request of InterMedia for an annual increase for its monthly rates for the basic service tier until review of the amended FCC Form 1240 could be completed within the time period and according to the regulations of the FCC.

Rice, Williams Associates reviewed the amended FCC Form 1240 filed with the City by InterMedia on November 7, 1997. They furnished the City with a report regarding their review of the amended FCC Form 1240. That report concluded that InterMedia made certain errors in the amended Form 1240 filing. A copy of that report was furnished to InterMedia.

InterMedia filed a revised Form 1240 with the City on February 12, 1998. A copy of that revised Form 1240 has been provided to Rice, Williams Associates for their review. Their review finds that after all the change in the inflation factor and errors, the rate put into effect last year of $10.91 per month is within the maximum permitted rates of the FCC.

Subsection 76.933(g) of the Code of Federal Regulations authorizes the City to issue a rate order based upon its review of the FCC Form 1240 filing. Any rate order which the City may enter in this rate filing must be made by March 2, 1998.

When Councilman Tomes expressed his concern about the number of errors made by InterMedia, Ms. Meldrum agreed noting that's why Asheville has chosen to continue to monitor as much as they can of InterMedia's rate filings.

Mayor Sitnick noted that the City had to pay a consultant to review those filings, along with City staff, and wondered how much that cost the City.

It was the consensus of Council to set a public hearing on February 24, 1998, relative to a request of Brenmor Cable Partners, L.P. (d/b/a InterMedia) for an annual increase in its monthly rates for the basic service tier.

Ms. Meldrum responded to questions from Councilman Cobb relative to the rates for basic cable service in prior years. She said it was her understanding that the overall rates of cable television are increasing faster than the cost of living.

24

It was the consensus of Council to set a public hearing on February 24, 1998, relative to a request of Brenmor Cable Partners, L.P. (d/b/a InterMedia) for an annual increase in its monthly rates for the basic service tier.

SIX-MONTH REPORT RELATIVE TO DOGS IN RIVERSIDE CEMETERY

Mr. Irby Brinson, Director of Parks & Recreation, updated City Council on the decision to control animals in Riverside Cemetery.

Asheville City Council, in July of 1997, adopted an ordinance revision dealing with animals in Riverside Cemetery. This revision requires dogs to be leashed, remain on paved roads, be cleaned up after by their owners, and be prohibited from the facility during funeral services. Per City Council's direction, a six-month evaluation of the ordinance changes were required in order to evaluate the effectiveness of these revisions. Over this period of time, the Cemetery Manager and the Park Warden have been documenting occurrences of violations of the ordinance. He summarized the problems that have occurred. In addition to addressing these particular issues, the Department has initiated a Dog Park Task Force which has been meeting since January of 1998. The purpose of this task force is to determine an appropriate location for development of a dog park within the City. This group is very active and is planning to present their report to City Council in the near future. The Parks and Recreation Department has been assisting this group in trying to address the provision of a dog park within the City.

The Parks and Recreation Department is providing this information to City Council per their original request for a six-month review. The Parks and Recreation Department recommends continuing the work with the Dog Park Task Force to address these concerns for a designated area for animals within the Park system.

When Mayor Sitnick asked why the violators were not fined, Mr. Brinson explained that during this six-month period, staff was trying to educate the owners of the ordinance and the next step will be the fining of violators. The major problem encountered is enforcement of the ordinance. In August of 1997, Buncombe County Friends for Animals took over animal control enforcement in the City of Asheville and calls from the cemetery about dogs take a low priority with response time being anywhere from 20 minutes to 4 hours.

Councilman Sellers felt that dogs should be banned from the cemetery.

Mayor Sitnick instructed staff to immediately begin working with the Buncombe County Friends for Animals regarding fines to violators. She suggested some kind of citizens on patrol program that actually gives authority to members of the public to make observations and report them to the appropriate person.

It was the consensus of Council to discuss an ordinance amendment prohibiting dogs in Riverside Cemetery at their next regular worksession.

DISCUSSION OF POSSIBLE SALE OF MEMORIAL STADIUM AND ASSOCIATED PROPERTY

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department has been working for several months on the possibility of selling Memorial Stadium to Robert Camille in the amount of $1.4 million and using the revenue to further develop and enhance recreation facilities in the community.

Recognizing that approximately $20 million is necessary over the next 15 years in order to enhance recreation facilities in the community, the Parks and Recreation Department has been exploring alternative financing to meet these needs without a tax increase. The revenue generated from the sale of Memorial Stadium will be used to develop and renovate other recreation facilities within Asheville. These include development of a multi-field youth baseball complex at Richmond Hill for use by the North Asheville Little League - a need which has been recognized since 1967 . In addition, a youth football field would be constructed to be used by the West Asheville Youth Football and the Asheville Rugby Club. The sale of Memorial Stadium also includes $75,000 the purchase of approximately 100 feet of right-of-way at the end of Richmond Hill Drive into the Richmond Hill property. Over $3,000 will also be used to renovate the existing Mountainside Park to include new playground equipment and play area.

On November 25, 1997, and pursuant to N. C. Gen. Stat. sec. 160A-269, City Council authorized the City Clerk to advertise an offer to purchase City-owned property known as Memorial Stadium. No upset bids have been received.

With the use of an overhead projector, Mr. Brinson showed the different slope grades on the 21 acres of property, which only seven acres are relatively flat. He explained the rock and soil testing that was done on the Richmond Hill site and showed a comparison which showed that central Asheville has 45 parks encompassing 267 acres while north Asheville has 13 parks totaling 76 acres. The consultants who are working on a new master parks and recreation plan are not recommending any new parks in the central area for the next 15 years. He then showed a map outlining the 181 acres of Richmond Hill and a conceptual design of what is planned there. He showed a conceptual plan overlay of what the renovation of Mountainside Park will look like.

Mr. Brinson responded to various questions and comments from Council, some being, but are not limited to: why the City has not done a rock and soil test at Memorial Stadium, similar to the one done at Richmond Hill; is there a possibility of forming a central district league; how did the offer to purchase come to Parks & Recreation's attention; what were the plans for Memorial Stadium if the offer to purchase had not been received; why is the stadium gated; why are the boundaries of Memorial Stadium unclear; and various questions regarding different provisions in the draft contract.

At the request of Council members, Mr. Ben Beasley, appraiser who did the appraisal report on this property, summarized his assignment, described the area and the subject property and explained the techniques and reasoning leading to the final estimate of value. He said the sales comparison approach to value was determined to be the most applicable approach for estimation of the market value of the subject property. He reviewed the sites which were analyzed in the valuation process. Mr. Beasley then answered various questions from Council regarding his appraisal. He also agreed that if the tract was divided up into lots, it might be tougher to market the property, but the City could receive more money.

Mayor Sitnick asked that a copy of a topographical map of Town Mountain and Sunset Mountain be furnished to Council prior to the March 10, 1998, public hearing on this matter.

Upon inquiry of Councilman Cloninger, Planning & Development Director Julia Cogburn explained that the tract is zoned Institutional and is not subject to the hillside regulations. However, City Attorney Oast noted that there may be other ways to accomplish the intent of the hillside regulations on that tract.

Mr. Brinson stated that he is not in the business of selling park property. In fact, he wants to acquire park property. However, he finds that this is an opportunity to address the needs necessary to enhance recreation facilities in the community.

26

Councilman Cloninger was concerned that the 10 day advertisement period for the sale of property was not enough time to put together a proposal if someone was interested in buying the property. He also expressed concern about the appraisal price stressing that the City needed to try to get maximum dollar for the property.

Upon inquiry of Vice-Mayor Hay, Mr. Brinson said that the consultant who has been preparing the Parks and Recreation Department's Master Plan has been involved and aware of this process. They have agreed that selling the property was the right thing to do and the Master Plan which will be coming before City Council in April, has taken into account that the City has sold the property.

Mr. Brinson then responded to questions from the following individuals: Mr. Alan Kirkpatrick, Ms. Susan Andrew, and Mr. Briggs Sherwood.

Mayor Sitnick encouraged the public to attend the public hearing concerning this matter on March 10, 1998.

RESOLUTION FOR CONSIDERATION OF A TEMPORARY MORATORIUM ON ADULT ESTABLISHMENTS

Councilman Sellers explained that he has heard rumors to the effect that three different "adult" businesses are interested in located in Asheville. He asked for Council's support of a resolution that would begin the process of establishing a moratorium on the businesses. The moratorium should stay in effect until the General Assembly has had a chance to consider legislation that would increase the City's ability to regulate the businesses. He asked for Council's support of this resolution.

City Attorney Oast further explained that in October, the Council adopted a resolution endorsing Senate Bill 452 that, as currently drafted, would return a measure of regulatory control over adult establishments to municipalities. Currently, such regulation is largely preempted by State law.

It is unclear at this time exactly what the new law, if adopted, would provide, but the fact that the law is pending is sufficient justification for the City taking action to preserve the status quo by imposing a limited-duration moratorium on the issuance of zoning approvals for such uses.

Because the proposed moratorium is technically a zoning ordinance, it must be considered pursuant to the same procedures that apply to zoning ordinances, generally; that is, it must go through the Planning and Zoning Commission, and a public hearing must be advertised and held in accordance with the law.

If Council desires to initiate the process for getting the moratorium question considered, adoption of the resolution is recommended.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

IMPLIED CONFLICT OF INTEREST - CABLEVISION FRANCHISE FEES

City Attorney Oast said that on February 10, 1998, an issue was raised about a possible conflict of interest regarding Assistant City Attorney Patsy Meldrum with respect to the City's position on disclosure of cable television franchise fee payments. He stated that there is no conflict of interest.

CLOSED SESSION

At 6:25 p.m., Councilwoman Field moved to go into closed session (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney - G.S. 143-318.11 (a) (3); and (2) to prevent the disclosure of information that is privileged or confidential pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that renders the information to be discussed privileged or confidential is G.S. 160A-168, the Personnel Privacy Act - G.S. 143-318.11 (a) (1). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:20 p.m., Vice-Mayor Hay moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 24, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. DEDICATION OF THE BICENTENNIAL TIME CAPSULE AND PLAQUE

Ms. Mitzi Tessier noted that the original dedication date was January 27, 1998, however, due to the weather, it had to be postponed. She explained that in November 1797 the village of Asheville (formerly Morristown) was incorporated as the Town of Asheville by an act of the General Assembly of North Carolina. At that same session of the legislature, five commissioners were appointed to carry into effect the plan of the town and to distribute the 63 acres of land among the population as they thought advisable. On January 27, 1798, the commissioners held their first meeting for the purpose of appointing a treasurer from among their own body. When chosen, he was considered their chairman. There were no records of the proceedings of the City until 1845, but we do know that Isaac Sawyer was the first Mayor of the City of Asheville.

Ms. Tessier recognized the members of the Urban Trail Board and the members of the Bicentennial Committee present in the audience.

She said that Mr. Phillip Palmer, Chair of the Bicentennial Legacy Committee, was instrumental in working on the time capsule while members of the Urban Trail Board were instrumental in having the plaque prepared.

Mr. Phillip Palmer said that their intention of the time capsule was to create a snapshot of the bicentennial year and there were a number of organizations and individuals involved in submitting items that are now inside the time capsule. He reviewed some of the items in the capsule which will be opened in 2047. Items ranged from a 1997 phone book to information from various organizations about programs, reports, and activities.

Mr. Grace Pless, Co-Chair of the Urban Trail Board introduced the donor of the plaque honoring his grandfather Charles A. Webb, Robert S. Webb Jr., Chief Executive Officer of Webb Insurance Company.

Mr. Charles A. Webb praised the Urban Trail Board and read the plaque as follows: "Time Remembered. A time capsule honoring Asheville's people was buried beneath this plaque to commemorate the city's bicentennial, observed in 1997-1998. Our citizens' accomplishments over the first two hundred years form the foundation upon which we continue to build tomorrow. The stored keepsakes will be revealed in 2047. Placed by the Webb family in memory of Charles A. Webb, 1866-1949, teacher, attorney, and newspaper publisher dedicated to the upbuilding of Asheville/WNC. " Mr. Webb proudly briefed Council on his grandfather's biographical sketch.

Mr. John C. Young Jr., member of the Urban Trail Board, stated that the site for the plaque and time capsule will be on the sidewalk on Spruce Street at the City/County Plaza.

Mayor Sitnick thanked the members of the Bicentennial Committee, the Urban Trail Board, the Webb family and the Parks and Recreation Department for their efforts. On behalf of City Council, Mayor Sitnick approved and accepted the gift.

B. BICENTENNIAL FINAL REPORT

Mr. Richard Nantelle, Co-Chair of the Bicentennial Committee, thanked several people, in particular Mayor Sitnick who was his Co-Chair on the Bicentennial Committee, associated with the Bicentennial and said that the dedication of the bicentennial time capsule will officially close out the bicentennial events.

C. PROCLAMATION PROCLAIMING MARCH 2, 1998, AS "READ ACROSS AMERICA DAY"

Mayor Sitnick proclaimed March 2, 1998, as "Read Across America Day" in the City of Asheville and presented the proclamation to Ms. Lettie Polite who briefed Council on some planned activities taking place on March 2.

D. PROCLAMATION PROCLAIMING THE MONTH OF MARCH AS "BLACK HISTORY MONTH"

Councilman Tomes read the proclamation proclaiming the month of March, 1998, as "Black History Month" in the City of Asheville.

E. STUDENT RECOGNITION

Mayor Sitnick recognized some students from the Masters of Public Administration Program at Western Carolina University.

II. CONSENT:

At the request of Councilman Sellers, Item J. was removed from the Consent Agenda for discussion.

A. RESOLUTION NO. 98-15 - RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCELS 1A AND 52A LOCATED AT THE INTERSECTION OF ASHELAND AND HILLIARD AVENUES TO PRICE ASSOCIATES IN THE AMOUNT OF $101,000

Summary: The bid of Price Associates in the amount of $101,000.00 for the purchase of Disposal Parcels 1A and 52A in the East Riverside Redevelopment Project is not less than the established minimum price of $101,000.00.

Disposal Parcels 1A and 52A are zoned RB-Regional Business District and located approximately 100 feet south of the intersection of Asheland and Hilliard Avenues. Comprising 25,246 square feet, the property extends from the east side of Asheland Avenue to the west side of Federal Street. The frontage along Asheland Avenue lies some 10 to 15 feet below street grade with the frontage along Federal Street being near street grade. The overall terrain is level to light sloping. Price Associates is currently leasing the property and has improved the property with a paved parking lot containing 31 parking spaces. The bid from Price Associates for

30

Disposal Parcels 1A and 52A includes the proposal to incorporate the property into the adjoining property currently owned by Price Associates. There are no additional improvements proposed at this time. Price Associates is a partnership owned entirely by Charles R. Price.

There being no upset bid, the Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 340

B. RESOLUTION NO. 98-16 - RESOLUTION ACCEPTING THE STREET NAME "EAST END PLACE" LOCATED IN THE EAST END PLACE SUBDIVISION LOCATED OFF DR. MARTIN LUTHER KING JR. DRIVE

Summary: The developers and owners of all lots in the East End Place Subdivision project located off Dr. Martin Luther King Jr. Drive have petitioned the City of Asheville to adopt the new street name of East End Place.

RESOLUTION BOOK NO. 24 - PAGE 341

C. RESOLUTION NO. 98-17 - RESOLUTION ACCEPTING THE STREET NAME "BUTTONWOOD COURT" LOCATED IN RANKIN HEIGHTS SUBDIVISION LOCATED OFF OF KENTUCKY DRIVE IN WEST ASHEVILLE

Summary: The City of Asheville, Community Development Division, owner of all lots in Rankin Heights Subdivision, located off of Kentucky Drive in West Asheville, have petitioned City Council to adopt the new street name of Buttonwood Court.

RESOLUTION BOOK NO. 24 - PAGE 342

D. RESOLUTION NO. 98-18 - RESOLUTION CHANGING NAMES OF CERTAIN STREETS IN THE DEERFIELD EPISCOPAL RETIREMENT COMMUNITY

Summary: The City of Asheville, Community Development Division, owner of all lots in Rankin Heights Subdivision, located off of Kentucky Drive in West Asheville, have petitioned City Council to adopt the new street name of Buttonwood Court.

RESOLUTION BOOK NO. 24 - PAGE 343

E. RESOLUTION NO. 98-19 - RESOLUTION ESTABLISHING MINIMUM PRICES FOR CERTAIN CITY-OWNED PARCELS OF REAL PROPERTY

Summary: The Planning & Development Department after a review of the inventory of City owned property as instructed by City Council in February, 1995, has recommended that certain parcels of surplus real property be offered for sale. Each of the parcels recommended for sale have undergone extensive interdepartmental review to insure that the property is not currently being utilized by the City and does not have an identifiable potential for future use by the City. The parcels recommended for sale are identified in the list Surplus Real Property Recommended for Sale prepared by the Planning & Development Department and dated February 19, 1998 .

Each parcel has been assigned a tax value by the Buncombe County Tax Assessor's Office and that value is the recommended minimum price for each parcel.

In 1995, the Planning Department solicited proposals from a number of real estate brokers in the area, and based on the qualifications of Russell G. Wood of Beverly Hanks & Associates, City Council adopted Resolution No. 95-134 which authorized the City Manager to execute an agreement with Russell G. Wood of Beverly Hanks and Associates to market and sell certain City owned properties. The Planning & Development Department recommends listing the subject parcels for sale as part of said agreement.

Approval of the resolution will establish a minimum price for each of the parcels and authorize offering the parcels for sale by and through an agreement with Beverly Hanks and Associates.

RESOLUTION BOOK NO. 24 - PAGE 344

F. ORDINANCE NO. 2449 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FOR FUNDS RECEIVED FROM THE N.C. DEPT. OF TRANSPORTATION FOR TRANSIT CENTER TRAFFIC SIGNALIZATION

Summary: In July ,1997 City Council appropriated $70,000 from General Fund Contingency to fund traffic signalization changes needed as a result of construction of the new Transit Center. At that time, it was indicated that grant funding would be requested and, if approved, could be used in place of a portion of funds from the General Fund. This grant request totaling $70,000 has been approved. This grant revenue as well as the original General Fund appropriation is needed to fund the traffic signal improvements and complete the project. In addition, water line improvements with a total cost of $10,000 have been made and the cost of which will be reimbursed by the Water Authority. This amendment incorporates these changes totaling $150,000 into the existing Project Budget of $915,000 making the revised project total $1,065,000.

Staff recommends that the budget for the Transit Center Project be amended to incorporate the additional $150,000 in funding which will result in a revised Project Budget totaling $1,065,000.

ORDINANCE BOOK NO. 16 - PAGE 408

G. MOTION SETTING A PUBLIC HEARING FOR MARCH 10, 1998, TO CONSIDER REZONING PROPERTY ON OLD HAYWOOD ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

H. RESOLUTION NO. 98-20 - RESOLUTION AWARDING THE BID TO COOPER CONSTRUCTION COMPANY FOR CONSTRUCTION OF FIRE STATION 4/POLICE RESOURCE SUBSTATION

Summary: In July, 1997, the City Council authorized commencement of the bidding process for construction of a new fire station—Fire Station 4—for the south Asheville area. The low bid, of nearly $800,000, exceeded available funds, so City Council authorized a rewrite of the specifications by Barney Woodard, AIA, with the intent of soliciting and receiving new bids within the range of funds available (a total of $600,000).

Based on City Council's recent authorization of the City Manager to enter into an agreement with the Skyland Fire Department for use of firefighter living quarters in Skyland's station (which will immediately adjoin Fire Station 4), Barney Woodard recommends award of the bid for Fire Station 4 to Cooper Construction Company of Hendersonville, North Carolina for Construction Option 2, Alternate 1, in an amount not to exceed $596,060. The Fire Chief concurs in this recommendation. The resolution provides for award of the bid to Cooper Construction, and authorizes the City Manager to enter into an agreement with Cooper Construction for this work.

Option 2, Alternate 1 provides for construction of a police substation, a fire station with two fire apparatus bays, a storage room, and a structural enclosure for the space originally proposed for firefighter living quarters, so those quarters could be built at a later date.

Barney Woodard is working with—and continues to work with—Cooper Construction on identifying opportunities for cost reduction. To date, over $20,000 in such opportunities have been identified. Barney Woodard advises that actual construction cost is expected to be below the low-bid amount of $596,060.

In order to provide a sufficient funding package for Fire Station 4, the Finance Director and Budget Director recommend transferring funds from general fund un-appropriated fund balance in the present fiscal year to cover construction costs of Fire 4. Given the priority that Council has placed on this station, use of general fund un-appropriated fund balance is a viable option.

The Budget Director, Finance Director and Fire Chief recommend adoption of the budget amendment ordinance for Fire Station 4 and the Asheville Police Department substation. The Fire Chief recommends City Council adoption of architect Barney Woodard's recommendation of bid award to Cooper Construction Company for Construction Option 2, Alternate 1 of the City of Asheville specifications for construction of Fire Station 4 and an Asheville Police Department substation in south Asheville in an amount not to exceed $596,060 through adoption of the resolution.

J. RESOLUTION AUTHORIZING THE CITY MANAGER TO XECUTE A MASTER MUNICIPAL RENTAL AGREEMENT WITH NEC AMERICA INC. FOR LEASING A TELEPHONE SYSTEM

This item was removed from the Consent Agenda for discussion.

K. RESOLUTION NO. 98-21 - RESOLUTION AUTHORIZING THE PURCHASE OF LEASED LAND ON WHICH THE CIVIC CENTER PARKING DECK IS BUILT

Summary: The consideration of a resolution authorizing the purchase of land currently leased by the City for the Civic Center Parking Deck and a budget amendment reallocating a portion of the Fiscal Year 97-98 capital contingency appropriation to the Parking Capital Fund to fund the purchase.

The City of Asheville entered into a lease agreement with George E. and Edith A. Parker Dawson on January 1, 1974, for the parcel of property described as "all of Lots 6,7,8,9 and 10 as shown on a plat recorded in the Office of the Register of Deeds for Buncombe County, North Carolina, in Plat Book 198, at Page 212," and upon which the Civic Center parking garage was constructed. The terms of the lease were such that the lease period would end the earlier of December 31, 1998, or upon the date of death of the lessor. The lessor died on February 4, 1998. Upon termination of the lease, the City may exercise an option to purchase the property for $65,000 within 90 days of the date of death. Staff believes that it is in the best interest of the City of Asheville to acquire the property.

Funds for this purchase will be provided by transfer of $65,000 from the Fiscal Year 1997-98 Fund Capital Contingency to the Parking Capital Fund.

Staff recommends the City Council approve the budget amendment and resolution authorizing the City Manager to purchase the property upon which the Civic Center Parking Garage is built.

RESOLUTION BOOK NO. 24 - PAGE 348

L. ORDINANCE NO. 2451 - BUDGET AMENDMENT TO PURCHASE LEASED LAND ON WHICH THE CIVIC CENTER PARKING DECK IS BUILT

Summary: See Item "M" above.

ORDINANCE BOOK NO. 16 - PAGE 412

M. RESOLUTION NO. 98-22 - RESOLUTION FOR CONSIDERATION OF A TEMPORARY MORATORIUM ON ADULT ESTABLISHMENTS

Summary: In October, the Council adopted a resolution endorsing Senate Bill 452 that, as currently drafted, would return a measure of regulatory control over adult establishments to municipalities. Currently, such regulation is largely preempted by State law.

It is unclear at this time exactly what the new law, if adopted, would provide, but the fact that the law is pending is sufficient justification for the City taking action to preserve the status quo by imposing a limited-duration moratorium on the issuance of zoning approvals for such uses.

Because the proposed moratorium is technically a zoning ordinance, it must be considered pursuant to the same procedures that apply to zoning ordinances, generally; that is, it must go through the Planning and Zoning Commission, and a public hearing must be advertised and held in accordance with the law.

Consideration was given to proposing an interim ordinance, pursuant to the general police power, prohibiting the issuance of licenses under Article IV of Chapter 9 pending Council's consideration of the moratorium ordinance (about a six-week window). While this is a possibility, there are some legal considerations that may affect the validity of such an ordinance. Moreover, the pendency of the moratorium question may be legally sufficient to prevent the establishment of a zoning vested right.

If Council desires to initiate the process for getting the moratorium question considered, adoption of the resolution is recommended.

Mr. Daniel Breen spoke against the adoption of the resolution in that he felt that the issue is a freedom of speech issue and a right to assemble issue.

Mayor Sitnick noted the resolution is only to direct staff to consider a temporary moratorium pending the outcome of State legislation.

RESOLUTION BOOK NO. 23 - PAGE 349

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

ITEM PULLED FROM THE CONSENT AGENDA FOR DISCUSSION

RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MASTER MUNICIPAL RENTAL AGREEMENT WITH NEC AMERICA INC. FOR LEASING A TELEPHONE SYSTEM

Mr. Bill Schaefer, Finance Director, said that the City government's present telephone system is made up of several small switches which have limited capabilities and do not provide the functionality and growth capabilities the City needs to handle essential communications requirements. Additionally, the mix of old and newer technologies has caused considerable interoperability problems in attempting to get the various segments of the current system to function together and many components are nearing the end of their service life expectancy. As a result, in June of this year, the City initiated a Request for Proposal process to select a provider of a single, fully-integrated telephone system for the City government which has the functionality and anticipated expansion capabilities the City requires. Newspaper ads announcing the solicitation resulted in six companies responding that they would like to participate. Of those, four actually submitted proposals. A team made up of representatives from several departments evaluated the responses and selected the Southeastern Telecom proposal as offering the best solution to the City's telephone requirements.

The Southeastern Telecom proposal incorporates state-of-the-art functionality, fully-integrated compatibility throughout the City (including such locations as City Development, the new Mills River Water Plant, and with the addition of a supporting T-1 line in next year's budget for the North Fork Water Plant), expansion capability to accommodate both anticipated growth in communications needs and the addition of future functionality developments. For example, if needed, the system will be able to handle the increased communications requirements of the Civic Center future transition to a convention center/hotel complex with little or no modification of the telephone system.

Under their proposal, Southeastern Telecom will be the local provider of equipment, installation and maintenance of the system. However, as has been the City's policy with other areas in which technology is changing rapidly, such as computer hardware and software, the system will be leased rather than purchased outright. The Master Municipal Rental Agreement, between the City and NEC, requires monthly payments of $6,457.50 for a term of seven years .

Funds for this lease are provided in the Fiscal Year 97-98 budget.

Discussion surrounded Request for Proposal and selection processes. Mr. Schaefer stressed that our focus was clearly on the capabilities, flexibility, present potential and future growth.

Mr. Bill Arledge, President of Telephone Systems of Asheville ("TSA"), outlined his reasons why he felt City Council would be spending significantly more if they contracted with Southeastern Telecom than with TSA. He felt he process was flawed and urged Council to postpone this action until further evaluation of the differences can be evaluated.

Mr. Dale Gilstrap, Operations Manager for Southeastern Telecom in Asheville, spoke in support of the recommendation by staff .

After further discussion on several issues, Councilman Sellers moved to table this matter until March 10, 1998, in order to give TSA the opportunity to see if they have had a fair chance to bid for the lease. Staff was instructed to meet with both companies and see if their recommendation will change or remain the same. This motion was seconded by Councilman Tomes.

Mr. Schaefer reminded Council of the financing behind the NEC America Inc. lease.

Upon inquiry of Councilwoman Field about the companies bidding on the lease, Mr. Schaefer explained that City staff does not have the capabilities of writing technical specifications and that is why this process was used. He stated the City would probably have to hire an engineer to write the specifications.

The motion made by Councilman Sellers and seconded by Councilman Tomes to table this issue until March 10, 1998, carried unanimously.

Upon concurrence of City Council, the new business items were moved ahead of the public hearings.

III. NEW BUSINESS:

A. RESOLUTION NO. 98-23- RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH BELLSOUTH MOBILITY FOR ANTENNA FACILITIES AND SPACE AT WHITE FAWN RESERVOIR

Mr. Bill Schaefer, Finance Director, said that in 1997, BellSouth Mobility put in a request to lease space from the City of Asheville and co-locate antennas and DCS transmission equipment on an existing, city-owned tower. The location of this tower is on Reservoir Road, behind St. Joseph's hospital at the White Fawn Reservoir site.

In anticipation of this lease, BellSouth Mobility has conducted an extensive structural analysis of the tower and provided City staff with copies of the results of their findings. BellSouth Mobility conducted this analysis with the complete understanding that negotiations would proceed pending any decision by City Council to the contrary and at no charge to the City.

The lease itself is for a period of nine years, with quarterly payments of $3000 to the City of Asheville. This lease would allow BellSouth Mobility to install their equipment near the base of the existing tower, erect a fence for the protection of the equipment and co-locate their antennas on the city-owned tower.

Staff recommends City Council adopt the resolution authorizing the City Manager to sign the lease agreement with BellSouth Mobility.

Mr. Schaefer said that during the worksession on February 17, 1998, Council requested that staff provide additional information related to the proposal to lease antenna tower space at White Fawn to BellSouth Mobility. He reviewed a listing of all the present tenants on the two active towers at White Fawn, the length and termination date of their present lease along with their monthly rent.

Council also requested that staff contact the City's communications consultant to obtain their comments/recommendations regarding the terms of the proposed lease (to include duration and monthly rent). Staff has discussed the specific terms of the lease with Mr. Al Jenkins of Jenkins Reed & Madison. Mr. Jenkins is of the opinion that the lease is appropriate in all respects. The proposed initial quarterly rent of $3,000 is more than twice what the next highest tenant is currently paying and is more in line with what the Asheville market should be. The lease also includes a rent increase to $3,450 per quarter for the sixth through ninth years. The nine-year duration of the lease is justified to permit BellSouth to recoup its up-front expenditures to conduct the structural and frequency analysis of the tower and the approximately $20,000 of enhancements to the tower's structure that they will make. The enhancements to the structure will not only accommodate BellSouth's needs but will also be to the benefit of the City and other current and future tenants.

Upon inquiry of Councilman Cloninger, Larry Friedhoff, BellSouth Mobility representative, explained why Tower No. 1 was chosen instead of Tower No. 2, pointing out that Tower No. 1 sets closer to their objective which is coverage to the medical community.

Councilman Cloninger noted that this lease accomplishes three objectives - (1) co-locating the antenna which means that we will have one less tower in the City; (2) there will be no antennas taller than what we currently have at that site; and (3) we will get revenue for the City.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

After some brief discussion about the lease term, Councilman Cloninger moved to adopt Resolution No. 98-23. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 350

B. MOTION RELATIVE TO A ZONING STUDY IN THE CHATHAM ROAD/WEAVER BOULEVARD AREA

Ms. Julia Cogburn, Director of Planning & Development, said that their Department has received a petition for a zoning study which includes ten properties in the Chatham Road/Weaver Boulevard area.

The ten properties total approximately 5.29 acres. The petition included signatures of individuals who own nine of the ten properties. These nine properties total approximately 3.39 acres or approximately 64% of the total acreage of the requested study area.

Section 7-7-2 of the Unified Development Ordinance states that "a zoning study of a defined area may be requested upon submittal to the planning and development department of a petition signed by 51 percent of the property owners in the defined area for which the zoning study is requested who own at least 51 percent of the property (acreage) in the defined area for which the zoning study is requested". The petition does meet the above referenced criteria.

Council is asked to determine whether a zoning study should be initiated for this defined area or for a portion thereof. The City Council may initiate the zoning study, elect not to initiate the zoning study, or reduce the size of the area to be included in the zoning study and initiate a zoning study of the reduced area.

Ms. Cogburn said her staff doesn't feels that this zoning study would take a considerable amount of staff time because of the size of the area - probably no more than 30 days. She did clarify a misstatement at the worksession on February 17, 1998, noting that the neighborhood had requested RS-8 during the UDO process, however, Council did not act on that request.

Vice-Mayor Hay moved to instruct the Planning & Development Department to initiate a zoning study which includes ten properties in the Chatham Road/Weaver Boulevard area. This motion was seconded by Councilman Cobb and carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE DRHUMOR BUILDING LOCATED AT 48 PATTON AVENUE AS A LOCAL HISTORIC LANDMARK

ORDINANCE NO. 2452 - ORDINANCE TO DESIGNATE THE DRHUMOR BUILDING LOCATED AT 48 PATTON AVENUE AS A LOCAL HISTORIC LANDMARK

Mayor Sitnick opened the public hearing at 6:46 p.m.

Councilman Cloninger asked to be excused from voting because he is one of the owners of the building. Councilman Sellers moved to execute Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Maggie O'Connor, HRC Director, said that the owners of the Drhumor Building are seeking local historic landmark designation.

On January 14, 1998, the Historic Resources Commission of Asheville and Buncombe County ("HRC") held a public hearing regarding the designation of the Drhumor Building as a local historic landmark. Notice of the public hearing for this local landmark designation was published in the Asheville Citizen-Times on January 4, 1998, and that all owners of real property situated within 400 feet were notified of this hearing by mail on December 31, 1997. At the public hearing, comments from the public were received in writing and orally and all comments supported landmark designation.

When a property is designated historic, restrictions are placed on the property and to any exterior improvements. Any modification to the structures or land must receive a Certificate of Appropriateness from the HRC and all improvements must follow the Secretary of the Interior's Standards for Rehabilitation Illustrated Guidelines for Rehabilitating Historic Buildings.

Designation of this building as a local historic landmark makes the property owner eligible for a 50% reduction in property taxes. Currently the assessed value of the property is $1,082,400 and the total taxes paid for this year were $16, 344.24. If the Drhumor building is designated historic, the taxes would be reduced by half to $8,172.12.

At their January 14, 1998, regular meeting the HRC found the Drhumor Building to have integrity of design, setting, workmanship, materials, feeling, and to have architectural significance. Therefore, by a unanimous vote, the HRC recommends to City Council that they adopt an ordinance designating the Drhumor Building a local historic landmark.

Since Asheville is a Certified Local Government, the N.C. Dept. of Cultural Resources, State Historic Preservation Office ("SHPO"), has the right to comment on any nomination for Local Landmark designation. The SHPO concurs with HRC's recommendation.

Mayor Sitnick closed the public hearing at 6:50 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2452. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 414

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE THE BOARD OF ADJUSTMENT AUTHORITY TO VARY THE REQUIREMENTS FOR LOT SIZE AND DIMENSION

ORDINANCE NO. 2453 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE THE BOARD OF ADJUSTMENT AUTHORITY TO VARY THE REQUIREMENTS FOR LOT SIZE AND DIMENSION

Mayor Sitnick opened the public hearing at 6:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is consideration of a request from the Planning and Zoning Commission for approval of an amendment to the Unified Development Ordinance ("UDO") providing the Board of Adjustment with the authority to vary the required lot area and dimensional standards for lots located in residential districts.

Section 7-6-1.B. of Chapter 7 of the Code of Ordinances of the City of Asheville (UDO) places limits on the provisions which can be varied by the Board of Adjustment. Among these limits is the restriction on the granting of any variance which would permit the creation of a non-conforming lot. This restriction has created hardship in cases where a property owner lacks only a few square feet in being able to create an additional lot. The proposed amendment would provide the Board of Adjustment with the authority to grant variances to lot area and dimensional standards, for an individual lot in residential districts, with the following limitations:

The variance shall not permit a reduction of greater than 10% in the required lot area and dimensional standards;

An application for such variance may be made for only one lot at a time; and

Application for such variance for an additional lot under common ownership or in the same development shall not be submitted within three years of submittal of the previous application.

If the proposed amendment is adopted, the Board of Adjustment would hear such requests and would base their decision upon the unique circumstances of each case. Adoption of the proposed amendment would permit the creation of new lots in cases where such lots are not currently permitted, possibly reducing the cost of housing.

The proposed ordinance amendment has been recommended for approval by the Asheville Planning and Zoning Commission by a 6-0 vote. The staff of the Planning and Development Department recommends approval of the amendment.

Mayor Sitnick asked what would be the difference in making the UDO standard more flexible rather than giving the Board of Adjustment this authority? Mr. Green responded that within the standard zoning ordinance within residential districts you set a certain size for lots within that residential district and we can probably do it with some type of performance standards. That would require re-writing the entire UDO, whereas this provides some flexibility on a case by case basis.

City Attorney Oast said that having the Board of Adjustment being the body that grants this variance is a good idea, because it allows the board the ability to impose some conditions on this variance that will protect the neighboring property owner.

City Manager Westbrook said that staff still feels that's an appropriate standard and that what they seek to do is to have a way to vary that within a very narrow range.

Ms. Janet Hart, 60 Baird Street, President of Charlotte Street Neighbors, said that given the Board of Adjustment's history in granting the great majority of requests they hear, she opposed this proposal. She said one problem is with small lots in a residential neighborhoods - 10% variation in a lot dimension or a size can make a difference. The other problem is where commercial office, office business, highway business or any other non-residential lot abuts a residential lot - a lot size requirement is meant to prevent encroachment on residential buffer areas. Variances could mean that a buffer becomes less effective. She offered a compromise: Lot size and dimension should not be allowed variances in a residential area, nor should variances be allowed where office or commercial areas abut residential property. Her position is to protect the residential areas from any detrimental effects of such a variance.

Mr. Brian Peterson, 42 Vance Crescent in West Asheville, also spoke against the proposed ordinance.

Upon inquiry of Councilman Cloninger, Mr. Green said that this applies only to residential lots and therefore would not have an impact on buffering for any type of development, setback requirements, lighting requirements or parking requirements.

Mayor Sitnick closed the public hearing at 7:06 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2453. This motion was seconded by Councilman Sellers.

Vice-Mayor Hay shared concerns about our experience with the Board of Adjustment but felt that there is a point at which we need to trust that they will do their job correctly. He suggested that their authority be monitored and if we are getting complaints back that the authority is being abused or if the Board of Adjustment is not fulfilling the will of Council as far as the implementation of the UDO goes, that Council review it again.

Councilman Tomes agreed with Vice-Mayor Hay in that this authority be monitored.

Upon inquiry of Councilman Cobb, City Attorney Oast said that the Board of Adjustment is required to schedule and hold a public hearing every time one of these items comes up. They have the same notices that apply to public hearings before the City Council, so the public does have an opportunity to appear and make their points of view known. Also, it would require a 4/5's vote of the Board of Adjustment to grant any one of these variances.

Mayor Sitnick felt that even though we have good members sitting on the Board of Adjustment now, she is not sure how future Board members will rule on variances and there could be the opportunity for abuse of this authority. Also, the UDO came up with standards that were pretty clear and stringent.

The motion made by Councilwoman Field and seconded by Councilman Sellers carried on a 5-2 vote, with Mayor Sitnick and Councilman Cobb voting "no".

ORDINANCE BOOK NO. 16 - PAGE 416

At 7:10 p.m., Mayor Sitnick announced a ten minute break.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO AMEND THE DEFINITION OF "FAMILY CARE HOMES" TO INCLUDE CHILDREN

ORDINANCE NO. 2454 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO AMEND THE DEFINITION OF "FAMILY CARE HOMES" TO INCLUDE CHILDREN

Mayor Sitnick opened the public hearing at 7:17 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is consideration of a request from the Planning and Zoning Commission for approval of an amendment to the Unified Development Ordinance which deals with the definition of Family Care Homes.

The following is the current definition of Family Care Homes: "FAMILY CARE HOMES: an adult care home with support and supervisory personnel that provides room and board, personal care and habitation services in a family environment for resident handicapped persons, as handicapped persons are defined in N. C. Gen. Stat. sec. 168-21 (or its successor)."

The current definition limits the use "Family Care Homes" to adults only. It is recommended that the definition be expanded to include children as well.

In order to clarify this to the user of the Unified Development Ordinance, it is proposed that the definition be edited as follows (new language in *italic* print): "FAMILY CARE HOMES: *a facility for adults or children* with support and supervisory personnel that provides room and board, personal care and habitation services in a family environment for resident handicapped persons, as handicapped persons are defined in N. C. Gen. Stat. sec. 168-21 (or its successor)."

The Planning staff has reviewed this request and recommends approval of the amendment. At the Planning & Zoning Commission meeting held on February 4, 1998, the Commission voted unanimously to recommend this amendment to City Council.

Councilwoman Field suggested an amendment to the wording as follows: "a facility for adults and/or children ...."

Mr. Green responded to general questions from Council relative to family care homes.

Mayor Sitnick closed the public hearing at 7:26 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2454, with the wording amendment suggested by Councilwoman Field. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 418

D. PUBLIC HEARING TO CONSIDER THE MANUFACTURED HOUSING OVERLY ZONING DISTRICT TO 15 LOTS ON ROBIN LANE ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

ORDINANCE NO. 2455 - PUBLIC HEARING TO APPLY THE MANUFACTURED HOUSING OVERLY ZONING DISTRICT TO 15 LOTS ON ROBIN LANE ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 7:27 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is consideration of applying the Manufactured Home Overlay District to 15 lots on Robin Lane zoned RM-6.

The composition of this residential neighborhood has several manufactured homes scattered throughout the surrounding area. The 2010 Plan indicates the surrounding area to be low density residential which the current zoning (RM-6) permits.

The UDO requirements for establishing a "Manufactured Home Overlay" district:

- the homes should be architecturally compatible with the existing residential structures;
- manufactured homes should comprise at least 20% of the homes in this area (there are 8 existing residents of which 2 or more are manufactured homes);

42

- vacant land should be available for location of manufactured homes (of the 15 lots, 7 are currently vacant with the applicant's lot being one); and
- the area must be a minimum of 5 acres.

This property is outside the city limits of Asheville.

The Planning staff reviewed this request and recommended approval of the application of the overlay district. At their February 4, 1998, meeting, the Planning & Zoning Commission voted unanimously to approve the application of the overlay district to this RM-6 Multi-Family Residential area (PIN Nos. 9639.07-59-3579, 3697, 3767, 3867, 3969, 4420, 4438, 5883, 5699, 5945, 6357, 6447, 6546 and 9730.19-50-3183 and 4192).

Ms. Lisa Benbow spoke in support of the ordinance.

Mayor Sitnick closed the public hearing at 7:32 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2455. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 419

E. PUBLIC HEARING RELATIVE TO THE REQUEST OF BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA) FOR AN ANNUAL INCREASE FOR ITS MONTHLY RATES FOR THE BASIC SERVICE TIER

RESOLUTION NO. 98-24 - RESOLUTION ISSUING A WRITTEN DECISION REGARDING THE REQUEST OF BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA) FOR AN ANNUAL INCREASE FOR ITS MONTHLY RATES FOR THE BASIC SERVICE TIER FOR THE TIME PERIOD OF JUNE 1, 1997, TO MAY 31, 1998

Mayor Sitnick opened the public hearing at 7:35 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Patsy Meldrum, Assistant City Attorney, said that the City has received a request of Brenmor Cable Partners, L.P. (d/b/a/ InterMedia) for an Annual Increase for its Monthly Rates for the Basic Service Tier for the time period from June 1, 1997 to May 31, 1998

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchise area of InterMedia within the corporate limits of the City.

By letter dated March 1, 1997, InterMedia filed FCC Forms 1205 and 1240, both dated March 1, 1997, for the purpose of requesting and justifying an annual increase in its monthly rates and hourly service charges for cable services on the basic service tier. Those documents were received by the City on March 3, 1997.

Rice, Williams Associates, the City's cablevision consultant, reviewed the FCC Forms 1205 and 1240 and attachments filed by InterMedia on March 3, 1997. They furnished the City with a report that concluded that InterMedia made certain errors in the Form 1240 filing regarding the monthly rate, but that the Form 1205 filing was correct. The City provided InterMedia with a copy of that report.

InterMedia subsequently filed with the City an amended FCC Form 1240 on November 7, 1997. On November 11, 1997, the City Council of the City of Asheville adopted Resolution No. 97-212, which resolution postponed a decision on the request of InterMedia for an annual increase for its monthly rates for the basic service tier until review of the amended FCC Form 1240 could be completed within the time period and according to the regulations of the FCC.

Rice, Williams Associates reviewed the amended FCC Form 1240 filed with the City by InterMedia on November 7, 1997. They furnished the City with a report regarding their review of the amended FCC Form 1240. That report concluded that InterMedia made certain errors in the amended Form 1240 filing. A copy of that report was furnished to InterMedia.

InterMedia filed a revised Form 1240 with the City on February 12, 1998. Rice, Williams Associates has reviewed the revised Form 1240 and noted that InterMedia acknowledged errors pointed out by Rice, Williams Associates and made appropriate corrections in the revised Form 1240. They further noted that InterMedia made additional adjustments which resulted in a slightly incorrect result. InterMedia has conceded that correction to this result should be made.

After all of these corrections and adjustments have been made, the maximum permitted rate for the basic service tier is $10.9786 per month per subscriber for the time period of June 1, 1997, to May 31, 1998. As allowed by federal laws and regulations, InterMedia began charging a rate of $10.91 per month per subscriber for the time period of June 1, 1997, to May 31, 1998. That rate does not exceed the maximum permitted rate. No approval of the rate of $10.91 is required, but it is advisable to establish the maximum permitted rate for the basic service tier for the time period of June 1, 1997, to May 31, 1998.

Mayor Sitnick noted that this is the City's only ability to protect the subscriber by establishing the maximum permitted rate for this annual rate increase for the basic service tier.

Ms. Meldrum noted that the City can look at other types of rate increases for the basic service tier, one of which we are continuing to do and that is for the rebuild of the system. They are recovering some of their capital expenditures and that's a separate rate increase. We are continuing to review that request and our time period for that review has not yet expired.

Councilman Cloninger asked what would the effect be if we did not pass this resolution. Ms. Meldrum said that their rate would still be in effect but it would be advisable to set the maximum permitted rate, because that does set the ceiling - without that, there is no ceiling set.

Councilman Tomes stated that we must communicate to the public that the City Council has very limited authority to regulate certain cable rates. Ms. Meldrum said that we communicate that to the public by these public hearings where we review rates and we go over what our authority is. In addition, when she receives calls in her office about rate increases, she discusses with those individuals what limited authority the City has.

Mayor Sitnick noted the number of calls and letters she receives and agreed with Councilman Tomes that something needs to be done to inform the public about why the cable rates increase and what limited authority the City has to protect our subscriber. A better job needs to be made clear to the public what they have, what things cost, what they are going to get, how packages are offered, what it obligates them to, and what they're paying for.

44

Upon inquiry of Councilman Cobb, Ms. Meldrum said that the basic rate can be adjusted only once a year, but they can also adjust it for other reasons other than an annual inflationary request.

Mr. Joe Haight, General Manager of InterMedia, said that there are many, many parts to the packaging and a lot of times we have difficulty in explaining that to the customer. He said that he would be happy to talk with customers who have complaints and that they may reach him at 274-7500 or 274-7801. He said that the would be happy to work with the City on how to better inform the public.

Mayor Sitnick closed the public hearing at 7:57 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved to adopt Resolution No. 98-24 setting 10.91 as the maximum permitted rate. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 351

F. CABLE TV FRANCHISE RENEWAL

Mayor Sitnick opened the public hearing at 8:00 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mayor Sitnick said that because of the complexity of this issue, she explained that Council is considering a three part package. The package involves a regulatory ordinance, a franchise agreement and a fee settlement. The franchise agreement only will require two votes, each one at a separate formal Council meeting, no matter what the vote is (unless the vote is for denial, in which case the first vote would be final). The regulatory ordinance can pass with one vote, unless it receives less than a 5-2 vote by Council - then it would require a second reading at a separate formal Council meeting. She said several courses of action can be taken at this time: (a) approve the three part package as presented; (b) approved part of the three part package; (c) deny the package; (d) ask staff to negotiate parts of the package (specifically parts of the franchise renewal agreement); or (e) continue the public hearing and have further discussion on any or all parts of the package. If Council decides to ask staff to further negotiate any portions of the franchise renewal agreement, Council would have to be specific on what exactly the want re-negotiated and would have to establish a deadline for staff to report back to Council. The renewal of the franchise agreement depends on the regulatory ordinance being in place so unless we adopt the ordinance we would probably not want to act on the renewal.

City Attorney Oast said that if Council wants time to digest some of the information, they can continue this item to the worksession and that might be at the point in time in which they would want to give further negotiating instructions to staff.

Councilwoman Field asked if the fee settlement could be considered separately. City Attorney Oast responded that it is somewhat tied up in the renewal and settling the franchise fee issue may affect our negotiating position on the renewal question. If Council is inclined to consider pursuing further negotiation on the franchise renewal, he recommended that the vote on all three items be continued. Assistant City Attorney Patsy Meldrum further stated that in looking at the franchise renewal and also at the regulatory ordinance, part of that was making clear that we had a definition of "gross annual revenues" which is the basis on which the franchise fees would be paid. And as part of that, we would be getting additional revenues for the remainder of the term, so that's part of the consideration in the settlement amount. If that's not in place, then it would be recommended that another look be taken at the settlement agreement.

City Attorney Oast said that even though Council will be voting on all three documents separately, he recommended that public comment be taken on all three documents at the same time.

Ms. Meldrum reviewed the proposed cable television documents for the benefit of the public in understanding the proposed cable television documents.

She reviewed the history of the renewal process: (A) TCI requested renewal discussions and City agreed; (B) City did Request for Request for Proposals ("RFP") for consultant; (1) list of consultants (a) N.C. League of Municipalities; (b) National Association of Telecommunications Officers and Advisors (NATOA); (c) seminars; (d) certified minority business list; (2) contacted three consultants and requested proposals; (3) comparison chart done; references checked; (4) presentation to City Council; (6) Rice, Williams Associates selected; agreement for services; (C) renewal process outlined by the consultant (not in formal renewal window/process): (1) initial consultation; (2) community needs assessment; (3) compliance evaluation; (4) technical analysis; (5) prepare request for proposals; (6) response to RFP from cable company; (7) evaluate RFP; (8) negotiate documents; (9) prepare documents; and (10) present documents for consideration by city council; and (D) collateral issues which affected process/negotiations: (1) transfer of TCI to InterMedia (Nov. 1995 to Sept. 1996); (2) franchise fee issue; (3) City's authority limited by federal laws and regulations.

She then outlined one element of the proposal which is the regulatory ordinance (ordinance regulating cable service providers): (1) establishes definitions - most importantly = "gross annual revenues" and "transfer"); (2) registration and franchise required; (3) application and approval standards for franchise; (4) franchise fees required; right to audit; (5) right to inspect records and cable system; (6) access channels, access equipment and institutional network required; (7) customer service standards (subject to federal laws and regulations): (a) standard installation = not less than 150 feet; (b) no fee for disconnection unless agreed to by subscriber; (c) credit for outages; (d) business office; (e) telephone answering; (f) complaint handling; (g) subscriber information; (h) response to service complaints and outages; (i) subscriber privacy) and (j) rate regulation; (8) performance evaluation/annually/public; (9) construction and technical standards; (10) technical performance testing; (11) removal or abandonment of cable plant; (12) transfer of franchise, ownership or control (a) transfer of ownership of 10% or more requires City approval; (b) transfer of franchise or control requires City approval; (c) reimbursement of City's expenses; (13) construction and performance bonds required; (14) insurance requirements; (15) indemnification requirements; (16) termination of revocation process (a) defaults listed; (b) hearing process described; (c) remedies for City; (17) penalty provisions.

She then reviewed another element of the proposal, which is the franchise ordinance (ordinance granting franchise to Brenmor d/b/a InterMedia): (1) non-exclusive franchise; (2) subject to regulatory ordinance; (3) term (a) 1967 franchise would expire in July of 2002 (four years and six months left); (b) twelve years and six months added; (4) franchise fee of 5%; (5) franchise area includes current and future city limits; (6) extension standards included (includes cost-sharing formula); (7) system rebuild requirements (a) 550 MHz; (b) 80 analog channels and/or capacity for digital transmission; (c) completion by December 31, 1998; (d) design standards; (e) emergency alert system requirements; (f) maintenance requirements; (g) parental control devices; (h) performance testing (subject to federal laws and regulations); (8) construction standards; (9) system services (a) subscribers; (b) leased access channels; (c) free cable drops and monthly service to sites passed by activated cable plant and within city limits: (i) all city and county schools; (ii) city police and fire stations/facilities; (iii) all "city and county libraries"); (iv) all city buildings; (d) scrambled institutional programming - for governmental and educational access channels to all local governmental and educational locations receiving free drops and monthly service; (10) state-of-the-art clause (a) cable systems owned by Brenmor/InterMedia in North Carolina, South Carolina, Georgia and/or Tennessee; (b) similar system (size, population, etc.); and (c) public hearing may be held by City Council; (11) public, educational and governmental (PEG) access channels (a) three channels required within 90 days of City's request (after rebuild completed); (b) one additional channel required when threshold met; (c) administration and management may be coordinated by city and cable company or city may assign to third party or cable company; city has sole authority to designate channels and use of channel capacity; (d) initial access equipment and facilities -- $200,000 (paid over first two years; first $50,000 may be paid by cable company "in-kind" with equipment; cable company may elect to pass through all or portion to subscribers); (e) replacement equipment, maintenance, support and facilities -- minimum of $36,000/year or 15-cent/subscriber/month, whichever is greater, during years 8-17 (cable company may elect to pass through all or portion to subscribers); (12) Institutional Network: (a) four fibers; (b) City of Asheville and City School sites; (c) no maintenance or use costs to City; (d) video, voice, data transmission and other telecommunications applications; and (e) completed with rebuild of cable system (cable company may elect to pass through all or portion of cost to subscribers; (13) subscriber services and standards (subject to federal laws and regulations) (a) subscriber information; (b) customer service standards; (c) subscriber complaints; (d) downgrades and disconnects; (e) outages; (f) repair calls (four hour windows); (14) construction bond ($300,000); performance bond ($350,000); (15) insurance requirements (general liability; workers' compensation; employers liability; automobile liability); (16) indemnification requirements; (17) most favored nations (a) other cable franchises granted by City must have similar requirements, subject to exclusion of small cable systems; (b) indemnification of City by cable company; and (18) transfers, renewals and termination/revocation governed by regulatory ordinance and federal laws and regulations.

She then continued with the final element of the proposal which is the franchise fee settlement: (1) franchise fee audit for four years (January 1, 1992 - December 31, 1995); (2) payments made by basic and expanded basic service revenues; no payments made from premium channels (HBO, Cinemax, etc.), pay-per-view, home shopping channels or other revenues; (3) settlement from InterMedia and TCI (a) $150,000 - payable in three installments of $50,000 over three years; (b) additional franchise fees from new definition of "gross annual revenues" if franchise renewal completed - estimated by cable company to be $260,000 from 1997 - 2002 (rest of 1967 franchise term).

Throughout Ms. Meldrum's presentation, she and the City's consultant Jean Rice, responded to various questions from Council. Some questions and comments were, but are not limited to, if the regulatory ordinance had previously been in place, would the City be struggling with figures now; how can the public be informed that they have to call the cable company in order to receive an outage refund; are the penalty provisions high enough; how the franchise area will include current and future City limits; does this allow the City and the County cable companies to be linked for emergency services; what are the types of equipment for the PEG channels; who controls and regulates PEG channels for pornography, no commercials, no libelous, no obscenity; what does "most favored nations" mean; state-of-the-art clause; is the Morganton franchise competing with a private franchise; and the definition of "obscene".

Upon inquiry of Mayor Sitnick about the Institutional Network, Ms. Meldrum said that the statement that reads "no maintenance or use costs to the City" refers to the fiber that runs in the network and that runs up to the building. The internal wiring of the building and the equipment in the building would be paid for by the City or the City school system. She explained the request was made to include all of the elementary schools, the administrative office, the Accelerated

Learning Center, Asheville High School, Asheville Middle School, and a number of other City sites that are not included in the list in this proposal. However, in looking at the cost which can be passed along to subscribers, the instructions staff received were to try to consider the impact on those subscribers. Therefore, certain sites were picked which were based upon discussions with the former City Council and also with the City's Information Services Division which would be the key sites. That's why not all of the schools were included in the list that is proposed. She did note, however, that there is an opportunity to add other sites in the proposal.

Ms. Meldrum explained why the City asked for a franchise fee audit of three years and received an audit for a four year time period and the issues regarding going back further in time.

The following individual's read statements, or portions thereof, and submitted them for the record. Those comments are attached hereto as Exhibit "A".

(1) Letter from Tim Amos read by Ms. Meldrum dated February 11, 1998.
(2) Letter dated February 18, 1998, along with addendum dated February 24, 1998, from Ms. June Lamb
(3) Letter dated February 24, 1998, from Mark Rosenstein, concerned citizen
(4) Letter from Mary Ellen Brown, Ph.D., dated February 24, 1998
(5) Statement from Wally Bowen, representing Citizens for Media Literacy
(6) Statement from Geoffrey Willett, representing Mountain Area Information Network
(7) Letter from Hazel and John Fobes dated February 24, 1998
(8) Statement from Steve Burleson dated February 24, 1998
(9) Information from Margaret Shook, resident on Crowfields Lane, dated February 24, 1998
(10) Letter from Bonnie Pickartz dated February 24, 1998

Mr. Bill Wald urged Council to delay action on these items.

Mr. Charlie Patton, resident of Ballentree, spoke in support of Council moving forward and adopting the documents.

Mr. George Benge, Executive Editor of the Asheville Citizen Times, said that two weeks ago he asked for "your support in obtaining the release to the public of records of franchise fee payments made to the City of Asheville by the City's cable TV provider in exchange for use of the public right of way for broadcast purposes. Unfortunately the response to our request was a resounding and unequivocal 'no' from the City Attorney. Because our request was refused, we have filed suit today to obtain the franchise fee records in order to fully inform the public about all aspects of the Asheville cable TV agreement and records. As I told you two weeks ago, we were desirous of an outcome that did not include litigation. We have attempted to approach this matter in a reasonable and public spirited manner and were hopeful that the City would consider this issue in the same manner. There is no animosity on our part. We simply believe that the public deserves to have this information. We were hopeful that the City would have been willing to work with us and the public to find a way to make the information we requested available to all, not just a select few. However, our attempts to resolve this issue in a spirit of openness and broad access to public records were rebuffed, forcing us to ask the courts to make this decision. I have copies of that lawsuit for members of the Council and for the City's own counsel. If I may give that to the .... (Mr. Benge gave copies to the City Attorney). Finally, on behalf of all members of the public who have a deep interest in seeing complete public records to guide their thinking in this matter, I request Council to postpone any vote on any aspect of the cable TV agreement or agreements until after the court has rendered its decision in our lawsuit."

Ms. Rebecca Campbell urged the City Council to delay until they understand all the ramifications of this and get with some people that are doing public access, like Austin, Texas.

48

Mr. Jerry Rice, County resident, felt that the Citizen-Times newspaper is "not doing their job" in covering several serious issues in Asheville and hoped that something could be done to improve communication. He felt that the cable company should take it upon themselves to give credits when major outages occur, not wait for the subscriber to call.

Ms. Sonya Burleson encouraged City Council to take the advise of City staff and the consultant the City hired that what they have come up with is right for the City of Asheville.

Mr. Jeremy Gibson, Asheville resident, urged Council to think about the amount of profit this one company will make over 17 years and the amount they can pass through to the citizens.

Mr. Hunt Brown, Associate General Counsel in the Corporate Office of InterMedia, spoke about the investment InterMedia is making in the City of Asheville. He talked about the objective survey conducted by an outside group which results were used to try to get a document which was sensitive to the needs and interest of the community.

Upon inquiry of Vice-Mayor Hay on why InterMedia won't make part of the franchise agreement its commitment to put modems into schools, Mr. Brown said that part of the commitment to provide modems to the schools depends upon the kind of deals that InterMedia can get with a manufacturer. That equipment does cost money and to provide it to schools InterMedia has to look at and analyze the needs of this community, because some of that cost could be passed onto subscribers if it is franchise imposed. But in terms of putting that cable modem access in the schools, that is something we want to do in the future and InterMedia is committed to getting accomplished. The basis for not putting it in as part of a franchise agreement is because we want to allow the market to drive us to that. At that point in time, then we can provide that service because it becomes financially possible and is not an over-burden on our subscribers. During the negotiation process, that wasn't what InterMedia understood to be the express needs of the community.

When Vice-Mayor Hay asked if InterMedia was backing away from their firm commitment to put modems in the schools, Mr. Hunt said that he did not wish to detract from any commitments made in the past whatsoever.

Mayor Sitnick asked for a report from Ms. Meldrum in the near future on how the needs assessment study performed by the City compares to the survey that was done by InterMedia.

At the request of Councilman Cloninger, Mr. Brown said that he would be happy to furnish Council with the survey they had performed.

Ms. Cary Bowls urged Council to proceed with adoption of these agreements.

Ms. Stephanie Brigman, resident of the Asheville area, hoped that Council would approve the agreements as they stand now.

Mr. Scott Barber, representative of the North Carolina Alliance for Democracy and representative of the Local Coalition for Campaign Finance Reform, West Asheville resident and owner of an independent video production business, lobbied for good, quality, well staffed, video production facilities at little or no cost to the citizens. He questioned how objective the survey was which was performed for InterMedia. He asked Council to establish a citizen task force that is representative of the community. He felt the charge of the task force should be to evaluate the current agreement, conduct a supplemental needs assessment to address the flaws in the previous study, conduct a thorough and open review of other recent franchises signed both by InterMedia and also by other cable companies, should explore options for mobilizing local financial and other resources that would support and ideally increase the City's bargaining leverage, should explore models for public access around the country, should examine options for the establishment of a representative community based organization to oversee these operations, examine issues related to the I-Net, and should be given at least six months to do this evaluation and come back and make a recommendation.

Ms. Nelda Holder, West Asheville resident, said that from her experience in running a public access station, you are not allowed to show obscenity, libelous material or commercial material.

Mr. Steve Curtis, representative of TCI Media Services, advised Council of some facts about the local origination channel program they running here in Asheville for a couple of the cable operators. He noted that the delay from the November time period to now has cost the City $30,000 in additional franchise fees and if Council delays for another six months it will be up to $100,000 in lost revenue. He said the City could use that revenue for I-net and toward getting the service to more schools. He urged Council to proceed with execution of the documents.

Mayor Sitnick said that while it's true the City is losing money, there was a transition in administration and Council did not feel confident to vote on this kind of complex issue until they were fully informed. Any kind of contract that spans a 17-year timeline deserves as much time to understand it as possible.

Mr. Joe Haight, General Manager of InterMedia Cable, said that "on the Internet access, if in fact we're going to be in the business, then the policy of this company is to provide a modem that would connect to the drop which is already covered in the franchise. We are already wiring the schools, the libraries, and all the other things with a cable outlet. As part of that cable outlet, if we provide Internet service, which puts me in directly competition with that man back there, and other providers of Internet access, then we will provide as a company policy a modem to the schools, and libraries which would allow them to have free access to the Internet. That is the policy of this company. I hope that clears the issue on the Internet access."

Upon inquiry of Vice-Mayor Hay on why they will not put that in the franchise agreement, Mr. Haight said that "because it's not a cable TV thing. It's an Internet access, it's a data thing, that is over and beyond this franchise. This franchise is for cable TV. If we're going to get into telecommunications, are we going to go back and re-do all this? What if I do phone service tomorrow? Am I going to be required also to provide phone service for all the City? Again, this is not a cable TV issue. If the company is going to be involved in data, in Internet access, then as a policy of this company we will provide a modem, which will all the schools access to the Internet. Again, I don't want to be redundant here, but does that explain it? Is there any question about it? It doesn't have anything to do with the I-Net - it has only to do with cable TV and what we would be providing over that single wire, that is already in the schools and the libraries and the fire stations and City Hall."

Mr. Haight said that "the second issue is overbuild of the annexed areas. There is approximately 10 miles of area that was annexed by the City over a long period of time. It didn't happen yesterday, it's over several years. It has to do with Marcus Cable on the east side, it has to do with Charter Cable on the west side. Again, approximately 10 miles of area that already was providing, or already had a cable TV provider when it was annexed. This company, as well as the company prior to this, as well as the company prior to this, chose not to overbuild those existing cable companies. This franchise addresses that. This franchise says that I will provide service to all the citizens of Asheville, whether it be annexed or not. So, in the very near future, fact is had to already completed this I probably would have already had it done, we will be providing cable TV service to those annexed areas that we have previously not served. I hope that clarifies it. Again, there's approximately 10 miles of that."

50

Mr. Haight then went on to note the awards they have received for customer service. He said that they do not owe the City, by law, anything, including delinquent fees. He noted InterMedia (in a year and a half) has invested more in this community than any other company he is aware of. They have over $14 Million invested in this community in providing what their customers ask them for. They have made a concerted effort to settle the franchise fee issue and urged Council to proceed with adoption of the documents.

Councilman Cloninger moved to close the public hearing and continue Council's consideration of the three part package until their next worksession on March 3, 1998, at which time each Council member would have an opportunity to raise issues they feel need to be negotiated further with InterMedia or perhaps vote up or down on the agreement. This motion was seconded by Councilman Tomes.

When Councilwoman Field asked if the public hearing could be re-opened, City Attorney Oast said that it's not a public hearing City Council is required by law to have, so if wnat Council wants to do at their next meeting is take additional public comment, he felt Council was free to do that.

The motion made by Councilman Cloninger and seconded by Councilman Tomes carried unanimously.

Mayor Sitnick then closed the public hearing at 11:05 p.m.

V. UNFINISHED BUSINESS:

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE CITY COUNCIL RETREAT HELD ON FEBRUARY 6, 1998, THE FORMAL MEETING HELD ON FEBRUARY 10, 1998, AND THE WORKSESSION HELD ON FEBRUARY 17, 1998

Councilman Cloninger moved for the adoption of the minutes of the City Council retreat held on February 6, 1998, the formal meeting held on February 10, 1998, and the worksession held on February 17, 1998. This motion was seconded by Councilwoman Field and carried unanimously.

B. COLLECTIVE DIRECTIONAL SIGNS

Councilman Sellers read a letter from Mr. Chris Pelly, President of the Haw Creek Community Association, as follows: "At the entrance to Haw Creek at the intersection of Tunnel and New Haw Creek Roads is a sign listing six churches in the Haw Creek community. This sign, which sits on private property but is in a road right-of-way, is badly in need of painting and renovation. The Haw Creek Community Association (HCCA) has undertaken the task of repairing this sign. HCCA has solicited and received donations from most of the churches listed to help pay for these repairs. In the course of planning these repairs we've learned this sign no longer complies with the sign ordinance. It is the hope of th HCCA that City Council consider and support the enclosed request.

"Haw Creek Community Association respectfully requests City Council direct city Planning staff to draft an ordinance revision for their review addressing church signs in the right-of-way. Specifically, the provision would allow larger church signs in right-of-ways when such signs contain more than one church listing or directional. We believe this type sign, rather than several individual signs, will be more attractive to our community."

Councilwoman Field said that the issue of flag lots needs to be revisited by Council as well.

Councilman Tomes urged Council to be sensitive when dealing with individual kinds of personalities or congregations. He felt there did not need to be a hasty resolve stressing again that Council needs to be sensitive as it relates to the various faith community.

It was the consensus of City Council to put these items on the next worksession agenda for discussion when Planning staff is present.

C. LAWSUITS

The City was served with the following lawsuit on January 9, 1998: Helen Waneski v. City of Asheville - negligence concerning unpainted seven-inch high curb. This matter will be handled by an attorney outside of the City Attorney's Office and recommends that it be handled through Asheville Claims Corporation.

The City was served with the following lawsuit on January 9, 1998: Alma Jean Bowman v. City of Asheville - negligence arising from uncovered water meter box and broken curb. This matter will be handled by an attorney outside of the City Attorney's Office and recommends that it be handled through Asheville Claims Corporation.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 11:12 p.m.

FEB 12 199

CITY ATTORNEY

MEMORANDUM

To: Mr. Jim Westbrook, City Manager
City of Asheville

From: Timothy F. Amos, Assistant Superintendent Jim

Date: February 11, 1998

Subject: **Follow-Up to Comments at Cable TV Meeting**

Jim, this is a written follow-up to my comments at the cable TV meeting last night.

First, thank you for all your efforts to get the best deal possible on behalf of the school system. We do hope it will be possible to extend the institutional network to all nine (9) of our schools, plus the School Board's Administrative Offices. If we only get two connections, as is currently proposed, then our priorities would be (1) the Administrative Offices (85 Mountain Street) and (2) Asheville High School. These are the two sites with the highest amount of telephone and data traffic, plus it is more likely that we would want to originate cable TV programming from these two sites than from any others.

Also, since we use advertising (national and local commercial spots) to support our video productions, I would like additional clarification as to what specifically is allowed and not allowed by federal regulations on PEG channels. Any information on this would be appreciated.

Please let us know if you need any additional information from us and please notify us of any changes in the proposed contract, particularly as it related to schools. If the Council elects to extend the process and appoints a committee to further study this issue, we would like to be represented if it is appropriate.

Thank you.

cc: Dr. Karen Campbell, Superintendent

TIMOTHY F. AMOS, MBA, CPA
Assistant Superintendent for Business & Support Services

February 18, 1998 ✓
To: Mayor L. Sitnick, Council Members, City Manager
From: June Lamb, 16 Carrier St., Asheville, Ph. 252-3077

Please vote to delay Franchise Agreement with Intermedia for a minimum of six months in order to allow time for a subscriber (market-type) survey; to establish a special commission to arbitrate between City Manager's office and Intermedia; and to do the subscriber survey with focus on program quality and quantity.

At present the ordinance does not indicate any provision by the City for an ombudsman-type office to arbitrate disputes on behalf of the subscriber. (See section related to subscriber in the ordinance.) When I asked Attorney Meldrum if I could (have the right to) ask Intermedia to show me results of their last survey regarding program preferences, she replied, "No." When I inquired of Mr. Clonninger about the possibility of subscriber input for programming he replied, "We cannot dictate to the company."

Inquiries were made to Intermedia by another subscriber about the results of the last programming survey. The inquirer was told that the results were not in the local office--i.e., not available.

I asked Attorney Meldrum for a copy of the FCC regulations regarding subscribers used in drawing up the ordinance. I was told that was material used two years ago and that she would have to look for it. I received no response to a follow-up call on Feb. 17.

My conclusion is that under the negotiating process which has been going on for four years under Mr. Westbrook's management there has been no intention of including subscriber (consumer) protection--unless requested by City Council.

Quite frankly, it appears to be another money-making "scheme" for the City: big business versus consumer (tax payer).

The argument by Attorney Oast that "This is a tax," not a fee, is ludicrous. The language in the ordinance seems to use "tax" and "fee" words frequently. On my cable bill the charges are identified as Expanded Basic (service), Local usage fee, and Regulatory fee. Is that a tax? If so, who gets it?

While, hopefully, you go back to the drawing board, I am discontinuing my Intermedia cable and buying into DDS equipment available at Circuit City. For the same $30/month I will be receiving the channels I prefer out of a selection of 50 channels. I will subscribe to a monthly DDS viewing guide at a cost of 77¢/week and will not need to buy the Sunday newspaper at $1.50 in order to have the TV guide. The franchise does not pay the newspaper to publish the TV guide.

Feb 24, 1998
Addendum to Feb 18 statement
City council and City manager
June Lamb - 252-3097

On further review of information regarding the proposed Franchise agreement being put forward by the City manager, I note that he has spent $105,000 for a Legal Consultant, and has prepared a settlement of $150,000 to be paid to the City. In return the City would relinquish claims on past uncollected franchise fees, which are reported as about $528,000. A ludicrous no gainer.

I earlier referred to the franchise deal as a money making 'scheme', but now I am seeing it as another boondoggle. It is not unlike the City managers proposal for the City to buy the French Broad Golf Course (a loosing business) in order to make money for the City.

Statement to Asheville City Council regarding the proposed cable franchise agreement.

Mark Rosenstein
20 Wall Street
Asheville, North Carolina 28801

Madam Mayor, Members of Council:

I am speaking as a concerned citizen, a business owner of 19 years and a community volunteer.

There are important issues that need to be underscored regarding this proposed agreement.

- Unlike any other utility, a cable company, operating in the public right-of-way is granted a unique privilege to enter our homes, schools and businesses. The privilege they are granted is to provide information, news and entertainment at profit to themselves.
- We are in an information age. It is clear and obvious that our future is intimately linked to the acquisition, processing, exchange and sale of information.
- The privilege you will grant with this agreement will go far beyond the mere delivery of entertaining TV images. You will grant the ability of a private company to interface at the most intimate level with our community. This company, with its technological advantage of fiber optics and digital technology, will be able to provide commerce, information, telephone, TV, and digital services. You will be granting a competitive advantage to one business, the cable industry.
- This agreement grants the privilege to decide the type of information, images, and unconscious influences on a private company, without any public input.
- Intermedia have publicly stated it intends to extend its business beyond analog television images. It plans to provide digital services and to link it's own cable network with those of other cable companies.
- It is a fact that our community, like every other community in this nation, has ever increasing demands on its people, it's resources and it's spiritual and cultural identity.
- It is a fact that our community has already emphatically stated the need for education, training and exchange of information.
- It is a fact that every community, every major industry, every government agency is trying to wire itself, in preparation for the future.

Council has been reviewing this proposal for two months. Many complex and often conflicting issues have been discussed. Fortunately, this discussion has been taking place. But, this discussion has been by no means complete.

Under separate cover, I have reviewed the information presented by the City, the City's consultant and by Intermedia, as it relates to the questions I raised in November and January. There are still major issues not answered. The term of the contract, up stream capacity, modems for the schools, state of the art, PEG organization and funding, legal fees to audit the cable company, rate control, senior citizen discounts, prorating capital expenses for other services the cable operator will be providing outside the franchise. All these issues still remain unresolved.

My hope is that this discussion will allow the City to obtain a stronger contract for the subscriber and the City. I appreciate the time all of you have taken to listen to these issues and concerns.

You have asked the question, If there are flaws with this agreement, what is a better solution.

I am prepared to answer it in this fashion.

I suggest that a six month delay be imposed any action. The council should appoint a task force to review and discuss these unresolved issues.

The task force should include representatives from those community organizations originally assessed, members of Council, a cable representative and at large members.

The real issue is what is the best way to use this important technological tool to do the most good for our community. Of all changes affecting our lives, the digital information age is shaping a future that none of us can predict, but we all know it is going to big, very big. It is worth taking a carefully considered decision. This cable franchise is not just "another revenue stream", it has become one of the fundamental ways in which we think and come to believe.

February 22, 1998

On January 15, 1998, I submitted a letter to Council with 20 questions regarding the renewal of the cable franchise. Over the past 6 weeks, most of these issues have been discussed.

During that time, I have also heard the question asked, if this agreement isn't as good as it should be, what is better.

- COMMUNITY NEEDS ASSESSMENT

  22 of 26 organizations responded. Of those that did, there is an overwhelming need for cable access and funding. Jean Rice confirms that those indications would be true today.

  The report also underscores inadequate funding for equipment, training and operations.

  The current proposal provides $17,000.00 a year for PEG, which can be passed through to the subscriber.

- ORDINANCE REGULATING CABLE SERVICE PROVIDERS

  A new definition of gross revenues has been proposed. The issue is to insure that all services are subject to the 5% franchise fee.

  According to both Jean Rice and Joe Haight, all services, including Internet, telephone and all other electronic services will be subject to this fee.

- TERM OF CONTRACT

  A seventeen-year term is proposed. Testimony has indicated that the industry average is shorter. Other recent renewals have been longer, such as Chapel Hill.

  The unanswered issue is will this contract provide the best service for the community, and is it flexible enough to allow for expanded service as well as control of cost over the lifetime of the contract.

  If such a lengthy franchise is granted, will the cable provider address the long-term issues of access in manner more favorable to the community?

- SYSTEM AND CAPACITY

  The cable company has opted to build a 550 MHz cable system, after agreeing to construct a 750 MHz system.

  The cable company has announced plans to expand their services. They have also indicated that their system is flexible enough to meet demands for expanded capacity and have build into their system additional fiber. Expansion can be localized instead of system wide.

  Jean Rice has stated that the "up stream" capacity of the system is an important issue and that this will be activated under the current proposal.

  With cable modems, the cable company is planning to provide digital services this year.

- CABLE DROPS AND CABLE MODEMS FOR SCHOOLS

The cable company has stated in public that they will provide a cable modem capable of 8 connections to all the schools.

This provision is not in the contract.

Considering the history of this negotiation, if it is not in the contract, the City is at risk.

Is one cable modem per school sufficient to meet the needs of the schools?

- STATE OF THE ART

The state of the art clause requires six conditions to be met. Jean Rice has stated that many contracts do not contain any language on the state of the art. Jim Westbrook has stated that this language will not restrict the community in the future and that the other benchmark communities will provide a fair comparison.

State of the Art should reflect the needs and the market demands of our community.

The proposed agreement says the Council "may" hold a public hearing. The agreement should say the Council "will" hold a public hearing.

Binding arbitration might be a better way to resolve conflicts.

- PUBLIC, EDUCATIONAL AND GOVERNMENT ACCESS CHANNELS

The City has the authority to control or assign the control of these channels.

Joe Haight has stated that he is not interested in running the channels. He has stated that a non-profit 501-©3 organization is the appropriate vehicle.

It is clear from the Community Needs Assessment of 1995; sufficient funding does not exist.

Steve Burleson prepared an outline of operational needs for an access channel. He states an annual need of $111,380.00. He also includes a figure of $36,000.00 per year for "cable contribution". Is the cable company providing a contribution of $36,000.00 per year in this contract?

Other communities have access support from the cable operator and the City. Is there a provision for funding from the City?

- INSTITUTIONAL NETWORK

The City has negotiated a fiber optic network for it's own purposes.

The cable operator is going to build the fiber system at below market cost and absorb 40% of the cost. Is the remaining cost going to be passed through to the subscriber? Is this a tax?

Ownership of the system remains with the cable operator. The fiber is bundled with other cable company fibers, making separation of the two not possible. Are there other options for inter-connectivity for the City?

- SETTLEMENT OF FRANCHISE FEES

After review of all the options, 5% vs. 6% fees, 3 years vs. 10 years of review, legal costs and so forth, shouldn't the City also collect the cost of the audit?

- IF IT IS NOT IN THE CONTRACT, IT PROBABLY WON'T HAPPEN

Based on the past history and the difficulties the City has faced with the current negotiations, it seems unlikely that if it isn't written in the contract, the likelihood of those of items outside the contract happening is at risk.

All elements, modems, grants, discounts, etc. should be written into the agreement.

- RATE CONTROL

What about Senior Citizen Discounts?

Late fee for subscribers should be a percentage of the unpaid amount, as are similar fees for other utilities.

Intermedia has announced plans to provide other types of services, such as Internet connectivity and connecting to other cable systems. Shouldn't these other services bear a prorated share of the capital investment? If so, shouldn't this reduce the fees for cable services?

There is an anti-trust statute prohibiting the linking of having to purchase one service in order to receive another. Does this law apply to services and programming for a cable franchise?

- PUBLIC, EDUCATIONAL AND GOVERNMENT ACCESS

The community needs assessment of 1995 clearly indicates a need and interest on the part of 22 key community organizations.

The fact that the City negotiated an Institutional Network for it's own needs, underscores the importance of this accessibility.

Even though the rules governing what is required of a cable company have changed, this does not alter the fact that the cable company is in a very unique position to influence the quality of life in our community. As well, the cable company is in a position to make great profit through the use of public right of way.

Funding for community accesses should be based on a combination of grants from the cable franchisee, City, public grants & underwriting and volunteer contributions.

- VISION

Cable access can be a vital component of our community. The need for training, education, local culture and public information is clear.

Every community is different. Some communities have used cable access successfully for many years. Our community has not even looked at the possibilities.

The first step is to appoint a task force to initiate a community dialogue. A six-month period is reasonable. Most communities organize a 501-©3 corporation for the operation of local access.

Seed money and a funding mechanism need to be reviewed. Funding should be realistic and reflect the actual community interest and need.

Council needs to support and direct these efforts, leading to a long-range vision.

- SOLUTION

Delay any action on this contract.

Appoint a task force, 6 month time period.

Establish a 501-©3 corporation.

Funding mechanism: grants from franchisee, City budget, public underwriting, volunteer contributions.

Mark Rosenstein
20 Wall Street
Asheville, North Carolina 28801

Monday, February 09, 1998

Thank you, for the opportunity to express the views of the Public Access Coalition. We appreciate the time and effort taken to organize this public meeting.

First, I would like to make a few comments, then offer our suggestions and finally ask the panel a few questions.

The discussion we are having this evening is one about the impact and management of technology on our community. It might be similar to one held thousands of years ago when metal technology began to replace stone technology, or when oil safety lamps began to replace candles and animal fat lanterns. Of more significance are the impact of electromagnetic phenomena and the Telecommunications Act of 1934.

Before that congressional act, this country was populated with thousands of local radio stations, essentially commercial free, broadcasting an uncensored message to communities like our own. Those act in 1934 virtually ended local content and access to free speech over those public airways. Our current technological revolution, becoming digital and wired, now presents a similar situation.

What does this have to do with the renewal of a local cable franchise?

We are at a confluence of many forces. The opportunity to openly express individual views and opinions, the opportunity to fund community growth, the opportunity for a private company to make great profit through the use of a public right-of-way and the opportunity to educate our children. Wired and digital technology is not the panacea for our needs; instead it is a tool to be used constructively.

What do we believe?

- We believe that the healthiest community is one where free and open access to information is the community standard.
- We believe that the exchange of information should be free of censorship and protected by First Amendment rights.
- We believe total community involvement is superior to any other form of decision making.
- We believe that granting a private company the right to make profit through the use of the public right-of-way entitles the City and the Citizen to a fair return on their investment in that right-of-way.
- We believe that return should take at least two forms. First, through monetary payment to the City on all activities that takes place in that right-of-way. Second, through direct support of public access, in the form of direct grant, in-kind contribution, and other appropriate means.
- We believe that a wired community will benefit our children's education. It is essential that these new tools be incorporated into our educational system, from top to bottom.

Beyond the needs of the community, there is another reason we are standing here. Cable companies are in a tremendously powerful position. They are also in a very unique position. While not granted a monopoly like most essential utilities, in our community, one must consider this franchise a monopoly. The monopoly that this franchise grants is the delivery of ideas and information.

It is our obligation as citizens and parents to seek ways to provide our children with ideas and images that are positive and constructive. We would argue that the availability of quality programming for our children has all but disappeared. We would argue that the violent nature of much of the programming is destructive. This community must command part of the power of this franchise for our children and their future.

I will refer you to the comments of former FCC Chairmen Reed Hundt, which is provided as part of our package to you.

Before I end these opening comments, I have two final thoughts. First, Henry James wrote, "Civilization begins at home". This cable franchise IS our home. It sits in our living rooms, at our kitchen table and in our bedrooms everyday. This community must have a daily hand in providing an alternative and an addition to those ideas and images.

My second thought comes from Rene Dubois. Dubois discovered the first anti-biotic, which was eventually over shadowed by penicillin, but more importantly, is recognized as a founder of the modern ecological movement. He said, " Think globally, act locally". It is from this thought, which we would like to spring to the second part of our comments. What are other communities doing, what should we do.

Public access is a viable, important piece of many communities around the nation.

Section 611 of the Communications Act of 1994 provides for the following channels:

- Public access channels available for the use of the general public
- Educational access channels for the use of educational institutions for educational programming
- Governmental access channels for the use of programming by local governmental officials

This right is granted to the local franchising authority to exercise in its requirements of the cable operator.

Over the past two months, we have held public meetings and private conversations with the City Council, the City Manager, the City attorney's office and many members of the public. We have tried to highlight our concerns about the proposed franchise. We believe that these concerns have been heard, and are the main reason this meeting is being held tonight. We are grateful for this dialog.

We have also been asked to propose a solution. That is a fair question. Taking Rene Dubois' advice, we have been seeking globally for local answers. In our packet of information, we have provided some examples of the agreements from other communities.

First, we would like to refer to the Community Needs Assessment for the City of Asheville, prepared in October 1995 by Rice, Williams Associates.

- 86% of the respondents said "Goals could be improved by obtaining, producing and distributing programming over the cable access channels
- 82% already have staff available to take training and have already identified those individuals in anticipation of such training
- 77% indicated a need to have access to video production equipment
- 94.7% said "YES" to educational and information programs
- 63.2% said "YES" to meetings and public hearings
- 78% said they were interested in a community BB
- 64% said they were interested in cable delivered in-service training

The conclusion of that assessment states, " IF EXPANDED UTILIZATION OF THE CABLE SYSTEM IS TO BE ACHIEVED...(they) WOULD NEED RESOURCES AVAILABLE TO THEM BEYOND THOSE THAT THEY ALREADY POSSESS."

Second, we suggest that a task force be appointed to review and recommend additions and amendments to proposed cable franchise agreement, especially in it's application to PEG access.

At this juncture in the discussion, it is impossible to intelligently comment on the full scope of a public access station. In many communities, initial funding exceeds one million dollars. In other communities, the annual budget is sixty thousand dollars. This community is somewhere in-between, but where, we don't know.

There is a demonstrated need for this task force. We recommend a definite time frame and immediate formation of this group.

We have submitted a version of a Mission Statement. It is freely borrowed from the City of Greensboro. It is similar in scope to the nearly 2,500 other access stations around the country. From what we have learned from these other organizations, our cable franchise contract should include these recommendations:

- Public Access is managed by a 501-c3 non-profit organization. Initially the board should be appointed from a representative cross-section of the community.
- Programming be protected by the First Amendment and that the Franchisee not exercise any editorial control over programming, except as permitted by federal law.
- Funding come in part from a grant provided by the franchisee. This grant should not be considered part of the franchise fee nor should it be considered an external cost, passed through to the subscriber.
- Volunteer efforts be recognized as "in-kind" contribution and be part of the funding scheme.
- The 501-c3 seeks community grants as part of the funding scheme.
- The City provides on-going funding for operations.
- PEG access be part of the basic tier of cable service
- Interconnectivity to all the schools be provided and that it be clearly spelled out in the contract

We also believe that the process of building an access station is organic in nature. We must match our needs with our assets, we must build a unified, community supported organization. Most importantly, we must provide the community with leadership in this building process. Over two years ago, the needs were identified, and certainly not all the needs. It is not a question of should we; it is a question of what is the best way and how?

Presentation to the City Council of the City of Asheville, February 24, 1998

by
Mary Ellen Brown, Ph.D.
124 Montford Avenue
Asheville, North Carolina 28801
704/252-5709
mebrown1@mindspring.com

Mayor Sitnick and City Council Members:

I come before you tonight to request that the City Council delay the approval of the proposed new cable television franchise ordinance, the franchise itself and the City's settlement agreement with InterMedia for about 6 months. I request that the Council appoint a task force composed of citizens from all aspects of the community to provide community input in a systematic and organized way on the pending cable television agreement. After all, if we are going to enter into an agreement for 17 years, we should be absolutely sure we are getting what we want for our community.

I'm a relatively new member of the Asheville community. I have a Ph.D. in mass communication and I have worked in all aspects of television production including cable television franchising. In the early 1980s when the top 100 television markets were released for franchising, my job was to write that part of the franchise which covered public, educational, and government access for the cities we were franchising. Naturally, when the Asheville cable television franchise was released to the public in late November, I took great interest in what would be available to the community through this agreement.

The proposed new franchise, as it stands, does not offer the public all that I would like to see offered. However, we, as citizens of the community, along with the City Council and it's staff, have a wonderful opportunity to work together to sculpt the agreement to the community's needs.

One member of the Council has said to me that no one in the community has stepped forth in the past to say that public access is important enough that they will volunteer to help guide such an entity to fruition in this community. However, the group of people who have come together out of an interest in seeing the community enriched by PEG access, in just the short time between November and now, has shown the civic mindedness and dedication to make such a possibility happen.

Well, you may say, in the 1980s many cities were getting elaborate franchise packages, but this is now. However, I happened to be in Greensboro, North Carolina the other weekend. I went by their public access facility, which has been in operation a year and a half, and I was amazed at what they were doing. I was so impressed that I subsequently obtained a copy of their franchise proposal to find that their franchise required the franchisee to adequately fund access equipment and salaries for staff to such an extent that their access channels are guaranteed success, just as ours, I'm afraid, are guaranteed failure because of inadequate funding.

Here's a comparison:

Greensboro Community Television Funding

Access
Start-up Equipment
$750,000*
Staff & Operating:

Year 1	$125,000 (100,000*)
Year 2	$175,000 (100,000*)
Year 3	$175,000 (100,000*)
Year 4-15	$125,000 (100,000*)

*Grant i.e. As stated in the franchise these moneys
1) will be increased quarterly for inflation
2) will not be deducted from the franchise fee
3) will not be treated as an external cost pursuant to FCC rules (that is, this expense will **not** be passed on to the subscriber)

There is more, but these are the basics.

Asheville Community Television Funding

Start Up equipment

Year 1/2	$50,000 (or their old equipment)
Year 1	$50,000
Year 1 & 1/2	$50,000

Year 2		$50,000
Years	2 through 7	0
Years	8 through 17	$36,000 per year

Staff & Operating: 0

As one letter to the editor in the *Mountain Express* said, "Thirty-six thousand dollars won't even pay the utilities bills!"

In North Carolina, cities as large as Raleigh and towns as small as Greenville have successful public, educational and government access facilities in their communities.

Between the Community Needs Assessment done by the City and the informal survey we have done, we have heard from A-B Tech's Distance Learning, theater educators, filmmakers, health educators, Thoms Rehab., St. Joseph's Hospital, the Council of Independent Business Owners, the Chamber of Commerce, the Central Labor Council, Memorial Mission Hospital, Pack Place, Pack Library, Shaw University, Cecil's College, UNC-Asheville, the Civic Center, the Arts Alliance, HandMade in America, and the Optimist Club. All are enthusiastic about contributing to the success of cable television access in this community.

As HandMade in America's representative said:

> Perhaps the best use of PEG access would be to develop a sense of community...

or as put by the representative of the Optimist Club:

> Don't believe the public has no interest.
> Don't believe we cannot learn to use these resources.
> As our forefathers did over two hundred years ago, empower the citizens to use the available resources to create and re-create democracy...."

Thank you for your attention and, hopefully, for your support in giving the citizens of Asheville the time and the venue to make wise community decisions about this matter.

Wally Bowen

67

Thank you for this opportunity. My name is Wally Bowen and I am representing Citizens for Media Literacy, an Asheville-based nonprofit organization founded in 1991. CML has two primary goals: to promote critical thinking about media and advertising, especially in the K-12 age groups; and to promote the principles and practices of citizenship and civic participation by empowering citizen speech and citizen access to the media.

This second goal of citizen access to the media is especially critical in today's media environment, which is increasingly dominated by a handful of media companies more focused on global marketing schemes than on providing local news and information. In this new media world, our children know more about Michael Jordan and Cindy Crawford than they do about home-grown, local heroes and role models.

This loss of local content has been well-documented by media scholars. We can see it right here in our own community. Twenty years ago, for example, nearly every radio station in the greater Asheville area had a local news department. Today, only one radio station -- WWNC -- has a local news staff. The other stations either take a national news feed from Washington or New York, or they "rip and read" from wire services such as Associated Press or UPI. Local news has virtually disappeared on local radio.

This is very unhealthy for our community for two reasons: one, it radically decreases the number and variety of voices heard in our public conversation, while relegating the vast majority of citizens to the status of passive spectators; and second, it allows one or two media voices to dominate the public dialogue and to shape the public agenda. This state of affairs is completely at odds with constitutional democracy in general, and with the First Amendment in particular.

The necessity of citizen speech and multiple points of view is reflected in a comment from Justice Hugo Black, who noted that "The First Amendment rests on the assumption tha the widest possible dissemination of information from diverse and antagonistic sources is essential to the welfare of the public."

Likewise, Justice Louis Brandeis noted that "Those who won our independence believed that the greatest menace to freedom is an inert people; that public discussion is a political duty; and that this should be a fundamental principle of the American government."

And historian Christopher Lasch, commenting in 1990 about the reduction of citizens to passive spectators, said "What democracy requires is public debate, not information . . . It is only by subjecting our preferences and projects to the test of debate that we come to understand what we know and what we still need to learn. Until we have to defend our opinions in public, they remain opinions . . . half-formed convictions based on random impressions and unexamined assumptions."

By looking to our democratic heritage, we know that citizen speech and civic participation are vital ingredients in creating and maintaining a healthy civic life and democratic community. And this is not just some academic, ivory-tower talk.

Four years ago, the Kettering Foundation conducted a major study entitled "Citizens and Politics: A View from Main Street America." This study was based on extensive, in-depth surveys and focus group discussions with average citizens across America. The study found that:

* "Citizens think many avenues for expressing their views are window dressings, not serious attempts to hear the public.

* "Citizens want more than 'clean' public officials. They want an ongoing relationship, especially in between elections, in which there is 'straight talk' and give-and-take between public officials and citizens.

* "Civic duty is alive and well, but dormant. It is waiting to be tapped; only the right political conditions must first exist."

Indeed, it seems self-evident that citizens have a deep hunger and need to have their voices heard. The popularity of call-in programs such as those found on C-SPAN, or the incredible explosion of talk radio programs, are powerful examples of citizens' need to be heard. In short, our traditions of self-government -- as well as contemporary evidence -- underscore a vital need for more citizen access to the media. We hope Council will not let a self-serving phone survey conducted by the cable company convince you otherwise.

In fact, we may pay a very high price by ignoring or downplaying the need for public access. The "Citizen and Politics" study mentioned a moment ago found that citizens' desire to be included in the public dialogue and the political process can quickly turn to cynicism and hostility when they feel their voices are heard only at election time. When citizens feel shut out of the public conversation, the Kettering study concluded, their suspicion and contempt for politicians and public officials grows dramatically. Therefore, we urge you to consider strong financial support for public access as an important investment in good government and a healthy civic life for our community.

The background I just covered explains why in 1991 Citizens for Media Literacy dusted off the 1967 cable agreement and launched our first task force to promote public access via cable TV. Over the last six years, we have researched how public access works, we have visited successful access operations in other communities, we have published articles in local media, held several community meetings, and we have spoken before council and the city school board.

And in 1992, we helped the town of Black Mountain -- at the request of CML board member Gaye Fox -- negotiate for public access channels. But it was a hollow victory. Because the Black Mountain Town Council did not press for adequate funding for public access, the channel never materialized. Today, the town government can truthfully say it successfully negotiated for public access channels; but, in reality, it's only words on paper.

Citizens for Media Literacy is deeply concerned that the City of Asheville may settle for a similar hollow victory in this proposed franchise. Anyone who has looked at the costs of a viable public access operation knows that $150,000 over two years for public access -- with additional funding of $36,000 a year beginning in the year 2007 -- is grossly inadequate.

Morever, we believe that most -- if not all -- of the $150,000 set aside for public access will be used for the government access channel. The city manager has said the allocation of this money is a policy decision for the city council. If I were sitting where you are, I would ensure that programming on the government access channel -- such as council meetings, public hearings, and public information campaigns such as the Big Flush -- gets first priority. $150,000 spread out over two years is not much. This money will be quickly consumed by the needs of the government access channel. If this reasoning is accurate, it's clear that there is no money in this agreement for true public access -- that is, programming produced by average citizens or nonprofit social and cultural organizations. The way I read it, this agreement is nothing less than a death sentence for public access.

This would be a tragedy of historic proportions, because I can't imagine a community more ready for public access than Asheville. At this moment in our history, Asheville has all the ingredients -- except funding -- for a first-rate public access operation. We have a wealth of talented and articulate local citizens -- artists and craftspeople, poets and entrepreneurs, young people and retirees, health educators and early childhood specialists, gardeners and nursery experts, auto mechanics and computers fanatics, as well as nonprofit agencies of all stripes -- all with important and interesting stories to tell.

In addition, we have a growing community of local film and video professionals who are already making important contributions to the local economy, but could always use more work in between major film and video productions. And we have media arts students in the city schools who need internships and other career development opportunities. But the handful of internships now available at WLOS are woefully inadequate for the number of available students.

In short, we have loads of local talent, and, in addition, we have empty studio spaces designed for video production at both Pack Place and at Asheville-Buncombe Community College. We have all the ingredients except adequate funding.

Now the cable company would have us believe that federal law mandates that any financial support for public access must be passed on to subscribers. This is not true. The pass-through of public access funding is completely negotiable. But we have a very unique opportunity here in Asheville. We have a ready-made trust fund for public access -- if we want it -- that would eliminate any need to pass costs on to subscribers. That trust fund can be found in the hundreds of thousands of dollars of unpaid franchise fees owed the city by Intermedia. But Intermedia says they've only been in town two or three years, and therefore they shouldn't be responsible for what other companies did in the past.

Unless the rules of business have been repealed, when you buy a company, you buy not only their assets -- you also buy their liabilities. If you take the four-year estimate of unpaid franchise fees calculated by the city's consultant, Jean Rice -- which total $528,000 -- and average it out over the last 10 years, you come up with a figure well over $1 million. If we go after the money that's owed us, we can fund a first-class public access operation without adding a nickle to subscribers' rates.

I urge the council to consider giving Intermedia a 30-day notice to come back with a substantially higher offer to settle their franchise fee delinquency. If they don't, then let's hire some attorneys on contingency and take them to court, or open formal negotiations in 1999 when the option of denying the franchise is real.

I would like to make one final observation about public access. A few years ago, Citizens for Media Literacy brought George Gerbner to Asheville to speak at Pack Place. Dr. Gerbner is dean emeritus of the Annenberg School for Communications at the University of Pennsylvania. In his talk, which was broadcast on public radio, Dr. Gerbner described how -- for the first time in human history -- the stories that shape the dreams and aspirations of our children are no longer told by parents and grandparents, ministers and teachers, and other community role models.

Instead, the stories that shape our children's view of reality are told by a handful of media conglomerates with something to sell rather than something to tell.

As the father of an 11-year old son at Claxton Elementary, and as the coach of a YMCA youth basketball team, I know very well what Dr. Gerbner is talking about. I see it everyday. The authority figures our children look up to are sports heroes and Hollywood celebrities.

Parent and teachers I talk to see it as well. They see the self-esteem of otherwise healthy young girls plummet as they struggle to achieve the impossible dream of Hollywood thinness and sex appeal. They see young boys neglect their studies and flaunt the rules because they are convinced they will become the next Michael Jordan or Dennis Rodman.

And when the obvious paths to stardom and notoriety are ultimately closed to these youngsters as they grow up, the more cynical and maladjusted turn to other avenues of notoriety, as we have seen in the lives and criminal behavior of people like Timothy McVeigh or Theodore Kaczinski.

It is time for the children of Asheville to see that you don't have to jump like Michael Jordan or look like Cindy Crawford to be recognized as a valuable member of society. One of the greatest benefits of a well-funded public access operation is that our children get to see real people -- people they know -- doing real things. They get to see local role models and local heroes instead of an uninterrupted diet of shallow, self-absorbed celebrities concocted by Hollywood marketing machines.

Now Intermedia claims to know what kind of programming our community wants and needs. Please remember that this is the same company that two years ago pulled the plug on the Lifetime channel -- a favorite among women viewers locally -- and replaced it with professional wrestling and "shock talk" shows like Jerry Springer and Montel Williams.

There are many other problems with the proposed contract:

* a 17-year term that is much too long for the fast-changing world of telecommunications
* a "state of the art" clause that, to be activated, requires the city to find an Intermedia franchise in the Carolinas or Georgia that is a virtual clone of Asheville
* Intermedia's refusal to write into the contract their promise of free Internet access to schools and libraries

* no mention of eliminating or reducing the $5 late fee, which hits low-income families the hardest
* no mention of senior citizens discounts
* and a performance penalty of only $100 a day, which led a cable expert we consulted to exclaim, "This contract has no teeth in it!"

In closing, we respectfully ask City Council to re-open negotiations with Intermedia for the remainder of 1998 -- and to appoint a citizens task force to assist with the process -- with the hope that an agreement can be reached this year. If no agreement is forthcoming, then the city will be well-prepared to open formal negotiations in 1999. Thank you.

73

The Board of Directors of the Mountain Area Information Network (MAIN) appreciates this opportunity to address City Council on its negotiations of a new cable TV franchise agreement. MAIN is a non-profit community network which provides dial-up access to the Internet to more than 700 residents of Asheville and Buncombe County, and more than 2,000 residents of WNC.

MAIN also provides Internet access to countless other citizens via our free public access terminals in libraries and community centers. For many low-income citizens, MAIN is the only affordable means of using the power of the Internet. In the greater Asheville area, MAIN provides free Internet access at six public access terminals in the Asheville-Buncombe Library System.

In addition, with a recent grant from the Governor's Smart Start Initiative, MAIN is placing 16 public access terminals in community and family resource centers in Asheville and Buncombe County to provide Internet access to low-income neighborhoods. In cooperation with Community Resource Network, United Way's First Call for the Help and the Buncombe County Child Development Center, this project will include an online childcare referral service for low-income parents.

With its strong emphasis on public access, MAIN is very encouraged to learn that many communities nationwide have used cable franchise negotiations to secure free, high-speed Internet access via cable modems for local schools, libraries and community centers. This benefit could save thousands of taxpayer dollars while providing a powerful educational and community development tool.

Public-access sites linked by cable modems to the Internet would also provide a very direct benefit for city government. In cooperation with the City Planning Department, MAIN will soon make city zoning maps available over the Internet. This community service will benefit citizens, while lessening the burden on city staff handling routine requests for zoning information.

But delivering maps over the Internet can be a very slow process using a standard telephone line connection. With cable modem connections, however, citizens can quickly access and examine city zoning maps and other public information based in Geographic Information Systems, better known as GIS.

The Board of Directors of the Mountain Area Information Network is pleased to support the Asheville City Council in its negotiation of a new cable TV franchise, and we appreciate this opportunity to place, in the public record, comments on how a new cable franchise would benefit our community network and our partner libraries and community centers. END

February 24, 1998
City Council Meeting

TO:
The Mayor and Members of the City Council

FROM: Hazel and John Fobes

SUBJECT: Cable Franchise Agreement/ Intermedia

Don't make the decision today. Get more views of the public. Study these.

Do not make an agreement for 15-17 years. When agreement is finalized make it for shorter period, as seven years.

There will be radical changes in technological development
and
possible corporate structure

Statement For The Public Hearing On February 24th. 1998

Reference::	Cable Television Franchise
Topic:	Renewal Of Contract To Operate A Cable Television System Utilizing City Easements.
Proposed Resolve:	Establish Certain Canons That Would Embody Essential Contractional Points In Serving The Public's Interest As It Relates To A Mutually Beneficial Cable Franchise.
To:	Honorable Madam Mayor Leni Sitnick. Esteemed City Council. Concerned Citizens.

After having attended several meetings on the issue of Cable Franchise Renewal I have come to the understanding that the more we talk the more we need to resolve this open issue.

Here are a few of the reasons why:

- The opportunity for Access to Individual Cable Channels for government, education and public programming is not available in the 1967 agreement.
- The revenues due the City are ambiguously spelled out in the 1967 agreement.
- The technical responsibilities of the Cable Company to the City for their use of public easements is years behind in the 1967 agreement.
- The technical requirements for cable system upgrade were lacking in the 1967 agreement.
- There is little to nothing in the 1967 agreement regarding the Cable Company's responsibility to make available to the City and/or Public technological enhancements such as the Institutional Network.

These points and others are the encouragement needed to resolve this issue and now is the proper time.

This past November the citizens of Asheville went to the polls and made their confidence clear as to who they wanted to contract with in the service of this City.

You are their choice of confidence. Your exhaustive approach to become well informed in this matter is part of the proof that their confidence was well placed. However the remainder of the proof of the citizens well placed confidence lies in your resolve in this ill fitted 1967 Cable Agreement.

I heard the cry of procrastination from the ousted member of City Council and realized that in part that is why he no longer is in the service of the City.

For Asheville to stay on the cutting edge of recruitment of industry and business we need a Government that takes charge and makes decisions. The citizens by their vote of confidence has declared you that government sounding a clear NO to 'put off style governing'.

Although my interest is in the entirety of the Cable Franchise Agreement, my contribution of information will have to be restricted to the area I have expertise in.

That area being; Public Access Channels on Cable.

The proposed P.E.G. Cable Access Channels offers a wonderful and exciting opportunities for the Citizens of Asheville. Use of these channels can develop a highway of information and entertainment to and from the Citizens by and about the Citizens.

City Government can become personally interactive with their constituents far beyond the ~~peep-show style~~ City Council Programs seen on the present one channel.

Public meetings are a part of our heritage that dates back to the earliest settlements and have played a critical part in the gathering of the will of the people.

Until recently we have been restricted to the old system of personal gatherings. Today Public Meetings can take on 21st. Century technology interacting by cable. Thus developing a cross-section of the publics will with greater participation than the present involvement.

The program possibilities of presenting issues for public response or presenting candidates for public evaluation is to many to include however the scheduling, promotion, and development of these programs should be handled by professionals that knows how to make them effective.

Educational Access Cable is the most readily available reservoir of programming source in our community. Present programming by Asheville High is a tribute to the professionalism and creativity that our educational system is capable of producing.

However the present opportunity leaves a vas void in the total capability of using this reservoir.

Once again, properly produced and promoted programs can bridge gaps between our Government School System and the Public, especially between parents and teachers.

Cable dialoguing between teachers and parents of students about school policy and procedure can arrest present ignorances and help facilitate solutions.

It is time we hear about all the good things with our educational system and students instead of just the bad. The Educational Cable Access Channel can be that stage for good news.

Please hold to the confidence intrusted to you and negotiate a strong financial support for the P.E.G. Cable Access portion of the Cable Franchise Agreement.

The Public Access Cable Channel is the 21st. Century's likeness to the old community theatres. Offering a modern day stage for the presentation of local talent and interests.

Yet unlike the old community theatre today's stage of diverse and local presentations competes with as many as 150 other stagings at any one time.

Historically Public Access Cable Channels have evolved into two specific categories of performance.

1. Indisciplined and erratic presentations that have very little to none in viewer participation. Often compared in program quality as being the same as your neighbors home movies of their summer vacation. Generally the only one interested in those home movies is the one that took them.
2. The alternative to these boring presentations are well produced technically supported presentations that are properly scheduled and promoted for viewership.

It is not the content but rather the delivery of the content that make the difference in public participation and support.

The future financial support of this channel depends on the same public support that Public Television and Public Radio depends on and the code of program production should hold similar standards to those of Public Broadcasting.

This ends my sales pitch for the much desired P.E.G. Cable Channels. Now allow me to offer a possible resolve concerning financing the P.E.G. Cable Channels.

All the concern over past franchise fee payments is little more than media hype over an issue that in truth is still open to the interpretation of the City or the Cable Company.

The Cable Company claims proper complience The City claims non-complience. Who knows ? Because of this ill fitted 1967 Agreement only the courts know. Yet your resolve by the gathering of reasonable persons that reasoned together is a tribute to solutions by negotiations.

I believe the current proposed settlement is grounded in reason and prudence. As a citizen of Buncombe and a property owner in the City of Asheville I thank you for this negation. It seems to me it is far more profitable to the citizens of Asheville than a law suit that could result in a lose of the 1% revenue over Federal limits we have enjoyed since 1985.

Speaking of the 1% above the Federal limit for franchise fee we had been enjoying let me propose a few questions.

1. Has past cable subscriber rates been set with the 6% City Franchise Fee inclusive? Answer YES.
2. Will the new City Franchise Fee comply with the Federal guidelines of 5%? Answer YES
3. Did the past cable companies set their rates to subscriber calculated with the 6% City Franchise Fee inclu-

sive? Answer YES

4. Why can't we negotiate a 1% of revenue P.E.G. grant? Answer WE CAN.

Why can we? It's already inclusive in the Cable Subscriber Rates. We are not asking for additional monies, nor will we have to pass additional cost on to already complaining cable subscriber. Again the monies have always been part of the Cable Companies Profit & Loss equation. Don't let it get lost in the negotiation shuffle.

In conclusion allow me to share with you a personal observation.

Reasonable persons can gather and reason together. I have witnessed the passion of those that have attended these meetings. I have witnessed their attempts to approach concerns that fare out weigh their experience. Concerns such as; 550 MHz v. 750Mhz., State OF The Art Clauses, Supporting P.E.G. Access Channel. and etcetera.. Voices from the public that maybe founded on lack of understanding but certainly not on lack of concern.

In wisdom the City Council of past hired the firm of Rice WIlliams and Associates, for the purpose of evaluating past and present Cable Contracts and Cable Public Relations as well as other matters. The recommendation of this firm and the on going council of Jean Rice, Partner is a valuable resource for your decision making.

In addition under the directions of the resourceful City Attorneys Office and most capable City Managers Department the gathering and defining of this technical and contractional information can be reduced to processable terms. So once again decision making is possible.

Finally, unlike many of those that criticized the Cable Company and are nay-sayers to this negotiation I wish to offer a different perspective concerning the present Cable Company and Asheville's present negotiation posture.

This perspective is based on almost 9 years of contractional arrangement as a Cable Station Operator with Asheville's Cablevision and predecessors.

The last two years was a nightmare but the first seven years was a successful service to this community. Those first years were under the management that you have the ability to negotiate with now.

I, by experience evaluate this management as being sensitive to customer concerns.

Example: By the use of customer luncheons they gathered opinions and information that became part of their decision making process. As a matter of policy they invited customers that had problems with cable service or complaints of some sort. That is a practice of a public sensitive company not a self serving company.

I by experience evaluate this management as being fair and honest to deal with. In seven years there was countless time that our interest and opinions differed yet beyond the letter of the contract many time this management yielded to our position. Proving that they best made contract still leaves those unanswered questions to be reasoned by reasonable persons.

Joseph Haight and his management team has above all been reasonable to do business with, I know from experience. Therefore I submit that gambling on future negational posture is a gamble in futility.

My prayers and thoughts are with each of you often, in as much as I recognize that almost daily you have to balance the interest of your public in long-term decisions.

Except please these simple words of encouragement, Decisions reaching into the future are best based on 1/3 past experience, 1/3 present information and 1/3 best guess.

The real responsibility for a good Cable Franchise Agreement was on the backs of the Citizens and they made their best guess when the collectively voted and said yes to you for their future.

Margaret Shook 02/24/98

To: Mayor Sitnick and the Asheville City Council members:

Imagine the importance and availability of today's Internet incredible free offerings of INFORMATION, any information, any time, any where. Imagine *how much* the consumer will be willing to pay a Cable TV company to receive all this and much more in the very *near* future; ***(music, movies, home videos, e-mail, telephony, video conferencing for families, companies, and institutions***. All this combined with the future ease of accessibility and use, just by clicking on our living room TV. Cable TV and the Internet will become top priority for Americans. With NO competition and NO Federal regulation, how much do you think the Cable TV industry be tempted to charge for these soon to be, 'got-to-have', fantastic services?

These are the **Red Flag - Facts:**

1. **The Internet's ease of use within TV sets is very near** (see Bill Gates news article)
2. **Our Federal mandate to TV Broadcasting Stations now allows standard broadcast programming use of the new digital signal** (Plus our present analog broadcast signal, side by side which will be phased out in a few years) (see The French TV news article)
3. **Cable TV companies enjoy obvious advantage of carrying the largest 'pipeline' for speedy transmission of digital information. SPEED is the key.** (see article)
4. **Any Cable company that holds the city contract AND the fastest Internet transmission, wins the game.**

That's why Cable Companies are sitting in the cat bird seat. Citizens do not want council to sign a 17 year Cable agreement. Rapid change in technology requires city governments to have a stronger role in the cable fee structure. The necessity of the fast Internet transmission *will soon become* the average American's top priority.

The following ZD magazine article is merely a small example of the Internet.

Down loaded from the Internet February 24, 1998 through PointCast.com (interactive Desktop - free service):

PCs help take a byte out of crime

By Stephanie Wilkinson **February24,1998**

ZDNN 'With any serious crime, we now have a pretty good chance of solving it.'
-- Detective Sergeant Bill Conley

Detective Sergeant Bill Conley could only chuckle on his way out of the theater after seeing the movie "No Way Out," a film in which a gee-whiz photo enhancement gizmo helps solve a crime. At the time, the outlandish technology was far removed from the gear cops could use in day-to-day work.

Conley's still laughing. In fact, he's getting the last laugh -- and criminals aren't smiling.

Conley, an officer with the Los Angeles County Sheriff's Department, is using affordable new PC software similar to what he saw in the movie to anticipate, prevent and solve crimes.

PC crime fighters

"With any serious crime, we now have a pretty good chance of solving it," thanks to the new software for enhancing images and pinpointing geographic locations, Conley said.

Products from such companies as ImageWare Software Co., Sirchie Finger Print Laboratories Inc., and MapInfo Corp. are rapidly helping to hold the thin blue line.

They're not Sculley and Mulder. Meet the FBI's high-tech crime busters.

Although recent government figures show crime rates across the country continuing to decline, the demand for advanced law enforcement technology is on the rise. According to G2 Research Inc., a market analysis company in Mountain View, Calif., the U.S. market for criminal justice information systems will reach $2 billion by the year 2000, about double the size of the market in 1995.

Cheaper is better

Better technology at lower cost accounts for much of that growth, said Christine Edwards, an analyst at G2R. "And buyers are becoming aware of the value of integrated and networked systems. Law enforcement and criminal justice agencies realize that sharing data among themselves cuts errors and costs less overall," Edwards said.

Many of the technologies being adopted by crime fighters are crossover hits in corporate environments. GIS (geographic information systems) software used by police to track criminal activity, for instance, is helping restaurant chains plan new outlets and aiding marketers in distributing coupons more effectively. Imaging software is being used in security applications incorporations.

Sonny Austin, identification specialist with the Chapel Hill, N.C., Police Department, relies on composite image software for PCs that has advanced the art of reconstructing the likeness of a suspect. In place of acetate sheets of facial features that were layered on top of one another to form a composite image similar to an artist's sketch, new programs use digitized photographs to produce more realistic images.

Austin and the Chapel Hill police are using ComPhotofit, created by Sirchie Fingerprint Labs Inc., of Youngsville, N.C. Employing a database of features and accessories such as eyeglasses, headgear, and jewelry, composites can be put together to form far more precise pictures.

Software in action

"When these images are printed out, they look so much more like real photos than the old sketches did," Austin said.

Austin recalls a recent rape case in which the victim, a young woman who had artistic training, spent several hours creating a likeness with the ComPhotofit software. When the suspect was then rounded up, the composite -- along with DNA and fingerprint evidence -- quickly prompted a confession.

The basic ComPhotofit package includes image databases of features for white or black males and females.

The male Caucasian database, for instance, comprises 143 different hairstyles, 92 sets of eyes, 115 mouth types, 85 chins, and numerous mustaches, beards, and eyeglasses. Other databases, such as for Latin American males, are extra.

3. Cable is the fastest kid on the block. - 0.8 seconds

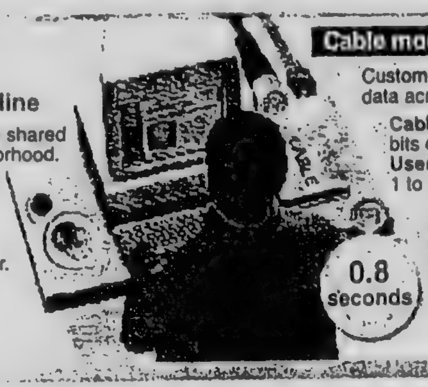
Cable is much faster than phone lines. ASDL lines. ISDN MODEMS. 56k & 33.6 MODEMS

Asheville Citizen Times, Wednesday February 11, 1998

Neighbors share the line

Cable modem data must be shared by all the users in a neighborhood.

Though data stays private for each user, hundreds or thousands of users could be sharing a line and performance may suffer.



Cable modem fast in one direction

Customer receives (and may send) data across cable television lines.

Cable capacity: 25 million bits of data per second

User modem capacity: 1 to 10 million bits per second.

Current cables can't support two-way communication, so interactive cable systems may have to use telephone lines to allow user to send data

2. Travel the Internet on the Tube?

Digital-TV Firms Try New Niches

February 10, 1998

CANNES, France -- Digital broadcasters in Europe are increasingly able to offer services that make watching television seem more like surfing the Internet and surfing the Internet more like watching TV.

The question remains: How much do people really want to interact with their televisions?

France's Canal Plus SA, one of Europe's largest digital broadcasters, announced at Milia, the multimedia industry's annual showcase here, that it will use its digital platform to broadcast Internet data to personal computers later this year.

European satellite operator Eutelsat and Luxembourg-based Societe Europeene des Satellites SA, which operates the Astra satellite, have recently begun selling similar data services.

"What's happening is that you used to have expensive, proprietary technology that was used for satellite-based data," says Christien Waldvogel, broadband-content manager for Europe at Intel Corp. "But now you can use consumer technology that costs $250, not $3,000."

1. The Black Box TV Companion
Asheville Citizen Times

SUNDAY, JAN. 11, 1998 A3

provide operating system TCI digital set-top boxes

rp. le- its at y's

tes on- af- Sun mi- CI, ny. TV g it out

1,700 people at the trade show.

Bill Gates

The Sun deal, in which TCI will include the company's Java programming language in the boxes, is considered a coup in its battle with Microsoft for the fast-growing market of electronic devices for the consumer.

Gates said the winner in the electronic device market will be decided by software developers, who can choose to use either Windows CE or Java.

"We'll just have to see," he said. "People will pick."

No terms were announced for either the Microsoft or Sun agreement.

TCI plans to provide up to 10 million of the set-top boxes over the next three years for delivering advanced entertainment and information to U.S. homes, including hundreds of TV channels, Internet access and on-line banking.

February 24, 1998

Mayor Sitnick and Members of the Council:

Thank you for the opportunity to address this meeting.

As elected officials, you have been given the arduous task of finalizing the cable franchise agreement. This task is neither easy, nor can it quickly be solved and then disappear. The decisions you make today will take Asheville far into the twentieth century. And yet you must make the decision based on the information you have at hand. Your choice will not affect only city finances. It will influence the education of our young, the accessibility of the public to municipal meetings, the marketability of Asheville as a home for businesses seeking to locate their offices in a "technologically friendly" city and the quality of cable service supplied to subscribers.

I have read and reviewed the proposed ordinance. It is an agreement with promise, but it needs some work. An agreement this important must work for all concerned. The cable operator can't be shackled by rules and regulations at every turn, but the public and the city must be protected. This can be a win-win agreement.

Franchises were created initially, not to produce additional revenue for the city, not to create a burden for the cable operator, but to protect the cable subscriber. The consumer pays his dime and expects to get his money's worth. Please consider all of these facts. And remember, the franchise fee is not a fee imposed upon the cable company. The franchise fee is a fee paid by the subscriber and remitted to the City by the cable operator. The City is charged by the FCC with seeing that standards set and maintained.

- Customer Service Issues

16. SUBSCRIBER INFORMATION AND POLICY

G. …A refund of unused service charge, if any, shall be paid to the Subscriber within forty-five (45) days from the date of termination of service, or Subscriber's request, whichever is later. Does this mean if they don't refund in 45 days and I don't call that I don't get a refund? Where does the money go?

The refund policy does not meet FCC standards. The FCC requires that "refunds must be issued no later than either the customer's next billing cycle or 30 days following resolution of the request, whichever is earlier, or upon the return of equipment when service is terminated".

H. Outages. Franchisee, upon Subscriber's request, shall credit or issue a refund to the Subscriber for verifiable outages of six (6) hours or more in duration for the levels of service affected by such outages. Why upon request? This should be automatic. Again, where do these refunds go if I don't request a refund?

L. Repair Calls. Franchisee shall offer Subscribers repair service appointments in four-hour windows. The Franchisee shall telephone the Subscriber prior to arriving for a repair call. Franchisee will conduct repair calls on weekdays, a minimum of one weekday evening, and Saturdays, as requested by Subscribers. If my cable goes out on Sunday and I need to be home to let them in, am I without cable until Thursday evening or Saturday?

These standards are far below standards for other systems of this size.

- State of the Art

Why should Asheville citizens be denied services because of the size of the system? They are not second class citizens. The cost to upgrade the service is incremental and can be recouped by the operator. Instead we are held to InterMedia's standards.

- Penalties are not enough to discourage "slacking". Could the penalties read "not less than $100 or more than $1000 per day"?

- Shouldn't the City have the option to purchase the system if it becomes feasible?

- Should other cable companies be encouraged to operate in Asheville? A recent FCC report stated that "subscribers in noncompetitive areas pay 5.8% more on average than subscribers in competitive areas".

- Cable modems and other services to be provided by InterMedia should be part of the franchise agreement. The cable industry has made a commitment through the "Cable in the Classroom" initiative to do this. Asheville could be a part of this program and could be afforded this commitment through the franchise. This is an important step in bringing the children of Asheville more tools with which to learn.

- PEG channels should be located below channel 13. Many people, particularly older people, still have older televisions. They often purchase cable to receive better reception. This will give them access to the quality programming and bulletins that public, education and government channels can provide.

I understand that the city is losing revenue from the franchise fees because of the interpretation of the language in the existing franchise. In "cutting the losses" are we giving up service standards and many more future dollars that we cannot afford to give up?

Maybe it is time to step back from the franchise. Maybe it is tiresome and the pressure is on to sign. I ask that you consider carefully your options and their impact upon the City and the citizens. I ask that you delay the implementation of this ordinance and further investigate your options.

Thank you once more for your time.

Tuesday - March 3, 1998- 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Approval of Festivals & Special Events for 1998

Summary: The Parks and Recreation Department request City Council approval of the 1998 festival and special events schedule.

Councilman Sellers noted that the Citizens/Police Advisory Committee has concerns regarding the sale of alcohol at all festivals. They will have a recommendation forthcoming to City Council.

Contract Award for Purchase and Installation of Two Traffic Signals for Transit Center

Summary: The consideration of entering into an contract with Haynes Electric Utility Corporation in the amount of $96.995 to install traffic signals for the New Asheville Transit Center at Aston Street and Coxe Avenue and at Aston Street and Asheland Avenue.

Acceptance of Funds from the Governor's Highway Safety Program relative to a Police Impaired Driving Enforcement and Training Project

Summary: The consideration of a budget amendment, in the amount of $14,250, to fund a Police Impaired Driving Enforcement and Training Project and a resolution authorizing the City Manager to accept funding from the Governor's Highway Safety Program relative to this project.

Employees Health Benefit Plan

Summary: The consideration of a resolution authorizing the City Manager to execute appropriate Health Benefit Plan documents to allow the City to amend its benefit plan to 1) allow for the voluntary participation of Council Members, and 2) change the "plan year" as it is defined for purposes of keeping the plan qualified for tax exempt status with the IRS.

City of Asheville 1998 Strategic Plan

Summary: At the recent Council/Staff Retreat, City Council determined the ten goals listed below were to be City staff's top priority for the coming fiscal year. Staff has reworded some of the goals to try to better explain the intent of Council from the raw data we discussed at the retreat. As a part of the upcoming budget process, staff will add action steps under each of the goals for presentation as a part of the annual budget.

At the retreat, Council directed staff to bring the goals back to them for one final review. This report requires no action.

86

1. Encourage a City/County comprehensive transportation study designed to identify the most effective ways to provide transportation services.
2. Adopt a Parks and Recreation Master Plan which will identify active and passive recreation facility and programmatic needs and identify funding mechanisms to meet needs.
3. Adopt an Affordable Housing policy designed to ensure an adequate stock of quality affordable housing and to eliminate substandard housing and living conditions.
4. Emphasize continuing traffic management efforts to provide safe and efficient vehicular and pedestrian transportation.
5. Promote growth in Asheville's tax base through the establishment of a comprehensive economic development strategic plan.
6. Adopt and begin implementation of Civic Center Master Plan in order to maximize utilization and reduce funding requirements of the facility.
7. Establish a neighborhood/community outreach program designed to inform citizens of City issues and activities and provide a forum to seek citizen input into issues facing the community and planning and developing neighborhoods.
8. Develop and/or support activities and events which celebrate our cultural diversity.
9. Adopt and implement a comprehensive parking plan to address parking needs in the downtown, Biltmore and West Asheville business areas.
10. Review sign ordinance implementation and enforcement efforts.

City Manager Westbrook said that staff is still working on the entire list to add work steps and that list will be brought back to Council during the budget process.

City Council noted that the final list contained actually 20 goals and the other ten goals were of equal importance.

City Manager Westbrook said that staff will proceed working on the top ten goals with resources and will try to do as much as they can on the other 10 goals.

Mayor Sitnick suggested that as the projects were completed, the entire list could be revisited.

There was some discussion about the wording of goal #3 and Councilwoman Field stressed that City Council needs to adopt an affordable housing policy that is consistent with the goals of the Housing & Community Development Committee and the HOME Program.

Councilman Cobb suggested that all ten goals be measurable.

Upon inquiry of Mayor Sitnick, Urban Planner Carl Ownbey explained the different roles of the different boards regarding the multi-model transportation study, noting that they will work together.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

STATUS OF THE CITY'S DISEASE MANAGEMENT INITIATIVE

Mr. John Miall, Director of Risk Management, and Mr. Dan Garrett, Director of Pharmacy for Mission-St. Joseph's Health Center, made a presentation to the Council on the status of the City's disease management initiative, particularly the 10 month result of the diabetes trial.

John Miall and Dan Garrett recently were the invited guests of the American Pharmaceutical Association in Washington, D.C., for the purpose of making this same presentation to Health Care Financing Administration for Social Security in hopes that the innovations of the "Asheville Program" will be adopted nationwide for all recipients of Medicare.

In April of 1997 at the recommendation of the hospital system, and with input from the School of Pharmacy at UNC-Chapel Hill, the City began an unprecedented program for management of diabetes patients under its health plan. The plan design involved area pharmacists undergoing extensive training without reimbursement to begin regular, and on-going counseling and intervention with diabetes patients. The program also included an in depth patient training component from the hospitals for high-risk patients.

It was anticipated that by actively managing the disease process, and bringing to the attention of physicians early and accurate information on patient health and behaviors that long-term costly medical expenses associated with the disease could be averted. After only 10 months of trials, the medical costs for the patients with diabetes under the City's self-funded program for health benefits were reduced by nearly $30,000.00.

A companion program for Asthma patients has recently been launched with the active support of Dr. Spencer Atwater.

Councilman Cloninger was impressed the way the medical community, doctors, hospitals, etc. have worked together on this program.

Mayor Sitnick thanked Mr. Miall and Mr. Garrett for bringing the Council up-to-date on this very important and successful program.

EXCHANGE OF PROPERTY WITH THE OPPORTUNITY CORPORATION

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department and the Advisory Board have worked with the Opportunity Corporation of Buncombe and Madison County concerning a piece of property located behind Reid Center which would serve as a community services building along with administrative offices for their operations. The approximate size of this purchase would be approximately 1.3 acres. The Opportunity Corporation of Buncombe and Madison County would be making a financial contribution of $20,000 to the Parks and Recreation Department to fund a mini park in the West End section of Asheville. In addition, the Opportunity Corporation would be donating materials and administrative costs up to $16,000 to construct a bridge across the creek at the base of the property as well as providing an easement across their property for greenway development.

The Parks and Recreation Department recommends City Council direct the City Clerk to advertise the exchange of the property between the City of Asheville and the Opportunity Corporation of Buncombe and Madison County Center.

City Council expressed support for this exchange.

88

After some brief discussion, Councilman Cloninger asked if the Opportunity Corporation would consider agreeing committing $16,000 to construct the bridge across the creek, instead of "up to $16,000".

Ms. Vicki Heidinger, Executive Director of the Opportunity Corporation of Madison-Buncombe Counties, spoke in support of the exchange and felt that her Board of Directors would have no problem with the language suggested by Councilman Cloninger.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PROHIBITION OF DOGS AT RIVERSIDE CEMETERY

Mr. Irby Brinson, Director of Parks & Recreation, said that based upon City Council's request from the worksession on February 17, 1998, the Parks and Recreation Department is proposing a revision to Code of Ordinances Section 3-27(3)regarding control of animals in Riverside Cemetery.

Asheville City Council, in July of 1997, adopted an ordinance revision dealing with animals in Riverside Cemetery. This revision required dogs to be leashed, remain on paved roads, be cleaned up after by their owners, and be prohibited from the facility during funeral services. Per City Council's direction, a six-month evaluation of the ordinance changes were required in order to evaluate the effectiveness of these revisions. Over this period of time, the Cemetery Manager and the Park Warden have been documenting occurrences of violations of the ordinance. This information was presented to City Council at a work session on February 17, 1998. Based upon a request by City Council the Parks and Recreation Department and Legal staff is proposing a revision to Section 3-27 (e) of the Code of Ordinances of the City of Asheville. This change represents prohibiting animals at Riverside Cemetery with the exception of allowing dogs or domestic animals which assist persons with sight disabilities. The Department has initiated a Dog Park Task Force which has been meeting since January of 1998. The purpose of this task force is to determine an appropriate location for development of a dog park within the City. This group is very active and is planning to present their report to City Council in the near future. The Parks and Recreation Department has been assisting this group in trying to address the provision of a dog park within the City.

The Parks and Recreation Department is recommending holding a public hearing on April 14, 1998, to solicit input on revising Section 3-27 (e) of the Code of Ordinances of the City of Asheville prohibiting animals in Riverside Cemetery.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FORMING AN ASHEVILLE FILM COMMISSION

Mayor Sitnick explained that Asheville is growing economically and one way Asheville is growing is by hosting more and more filming of major movies, commercials and still shot photo layouts for national magazines. Our area is becoming more and more popular in the film industry. While there is a State Commission and WNC Regional Film Commission, through Advantage West, it was her feeling that a local film commission, for a number of purposes, would be a benefit to Asheville. Those people could perhaps meet one or twice year, or when necessary, to be able to respond to the needs of the film community. So, when a film crew comes into Asheville, they can cooperate with the State Commission and the Regional Film Commission to act as a diplomatic group to welcome and let them know we appreciate their business. She suggested that City Council members act as ex officio members to the local film commission.

Vice-Mayor Hay noted that the local film commission should not compete with the State Commission or the Regional Film Commission, but should compliment them.

She also said that there is wonderful opportunity for our community to begin hosting a film festival. Gene and Jim D'Onofrio from Brevard are putting together this film festival at no cost to the City. She felt that the local film commission could be of benefit to the film festival as it grows and evolves.

It was the consensus of City Council to proceed and asked staff to bring back a report with pertinent information to Council at a worksession.

CABLE TV FRANCHISE REVIEW

At 4:20 p.m., Councilman Cloninger moved to go into closed session for the following reasons: (1) to prevent the disclosure of information that is privileged or confidential pursuant to the laws of North Carolina or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that renders the information to be discussed confidential is G.S. 160A-208.1 - statutory authority is G.S. 143-318.11 (a) (1); and (2) to consult with an attorney employed by the City Council in order to preserve the attorney-client privilege between the attorney and the City Council. The parties to the lawsuit about which the Council expects to receive advice is Multimedia Publications of North Carolina, Inc., d/b/a Asheville Citizen-Times Publishing Company, and the City of Asheville - statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 5:00 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

Assistant City Attorney Patsy Meldrum said that City Council has three options at this time: (1) approve the proposed documents; (2) renegotiate certain issues; or (3) postpone the renewal until 1999-2002, noting that 1999 would be the beginning of the process. She then presented Council with a document with staff's perceptions of the issues which have come out of discussions with City Council during the worksessions and during the public hearing. The following is the list presented: (1) Term of franchise; (2) Public, Educational and/or Governmental Channels - (a) number of channels; (b) initial equipment (3) on-going support; (3) Institutional Network - (a) list of sites; (b) Internet access for schools and libraries; (4) state-of-the-art clause; (5) 550 MHz vs. 750 MHz system; (6) customer service standards; (7) senior citizen discounts; (8) franchise fee; and (9) time period for renegotiation. She asked for Council to add to the issue list, which list will be ranked, and suggested there be a time period for renegotiation. She suggested Council give staff instructions on how long that time period should be, noting that they request a shorter period rather than a longer period.

Upon inquiry of Councilwoman Field using the comparison chart of what was in the City's Request for Renewal Proposal and the proposed franchise, Ms. Meldrum and Mr. Joe Haight, General Manager of InterMedia, responded to questions and comments on why InterMedia did not agree to or partially agreed to the following: BTSC stereo pass-through for all stereo channels; status monitoring; one independent upstream channel shall be designated for the City for municipal and public sector use; the standard drop allowance for cable installation shall be 250 feet; cable service to new developments is required to be extended into new developments concurrently with electric and telephone lines; allocate five channels for access; access studio; video production equipment for Asheville City Schools; remote production van; modulation and demodulation video equipment for all required institutional network sites; origination capability from the City Building, Asheville High School and two additional sites; such drops shall be capable of supporting multiple reception points; and internal wiring to be provided at no cost.

Mayor Sitnick asked that the refund by request issue and the pass through to subscribers for the pay channels issue be added to the list. Councilman Cloninger requested that the issue of binding arbitration also be added.

Mr. Haight responded to various questions from Council as they related to the rebuilt and the difference between cable TV outlets and I-Net locations.

Councilwoman Field requested that Charter Schools have a cable outlet.

Mr. Haight responded to a questions from Ms. Mary Ellen Brown, Montford resident, on how many fiber optic cables are in the system and where are they located.

Ms. Lexie Ross stressed that public access really benefits the community.

Mr. Scott Barber felt that the City needed to ensure adequate funding and language for public access television production resources. He pointed out several weaknesses in the current agreement. He encouraged the City to talk to Mr. Andy Romanet, Attorney with the N.C. League of Municipalities, who might have additional information on the statute of limitations issue regarding franchise fees. He reiterated his comments from the February 24, 1998, public hearing in that the City should appoint a citizens task force and what the purpose of that task force should be. He felt Council should delay taking action on this contract which he believed was a better deal for the cable company than for the City of Asheville and its citizens. He encouraged council not to separate the public access deliberations from the franchise deliberations because the community will lose it's bargaining leverage.

Mayor Sitnick supported the idea of an advisory committee, especially one that is primarily focused on the PEG channels and working with the community to make sure that they are state of the art and that they provide the proper educational and public access opportunities. She asked that Council consider this as we move along in the process.

Upon inquiry of Mr. Bill Wald, Ms. Meldrum explained how the figures were arrived at regarding the franchise fees.

Vice-Mayor Hay said that the cable company doesn't agree that it owes the City any money and if we litigate, it is possible that we will recover nothing from them. This is a settlement of a true dispute between the parties, not a settlement of a bill.

Mr. Wally Bowen briefed Council with some background information on the 1967 franchise agreement. Mr. Bowen requested (1) that community centers have Internet access as well as schools and libraries and that it be written into the agreement; (2) the $5 late fee is too high; (3) the performance penalty of $100 a day is too low; and (4) a viable public access operation.

Councilman Cobb questioned what the budget would be to operate a public access channel.

Councilwoman Field noted that the Pack Place Forum was designed to be a television studio, but it is privately owned.

City Manager Westbrook said that sometime after this process is over with and we have a franchise, staff will come back with a process for Council to use to determine how they want to do access as well as oversight of those public access channels.

Upon inquiry of Mayor Sitnick about the process, City Attorney Oast said that this matter has been continued from meeting to meeting and if no action is taken, and he thought that Council had previously indicated they don't intend to take any action today, then it would have to be continued to some later time. As far as the process for going through this, it may be some items could be eliminated as items that don't need to be negotiated.

Mayor Sitnick said that she is absolutely opposed to taking any straw votes or votes of intent at worksessions and by adopting a list of priority items, Council is saying, in effect, that they are requesting a renegotiation of a franchise. That is a vote in her mind and that should be taken at a formal meeting and not a worksession.

City Manager Westbrook understood that Council gave staff direction months ago to negotiate the franchise and we are still in that process. From the staff's standpoint of the issues that Council has brought up, they are trying to determine which ones are the most important so if staff is to continue to negotiate then they would know that information.

City Attorney Oast said that however Council approaches a consensus on any one of these issues, it would not be a vote to approve or disapprove the franchise. It would only be giving staff direction on certain items of the franchise that Council felt they needed additional information.

Discussion took place on how the ranking process would best be accomplished.

Upon inquiry of Councilwoman Field on whether the cable company is willing to negotiate any further, City Manager Westbrook said that he has talked with Mr. Haight recently and asked if he was willing to continue negotiations and he said that they were but not knowing any specifics.

Mayor Sitnick said that she would bow to the wishes of Council, even though she was not comfortable with this process, and suggested each Council member rank the list of issues with "1" being the most crucial, "1" being fairly crucial and "3" being items they would like to have, but could live without. She asked Council put their names on the top of the paper when they through and she would ask each Council member to read out their ratings and then pass them to the City Attorney so he can make a chart accordingly.

Each Council member then read out their ratings for the 14 issues and the City Attorney said that he would have a chart of the ratings available for Council next week.

City Manager Westbrook suggested staff be allowed the limited time period of 8 weeks within which to bring a report back to Council on these items.

Councilman Cloninger moved to table this matter for 8 weeks pending a report from staff. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick said that in the future she would like to have a brief discussion and determination on whether or not City Council wants to appoint a Cable Task Force.

DISCUSSION OF COLLECTIVE DIRECTIONAL SIGNS

Ms. Julia Cogburn, Planning & Development Director, said she has researched the request made by the Haw Creek Community in which they requested an ordinance be drafted which would allow larger church signs in the rights-of-way when such signs contain more than one church listing or directional. She said that she has recently learned that the N.C. Dept. of Transportation ("NC DOT") prohibits those signs in their rights-of-way. She said that she will explore NC DOT's prohibition and report back to Council.

Councilman Cloninger suggested Ms. Cogburn look into logo signs and what potential we have working with the NC DOT on this issue.

City Attorney Oast noted a problem the Board of Adjustment has run into with issuing sign variances for businesses that are not located on the main streets. Perhaps the logo type sign at the intersections might help resolve some of their problems.

Councilwoman Field said that the City used to allow flag lots which allowed people to have a little strip of land which went down the main road and they could put your sign there. But in the Unified Development Ordinance we can no longer have flag lots but people were still allowed to have off-premise signs so they could get their signs on the road. Now, we don't allow off-premise signs and there is no way for someone who has a lot off the road to identify their business. She asked Ms. Cogburn to see if she could come up with some solution.

NEXT COMMUNITY MEETING AND APRIL 7, 1998, WORKSESSION

Mayor Sitnick announced that because of the Chamber of Commerce retreat, the worksession scheduled for Tuesday, April 7, 1998, will need to be rescheduled until Wednesday, April 8, 1998, at 3:00 p.m. in the First Floor North Conference Room in the City Hall Building. It was the consensus of City Council to have the worksession rescheduled as outlined by Mayor Sitnick.

It was the consensus of City Council to host the next community meeting on March 31, 1998, at 7:00 p.m. in the William F. Wolcott Jr. Building (Public Works Building) located at 161 South Charlotte Street.

SIGNS ON POLES

Mayor Sitnick stated that every Friday City staff goes out and pulls down the illegal advertising signs on the City's right-of-way structures and calls the people who placed the sign on the structures noting that it is illegal to do so. Every major thorough has illegal signs on them. They are a visual blight, they are unfair to people who pay for legal signs and erect them properly, they add to the litter and clearly it's illegal to post them. She wanted to make sure that the public knows that the City is going to be taking them down, calling the people and letting them know that if they are not taken down in a certain period of time they will be fined according to the ordinance. Asheville will not tolerate these illegal advertising signs on the City's right-of-way structures in our City anymore.

Mayor Sitnick said that we recognize the need to provide citizens s a place to advertise yard sales, and those sorts of things, and perhaps we can come up with some suggestions, like neighborhood funded and maintained kiosks.

PLANNING & ZONING COMMISSION MEMBERSHIP

Councilwoman Field Barbara said that the statutes require the City to have a certain percentage of representation from the extraterritorial jurisdiction ("ETJ"). She believed the representation is 10% for the Planning & Zoning Commission, which would be one person. Right now the Commission has two people from the ETJ. She certainly believes that we need ETJ representation but the amount of representation seems to be disproportionate.

It was the consensus of City Council to have staff bring back a recommendation regarding this issue to a worksession very soon.

CLOSED SESSION

At 7:41 p.m., Councilman Cloninger moved to go into closed session for the following reason: to consult with an attorney employed by the City Council in order to preserve the attorney-client privilege between the attorney and the City Council. The parties to the lawsuit about which the Council expects to receive advice is Morris Communications Corporation, d/b/a Fairway Outdoor Advertising, Outdoor Communications, Inc., and Maple Cove Inc., and the City of Asheville - statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:55 p.m., Councilwoman Field moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

94

Tuesday - March 10, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field (arrived at 5:40 p.m.); Councilman Thomas G. Sellers; and Councilman O.T. Tomes (arrived at 6:57 p.m.); City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 8-14, 1998, AS "DENTAL ASSISTANTS RECOGNITION WEEK"

Mayor Sitnick read the proclamation proclaiming the week of March 8-14, 1998, as "Dental Assistants Recognition Week " in the City of Asheville and presented the proclamation to Ms. Betty Finnegan.

B. PROCLAMATION PROCLAIMING MARCH 15-21, 1998, AS "UNITY IN DIVERSITY WEEK"

Mayor Sitnick read the proclamation proclaiming the week of March 15-21, 1998, as "Unity in Diversity Week " in the City of Asheville and presented the proclamation to Ms. Raphael Peter who briefed Council on some planned activities taking place during the week.

C. PROCLAMATION PROCLAIMING MARCH 16-22, 1998, AS "HI NEIGHBOR AND FRANK SCOTT WEEK"

Mayor Sitnick read the proclamation proclaiming the week of March 16-22, 1998, as "Hi Neighbor and Frank Scott Week " in the City of Asheville and presented a proclamation to Mr. Keith Murless, President of the Asheville Volleyball Club, who briefed Council on some planned activities taking place during the week. She also presented proclamations to Ms. Teresa Scott, daughter of Frank Scott, and Ms. Diane Mugnai, who was Frank Scott's fiancee.

II. CONSENT:

A. RESOLUTION NO. 98-25 - RESOLUTION AWARDING CONTRACT TO HAYNES ELECTRIC UTILITY CORPORATION FOR THE PURCHASE AND INSTALLATION OF TWO TRAFFIC SIGNALS AT THE TRANSIT CENTER

Summary: In an effort to provide adequate vehicular and pedestrian access at the new transit center, the City's Traffic Engineer and the Asheville Transit Authority (ATA) have formulated a traffic signal system that addresses these needs. The City received a transit grant in the amount of $70,000 for this project and the City has allocated another $35,000 toward this effort.

The City, through the Engineering Department, solicited formal bids for the above stated project. This bid process engaged in November, 1997; whereas a total of 18 advertisement for bid letters and bid packages were sent out, including five to certified minority businesses registered with the City. Advertisement letters were also sent to the Association of General Contractors, F. W. Dodge and the Buncombe County Minority Affairs' office. We did not receive enough bids at our initial bid opening on December 3, 1997. The project was re-advertised and two bid proposals were received, none of which were from certified minority businesses.

The lowest most reasonable bid that met the City's and ATA's requirements was from Haynes Electric Utility Corporation of Asheville, North Carolina, for a bid price of $119,619. After negotiations by the Traffic Engineer with Haynes Electric, Haynes Electric reduced their bid to $96,995.

Staff recommends that the City Manager be authorized to enter into a contract with Haynes Electric Utility Corporation for the bid price of $96.995, for the project known as Purchase and Installation of Two Traffic Signals for the New Asheville Transit Center.

RESOLUTION BOOK NO. 24 - PAGE 353

B. RESOLUTION NO. 98-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN PLAN DOCUMENTS TO ALLOW FOR THE PARTICIPATION OF THE CITY COUNCIL IN THE CITY'S EMPLOYEE BENEFIT PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to execute appropriate Health Benefit Plan documents to allow the City to amend its benefit plan to 1) allow for the voluntary participation of Council Members, and 2) change the "plan year" as it is defined for purposes of keeping the plan qualified for tax exempt status with the IRS.

Since 1983 when the City first began self-funding its benefit program various members of the City Council have asked about their own participation in the plan. Unfortunately, no Council to date ever reached consensus on whether or not to participate.

To avoid the problems inherent with some members wanting to participate, and others perhaps not wanting to participate the plan amendments as drafted will allow for individual members of the City Council now, and in the future to decide to participate, or not on an individual, and voluntary basis.

Also, due to a change in the stop-loss renewal contract date it is necessary to redefine the "plan year" so that the IRS can accurately track the tax exempt contributions of employees to the health plan, and qualified reimbursement accounts.

This action requires no new outlay of funds.

Staff recommends adoption of the resolution authorizing the City Manager to execute plan documents to allow the City to amend its benefit plan to 1) allow for the voluntary participation of Council Members, and 2) change the "plan year" as it is defined for purposes of keeping the plan qualified for tax exempt status with the IRS.

RESOLUTION BOOK NO. 24 - PAGE 355

C. RESOLUTION NO. 98-27 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE THE EXCHANGE OF PROPERTY BETWEEN THE CITY OF ASHEVILLE AND THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES

96

Summary: The consideration of a resolution directing the City Clerk to advertise the exchange of property located behind the W.C. Reid Community Center Annex Building with the Opportunity Corporation of Buncombe-Madison County.

The Parks and Recreation Department and the Advisory Board have worked with the Opportunity Corporation of Buncombe and Madison County concerning a piece of property located behind Reid Center which would serve as administrative offices for their operations. The approximate size of this purchase would be approximately 1.3 acres. The survey shows the exact location for this purchase. The Opportunity Corporation of Buncombe and Madison County would be making a financial contribution of $20,000 to the Parks and Recreation Department to fund a mini park in the West End section of Asheville. In addition, the Opportunity Corporation would be donating materials and administrative costs up to $16,000 to construct a bridge across the creek at the base of the property as well as providing an easement across their property for greenway development.

The Parks and Recreation Department recommends adoption of the resolution directing the City Clerk to advertise the exchange of property located behind the W.C. Reid Community Center Annex Building with the Opportunity Corporation of Buncombe-Madison County.

RESOLUTION BOOK NO. 24 - PAGE 356

D. RESOLUTION NO. 98-28 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDING FROM THE GOVERNOR'S HIGHWAY SAFETY PROGRAM TO FUND DRIVER'S SAFETY PROJECTS

Summary: The consideration of a budget amendment, in the amount of $14,250, to fund a Police Impaired Driving Enforcement and Training Project and a resolution authorizing the City Manager to accept funding from the Governor's Highway Safety Program relative to this project.

The Governor's Highway Safety Program (GHSP) has made $14,250 available to reimburse the police department for costs associated with Impaired Driving Enforcement and Training. Specifically the funds are for the purchase of five (5) in-car video cameras, miscellaneous supplies, and public information materials. The GHSP will fund $2,250 per video camera. The cameras cost approximately $4,800 each. The City will therefore have to provide the balance of the cost of the five video cameras in the amount of $12,750. No other local funds are required for the project. The police department has sufficient funds available to commit $12,750 from its operating budget. Total project cost is estimated at $27,000.

City staff recommends adoption of a resolution authorizing the Police Department to accept the reimbursement of funds from the GHSP and adoption of a budget ordinance amendment to appropriate the revenue and expenditures.

E. ORDINANCE NO. 2456 - BUDGET AMENDMENT TO FUND A POLICE IMPAIRED DRIVING ENFORCEMENT TRAINING PROJECT

Summary: See Item "D" above.

ORDINANCE BOOK NO. 16 - PAGE 421

F. MOTION SETTING A PUBLIC HEARING FOR MARCH 24, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINITION OF ANTENNAS AND TELECOMMUNICATION TOWERS

G. MOTION SETTING A PUBLIC HEARING FOR MARCH 24, 1998, TO REZONE A PORTION OF A LOT LOCATED ON 488 HENDERSONVILLE ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY TO HB HIGHWAY BUSINESS

I. MOTION SETTING A PUBLIC HEARING FOR APRIL 14, 1998, RELATIVE TO PROHIBITING DOGS IN RIVERSIDE CEMETERY

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Cobb and carried unanimously.

III. UNFINISHED BUSINESS:

A. RESOLUTION NO. 98-29 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MASTER MUNICIPAL RENTAL AGREEMENT WITH NEC AMERICA INC. FOR LEASING A TELEPHONE SYSTEM

Finance Director Bill Schaefer briefed City Council on the information he presented at their meeting on February 24, 1998, which was that the City government's present telephone system is made up of several small switches which have limited capabilities and do not provide the functionality and growth capabilities the City needs to handle essential communications requirements. Additionally, the mix of old and newer technologies has caused considerable interoperability problems in attempting to get the various segments of the current system to function together and many components are nearing the end of their service life expectancy. As a result, in June of this year, the City initiated a Request for Proposal process to select a provider of a single, fully-integrated telephone system for the City government which has the functionality and anticipated expansion capabilities the City requires. Newspaper ads announcing the solicitation resulted in six companies responding that they would like to participate. Of those, four actually submitted proposals. A team made up of representatives from several departments evaluated the responses and selected the Southeastern Telecom proposal as offering the best solution to the City's telephone requirements.

The Southeastern Telecom proposal incorporates state-of-the-art functionality, fully-integrated compatibility throughout the City (including such locations as City Development, the new Mills River Water Plant, and with the addition of a supporting T-1 line in next year's budget for the North Fork Water Plant), expansion capability to accommodate both anticipated growth in communications needs and the addition of future functionality developments. For example, if needed, the system will be able to handle the increased communications requirements of the Civic Center future transition to a convention center/hotel complex with little or no modification of the telephone system.

Under their proposal, Southeastern Telecom will be the local provider of equipment, installation and maintenance of the system. However, as has been the City's policy with other areas in which technology is changing rapidly, such as computer hardware and software, the system will be leased rather than purchased outright. The Master Municipal Rental Agreement, between the City and NEC, requires monthly payments of $6,457.50 for a term of seven years .

Funds for this lease are provided in the Fiscal Year 97-98 budget.

On February 24, 1998, City Council directed staff meet with personnel from Telephone Systems of Asheville (TSA) to discuss their proposal to provide a leased telephone system to the City of Asheville and, in light of any additional information provided during those meetings, that staff reconsider its recommendation that City Council adopt a resolution authorizing execution of a lease of the system proposed by Southeastern Telecom.

On March 3, a team of staff members consisting of representatives from Fire, Police, Water Resources, Building Safety, Civic Center, Planning, Finance, Parks and Recreation, Risk Management, Information Services, and Administration met with representatives of TSA. The TSA representatives outlined their proposed system, explained its current and future capabilities, demonstrated some of the equipment they have proposed and answered questions from staff.

On March 4 staff representatives met with representatives from Southeastern Telecom for a similar presentation.

Following those face-to-face meetings and a re-review of portions of the proposals submitted by TSA and Southeastern Telecom, staff members were unanimous in their belief that the Southeastern Telecom proposal represents the best solution to the City's telephone system needs and was unanimous in their recommendation that Council approve the proposed resolution authorizing the lease of the system proposed by Southeastern Telecom.

At the request of Councilman Cloninger, Mr. Schaefer went through TSA's deficiencies in the Request for Proposals as follows: (1) requested features - no response 33 of 389; (2) ACD requested applications software features -- no response 25 of 52 and -- no multiple-split capability (available release 29); (3) no itemized pricing list (provided 12/27/97); (4) no enhanced 911 (provided information on 11/5/97 at added cost); (5) no centralized billing; (6) emergency response -- lost 50% of stations or lines or no station-to-station; (7) system size - need immediate expansion (60 vs. 80 trunks); (8) year 2000 certification (verbal but not written); and (9) no integrated call processing platform - (ACD, IVR, etc.).

Councilman Sellers said that Mr. Kennedy, owner of M.B. Haynes, informed him and Vice-Mayor Hay that they would withdraw from the proposal process.

At 5:40 p.m., Councilwoman Field arrived at the meeting from the Congressional Cities Conference in Washington, D.C.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-29. This motion was seconded by Vice-Mayor Hay, in light of TSA withdrawing their proposal.

Mr. John Pierce, Chief Financial Officer of M.B. Haynes, said that they are withdrawing their proposal. He said that as community members and in the future, they would like, as a vendor, to have the City come back to them earlier in the process so they wouldn't feel compelled to come to City Council and discuss these normal matters in a public forum.

The motion made by Councilman Cloninger and seconded by Vice-Mayor Hay carried unanimously.

RESOLUTION BOOK NO. 23 - PAGE 359

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CONSIDERING THE REZONING OF PROPERTY ON OLD HAYWOOD ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

Mayor Sitnick said that on March 6, 1998, Mr. Charles Worley, attorney for the petitioners, requested this public hearing be continued until March 24, 1998. His letter read in part: "A protest petition has been filed with respect to this appeal thereby requiring the affirmative vote of at least six members of City Council in order to be successful in the appeal. I understand that two members of City Council will be attending the Congressional Cities Conference in Washington, D.C., and will not be returning until Tuesday evening. This obviously creates a substantial risk that only five members of Council will be present for the hearing."

City Attorney Oast said that there appears to be a valid protest petition, so when this matter is voted on, it will require six affirmative votes from Council.

Councilman Sellers moved to continue this public hearing until March 24, 1998, without further advertisement. This motion was seconded by Councilman Cobb and carried unanimously.

B. PUBLIC HEARING RELATIVE TO THE SALE OF PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MEMORIAL STADIUM AND ASSOCIATED PROPERTY TO ROBERT CAMILLE JR. IN THE AMOUNT OF $1,400,000

The original public hearing was set for January 27, 1998, however, that meeting was cancelled due to adverse weather conditions. On February 3, 1998, City Council moved to set a worksession on this matter on February 17, 1998, and then continue the public hearing until this date.

Mayor Sitnick said that Councilman O.T. Tomes has not yet arrived from the Congressional Cities Conference in Washington, D.C. His plane will not arrive under 5:45 p.m., which means that he would not get to this hearing until at least 6:15 p.m. She said that if Council doesn't vote tonight on this issue that a tape of the proceedings be made available to Councilman Tomes so that he can listen to whatever comments are made prior to his arrival, otherwise, it would mean holding everyone up for another half an hour. She said that unless she receives a 100% affirmation by the entire audience, she would proceed with the hearing.

Councilman Cloninger asked if by opening the hearing without Councilman Tomes being present, would that prevent him from voting if he were to come in during the course of the hearing? City Attorney Oast replied that it would not prevent Councilman Tomes from voting.

Councilwoman Field suggested that City Council not vote tonight so that Councilman Tomes has an opportunity to hear the whole tape of the hearing.

Mr. Irby Brinson, Director of Parks & Recreation, said that recognizing that approximately $30 million is necessary over the next 15 years in order to enhance recreation facilities in the community, the Parks and Recreation Department has been exploring alternative financing to meet these needs without a tax increase. Their current Capital Improvement Plan is over $5 million and generally his department receives about $500,000 per year and the majority of that going to maintaining the existing facilities we currently have. The revenue received is not meeting the demand for services. Based upon City Council's Strategic Plan in Fiscal Year 1997-

98, direction was given to his department to look for alternative ways to finance their needs. There has been a concerted effort by his department through grants, sponsorships and other means to reach that particular goal. For example, the Parks and Recreation Trust Fund grant in the amount of $250,000 which they received for the renovation of Stephens-Lee Recreation Center. Their sponsorship for other activities such as First Night and Bele Chere have exceeded almost a 400% increase. They have applied to FEMA for a mitigation grant of $1.2 million. The sale of Memorial Stadium represents one alternative. If he had the money, he would not be talking about this issue. In February of 1997 he was approached about the sale of Memorial Stadium and immediately approached City Council with this item. The Parks & Recreation Advisory Board was given authority to proceed with the proposal. The Advisory Board reaffirmed their position at the February 1998 meeting. They prioritized their needs over the past several years and Stephens-Lee renovation was the number one concern which is now under renovation. The second prioritized need was ballfields in North Asheville. Researching back through the Advisory Board minutes, in 1967 this issue was first discussed. Currently the little league program for North Asheville has grown to almost 300 children. This issue is not just about the 300 children in the North Asheville Little League, it is also about an area of the City that has no recreation facilities and serves a large number of the tax payers of the City as well - Richmond Hill. Memorial Stadium currently is a 21 acre tract zoned institutional with only about seven acres that are relatively flat. The rest of the property slopes between 10-35%. It is currently used by the West Asheville Sports Program for football, Asheville Volleyball Club, the Asheville Ultimate Frisbee, Asheville Rugby Club, Youth Flag Football, the North Asheville Little League and the Martin Luther King Youth League. If the stadium is sold, all of these groups will be accommodated. The sale of the stadium will take a seven acre tract and develop a 20 acre site which will serve the needs of the previous users as well as provide needed recreation for the residents of the northwest area. The sale price includes $1.4 million and also an additional $75,000 to purchase the access across the right-of-way into the Richmond Hill property off of Richmond Hill Drive. The funds will be used to develop the ballfields at Richmond Hill and also renovate the playground and park at Mountainside Park. We have two cost estimates of the ballfields at Richmond Hill which have come in under this amount however he cannot state that the figure will be the total amount because a lot depends on the final outcome of what we want to put in the park and when they actually start construction. An appraisal in the amount of $1,161,000 was done. This has been a very difficult decision both personally and professionally for him because it is totally against what he believes. He pledged to continue to work towards the expansion and enhancement of recreation services to the citizens and visitors. They are facing an even greater problem and that is the lack of money to meet these needs. Therefore, the Parks and Recreation Department and the Parks and Recreation Advisory Board recommend proceeding with the sale of Memorial Stadium to Robert Camille.

Upon inquiry of Councilman Cloninger, Mr. Brinson said that the three acre Mountainside Park will remain with improvements of new playground accessible equipment, access parking for the disabled, walking trail around the park, a green area kept and maintained, and also a picnic shelter with other facilities.

Upon inquiry of Councilman Cloninger, Mr. Brinson explained that the North Asheville Little League's jurisdiction comes into the central area so those children would be served in the North Asheville Program. There is another program that was started by the Martin Luther King Youth Committee that has participation at Martin Luther King Park. There is sometime conflicts with those groups and with the ballfields in Richmond Hill, that would allow for more use of Martin Luther King Park by the Martin Luther King League.

When Councilman Sellers asked if Mountainside Park would be renovated if the sale of Memorial Stadium doesn't go through, Mr. Brinson said that eventually it would be renovated.

However, they have 26 playgrounds they are trying to renovate and they have only renovated four. They do two a year and they are planning to do one in Shiloh and one in Kenilworth this year.

Councilman Cobb stated that he was not anti-recreation but was reluctant to sell any property. He stressed the need to find other ways to fund recreation.

Vice-Mayor Hay stated that regardless of what action Council takes on this issue, he commended Mr. Brinson for trying to find new and creative ways to meet the needs of this community.

Mr. Brinson responded to various questions from Council regarding how the price of $1.4 million was arrived at, if staff reviewed the options that were available in selling off portions of Memorial Stadium and associated properties, how the money will be committed to the Richmond Hill ballfields and renovation of Mountainside Park, and when would the completion of the Richmond Hill ballfields take place.

Mayor Sitnick said that City Council has received multiple letters, phone calls, postcards, personal visits from members of the public regarding this issue and they are grateful for that. She believed that everyone involved in this, including City Council, believe in investing in our children, believe in recreation and believe in the fact that we need the proper and appropriate resources to provide that investment in our children in this community. It would be her hope that those of us who chose to sell Memorial Stadium are not seen as anti-parks and those of us who chose not to sell Memorial Stadium are not seen as being anti-kids.

The following persons spoke in support of selling Memorial Stadium and associated property. Some reasons being, but are not limited to: North Asheville is the most recreationally-deprived area of the City; this proposal is a great opportunity to develop ballfields at Richmond Hill; intentions are to redraw some of the little league lines to take into account children playing closer to home; there are two unused pieces of property because there is not any recreation going on them; City has owned Richmond Hill property for 60 years with the purpose of developing it into a recreational site but that has never been done; Asheville needs recreational facilities for our children; Asheville does not need any intercity greenways or suburban greenways because we have a million acres of federal greenway surrounding the City; Memorial Stadium is a largely-abandoned used and unwanted recreational facility; the price offered by Robert Camille is more than what it's worth; seems like alternatives only come up when North Asheville is being told no for recreational facilities; those groups that use Memorial Stadium have supported this proposal to sell; this is no expenditure from the public purse; this will in not affect the neighborhood; the arch will remain so we will not forget the veterans; Mountainside Park will be improved; children's needs are immediate and this is the only plan to bring about the needs now; unable to have girls softball due to lack of fields; North Asheville Little League has transported kids to other facilities; and the recreational facility is not only for North Asheville Little League.

Mr. Tom Asick, President of the North Asheville Little League
Mr. Jim Drummond, Asheville resident, member of the West Asheville Sports Program for football and cheerleading, member of the Asheville-Buncombe Fair Housing Commission
Mr. Samuel Camp, member of the Parks & Recreation Advisory Board
Mr. Ed Backe, former PTO President of Claxton Elementary School and former Little League Basement Coach
Mr. Bill Estes, Chairman of the Parks & Recreation Advisory Board
Ms. Mary Kathryn Asick

Mr. David Parker, Vice-President of the North Asheville Little League
Ms. Barbara Weinkle

Mayor Sitnick asked if the North Asheville Little League has ever approached the County, since City residents are also County residents, and asked for their help in coming up with some funding for this need. Mr. Asick said that he has not approached the County because North Asheville is entirely in the City of Asheville's jurisdiction and the County has it's own leagues.

The following persons were not opposed to the development of ballfields in North Asheville, but with the selling of Memorial Stadium and associated property to build those ballfields. Some comments and questions were, but are not limited to: goals should be to find equitable solutions to our parks and recreation needs - not taking from one part of the community and putting it in another part of the community; Parks and Recreation Department has been traditionally under-funded and the community needs to come up with methods for a sustainable funding source; it goes against any fundamental planning principle to go about funding parks and recreation development this way; the selling of Memorial Stadium will not meet the $30 million need to enhance our recreation facilities; the City needs the Parks and Recreation Master Plan and the Greenway Plan prior to making any decisions; Asheville is in desperate need for good quality open space in the City; there are a lot of other real recreation demands in Asheville beyond a baseball facility, like the needs of the soccer community and other youth and adult sports groups; Asheville needs to look beyond this one single opportunity because all of our facilities are aging, and need maintenance; the City needs to look at the potential of Memorial Stadium as a recreational space; don't give up the quality of open space in downtown because it's very important to protect the space we have; if we sell Memorial Stadium we give up a tremendous opportunity to bring different social classes from coming together; Asheville needs to develop civic leadership, the leadership of City government, the leadership of community organizations and corporate sponsorships to make parks happen; do not put the burden of funding a park in North Asheville on the backs of people in Central Asheville; over 495 children live in public housing within walking distance of Memorial Stadium; don't think of this one singular issue but of long range funding sources like a parks and recreation bond referendum; Memorial Stadium is being used by the neighborhood; Memorial Stadium is used by the elderly as a safe, secure place to walk and exercise; parents allow their children to play at Memorial Stadium because it is a safe structure; not all kids belong to an organized little league and they need a safe, structured place to play; the neighborhood will change; this could be a link to a walkable community; Memorial Stadium should remain for the historic value; difficulty to transport kids out of their neighborhoods; don't put a price on a veteran's memorial park; this is an excellent site for the community to hold large, controversial meetings; need to save the land not only for ourselves, but for future generations; find other ways to meet recreation needs other than selling parks; do not sell Memorials; if Memorial Stadium is sold, the Land-of-Sky Veterans Memorial proposes that the alternative site for a veterans memorial be in Pritchard Park, that some of the funds from the sale of that land be devoted to a veterans memorial, (currently propose a statute of a Minute Man surrounding by 3,000 bricks that would be sold to raise $150,000), and that City Council change the name of Pritchard Park to Veterans Memorial Park; Memorial Stadium may be worth more than $2 million; instruct Parks & Recreation staff to find ways to develop both properties; a bond referendum may be the only solution; ideal time to work cooperatively with Buncombe County; the community is being left out; if Memorial Stadium is upgraded, programs will use it; maybe someone in North Asheville can donate land for a field; a large number of acres so close to downtown should be worth more than $1.4 million; wrong to take a park from the poor and build a replacement that most of them can no longer access; do not sell the Memorial Stadium but work to rehabilitate the facility and increase its availability to all; we should promote a Parks Bond; Memorial Stadium is being used; much of the land in the predominantly African American communities have been sacrificed for development over the years by urban renewal; we need to protect the downtown central open public space that we have rather than to give it up to private development; the community will be damaged when offices come into the area; this proposal is divisive and short-sighted; parents of children on ballteams should help make ballfields better and not rely on the City; veterans didn't decide that America was something they could trade in because it was a profit; it is a long way for the kids to walk to Martin Luther King Jr. Park; the area will continue to be developed and take the neighborhood homes; stop redeveloping in that area; concern about potential loss of neighborhoods; development will displace several multi-generation families; work with The Trust for Public Land on building trails on this property; what is the cost to the City to provide for the contingencies in the contract and would the money come out of the contract proceeds; proposal is short-sited, based on poor planning principles, is exclusionary and not consistent with current community-wide planning efforts; the sale is counter to sustainable viability of downtown neighborhoods; the sale will drastically change the make-up of the neighborhood by increasing the amount of non-permeable asphalt and office building; the sale will drive up rents and make some residents of the community look for alternative housing; the youth that will be losing a park are predominantly minority and low income; an issue this divisive can't be the right thing to do; there are racial and class bias undertones that should be taken into account; Memorial Park is near the bus lines and the land on Richmond Hill is far away from public transportation, making it less appealing to the children and youth without transportation; Memorial Park is graded for sports activities and Richmond Hill is woody and hilly meaning costs of grading must be considered; why not get estimates on the costs of bringing Memorial Stadium into line for a recreational facility; consider selling the Richmond Hill property; an easement would have to be granted by someone owning nearby land and easements can cause trouble; adjoining residential owners have given no public discord on being near Memorial Stadium if it remains a recreational facility; restore old landmarks; Memorial Stadium is beneficial to low income people; area residents don't want their neighborhood disrupted; and commercial business will start to intrude into the neighborhoods.

Mr. Tom House, representative of Memorial Stadium Coalition (Presented Council with a packet of information from the Master Plan document along with 1990 census data information for the central and north areas)l

Ms. Willie Mae Brown, resident of the White Fawn/Buchanan community

Mr. Briggs Sherwood, Director of Development for the Asheville-Buncombe Youth Soccer Association (Presented petition from Board opposed to sale and to master planning for parks that does not include accessible public field spaces for youth soccer in all of our neighborhoods. Also presented 17 form letters which note the opposition of selling Memorial Stadium)

Mr. Bill Cravener, representative of the Buncombe County Veterans Council

Mr. Steve Rasmussen, High Priest of Coven Oldenwilde

Ms. Erin McLoughlin, Asheville resident

Ms. Susan Andrew, President of the Kenilworth Residents Association

Mr. Larry Owen, representative of the Veterans of Foreign Wars, member of Disabled Veterans of America, AMVET 333, American Legion

Mr. Richard Griffin (presented drawings of proposed veterans memorial statute)

Ms. Eleanor Earle, Director of a Housing Authority Program

Ms. Elizabeth Brank, 952 West Chapel

Mr. Bob Smith, Asheville-Buncombe Community Relations Council

Mr. Michael Fan

Mr. Rusty Sivils (presented newspaper articles dating back to 1949 regarding Memorial Stadium)

Ms. June Lamb

Ms. Laura Whitley

Mr. Charles McClary Small, Mental Health Tech with the Cooperative Learning Center in Enka-Candler and basketball official

Ms. Janet Hart, resident on Baird Street
Rev. John Grant, Pastor of Mt. Zion Missionary Baptist Church
Mr. John Dean
Mr. Hugh Kelley
Ms. Jan Howard
Mr. Tom Rogers
Ms. Nicki Thurston, veteran
Mr. Benny Lake, Asheville resident and property area in area
Mr. James Geter, President and Chairman of the Eagle/Market Street Redevelopment Corporation
Ms. Jane Mathews
Asheville citizens and former resident of the White Fawn neighborhood
Mr. Ken Fulford, North Asheville resident
Ms. Caroline Tingle, former employee of the County Commissioners Office and former Chairman of the Parks and Recreation Advisory Board
Mr. Tom Wilson, North Asheville resident and served on the North Asheville Little League Board for two years previous to now
Mr. George McConnell, Asheville resident
Mr. Alan Kirkpatrick, representative of the Asheville Ultimate Frisbee Club (Presented Council with a petition containing 502 signatures encouraging City Council to consider other funding options for new recreational resources for the community and not sell Memorial Stadium. Also presented 137 form letters which note the opposition of selling Memorial Stadium)
Mr. Brian Peterson, President of the Coalition of Asheville Neighborhoods
Ms. Marilyn Muccio
Ms. Minnie Jones
Ms. Hazel Fobes (Mayor Sitnick read her letter dated March 10, 1998, into the record)
Mr. John Legerton (Councilman O.T. Tomes was requested to voice opposition)

At 6:57 p.m., Councilman Tomes arrived at the meeting from the Congressional Cities Conference in Washington, D.C.

Upon inquiry of Councilwoman Field, Mr. Brinson said that there is a person in Parks and Recreation who is dedicated to writing grants and who has a 75% success rate on obtaining those grants. He stressed that they are very active in applying for grant money.

Councilwoman Field spoke recently with County Commissioner Chairman Tom Sobol who told her that there was kind of an agreement that the County would deal with soccer facilities and the City would deal with the Little League facilities. She suggested that persons who comment on the need for soccer facilities take their comments to the County Commissioners as well. Mr. Brinson said that the soccer program is actually run by the County Parks & Recreation Services. The City of Asheville has been a player for some time in providing facilities even though on a limited basis. Our competition comes from the programs that we sponsor which happens to be five or six little league organizations and the over 150 adult softball teams that we have that are competing with the same fields. There has been a concentrated effort to try to address the particular needs of all, and the comprehensive Master Plan will do some of that, but as far as the soccer facilities themselves, it has been the direction of the County to address those on a neighborhood level.

Mayor Sitnick noted that the City resident pays 3 and 1/2 times as much for recreation as does the resident outside the City even though the parks are available to everyone equally.

City Manager Westbrook pointed out that it was reported in the newspaper that the City had asked the County to cooperate on a soccer area in the purchase of the property to do that and the County declined to do so. So, the City staff is at this point unilaterally moving forward to try to acquire some property for soccer. That has not come back to City Council for any decision because we haven't come up with a solution yet but we are moving forward on that.

Mr. Robert Camille said that when this issue was first being talked about, it was never intended to do anything negative to anyone. They saw this viable field but our need was greater than a single field - we needed a lot of fields. He originally approached the City first about an easement to the adjoining 29 acres and after talking with Mr. Brinson they saw it as a win-win proposition for everyone. Since this particular field is within the North Asheville District that we would not be taking away from those children but rather giving them more than what they currently have. To expand that facility would require significant grading and taking away the trees - things that people want to save. Only one person has called to ask him to ask about what his plans were for the property. The way he sees it, they were going to add a substantial amount of money to the tax base which would benefit all residents. They were going to provide four baseball fields and two football/soccer fields in place of one. There really is no comparison in terms of usage. The people in Richmond Hill area have nowhere to play and there are some in downtown. Some people talked negatively about redevelopment, but Martin Luther King Park was a product of a redevelopment effort. He thought what they were doing was a good thing for everyone in the City of Asheville by providing privately funded fields. He has no interest in a bond referendum but he would support one for the right purpose. They specifically made this contract requirement to build a new park in exchange for this park - it was not just a matter of giving money to the City.

Upon inquiry of Mayor Sitnick, Mr. Camille said that he is no longer working with the original group of doctors regarding this purchase - he is working alone. He said at this point he has no concrete plans but he does have somewhat of a vision for the area - and he does not see it as something like the Asheville Mall. It is really set up to be developed in smaller parcels. He sees a much greater area to walk. Right now a lot of that property is inaccessible - it's too steep and couldn't be developed for any use. The 29 acres that he's looking at buying is primarily a buffer. What would probably happen is to be split up into five residential lots and sell them off as that with deed restrictions that would require them not to be subdivided and restrict them to single-family.

Mayor Sitnick noted that Mr. Beasley, who performed the appraisal, called the City's 21 acres as prime downtown land and said that if it was divided up it would bring in a lot more money. Mr. Camille responded that it would be worth more, but you would have to pay to bring in the infrastructure, the roads, etc. at a substantial cost.

Mayor Sitnick closed the public hearing at 9:29 p.m. and called for a short recess.

Councilman Tomes stated that he was very comfortable in making a decision regarding this issue at this time as a result of the mail, phone calls and comments made at this hearing.

City Attorney Oast advised City Council the motions available. City Attorney advised them that they can accept Mr. Camille's bid as it is offered, or you can reject Mr. Camille's bid. If what Council wants to do is keep Mr. Camille's bid out there, they can establish another ten day period for making upset bids and that way they wouldn't be forced to reject his offer. However, if Council wants to re-open the process and consider selling part of the property or somehow deed restrict it, he suggested that Council take some action on Mr. Camille's bid.

Vice-Mayor Hay felt that we should start with the basic premise of if Council wants to sell under any circumstances. If the answer is no, then we can just stop and reject the bid. If the answer is yes, then we can decide under what circumstances and under what term.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that it would be appropriate for Council to consider a motion to direct staff to discontinue efforts to sell Memorial Stadium at this time.

Councilman Tomes thanked all of citizens for their comments on this issue. He said that he has struggled with this issue from its very inception. He has come to a clear resolve in his own mind that he cannot support the sale of Memorial Stadium. He believed that if we had the Comprehensive Master Plan of parks and recreation needs of this City along with cost estimates, it would help me have some thorough feeling and perception as to what the needs are. He felt that the sale of Memorial Stadium is just a fraction of the finance that's needed for the recreational needs of this City. He didn't think Council would be good stewards to piece-meal the process that needs to be thought through thoroughly and needs to have some vision and depth to it. He could not support the sale of Memorial Stadium because he didn't have the whole picture.

Mayor Sitnick also felt that we should wait for the Master Plan. She was concerned about a lot of the issues brought up, i.e., the impact on the neighborhood, not knowing exactly what the development would be, and certainly the argument posed to Council by the veterans. She was concerned about setting a precedent. She felt that everyone agree with the fact that we need ballfields in North Asheville. She believed that this Council is committed to achieving that, at least with great diligence during their term. She has been on the phone for the last two weeks with people in Raleigh, with local corporations and developers, and with some people who provide foundation grants, looking for that money. She noted that she has a couple of potential things happening. She agreed that we need to look at the bigger picture of parks and recreation needs. If we don't begin to invest in our children at the front end, then the cost down the line will be much greater than the parks and recreation needs. And, according to Mr. Brinson, $30 million is the least amount needed and that figure could exceed $50 million to provide adequate soccer fields, little league fields, skateboard parks, passive parks, etc. that this community needs and deserves. She didn't know whether a bond is the way to proceed but certainly she would support a referendum to let the people decided on whether a bond was the way to proceed. But, for now, the thought of selling Memorial Stadium for all of the reasons that have been stated is not something that she is comfortable with.

Councilman Cobb felt that after City Council reviews the Master Plan, then Council can decide if they want to proceed.

Councilman Cloninger said that Mr. Brinson has already told Council that although the Master Plan has not been released yet that the sale of this property and using the money to build the fields at Richmond Hill is consistent with what the Master Plan would say, in that we currently have more playing fields and recreational opportunities in the center of the City than we do in other areas, including North Asheville. He has always been a part of organized sports and he felt it is one of the most important things we can do for our youth. Some concerns he had have been satisfied like the effect it would have on the people in the area of Memorial Stadium. He noted we will continue to have a three acre park and it will be greatly improved and give people a place to go. In addition, there are ways we can reconfigure the boundaries of the different little league areas so that the kids in the center city will not have to travel out to these other places and they'll have more playing time available on these fields because the North Asheville group won't require as much use of those fields. He has heard a lot of examples of where parents have gotten together to carpool and transport kids to playing fields and he was confident that the little league groups would help along those lines as well. The concern he has about accepting Mr. Camille's proposal is that he doesn't think we have done a good enough job of finding out if that is the top dollar that we can get for the property or whether we can perhaps sell a smaller portion of that property rather than all of it. Also, as the proposal stands now, there are not adequate protections as to limitations on what the steep slope could be back behind the flat area where

107

Memorial Stadium is. At the worksession he believed Council reached generally a consensus that if we decide to sell, we would want to have some kind of restrictions so that would be protected. Also, Council wanted right-of-way easements for greenways and that sort of thing. He felt that when the City received the offer from Mr. Camille there was only a ten day upset bid period. Frankly he didn't feel that was enough time for the other real estate agents and developers to try to perhaps put together a package to offer more than what Mr. Camille had offered. Therefore, he would like to see the City come up with a way to put the property back on the market, noting that Council can always not accept the offer. But, at least we can explore what the value of it is. He suggested that we do it in a way that doesn't involve simply putting it out for another 10 day bid period. He also suggested Council should decide whether to list it with a Realtor or market it ourselves through advertising. In any event, if the City is going to sell it, they need to be assured that they are getting the most money they can. He supported putting every penny of it back into parks and recreation - not only Richmond Hill but other areas where it may be used as well.

Councilwoman Field said that the possibility of a parks and recreation bond comes slimmer and slimmer when you look at the responsibility that the City will have for stormwater. Asheville will be mandated to meet the requirements of Phase II of the Clean Water Act, which means that we are going to have to treat stormwater. That means we are going to have to capture stormwater and that means a $40 million investment. We cannot do that without some kind of bond funding. Also, there is a bill that has passed the House and is going into the Senate (the InterNet Sales Tax Bill) which is going to prevent the charging of sales taxes on the InterNet for items that are sold in our communities. What that means is local retail merchants will have to compete with the InterNet for selling of items. The InterNet is currently doubling the volume of business that it does every four weeks. What that does is put tremendous competition to local small businesses and it also puts us globally in the position of if we charge sales taxes at all, we are not in the global market. The N.C. League of Municipalities sees that sales tax will cease to be a viable tax in any community is this country. Sales taxes usually amount to between 30-50% of a city's revenues. The point is we will see our revenues going down, we will see our businesses getting smaller - at least for the short term. All those businesses that take advantage of the InterNet will also get larger. She understood that the President, the Vice-President, the Senate and the House all are in support of this bill. Therefore, we will be looking at less resources rather than more resources coming into our City and she really didn't see that we are going to be able to go forward with a $30 million parks and recreation bond, once all of these things start coming forward. She didn't think Council should make their decisions based on the fact that there will be a parks and recreation bond.

Councilman Tomes added a footnote to Councilwoman Field's comments in that after Councilwoman Field left Washington, Senator Lauch Faircloth was in a meeting and he made it clear to them that he would not support the bill before the Senate. Senator Faircloth asked that the local business people send their comments because they have not heard from anyone in the local communities.

Councilman Cobb moved to reject Mr. Camille's bid. This motion was seconded by Councilman Tomes.

Vice-Mayor Hay said that he was committed in finding the money for North Asheville parks. However, he felt the present proposal was a mistake for us. He would like for Council to take a step back. He shared Councilman Cloninger's concern that we are not getting top dollar for it. He is particularly taken with the arguments in favor of keeping greenspace, the acreage behind the stadium itself, the connection to the top of the mountain, and the greenways. The appraiser told us that the portion of the sales price, which is attributable to that acreage, is relatively small. He wanted to preserve the part that is wooded behind which goes up the mountain and not putt that up for sale at all. He also felt we could take advantage of the portion from the gate over, towards Mountainside Park, by retaining it and developing it into a very functional neighborhood park so that the people who live in the neighborhood will have expanded opportunities for parks. He wanted Council to take a step back and suggested staff see what we can do about selling just that portion of the gated Memorial Stadium property. That is the part where the offices are proposed to be built, that is least used by the public, and that is the part that we can easiest replace with facilities at Richmond Hill. He would vote in favor of the motion, but would follow it with his proposal.

Mayor Sitnick noted that the gated portion of Memorial Stadium that Vice-Mayor Hay was talking about is zoned Institutional, which allows many uses in that district.

The motion made by Councilman Cobb to reject Mr. Camille's bid and seconded by Councilman Tomes carried unanimously.

Vice-Mayor Hay moved that we direct staff to report back to Council on the feasibility of selling the gated portion (approximately 7 acres) of Memorial Stadium property. This motion was seconded by Councilwoman Field.

Mayor Sitnick said that she had a problem with selling a memorial anything. Given the institutional zoning for that portion of the property, the neighborhood will be impacted severely because there are extensive uses permitted in that district. She also felt that we are setting a precedent and in 20 years we would look back on the sale like we are looking back now on other things that the City has given away including our water and sewer systems - the only revenue sources any municipality really has. Even though she understands we would be looking at a smaller portion of Memorial Stadium, she has a problem with the fact that parks and recreation is not getting better funding and that we are not looking in every possible place for revenues. She applauded that there has been this effort to create new ways to create revenues and she hoped that continues. However, selling Memorial Stadium, or any portion of it, is not the way to do it.

Vice-Mayor Hay said that the City can put whatever restrictions on the property that want. Regarding the memorial issue, he would like to hear more from the veterans about the possibility of replacing that memorial piece with something that the veterans find every bit as acceptable.

Mayor Sitnick asked if there was a possibility for the Parks and Recreation Department to create two or three little league ballfields at Memorial Stadium.

Councilman Cobb was opposed to selling any of Memorial Stadium. After hearing comments and by the number of phone calls and letters he's received, in his mind, there is no question that the majority of the people in Asheville don't want it sold.

Councilman Tomes stressed from his point of view, the City needs to have the broad picture of the master plan before making any decisions.

The motion made by Vice-Mayor Hay and seconded by Councilwoman Field carried on a 4-3 vote, with Mayor Sitnick and Councilmen Cobb and Tomes voting "no".

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 24, 1998, AND THE WORKSESSION HELD ON MARCH 3, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on February 24, 1998, and the worksession held on March 3, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. REQUEST FOR FUNDING ECOTOURISM SUMMIT

Mr. Ian Booth, Project Manager for the Mountain Area Ecotourism Project, requested a one time commitment of $5,000 in support from the City of Asheville for the upcoming Ecotourism Summit for July 24 and 25, 1998. The County Commissioners have voted unanimously on February 17, 1998, to provide $5,000 support, contingent upon confirmation of the City's commitment to match.

After a brief discussion, it was the consensus of Council to have the Outside Agency Committee meet on Tuesday, March 17, 1998, at 2:30 p.m. in Room 209 of the City Hall Building to discuss the request and report back to Council at their worksession later that day.

C. CLAIMS

The following claims were received by the City of Asheville during the period of February 6-26, 1998: Scott G. Buchanan (Fire), Dr. Leo Potts (Sanitation), CP&L (Water), Monte Frank Roper (Sanitation), Amanda Vance (Streets), David Cornwell (Water), Michelle Evans (Water), Hank Miller (Water), Amy Vinca (Water), Janet Desloges (Water), Adam Boone (Water), Steven Brown (Water), James & Mary Seward (Water), Ray Denny (Inspections), Mindy Hughes (Water), Bill Mitchell (Sanitation), Randy Smith (Water) and Lenior Swicegood (Sanitation).

The following claims were received during the week of February 27 - March 3, 1988: Mike Byer (Fire), Sheryl Hill (Parks & Recreation), Lisa McFee (Water), Travis Owen (Parks & Recreation), Patty Lyda (Sanitation) and Dianna Gricus (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

D. LAWSUITS

The following complaint was served on February 25, 1998: Multimedia Publications of North Carolina, Inc., d/b/a Asheville Citizen-Times Publishing Company v. City of Asheville. The nature of the proceeding is release and disclosure of certain documents related to the payment of franchise fees by the cablevision company to the City of Asheville.

The following complaint was served on March 6, 1998: Richard A. Black, individually and in his capacity as Administrator of the Estate of Dorcas Faye Black, deceased, v. City of Asheville. The nature of the proceeding is wrongful death and personal injury.

These lawsuits will be handled by attorneys outside of the City Attorney's Office.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:40 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 17, 1998- 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Contract Award for Biltmore Village Street Lights & Fixtures

Summary: The consideration of entering into a contract with Haynes Electric Construction Company in the amount of $20,200 to install 42 decorative street light poles and fixtures in the Biltmore Village Historic District of Asheville.

Change Order for Additional Repairs to Civic Center Parking Deck

This item was pulled from the agenda.

Pilot Program relative to 70 Hanging Flower Baskets in Downtown

Summary: The Potpourri Garden Club desires to sponsor a pilot program to place 70 baskets containing flowers which will hang from street light poles in the Downtown District.

Mayor Sitnick hoped that whatever efforts are made in the downtown area, like mini-kiosks, that we apply some of those solutions to other areas in the City as well.

Summertime Kids Program Grant Application with WNC Community Foundation

Summary: The consideration of the City applying for a $2,000 grant through the Community Foundation of Western North Carolina for enrichment activities for the Summer Teen Program.

Approval of Regional Water Authority's recommendation to award construction contracts for Newfound Mountain Reservoir & Water System Improvements Project

Summary: The consideration of a resolution awarding construction contracts to Cooper Construction Company, General Contractor, in the amount of $825,831, and M.B. Haynes Electric Company, Electrical Contractor, in the amount of $$87,945, for the Newfound Mountain Reservoir and Water System Improvements project. The bid summary is as follows:

GENERAL CONTRACT
Engineer's Estimate: $ 1,190,000

COMPANY	BID
Cooper Construction Company, Hendersonville, N.C.	$ 825,831
Buckeye Construction Company, Canton, N.C.	$ 922,424
Steppe Construction Company, Mill Spring, N.C.	$ 984,985
Hobson Construction Company, Arden, N.C.	$ 1,009,675

ELECTRICAL CONTRACT
Engineer's Estimate: $ 80,000

M.B. Haynes Electric Company, Asheville, N.C.	$ 87,945
Hayes & Lunsford Electric Company, Asheville, N.C.	$ 98,200
Brevard Electric Company, Brevard, N.C.	$ 99,600

Approval of Regional Water Authority's recommendation to purchase approximately two acres on Candler Knob Road from Buncombe County for West Asheville Reservoir

Summary: Consideration of recommendation to purchase approximately two acres on Candler Knob Road from Buncombe County in the amount of $21,000 for the construction of a new 5 million gallon West Asheville Reservoir.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRESENTATION BY GREENWAYS INC. REGARDING GREENWAY MASTER PLAN

Mr. Mike Matteson, Urban Planner, said that The Trust for Public Land is a private nonprofit organization that acquires land for the use and benefit of the public. They have an ongoing working relationship with the City of Asheville with respect to greenway planning.

Greenways, Inc. is one of the nation's foremost landscape architecture and greenway planning and design firms. The Trust for Public Land has subcontracted with Greenways, Inc. on the greenway master plan.

Mr. Matteson then introduced Mr. Will Abberger, representative from The Trust for Public Land, and Mr. Chuck Flink, representative from Greenways Inc., who briefed City Council about the greenway master planning process, the Broadway/Reed Creek Greenway and about the benefits of greenways in general.

Mr. Abberger and Mr. Flink responded to various questions from Council relative to greenways.

Upon inquiry of Councilman Cloninger, Mr. Flink said that the greenway master plan will be completed in June of 1998 and before City Council for approval shortly thereafter.

On behalf of City Council, Mayor Sitnick expressed Council's full support of the greening of Asheville.

1998 BELE CHERE BUDGET REQUEST

Mr. Irby Brinson, Director of Parks & Recreation, said that over the past several months, various committees of the Bele Chere Board and staff liaisons have been working to complete a balanced budget for the 1998 Bele Chere Festival. The budget ordinance, in the amount of $506,000, establishes this budget for anticipated expenditures and revenues for the upcoming festival. He noted that from an economic impact, Bele Chere generates $12 Million in three days.

Mr. Brinson responded to several questions from Council, some being, but are not limited to: how much overtime is spent in the Public Works, Police and Parks and Recreation Departments, and what items are associated with logistics.

Upon inquiry of Councilman Cobb, Mr. Brinson said that they strive to have 2/3 of the entertainment being from local entertainers in this region. The majority of the other dollars goes to headliners.

Mayor Sitnick suggested the Bele Chere Committee consider the idea of charging to participate in Bele Chere, possibly by selling buttons to show support. Those buttons could be sold at movie theaters, gas stations, check-out counters, etc., for maybe 50-cents to $1 with the proceeds going to the City to help with expenses. If this would prove to have a negative impact, then she felt the City should not proceed in that direction. However, she hoped that the Bele Chere Committee and the Parks and Recreation staff continue to look at creative, innovative way to bring in money for parks and recreation needs for this community. She also suggested that staff bring back a report to Council at some later appropriate time with some ideas in the direction of additional revenue sources that will help benefit Bele Chere.

Councilwoman Field was not comfortable in using Bele Chere as a money-making festival for the City. She suggested if Bele Chere makes money, the City should put it back into the Bele Chere Festival for better events and paying local performers a little more money because local acts can't afford to perform at Bele Chere.

Upon inquiry of Councilman Cloninger, Mr. Brinson said that staff will look at festivals that have been established for 10-15 years and then see how the reactions were when they started charging to attend the festivals.

It was the consensus of City Council to ask Mr. Brinson to review the information already accumulated relative to additional revenue at Bele Chere and look for other possibilities for revenue for the 1999 festival.

Mayor Sitnick asked that the record show that City Council has received this budget amendment information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS FROM BOARDS & COMMITTEES

Outside Agency Review Committee

At the request of City Council on March 10, 1998, the City's Outside Agency Committee met with Mr. Ian Booth relative to the Mountain Area Ecotourism Project to consider his request for a one-time contribution of $5,000 to match the County's contribution of $5,000. As a result of that meeting, the Committee recommended an appropriation of $2,500 to come out of this fiscal year's budget.

It was the consensus of City Council to instruct the City Manager to place this item on the next formal City Council agenda.

Housing & Community Development Committee

Councilwoman Field reported that the Housing and Community Development Committee has met and reviewed applications totaling $3.75 million. Because the City has only $1.83 million to appropriate, tough decision will have to be made on which projects to fund at what amounts. She also commented on the HOME Consortium's application process as well.

Recreation Board

Councilman Cobb invited City Council to the Parks and Recreation Master Plan meeting on Wednesday, March 18, 1998, at 7:00 p.m. in the Civic Center Banquet Room.

OTHER BUSINESS

Hillcrest

Councilman Tomes asked for Council's support relative to the pedestrian bridge issue at Hillcrest along with some better access for the Hillcrest residents.

Discussion surrounded why the pedestrian bridge was closed, noting that the Housing Authority, at the request of the Hillcrest Residents Association, asked City Council to request the N.C. Dept. of Transportation ("NC DOT") to close the bridge. At the City's request, NC DOT did close the bridge with the community's interest at heart.

It was the consensus of City Council for staff to report back to City Council at their next worksession with a history of the pedestrian bridge issue, and then hold a community meeting at Hillcrest and invite a representative from NC DOT, the Hillcrest Residents Association, the Asheville Transit Authority, and members of the Housing Authority to the meeting.

Litter

Due to the inordinate amount of litter in and around Asheville, it was the consensus of City Council to hold the Mayor's first roundtable on litter to educate the citizens and tourists to not only clean up Asheville, but not to trash it. Staff was instructed to begin the process with an oral report at a worksession from the Public Works Director as to what they are already doing to help combat litter. Thereafter, a date will be set for the roundtable, along with a press release to be prepared inviting the public, along with Quality Forward, Adopt a Street Program, representatives from business organizations, representatives from schools, and Chamber of Commerce representatives.

Mayor Sitnick suggested an overall theme be developed with some sort of recognition of people going the extra mile in helping control litter.

City Manager Westbrook noted that there is a problem along major thoroughfares with trash from fast food restaurants and construction projects. Mayor Sitnick responded that she would encourage fast food restaurants to do something in-house so their customers are educated on litter control.

Councilman Cloninger said that he would be happy to talk to the Chamber of Commerce about this issue because litter is a tourism issue too.

Towing of Vehicles from Private Parking Lots

At the request of Vice-Mayor Hay, City Attorney Oast said that he would investigate if the City can regulate the $100 towing charge to people who are towed out of privately operated parking lots. Also, the City Attorney was instructed to see if the City can require all parking lots to have consistent signage in a prominent place concerning the towing.

114

CLOSED SESSION

At 5:03 p.m., Vice-Mayor Hay moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the purchase of land - statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:20 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 24, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor Hay gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF EXCHANGE STUDENTS FROM ASHEVILLE HIGH SCHOOL'S SISTER SCHOOL IN KOFU-NISHI HIGH SCHOOL IN KOFU, JAPAN

On behalf of the City of Asheville, Vice-Mayor Hay welcomed the exchange students from Asheville High School's sister school in Kofu-Nishi High School in Kofu, Japan, and presented each student with a proclamation welcoming them to Asheville.

B. PROCLAMATION PROCLAIMING MARCH 24, 1998, AS "DIABETES ALERT DAY "

Councilman Tomes read the proclamation proclaiming Tuesday, March 24, 1998, as "Diabetes Alert Day" in the City of Asheville and presented the proclamation to Mr. Clayton Harmon who briefed Council on some planned activities taking place during the day.

C. PROCLAMATION PROCLAIMING APRIL 2, 1998, AS "CANCER FATIGUE AWARENESS DAY "

Councilman Cobb read the proclamation proclaiming Thursday, April 2, 1998, as "Cancer Fatigue Awareness Day" in the City of Asheville and presented the proclamation to Ms. Dawn Neuhauser, President of the Carolina Blue Ridge Chapter of the Oncology Nursing Society and Ms. Pat Johnston who briefed Council on some planned activities taking place during the day.

D. PROCLAMATION PROCLAIMING APRIL 6-12, 1998, AS "COMMUNITY DEVELOPMENT WEEK"

Councilman Cloninger read the proclamation proclaiming the week of April 6-12, 1998, as "Community Development Week" in the City of Asheville and presented the proclamation to Mr. Marvin Vierra, Community Development Director, who briefed Council on some planned activities taking place during the week.

E. PROCLAMATION PROCLAIMING SATURDAY, APRIL 11, 1998, AS "PARKINSON DISEASE AWARENESS DAY "

Mayor Sitnick read the proclamation proclaiming Saturday, April 11, 1998, as "Parkinson Disease Awareness Day" in the City of Asheville and presented the proclamation to Ms. Jane

Bingham, President of the Parkinson Support Group of Asheville, who briefed Council on some planned activities taking place during the day.

F. PROCLAMATION PROCLAIMING THE MONTH OF APRIL, 1998, AS "ALCOHOL AWARENESS MONTH"

Councilman Sellers read the proclamation proclaiming the month of April, 1998, as "Alcohol Awareness Month" in the City of Asheville and presented the proclamation to Ms. Bonnie Rose, Executive Director of the Buncombe County Drug Commission, who briefed Council on some planned activities taking place during the month.

II. CONSENT:

A. RESOLUTION NO. 98-30 - RESOLUTION RE-SCHEDULING CITY COUNCIL WORKSESSION ON APRIL 7, 1998, UNTIL APRIL 8, 1998

Summary: The majority of City Council members will be out of town on Tuesday, April 7, 1998.

RESOLUTION BOOK NO. 24 - PAGE 360

B. RESOLUTION NO. 98-31 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH POTPOURRI GARDEN CLUB FOR A PILOT PROGRAM TO PLACE 70 HANGING BASKETS CONTAINING FLOWERS IN DOWNTOWN ASHEVILLE

Summary: The Potpourri Garden Club desires to sponsor a pilot program to place 70 baskets containing flowers which will hang from street light poles in the Downtown District.

Last fall, representatives from the Potpourri Garden Club proposed to staff to sponsor a pilot program to place 'hanging' flower baskets on selected downtown streets. This program is modeled after a successful downtown flora beautification program in Roanoke, Virginia, which has maintained 331 baskets during the past decade.

The Streetscape Committee (Downtown Commission) has reviewed the proposal for both aesthetic consistency and location, and has approved this pilot program.

The Parks and Recreation Department proposes to maintain, water and fertilize the plants throughout the growing season. The Public Works Department agrees to construct brackets (using Streetscape funding of approximately $2,500) and attach them to poles at agreed-upon locations.

An agreement has been drafted by staff and agreed to by the Potpourri Garden Club which clearly outlines each partner's responsibilities.

Additionally, the City only commits to a two-year pilot program for the purpose of gauging public sentiment and aesthetic appeal. Any program continuance or expansion will be contingent on private funding and public participation only as approved by City Council.

The Parks and Recreation and Public Works Departments are poised to participate in this pilot program with the Potpourri Garden Club and recommends that City Council authorize the City Manager, on behalf of the City of Asheville, to enter into an agreement with the Potpourri Garden Club for a 2-year pilot program for 70 hanging baskets in downtown Asheville.

117

RESOLUTION BOOK NO. 24 - PAGE 361

C. RESOLUTION NO. 98-32 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH HAYNES ELECTRIC CONSTRUCTION COMPANY FOR THE INSTALLATION OF 42 DECORATIVE STREET LIGHTS AND FIXTURES IN BILTMORE VILLAGE

Summary: The consideration of entering into a contract with Haynes Electric Construction Company to install 42 decorative street light poles and fixtures in the Biltmore Village Historic District of Asheville.

The Asheville City Council entered into an agreement with the Biltmore Village Historic Museum Commission, Inc., as representatives of the Biltmore Village property owners concerning the purchase and installation of decorative street lighting for 42 locations within the Biltmore Village Historic District.

The City of Asheville has received $20,000 from the Biltmore Village Museum toward the purchase and installation of these decorative fixtures. The City 's Traffic Engineering Division has budgeted an additional $36,548 for this project.

The City, through the Engineering Department, solicited formal bids for the above stated project. This bid process engaged in February, 1998; whereas a total of 25 advertisement for bid letters and bid packages were sent out, including five to certified minority businesses registered with the City. Advertisement letters were also sent to the Association of General Contractors, F. W. Dodge and the Buncombe County Minority Affairs' office. We did not receive enough bids at our initial bid opening on February 4, 1998. The project was re-advertised and one bid proposal was received on March 2, 1998, none of which were from certified minority businesses.

The lowest, responsible bid that met the City's and Biltmore Village's requirements was from Haynes Electric Construction Company of Asheville, N.C., for a bid price of $20,200.

Staff recommends that the City Manager be authorized to enter into a contract with Haynes Electric Construction Company for the bid price of $20,200, for the project known as Installation of 42 Decorative Street Lights and fixtures in the Biltmore Village Area.

RESOLUTION BOOK NO. 24 - PAGE 362

D. RESOLUTION NO. 98-33 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA FOR A GRANT TO DEVELOP AND IMPLEMENT THE ENRICHMENT ACTIVITIES IN THE PARKS AND RECREATION SUMMER TEEN PROGRAM

Summary: The consideration of the City applying for a $2,000 grant through the Community Foundation of Western North Carolina for enrichment activities for the Summer Teen Program.

Funds are available through the Community Foundation of Western North Carolina in the Summertime Kids 1998 program to provide fun and safe summer activities for youth.

The Summer Teen Program is designed to provide recreation activities for teens ages 12-16 for eight weeks during the summer. The program is located at six locations throughout the

City in community centers. The Teen Program will offer a wide variety of recreation activities and hands-on job training. Grant funds will be used to implement the enrichment activities. The amount of the grant request is $2,000. The Parks and Recreation Department's match of $27,000 will be in labor, administration, transportation, supplies, and training for the overall Summer Teen Program. The funds are budgeted in the Recreation Division.

The Parks and Recreation Department recommends the approval of the application for the grant funds through the Community Foundation of Western North Carolina through the Summertime Kids 1998 program.

RESOLUTION BOOK NO. 24 - PAGE 363

E. RESOLUTION NO. 98-34 - RESOLUTION AWARDING CONSTRUCTION CONTRACTS TO COOPER CONSTRUCTION COMPANY, GENERAL CONTRACTOR, AND M.B. HAYNES ELECTRIC COMPANY, ELECTRICAL CONTRACTOR, FOR THE NEWFOUND MOUNTAIN RESERVOIR AND WATER SYSTEM IMPROVEMENTS PROJECT

Summary: The consideration of a resolution awarding construction contracts to Cooper Construction Company, General Contractor, and M.B. Haynes Electric Company, Electrical Contractor, for the Newfound Mountain Reservoir and Water System Improvements project.

Sealed bids were received and opened on Thursday, March 5, 1998. for the Regional Water Authority's Newfound Mountain Reservoir and Water System Improvements Project. Four bids were received for the General Contract which includes the installation of approximately 20,000 linear feet of 12-inch waterline and the construction of a water booster pumping station. Cooper Construction Company submitted the low bid of $ 825,831 for this contract. Three bids were received for the electrical component of the project, with M.B. Haynes Electric Company submitting the low bid of $87,945.00. The engineer's estimates for these projects are $1,190,000 and $80,000 respectively. Sufficient funds exist in the budget for these construction contracts plus contingencies. Remaining funds are earmarked for the proposed construction of a 1 million gallon reservoir which is also part of this Master Plan Project. This project will improve water service to customers in the Leicester and West Buncombe areas. Construction on this project is scheduled to begin in late April, 1998 with 180 days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time. These bids were received in accordance with N. C. Gen. Stat. sec. 143-129 and in accordance with the City of Asheville's Minority Business Plan. All the bids that were received are listed below in order of bid amount:

GENERAL CONTRACT
Engineer's Estimate: $ 1,190,000

COMPANY	**BID**
Cooper Construction Company, Hendersonville, N.C.	$ 825,831
Buckeye Construction Company, Canton, N.C.	$ 922,424
Steppe Construction Company, Mill Spring, N.C.	$ 984,985
Hobson Construction Company, Arden, N.C.	$ 1,009,675

ELECTRICAL CONTRACT
Engineer's Estimate: $ 80,000

M.B. Haynes Electric Company, Asheville, N.C.	$ 87,945
Hayes & Lunsford Electric Company, Asheville, N.C.	$ 98,200
Brevard Electric Company, Brevard, N.C.	$ 99,600

The Regional Water Authority approved award of these contracts to Cooper Construction Company and M.B. Haynes Electric Company on March 17, 1998, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 24 PAGE 364

F. RESOLUTION NO. 98-35 - RESOLUTION APPROVING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO PURCHASE APPROXIMATELY TWO ACRES ON CANDLER KNOB ROAD FROM BUNCOMBE COUNTY FOR THE CONSTRUCTION OF A NEW FIVE MILLION GALLON WEST ASHEVILLE RESERVOIR

Summary: Consideration of recommendation to purchase property from Buncombe County for the construction of a new 5 million gallon West Asheville Reservoir.

The Regional Water Authority and City Council have awarded a contract for the construction of a new 5 million gallon reservoir in West Asheville. The property on which the reservoir is proposed, approximately 2 acres on Candler Knob Road adjacent to an existing 3 million gallon reservoir, is owned by Buncombe County. The City of Asheville has had a license agreement with Buncombe County for the use of this property since the early 1980's. However, prior to the construction of the reservoir the land must be owned by the City of Asheville and the County has offered to sell it to the Authority, for the City, at its appraised value. The Authority had the property appraised at a value of $21,000. The County Commissioners at their meeting on March 10, 1998, agreed to sell the property to the City at this price.

The Regional Water Authority approved the purchase of this property for the City of Asheville at its February 1998 meeting and staff recommends City Council's concurrence with the Authority's action to purchase said property from the County in the amount of $ 21,000.

RESOLUTION BOOK NO. 24 - PAGE 365

G. RESOLUTION NO. 98-36 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE FINAL DOCUMENTS TO EXCHANGE PROPERTY BETWEEN THE CITY OF ASHEVILLE AND THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES

Summary: The consideration of a resolution authorizing the Mayor to execute final documents to exchange property located behind the W.C. Reid Community Center Annex Building with the Opportunity Corporation of Buncombe-Madison County.

The Parks and Recreation Department and the Advisory Board have worked with the Opportunity Corporation of Buncombe and Madison County concerning a piece of property located behind Reid Center which would serve as administrative offices for their operations. The approximate size of this purchase would be approximately 1.3 acres. The survey shows the exact location for this purchase. The Opportunity Corporation of Buncombe and Madison County would be making a financial contribution of $20,000 to the Parks and Recreation Department to fund a mini park in the West End section of Asheville. In addition, the Opportunity Corporation would be donating materials and administrative costs up to $16,000 to construct a bridge across the creek at the base of the property as well as providing an easement across their property for greenway development.

The Parks and Recreation Department recommends adoption of the resolution authorizing the Mayor to execute final documents to exchange property located behind the W.C. Reid Community Center Annex Building with the Opportunity Corporation of Buncombe-Madison County.

RESOLUTION BOOK NO. 24 - PAGE 366

H. ORDINANCE NO. 2457 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FOR THE 1998 BELE CHERE PROJECT

Summary: The consideration of a budget amendment, in the amount of $506,000 for the 1998 Bele Chere Festival.

Over the past several months, various committees of the Bele Chere Board and staff liaisons have been working to complete a balanced budget for the 1998 Bele Chere Festival. The budget ordinance establishes this budget for anticipated expenditures and revenues for the upcoming festival.

The Parks and Recreation Advisory Board, the Bele Chere Board, and the Parks and Recreation staff request approval by City Council of the budget ordinance for the 1998 Bele Chere budget.

ORDINANCE BOOK NO. 16 - PAGE 423

I. ORDINANCE NO. 2458 - BUDGET AMENDMENT TO HELP SUPPORT THE MOUNTAIN AREA ECOTOURISM SUMMIT

Summary: The consideration of a budget amendment, in the amount of $2,500, to supplement support for a two-day regional Ecotourism Summit on July 24 and 25 at the North Carolina Arboretum.

ORDINANCE BOOK NO. 16 - PAGE 428

J. MOTION SETTING A PUBLIC HEARING ON APRIL 14, 1998, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE ADULT ESTABLISHMENTS FROM USES BY RIGHT SUBJECT TO SPECIAL REQUIREMENTS TO CONDITIONAL USES

K. MOTION SETTING A PUBLIC HEARING ON APRIL 14, 1998, TO REZONE TWO LOTS ON 16 BEAR CREEK DRIVE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO HB HIGHWAY BUSINESS

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CONSIDERING THE REZONING OF PROPERTY ON OLD HAYWOOD ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

Mayor Sitnick opened the public hearing at 5:37 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that David and Connie Evans and Max and Flora Wilson are the owners of 3 lots (PIN Nos. 9628.13-12-1961, 9628.17-02-6431, and 9618.16-93-6038), containing approximately 42 acres, located on Old Haywood Road near its intersection with Patton Avenue. The property is wooded with two homes located on it. The area adjacent t Lakeside Drive is wet and marshy. The property is served by a 6-inch water line and an 8-inch sewer line. There is adequate capacity in the 6-inch water line and the 8-inch sewer line for additional development. One of the sewer lines that has been serving this property has been recently rehabilitated. The property which is requested to be rezoned was R-3 under the old zoning ordinance but with the adoption of the Unified Development Ordinance, the property was designated RS-4. The R-3 designation of the property under the previous zoning ordinance permitted a development density of 16 units per acre, both single family and multi-family development. The owners of this property have petitioned for its rezoning from its current single family designation to a multi-family designation. The original rezoning request, submitted in October, 1997, was for 13 lots, comprising approximately 68 acres, to be rezoned from RS-4 to RM-16. Owners of 10 of the 13 lots subsequently withdrew their property from the rezoning request. Due to the withdrawal of most of the petitioners, this request was tabled by the Planning and Zoning Commission at their October meeting. Prior to the review of this request by the Planning and Zoning Commission, it was received by the City's Technical Review Committee ("TRC"). The initial review was for the original rezoning request of 13 lots to be rezoned from RS-4 to RM-16. At that time, the TRC agreed by consensus that infrastructure was not available in this area to serve 16 units per acre development on approximately 60 acres. They did recognize that density of approximately 8 units per acre could be served by the existing infrastructure. A revised rezoning petition, requesting the rezoning of the 3 lots owned by the Wilsons and Evanses from RS-4 to RM-8, was submitted in December, 1998.and reviewed by the Planning and Zoning Commission at their January 7, 1998, meeting. The Planning staff reviewed the 2010 Plan to determine if this rezoning would be in compliance with the recommendations of that Plan. It appears in looking at the land use maps in the 2010 Plan that most of the property is recommended for low density residential development and a small portion of the property appears to be recommended for medium density residential development. The staff of the Planning and Development Department did recommend approval of the rezoning request. Their basis for recommending approval was that infrastructure is available to serve a density of 8 units per acre, the property is served by a road capable of accommodating additional traffic, the property is less than one mile from a controlled intersection with a major highway, the property is close to retail service and employment centers, clustering of buildings in a multi-family development on the property could protect environmentally sensitive areas and there is a need for appropriately located service to areas for multi-family development within the City in this jurisdiction. A number of residents of the surrounding area attended the Planning and Zoning Commission meeting to voice their opposition to the rezoning request. Following their review of the request and consideration of the public comments, the Planning and Zoning Commission voted 4 - 3 to recommend denial of the rezoning request. Reasons for the denial by the Commission are that the 2010 Plan appears to call for low density residential in that area, the existing neighborhoods are single-family in character, and the adverse impact on the street system in the area.

The petitioners appealed the Planning & Zoning Commission to the City Council.

On March 5, 1998, a valid protest petition was filed so as to invoke the 3/4's affirmative vote requirement.

Mr. Green then responded to various questions from Council concerning the properties, the 2010 Plan and the protest petition.

Mr. William F. Slawter, attorney representing Hazel Evans, her son David and his wife Connie, and also Max and Flora Wilson, petitioners, said that this rezoning request petition is not intended to be for any kind of housing project. Mrs. Hazel Evans initiated this request, through her son, simply to try to get back to the position she was in before the UDO was adopted. Prior to the UDO, this property was zoned R-3 which would allow 16 units per acre if it were developed. The rezoning of the property to RS-4 reduces that to 4 units per acre and the requested rezoning to RM-8 would get it back half way to where it was before the UDO. This property was listed for sale before the UDO was adopted and remains listed for sale. Even though Mrs. Hazel Evans is in a nursing home in Greensboro, she did live on the property for in excess of 20 years and the property has been in her family since 1947. Mr. David Evans also lives in Greensboro now but had lived on the property for several years. The Evans' do have an attachment and fondness to the neighborhood and it is not their intent or purpose to try to impose anything that would not be best for the neighborhood. However, they do request this rezoning to try to develop the property in accordance with, what would appear to them, to be compatible with the best use of the property. The property to the north and east is RM-8 and RS-4 is to the south and west, which leaves the question of, where is the cut-off line in the 2010 Plan? The access to the property goes onto Old Haywood Road which is at the portion of property that is already zoned RM-8. Traffic Engineer has already determined that there would be no significant traffic impact from development of the site. Regarding preservation of the environment, eventually this property will be developed in some fashion but buffering and other requirements of the UDO will ensure that the neighbors are adequately protected.

Mr. Slawter understood that City Council cannot consider specific uses for the site in that they must base their decision on whether to rezone or not based on all uses available in that district, however, one use that has been given consideration that is not appropriate and not legal with the RS-4 is a bed and breakfast. The Wilsons (who live in the Oakley area) have no immediate plans to sell or develop their property.

Upon inquiry of Councilman Cobb, Mr. Green said that a good portion of the property currently zoned RM-8 is already developed with residential single-family units.

The following persons spoke in opposition to the rezoning request for several reason, some being, but are not limited to: present road congestion; Sand Hill Venable School is currently at its maximum; every home on the west side is a single family unit; increased density would substantially increase traffic on already congested streets with no sidewalks; there will be an increase of noise from the traffic; preservation of the natural environment could not be maintained; the petitioners do not live in the neighborhood and would not be affected by any adverse results of the rezoning; the rezoning would make available other land uses that would not be compatible with higher and better land uses outlined in the current RS-4 district; property values would be adversely affected; petitioners have not demonstrated that the rezoning would promote health, safety or general welfare of the community; the rezoning would only serve the interest of the two petitioners versus overwhelming opposition by the surrounding neighborhood; the 2010 Plan shows the area to be low in density; sewer system needs to be upgraded; increased density in the area will require increased infrastructure costs; the property is posted as commercial; and there are enough multi-family units in their area:

Mr. David J. Woody, adjoining property owner
Mr. David Livingston, 9 Starnes Cove Place
Mr. Jim Fagan, area property owner
Mr. Herman Hipps, 9 Starnes Cove Drive
Mr. David Peifer, resident on east Starnes Cove Road
Mr. Joseph Kane, 1777 Old Haywood Road
Mr. Jerry Anderson, 9 Homeway Road
Ms. Betty Fagan, area property owner
Ms. Carol Anne Kane, 1777 Old Haywood Road
Mr. Mike Blankenship
Ms. Laurel Eide
Mr. Tim Warren

Mr. Max Wilson, petitioner, spoke in support of rezoning the property, He said that his property is exactly the same as the other two properties which currently adjoin his and they are zoned RM-8. He reiterated that if anything is built on the property, the City will have final authority to review it.

Upon inquiry of Councilwoman Field, some property owners felt that they were mislead into signing the original rezoning petition in that they were told if they did not sign the petition, it would bring the value of their property down.

Mr. David Evans, petitioner, spoke in support of the rezoning asking that it be brought back to the use which was available prior to adoption of the UDO. He noted that no one has approached them about building a housing project on the property.

Mr. Russell Wood, employee of Beverly-Hanks & Associates, presented City Council with a copy of a letter sent to the ten property owners (8 of which withdrew their names) which included the zoning change petition request form, the pre-UDO R-3 classification, the R-S-4 classification, and the RM-16 classification. He currently has the Evans' property listed . He stated that he told the property owners that their property had been adversely affected. He said that the Evans and the Wilsons have already made concessions in that their original petition was for RM-16 and now their request is RM-8. Staff hosted a neighborhood meeting in October. He felt that the UDO is a very comprehensive document that provides for buffering and landscaping and it will preserve and protect the integrity of the neighborhood.

There was discussion about the property being posted as commercial. Councilwoman Field noted that the ad in September is under "Lots and Acreage" and it doesn't say anything about commercial, it just says multi-family site. The other ad says land development under "Commercial and Investments" and it says clearly "rezoning petition in process." Mr. Wood noted that the property was posted in error in October. City Council noted that even though there is a commercial sign on the property, the property cannot be used for commercial development, only what is allowed in the actual zoning designation.

Mayor Sitnick closed the public hearing at 7:26 p.m.

Councilman Tomes felt that the neighborhood was asking for a collaborative partnership effort to make their neighborhood a very viable one.

Councilwoman Field felt that there has not been a lot of communication between the neighborhood and the petitioners and there has been a lot of misinformation on both sides. She felt that the City does need affordable housing in our community and the neighborhood does look like a single family neighborhood. She sees this as a single family neighborhood but certainly at a higher density. She also agrees with Councilman Tomes in that the neighborhood should meet with the petitioners and come back to City Council with something that everyone can agreed on.

When Councilman Sellers asked if the community would be willing to meet with the petitioners and Realtor, Ms. Fagan said that the community has already tried.

Mayor Sitnick said that the 2010 Plan does give guidance and she holds it in high regard because it was created through the work of a major community-wide collaborative effort. The current zoning designations and the 2010 Plan recommend low density and/or medium density - low density is actually RS-2 and medium density is RS-4. So if the 2010 Plan recommends medium density, then RS-4 complies with the 2010 Plan. She felt that the development of that property can have beneficial effects on the neighborhood and she hasn't heard that anyone was opposed to development of that property. But, when 8 of 10 people withdraw their names from a petition, there was something that made them uncomfortable enough to withdraw their names.

Mr. Green explained that there are two directions Council can proceed. One is a zoning route, which would increase the density immediately and a planned unit development route which allows for input and review of the development plan by the neighboring property owners and provides some density bonuses for the property owner.

Upon inquiry of Councilwoman Field if the rezoning petition was denied, City Attorney Oast said that could not come back for one year on their rezoning application, however, Council has the authority, by a 3/4's vote if conditions have changed, to allow them to come back at anytime. To the extent that a planned unit development would involve an overlay zone, he felt it would probably be a rezoning which means they would have to wait a year. However, he said he would be happy to investigate that and report back to Planning staff.

City Attorney Slawter said that the petitioners would be happy to cooperate in anyway that might work toward a total resolution of this with the neighborhood. He did not that they first asked for RM-16 and they reduced it voluntarily to RM-8 for the purpose of making Planning staff and hopefully the neighborhood feel better about the request they were making. If agreeable and permittable, the petitioners would like to modify their request for an RM-6 designation which would allow a bed and breakfast. If that is not in the purview of what Council might do, the other alternatives would be to either remand the matter back to the Planning & Zoning Commission for further consideration of some other alternative zoning in between the RM-8 and RS-4 or if the petitioner were withdrawn, they could come back and file a new petition for RM-6 or other zoning in the middle.

Councilman Sellers moved to continue consideration of this matter until April 28, 1998 and directed the City Clerk to re-advertise. This motion was seconded by Councilman Cloninger and carried on a 5-2 vote, with Mayor Sitnick and Councilman Cobb voting "no".

B. PUBLIC HEARING RELATIVE TO REZONING A PORTION OF A LOT LOCATED ON 488 HENDERSONVILLE ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY TO HB HIGHWAY BUSINESS

ORDINANCE NO. 2459 - AN ORDINANCE TO REZONE A PORTION OF A LOT LOCATED ON 488 HENDERSONVILLE ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY TO HB HIGHWAY BUSINESS

Mayor Sitnick opened the public hearing at 7:53 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to rezone a portion of a lot located on 488 Hendersonville Road from RS-8 Residential Single Family High Density to HB Highway Business and an amendment to the Comprehensive Plan to reflect this rezoning.

If rezoned to HB, the current use would be a conforming use under the category of Repair and Service Business. The latter is subject to special requirements, which are met by the current use.

The property backs on Reed Street, and is located directly behind several properties fronting on Hendersonville Road. The property is accessed from Hendersonville Road. It would not be accessible from Reed Street. The proposed zoning involves about one half the lot, (approximately ½ acre would be rezoned). The area involved is on the same level as is the property in the immediate vicinity fronting on Hendersonville. The back half of the property, not proposed to be rezoned, is well treed, and is of steep slope down to Reed Street. Any future modification of the land would require additional buffer between the neighboring residential and the proposed use. The proposed rezoning does not conform to the Comprehensive Plan.

The City Planning and Development staff recommends approval of the rezoning request to rezone a portion of PIN No. 9647-12-75-9049 from RS-8 to HB.

At their meeting of March 4, 1998, the Planning and Zoning Commission recommended 4-2 to approve the proposed rezoning. They also voted 5-1 to amend the Comprehensive Plan to reflect this rezoning.

Mr. William F. Slawter, attorney for the petitioner, passed out photographs of the property and spoke in support of the rezoning.

Mr. Loyd Kirk, area property owner, spoke in support of the rezoning request.

Mayor Sitnick closed the public hearing at 8:12 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2459 and to amend the Comprehensive Plan to reflect this rezoning change. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 430

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINITION OF ANTENNAS AND TELECOMMUNICATION TOWERS

At the request of City staff, Councilwoman Field moved to continue this public hearing, without further advertisement, until May 26, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 10, 1998, AND THE WORKSESSION HELD ON MARCH 17, 1998

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on March 10, 1998, and the worksession held on March 17, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. RESPORT ON USE OF NORTH FORK FACILITY BY ROD AND GUN CLUB

City Attorney Oast said that in August the issue of the North Fork Facility by the Rod and Gun Club ("Club") was raised and he was asked to look into it. There were many records, most of which were not well organized and scattered at different places in the City and at the Buncombe County Courthouse, which go back over 100 years. He noted his report will cover the history of the North Fork property, a history of the Club, a description of the relationship of the Club and the City, and a description of the property. He also touched on the legal conclusions based on these issues. The report is not is a commentary judgment on the propriety of membership in the Club or a recommendation as to a City policy regarding membership in any particular club or organization.

The Club has existed formally since 1894, meeting at North Fork regularly since that time and it was incorporated in 1907. The purposes, paraphrasing from its Charter, is promote hunting, fishing and other outdoor sports that were popular at the time. It also specifies in their Charter that they may take no action contrary to North Carolina and United States law. The Charter was suspended in about 1930. As of 1907, there was a lease with the owners of the property and then there was another lease in 1921. In 1925 the City began the process of acquiring the North Fork property and in 1927 the City finally did acquire the property by condemnation. The resolution of condemnation notes that the Club was losing the property at the time and he didn't find anything that indicating that the Club received any kind of consideration for their lease hold interest. In 1928, the Club appeared before the Asheville City Council and sought permission from the Council to continue using the property. Then in 1934, the City Council again, upon request of the Club, approved a lease for a period of six months. After that, there was a long gap in the records and then in 1951 the City began the construction of the Burnette Dam. Filling in of the reservoir involved the relocation of several structures and the Club actually had the use of two cottages in that area. One of the buildings that was moved was the old Club meeting cottage. In 1952, there was a letter from then City Manager Weldon Weir to then President of the Club Holmes Brison indicated that the Club would be allowed to continue using the shed at the North Fork facility and indicated that a lease would be prepared and sent to him. We never found a lease, however, that doesn't mean that one didn't exist. Nevertheless, even though no lease was found, the use of the North Fork facility by the Club continued regularly with the City's knowledge and with the City's apparent acquiesce. Historically, the Water Resources Director and the City Manager have been members of the Club in a more or less ex official capacity. Despite reports to the contrary, the Club has had female members, beginning with the first lease in 1907. The owners of the property were women (they were one of the lessors) and one of the terms of the lease was that they secured themselves two full memberships to the Club and that conditioned until the next lessor in 1921. The Club does not have any current female members, but that has not always been the case. This chronological set of facts gives rise to several legal assumptions. The bottom line is, based on incomplete information, that the use of the North Fork facility by the Club has been permissive, in that it has occurred with the City's knowledge and with the City's acquiesce. Legally, they have a tenancy at-will. The use of the property by the Club for their meetings is not illegal or trespassary, however, it may be irregular in that it does not appear to follow any procedures that City Council would ordinarily follow to lease property.

City Attorney Oast said that one of the other issues Council asked him to look into was the consumption of alcoholic beverages on the property. As far as he knows, they are talking about personal consumption and not about all night drunks or binges. Many of the members, he's told, that go there don't consume any alcohol and some don't drink even when they're not there. As far as whether that's illegal or improper, you have to mesh City ordinances and the ABC laws. The ABC laws provide that no permit is required for personal consumption provided that the owner of the premises said that it's okay and provided the consumption is otherwise legal, like no moonshine and you are 21 years or older. In order to consume alcoholic beverages on City property, the City ordinance provides that you have to have the City's permission, and that permission comes from the City Manager, the Civic Center Director or the Parks and Recreation Director. Since City officials have been members, he felt it was reasonable to infer that that permission existed, and in fact it may have been an understood term of whatever lease followed the 1952 letter. He was not prepared to say, at this time, that consumption of alcoholic beverages at the North Fork facility was a violation of any City ordinance or state law. The bottom line is that the activity the Rod and Gun Club engages at the North Fork facility is not illegal and they don't illegally discriminate against members. Again, those activities are irregular in that to the extent they were approved, they were approved a long time ago and the processes then may be different that those now. He did note that the Club is no longer meeting there and has not met there since September of 1997.

Upon inquiry of Councilman Tomes, City Attorney Oast said that City Council has used the facility for their mid-year retreat and he assumed the Regional Water Authority has used it for the same kind of function. He said that it has been occasionally used as a gathering place for departing department heads.

City Attorney Oast said the City Council needs to consider whether the City wants to allow continued use of the North Fork property by the Club or by anyone else. If not, Council should, at some point in time, vote to terminate the current tenancy at-will. If the Club wanted to petition to use the property they would need to go through normal channels to do it. If Council does discontinue the use, then Council needs to decide what level of use is appropriate, how that use is determined, how it is regulated and what, if anything, to charge, if Council wants to do that. These things might require input from other departments from the City like the Water Resources Department and possibly the Planning & Development Department. Due to the transition in the Water Resources directorship, it may be appropriate to suspend whatever activity is occurring there to allow the new Director to be briefed on the matter and bring his report back to Council.

Mr. Keith Thompson encouraged City Council to do the right thing and make a stand for putting everyone on a more equal footing on civic affairs in Asheville and putting them on a more normal basis. He felt there was legitimate reasons to restrict assess to the watershed.

Mr. Monroe Gilmour, Coordinator of Western North Carolina Citizens for an End to Institutional Bigotry, and he has a great renewed admiration for City Council carrying out the process of democracy. "We didn't drum up people to come tonight because we really do feel you will do the right thing. I didn't quite hear what you were saying, Mr. Oast, but I do think that probably giving the Water Resources person an opportunity to come up with some comprehensive policies and rules for more than just this Rod and Gun Club, but for access to the watershed. Certainly one thing that we would like to see is that there be a public log of who goes

128

in and out of there. We hear stories, even since all of this broke, of a club member driving right through, not stopping even at the thing, driving up with a friend, up behind the lake, to show them around. I'd like to do that too. So, I think if we had policies and we had a public log, and I would volunteer to be on a committee, if you have a citizens committee, with the Water Resources person, to work on those policies. I know that many of you did not even know this club existed and in some respects if it kept going for another 50 years, probably nobody would notice either. In another respect, I think what you decide to do is very important because I think it tells what we are and who we are and what kind of City we want to have. It's important to the citizens of this community. I have worked on a lot of issues, frankly a lot more important than this issue, but I have never ever gotten as many calls from people that didn't know me from Adam to say how disgusted they were and to thank our organization for bringing it to the public notice. And so it is important to the citizens what you do tonight and in the future on this issue. It's important, I think to the employees. I don't mean to focus on you, Mr. Westbrook, but I think that the memo that you sent out on what City employee ethics should be is a very good one. And, I think that something needs to be done to show that what happened out there was a real sort of unconscious lapse of judgment. I know that when you come into a new situation and something has been going on for a hundred years, it's hard to question. But, I went to management graduate school just like you did, and I really do feel that a professional manager should see that such activities are inappropriate, certainly in the modern day. And I also think you need to take into account the fact that despite the legal things that you said in the tenancy at-will and all of that, it was the people in power making the rules to suit themselves. From the beginning, it was Asheville power brokers that were out there. And these people didn't even own the land that was taken. That house that was used is to build the other one, that wasn't even their house. They were leasing it. We have people that I could have brought tonight who had a rooming house out there and they feel really upset that they were never asked to continue some form of usage of the watershed. There are a lot of people in North Fork who were run out of there and to see this being done, it really sends a very bad message to the people. We, since last August, we have sent several letters as we learned more information with additional questions and to some degree you've answered them, but to some degree I think they've been glossed over a little bit. And nothing was said about the fact that if they do have this lease at will, how much was the lease for. If we take the 1934 rates of $60 for six months, maybe $120 a year, let's ask them for 50 times $120 for a year. That would be a pretty good rate given that was 1934 dollars. I'm not really asking them to do that, but I think that if we're going to look and deal with it legally, then we ought to be firm about that and they should pay retroactively because you can also claim, and I'm not a lawyer, but I think you could also point that it was a conspiracy of public officials to misuse public policy. And I think you could make a good case for that. I'm not saying that we want to go that route - I think we want to look to the future on it. But, I do think that if we don't look at this thoroughly, looking at the connections - nothing was in the report about who were the members and whether they did any business with the City of Asheville - that was another question that we asked in our letters. To gloss over it and not address it leaves the question, well, you know if an employee does something, we're going to rake him over the coals. But if the upper reaches of management do something, let's just forget it and move on. That is not a message that any of you-all want to send. So I hope you will take what I've said into consideration when you decide what to do and that the investigation and that the communication with the workers - you know I've worked with the public workers here and I think that we really owe the public workers in Asheville a great deal of appreciation for the many times that they have at times risked something by bringing something to people's attention or as they did in the Water Department several years ago that resulted in a much better Water Department. And yet, when they see this happen, this is the kind of thing that was pervasive back then and it lowers morale and it says there's different rules for me and there's different rules for the different people at the top. I think we need to find a way to send that message that the people at the top really are going to be examples of how we want the City run, just as that memo said. Where it said it depends, however, on us understanding and respecting each other so that we can set an example for others to follow. And I think that is all that we are really asking tonight."

Ms. Sylvia Montgomery echoed Mr. Gilmour's thoughts. She said that based on this issue, she knew of one person, and wondered how many others, who changed their vote in the election after finding out that Charles Worley was a member in the Rod and Gun Club.

Mr. Gilmour said that "a lot of people had said that this was just a political thing. I just want to make it clear for the public that when we filed that complaint on August 21, we did not know that Charles Worley was a member of the Rod and Gun Club. But I think that you should know that on that same day, the Director of the Water Department at that time, and it makes me really upset to have to say this, but gave some friendly advice to a worker to keep his distance from me. And that really hurts. And that's not right of free association and that worker's right of free association. And he also said that there were powerful political people involved in this and there would be political repercussions when this was over. Well I have gotten assurances from Club members that they're not going to do anything and I take confidence from the City that they're not going to do anything - so I hope we don't have to worry about that. But the other thing was that this was a smear campaign. The other thing that the Director said, Mike Holcombe said, was that this was probably a smear campaign to hurt Charles Worley's candidacy. Well, that worker called me and recounted this and I have a sworn affidavit about this conversation. And he said I have another name of a Club member. We didn't know until that threat that Charles Worley was a member. So, this was not politically motivated. It was motivated - well, you're smirking Barbara. Do you think that, are you saying that I'm not saying the truth that we knew before we did it? Is that what that meant? I wasn't going to even bring that up, but since that was pointed out, I think you-all need to know that."

Vice-Mayor Hay felt it was time to terminate the tenancy at-will of the Club at the North Fork Facility and also direct staff to report back on possible uses by the public of the facilities out there. He said it is a really nice place and if there is some way to share that with the citizens of Asheville, he felt we should be doing that.

City Attorney Oast said that in a memorandum dated January 30, 1998, Mr. Doug Spell, the Assistant City Manager, recommended to Mr. Westbrook that any access to the watershed property be strictly controlled.

Mayor Sitnick felt it should not be used for anything by anyone from this point forward. It is a pristine watershed and it's very fragile and delicate environmentally. If we set a precedent and start a process that allows even limited use she felt it will send a wrong message that it is for some and not all. She didn't even think City Council should hold their retreats there. She also felt that the comment made by Mr. Gilmour is a very serious one. If there was a threat made, she asked that it be investigated and a report be prepared for City Council.

Councilwoman Field agreed that the Club's tenancy at-well should be terminated. She felt that Council should form a committee of the appropriate people to take a look at the uses. It would be a real shame to not take advantage of that for whatever is appropriate and for whatever the community feels is appropriate. It has been used for the last 50 years and it has not damaged the watershed, for the limited use it has been used for. She told Mr. Gilmour what she was smiling about was that she knows that he has been working on this project for a very long time - back when Doug Bean was City Manager, and he raised it with him. She finds it interesting that this Council, which is basically a new Council, is getting blamed for and charged with things that happened 100 years ago.

Councilman Cloninger shared the Mayor's desire to keep the watershed protected and as pristine as possible, noting that he co-wrote the conservation easement that will protect that watershed in perpetuity and that was unanimously passed by the former City Council. Having said that, he would like to see Council appoint a committee that would explore the possibility of whether the North Fork facility could be used in some fashion without hurting the water quality, etc. He also felt that if it is opened up for use, it needs to be pretty much an all or nothing proposition in the sense of either opened to everyone or no one.

Mayor Sitnick questioned the condition of the flush toilet at the North Fork facility. She also felt that the question brought up about Mr. Westbrook needs to be addressed. Mr. Westbrook came to Asheville and was asked to join the Club because all City Manager's joined it and I think it was one of those things when you're new in town, "you want to play with all the kids on the block" and that's why he joined it. He attended it one or two evenings up there and that was the beginning and end of it. She doesn't read anything else into Jim Westbrook's membership in that Club. She did feel that there is a question about the whole issue that the City Attorney brought up about alcoholic beverages on City property. Again, whatever the truth is, we may never know, but the fact is that perception is reality in politics and when you are a political, elected official, when you are a high appointed official in a city government, you should not be doing things that even smack of impropriety. If there was alcoholic consumption up there on public property, knowing what other groups go through to get permits to do the same, it's more than bothersome that that activity was going on. She didn't know whether Council needed to conduct deep, intensive investigations but she did feel we needed to close the door on this issue. She felt Council should terminate the tenancy at-will for the Club to use the North Fork Facility and that that the property should not be used by anyone for any reason. If there is a need by this Council to discuss this further with committees, then that is the majority of the Council's right.

Councilman Cobb agreed that this issue should be closed. He felt the Council should terminate the tenancy at-will for the Club to use the facility. He would also like to see the new Water Resources Director come back to Council with a report on what options are available to use the property and then Council can decide how to proceed.

Councilman Tomes agreed that this issue should be closed.

Vice-Mayor moved to terminate the tenancy at-will for the Rod and Gun Club at the North Fork facility. This motion was seconded by Councilwoman Field and carried unanimously.

Vice-Mayor Hay moved to ask staff to investigate the possibility of use by the public of the facility and report back to Council with the current policy of not allowing public use remaining in effect. This motion was seconded by Councilman Sellers, and carried on a 6-1 vote, with Mayor Sitnick voting "no".

Upon inquiry of City Manager Westbrook, it was the consensus of Council that no time limit be set for the report back to Council.

Mayor Sitnick said that the threat made, as Mr. Gilmour stated, should be investigated. Councilwoman Field said that since Mr. Holcombe is no longer the Water Resources Director, perhaps Mr. Gilmour could give the information to the new Water Resources Director for him to investigate. Mr. Gilmour said that he would ask the employee if it would be okay for him to give his name to the City Manager.

C. BOARD OF ADJUSTMENT

Mr. Keith Thompson brought to Council's attention what he felt was a very inappropriate granting of a variance by the Board of Adjustment at the corner of Merrimon Avenue and Edgewood Road.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:08 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 24, 1998 - 9:30 .m.
Public Works Facility

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Because the 5:00 p.m. City Council meeting ran late, City Council arrived at the scheduled 7:00 p.m. education worksession on annexation at 9:30 p.m.

It was agreeable to the City Council and the audience members (approximately 15) to reschedule the worksession.

Councilwoman Field moved to continue the education worksession on annexation until Tuesday, March 31, 1998, at 2:00 p.m. in the William F. Wolcott Jr. Building at 161 South Charlotte Street, and to schedule the tour of the urban areas on May 12, 1998, at 1:30 p.m. This motion was seconded by Councilman Sellers and carried unanimously.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 31, 1998
William F. Wolcott Jr. Building
161 S. Charlotte Street

2:00 p.m. - Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Planning and Development Director Julia Cogburn; along with Mr. Richard Flowe from the Benchmark Inc., the City's consultant on the annexation study; Mr. Ellis Hankins, N. C. League of Municipalities and Mr. Bob Wurst, Administrative Assistant in the Planning & Development Department, held an educational worksession on annexation. Mr. Flowe gave a brief overview of the annexation purposes, a general history of annexation and the annexation laws. Ms. Cogburn then reviewed the annexation history of the City of Asheville from 1797 - 1998 and the issues surrounding past annexations in Asheville. Mr. Flowe then reviewed the strategies for and types of annexation. Mr. Hankins reviewed with Council the N. C. League of Municipalities' views on annexation. Mr. Wurst then reviewed the budgetary impact issues on the City while Mr. Flowe reviewed the impact on the citizens.

Mayor Sitnick adjourned the meeting at 5:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

7:00 p.m. Community Meeting

The following topics were raised by residents and addressed by City Council and City staff: a recent Board of Adjustment decision to grant a variance for an accessory structure; appreciation for the stabilization and rebuilding of the stone wall on Cherokee Road; lack of attendance at this meeting does not mean citizens are not interested; interest in traffic calming policy; suggestion of hiring truant officers in the community; community reinvestment banking; need for volunteers in the school system; litter control throughout the City; praise on roundtable ideas; and the need for more affordable housing.

Mayor Sitnick was pleased to report that the City has received a Section 108 $1.5 million loan guarantee from the U.S. Dept. of Housing and Urban Development, to be leveraged for another $1.5 million for rental rehabilitation.

Mayor Sitnick adjourned the meeting at 7:52 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - April 8, 1998 - 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Joint Cooperation Agreement with the Asheville Regional Housing Consortium

Summary: The consideration of a resolution authorizing the Mayor to enter into a joint cooperation agreement with the Asheville Regional Housing Consortium.

Award of Annual Audit Contract

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1997-98.

Designation of the Public Service Building Sign at 89-93 Patton Avenue as a Landmark Sign

Summary: The consideration of a resolution designating the Public Service Building sign, located at 89-93 Patton Avenue be designated as a landmark sign.

Amendment of Regional Water Authority Capital Project Ordinance (35 Fund)

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund) to reflect the transfer of revenue bond related projects to the 29 Fund, to reimburse the 30 Fund for 97/98 Distribution System Improvements, to fund the Glendale Water Line (NC DOT), and to provide funding for future NC DOT projects through future "Contributions From Other Funds".

Amendment of Regional Water Authority Capital Project Ordinance (29 Fund)

Summary: The consideration of a budget amendment to provide funding for Change Order No. 2 to the Pipeline Replacement Phase II Program Contract A - South Asheville/South Buncombe Water Line Project.

Request for Release of Lien of Property on Richie Street

Summary: The consideration of a resolution to release the City's lien on dilapidated property on Richie Street.

Resolution naming the City of Asheville as a Host Town for the 1999 Special Olympics World Summer Games

Summary: The consideration of a resolution naming the City of Asheville as a Host Town for the 1999 Special Olympics World Summer Games.

Transfer of City of Asheville Easement (CTS Reservoir Site)

Summary: The consideration of the abandonment of an easement belonging to the City of Asheville for operation of a water reservoir, together with the associated underground pipes and other property, at the abandoned CTS Reservoir site.

City Attorney Oast said that there is a possibility that the City will not need to abandon the entire easement and that he would have the appropriate documentation available at the next formal meeting.

Agreement with N.C. Dept. of Transportation for Improvements to Sweeten Creek Road, Rock Hill Road and Roberts Road

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements of US 25A (Sweeten Creek Road), SR 3081 (Rock Hill Road) and SR 3079 (Roberts Road.)

Agreement with N.C. Dept. of Transportation for Improvements to US 74, Reed Circle and Cane Creek Road

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements to the US 74, SR 2775 (Reed Circle) and SR 3136 (Cane Creek Road) for the relocation and upgrade of a water line that will be in conflict with highway construction.

Agreement with N.C. Dept. of Transportation for Improvements at NC 151/Pisgah Highway from south of Fowler Mountain Road to south of US 19-23-74

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements at NC 151/Pisgah Highway from south of SR 1117 (Fowler Mountain Road) to 0.2 miles south of US 19-23-74 to relocate water lines that will be in conflict with highway construction.

Agreement with N.C. Dept. of Transportation for Improvements at US 74 from I-40 Interchange southwest to SR 2775, which includes Mine Hole Gap

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements at US 74 from I-40 Interchange southwest to SR 2775, which includes Mine Hole Gap, for the relocation and upgrade of a 6-inch and 8-inch water line that will be in conflict with highway construction.

Agreement with N.C. Dept. of Transportation for Improvements at the Intersection of US 70-74 (Tunnel Road) and Haw Creek Lane

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements to the intersection of US 70-74 (Tunnel Road) and SR 2863 (Haw Creek Lane) for the relocation and upgrade of a water line that will be in conflict with highway construction.

Agreement with N.C. Dept. of Transportation for Improvements at I-40 at US 25A (Sweeten Creek Road)

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation for improvements at I-40 at US 25A (Sweeten Creek Road) for the relocation and upgrade of water lines that will be in conflict with highway construction.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

HILLCREST APARTMENTS PEDESTRIAN WALKOVER BRIDGE

Police Chief Will Annarino said that on February 20, 1998, a pedestrian was struck and killed while attempting to cross I-240 at the Hillcrest walkover bridge and as a result concern has been raised as to the accessibility of Hillcrest with the closure of the walkover.

City Council has requested background information on the closure of the pedestrian tunnel across I-240 and what, if any, Council activity is needed in the matter. Chief Annarino passed out pictures of the bridge and then reviewed the following overview of events and supporting information in response to this request.

- On November 28, 1994, at the request of the residents of Hillcrest, the Asheville Housing Authority and City of Asheville, the Hillcrest pedestrian walkover bridge was closed by the North Carolina Department of Transportation. At the time drug buyers were using the walkover to enter Hillcrest and purchase illegal drugs.

- Residents, at the time, felt there would be no major consequence in closing the bridge as most pedestrian traffic chose not to use the main entrance but utilized breaks in the security fencing east of the bridge.

- With the closure of the walkover, walk-in street level drug transactions, on the south end of the complex, were all but eliminated. In the assessment of many the closure played a large part in helping to stem the flow of drug sales in the development.

- With the recent pedestrian fatality, as a result of an individual attempting to cross I-240 going into Hillcrest, the Asheville Housing Authority and the Asheville Police Department have met with the Residents Association of Hillcrest Apts. to revisit the bridge closing. The Residents Association agreed to survey residents of the community to determine their position on a recommendation for re-opening the walkover bridge or allowing it to remain closed. The survey was approximately 100 to 79 in re-opening the bridge.

- A pedestrian accident survey for the area in and around the Hillcrest development noted there have been two pedestrian fatalities since the bridge was closed; one was adjacent to the bridge and the other was in the area east of the bridge near the 19-23 overpass (which is the area where most of the pedestrian traffic coming out of the complex is located).

Chief Annarino also stressed that the bridge closing was only one of several issues raised by the Residents Association that helped reduce crime in the area. He said that at a recent community meeting, the residents in Hillcrest were split about keeping the bridge closed or re-opening the bridge. He said that most of the new residents wanted the bridge re-opened, whereas, the residents who have lived there longer wanted the bridge to remain closed.

Discussion surrounded if there was an alternate route for the residents of Hillcrest.

City Transportation Planner Ron Fuller said that the N.C. Dept. of Transportation ("NC DOT") owns the bridge and the fence, however, it is not being maintained at this time. He also noted that the bridge is not ADA compatible, missing guardrails need to be replaced, the lighting needs to be improved, the fence repaired, the stormwater runoff issue addressed, and there needs to be some type of regular maintenance schedule for trash and overgrowth. Safety, he felt, was a big issue on the bridge. He said that he would be happy to work with the NC DOT on a collaborative effort to see if grant money can be used to at least bring the bridge into ADA compliance.

Councilwoman Field felt one issue is how do we safely get the residents from the Hillcrest community to where they want to go.

Mayor Sitnick felt that we need to discover a solution for people not to be "ghettoized" and still maintain a peace of mind for those who want to maintain the security that has come from the closure. She suggested the residents might want to apply for a grant through the City's Neighborhood Grant Program.

Councilman Tomes felt that not only is there an environmental factor to consider, but the traffic factor as well.

Executive Director of the Housing Authority David Jones passed out to Council a letter he wrote to the Citizen-Times which he hoped would clear up any misconceptions regarding recent articles relating to Hillcrest. He then reviewed with Council the history of Hillcrest and how the courageous and caring people and their efforts saved the Hillcrest community. He ended by saying that the Housing Authority will totally support whatever position the residents of Hillcrest choose.

Police Sgt. Crawford reported on the recent community meeting and said that the residents would like to re-open the bridge but only on a temporary basis. The primary concern of the group who wanted the bridge re-opened was access to town and the primary concern of the group who wanted to keep the bridge closed as the crime issue. She noted that out of the approximately 40 people who attended the meeting, there were maybe 20-25 actual residents. She suggested that if the bridge were re-opened that better lighting be installed on the bridge.

The Pedestrian Coordinator for Quality Forward was pleased that the vote to temporary re-open the bridge was the result of the survey. She, too, pointed out the items that need to be addressed relative to bridge repair, etc.

Mr. Lonnie Blair, representative of the Asheville Transit Authority, responded to questions from Council as it related to bus transportation in the Hillcrest community.

Ms. Dee Williams felt that the whole issue at Hillcrest was an economic development issue, not just a transportation problem.

Three residents from Hillcrest spoke in support of keeping the bridge closed stressing that children can get out doors and play, bus transportation is available and the closure helps curb the drug problem. One resident noted that people will cross the interstate where they want, whether or not the bridge is open or closed.

It was the consensus of Council to instruct staff to come back to Council with some possible dates for a tour of the area and a community meeting at Hillcrest. Some issues to be considered are to re-open the bridge, keep it closed, open the bridge up daily during certain time periods or, open the bridge up entirely for a couple of months and then evaluate it.

BUDGET WORKSESSION DATE

It was the consensus of City Council to hold the budget worksession on Thursday, May 21, 1998, at 1:00 p.m. in the 1st Floor North Conference Room in the City Hall Building.

MARKETING STAFF FOR THE CIVIC CENTER

It was the consensus of City Council to instruct the City Manager to ask the Tourism Development Authority if they would move one of their current marketing staff to the Civic Center for the purpose of marketing the Civic Center in Asheville as a convention site.

FIRE CODE

Mr. George Morosani, developer, said that he is required, pursuant to the Fire Code, to put in a fire hydrant on a piece of property he is developing on Shiloh Road. He asked Council to investigate why he is being required to comply with that requirement when a building on Seminole Street which was recently constructed did not have to comply. He felt City government should give new businesses some kind of consideration for basic infrastructure.

The City Manager said that there is an economic development policy for the City and he would investigate the incident on Seminole Street and report back to Mr. Morosani.

OPEN MEETINGS LAW

Mayor Sitnick cleared up some inaccuracies that the Asheville Citizen-Times reported on in their articles on Tuesday, April 7 and Wednesday, April 8 concerning the Chamber of Commerce retreat in South Carolina in which six of seven City Council members attended. The inaccuracies included (1) who attended and did not attend the retreat, (2) the quote from the City Attorney was accurate, however, it was in answer to a different question, (3) a quote from the Mayor was incorrect regarding Council's concern over the cost of the retreat; and (4) the inaccurate and sexist statement that her husband was a psychiatrist. She then read G.S. 143-318.10 relative to the Open Meetings Law and also an excerpt from a book published by David M. Lawrence from the Institute of Government concerning retreats and whether the Chamber recent was concerned an official meeting. Mayor Sitnick also noted that on March 24, 1998, the City Council mentioned that the meeting being held today was being rescheduled because the majority of Council would be attending the Chamber retreat.

Each member of Council who attended the Chamber retreat spoke about the productivity of the meeting and how beneficial and important it was for City Council to attend. A budget is prepared every year for Council's training and the money spent for this retreat was well worth it and was within that budgeted amount.

It was the consensus of Council to have the City Attorney report back with how the City Council will proceed in the future regarding notification to the public regarding these kind of meetings.

Mayor Sitnick said that she was glad to have the interest of the paper rather than apathy but did hope that the reporting was accurate.

When asked if City Council would be willing to pay for their own expenses, as did Mayor Sitnick, City Council members who attended the retreat replied that they would not pay for the trip out of their own pockets, in that they were within the budgeted training amount and on City business.

REPORTS FROM BOARDS & COMMISSIONS

Vice-Mayor Edward Hay reviewed the upcoming vacancies on various boards and commissions. He said that the City Council Boards and Commissions Committee met and noted that there is a need to appoint a member to the Metropolitan Sewerage District Board. This appointment will be to fill the unexpired term of Mr. Mike Holcombe who resigned the position earlier this year.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint S. Douglas Spell, Assistant City Manager, to fill the unexpired term of Mike Holcombe, term to expire January 19, 2000, or until his successor has been appointed.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Ben Durant, Budget Director, to Victoria of Asheville to serve a three year term, term to expire November 29, 2000.

There is a need to create the River District Design Review Committee. Until such time as that Committee is appointed, it was the consensus of City Council to let staff review any major work projects.

Councilman Sellers moved to adjourn this meeting to the Council Chamber. This motion was seconded by Councilwoman Field and carried unanimously.

PRESENTATION BY ELECTRONIC INTERIORS INC. RELATIVE TO COUNCIL CHAMBER RENOVATIONS

Mr. Dickson Stewart from Electronic Interiors, Inc., and Ms. Jane Mathews from Mathews & Glazer Architects, presented City Council on the conceptual design layouts in the Council Chamber.

On February 25,1997, City Council passed Resolution No. 97-19 authorizing the City Manager to enter into a contract with Electronic Interiors, Inc. for professional services to design and upgrade the audio-visual and other electronic capabilities of the Council Chamber in the City Building.

In November, 1997, Electronic Interiors, Inc. completed the Phase I portion of their contract which included meetings with city staff on programming and presentations resulting in the completion of schematic design drawings and preliminary budget estimates.

Based on information obtained in the Phase I portion of Electronic Interiors, Inc.'s contract, a proposal with related costs for design services for phase II-III was received by city staff. City Council approved a proposal for Phase II-III which incorporates services for the design development, complete construction documents and construction administration through out the project.

City Council provided additional information on the conceptual design layouts in the Council Chamber for incorporation into the final construction drawings.

CLOSED SESSION

At 7:00 p.m., Vice-Mayor Hay moved to go into closed session for the following reasons: (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties involved in the matters about which the

City Council expects to receive advice are: Multimedia Publications Inc. d/b/a Asheville Citizen-Times, Brenmor Cable Partners d/b/a InterMedia, Elijah U. Jones d/b/a Jones Convenience Store, State of North Carolina and the City of Asheville - the statutory authorization is G.S. 143-318.11 (a) (3); and (2) to discuss matters relating to the expansion of business or industry in the City the statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:20 p.m. Vice-Mayor Hay moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 14, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: City Clerk Magdalen Burleson

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF INTERNATIONAL FIRE CODE INSTITUTE ANNIVERSARY COVER

Mayor Sitnick presented Fire Chief John Rukavina with the International Fire Code Institute's 10th Edition Anniversary Cover of the Urban Wildland Interface Code. She noted that Fire Chief Rukavina has served as a member of the Board of Directors of the Institute for three years and his work on the Board has included participation in the development of this Code and in development of education and certification programs for fire inspectors throughout the United States.

B. PROCLAMATION PROCLAIMING APRIL 17-30, 1998, AS "LITTER SWEEP DAYS"

Mayor Sitnick read the proclamation proclaiming April 17-30, 1998, as "Litter Sweep Days" in the City of Asheville and presented a proclamation to Mr. Bob Tinkler, Adopt-A-Highway Program. She asked Mr. Tinkler to present a duplicate proclamation to Ms. Susan Roderick with Quality Forward. Mr. Tinkler then briefed Council on some planned activities taking place during the month.

C. PROCLAMATION PROCLAIMING FRIDAY, APRIL 17, 1998, AS "EARTH DAY "

Vice-Mayor Hay read the proclamation proclaiming Friday, April 17, 1998, as "Earth Day" in the City of Asheville and presented the proclamation to Mr. Mort Jonas who briefed Council on some planned activities taking place during the day.

D. PROCLAMATION PROCLAIMING SUNDAY, APRIL 19, 1998, AS "CANDLELIGHT VIGIL FOR VICTIMS OF CRIME DAY "

Councilwoman Field read the proclamation proclaiming Sunday, April 19, 1998, as "Candlelight Vigil for Victims of Crime Day" in the City of Asheville and presented the proclamation to Ron Brown who briefed Council on some planned activities taking place during the day.

E. PROCLAMATION PROCLAIMING THE WEEK OF APRIL 19-26, 1998, AS "DAYS OF REMEMBRANCE" OF THE VICTIMS OF THE HOLOCAUST

Mayor Sitnick read the proclamation proclaiming the week of April 19-26, 1998, as "Days of Remembrance" of the victims of the Holocaust and presented the proclamation to Rabbi Ratner who briefed Council on some planned activities taking place during the week.

II. CONSENT:

At the request of City Manager Westbrook, Item "D" was removed from the agenda.

A. RESOLUTION NO. 98-37 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A JOINT COOPERATION AGREEMENT WITH THE ASHEVILLE REGIONAL HOUSING CONSORTIUM

Summary: The consideration of a resolution authorizing the Mayor to enter into a joint cooperation agreement with the Asheville Regional Housing Consortium.

HUD regulations require execution of a new Cooperation Agreement for the Asheville Regional Housing Consortium to continue receiving formula allocations under the HOME grant program. The deadline for submission of fully executed Cooperation Agreement to HUD is June 30, 1998. The City of Asheville serves as Lead Entity for the Consortium.

The City entered into a Joint Cooperation Agreement with twelve governmental units within Region B and formed the Asheville Regional Housing Consortium on March 31, 1992. The City received a letter from HUD recently stating that a new Cooperation Agreement and authorizing resolutions must be submitted to HUD by June 30, 1998 to continue to receive an annual formula allocation as required in HUD Notice CPD 97-05.

This Agreement states in section 14 that: "The Lead Entity and the Cooperating Units agree to remain in the Consortium at least through September 30, 2001. Thereafter, each party shall continue to participate in the Consortium to the extent required by HUD regulations or other applicable law."

Since formation of the Consortium in 1992 the region has received formula allocations totaling $6,876,837. The City of Asheville has received an allocation of $2,230,172 for its affordable housing program and administrative cost as Lead Entity since inception of the program.

Community Development staff recommends adoption of the Resolution.

RESOLUTION BOOK NO. 24 - PAGE 368

B. RESOLUTION NO. 98-38 - RESOLUTION DESIGNATING THE PUBLIC SERVICE BUILDING SIGN LOCATED AT 89-93 PATTON AVENUE AS A LANDMARK SIGN

Summary: The consideration of a resolution designating the Public Service Building sign located at 89-93 Patton Avenue as a landmark sign.

Signs may be designated historically significant or landmark signs by the Asheville City Council provided the sign satisfies one or more of the following criteria:

A. The sign is significant to the history of the City of Asheville, including but not limited to, the character of the city as a tourist attraction or cultural center.

B. The sign is unique, notably aesthetic or creative so as to make a significant contribution as a work of art.

C. The sign merits recognition as an important example of technology, craftsmanship, materials or design of the period in which it was constructed and may no longer be economically feasible to produce or manufacture the sign today.

The Asheville-Buncombe Historic Resources Commission ("HRC") finds that the *Public Service Building* sign meets criteria A for landmark designation for the following reasons:

1. The sign is an icon for the City of Asheville and is a part of our collective memory. "Historic signs give continuity to public spaces, becoming part of the community memory. They sometimes become landmarks in themselves, almost without regard for the building to which they are attached, or property on which they stand. Furthermore, in an age of uniform franchise signs and generic plastic "box" signs, historic signs often attract by their individuality: by a clever detail, a daring use of color and motion, or reference to particular people, shops, or events." Preservation Brief #25

At their regularly scheduled March 11, 1998 meeting, HRC, by a unanimous vote, recommends to City Council that the *Public Service Building* sign be designated as a landmark sign.

RESOLUTION BOOK NO. 24 - PAGE 369

C. ORDINANCE NO. 2460 - BUDGET AMENDMENT TO PROVIDE FUNDING FOR CHANGE ORDER NO. 2 TO THE PIPELINE REPLACEMENT PHASE II PROGRAM, CONTRACT A - SOUTH ASHEVILLE/SOUTH BUNCOMBE WATER LINE PROJECT (29 FUND)

Summary: The consideration of a budget amendment to provide funding for Change Order No. 2 to the Pipeline Replacement Phase II Program Contract A - South Asheville/South Buncombe Water Line Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund.

Change Order No. 2 for the Pipeline Replacement Program Phase II Contract A with Wheeler Construction Company is needed for the following reasons:

- Installation problems with pavement removal and bad weather conditions on Kenilworth Road;
- Additional stone and binder was required due to bad weather on the other streets along this project.

Cathy Ball, P.E., City Engineer, recommends approval of Change Order No. 2 in the amount of $126,105.11. This will increase the total contract cost to $1,078,389.11.

Funds for this Change Order are available in the Water Distribution Master Plan Downtown Water Line Replacement Project due to the decision by the Authority to delay the Haywood Street Water Line Replacement Project.

The Regional Water Authority approved a resolution amending and restating Capital Project Ordinance 92-17 on March 17, 1998.

Staff recommends adoption of the budget amendment to provide funding for Change Order No. 2 to the Pipeline Replacement Phase II Program Contract A - South Asheville/South Buncombe Water Line Project.

ORDINANCE BOOK NO. 16 - PAGE 432

D. BUDGET AMENDMENT TO THE WATER MAJOR CAPITAL PROJECT ORIDNANCE (35 FUND) TO REFLECT THE TRANSFER OF REVENUE BOND RELATED PROJECTS TO THE 29 FUND, TO REIMBURSE THE 30 FUND FOR 1998-98 DISTRIBUTION SYSTEM IMPROVEMENTS, TO FUND THE GLENDALE WATER LINE (NC DEPT. OF TRANSPORTATION PROJECT), AND TO PROVIDE FUNDING FUR FUTURE N.C. DEPT. OF TRANSPORTATION PROJECTS THROUGH FUTURE "CONTRIBUTIONS FROM OTHER FUNDS"

This item was removed from the agenda at the request of staff.

E. RESOLUTION NO. 98-39 - RESOLUTION AUTHORIZING A RELEASE OF LIEN ON REAL PROPERTY ON RICHIE STREET

Summary: In 1984, the Housing Authority of the City of Asheville provided a Rental Rehabilitation loan to George B. Herndon in the amount of $35,000.00 secured by a third deed of trust recorded in Book 1088, Page 79 on property owned by Herndon on Richie Street comprising four structures with a total of seven units on contiguous parcels. The terms of the loan included zero interest, deferment and forgiveness of the loan over a 10 year period on the condition that the units be rented to low income tenants. Herndon rehabilitated the property and rented to low income tenants but subsequently moved to Florida and failed to keep the property in good repair. The property was eventually vacated and finally foreclosed by the first mortgagee. The property currently is dilapidated and a source of blight in the neighborhood.

Myc Klepper recently acquired the properties with the intent of renovating them for affordable housing and discovered that the first mortgagee's foreclosure had not been completed on the property at 10 Richie Street. Therefore the deed of trust in Book 1088, Page 79 is still a lien of record on that one parcel. Klepper has requested a release of the property at 10 Richie Street from the lien in order to facilitate the renovation of the property. He has demonstrated good faith by his investment of considerable time and money in cleaning up the title to the property as well as the property itself.

Approval of the resolution will release the property from the lien in Book 1088, Page 79 making it possible for Klepper to obtain private financing necessary to renovate the properties. The end result will be the elimination of a blighting influence in the Montford community, the production of seven units of decent, safe, sanitary and affordable housing and an increase in the tax base.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 371

F. RESOLUTION NO. 98-40 - RESOLUTION NAMING THE CITY OF ASHEVILLE AS A HOST TOWN FOR THE 1999 SPECIAL OLYMPICS WORLD SUMMER GAMES

Summary: The consideration of a resolution naming the City of Asheville as a Host Town for the 1999 Special Olympics World Summer Games.

North Carolina will be hosting over 7,000 athletes from over 150 countries for the 1999 Special Olympics World Summer Games which will be held in the Research Triangle area. The City of Asheville has been asked to serve as a Host Town which will allow athletes an opportunity to practice, adjust to the North Carolina climate, and to meet and visit the citizens of North Carolina in order to exchange and learn about each others' culture. It is anticipated that international civic groups will take the lead in providing services for this special opportunity along with some possible logistic coordination with the City's Parks and Recreation Department and Buncombe County Recreation Services. These games will be held on June 21 - July 4, 1999, and is an excellent opportunity for the City of Asheville to participate in such a worthwhile event.

The Parks and Recreation recommends City Council approval of the resolution to name Asheville as a Host Town.

RESOLUTION BOOK NO. 24 - PAGE 372

G. RESOLUTION NO. 98-41- RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH CRISP, HUGHES EVANS LLP FOR AUDITING SERVICES FOR FISCAL YEAR 1997-98

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1997-98.

N. C. Gen. Stat. sec. 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

In January of 1998, the City Finance Department sent letters to 36 local CPA firms, including three minorities, soliciting proposals from qualified firms of certified public accountants to audit the City of Asheville's financial statements for the fiscal year ending June 30, 1998, with the option of auditing the City of Asheville's financial statements for the two subsequent fiscal years. Four firms expressed interest and were provided a copy of the request for proposals. Only one firm, Crisp Hughes Evans LLP, submitted a complete proposal. Crisp Hughes Evans LLP is also the City's current external audit firm. The proposal received from Crisp Hughes Evans LLP proposes a fee of $ 47,500 for the 1997/98 fiscal year. This fee is a reduction of the firm's fee for the 1996/97 fiscal year of $52,000. Funds are appropriated in the budget of the Accounting Division of the Finance Department. The fee includes an audit in accordance with generally accepted auditing standards which includes an assessment of the City's internal control procedures, testing for compliance with N. C. General Statutes, testing for compliance with pronouncements of the Governmental Accounting Standards Board, Standards for Audit of Governmental Organizations, Programs, Activities and Functions, the Guidelines for Financial and Compliance Audits of Federally Assisted Programs and the Federal Office of Management and Budget's Compliance Supplement for Single Audits of State and Local Governments.

Staff recommends adoption of the resolution and re-appointment of the audit firm Crisp Hughes Evans LLP.

RESOLUTION BOOK NO. 24 - PAGE 373

H. RESOLUTION NO. 98-42 - RESOLUTION ABANDONING RESERVOIR EASEMENT AND AUTHORIZING AGREEMENT FOR REMOVAL

Summary: Consideration of the abandonment of an easement belonging to the City of Asheville for operation of a water reservoir, together with the associated underground pipes and other property, at the abandoned CTS Reservoir site.

Due to recently completed water system improvements project in the South Asheville/South Buncombe area, the Water Resources Department has ceased to utilize the CTS Reservoir. In accordance with the Water Distribution System Master Plan, the Water Resources Department wishes to dispose of this reservoir and has no future use for the reservoir site, for which the City was granted an easement by CTS. This reservoir is located off Mills Gap Road at the site of the former CTS Plant. A developer has purchased the remainder of the CTS property and has plans for its development. The abandoned CTS Reservoir and the City's easement on which it is located are restricting his development and he desires to acquire the property and demolish the reservoir.

The Deed of Easement from CTS to the City (and Buncombe County) provides that the easement terminates when the reservoir and pipes cease to be used for water supply purposes. In consideration for recording an instrument abandoning the easement, the developer will demolish and remove the reservoir structure at no cost to the City. Since the reservoir was apparently in place when the easement was created, it is not clear that the City would have an obligation to remove the reservoir, but such an agreement would resolve the issue. Because the City needs to retain use of part of one of the waterlines on the property, an easement will be reserved over part of the property.

Staff recommends that City Council authorize the abandonment of the subject easement in accordance with the terms of the conveyance, subject to the above-described reservation, as recorded in the Buncombe County Register of Deeds Office, and a letter agreement with the owner that the reservoir structure will be removed by the owner.

RESOLUTION BOOK NO. 24 - PAGE 374

I. MOTION SETTING A PUBLIC HEARING FOR APRIL 28, 1998, TO REZONE 1201 PATTON AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HB HIGHWAY BUSINESS

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO PROHIBITING DOGS IN RIVERSIDE CEMETERY

ORDINANCE NO. 2461 - ORDINANCE PROHIBITING DOGS IN RIVERSIDE CEMETERY

Mayor Sitnick opened the public hearing at 5:18 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Mr. Irby Brinson, Director of Parks & Recreation, said that based upon City Council's request from the worksession on February 17, 1998, the Parks and Recreation Department is proposing a revision to Code of Ordinances Section 3-27 (3) regarding control of animals in Riverside Cemetery.

Asheville City Council, in July of 1997, adopted an ordinance revision dealing with animals in Riverside Cemetery. This revision required dogs to be leashed, remain on paved roads, be cleaned up after by their owners, and be prohibited from the facility during funeral services. Per City Council's direction, a six-month evaluation of the ordinance changes were required in order to evaluate the effectiveness of these revisions. Over this period of time, the Cemetery Manager and the Park Warden have been documenting occurrences of violations of the ordinance. This information was presented to City Council at a work session on February 17, 1998. Based upon a request by City Council the Parks and Recreation Department and Legal staff is proposing a revision to Section 3-27 (e) of the Code of Ordinances of the City of Asheville. This change represents prohibiting animals at Riverside Cemetery with the exception of allowing dogs or domestic animals which assist persons with sight disabilities. The Department has initiated a Dog Park Task Force which has been meeting since January of 1998. The purpose of this task force is to determine an appropriate location for development of a dog park within the City. This group is very active and is planning to present their report to City Council on May 19, 1998. The Parks and Recreation Department has been assisting this group in trying to address the provision of a dog park within the City.

Upon inquiry of Vice-Mayor Hay about the penalties, City Attorney Oast said that our standard civil penalty is a $50 fine for every violation. If a violation becomes severe enough then the Police would get involved and issue a criminal citation, which could be a fine or imprisonment of up to two years.

Councilwoman Field said that she was disappointed that the trial period did not work and applauded the Parks and Recreation Department for trying.

Mayor Sitnick felt it was important to pursue the Dog Park Task Force. Even though she was opposed to having dogs in Riverside Cemetery, she sympathized with dog owners who need places to walk their dogs. She suggested a grace period of ten days for posting of signs and educating the public of the change.

Mayor Sitnick closed the public hearing at 5:28 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2461 with a ten day grace period. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 434

B. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE ADULT ESTABLISHMETNS FROM USES BY RIGHT SUBJECT TO SPECIAL REQUIREMENTS TO CONDITIONAL USES

ORDINANCE NO. 2462 - ORDINANCE AMENDING CHAPTER 7 (UNIFIED DEVELOPMENT ORDINANCE) OF THE CITY OF ASHEVILLE TO CHANGE ADULT ESTABLISHMETNS FROM USES BY RIGHT SUBJECT TO SPECIAL REQUIREMENTS TO CONDITIONAL USES

Mayor Sitnick opened the public hearing at 5:30 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that City Council requested that staff look at establishing a moratorium on or adopting other resolutions for any new adult establishments within the city limits while the North Carolina General Assembly considers new legislation allowing local governments to have additional regulatory control over adult businesses.

City Council at its formal meeting on February 28, 1998, directed staff to initiate the process to consider a temporary moratorium on or other regulations for new adult establishments in the City of Asheville. The purpose of this process is to provide the City with an opportunity to determine whether additional or different regulations will be appropriate in the event that new authority is granted to North Carolina's local governments by the General Assembly. Senate Bill 452 was introduced in the 1997 Regular Session of the North Carolina General Assembly, and if adopted, would potentially return a measure of regulatory control over adult businesses to local governments.

In reviewing this issue, staff felt that the best was to insure strict review of any potential new locations for adult establishments, while preserving the constitutionality of our ordinance, would be to amend the current zoning regulations pertaining to adult establishments. Specifically, the proposed ordinance provides that adult establishments, currently a Use by Right Subject to Special Requirements (staff review only if all conditions are met; no additional conditions can be placed on the permit), be treated during the period of time stated in the ordinance as a Conditional Use (review by Council; additional conditions may be placed on a permit).

The Planning and Zoning Commission at its meeting on March 4, 1998, voted unanimously to approve the ordinance amendment. The Commission did express a concern for the time being spent on this issue in that they felt the amendment really made very little change as to how adult establishments are handled under the ordinance at present.

Staff recommends City Council consider the adoption of an ordinance amending Chapter 7 of the Code of Ordinances of the City of Asheville to change adult establishments from Uses by Right Subject to Special Requirements to Conditional Uses.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that adult establishments do cover adult book stores and we currently do not have any adult book stores in Asheville.

Councilwoman Field confirmed that there are only four districts that allow adult establishments now, those being the Commercial Industrial, Highway Business, Regional Business and they are not prohibited in the River District.

When Councilman Tomes asked if the City Attorney has heard anything about pending legislation regarding adult entertainment on the Internet, City Attorney Oast said that he's heard legislation discussed at the federal level, however, nothing at the state level.

Mayor Sitnick closed the public hearing at 5:49 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2462. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 436

C. PUBLIC HEARING TO CONSIDER REZONING TWO LOTS AT 16 BEAR CREEK DRIVE DROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO HB HIGHWAY BUSINESS

ORDINANCE NO. 2463 - ORDINANCE TO REZONE TWO LOTS AT 16 BEAR CREEK DRIVE DROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO HB HIGHWAY BUSINESS

Mayor Sitnick opened the public hearing at 5:50 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is consideration of an ordinance to rezone three lots located at 16 North Bear Creek Road from RM-8 Residential Multi-Family Medium Density to HB Highway Business.

The three lots at 16 N. Bear Creek (PIN Nos. 9628.15-54-7654, 7721, and 8515) are approximately 1.5 acres with one residential structure that is currently vacant. The 2010 Plan shows this area to be low density residential which the current RM-8 zoning permits. The property is within the city limits of Asheville. Possible access to this property would cause intrusion through an existing residential neighborhood and street and have traffic impacts on the existing single family neighborhood.

The Planning staff reviewed the rezoning request and recommended denial from RM-8 Multi-Family Residential to HB Highway Business. However, at their March 4, 1998, Planning & Zoning Commission meeting, the Commissioners voted 4- 2 to deny the rezoning of 9628.15-54-7721 but approve the rezoning request for lots 9628.15-54-7654 and 8515 except for a ten foot strip around the right-of-way of Bear Creek Drive which is to remain RM-8.

Upon inquiry of Councilman Cloninger, Mr. Green explained to what extent the recommendation of the Planning & Zoning Commission addressed the concerns that the Planning staff had in recommending denial.

At the request of Councilman Cobb, Mr. Green explained the difference between the Commercial Industrial District and the Highway Business District.

Mr. Ed Brandle, 6000 Castlebrook Drive in Raleigh, N.C., petitioner, spoke in support of the rezoning request.

Mayor Sitnick closed the public hearing at 6:03 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2463. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 438

D. PUBLIC HEARING TO CONSIDER A MODIFICATION REQUEST OF STREET DESIGN STANDARDS FOR CARDINAL PARK SUBDIVISION

Mayor Sitnick opened the public hearing at 6: 04 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is consideration of a modification to the subdivision street design standards for Cardinal Park Subdivision.

The Planning and Development Department received a request to approve a nine lot subdivision known as Cardinal Park on approximately 1.75 acres off Shannon Drive in Oakley. The staff reviewed the request and presented it to the Technical Review Committee ("TRC"). The TRC reviewed the request and required the developer to make several changes to the preliminary plat prior to any approval by the TRC.

The major concern with the preliminary plat was the design at the end of the street where the developer wanted to construct a "T" turnaround instead of the required cul-de-sac. After review by the appropriate departments, the developer was approved to submit the preliminary plat, with conditions, to the Planning and Zoning Commission ("Commission") for review of the street design modification. After review by Commission, the preliminary plat with the "T" turnaround street design modification was recommended for approved by City Council.

The staff presented the preliminary plat to TRC at their meeting on February 16, 1998, and then to the Commission at their meeting on March 4, 1998. Both TRC and the Commission voted unanimously to recommend approval of the preliminary plat with the street design modification.

Mayor Sitnick closed the public hearing at 6:09 p.m.

Councilman Tomes moved to approve the modification request of street design standards for Cardinal Subdivision. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-43 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD

Vice-Mayor Hay said that Mike Holcombe has resigned as one of the City's representatives on the Metropolitan Sewerage District Board, thus leaving a vacancy until January 19, 2000. The Boards and Commissions Committee recommends that the position be immediately filled with another City staff person. Therefore, this resolution will appoint Mr. S. Douglas Spell, Assistant City Manager, to fill Mr. Holcombe's unexpired term, or until his successor has been duly appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-43. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 375

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 24, 1998, THE COMMUNITY MEETING HELD ON MARCH 31, 1998, AND THE WORKSESSION HELD ON APRIL 8, 1998

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on March 24, 1998, the community meeting held on March 31, 1998, and the worksession held on April 8, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. COMMENTS BY JERRY RICE

Mr. Jerry Rice said that he has investigated Genette's holdings and feels that our community deserves better than what the Asheville Citizen-Times newspaper is promoting which is mistrust in how they are printing their material. Mr. Rice also commented that he had contacted several cities in the eastern part of the state that had cable franchises with Multi-Media and requested public records from those cities and was refused.

C. CLAIMS

The following claims were received by the City of Asheville during the week of: March 6-26, 1998: Hobson Construction (Water), Kathy Sprouse (Sanitation), Jim Reato (Civic Center), Debbie Ledford, and William L. Pearcy (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

D. CLOSED SESSION

At 6:25 p.m., Councilwoman Field moved to go into closed session for the following reasons: (1) to consult with an attorney employed by the City of Asheville in order to preserve the attorney-client privilege between the City and its attorney - the parties in the matter about which the Council expects to receive advice are: Multi-Media Publications of North Carolina, Inc., d/b/a Asheville Citizen-Times; Brenmor Cable Partners, d/b/a InterMedia, and the City of Asheville - the statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:50 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:50 p.m.

CITY CLERK

Leni Sitnick
MAYOR

152

Tuesday - April 21, 1998 - 3:00 p.m.

Worksession

Present: Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Summer Food Services Grant Application

Summary: The consideration of the City applying for funding to provide food service as a part of the Summer Day Camp Program.

Funds are available through the North Carolina Department of Environment, Health and Natural Resources, Division of Maternal and Child Health, Child and Adult Care Food Program to provide breakfast, lunch, and snacks. The City of Asheville wishes to apply for funding to provide food service in the Summer Day Camp Program.

The Summer Day Camp Program will provide supervised licensed child care, recreation, enrichment activities, and food service for children in kindergarten through 5th grade, June 4 through August 7, 1998, Monday through Friday, 7:30 am to 6 p.m. at a cost of $72 per week for city residents, $82 per week for non-city residents. Sites will be located at Claxton, Hall Fletcher, Jones, Dickson, and Vance Elementary Schools; and Reid Community Center. Breakfast, lunch and snacks will be provided daily at no extra cost. The number of meals and amount of reimbursement will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville apply for the Summer Food Service Program for Children through the North Carolina Department of Environment, Health and Natural Resources.

Budget Amendment to Appropriate Section 108 Loan Guarantee Funds

Summary: The consideration of a budget amendment to appropriate $1,500,000 from the U.S. Dept. of Housing and Urban Development ("HUD") in Section 108 Loan Guarantee Funds for rehabilitation of substandard affordable rental properties.

City Council approved submittal of the Section 108 Loan application on November 11, 1997. The City submitted an application to HUD on December 16, 1997, for $1,500,000 in Section 108 Loan Guarantee funds. Approval of the loan application by HUD was received by the City on March 31, 1998. This action will appropriate the funds into the General Ledger. These funds will be loaned to investor-owners of substandard affordable rental properties. The investor-owners must agree to rehabilitate the structure with loan proceeds and rent the units at affordable rents, to low and moderate income persons. The goal is to rehabilitate 100 - 150 rental units over the next three years.

Community Development staff recommends adoption of the budget amendment.

Renaming Ballfield to Honor Charlie Bullman

Summary: The Parks and Recreation Advisory Board recommends erecting a sign at the ballfields to rename this athletic facility in honor of Charlie Bullman.

In 1994, the Parks and Recreation Advisory Board unanimously approved renaming the ballfields in the Haw Creek community in honor of Charlie Bullman. Charlie Bullman has dedicated over 40 years of his life to the youth of Asheville. He has been very instrumental in developing the program for the East Asheville Youth Activities Association and has served as President for the league for all but three of the past 40 years. He has not only served as the President but as a role model for many children who have grown up learning the value of wholesome recreation. Charlie has proven himself as an invaluable asset to the community and the recognition of naming the ballfields in honor of Charlie is only fitting. A ceremony will be held on April 27 prior to the opening game of the season where a sign will be erected officially renaming the park the Charlie Bullman Park.

The Parks and Recreation Advisory Board recommends that City Council approve erecting a sign renaming this athletic facility in honor of Charlie Bullman.

Milling Contract for Hilliard Avenue

Summary: The consideration of a resolution authorizing the City to enter into a milling contract with APAC-Carolina, Inc.

The City plans to repave a portion of Hilliard Avenue beginning in June. In connection with that repaving, the existing street surface needs to be "milled" in order to lower the paving surface, and to provide a good adhesion base for the new surface.

The City cannot perform this milling work and must have it done by contract. The estimated cost of this work was low enough that formal bidding was not required.

Using the informal bidding process, the City contacted three local firms about doing the work. Only one of the firms, APAC-Carolina, Inc., has the ability to do it, and they submitted a proposal that was within the City's budget for this work.

The proposed cost of the work exceeds the City Manager's contracting authority. Accordingly, the resolution authorizes the City Manager to execute the contract with APAC on behalf of the City.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REPORT ON PARKS AND RECREATION COMPREHENSIVE MASTER PLAN

Mr. Irby Brinson, Director of Parks and Recreation, said that in June of 1997, City Council approved entering into a contract with Woolpert LLP from Charlotte, North Carolina, to develop a comprehensive Master Plan for Parks and Recreation. In addition, in order to help facilitate the development of this plan and to ensure that input from the community occurred in the process, a Master Plan Steering Committee was developed of 20 members of the community. This Steering Committee represented the diverse interests in our area. The comprehensive master planning process was divided into several steps. These included compiling demographic information, analysis of existing facilities and programs, community needs assessment, development of Master Plan proposals and recommendations, action plan implementation and presentation to City Council. The development of this Master Plan included an extensive public input process which included the six meetings with the Master Plan Steering Committee, sixteen focus group meetings and five community input sessions. This plan represents the recommendations from the community which will assist the City in developing the future of parks and recreation services and facilities for this community.

The Parks and Recreation Advisory Board, the Steering Committee and staff recommend adoption of the Parks and Recreation Comprehensive Master Plan through the year 2015.

Mr. Gary Stewart and Mr. Leon Younger, consultants from Woolpert, LLP., outlined the project overview which consisted of (1) long range plan - 17 years; (2) living document needing to be updated every five years; (3) planning area encompasses the extraterritorial jurisdiction; (4) community driven; (5) balance vision with realism; and (6) recognizes budget issues. He then used a flow chart to describe the planning process that took place.

The demographic information they reviewed contained (1) total population growth and projections; (2) age distribution and median age; (3) race; (4) sex and gender; (5) households; (6) income; and (7) economy. Physical factors reviewed were (1) growth trends, land use, and growth factors; (2) neighborhood and historic preservation; (3) transportation and roads; (4) water and sewer services; (5) soils and topography; (6) environment, open space, and watersheds; and (7) unique natural areas. Additional information included (1) 1996 planning area population was 98,202; (2) 2015 planning area population projection is 109,417; (3) the population is becoming more culturally diverse and aging; (4) more corporations are moving into the area; (5) topography presents major limitations; and (6) several major natural areas surround the City.

An analysis of facilities include: (1) the planning area has 112 recreation sites; (2) the Department operates 54 facilities including over 547 acres, 11 recreation centers, 40 parks, 2 swimming pools, 22 tennis courts and one cemetery; and (3) the Department also responsible for other City buildings. Further analysis shows (1) most park sites are used extensively and were generally rated good; (2) many facilities have aged and are at the end of their life cycle; (3) maintenance is stretched; and (4) pools and recreation centers need major upgrades. An analysis of recreation programs include (1) national trends for 21 program areas were overlaid and a strengths, weaknesses, opportunities and threats analysis was completed; (2) the Department is ahead of national trends in special events/festivals, daycare/preschool, and after school/day camp programs. National trends for the Department to consider are (1) wellness and fitness programming; (2) earned income opportunities; (3) program standards with measurable outcomes; (4) market plans for facilities/programs; (5) partnership development; (6) core program development; and (7) intergenerational programming of recreation centers.

The community needs assessment consisted of five techniques which were used to gather input: (1) project advisory team meetings; (2) focus group meetings; (3) community workshop meetings; (4) recreation standards; and (5) citizen survey. The project advisory team meetings consisted of (1) six meetings to review work in progress; (2) ranged from 25-40 people in each meeting; and (3) individuals representing various community viewpoints throughout the planning area. The focus group meetings (16 meetings from Oct. 2-23, 1997) was with (1) adult sports; (2) alternative transportation; (3) business community; (4) City Officials - 2 meetings; (5) co-sponsored groups; (6) cultural groups; (7) environmental groups; (8) festivals; (9) health services; (10) neighborhoods; (11) other recreation providers; (12) schools; (13) special populations; (14) youth services; and (15) youth sports. The community workshop meetings were in (1) East Asheville Center on October 2, 1997; (2) Montford Center on October 9, 1997; (3) West Asheville Center on October 16, 1997; (4) Shiloh Center on October 23, 1997; and (5) Civic Center on March 19, 1998. Recreation standards included (1) review state and national standards; (2) develop individual standards for City; (3) quantitative comparison for park land and facilities; and (4) comparison of individual programs based upon natural trends. The citizen survey consisted of (1) 3,500 surveys were distributed with 481 returned; (2) assessment of attitudes and awareness; (3) perceived importance of Parks and Recreation Department; (4) identify additional services desired; and (5) confirmed findings from other techniques. Facilities statements: (1) need greenways, bikeways and safe walks; (2) need larger centers for multipurpose use; (3) need a sports complex, (4) need larger park sites; (5) purchase property for new parks; and (6) improve and upgrade existing parks. Program statements: (1) create joint ventures and partnerships; (2) coordinate city and county programs; (3) more senior, teen and female programs; (4) eliminate high cost and low attended programs; and (5) use centers for social events. Policy statements: (1) improve existing facilities and commit to maintenance; (2) make parks accessible to neighborhoods; (3) provide facilities throughout the community; (4) keep fees low for kids and seniors; and (5) don't let the center city sites get lost in the shuffle.

Proposals and recommendations included the following roles of providers: (1) federal; (2) state of N.C.; (3) Buncombe County; (4) City of Asheville; (5) other municipalities; (6) schools; (7) quasi-public sector; and (8) private sector. Buncombe County's role should be (1) more focused on County-wide facilities; and (2) provide district parks and special use facilities. The City of Asheville's role should be (1) more focused on serving Asheville citizens; and (2) provide community, neighborhood, mini, and special-use parks along with greenways. Both agencies' progress should be monitored to avoid duplication and maximize partnership. Partnership opportunities should include (1) schools; (2) neighborhood groups; (3) churches; (4) hospitals; (5) private sector; and (6) other agencies. Regional parks - sites within the area are sufficient and provide adequate service (Smoky Mountain National Park, Pisgah National Forest, Blue Ridge Parkway, Mt. Mitchell State Park and WNC Arboretum. District parks - one new site (Buncombe County). Community parks - three new sites - French Broad/landfill area; Lake Craig area; Erwin Hills area. Neighborhood parks - six new sites - Merrimon/Elkmont area, Beaverdam area; Starnes Cove area, Haw Creek area, Dingle Creek area and Royal Pines areas. Mini parks - nine new sites (existing acreage is adequate but individual districts have need for more sites) - north district - 2 sites minimum; south district - 4 sites minimum; east district - 1 site minimum and west district - 2 sites minimum. Specialized facilities: (1) create two sports game field complexes (a) Richmond Hill site (youth athletics) and (b) stand alone or at a community park site (adult/mixed-use); (2) improve existing swimming facilities at Malvern Hills and Walton Street; (3) develop 2 mega center sites west and south (one site with an indoor pool; (4) renovate and expand 4 existing centers as full multi-purpose recreation centers (Reid, Montford, Shiloh, Stephens-Lee); (5) reuse 7 existing centers as community centers (North, East, West, Murphy-Oakley, Senior Opportunity, Burton, Harvest House); and (6) develop one public golf course. Regarding greenways: (1) a Greenways Master Plan is currently being completed by the Planning Department which will make specific recommendations; (2) corridors were identified and coordinated with the Greenways Master Plan; and (3) standards indicate that 19-22 miles are needed for fitness and walking/jogging trails.

Action plan implementation (1) balance vision with realism; (2) three phases over the 17 year planning period (2015); (3) will meet the needs defined by the community; and (4) recognizes budget issues.

Capital Improvement Program - (1) There are three approaches (status quo, moderate, aggressive) for implementation; (2) following a status quo approach, the City is projected to spend $13.4 million in the next 17 years; and (3) following an aggressive approach, the cost could reach in excess of $70 million. A $30.4 million moderate scenario for capital improvements allows for (1) renovations/maintenance - $13.5 million; (2) 2 community parks - $7.8 million; (3) 3 neighborhood parks - $2.2 million; (4) 1 mega center without pool - $5.6 million; and (5) youth athletic complex - $1.4 million. A moderately aggressive proposal would include a renovations/maintenance program of $13,365,000; land acquisition program of $3,525,000; park development program of $13,942,000; and special use facilities development program of $26,482,000 for a total capital improvement cost of $57,315,000 which does not include greenway development.

Phase I (2000-2005) could include: (1) on-going renovations/maintenance; (2) purchase park land: 3 community, 3 neighborhood, 1 mini, and mega center site; (3) plan and develop parks: 1 community; 3 neighborhood, and 2 mini; (4) plan and develop special facilities: youth athletic facility, mega center with pool, and golf course - total Capital Improvement Plan of $27,847,500.

The proposed operations budget would be (1) at current levels (status quo), the City will spend $90.4 million for operations; and (2) the total cost for operations through Fiscal Year 2015-16 is projected to be $143,508,757 or approximately $8,507,621 per year.

Staff needs: (1) the new organizational structure is centered on efficiency, communication, and strategic management; and (2) four key positions under the Director have been identified which are the Superintendent of Recreation, the Superintendent of Administration, the Superintendent of Parks, and the Superintendent of Facility Services.

Pricing recommendations: (1) establish a costing program to evaluate direct and indirect costs; (2) evaluate each activity's merit and benefit in order to determine its level of public subsidy; (3) establish a strategy to seek out sponsorships and grants through a formal request process; (4) communicate to users the percentage of monies each program receives from the City and/our outside sources; and (5) price all new program services at appropriate levels of public subsidy that are in tune with City's value system.

Earned income opportunities: (1) resident and non-resident fees; (2) sponsorships; (3) grants; (4) partnerships; (5) park foundations; (6) advertising; (7) volunteer development; (8) marketing strategies; and (9) privatization.

Key funding/revenue sources include: (1) generate a revenue plan considering all options of (1) general tax revenues; (2) general obligation bonds; (3) revenue bonds; (4) foundations; (5) general foundations; and (6) federal and state assistance.

Master Plan funding strategy includes: (1) increasing General Fund contributions by 5% will generate $94,996,608 for the 17 year planning period (assuming $76.80 per capita); (2) this increase represents 0.4% of the total City budget for Fiscal Year 1997-98; (3) if the funding remains at current levels it will generate $90,457,057; (4) three bond issues are targeted for approximately $27.8, $18.2 and $11.2 million for the years 1999, 2005 and 2011 respectively. The total is $57,315,000 (100% of Capital Improvement Plan); (5) it is a goal for user fees to generate 18% of the total budget; (6) new and renovated facilities make this achievable; (7) the recommended Special Use Facilities (athletic complexes, 2 mega centers, golf course) will recover 73% of their cost under Asheville's current pricing philosophy; (8) a combination of partnerships, sponsorships, grants, gifts and other revenue sources; and (9) the goal for this combination is $12,393,873 of total budget or $729,051 over the 17 year planning period.

Review of the Master Plan funding strategy is the General Fund (49.29% of budget) for $94,966,608; Bonds (28.54% of budget) for $57,315,000; User Charge Revenue (18.00% of budget) for $36,148,276; and Partnerships, grants, sponsorships and gifts (6.17% of budget) for $12,393,873. The total being $200,823,757.

Mr. Stewart and Mr. Younger responded to various questions from Council, some being, but not limited to: their opinion on whether the community would support a bond referendum;

regarding the extraterritorial jurisdiction facilities, did they recommend that Buncombe County help with those facilities; what facilities are at the end of their life cycles; what types of partnerships were they thinking about; was the response to the citizen survey about average; why did they recommend a public golf course; what are the indirect costs they mentioned; what the bond referendum would cost the citizens in taxes; is it unusual for a parks & recreation department to maintain city buildings; what costs are attributable to the extraterritorial jurisdiction facilities; is it feasible to adopt a Parks & Recreation Master Plan without adopting a Greenway Master Plan; has any land been identified for mini-parks; suggestions for privatizing; how should the City proceed if a bond referendum failed; and what kind of grants are available.

Upon inquiry of Mayor Sitnick on whether the consultants felt that the City should sell any part of Memorial Stadium, Mr. Stewart felt that the City should not sell it.

Upon inquiry of Councilwoman Field relative to bonds and how much it costs the City to go through a bond referendum, City Manager Westbrook said that he would provide that information to Council.

It was the consensus of City Council to hold a public hearing on the Parks and Recreation Comprehensive Master Plan on May 12, 1998.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LITTER CONTROL

Ms. Karen Rankin, Waste Management Coordinator, reviewed with Council where litter comes from: pedestrians, motorists, dumpsters used by businesses, loading docks, construction and demolition sites, trucks with uncovered loads and household trash handling and its placement at the curb for collection.

She reviewed the current clean-up efforts: (1) Adopt-A-Street Program; (a) run cooperatively with Quality Forward; (b) currently 45 groups participating; and (c) city provides gloves, bags, and trash disposal; and (2) dump site cleanups; (2) work with Buncombe County and the N.C. Dept. of Transportation.

She reviewed Asheville dump site cleanups in 1998. Completed cleanups includes Club Street - 30 truck loads; $17,000; and Montford - 12 truck loads, $12,000. Current projects are on Merritt Street, Craven Street and Richland Avenue.

Downtown efforts include: (1) early morning trash pick-up; cigarette butt receptacles added; (3) street cans collection frequency increased; and (4) began work on flyer management.

New initiatives include (1) appliance collection fee reduced from $25 to $5; (2) additional street sweeper purchased; and (3) new position created - Sanitation Projects Coordinator.

Litter violations penalties are based on weight and type of litter disposed: (1) up to 15 pounds - $100 to $500, misdemeanor; (2) 15 to 500 pounds - $100 to $1,000, misdemeanor; and (3) over 500 pounds or a hazardous waste, felony.

Research by Keep America Beautiful Inc. found that people litter because they feel no sense of ownership, even though areas such as parks are public property, they believe someone else - a park maintenance or highway worker - will pick up after them; and (3) litter has already accumulated.

Mayor Sitnick noted that (1) she is in the process of obtaining reports of how many signs are taken down and other pertinent information regarding the sign enforcement; (2) she has talked with the Coalition of Asheville Neighborhoods regarding neighborhood kiosks; (3) she has talked with the City Manager regarding street and sidewalk vacuums which are expensive, but would help the street sweepers keep sidewalks clean - especially in the downtown area; (4) there is a need for an education awareness project in the schools; and (5) City Council needs to lend their support to the enforcement of the state law that requires loads on dump trucks to be covered.

Councilwoman Field said that (1) the kiosks in downtown are working; (2) graffiti needs to be removed from the buildings or painted over it as soon as possible; (3) litter in downtown actually needs to be picked up and just not swept from street to sidewalk; (4) litter on vacant lots needs to be addressed; and (5) people need to be educated that the sidewalks in front of their buildings is their responsibility to keep clean along with keeping the grates around the trees clean as well from litter and cigarette butts.

Councilman Cobb stressed that an education program is an absolute must to help alleviate the problem of people littering.

Ms. Susan Roderick, Executive Director of Quality Forward, briefed Council on a litter summit taking place in Raleigh, N.C., and how our ideas might blend in with that road show. She also relayed that the private sector is starting to get involved with litter prevention.

Upon inquiry of the City Manager, Mayor Sitnick envisioned the litter roundtable consisting of those in the community who are already participating in that issue and having it open to the public and having it solution oriented. She suggested inviting various groups, i.e., Quality Forward, Adopt-A-Street, schools, the church community, etc. She felt that when a date is set for the litter roundtable, that it could be placed in Quality Forward's newsletter.

Mr. Bob Tinkler, with Adopt-A-Street, briefed Council on how they are working on litter prevention.

Ms. Willie Mae Brown, Chair of the Clean Community Committee, urged City Council to adopt-a-street and hoped they would continue to support their efforts.

Upon inquiry of Mayor Sitnick, Ms. Roderick said that Quality Forward has done some work with the fast food franchises and will continue to try to do more.

It was the consensus of City Council to hold the litter roundtable in the third week in August, 1998.

ESTABLISHMENT OF AN ASHEVILLE FILM BOARD

Ms. Robin Westbrook, Public and Community Involvement Coordinator, said that this is the consideration of an ordinance establishing an Asheville Film Board.

Western North Carolina (WNC) and the surrounding area has become an increasingly popular location for film production. Efforts to promote and coordinate film production in WNC are currently organized through the North Carolina Film Commission and the Western North Carolina Film Commission. City Council has expressed an interest in supporting these and other activities by establishing an Asheville Film Board. This Board will encourage and support efforts to increase film production in the City of Asheville.

City Attorney Oast suggested some amendment to the ordinance prior to adoption by City Council.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS FROM BOARDS AND COMMITTEES

Councilman Tomes said that the Minority Business Commission has requested that they be allowed to make a presentation to City Council. It was the consensus of Council to instruct the City Manager to schedule their appearance at a worksession.

Councilwoman Field was pleased to report that the Metropolitan Sewerage District Planning Committee is taking a step forward by hosting or initiating some type of long range planning for infrastructure for the whole region.

HILLCREST COMMUNITY MEETING DATE

It was the consensus of City Council to hold the Hillcrest community meeting on Tuesday, May 5, 1998, at 6:00 p.m., at the Hillcrest Community Center. The tour of the pedestrian bridge will take place at 5:30 p.m. on Tuesday, May 5, 1998, with City Council meeting at the community center.

DISCUSSION OF CONDITIONAL ZONING

Mr. Gerald Green, Senior Planner, said that this report provides information on conditional use zoning to assist City Council in making a decision regarding the application of this process in Asheville.

Conditional use zoning permits a significant amount of flexibility during the rezoning process. The flexibility provided by this approach allows the attachment of conditions tailored to the property being rezoned or to the use proposed for the site. Conditions are identified and agreed to by the applicant, with the approval of the decision-making body. Adverse impacts of the rezoning, and subsequent development, can be mitigated by the conditions attached to the rezoning. Significantly more time is required for the review and administration of conditional use zoning due to the need to identify conditions, negotiate with the various involved parties, and assure compliance with the conditions. Conditional use zoning can be a useful tool for those communities willing to commit the resources necessary to make it work.

This report is being provided as additional information for City Council regarding conditional use zoning.

By the use of slides, he explained what conditional use zoning is: (1) zoning which allows the attachment of conditions during the rezoning process; (2) conditions typically address potential impacts or circumstances unique to the property; (3) conditions vary from case to case; (4) conditions assure that development on rezoned land is compatible with surrounding uses and that adjacent properties are protected from negative impacts or loss of value; (5) conditions usually consist of on-site design restrictions and requirements, but can include requirements for construction of or payment for off-site improvements; (6) conditions must be identified by the rezoning applicant and approved by the City Council as part of the rezoning; (7) site plan is not reviewed as part of rezoning request; (8) during review of the site plan, review staff assures that all conditions attached to the rezoning are met; and (9) following approval of the site plan and construction of the building, City staff must assure that all conditions are met and continue to be met.

He then outlined two approaches to conditional use zoning: (A) Floating Zone: (1) conditional use design described for each zoning district in text of zoning ordinance; (2) no initial indication of conditional use zones on zoning map; (3) each rezoning considered on case by case basis; (4) rezoning of any property permitted subject to agreed upon conditions; and (5) if no action taken to obtain zoning/building permit within specified time, rezoning is void; and (B) Overlay Zone: (1) conditional use zoning permitted only in specified zoning districts; (2) conditional use districts described in text of ordinance and shown on zoning map as an overlay to the existing zoning; (3) City identifies and designates those areas where conditional zoning is appropriate or necessary; and (4) flexibility is limited under this approach.

The advantages include: (1) encourages dialogue and negotiation among the applicant/developer, staff, and neighboring property owners; (2) permits the identification of a specific use(s) allowed on the site; (3) reduces fear of the unknown; (4) conditions are tailored to the site, addressing impacts the proposed uses would have on neighboring properties and the infrastructure; (5) provides the City with greater flexibility in the approval of rezoning requests; (6) permits the mitigation of development impacts; and (7) if used correctly, can help in the implementation of the comprehensive plan and small area plans.

The disadvantages include: (1) requires more time for staff, applicants, neighboring property owners, Planning & Zoning Commission, and City Council to identify and approve conditions; (2) change in development plans for property following conditional zoning may result in rezoning becoming void; (3) administration of development becomes more time consuming, as each site could have different development standards; (4) could result in increase in number of rezoning requests , as change in development plans require revised conditions; (5) concern that City may be micro-managing development; (6) more staff time spent on conditional use zoning requests would require revision of other staff priorities; and (7) revisions to record-keeping system would be needed to keep track of conditions attached to rezonings and compliance with these conditions.

Mr. Green and City Attorney Oast responded to several questions from Council relating to why staff didn't recommend conditional use zoning when the Unified Development Ordinance was being reviewed; how does spot zoning come into place with conditional use zoning; what type of conditions can be placed on a rezoning; will the permit fees for conditional use zoning be higher; and can the conditional use zoning be limited to certain districts.

Mayor Sitnick stated that Council is trying to be efficient and effective with staff and felt that they are already being stretched where enforcement is concerned. She felt that if 95% of the cases want special consideration, then eventually everyone will want special consideration and then what is the point of a standard Unified Development Ordinance. She felt the issue needed some intense thought with some concerns being staff time, budget concerns if there is a need to hire additional staff, and City Council time.

Vice-Mayor Hay agreed that it sounded like a tremendous amount of staff time, in addition to more time for the Planning & Zoning Commission and City Council.

City Manager Westbrook, who is the former City Manager of Cary, N.C., where conditional use zoning is used, outlined his experiences with that type zoning.

Councilman Tomes realized that there needs to be standard procedures but since government is to work on behalf of the people, he felt Council should at least have the option for some flexibility.

It was the consensus of City Council to consider this again when the Unified Development Ordinance is having it's annual review in the next couple of months.

OTHER BUSINESS:

Councilwoman Field advised Council of a State Building Code requirement that has to do with the issue of allowing open stairs inside of buildings, which will have a major effect on affordable housing. She felt this may be something that City Council will want to write their legislative delegation about.

Ms. June Lamb stressed the need for the urgency of City Council to consider the Shelburne Road rezoning issue and not wait until the public hearing continued date of July 28, 1998.

CLOSED SESSION

At 6:52 p.m., Councilman Sellers moved to go into closed session for the following reasons: (1) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties in the matter about which the Council expects to receive advice are: (A) Multimedia Publications of N.C., Inc., d/b/a Asheville Citizen-Times; (B) Brenmor Cable Partners, Ltd., d/b/a InterMedia; (C) City of Asheville - the statutory authority is G.S. 143-318.11 (a) (3); and (2) to establish, or to instruct the City's staff or negotiate agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real estate - the statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Cobb and carried unanimously.

At 7:50 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 28, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 30, 1998, AS "ISRAEL'S INDEPENDENCE DAY "

Vice-Mayor Hay read the proclamation proclaiming April 30, 1998, as "Israel's Independence Day " in the City of Asheville and presented a proclamation to Rabbi Ratner who asked for peace in the Middle East.

B. PROCLAMATION PROCLAIMING MAY, 1998, AS "OLDER AMERICANS' MONTH," THE WEEK OF MAY 10-16, 1998, AS "SENIOR CENTER WEEK," "SENIOR SMILE WEEK," "NURSING HOME WEEK," AND MAY 17-23, 1998, AS "SENIOR WELLNESS WEEK"

Councilman Cobb read the proclamation proclaiming May, 1998, as "Older Americans Month," the week of May 10-16, 1998, as "Senior Center Week," "Senior Smile Week," "Nursing Home Week," and May 17-23, 1998, as "Senior Wellness Week" in the City of Asheville. He presented the proclamation to Ms. Frances Corbin who briefed Council on some planned activities taking place during the month.

C. PROCLAMATION PROCLAIMING THURSDAY, MAY 7, 1998, AS "PARKS AND RECREATION VOLUNTEER RECOGNITION DAY "

Councilman Sellers read the proclamation proclaiming Thursday, May 7, 1998, as "Parks and Recreation Volunteer Recognition Day" in the City of Asheville and presented the proclamation to Mr. Jim Orr who is the recipient of the 1998 award.

D. PROCLAMATION PROCLAIMING APRIL 30, 1998, AS "DAY OF DIALOGUE"

Councilwoman Field read the proclamation proclaiming Thursday, April 30, 1998, the beginning of "Day of Dialogue" in the City of Asheville and presented the proclamation to Ms. Holly Jones, Executive Director of the YWCA. Ms. Jones briefed the Council on some activities planned for the day.

E. PROCLAMATION PROCLAIMING MAY 7, 1998, AS "NATIONAL DAY OF PRAYER DAY""

Councilman Tomes read the proclamation proclaiming Thursday, May 7, 1998, as "National Day of Prayer" in the City of Asheville and presented the proclamation to Reverend Canon William G. McLoughlin, Rector of the Church of the Resurrection, and Reverend Frank

Saunders from St. James AME Church, who briefed the Council on some activities planned for the day.

II. CONSENT:

Mayor Sitnick said that Item C. on the Consent Agenda has been removed.

A. RESOLUTION NO. 98-44 - RESOLUTION TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES TO FUND THE FOOD SERVCE FOR THE SUMEMR DAY CAMP PROGRAM.

Summary: The consideration of the City applying for funding to provide food service as a part of the Summer Day Camp Program.

Funds are available through the North Carolina Department of Environment and Natural Resources, Division of Maternal and Child Health, Child and Adult Care Food Program to provide breakfast, lunch, and snacks. The City of Asheville wishes to apply for funding to provide food service in the Summer Day Camp Program.

The Summer Day Camp Program will provide supervised licensed child care, recreation, enrichment activities, and food service for children in kindergarten through 5th grade, June 4 through August 7, 1998, Monday through Friday, 7:30 am to 6 p.m. at a cost of $72 per week for city residents, $82 per week for non-city residents. Sites will be located at Claxton, Hall Fletcher, Jones, Dickson, and Vance Elementary Schools; and Reid Community Center. Breakfast, lunch and snacks will be provided daily at no extra cost. The number of meals and amount of reimbursement will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville apply for the Summer Food Service Program for Children through the North Carolina Department of Environment and Natural Resources.

RESOLUTION BOOK NO. 24 - PAGE 376

B. RESOLUTION NO. 98-45 - RESOLUTION RENAMING THE ATHLETIC FACTILITY IN THE HAW CREEK COMMUNITY IN HONOR OF CHARLIE BULLMAN

Summary: The Parks and Recreation Advisory Board recommends erecting a sign at the ballfields to rename this athletic facility in honor of Charlie Bullman.

In 1994, the Parks and Recreation Advisory Board unanimously approved renaming the ballfields in the Haw Creek community in honor of Charlie Bullman. Charlie Bullman has dedicated over 40 years of his life to the youth of Asheville. He has been very instrumental in developing the program for the East Asheville Youth Activities Association and has served as President for the league for all but three of the past 40 years. He has not only served as the President but as a role model for many children who have grown up learning the value of wholesome recreation. Charlie has proven himself as an invaluable asset to the community and the recognition of naming the ballfields in honor of Charlie is only fitting. A ceremony will be held on April 27 prior to the opening game of the season where a sign will be erected officially renaming the park the Charlie Bullman Park.

The Parks and Recreation Advisory Board recommends that City Council approve erecting a sign renaming this athletic facility in honor of Charlie Bullman.

RESOLUTION BOOK NO. 24 - PAGE 377

C. RESOLUTION AWARDING MILLING CONTRACT TO APAC-CAROLINA INC. FOR HILLIARD AVENUE

This item was removed from the Agenda.

D. ORDINANCE NO. 2464 - BUDGET AMENDMENT TO APPROPRIATE $1,500,000 IN SECTION 108 LOAN GUARANTEE FUNDS FOR REHABILITATION OF SUBSTANDARD AFFORDABLE RENTAL PROPERTIES

Summary: The consideration of a budget amendment to appropriate $1,500,000 from the U.S. Dept. of Housing and Urban Development ("HUD") in Section 108 Loan Guarantee Funds for rehabilitation of substandard affordable rental properties.

City Council approved submittal of the Section 108 Loan application on November 11, 1997. The City submitted an application to HUD on December 16, 1997, for $1,500,000 in Section 108 Loan Guarantee funds. Approval of the loan application by HUD was received by the City on March 31, 1998. This action will appropriate the funds into the General Ledger. These funds will be loaned to investor-owners of substandard affordable rental properties. The investor-owners must agree to rehabilitate the structure with loan proceeds and rent the units at affordable rents, to low and moderate income persons. The goal is to rehabilitate 100 - 150 rental units over the next three years.

Community Development staff recommends adoption of the budget amendment.

ORDINANCE BOOK NO. 16 - PAGE 440

E. ORDINANCE NO. 2465 - ORDINANCE ESTABLISHING AN ASHEVILLE FILM BOARD

Summary: Western North Carolina (WNC) and the surrounding area has become an increasingly popular location for film production. Efforts to promote and coordinate film production in WNC are currently organized through the North Carolina Film Commission and the Western North Carolina Film Commission. City Council has expressed an interest in supporting these and other activities by establishing an Asheville Film Board. This Board will encourage and support efforts to increase film production in the City of Asheville.

ORDINANCE BOOK NO. 16 - PAGE 442

F. MOTION SETTING A PUBLIC HEARING FOR MAY 12, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO INCLUDE A REVISED DEFINITION OF SCHOOLS

G. MOTION SETTING A PUBLIC HEARING ON MAY 12, 1998, TO REZONE 594 EMMA ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT AND COMMUNITY BUSINESS II TO CB I COMMUNITY BUSINESS I DISTRICT

H. MOTION SETTING A PUBLIC HEARING ON MAY 12, 1998, TO REZONE 2222 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

I. MOTION SETTING A PUBLIC HEARING ON MAY 12, 1998, TO REZONE 2200 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

J. MOTION SETTING A PUBLIC HEARING ON MAY 12, 1998, TO CONSIDER THE PARKS AND RECREATION DEPARTMENT 2015 COMPREHENSIVE MASTER PLAN

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A REQUSET FOR A NEW STREET NAME OF WREN WAY DRIVE, LOCATED AT THE CORNER OF SHANNON DRIVE

RESOLUTION NO. 98-46 - RESOLUTION ACCEPTING THE STREET NAME OF WREN WAY DRIVE

Mayor Sitnick opened the public hearing at 5:22 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that the developer and owner of Cardinal Park Subdivision project has requested to rename the existing Second Street right-of-way to Wren Way Drive. The acceptance is more indicative and appropriate for the property location which is at the corner of Shannon Drive. The Buncombe County representative, and City of Asheville representatives, from Traffic Engineering Division and the Asheville Fire Department, have confirmed that Wren Way Drive will not duplicate another street name elsewhere in Buncombe County.

The Technical Review Committee and the Planning & Zoning Commission both voted unanimously to recommend approval of the new street name.

Mayor Sitnick closed the public hearing at 5:24 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-46. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 378

B. PUBLIC HEARING RELATIVE TO REZONING 1201 PATTON AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HB HIGHWAY BUSINESS

ORDINANCE NO. 2466 - ORDINANCE TO REZONE 1201 PATTON AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HB HIGHWAY BUSINESS

Mayor Sitnick opened the public hearing at 5:24 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is consideration of an ordinance to rezone a split-zoned lot located at 1201 Patton Avenue from RM-8 Residential Multi-Family Medium Density to HB Highway Business. The entire lot is approximately 1.03 acres and each zone is approximate one-half an acre.

The 2010 Plan shows this area to be low density residential which the current RM-8 zoning permits. City staff feels that any higher intense uses permitted in the HB zoning district could possibly cause negative impacts on the existing residential neighborhood and street. This existing neighborhood is isolated with its primary access adjacent to this property.

This property is inside the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended denial from RM-8 Residential Multi-Family Medium Density to HB Highway Business. However, at the Planning & Zoning Commission meeting on April 1, 1998, the Commission voted 6-1 to approve the rezoning of PIN # 9628.08-97-4767 from RM-8 Residential Multi-Family Medium Density to HB Highway Business.

Upon inquiry of Councilman Cobb, Mr. Ownbey responded that there will be buffering required depending on what type of development is built.

When Vice-Mayor Hay asked about the parking lot. Mr. Ownbey said that since the use grandfathered in, if he changes the use, he can no longer use the parking lot.

Mr. Chao J. Tse spoke in support of zoning the entire lot Highway Business. He explained that when his family bought the property, they were not told that it was split-zoned.

Mr. Steve Aceto, attorney representing the petitioner, passed out some photographs and deeds showing the topography of the area and how the piece is developed as a whole. He said that the Tse family has been selling food at this location for ten years to finance their investment in this property. He said the level, paved parking area has access off Patton Avenue and at the rear on Laurel Loop. He said that the N.C. Dept. of Transportation has determined that a traffic light at Patton Avenue and Druid Drive is warranted and will be eventually installed. He noted that since 1967 the ownership of this property has not been divided and has been deeded as a single lot since at least 1969. He noted that the zoning line does not follow the tax lot boundaries. He said the Unified Development Ordinance provides for substantial buffering to be added if this use were to change. He felt this was a common sense revision to the zoning maps.

Vice-Mayor Hay felt frustrated when people don't check the zoning maps when they buy property.

Councilman Tomes wondered how many other parcels of land in the City are split-zoned.

When Councilwoman Field questioned why the property was split zoned especially since the Planning & Development Director doesn't support split zoning and City Council went out of their way when adopting the Unified Development Ordinance to solve some of the lot that were split zoned. Mr. Ownbey responded that he didn't have that history on this particular lot, however, the boundary line was the same that was used under the old zoning ordinance.

Councilwoman Field felt that the City should get a listing of all of the split zoned lots and review them to see if they needed to be all zoned one classification.

Regarding the split zoned lot, Vice-Mayor Hay theorized that when Patton Avenue was widened, the N.C. Dept. of Transportation condemned a portion of the front part of the lot on Patton Avenue making the front lot much smaller and they just put parking in the back.

At the request of Councilwoman Field, Mr. Ownbey explained why the Planning & Zoning Commission felt the lot should be rezoned.

Mayor Sitnick closed the public hearing at 5:43 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2466. This motion was seconded by Councilman Tomes.

Councilman Sellers spoke in support of the rezoning to Highway Business, however, he was concerned about the entrance/exit onto Laurel Loop.

Councilwoman Field and Councilman Cloninger asked staff to attempt to get all the split zoned lots cleared up in Asheville.

Mayor Sitnick said that in looking at all the uses available in the Highway Business District and know that City Council cannot vote on a rezoning having to do with current use or intended use, she would vote against this rezoning because of the distance in which it intrudes into the residential neighborhood.

When Mayor Sitnick asked for a vote on the motion, said motion carried on a 6-1 vote with Mayor Sitnick voting "no".

ORDINANCE BOOK NO. 16 - PAGE 444

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2467 - ORDINANCE AMENDING THE ZONING OF PROPERTY ON OLD HAYWOOD ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

Mayor Sitnick noted that the public hearing on this matter was held on March 24, 1998, and tabled until today in order to give the petitioners and the neighboring property owners time to get together in an attempt to reach a compromise on the rezoning. She said that after the reports are given as to the outcome of the meeting, she would re-open the public hearing to hear only new information as it pertains to the rezoning.

Mr. Gerald Green, Senior Planner, reviewed the original request by stating that David and Connie Evans and Max and Flora Wilson are the owners of 3 lots (PIN Nos. 9628.13-12-1961, 9628.17-02-6431, and 9618.16-93-6038), containing approximately 42 acres, located on Old Haywood Road near its intersection with Patton Avenue. The property is wooded with two homes located on it. The area adjacent t Lakeside Drive is wet and marshy. The property which is requested to be rezoned was R-3 under the old zoning ordinance but with the adoption of the Unified Development Ordinance, the property was designated RS-4. The R-3 designation of the property under the previous zoning ordinance permitted a development density of 16 units per acre, both single family and multi-family development.

Mr. Green then briefed Council on the meeting by stating that interested parties were contacted and a meeting to discuss the issue in an attempt to reach a compromise was scheduled on Wednesday, April 15, at 5:30 p.m. in the old West Asheville Branch Library on Haywood Road. He arranged the meeting and served as mediator. The meeting was arranged as follows: (1) Five neighboring property owners were identified and invited to represent the neighborhood; (2) in order to keep the meeting focused, only the identified neighborhood representatives could participate in the discussion; (3) all interested area residents could attend the meeting; (4) the rezoning petitioners were invited to present their desires for the property and to hear the concerns of the neighboring property owners; (5) the petitioners' attorneys could participate in the identification of possible compromises, but not in the discussion of desires and concerns; and (6) the purpose of the meeting was to identify concerns, desires, and a potential compromise(s). In addition to the identified neighborhood representatives, approximately 30 area residents attended the meeting.

The meeting lasted approximately two hours during which a number of concerns were expressed by the neighborhood representatives. The identified concerns include:

- traffic impacts;
- the impact of multi-family development on the character of the neighborhood;
- school overcrowding; and
- pedestrian safety in the area.

The petitioners discussed their plans for the property, stating that they have no development plans. They are interested in selling the property, with the purchaser being responsible for the development. Mr. and Mrs. Evans mentioned that a prospective buyer was interested in converting the large home on the property into a bed and breakfast, which would require multi-family zoning.

Following the discussion of concerns and desires, the petitioners for the rezoning identified possible compromises, as follows:

- Revise the rezoning request to RM-6 instead of RM-8;
- Provide a 50 foot buffer of RS-4 zoning around the boundary of the property; and
- Request a partial rezoning of the property, requesting multi-family zoning only for the house and the surrounding 8 to 10 acres (care would have to be taken with this approach to avoid illegal spot zoning).

The neighboring property owners did not accept any of the compromises offered by the petitioners for the rezoning. The consensus of the neighboring property owners was that the property should be zoned RS-2 and they did not support any rezoning of the property to permit greater density.

The meeting ended with no compromise being reached and the area residents strongly opposed to the rezoning of the property.

Mr. Green said that the Evans' are not here at this meeting due to medical problems. He said that he has talked with the attorney for the petitioners and they may present a request to revise the rezoning request application to provide a 100 foot buffer around the perimeter of the property, thereby negating the protest petition which has been filed by the neighboring property owners.

City Attorney Oast explained that one of the legal requirements of a protest petition is that the properties in opposition to the proposed rezoning have to be located within a 100 feet of the area to be rezoned and if you back off the rezoning line by 100 feet, it effectively negates the protest petition.

Upon inquiry of Councilman Sellers about a small piece of property, Mr. Green said that since the piece is marshy with a stream running through it, it would be difficult to develop.

When Councilwoman Field asked how the 100 foot buffering would address the visual concerns of the property owners, Mr. Green said that any development in the center of the property would still be visible.

Upon inquiry of Mayor Sitnick, City Attorney Oast explained that spot zoning depends on a number of different factors and that only a court can say whether it's spot zoning or not. Mayor Sitnick said she saw this as spot zoning in reverse - rather than creating a spot zoning, we're creating an area around a piece to create the spot.

Mr. William F. Slawter, attorney for the petitioners Evans and Wilson, reported on the meeting as well, in that the petitioners had agreed to a compromise of a 50 foot buffer along the perimeter of the property, which would be in addition to the buffering required by the buffering ordinance, which may be as much as 30 feet in some areas. They also discussed reducing the request from RM-8 to RM-6. The response they heard was simply that the neighborhood did not want the property developed except to single family and even to a more restrictive zoning of RS-2. Based upon the outcome of the neighborhood meeting and their follow-up from that meeting, the petitioners have authorized him to ask that the petition for rezoning be modified so as to only request the rezoning to RM-8 on the interior portion of the property leaving a 100 foot strip around the entire perimeter of the property zoned RS-4. He presented City Council with a map showing how that rezoning would look in that it would not be RS-4 along the line between the Wilson property and the Evans property, but around the entire perimeter of the property. That would negate the protest petition, however, it would absolutely ensure that the development of the property around the perimeter would have to be single family or the 100 foot strip left undeveloped. He reiterated that the zoning of the property before adoption of the Unified Development Ordinance was R-3, which allowed 16 units per acre.

Mr. Slawter responded to a questions about how someone could develop lots in the 100 foot strip that met the requirements of RS-4.

In response to a question from Councilman Cobb, Mayor Sitnick felt that it was pretty fair to say that lots that are developed for more density or for commercial use sell for a higher value than residential use.

170

Mayor Sitnick reopened the public hearing at 6:17 p.m.

Mr. Joseph Kane, representative of the property owners who directly surround the petitioners' property, said that the property owners are convinced that there has not been a convincing demonstration that all uses permitted under the proposed zoning district classification would be in the general public interest and not merely in the interest of an individual or small group of people. Also, there has not been convincing demonstration on the petitioners' behalf that all uses permitted under the proposed zoning district would be appropriate in the area of the proposed change. There is, however, convincing demonstration on the community's behalf that the character of the neighborhood will be materially or adversely affected by any use permitted under the proposed zoning classification. The protection and preservation of neighborhoods is clearly stated in both the 2010 Plan and the Unified Development Ordinance. The approval of the proposed rezoning would be inconsistent with the goals and objectives of the community. The neighborhood does not feel that the financial gain for the benefit of two petitioners is a legitimate basis for downzoning. Democracy should prevail. The neighborhood urges City Council not to rezone this property.

Mr. David Peifer said that there was no compromise to be found at the meeting and reiterated all the reasons why the neighborhood did not support rezoning.

Mr. Jim Fagan stressed that the majority should rule.

Mr. Herman Hipps said that if City Council allows the 100 foot strip, it will undermine the Unified Development Ordinance. He urged Council not to rezone the property at all.

Mayor Sitnick closed the public hearing at 6:37 p.m.

Upon inquiry of Councilman Cloninger, Mr. Green explained why the protest petition would be negated and noted that there is no way the community could do a valid protest petition with the 100 foot strip around the properties remaining RS-4. With no valid protest petition, there is no longer the 3/4's majority voting requirement from Council - it would only take a simple majority to pass. City Attorney Oast added that this is not the kind of change that would invoke a separate public notice requirement.

When Vice-Mayor Hay asked if staff has had a chance to review the 100 foot buffer and if staff had a recommendation, Mr. Green replied that they have not received this proposal.

Upon inquiry of Councilwoman Field about the tone of the meeting with the property owners and neighborhood, Mr. Green felt that there was a willingness to listen on all parts, however, the neighborhood was adamant that the property not be rezoned but the petitioners did try to compromise.

Mr. Green said that if this rezoning were approved with the 100 foot buffer around the perimeter of the properties, the only way to access a multi-family development would be by crossing single-family zoned property which would require the building of a public street onto the property as opposed to using the private drive. Mr. Slawter did state that they were aware of this requirement.

Councilwoman Field said that she is a strong supporter of affordable housing and feels that this is a very difficult decision for her to make.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2467 to rezone the 3 lots (PIN Nos. 9628.13-12-1961, 9628.17-02-6431, and 9618.16-93-6038), containing approximately 42 acres, located on Old Haywood Road near its intersection with Patton Avenue, from RS-4 to RM-8, with the exception of a 100 foot buffer around the entire perimeter of the property remaining RS-4. This motion was seconded by Vice-Mayor Hay.

Councilman Cobb said that the rezoning is against the 2010 Plan, there are traffic congestion in the area already, the school is overcrowded and the community doesn't want multi-family development. He would not vote in favor of the rezoning.

Councilman Tomes hoped to have consensus from the community, however, he would not vote in favor of the rezoning.

Mayor Sitnick said that she would also have to vote against the rezoning because (1) she believes strongly in the 2010 Plan and it serves the community well, (2) the rezoning request will create spot zoning in several spots; (3) that the development of the 100 foot buffer will result in split zoned lots that will come back to City Council for resolution at a future date; and (4) the RM-8 which permits some non-residential uses could negatively impact this neighborhood, including the affordable housing aspect of the neighborhood. She felt that while a 100 foot buffer is an interesting idea and a cleaver idea, she believed that it was created in order to get a better vote from this Council.

Councilman Cloninger said that if there was still the potential for the neighborhood to gather another valid protest petition, he would support postponing this hearing in fairness to them to do that. However, since there is no way that a valid protest petition can occur, he didn't see any point in postponing the action.

Upon inquiry of Mayor Sitnick, Mr. Oast outlined the purposes City Council should use in considering rezoning requests.

Councilwoman Field said that her firm was the architect for the Sand Hill Venable School and the school is designed to be expandable. She said that the County School System did understand that there would be growth in that community and the school is designed to be able to be added onto fairly easily.

Mayor Sitnick called for a show of hands on the motion. Said motion carried on a 4-3 vote with Vice-Mayor Hay, Councilwoman Field and Councilmen Cloninger and Sellers voting "yea" and Mayor Sitnick and Councilmen Cobb and Tomes voting "no".

City Attorney Oast explained that since the ordinance didn't pass by a 2/3's vote of the Council, it has to be voted on again at the next formal meeting.

At 7:00 p.m. Mayor Sitnick announced a three minute break.

V. NEW BUSINESS:

A. PRESENTATION ON BUILDING SAFETY DEPARTMENT RECEIVING AN INSURANCE SERVICE OFFICE RATING OF "2" - BEST IN THE STATE

Mayor Sitnick was pleased to report that the Insurance Service Office Rating of "2" is not only the best in the State, but Asheville is the only City in the State to receive such a rating, and only one of a few cities in the nation to receive the rating.

Mr. Terry Summey, Director of Building Safety, said that effective on May 1, 1998, the City of Asheville will have new Insurance Service Office (ISO) Building-Code Effectiveness Grading Schedule (BCEGS) Ratings; the new Ratings of "2" are the best in the State.

As a result of Hurricane Andrew in 1992 knocking the wind out of property/casualty insurers that covered homes and businesses, it was recognized that effective building code enforcement can lower insured losses. The ISO, in cooperation with numerous organizations, developed the Building Code Effectiveness Grading Schedule (BCEGS). Studies of various catastrophes graphically demonstrated that effective code enforcement reduces loss in catastrophic events. Experts estimate that Hurricane Andrew losses could have been reduced 25% to 55% if building codes had been strictly enforced.

In 1995, ISO completed classifying communities in Florida, North Carolina, and South Carolina, three of the country's most hurricane-prone states. The City of Asheville was evaluated in mid-1995 and received a positive rating of "4" for both new commercial and residential construction. Normally jurisdictions are reevaluated every five years unless significant changes occur within the jurisdiction's inspection department. Due to changes, the City was reevaluated in November 1997, and received new ratings of "2" which are effective on May 1, 1998.

The benefits of "BCEGS" include the following: improving building codes, building departments and code enforcement; leading to better, more catastrophe-resistant buildings; reducing property losses from catastrophes; and reducing the economic and social disruption that results from catastrophes' serious and widespread destruction.

Due to rating credit tables currently being developed by insurance companies, staff will report back to City Council in the near future with the insurance cost savings to property owners as a result of the new ratings.

Upon inquiry of Councilwoman Field, Mr. Summey said that the insurance could go down anywhere from 2% to 17%.

At 7:28 p.m., Vice-Mayor Hay moved to excuse Councilman Tomes from the meeting. This motion was seconded by Councilman Sellers and carried unanimously.

B. RESOLUTION NO. 98-47 - RESOLUTION APPOINTING A MEMBER TO VICTORIA OF ASHEVILLE BOARD OF DIRECTORS

Vice-Mayor Hay said that the term of Robert G. Wurst, as a member of the Board of Directors of Victoria of Asheville Inc., expired on November 29, 1997. This resolution will appoint Mr. Ben Durant, Budget Director, to serve until November 29, 2000, or until his successor has been appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-47. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 23 - PAGE 379

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 14, 1998, AND THE WORKSESSION HELD ON APRIL 21, 1998

Mayor Sitnick asked that the minutes of the April 14, 1998, meeting be amended on page 11 under the comments of Mr. Jerry Rice. Said amendment would be the addition of the following sentence: "Mr. Rice also commented that he had contacted several cities in the eastern part of the state that had cable franchises with Multi-Media and requested public records from those cities and was refused."

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on April 14, 1998, as amended by Mayor Sitnick above, and the minutes of the worksession held on April 21, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of March 27-April 16, 1998: Hobson Construction (Water), Joy Gossett (Water), David Helms (Water), Marie Heller (Water), Anna Sue Beathard (Water), Bob Edsell (Water), David Zane (Water), and Premier Federal Credit Union (Civic Center).

The following claims were received during the week of April 17-23, 1998: Carl Smith (Water), Signal Point Systems (Streets), Joyce Bugg (Water), Karen Walton (Water), Gail Wilson (Streets), Karen Davis (Sanitation) and Ruby Tweed (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

C. PUBLIC RECORDS

Mayor Sitnick read the following statement:

"As of today at approximately 5:00 p.m. InterMedia announced that it was withdrawing its appeal from the Superior Court's Order for the release of cable TV franchise fee records. This means that its Motion to Stay the release of those records will also be withdrawn. The City has already determined that it will not appeal the Court's Order. This means that the records can be available for inspection immediately.

"We want to emphasize that the position taken by the City in this case was never about trying to withhold information about the cable franchise from the public; it was about the interpretation of a statute that exists to protect the privacy of anyone that pays to the City taxes based on gross receipts. That statute makes it a criminal offense to release records that might disclose a taxpayer's income, and requires that an official who releases such records be dismissed from employment and not hold a government job in this State for five years. The City was caught in the middle--between the public's understandable desire to see the records, and the taxpayer's interest in not having sensitive financial information disclosed. The City's only interest in this matter has been to correctly interpret and obey the law. Although the Court's order directed the release of the records, the way the Order was written left City with some uncertainty about how the statute and the Court's interpretation of it might apply to other tax records. Given the severe consequences of an incorrect interpretation of the statute, this uncertainty was troubling. That is why the City carefully considered an appeal.

"We do not think, however, that it was the Court's intention that its decision be used to gain access to other tax records that are protected from disclosure, and so the City decided not to appeal. We hope that no one will attempt to use the Court's Order for that purpose.

"We appreciate the actions of InterMedia that made the release of the records possible, and recognize their willingness to cooperate, despite their understandable position on the legal issue involved in this matter.

"For now, the City will make the franchise payment records from the 1967 franchise available for inspection. The City and its staff have worked hard to address all of the competing interests in this matter; that's our job. We hope that our well-intended efforts are appropriately recognized for what they are, and that we can put this unpleasant episode behind us and direct our energies to more productive ends."

Mayor Sitnick said that anyone interested in inspecting those records that they are available in the Legal Department. Due to a miscommunication between herself and the City Attorney, she was of the understanding that these records would be copied and available to hand out. They have not been completely copied and that is being done now. As the record, as it stands, is available for public inspection immediately.

Councilman Cloninger requested that the words "For now," be deleted from the beginning of the fifth paragraph in the statement because he felt that might lead to a misunderstanding.

Councilman Cloninger moved to adopt the statement as previously read by Mayor Sitnick, with the deletion of the words "For now" beginning in the fifth paragraph of the statement. This motion was seconded by Mayor Sitnick and carried unanimously.

Mayor Sitnick said that "this morning when it came to my attention that InterMedia was going to back down from its appeal and its Motion to Stay, I instructed the City Attorney to have copies of all of the records ready to hand out to the press, not within one minute, but within one second of the release of that information from InterMedia, that they were withdrawing their appeal. And I am sorry that there was some kind of miscommunication. I'm very upset about the fact, and very angry that those records are not ready immediately for the press. The file is ready for inspection - the records are being copied now."

D. BOARD OF ADJUSTMENT

Councilman Cloninger asked for a report regarding the variance granted by the Board of Adjustment for property on Merrimon Avenue in March of 1998. He felt Council needed to look at two things - (1) the vote itself and whether Council can take any action as to that specific vote; and (2) whether we need to make any changes to the Board of Adjustment authority.

Mr. Gerald Green, Senior Planner, said that it was his understanding that the only appeal from the Board of Adjustment decision to the Superior Court of Buncombe County. He felt City Council has no other alternative other than appealing that to the Court.

City Attorney Oast said that it is clear that City Council has standing to appeal from a Board of Adjustment determination on an interpretation by the Planning Director, and that is an issue that the Board has yet to consider. As to the variance issue, he would have to investigate that. Ordinarily standing requires that you be an adjacent property owner or that your property value be affected. He explained that there is another issue coming before the Board of Adjustment in May regarding an appeal on the scheduled use of the property. He asked that any further advice be given in closed session.

Councilman Cloninger wanted to make sure that no deadlines would pass before Council could take any action.

Mr. Green explained that Council could place a limit upon the extent of a variance which could be granted, so this magnitude of variance could not be granted in the future.

Vice-Mayor Hay stated that he would also like to see a report on this issue. He felt the issue looked more like a rezoning rather than a variance based on a hardship. He felt this raises an issue about the authority of the Board of Adjustment.

Mayor Sitnick suggested the Planning Department bring in an expert to instruct Board of Adjustment on what their authority is and responsibilities are on the Board.

E. INTERSTATE 26 CORRIDOR IN WEST ASHEVILLE

Councilman Cobb was concerned about the I-26 corridor project and the environmental and social impact coming right through the middle of Asheville. He felt City Council should take a position with the N.C. Dept. of Transportation ("NC DOT").

Councilwoman Field explained the amount of citizen involvement that the NC DOT used in coming up with the location of the corridor. She felt the City should sit down with them, rather than challenge them, and see how we can solve any problems and find out what some of the other options are.

Mayor Sitnick agreed with Councilman Cobb noting that there are going to be many citizens impacted and the City needs to take some precautions to make sure that the timing of how one thing impacts on another is done so that people whose homes are going to be taken or cut off are protected from noise, construction dirt, etc. She felt that some kind of City-oriented dialogue was necessary at least to allow people an opportunity to be educated.

Councilwoman Field suggested the Citizens for Transportation Advisory Committee, which was originally the connector committee, be part of the process. They are in the process of doing some long range planning and public participation.

Mayor Sitnick instructed the City Manager to come back with a recommendation on the best way to proceed with Council's concerns, with perhaps one day meeting and one night meeting.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:48 p.m.

CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 5, 1998- 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

Mayor Sitnick announced that City Council has a 5:30 p.m. tour of the Hillcrest pedestrian walkover bridge and a 6:00 p.m. Hillcrest community meeting scheduled so City Council will be on a tight timeframe during the worksession.

CONSENT:

Budget Amendment and Awarding of Bids for Cab & Chassis for Fire Department

Summary: Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a cab and chassis for the Fire Department. The new cab and chassis will be a replacement for the 1980 Ford cab and chassis portion of the hazardous material rig. The following two bids were received as follows:

Carolina Truck Center, Hickory, NC	$32,968
Matthews Ford Inc., Asheville, NC	$33,400

Bids have been reviewed for technical compliance to specifications by the Fire Department and the Fleet Management Division, and their concurrence received in the following recommendation.

In addition to determining compliance to specifications, the evaluation of bids also considers the time specified in the proposals for the performance of the contract. The low bidder, Carolina Truck Centers, Hickory, N. C., is not recommended to receive award because of the length of time they require for delivery. The recommended award is to the second low bidder with the best delivery.

The budget amendment authorizes a transfer of funds from the Fire Department's appropriations for fleet management charges to a capital outlay account in the Capital Reserve Fund.

Subject to Council's approval, it is recommended that the bid be awarded to the second low bidder, Matthews Ford Inc., Asheville, N. C., in the amount of $33,400.00 for the purchase of a 1999 'Ford' model F800 cab and chassis and adoption of the budget amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

Public Hearing Set to Demolish 22 Sulphur Springs Road

Summary: The consideration of a resolution setting a public hearing for the demolition of 22 Sulpher Springs Road for May 26, 1998.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

Grant Co-Application to the Economic Development Administration to Renovate 1st Floor of Grove Arcade Building

Summary: The consideration of a resolution authorizing submission of a grant application to the U.S. Economic Development Administration ("EDA") for $1,000,000 to renovate the First Floor of Grove Arcade Building as a public market.

The City of Asheville and the Grove Arcade Public Market Foundation will be co-applicants in applying to EDA for $1,000,000 through the Public Works Impact Program. The funds will be used to renovate the First Floor of the Grove Arcade building into a public market. The EDA funds will be matched by $1,000,000 City of Asheville Certificates of Participation to fund a portion of the renovation of the First Floor area of the Grove Arcade.

City Manager Westbrook responded to various questions from Council relating to the grant application.

Councilman Cloninger said that he has a conflict of interest on this item and requested that it be placed on the regular agenda at the next formal City Council meeting.

HUD CONSOLIDATED PLAN

Mr. Marvin Vierra, Community Development Director, said that the City will be applying for $1,537,000 in CDBG and $1,047,000 through the HOME program for the coming year. Anticipated program income will increase available revenue for CDBG activities by $303,400.

Council action will authorize submittal of Consolidated Plan to HUD. Deadline for submittal is May 15, 1998. The Consolidated Plan serves as a planning document as well as the application for funding under the CDBG and HOME grant programs.

The City's Housing and Community Development Committee has reviewed applications from Agencies for CDBG funds and recommends CDBG funding allocation as described on the proposed project listing. The Asheville Regional Housing Consortium has reviewed applications from Agencies and local governments for HOME funds and recommends HOME funding allocation as described on the proposed project listing.

A summary of the proposed Consolidated Plan was published in the Asheville-Citizen Times on March 27, 1998 requesting public comment to be submitted to the Community Development Division by April 30, 1998. Three community public hearings have been conducted by the staff on the Consolidated Plan.

Council briefly discussed the home ownership zone application process.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

WNC REGIONAL AIR POLLUTION CONTROL AGREEMENT

Fire Chief John Rukavina said that Buncombe County Manager Wanda Greene has requested that the City of Asheville to terminate its agreement with the Western North Carolina Regional Air Pollution Control Agency in favor of Buncombe County's offer to assume management of air pollution control services in Asheville.

Western North Carolina Regional Air Pollution Control Agency (WNCRAPC) is an agency established by an interlocal agreement between the City of Asheville, Buncombe County and Haywood County. The agreement is a continuing agreement, providing for termination on 120 days' notice on the part of any of the parties to the agreement.

Buncombe County is proposing the elimination of WNRCAPC as an interlocal-agreement agency, and to assume management responsibility for delivery of WNCRAPC services in all of Buncombe County (including Asheville) and Haywood County.

Staff has reviewed the WNCRAPC rules and regulations as currently applied in Asheville, and believes that there will be no substantial difference in the rules and regulations that would be forced—and the manner of their enforcement—if the entity providing enforcement services is a department or division of Buncombe County government, rather than an agency created by interlocal agreement. Based on this assessment, staff has recommended to the City Manager that the City of Asheville accept Buncombe County's offer to assume management of air pollution control services in Asheville as currently furnished in WNCRAPC.

The agreement provides for 120 days notice of withdrawal from the present agreement, but Buncombe County proposes that all parties agree to a waiver of the 120 day notice requirement.

The Fire Chief, in consultation with the Director of Building Safety, recommends that the City Council adopt the resolution to provide notice to withdraw from the current WNCRAPC effective July 1, 1998.

Mayor Sitnick was concerned that the lines of communication might not exist since the City would lose their ability to appoint members to the Board. She wanted to be assured that the City would continue to have the opportunity to get reports on the number of permits issued, problems with enforcement within the City, etc.

County Manager Wanda Green said that they would send Council minutes of the Board meetings and quarterly reports of the permits issued. She said that she would make sure that one Buncombe County appointee on the Board will be a City resident. She stressed that they are trying to make this administratively easy and they are looking to start a regional approach to air pollution control.

Upon inquiry of Councilwoman Field, Ms. Greene said that the City would not see a change in how the Board (after it is re-worked) interacts with the City's one stop permitting process.

Upon inquiry of Mayor Sitnick, Ms. Greene said that they do not want the function to go back to the State because they want to keep the local influence here because you might not get as much attention as you might like to have with the State.

When Mayor Sitnick asked what the City's fiscal impact would be, City Manager Westbrook said that there would be none - that the only impact would be the two appointments City Council makes to the Board.

Councilwoman Sitnick asked if the Boards and Commissions Committee could look into the possibility of City Council making the County's appointments (of County residents) to the Planning & Zoning Commission and the Board of Adjustment, since the County is willing to make one of their appointments to the new Board a City resident.

Mayor Sitnick and Vice-Mayor Hay both felt that since the City is being asked to relinquish input on the Board, they would like the opportunity to think about the issue a little more.

It was the consensus of City Council that this issue be tabled until the Boards & Commissions Committee could discuss it. After the Committee meets, they will come back to Council with a report and their recommendation.

REQUEST TO APPROVE OPTION TO PURCHASE PROPERTY LOCATED OFF TOLULA LANE

Mr. Ed Vess, Field Services Coordinator, said that this is consideration of a resolution approving an option to purchase an approximate two acre parcel of property along Town Branch tendered by Victoria Investment Company ("VIC").

Victoria Investment Company has tendered an Option To Purchase a 2.0 +/- portion of East Riverside Park along Town Branch.

The subject parcel is located off Tolula Lane at the rear of and adjacent to a medical office facility owned by VIC and occupied by Mountain Neurological Center, P.A. The proposed Option will allow VIC to explore the feasibility of purchasing the property for construction of additional parking for its current property. It will be necessary for VIC to petition for a change in zoning from RS-8 to Institutional. The Option will make it possible for VIC to initiate the process.

The stated purchase price in the Option is $45,000.00; however, the purchase price shall not be less than the appraised value and is subject to City of Asheville's Real Property Disposition Policy and the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269. The Option is also subject to VIC being the successful bidder.

Approval of the resolution will authorize the Mayor to sign the Option To Purchase and initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

City of Asheville Parks and Recreation Department's and Community Development Division's staff recommend adoption of this resolution.

Mayor Sitnick asked who pays for the appraisal. Mr. Vess explained that they City pays for the appraisal and the other party pays for the survey of the property. Mayor Sitnick felt that is the City is approached by someone to sell a piece of property, perhaps they should pay for the appraisal or maybe a share of the cost. Mr. Vess said that whoever pays for the appraisal gets to choose the appraiser and the City would like to have that control. He said that an appraisal of this property would cost approximately $700.

Councilman Cobb felt that the $45,000 might be too low for that piece of property. Mr. Vess said that he met with the Parks & Recreation Director and that figure is based on previous sales of property in the area, the amount of property, the limited access and the topography of the property. He stressed that this is only a starting point - noting that the purchase price shall not be less than the appraised value and also subject to the upset bid process.

At the request of Councilman Cloninger, City Attorney Oast was asked to investigate a possible conflict of interest in this matter.

Mr. Phil Carson, attorney representing VIC, spoke in support of Council approving the Option to Purchase.

It was the consensus of Council, and agreed upon by Mr. Carson, that the City and VIC share in the cost of the appraisal with Mr. Carson stating that they would be happy to let the City choose the appraiser.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LEGISLATIVE PROGRAM

City Attorney Bob Oast said that reviewed the following several items that Council may want to include in their 1998 legislative program:

1. Enactment of legislation that would enable the Asheville-Buncombe Community Relations Council to handle local employment discrimination complaints currently handled by the EEOC in Charlotte;

He explained that complaints alleging discrimination in employment on the basis of race, color, religion, sex, national origin, disability or age are currently filed with the Charlotte office of the EEOC.

The Asheville-Buncombe Community Relations Council is seeking to obtain a designated EEOC status, which would give it the same powers on the local level as the federal agency in Charlotte. ABCRC feels that this would take some of the burden off the EEOC office and help clear the backlog of complaints, enable local employer/employee disputes to be resolved much more quickly, and provide an additional source of funding to ABCRC and thereby decrease its dependency on the city and county.

The draft legislation would authorize Asheville to adopt an ordinance providing for the handling by ABCRC of EEOC complaints in Asheville.

Mr. Bob Smith, Executive Director of ABCRC, spoke in support of this legislation.

2. Amendment of G.S. 136-27.1 to provide for payment of relocation costs of water and sewer lines belonging to water or sewer systems organized pursuant to G.S. 160A-462 (local modification for Buncombe and Henderson counties);

He explained that G.S. 136-27.1 requires the state Department of Transportation to pay the nonbetterment cost for the relocation of water and sewer lines of certain entities when the lines are located within an existing state highway right-of-way and must be relocated for a state highway improvement project. These entities include nonprofit water or sewer associations or corporations, as well as water or sewer systems organized pursuant to G.S. 162A.

The Asheville-Buncombe Water Authority, which was organized pursuant to Article 20 of G.S. 160A rather than G.S. 162A, does not fall in any of the categories for which DOT is required to pay relocation costs. Therefore, when a state highway improvement project requires that its lines be relocated, the Water Authority does not receive reimbursement for this expense.

The draft legislation, which is written as a local bill for Buncombe and Henderson counties, would add a new category to G.S. 136-27.1, requiring DOT to pay relocation costs for lines constructed by a water or sewer system in those counties which was organized pursuant to Article 20 of Chapter 160A of the North Carolina General Statutes.

3. Amendment of Section 8 of the Charter (Meetings generally; member's oath) to delete the requirement that city council meetings be held no less frequently than once each week;

He explained that Section 8 of Asheville's charter contains a requirement that the city council meet no less frequently than once each week. Without this charter provision, Asheville would be able to follow G.S. 160A-71, which permits city councils to decide for themselves how often they need to meet. The draft legislation would amend Section 8 to delete this requirement.

4. Amendment of Section 18 of the Charter (Ordinances and resolutions – Revision or amendment) to make it apply only to ordinances, not resolutions, and to remove the requirement that the original ordinance be specifically repealed.

He explained that Section 18 of Asheville's charter contains the procedure for amending ordinances and resolutions. The draft legislation would amend this section to refer only to ordinances, not resolutions, and would remove the requirement that the original ordinance be specifically repealed.

The General Assembly will convene on May 11. The deadline for submitting local bills for drafting will be May 20, and the last day to introduce local bills will be May 27.

Mayor Sitnick asked if the City could introduce some type of legislation to regulate the towing of cars by a local towing company from private parking lots. She said that the City is currently working on creating a provision in our ordinance that requires standardization signage on privately owned lots, i.e., placement, size and information on the sign.

City Attorney Oast explained that there are some state laws that regulate the towing industry and he would investigate that and report back to Council. However, he didn't think the setting of towing fees is possible because that can only be enacted through state-wide legislation.

Councilman Cloninger felt that we should concentrate on what we know we can regulate and that's adequate signage.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS FROM BOARDS & COMMISSIONS

Vice-Mayor Hay, Chairman of the Boards & Commissions Committee reported on the following:

River District Design Review Committee

After the deadline application of May 13, 1998, the Boards & Commissions Committee will meet and make further recommendations to City Council.

Asheville Film Board

The Committee recommends the vacancies on this Board be placed on the next quarterly appointment process.

Planning & Zoning Commission

The Committee recommends that the vacancy left by Jim Torpey be placed on the next quarterly appointment process. However, Councilman Sellers (liaison to the Commission) will talk with the Chairman and the Planning & Zoning Director to see if a replacement will need to be appointed prior to that time.

Downtown Commission

The Committee recommends that the vacancy left by Beth Lazer be placed on the next quarterly appointment process.

Bele Chere Commission

The Committee recommends not making appointments at this time. The Parks & Recreation Director will be reporting back to the entire Council on what form the Commission should take.

City Business & Development Commission

The Commission has not met since November 1997. Since City Council will be reviewing the Economic Development Plan in the future, the Committee recommends waiting for the consultant's recommendation relative to the structure of the Commission.

Housing Authority

This appointment will be made by the Mayor.

Residency requirements for Board applicants

Discussion surrounded whether the City should continue to proceed with the written guidelines that all appointees should be residents of the City or the extraterritorial jurisdiction or own property in the City.

It was the consensus of Council to have staff bring back an alternative to the policy that City Council intends to appoint City residents, except in extenuating circumstances that will be determined on a case-by-case basis.

BOARDS & COMMISSION INTERVIEWS NEEDED

It was the consensus of Council to instruct the City Clerk to arrange interviews with Michael Hootstein and Nelda Holder for the WNC Regional Air Pollution Control Board; with Charles Parker, Marilyn Nason, Linda Snyder, Albert Anderson, Clay Dover, Bill Moore and Marion Todd for the Airport Authority; with Charles Lemak, Betty Budd and Fairfax Arnold for the Citizens/Police Advisory Committee; with Bill Fulp and Wendell Craig for the Civil Service Board; and Joyce Dorr, Christopher Slusher, Scott Fowler, Murial Gomez and Paul Hornyak for the Civic Center Commission.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to appoint Forrest MacGregor, Kasty Lavten, Regina Lusk and Philip Ackerman to the Tree & Greenway Commission.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Deanna Kraft and Linda Wiggs to the Carriage Permit Advisory Committee.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Stephanie Cooper, Michael Keleher and James Lewis to the Police Officers and Firefighter's Disability Review Board.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Brian Peterson, Betty Lawrence and Chris Knorr to the Asheville-Buncombe Historic Resources Commission.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Carl Mumpower and Laverne Laney to the Civic Center Commission.

I-26 CORRIDOR BRIEFING

City Manager Westbrook suggested that City Council be briefed by the N.C. Dept. of Transportation (NC DOT) now and then again in November when their Environmental Impact Statement is complete on the I-26 Corridor.

Councilman Cloninger asked that at the meeting that the NC DOT provide the City with a timeline of when certain decisions have to be made. That way, if the City wants input on a particular item, they can't say that the City is too late in making their request.

Mayor Sitnick requested that the NC DOT have available at the meeting the consolidated map. She also understood that RiverLink has the ability to show alternate routes of the I-26 Corridor and asked Mr. Ron Fuller to contact RiverLink to see if that can be made available at the meeting.

It was the consensus of Council to meet with the NC DOT as part of a worksession in the William F. Wolcott Jr. Building.

TOUR OF THE URBAN AREAS AROUND THE CITY

Councilwoman Field said that because there has been a verbal commitment not to look at annexations for a year from when the discussions started, she recommended canceling the tour of the urban areas around the City that was scheduled for Tuesday, May 12, 1998, from 1:30-5:00 p.m.

Councilwoman Field moved to cancel the tour of the urban areas around the City that was scheduled for Tuesday, May 12, 1998, from 1:30-5:00 p.m. and reschedule it in late fall. This motion was seconded by Councilman Sellers and carried unanimously.

RESIGNATION OF TRAFFIC ENGINEER

City Council suggested that the new Traffic Engineer be innovative and familiar with some of the things City Council is committed to, e.g., traffic calming and walkable communities.

CITY COUNCIL MEETINGS

Mayor Sitnick asked City Council to think about some ideas about how Council might cut down on the length of their meetings, without cutting down on public participation. She said that staff is moving forward with ways to consolidate staff and consultant reports.

184

RALPH BISHOP

Mr. Ralph Bishop questioned the Council's authority to amend the City Charter. City Attorney Oast responded that he would be happy to provide Mr. Bishop with the appropriate statute.

Mr. Bishop also questioned comments from the public at worksessions. Mayor Sitnick explained that she does allow people to speak at worksessions for points of clarification and if they have questions. At this particular worksession, however, she noted that at the beginning of the meeting that City Council has a tour scheduled at 5:30 p.m. and they would be on a tight timeline. She stressed that the meeting is very open.

At 4:50 p.m., Mayor Sitnick adjourned the meeting until a 5:30 p.m. tour at the Hillcrest Apartments pedestrian walkover bridge at 100 Atkinson Street. Following the tour, at 6:00 p.m., City Council will be holding a community meeting at the Carl Johnson Hillcrest Community Center located at 100 Atkinson Street.

HILLCREST COMMUNITY MEETING

At 6:00 p.m., City Council held a community meeting at the Carl Johnson Hillcrest Community Center. Mayor Sitnick said that the Asheville City Council wanted to meet with the residents of the Hillcrest Apartments to discuss the status of the pedestrian walkover bridge. She then gave the following brief background on this issue as the City Council understands it.

In November 1994 at the request of the residents of Hillcrest, the Housing Authority and the City of Asheville, the Hillcrest pedestrian walkover bridge was closed by the North Carolina Department of Transportation ("NC DOT"). The reason for the closure, as requested by the residents of Hillcrest, was to prevent the walkover bridge from being used as an entrance by drug dealers into the Hillcrest neighborhood. With the closure of the bridge, walk-in, street-level drug transactions on the south end of the complex were all but eliminated. Many people feel closure played a large part in helping stem the flow of drug sales in the development. With the recent pedestrian fatality, as a result of an individual attempting to cross I-240 going into Hillcrest, the Housing Authority and the Asheville Police Department met with the residents' association of Hillcrest Apartments to reconsider the bridge closing. The residents' association agreed to survey the residents of the community to determine what their opinion would be regarding reopening the bridge.

She said that the City does not control the entrance or exit to the walkover bridge, nor does it maintain Interstate Highway I-240. This is the responsibility of NCDOT. City Council, however, can make recommendations to NCDOT concerning such issues.

The Hillcrest Apartments are owned and managed by the Housing Authority, a separate legal entity from the City and Council would also like to hear from this agency concerning the pedestrian walk over.

Comments from the public in favor of re-opening the bridge included the convenience of family members and residents; need for two ways in and out of the Complex; some people don't have cars or other transportation and need they need to be able to walk; closing the bridge has not stopped the flow of drugs but it has curbed it; and opening the bridge would save lives in that people would not have to try to cross I-240.

Comments from the public in favor of keeping the bridge closed included people have been killed in that area before the bridge was closed so why use that as an excuse to re-open it now; keeping the bridge closed is a way to curb drugs; with the bridge closed, it provides for a safe community; children are not safe if the bridge is reopened in that drug needles, etc., are found lying on the ground; unsupervised children will cross the bridge; there is a way in and out of the Complex; Clingman Avenue is sometimes just as bad as the Interstate traffic; surveillance cameras cost money; adults should not complain about being inconvenienced by the bridge closing if it will protect the children; if the bridge is re-opened, it will make it easier for people to vandalize apartments (especially apartments near the bridge) and then flee over the bridge; people still jumped the fence when the bridge was open; you can see a noticeable difference in the area since the bridge has been closed; and if the bridge is re-opened, residents will need to be committed to clean up their own yards and participate in a citizen-on-patrol program.

Suggestions included a monitoring of the bridge, patrolling the bridge, employ youth who are trained and paid to keep a portion of their area clean; opening the bridge up only during daylight hours; have a gate with a punch-code; and purchase a guardhouse with each group (Residents Association, NC DOT, City of Asheville and Housing Authority) contributing money for the guardhouse and then hire a private security guard.

Mr. Michael Godwin, representative of the Housing Authority, said that they are ready to support whatever the residents want to do. He noted that a survey taken revealed the residents suggested re-opening the bridge for a six month trial period.

Police Chief Will Annarino said that the Asheville Police Department will continue to work with the community if the bridge is re-opened or kept closed. If the bridge is re-opened, they will try to come up with other solutions to try to curb drugs in the Complex.

Upon inquiry of Councilwoman Field, Police Chief Annarino said that the person that was most recently killed on I-240 was legally intoxicated.

Mayor Sitnick said that with the upcoming I-26 Corridor project, there will be construction, more dirt, more noise and more activity in that area. As we work on concerns and solutions, she felt the NC DOT needs to be involved in the dialogue from the very beginning. She felt they will need to work with the City on some solutions.

It was the consensus of the residents present that children should be supervised and taught to go to a responsible adult when they find drugs, drug needles, etc. Perhaps someone from the AIDS Project could come in and do a program for the children.

Mayor Sitnick said that this is a multi-faceted community problem and needs to be addressed with the community working with the NC DOT, the Housing Authority and the City to secure the Complex and still provide proper safe access. She suggested a summary be created of concerns raised and potential solutions and be presented to City Council as soon as possible.

Mr. Godwin said the Housing Authority would be happy to work with the residents and the Police Department to come up with some alternatives.

At 7:20 p.m., Mayor Sitnick adjourned the meeting until 7:40 p.m. in Room 209 of the City Hall Building to conduct a closed session.

CLOSED SESSION

At 7:40 p.m., Vice-Mayor Hay moved to go into Closed Session to consider the qualifications, competence, performance, character, or fitness of an individual public officer or employee - statutory authorization is G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Cobb and carried on a 6-1 vote, with Councilman Sellers voting "no".

At 9:12 p.m., Councilman Cobb moved to come out of Closed Session. This motion was seconded by Councilman Cloninger and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:12 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 12, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field (arrived in meeting at 5:40 p.m.); Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SATURDAY, MAY 16, 1998, AS "HIT THE PAVEMENT ... NOT YOUR PETS" WALK DAY

Councilman Cloninger read the proclamation proclaiming Saturday, May 16, 1998, as "Hit the Pavement ... Not your Pets" Walk Day in the City of Asheville and presented a proclamation to Ms. Marilyn Walker who briefed the Council on the day's activities.

B. PROCLAMATION PROCLAIMING THE WEEK OF MAY 16-20, 1998, as "THE GARDENERS OF AMERICA/THE MEN'S GARDEN CLUBS OF AMERICA GARDEN DAYS"

Councilman Cobb read the proclamation proclaiming the week of May 16-20, 1998, as "The Gardeners of America/The Men's Garden Clubs of America Garden Days" in the City of Asheville and presented the proclamation to Mr. Gerry Hardesty who briefed Council on some planned activities taking place during the week and the Club's activities.

At the suggestion of Councilman Cloninger, Mr. Hardesty said that he would be happy to meet with the Parks and Recreation Department to see how the Men's Garden Clubs can assist the City along the W.T. Weaver Boulevard greenway.

C. PROCLAMATION PROCLAIMING THE WEEK OF MAY 17-22, 1998, AS "NATIONAL PUBLIC WORKS WEEK"

Vice-Mayor Hay read the proclamation proclaiming the week of May 17-22, 1998, as "National Public Works Week" in the City of Asheville and presented the proclamation to Mr. Mark Combs, Director of Public Works. Mr. Combs then thanked individual representative employees from not only the City departments, but from the Metropolitan Sewerage District as well.

D. PROCLAMATION PROCLAIMING FRIDAY, MAY 29, 1998, AS "STRIVE NOT TO DRIVE DAY"

Councilman Sellers read the proclamation proclaiming Friday, May 29, 1998, as "Strive Not to Drive Day" in the City of Asheville and presented the proclamation to Ms. Katie Breckheimer, Chair of the Strive Not to Drive Day Planning Committee, and Ms. Elizabeth Teague from the Land-of-Sky Regional Council. Ms. Breckheimer briefed the Council on some activities planned for the day.

188

II. CONSENT:

At the request of Ms. Dee Williams, Item A. was removed from the Consent Agenda for discussion.

At the request of Mr. Ralph Bishop, Item F. was removed from the Consent Agenda for discussion.

Councilman Cloninger noted that the City Attorney advised him that he does not have a conflict of interest on Item E.

A. RESOLUTION AUTHORIZING SUBMISSION OF THE CONSOLIDATED PLAN TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT AND HOME INVESTMENT PARTNERSHIPS PROGRAM FUNDS FOR 1998-99

This item was pulled form the Consent Agenda for further discussion.

B. ORDINANCE NO. 2468 - BUDGET AMENDMENT FOR THE PURCHASE OF A CAB AND CHASSIS FOR THE FIRE DEPARTMENT

Summary: Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a cab and chassis for the Fire Department. The new cab and chassis will be a replacement for the 1980 Ford cab and chassis portion of the hazardous material rig. The following two bids were received as follows:

Carolina Truck Center, Hickory, NC	$32,968
Matthews Ford Inc., Asheville, NC	$33,400

Bids have been reviewed for technical compliance to specifications by the Fire Department and the Fleet Management Division, and their concurrence received in the following recommendation.

In addition to determining compliance to specifications, the evaluation of bids also considers the time specified in the proposals for the performance of the contract. The low bidder, Carolina Truck Centers, Hickory, N. C., is not recommended to receive award because of the length of time they require for delivery. The recommended award is to the second low bidder with the best delivery.

The budget amendment authorizes a transfer of funds from the Fire Department's appropriations for fleet management charges to a capital outlay account in the Capital Reserve Fund.

Subject to Council's approval, it is recommended that the bid be awarded to the second low bidder, Matthews Ford Inc., Asheville, N. C., in the amount of $33,400.00 for the purchase of a 1999 'Ford' model F800 cab and chassis and adoption of the budget amendment.

ORDINANCE BOOK NO. 16 - PAGE 448

C. RESOLUTION NO. 98-48 - RESOLUTION TO AWARD BIDS FOR A CAB AND CHASSIS FOR THE FIRE DEPARTMENT

Summary: See above Item "B".

RESOLUTION BOOK NO. 24 - PAGE 380

D. RESOLUTION NO. 98-49 - RESOLUTION SETTING A PUBLIC HEARING FOR MAY 26, 1998, TO DEMOLISH 22 SULPHUR SPRINGS ROAD

RESOLUTION BOOK NO. 24 - PAGE 382

E. RESOLUTION NO. 98-50 - RESOLUTION APPROVING AN OPTION TO PURCHASE AN APPROXIMATELY TWO ACRE PARCEL OF PROPERTY ALONG TOWN BRANCH TENDERED BY VICTORIA INVESTMENT COMPANY

Summary: This is consideration of a resolution approving an option to purchase an approximate two acre parcel of property along Town Branch tendered by Victoria Investment Company ("VIC").

Victoria Investment Company has tendered an Option To Purchase a 2.0 +/- portion of East Riverside Park along Town Branch.

The subject parcel is located off Tolula Lane at the rear of and adjacent to a medical office facility owned by VIC and occupied by Mountain Neurological Center, P.A. The proposed Option will allow VIC to explore the feasibility of purchasing the property for construction of additional parking for its current property. It will be necessary for VIC to petition for a change in zoning from RS-8 to Institutional. The Option will make it possible for VIC to initiate the process.

The stated purchase price in the Option is $45,000.00; however, the purchase price shall not be less than the appraised value and is subject to City of Asheville's Real Property Disposition Policy and the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269. The Option is also subject to VIC being the successful bidder.

Approval of the resolution will authorize the Mayor to sign the Option To Purchase and initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Upon inquiry of Councilman Cobb, Mr. Ed Vess, Field Services Coordinator, said that this property was conveyed to the City over ten years ago.

RESOLUTION BOOK NO. 24 - PAGE 384

F. MOTION TO APPROVE THE 1998 LEGISLATIVE PROGRAM

This item was removed from the Consent Agenda for further discussion.

G. MOTION SETTING A PUBLIC HEARING ON MAY 26, 1998, TO CONSIDER A CONDITIONAL USE APPROVAL AND PERMIT FOR A DUPLEX AT THE CORNER OF LONDON ROAD AND SHADY OAK DRIVE

H. MOTION SETTING A PUBLIC HEARING ON MAY 26, 1998, TO ZONE SECTION 9 OF BILTMORE PARK RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT AND RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

I. **MOTION SETTING A PUBLIC HEARING ON MAY 26, 1998, TO ZONE SECTION 10 OF BILTMORE PARK RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT**

J. **MOTION SETTING A PUBLIC HEARING ON MAY 26, 1998, TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS AT 9 EAST STARNES COVE ROAD IN A RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT**

K. **MOTION SETTING A PUBLIC HEARING ON MAY 26, 1998, TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS ON PORTER ROAD IN A RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT**

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Vice-Mayor Hay moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

ITEMS PULLED FROM THE CONSENT AGENDA

A. **RESOLUTION NO. 98-51 - RESOLUTION AUTHORIZING SUBMISSION OF THE CONSOLIDATED PLAN TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT AND HOME INVESTMENT PARTNERSHIPS PROGRAM FUNDS FOR 1998-99**

Ms. Dee Williams, owner of Dee Williams & Company, explained that her company is a professional services firm which provides capacity building to small emerging and historically underutilized business firms in the area along packaging, business development, etc., and also provides services to non-profits and community-based organizations in the areas of organizational development and strategic planning. She said that she has sent a fax to the Mayor and Council and also previously raised pertinent issues about the Eagle/Market Streets Redevelopment Plan. She said that she did not want to hurt other organizations who are very deserving of CDBG funds and who have applications in, but certainly the issues raised in her fax as well as previous correspondence to the City Attorney, as well as some issues about this area being designated as a housing zone as the primary use of it, rather than as a commercial business zone, need to be addressed. She expressed issue in that the City of Asheville has submitted a plan to HUD for CDBG funds that addresses community economic development.

Ms. Cogburn said that Ms. Williams made a number of these comments at the Housing and Community Development Committee ("H&CD") yesterday so Vice-Mayor Hay, Councilwoman Field and Councilman Tomes are very familiar with what she has brought up and can address that as the H&CD Committee saw these issues.

Ms. Cogburn then explained that the City will be applying for $1,537,000 in CDBG and $1,047,000 through the HOME program for the coming year. Anticipated program income will increase available revenue for CDBG activities by $303,400. The City's H&CD Committee has extensively reviewed the applications from agencies for CDBG funds and recommends CDBG funding allocation as described on the proposed project listing. The Asheville Regional Housing Consortium has also extensively reviewed the applications from agencies and local governments for HOME funds and recommends HOME funding allocation as described on the proposed project listing. Council action will authorize submittal of Consolidated Plan to HUD. Deadline for submittal is May 15, 1998. The Consolidated Plan serves as a planning document as well as the application for funding under the CDBG and HOME grant programs.

Vice-Mayor Hay said that this is the City's primary means of funding affordable housing and other efforts in the City with federal money. The application process started in January and this is a culmination of about a five month process. The hardest job usually is not so much in picking the worthy projects, because there are plenty of those, but deciding how to allocate between worthy projects. He noted that's what most of the time the H&CD Committee spent it's time on. He noted that Ms. Williams is here to talk about the allocation to Eagle/Market Street which is in this package, but it along with all the other affordable housing efforts. The HOME funding is decided by another group and the CDBG funding is decided by the H&CD Committee.

Councilman Tomes said, as a member of the H&CD Committee, that the entire Committee realized that every project submitted had merits and warranted financial commitment. However, the problem is that they are dealing with limited resources and they had to turn down some projects.

Ms. Williams said that her concern was that over $600,000 has been spent and the people targeted for benefit in the depressed area of Eagle/Market Street (the owners) have not gotten one thing out of the CDBG money. She said they have lost faith to the point that they don't even participate in the public participation process. She felt Council has not mandated these sub-recipient agencies that got funding to either perform or leverage funds from other sources. She said the City has been providing almost 100% financing in Eagle/Market Street. She felt that the owners are going to suffer in that they don't have technical assistance to comply with the redevelopment and clean the area up. She said that former Community Development Director suggested that she supply a technical proposal in which these people could be specifically helped. She asked Council to consider amending the Plan so that technical assistance can be given to the property owners. She said this does not have to be with Dee Williams and Company but that she is only interested in helping these people. She suggested the owners to be brought back to the table and be part of the planning process.

At this time (5:40 p.m.), Councilwoman Field arrived from a meeting with the N.C. League of Municipalities in Raleigh, N.C.

Mayor Sitnick asked if Ms. Williams was suggesting City Council not to approve the plan in order to bring the property owners to the table, or could Council approve the plan and create some form for dialogue. Ms. Williams replied that she wanted other projects to go forward. She trusted Council if they said they would bring these owners to the table to see what it was that they wanted. And, if they want to help by participating in cleaning the area up and bringing that community back into the tax base - that's what she wants. She hoped that Council would amend the Plan once Council finds out that there is sufficient interest. She said that this doesn't have a thing to do with her - she's just an implement.

Mayor Sitnick said that City Council could approve the plan and then work with the H&CD Committee to create that dialogue.

Vice-Mayor Hay said that for several years the City has allocated money to the Eagle/Market Street CDC and not all of that money has been spent. Basically it's being held in reserve by the City until projects come on. The Committee, as part of it's oversight, asked about a year ago that they receive a monthly report from Eagle/Market Street CDC and Ms. Jill Arrington has been updating the Committee. He felt that the issues Ms. Williams raises are real issues and it is important to keep the property owners involved. However, he said the opportunity for dialogue exists presently and they will continue to use that form to review it.

Councilwoman Field, Chair of the H&CD Committee, said that she understood when the property owners were involved, everyone said it was a conflict of interest because they would be making decisions on money spent on their own property. The CDC's response was to evolve the property owners off of the board and get more community people on the board. She said that there are two sides to that issue, but definitely, if the community wants a dialogue, then we should definitely go forward with that. She saw no reason not to approve the allocations for this year.

Ms. Williams said that the property owners are tired of dialoging in that they just want technical assistance and they want to participate. She said that most of the owners have their own access to funds.

Councilman Cobb said that he would like for Ms. Williams to use all the resources that she has to bring some positive things to this Council because we all want to make the area something to be proud of. Ms. Williams responded that she is willing to help in anyway she can, however, she is a for-profit company. Her proposal was to leverage funds. She stressed the need to work together.

Councilman Tomes said that there is a collaborative effort being put forth where the community is involved. He said that the H&CD Committee does hear updates, and does not want it construed that there is not an effort being put forth in trying to clean up the Eagle/Market Street area. Ms. Williams responded that the only people working on that collaborative effort is the non-profits. The for-profit business owners are not going to stay in that area and not receive the benefit of technical assistance and/or some sort of financial assistance. She felt the non-profits have taken over the area in planning and the tax-paying entities don't have any input.

Councilwoman Field said that the Minority Business Commission is set up specifically to give technical advice. Ms. Williams replied that the Commission is housed by the County and staffed by a person who is a trained social worker, not an economic development specialist.

Councilman Tomes said that he has called property owners in that community and has offered to sit down and discuss their concerns with them. He told them he would bring their concerns to the entire Council if that was what they wanted. To date he has not had a return phone call to take him up on his offer.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-51. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 385

B. MOTION TO APPROVE THE 1998 LEGISLATIVE PROGRAM

When Mayor Sitnick asked Mr. Ralph Bishop to limit his comments to three minutes (as is the time limit for all individuals not representing a group), Mr. Ralph Bishop felt that Mayor Sitnick was making a mockery out of the Constitution of the United States, the Constitution of the State of North Carolina, and the State law in that she would not let him discuss the issue longer.

After Mr. Bishop read a statement purported to be by then-Councilwoman Sitnick relative to meetings being held in orderly fashions, Mayor Sitnick noted that there was nothing in the statement he read that said she would not adhere to time limits and conduct the meetings in an orderly fashion.

Vice-Mayor Hay moved to approve the 1998 Legislative Program. This motion was seconded by Councilman Sellers and carried unanimously.

Because Mr. Bishop chose to talk about a different issue during his time on this topic, Mayor Sitnick told him that he could speak for three minutes at the end of the meeting under "Other Business" if he chose.

III. UNFINISHED BUSINESS:

A. SECOND READING OF ORDINANCE NO. 2467 - ORDINANCE AMENDING THE ZONING OF PROPERTY ON OLD HAYWOOD ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

Mayor Sitnick said that the first reading on this ordinance was held on April 28, 1998. She commented that after several days of discussion between herself and City Attorney Bob Oast, the following letter dated May 12, 1998, was received from William F. Slawter, attorney representing the property owners:

"I am writing on behalf of our client, David Evans, who is agent for his mother Hazel Ratcliff Evans, regarding the rezoning of property on Old Haywood Road. We would first like to apologize for any negative response that the Council has received regarding the procedure that has been followed relating to this rezoning.

"I believe it was impossible for any of us to forecast the response that has been received. Since notice had been given that the entire tracts owned by the Petitioners were subject to being rezoned RM-8, we did not foresee that anyone would feel that additional notice should be given to rezone a smaller portion of the area in question. Obviously, a larger area than that for which notice of public hearing has been given cannot be rezoned, but when a smaller area ends up being rezoned, any notice that would be given would be sent to exactly the same people who are given the initial notice, and since the area being rezoned would be smaller and therefore less offensive to the surrounding neighbors, it is hard to imagine that they would have additional objections to the rezoning of the smaller area than they have already expressed to the rezoning of the larger area. It is somewhat like petitioning for the rezoning of two adjacent lots, and then dropping the rezoning request with regard to one of the two lots. If anyone entitled to notice had already been given notice that both lots might be rezoned, what purpose would be achieved in giving new notice that only one lot was going to be rezoned?

"At the April 28, 1998 City Council meeting, during Gerald Green's initial presentation regarding the rezoning, he noted that the petitioners anticipated dropping the rezoning request with regard to the 100 foot buffer strip, and also noted that doing so would negate the protest petition. As I hope you will recall, when I next spoke, I mentioned that Mr. and Mrs. Evans could not be present due to Mr. Evans' being scheduled for heart by-pass surgery in Greensboro. As I stated at that time, we were willing to postpone further consideration of the matter, but were also willing to go ahead without the Evans being present in order not to further inconvenience the protesting neighbors. Although several representatives of the neighborhood thereafter spoke, none of them suggested postponing the matter. All who spoke seemed to want a Council vote on that date, and it appears to us that the concern with the procedure only arise after the outcome of the vote was known.

"Although we are convinced that the Council acted entirely appropriately at the April 28th meeting, our clients remain dedicated to pursuing this matter with as little ill-will as possible. At no time have they done anything more than to seek the rezoning of their property as allowed by law. They have sought compromise with the neighbors, but have not been able to achieve it. In a further effort by our clients to ensure that appropriate process is followed, the Evans have requested that we proceed as set forth hereinafter. Max and Flora Wilson also join in this request.

"It is our request that the City Council take action at today's meeting to remand this matter back to the Planning and Zoning Commission for further consideration, following which the issue can return to the Council for vote. This action would address the concern expressed by the neighbors regarding a lack of opportunity for them to address the question of the rezoning of the property with a 100 foot buffer strip remaining zoned RS-4, and any other issues which they may feel have arisen due to the change in the rezoning request. While this would cause some delay in the process and additional expense to our clients, they feel this move would be in keeping with the best interest of maintaining harmony in the community. Thank you for your consideration."

Mayor Sitnick said that today City Council will be voting on the second reading to rezoning the property. Because of the proposal presented on April 28, 1998, she was sorry that she didn't think to remand the matter back to the Planning & Zoning Commission ("P&Z Commission"), but it has been discussed by the City Attorney and herself. This Council was very concerned that the public was surprised by the last minute change of the 100 foot buffer and did not have a chance to understand it, digest it or respond to it. She asked if Council would be willing to hear comments from a representative of the neighborhood and then consider remanding the matter back to the P&Z Commission.

When Councilman Cloninger asked if it was the City Attorney's recommendation that Council remand this back to the P&Z Commission, City Attorney Oast said that based on discussions he has had with Mr. Slawter, with Council members and with staff members, it is his recommendation that it be remanded. One reason is that it will allow the Planning staff and the P&Z Commission to consider this revised proposal and make recommendations to Council. It will allow Council to use the resources that are there for that purpose before the matter comes up for a vote that would change the zoning. He felt that remanding the matter back was sound planning practice, although City Council can legally act on this rezoning at this time. Councilman Cloninger said that he supported the recommendation of the City Attorney.

Ms. Betty Fagan, neighborhood representative, said that at 2:00 today she received a call from Mr. Oast. She said that even though he explained this to her, this was something that the neighborhood was not aware of. She explained to Mr. Oast that she did not have time to contact the community. The last minute 100 buffer proposal on April 28 stunned the neighborhood and allowed no neighborhood thought process. She felt this was the same thing that has happened today - three hours prior to the meeting. "We would therefore request the City Council reinstate the protest petition and consider rezoning the subject property as originally submitted requiring 3/4's approval of City Council or alternately, to reject the petition for rezoning, as amended, of the property owners at the April 28 meeting."

Councilman Cloninger asked for clarification by asking the neighborhood if they do not want City Council to remand the matter back to the P&Z Commission but vote today, Ms. Fagan said that the neighborhood has not had an opportunity to get a consensus and as a community united thus far, they are not objecting and they are not accepting. Councilman Cloninger explained that remanding the matter would give the neighborhood the opportunity to review the proposal more carefully and give their input. Ms. Fagan again said that they are not accepting or rejecting it.

Mayor Sitnick explained that they started talking about this mid-week last week and it takes time for phone calls to be made and returned and Mr. Slawter was trying to get in touch with his clients. By the time there was enough discussion back and forth to realize this was a possibility in order to open up this process again because the neighborhood was stunned by it, and Mr. Slawter mentions that in his letter that there was no intention to do that, the idea was to give the neighbors an opportunity to review this, to have a chance to speak about it before the P&Z Commission and then again before Council. She regretted the inconvenience, the time taken to come to the meetings, and the frustration.

Ms. Fagan again said that the neighborhood is not rejecting Council's proposal at this time to remand it to the P&Z Commission and they are not accepting it. They will leave it entirely in the City Council's hands. It is the Council's decision.

Mayor Sitnick said that if she were a neighbor, she would want another opportunity to try and talk to members of the P&Z Commission and City Council.

Vice-Mayor Hay said that he would be interested in the Planning staff's and the P&Z Commission's recommendations.

Councilman Cobb said that he would be ready to vote now, but saw no problem with remanding the matter back to the P&Z Commission.

Councilman Tomes felt that if there is a faint possibility that some resolution can occur, he would be in favor of remanding the matter back.

Councilwoman Field felt the matter needed to be remanding back to the P&Z Commission, if, for no other reason, than if there are any concerns that City Council has not gone through the process correct.

Councilwoman Field moved to rescind Council's previous action on this rezoning request and remand the matter back to the P&Z Commission. This motion was seconded by Councilman Sellers and carried unanimously.

Councilman Cloninger noted that he does support remanding the matter back, however, he made clear that while Council will be open to the suggestions of the P&Z Commission and the feedback from the public, that remanding it to the P&Z Commission does not guarantee a different outcome from what the vote was on April 28. City Attorney Oast noted that City Council is not bound by any vote they take today.

Mayor Sitnick requested, and she did not know if the City had authority to do this, to amend whatever ordinance that allows a major revision in a rezoning request to occur after a public hearing is closed so that this does not happen again.

In response to Mayor Sitnick's request, Councilman Cloninger said that even if Council went ahead and voted on the request to rezone without any buffers and the protest petition had been in effect, and if the rezoning request had failed, City Council would still have the ability to consider a new proposal. One of Council could even make a motion for a new proposal, including a proposal to have a 100 foot buffer. Therefore, even though a vote may not have been taken on the first request to rezone to RM-8, Council would have been right back where they are today, because Council could have proposed what was before Council today (the 100 foot buffer) as the alternative to the original request.

196

When Mayor Sitnick asked if there was a way for Council to avoid this kind of situation in the future, City Attorney Oast explained that the protest petition mechanism is specified by State law and City Council can't change that. However, the way Council handles that is something that may depend on the facts of the particular situation. Council always has the options, anytime this kind of matter comes up, to continue the matter or refer it back to the P&Z Commission. He would be happy to go through the options with Council the next time a situation like this occurs.

Mayor Sitnick suggested that the City Attorney outline those options for Council. She asked if there was a time limit that could be considered. City Attorney Oast again said that it is a matter of State law, however, Council can, through it's own procedures and the way they handle this matters, address the concerns that arise in a particular situation. Fortunately this type of matter doesn't happen very often but when it does, staff will try to be prepared.

Councilman Cloninger said that perhaps Council could consider a policy, generally speaking, that where Council gets a proposal that is substantially different from the one on the table, look to remand it back to the P&Z Commission for further review. Mayor Sitnick said that that request could be part of the information City Attorney Oast prepares.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOMENT ORDINANCE TO INCLUDE A REVISED DEFINITION OF SCHOOLS

ORDINANCE NO. 2469 - ORDINANCE TO AMEND THE UNIFIED DEVELOMENT ORDINANCE TO INCLUDE A REVISED DEFINITION OF SCHOOLS

Mayor Sitnick opened the public hearing at 6:19 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the current definition of a school is rather broad and does not differentiate between traditional schools (i.e. elementary schools, high schools, etc.) and other institutions, such as instructional facilities (i.e. music schools, reading schools, etc.). This could present a problem, particularly with respect to residential zoning districts. The proposed definition is more specific and removes the ambiguity of the existing definition.

The current definition of a school is as follows: "School means a facility that provides a curriculum of elementary and/or secondary academic instruction, including kindergartens, elementary schools, junior high schools, middle schools, and high schools."

The proposed definition is as follows: "School means a public or private institution offering a curriculum of education authorized by the State of North Carolina giving regular instruction at the primary and/or secondary level. This definition includes kindergartens, elementary schools, junior high schools, middle schools and high schools but does not include day care facilities, individual instruction, or classes in a specialized subject."

Planning staff is recommending approval of the wording amendment. At the Planning & Zoning Commission meeting on April 1, 1998, meeting, the Commission voted unanimously to recommend approval of the amendment.

City Council discussed the definition of school and what types of schools this would affect.

Mayor Sitnick closed the public hearing at 6:31 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2469. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 450

B. PUBLIC HEARING TO REZONE 594 EMMA ROAD FROM RM-6 MULTI-FAMILY LOW DENSITY DISTRICT AND COMMUNITY BUSINESS II DISTRICT TO COMMUNITY BUSINESS I DISTRICT

ORDINANCE NO. 2470 - ORDINANCE TO REZONE 594 EMMA ROAD FROM RM-6 MULTI-FAMILY LOW DENSITY DISTRICT AND COMMUNITY BUSINESS II DISTRICT TO COMMUNITY BUSINESS I DISTRICT

Mayor Sitnick opened the public hearing at 6:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is of an ordinance to rezone 594 Emma Road from RM-6 Residential Multi-Family Low Density and Community Business II District to Community Business I District.

The composition of the surrounding area is a residential neighborhood between two commercial/industrial areas, the commercial strip along Louisiana Avenue and the Westside Industrial Park. The 2010 Plan indicates the surrounding area to be low density residential which the current RM-6 zoning permits.

The review by the Technical Review Committee ("TRC") indicates major concerns: (1) infrastructure (water, stormwater and streets) in the area could not accommodate all the permitted uses allowed in the district; and (2) Emma Road should have some improvements to accommodate the traffic that could be generated by rezoning this lot.

Permitted uses in the Community Business I District would generate as much traffic as projected for the rezoning (to Commercial Industrial) for the tract of land approximately ½ mile east (Appalachian Stove) that was denied by City Council last year.

This property is outside the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended denial from RM-6 Residential Multi-Family Low Density and Community Business II to Community Business I. However, at the Planning & Zoning Commission meeting on April 1, 1998, the Commission voted 4-3 to approve the rezoning of PIN # 9639.17-10-3989 from RM-6 Residential Multi-Family Low Density and Community Business II to Community Business I.

Upon inquiry of Councilman Seller, Mr. Ownbey said the area is not in a floodplain, however, there is a lot of low land in this area and a lot of creeks that cause flooding.

Upon inquiry of Vice-Mayor Hay about Planning staff's recommendation of denial, Mr. Ownbey said that staff was looking at the area as residential, as well as the infrastructure improvements necessary.

Vice-Mayor Hay said that when he visited the property, he felt it was hard to foresee that property being put to any residential use.

Upon inquiry of Vice-Mayor Hay, Mr. Ownbey said that in order to develop the property, the infrastructure problems must be addressed as part of the permitting process, They would have to make sure there was water and sewer availability and it might be necessary for them to upgrade of streets (depending on the size of the project).

Councilman Cobb also stated that it was hard for him to visualize the area as residential.

Councilman Cloninger noted that residential is allowed in the Community Business I District.

Ms. Jane Mathews felt that the City needs to have some areas for housing and there is also a pattern of housing in this area. She felt the property has potential for commercial as well. But, in looking at the development pattern, it would probably be of more benefit to the residential neighborhood to have it remain zoned residential than to have things that may be more intrusive and to work toward nodes of commercial development.

Ms. Joanne Gunter, petitioner, spoke in support of the proposed rezoning noting that the land has always been used for business and also it is not a good place for homes.

Mr. James Woody spoke in support of the rezoning of this property.

Mr. John Van Dyke, Industrial Real Estate Broker, felt the area was more conducive to commercial development and spoke in support of the rezoning request.

Mr. Brian Peterson suggested City Council look at small area plans or a more comprehensive planning effort instead of looking at individual pieces of property in this area.

Councilwoman Field suggested that since Emma Road is in both the City and the County, that the N.C. Dept. of Transportation ("NC DOT") be contacted to suggest that they upgrade their portion of the road - not necessarily widening it, but improving it. The City needs to look at the portion of the road that is located in the City limits as well for improvements.

Mr. Ownbey said that Mr. Ted Wright, area property owner, was opposed to the rezoning.

Mayor Sitnick closed the public hearing at 6:52 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2470. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 451

C. **PUBLIC HEARING TO REZONE 2222 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT**

D. **PUBLIC HEARING TO REZONE 2200 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT**

ORDINANCE NO. 2471 - ORDINANCE TO 2222 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

ORDINANCE NO. 2472 - ORDINANCE TO 2200 HENDERSONVILLE ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

Mayor Sitnick announced that these two public hearings would be combined. She then opened the public hearing at 6:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of ordinances to rezone 2222 and 2200 Hendersonville Road from RM-16 Residential Multi-Family High Density to Neighborhood Business and to amend the Comprehensive Plan to reflect this rezoning.

The original petitions requested a rezoning change from RM-16 Residential Multi-Family High Density to Highway Business.

The property at 2222 Hendersonville Road is unimproved, except for a decaying residential looking structure that has been used for commercial purposes in the past. The property at 2200 Hendersonville Road has on it a non-conforming use permitted under the Zoning Ordinance. The use consists of a tanning salon and a store selling spas and related supplies and services.

2222 Hendersonville Road fronts on Hendersonville Road, and is also entered from Forest Lane. The surrounding uses are residential multifamily across Forest Lane, and residential single family behind the

Both properties are zoned RM-16 Residential Multi-Family High Density (16 units per acre). There is commercial use to the south of the properties about one block, and north of the properties about an equal distance. Commercial uses are visible from the properties in both directions. The use across the street is a church.

2200 Hendersonville Road fronts on Hendersonville Road, and is also entered from Blake Terrace. The surrounding uses are residential multi-family across Blake Street, and residential single-family behind the property.

The property immediately to the north to 2222 Hendersonville Road is non-conforming commercial in use and is also requesting a rezoning from RM-16 Residential Multi-Family High Density to Highway Business.

200

The property immediately to the south of 2200 Hendersonville Road is vacant, except for a decaying residential looking structure. That property owner is also requesting a rezoning from RM-16 Residential Multi-Family High Density to Highway Business.

The requested use does not conform to the 2010 Plan, which contemplates medium density residential in this area.

The City Planning and Development staff recommended denial of both the rezoning requests.

At the Planning & Zoning Commission meeting on April 1, 1998, the Commission recommended 6-1 to approve rezoning 2222 Hendersonville Road (PIN No. 9654-09-16-4596) and 2200 Hendersonville Road (PIN No. 9654-09-16-3780)) to Neighborhood Business.

Councilwoman Field said that under the prohibited uses is a drive-through facility which she understands is to prevent fast-food restaurants. However, one of the things mentioned at a meeting recently while talking about the Head of Montford was the possibility of a branch bank locating there and a branch bank needs to have a drive-up ATM which is not allowed. Obviously there is a difference between the intensity of use for a bank with a drive-up ATM and the intensity of use of a drive-through fast-foot restaurant. She thinks that an error was made in the Unified Development Ordinance because people need to have a bank that can be walked to in a neighborhood commercial development.

Upon inquiry of Councilman Cloninger, Mr. Black said that the Planning staff did recommend denial of the rezoning to Highway Business, but did not take a position on the rezoning to Neighborhood Business.

Councilman Cloninger noted that in Neighborhood Business that residential is still allowed by rights subject to special requirements. Mr. Black said that one of the things staff was looking for was mixed use - so that there would be commercial on the ground floor and residential above it.

When Mayor Sitnick asked if Neighborhood Business would constitute spot zoning, City Attorney Oast said that only a court can really say whether something is spot zoning but the things that Council needs to look at are whether you are taking a small tract of land in single ownership and zone it in such a way that allows the owner of that property to enjoy certain things that other similarly situated properties do not enjoy. It seems to him, however, that there are certainly arguments in support of this rezoning: (1) one of the tracks is already commercially used; (2) there is a scattering of different types of commercial uses up and down the highway; and (3) there is a fairly high density residential use. Those are all points that would be made in a case if it was challenged.

Mayor Sitnick noted that north, south and west is all residential.

Councilman Cloninger noted that the 2010 Plan did not really designate potential areas for neighborhood business designations.

Mr. John Van Dyke, real estate broker and representative of the property owners of 2222 Hendersonville Road, passed out information to Council supporting his request to rezone the property Neighborhood Business.

Mr. Steve Servais, real estate broker and representative of the property owners of 2200 Hendersonville Road, spoke in support of the rezoning to Neighborhood Business.

Mayor Sitnick closed the public hearing at 7:15 p.m.

Mayor Sitnick said that members of Council have previously received copies of both ordinances and they would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2471 to rezone 2222 Hendersonville Road and to amend the Comprehensive Plan to reflect this rezoning. This motion was seconded by Councilman Sellers.

Mayor Sitnick said that while she liked to pay homage to the 2010 Plan, she looks at Hendersonville Road and what it has become and it certainly doesn't comply with the 2010 Plan. She does have a concern about the spot zoning and she doesn't feel that the answer by the City Attorney quieted her concern. However, when you ride past there you realize that it is a heavily commercialized area. She did feel that it does intrude into the neighborhood.

Councilman Cobb said that this property is pretty much surrounded by business and no one has objected to the rezoning, therefore, he would be in favor of rezoning the property Neighborhood Business.

Councilman Cloninger said that he takes comfort in what the permitted uses are for Neighborhood Business District. He felt Council should be encouraging some of that but they also need to be careful where they allow it. He felt this was an appropriate place for it and he felt the surrounding neighborhoods could be well served by the uses that are permitted in this district.

Councilwoman Field agreed with Councilman Cloninger in that if we are going to promote walkable communities and greenways that make an urban environment a healthy environment, then we need to have some mixed use, especially in a positive kind of way in this area.

When Mayor Sitnick asked for a vote on the motion made by Councilman Tomes and seconded by Councilman Sellers, said motion carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 453

Councilwoman Field moved to adopt Ordinance No. 2472 to rezone 2200 Hendersonville Road and to amend the Comprehensive Plan to reflect this rezoning. This motion was seconded by Councilman Tomes and carried unanimously.

Mayor Sitnick said that her concerns about rezoning 2200 Hendersonville Road were the same as her concerns about rezoning 2222 Hendersonville Road.

ORDINANCE BOOK NO. 16 - PAGE 455

At this time, Mayor Sitnick announced a short break.

E. PUBLIC HEARING TO CONSIDER THE PARKS AND RECREATION DEPARTMENT 2015 COMPREHENSIVE MASTER PLAN

Mayor Sitnick opened the public hearing at 7:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Irby Brinson, Director of Parks and Recreation, said that the Master Plan represents a long-range plan for 17 years of what the parks and recreation needs for the City should be. Three goals were originally established were that the Plan be (1) community driven; (2) needed to be balanced with vision with realism; and (3) needed to recognize budget issues. The Master Plan process actually began in June of 1997, with an orientation meeting with the Parks and Recreation Advisory Board, staff members and a Steering Committee. Processes included review of demographic information, review of natural factors, analysis of facilities and programs, community needs assessment, and an action plan. Public input into the process was accomplished by conducting six meetings with the Project Advisory Team, and 16 focus group meetings in the community dealing with youth sports, special populations, neighborhood issues, government and community leaders. The consultants did review the national recreation standards set by the Recreation and Park Association and there was also a citizens survey that was mailed to 3,500 residents of the City with 481 being returned.

Based upon the information provided from the study, the areas that are needed for improvement are that we are deficient in the number of community parks that we currently have; deficient by six in the number of neighborhood parks; deficient by nine in the number of mini-parks; there is a need for two sports/game field complexes; two mega-center sites - one with an aquatics facility; there's a desperate need to renovate and expand four of our existing larger centers, our pools and all of our park areas. The standards also state the request for the development of one public golf course and the development of greenways. He stated that the Master Plan process for Parks and Recreation just reviews the national standards for greenways and the number of miles for greenways because there is a separate Master Plan that is going on with the Trust for Public Land for the greenway master planning process. Greenways were removed from this Master Plan and funding and the other information concerning greenways will be addressed in the Greenway Master Plan. Staff recognizes $57 million is a lot of money and they need to digest it and review it and come back with what they think is a realistic proposal for funding for the first phase of this process. They want to involve City Council and the community in the process as well.

Mr. Bill Schaefer; Finance Director, spoke to Council about the funding aspects of the Master Plan. He said the strategies for financing capital improvement costs include (1) pay as you go; (2) revenue bonds; (3) general obligation bonds; and (4) combination of strategies. He then reviewed the debt service requirements by saying the approximate annual debt service per $1 million at 6.0% for a 20 year term is $87,200/year and for a 15 year term is $103,000/year. The sources of debt service include (1) user charges from recreation facilities; and (2) ad valorem tax - currently 1 cent = $357,000/year (could service approximately $3.5-$4 million debt).

Mr. Schaefer then reviewed the general obligation approval process as follows: (1) determine the purpose, amount, timing, etc.; (2) public notice of intent to apply to the Local Government Commission ("LGC") with 10 days minimum prior to application; (3) submit application to the LGC (a) may require preliminary conference; (b) consideration of application by LGC; and (c) order approving application; (4) City Council introduces Bond Order; (5) sworn statement of debt/debt limitation; (6) publication of Bond Order, statement of debt and public hearing with 6 days minimum prior to public hearing; (7) public hearing; (8) pass Bond Order; (9) publish Bond Order; (10) petition for referendum on bond issue (within 30 days following publication of Bond Order) signed by minimum 10% of registered voters; (11) set referendum date within one year of Bond Order; (12) publish two notices of referendum with minimum 14 days and 7 days prior; (13) conduct referendum; and (14) issue approved bonds within 7 years.

When Mayor Sitnick asked if grants are being considered, Mr. Schaefer said that they are a significant part of the funding called for in the Plan, but not of the $57 million capital side. City Manager Westbrook also noted that grants are "not a sure shot."

Mr. Brownie Newman, representing the Western North Carolina Alliance, said that they are, in a general sense, very supportive of the Master Plan. The Master Plan seems to de-emphasize the value of creating additional natural parks in the City. There is a need to build more baseball and soccer fields and volleyball courts, etc., but the Master Plan appears to undervalue the establishment of new parks and conserving them for their natural values. Decisions regarding the Master Plan should be made simultaneously with the decisions regarding the Greenway Plan and the greenways should be linked with the new parks. They are concerned about the overall price of the Master Plan and that it might prevent it's passage. Because resources are limited, the City should place the highest priority on funding aspects of the Master Plan that will not happen unless the City takes action, e.g. creating new national parks, ballfields and jogging trails. The City should give a lower priority to funding for actions that may happen even if the City takes no action, e.g., if there is a real demand for a golf course, then a private developer will develop those kinds of facilities. They feel the City should give the highest priority to funding the following: maintenance and renovation of existing public parks and recreation facilities, creation of new community and neighborhood parks, and the development of new outdoor recreational facilities; the creation of an interconnected system of greenways; and allocate funding to buy additional areas or establish conservation easements as needed to meet these needs. They support making the Richmond Hill property a City park and not a golf course. The Richmond Hill area may be a good place to build a few ballfields but they think the City should consider building a smaller facility at Richmond Hill which would bring less new traffic into the neighborhood, have less environmental impact on the forest and keep resources available to build facilities in other parts of the City. They also support the idea of holding additional public forums to get more public input on the Master Plan.

Mr. Gary Stewart, consultant from Woolpert, LLP., said that the recommendations regarding the golf course is based on what they heard throughout the process from the public meetings and also looking at comparison recreation standards. When you look at the year 2017 and the planning projections and the population growth, the standards will tell you that you need four public golf courses and they are recommending one, which again goes back to some of the concerns making sure that they were as sensitive as they can with the budget.

Mr. Brian Peterson, representing the Coalition of Asheville Neighborhoods ("CAN"), reminded Council that this is not just a quality of life issue but also a very big economic development issue. CAN feels the City needs to work with the County, schools and other organizations because it is not just something City Council can do. As part of that, CAN is working to arrange a public forum tentatively set for June 25 to educate the public about the parks and recreation needs, what's in the master plan and also help develop some consensus over what the priorities should be. CAN is also looking to convene a stakeholders summit of parks and recreation facility users, neighborhood groups, sports and athletic groups, environmental and outdoor groups, churches, businesses, and non-profits to help begin to prioritize and encouraged City Council to be willing to work with all of these other groups to help develop the priorities. They are concerned that it doesn't appear to be integrated with the Greenway Master Plan and also hope that the City will look at coordinating and possibly merging the Buncombe County Parks and Recreation Department. Perhaps the City and County should work together to develop a common Master Plan. They are concerned there has not been much talk about Memorial Stadium which some feel that there is a great potential for developing the Stadium and the reservoir property for some sort of a downtown park along Beaucatcher Mountain. They hoped the City will be agreeable to working with CAN and letting them know what the City's process will be on this. Any tax increase or bond revenue is going to take a lot of public support and CAN wants to work with the City in developing that public support.

Mr. Ed Stein, West Asheville resident, felt that golf courses is not something Asheville will want in their community because of the chemicals used which seep into the ground water.

Mr. Andrew George asked Council to remove plans to build a golf course at Richmond Hill because of the thousands of pounds of toxic chemicals that will drain directly into the French Broad River. He encouraged more green spaces.

Mr. Jim Orr, member of the Parks & Recreation Advisory Board, spoke about the tremendous amount of effort made to get information about the process out to virtually organization inside and outside the City because it is a comprehensive plan, not just within the City limits. He felt communication has been great and now the information needs to be processed and move forward. People have had access to these meeting and have chose not to be at the meetings. To have someone come in now and say that they have never had the opportunity for input is erroneous. He is very familiar with golf course management and numerous articles have been written about the benefits of golf courses in communities and also near water sources. He said that chemical and fertilizer applications and stormwater runoff is a major part of golf course development and making sure that those things are adhered to by proper design and proper maintenance. He felt it would be totally beneficial for the City to get involved with golf course development.

Ms. Susan Andrews, President of the Kenilworth Residents Association, said that in general they support the Master Plan and understand that there have been a number of opportunities for public comment. However, she said that no one had every approached CAN with over 20 neighborhoods in the community to see what they would like to contribute to the parks plan. She felt CAN's public forum can educate people about how to divide the $57 million into manageable chunks. She said the Master Plan didn't do much to prioritize the projects but CAN's forum can do that. She said that a set of prioritizes can be brought back to Council at the end of June. She said the Master Plan states that the master plan scenarios were developed in-house by the consultant and she feels that more ordinary people need to be working on it.

Two Richmond Hill residents felt that a golf course at Richmond Hill would add to the community and increase the quality of life in that area.

Mr. Briggs Sherwood, Director of Development for Asheville-Buncombe Youth Soccer Association, said that there is a lot of room in the plan for dialogue. He said there are some environmentally sensitive ways to develop fields and perhaps, golf courses as well. They would still like to discuss the number of fields and where they are located with City and County Parks Departments and City and County schools. They urge Council to support the parks field efforts because they do not feel that soccer is purely recreational or sporting, but as an important element in the overall well-being of our youth and of our community. They basically support the plan and would like to help generate support for a bond referendum.

Ms. Martha Walz felt that it was just a fad that all small children have to pay in team sports. She is more interested in looking at the community as a whole. She did not think the Richmond Hill property is proper for ballfields. She urged Council not to look at just one segment of the population but at the retied, middle-aged and old people for quiet recreation.

Ms. Berkley Brown displayed pictures of the Richmond Hill property showing a beautiful view of the French Broad River, some really old trees, some streams, etc. She stated this is forest property which just happens to be two miles from downtown Asheville.

Ms. Mary Ann Piney, representing the Southern Appalachian Bio-Diversity Project which is a conservation group based in Asheville, urged Council to connect the parks through greenways. She felt that the entire community would not enjoy a golf course but everyone can enjoy a forest. She felt that there will always be an opportunity to build golf courses, but not always an opportunity to build a forest.

Mr. Samuel Camp, member of the Parks & Recreation Board, stressed that this Master Plan is the culmination of a year worth of efforts. He stressed that they need to look at revenue for the future.

Ms. Ann Whisenhunt, member of the Master Plan Steering Planning Committee, said that all the Master Plan meetings have been very well advertised and there is always opportunity for input. She hoped that everyone will continue to look at the big picture and not be torn apart by neighborhood issue.

Ms. Helen Morrison spoke in support of greenways and parks but wanted the City to stay out of debt. She felt the City should pay for these things as they come along or find a way that they are a pleasure and not a burden on the taxpayers. She felt the City needs a new auditorium and police officers need laptops in their cars. Therefore, community parks should be brought up to standards and then the greenways can come in later.

Ms. Kathy Berry was concerned that future generations will not know what a forest is and urged Council not to build a golf course on the Richmond Hill property.

Mr. Stewart and Mr. Leon Younger, consultants from Woolpert, LLP., generally summarized the comments he heard in that most people were supportive of the plan and there are some issues with some of the details, some of the recommendations that might deal with a facility or two, some recommendations or issues that people want to be part of the process and help implement this plan. No one is really opposed to what is being proposed. He also heard that we have a very diverse community and very diverse recreational needs. Their responsibility is to try and balance out the entire needs of all the people that this plan needs to serve. Hopefully there is something in there for everybody, e.g., greenways and preservation of open space.

Upon inquiry of Vice-Mayor Hay, Mr. Stewart said that the $5 million for the golf course is included in the $57 million.

When Vice-Mayor Hay asked if adoption of the Plan represent a commitment by the City to build a golf course, Mr. Younger said that it may be a commitment that a golf course is needed but this is a 17 year plan that will need to be reviewed every five years.

Mayor Sitnick remembered the consultants recommending that the City not sell any existing park space and they specifically recommended the City not sell Memorial Stadium. Therefore, she asked if they thought Memorial Stadium could be retrofitted to become little league ballfields. Mr. Stewart said they would have to take a closer look at it and do a site analysis. However, after some preliminary analysis, most of it will remain open space due to topography but in the ballfields area you could probably end up getting about three youth ballfields. One of their concerns, however, is about access. Their recommendation is that Memorial Stadium basically remain as is - a special use facility.

Mayor Sitnick asked the consultants if they could respond to some of the concerns raised about golf courses next to waterways. Mr. Stewart said that the sensitivity on the design criteria standards for golf course design is so much higher than in the past. The key is the design and what are the specifications that you hold the contractor to. From the prospective of the land, it's important to understand what you have there before you even look at that property for a golf course. He said that many golf courses are maintained with no chemicals.

City Manager Westbrook said that the Plan is coordinated with the Greenway Master Plan. The funding, which will be worked out later, can be part of a bond issue. He said the City cannot afford $57 million to implement the Plan. It has taken the City a year to complete this and it may take anywhere from six months to two years to get this through a referendum if Council chooses the route of a bond issue. Then detail plans will be needed before some of these facilities can be built. It may take anywhere from 2-4 years from now before the first thing is completed. In terms of process, he hoped that before going ahead with any public process that you let the staff come back to you with some recommendations on this. You have heard from the consultants and the public in a number of different forums and now Council needs to hear from the staff and hear what they recommend, in not only on projects, but what is to be funded over what period of time. Then, if Council wants to have additional public hearings as a part of the bond process or in any other form, that the City sponsor those opposed to any one group and invite everyone to be a part of that. It was his opinion that the taxes that would be needed to be raised for the $57 million would probably not be practical for the Council to think about.

Mr. Brinson said that staff needs to meet with the Finance Department and Planning staff and would prefer to have some members of Council with them to try to hone down what they think would be a legitimate phase one of this process. He took exception to the comments made by Ms. Andrews that no one notified local neighborhood groups. He said that a letter was sent to every neighborhood group, to the President of CAN, letters to the NAACP, every church, the Ministerial Alliance, and the Asheville Downtown Association. In addition, he followed up personally with phone calls to others. At one of the meetings they had, only one representative from that group showed up. The Parks & Recreation Department did make an effort and they are open for additional comments. From what he has heard, he doesn't think they are far off track and that staff can come back to City Council with a plan that they feel is doable and fiscally responsible so they can proceed to the next level. They also realize that they need to involve the public in some form with this process. Ultimately they are going to be the ones who will vote for a bond referendum. They will work internally to try to address those particular issues and get them involved in the process.

Mayor Sitnick closed the public hearing at 9:03 p.m.

Councilman Cloninger said that everyone agrees that (1) we do need a Master Plan and (2) we all feel that the cost of the Master Plan right now is too high. If we want to be successful in presenting this Master Plan to the public and implementing it, we've got to be very smart on how it is presented to them and the way we allow them to participate. We should not start out by trying to sell at $57 million Master Plan. He suggested (1) that we not formally adopt or endorse this Master Plan at this point - that is not to say we don't accept the concept, but because we recognize there are some things in the Master Plan that will not be ultimately agreed on; (2) we need to carefully coordinate this with the Greenway Master Plan for effectiveness and efficiency and to understand what our total cost will be from a parks and recreation standpoint; (3) we need to prioritize what we are going to realistically try to have in the Master Plan and therefore cut down on the cost we are so concerned about; and (4) we need to develop a game plan for presenting this to the public and also in implementing it. Part of that game plan will be the coordination of the presentation to the public and that's an area where CAN can play a very large role and he looks forward to working with them on that. However, he would ask CAN to work closely and in cooperation with the City in what you do and don't get out ahead of the City. Also, part of the development of the game plan, regardless of the combination of the funding utilized, will be the need for a bond referendum and if Council agrees that's going to have to be part of the game plan, would staff like Council to go ahead and direct them to at least start doing the spade work.

City Manager Westbrook replied that they would like that direction and asked Council to allow staff to not only to come back with a financing plan, but also a Parks and Recreation Development Plan over the next number of years.

Councilman Cloninger very much endorsed the concept of having a Master Plan but felt we should fine-tune it first.

Councilwoman Field strongly endorsed the Master Plan in concept and the consultant has done an excellent job in assessing what the community has and what it needs. She felt it was Council's job to make some of the final decisions, but felt this should be given back to staff and let them come back to Council with their recommendations.

When City Manager said that there is a lot of up-front planning time for a bond referendum, Mayor Sitnick and Councilman Cloninger agreed that the sooner we start working on a bond referendum the better.

Councilman Tomes was very pleased that Council will have a Master Plan to better inform Council. He hoped that even as the Plan is refined, he would like to see if they can build in some cost projects as we deal with the incremental stages of this Plan. Sometimes we look at the immediate and if we are pro-active, rather than reactive, we could save money by moving along in stages, realizing that five years from now it may cost us 1/3 or 1/4 more.

Mayor Sitnick said that one of the responsibilities of Council and staff will be as clear and informative as possible. This 17 year plan is now cut down by at least 6 months or possibly a year or two to get a bond referendum through. Then you may not see anything for 3-4 years before the first project is completed. We have to make sure that in order to get the public to buy into this that they know exactly what they're going to get when. It will be our responsibility to define everything as clearly as possible. As part of this, we need to begin immediately in developing a public information process so that when we go to the public to sell $10 million or $20 million initially that everyone understands exactly what that means.

Mayor Sitnick moved to (1) informally agree to the concept of the Master Plan, (2) make sure this Master Plan is coordinated with the Greenway Master Plan, (3) make sure we prioritize the game plan properly, (4) instruct staff to move on the referendum, and (5) have staff come back to Council with their recommendations after this public hearing. This motion was seconded by Councilman Cloninger and carried unanimously.

City Attorney Oast made clear that this is not adoption of the Master Plan, just adoption of the concept with expectation that staff will be bringing specific items back to Council with perhaps a more refined Master Plan for eventual consideration as to adoption.

Councilman Cobb said that in Chattanooga, Tennessee, they built a $49 Million aquarium from grant money. He would like to see 100 people and/or businesses in Asheville come forward with a grant of $500,000. They could pay $50,000 a year for ten years.

Mayor Sitnick said that the City will be applying for grants very aggressively.

V. NEW BUSINESS:

A. RESOLUTION NO. 98-52 - RESOLUTION AUTHORIZING SUBMISSION OF A GRANT APPLICATION TO THE U.S. ECONOMIC DEVELOPMENT ADMINISTRATION FOR FUNDS TO RENOVATE THE FIRST FLOOR OF THE GROVE ARCADE BUILDING INTO A PUBLIC MARKET

At the request of Councilman Cloninger, Councilwoman Field moved to excuse Councilman Cloninger from voting on this matter due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

Ms. Charlotte Caplan, Community Development Director, said that this is consideration of a resolution authorizing submission of a grant application to the U.S. Economic Development Administration ("EDA") for $1,006,232 to renovate the First Floor of Grove Arcade Building as a public market.

The City of Asheville and the Grove Arcade Public Market Foundation will be co-applicants in applying to EDA for $1,006,232 through the Public Works Impact Program. The funds will be used to renovate the First Floor of the Grove Arcade building into a public market. The EDA funds will be matched by $1,006,232 City of Asheville Certificates of Participation to fund a portion of the renovation of the First Floor area of the Grove Arcade.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-52. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 386

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 28 1998, AND THE WORKSESSION HELD ON MAY 5, 1998

Councilman Sellers moved for the adoption of the minutes of the regular meeting held on April 28, 1998, and the worksession held on May 5, 1998. This motion was seconded by Councilman Cloninger and carried unanimously.

B. WNC AIR POLLUTION CONTROL BOARD

Mayor Sitnick presented a letter to Council in which Hazel Fobes, Chair of the Citizens for Safe Drinking Water, supported the appointment of Nelda F. Holder to the WNC Air Pollution Control Board.

C. N.C. LEAGUE OF MUNICIPALITIES MEETING

Councilwoman Field said that the Annexation Study Committee has made it's final recommendations for changes to the annexation policy. A couple of changes she noted were that (1) it increases the required population density from two persons to 2.3 persons; (2) annexation of agricultural, horticultural or forest land in the annexation area that is eligible for present use value taxation does not become effective until it becomes ineligible for its present use; and (3) a public information meeting will be required prior to the annexation. She said that the N.C. League of Municipalities believes that since this was supported by the Study Committee that it will probably go through with some changes.

Councilwoman Field said that there has been adopted and in the Governor's budget a new state enterprise zone process from the Department of Commerce. There will be eight pilot projects - four from cities over 25,000 and four from cities under 25,000. She felt the City should make an application quickly and find out as much as we can. She felt we had a real good possibility of getting one of these enterprise zones and there is a fair amount of money in the budget for that.

She also said that the League will be supporting an additional one cent local option sales tax authorization provided there is a full municipal share and provided the proceeds are used for capital projects only. The capital projects are only those defined as anything that the statute allows you to set aside in a capital reserve fund.

Mayor Sitnick instructed the City Manager to write a letter to the appropriate federal official to support ISTEA funding.

D. BIG SOUTH CONFERENCE BASKETBALL TOURNAMENT

City Manager Westbrook said that UNC-Asheville has requested that the City appropriate $10,000 for the Big South Conference in 1999 and 2000. He said that it would not be payable until April of 1999, so it will be something that will be appropriated for next year's budget. The Chamber of Commerce and the Asheville Tourism Development Authority has obligated themselves for $10,000. The Asheville Citizen-Times, the Buncombe County Commissioners, Ingles Markets, UNC-Asheville, one anonymous donor, in addition to smaller donations by other entitles, have all agreed to sponsor the tournament with a $10,000 donation.

It was the consensus of Council to allocate $10,000 in next year's budget for the Big South Conference in1999 and 2000, pending approval of the Tournament coming to Asheville.

E. COUNCIL MEETINGS

City Manager Westbrook stated that the I-26 Corridor briefing by the N.C. Dept. of Transportation has been scheduled for Tuesday, July 21, 1998, at the Public Works Facility as a part of Council's normal worksession beginning at 3:00 p.m.

Due to the July 4th Holiday, It was the consensus of City Council to cancel the Tuesday, July 7, 1998, City Council meeting.

F. COMMENTS BY JUNE LAMB - SHELBURNE ROAD REZONING

Ms. June Lamb expressed concern over the rezoning on Shelburne Road requested by Trinity Baptist Church. She asked Council to either approve or deny the rezoning request.

City Manager Westbrook said that City Council rescheduled the public hearing until July 28, 1998.

Mayor Sitnick said that she would meet with Ms. Lamb and discuss her concerns.

G. CLAIMS

The following claims were received by the City of Asheville during the week of April 24-30, 1998: Renee Harrin (Water), Sharon Sharp (Civic Center), G.C. Green (Water), C&H Auto Parts (Water) and Peggy Knopp (Water).

The following claims were received during the week of May 1-7, 1998: Glen Credle (Water), Cathy Glover (Water), Chris McConnell (Traffic Engineering) and Mack Lawing (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

210

H. LAWSUIT

The City received a Complaint on May 4, 1998, from Rock Steven Edwards. The nature of the proceeding is appeal from Civil Service Board's decision of termination. This matter will be handled in-house.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:34 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 19, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Approval of Grant from FAA for Phase III of Runway 16 Project

Summary: This grant from the Federal Aviation Administration, in the amount of $652,731 consists of a project to construct extended runway safety area, Runway 16 (Phase III).

Fifth Modified Grant Agreement with the N.C. Dept. of Transportation for Phase III Terminal Expansion

Summary: The City is required by law to execute certain contracts and agreements for the Airport Authority. This Fifth Modified Grant Agreement is to allow the Authority to receive additional matching funds from the Dept. of Transportation ("DOT") for the Phase III Terminal Expansion.

Airport Director Jim Parker advises that the Terminal Expansion project was financed almost entirely with bond money, and that it was completed several years ago. The estimated cost of the project was $3.63 million and DOT's projected commitment under the State Aid to Airports program is approximately half of the estimate. Because of budgetary limitations, this entire amount was not available when the project was completed, and DOT has been making "installment" allocations of $300,000 or $200,000 on a yearly basis, as funds become available. In order for these allocations to continue, the Grant Agreement must be extended for another year, even though the project has been completed.

The $200,000 allocation for this year will still not complete the DOT's program commitment.

Speed Limit Reductions on Lindsey Road to 15 mph and Cherokee Road to 20 mph

Summary: The City 's Traffic Engineer has performed the necessary traffic analyses associated with the above mentioned locations as per the Manual on Uniform Traffic Control Devices and the North Carolina Supplement. We are seeking authorization from the City Council to change these speed limits.

Change to 15 MPH:	Change to 20 MPH:
(1) Lindsey Road (Entirety)	(1) Cherokee Road (Entirety)

These locations have been reviewed over the past 12 months as per the request of residents and motorists who utilize these roadways. Field surveys and speed studies were conducted and data reviewed based upon the 85th percentile speed, which is the speed at or below which 85 percent of the vehicles are moving. This speed is reviewed in relationship to the median speed and the pace speed range. The pace speed range is the range of speeds at which the largest concentration of motorists drive. These speeds were all reviewed to address the speeding problems in these areas.

1. Lindsey Road

   A speed study was conducted along Lindsey Road per the request of citizens in this area. The residential nature of this roadway vertical/horizontal alignment and width suggest that the speed limit needs to be 15 MPH. The Asheville Police Department concurs with our recommendation.

2. Cherokee Road

   A speed study was conducted along Cherokee Road per the request of citizens in this area. The residential nature of this roadway vertical/horizontal alignment and width suggest that the speed limit needs to be 20 MPH. The Asheville Police Department concurs with our recommendation.

Sale of Alcoholic Beverages for the Asheville Downtown Association's 1998 Events

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine for the 1998 events of the Asheville Downtown Association at the locations and times specified in the resolution.

For many years, the Asheville Downtown Association has co-sponsored with the City of Asheville events to bring both the public and visitors to the downtown area. These events include: *Moonlight Over Downtown*, *Honda Hoot Public Rally*, *and four Downtown After Five activities.* The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during these events as they have been allowed in the past.

Budget Amendment to establish a Budget for Funds to Construct the Amboy Road Greenway

Summary: The consideration of a budget amendment, in the amount of $60,000, to establish a budget for the construction of a greenway that will connect the Amboy Road Park and the French Broad River Park.

Budget Amendment to appropriate funds from grant for Summertime Kids Program

Summary: The consideration of a budget amendment, in the amount of $1,000, to appropriate funds from the Community Foundation of Western North Carolina for the Summertime Kids program to provide enrichment activities for the Summer Teen Program.

Budget Amendment to appropriate expenditures for Non-Resident Fees Collected for Various Parks & Recreation Programs

Summary: The consideration of a budget amendment to appropriate expenditures for non-resident fees which have been collected for various Parks and Recreation programs.

Budget Amendment revenues and expenditures for Racquet Club Road Project

Summary: The consideration of a budget amendment to appropriate revenues and expenditures for Racquet Club Road Project.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CITY-COUNTY MINORITY BUSINESS PLAN

Mr. Bill Schaefer, Finance Director, said that in 1993, the City contracted with Research and Evaluation Associates, Inc. for a "Minority Business Study to Support City of Asheville Minority Business Plan". The study's purpose was to determine whether there was sufficient evidence of discrimination in the award of contracts and procurement of supplies, materials and services during the past to justify continuance of the then-existing Minority Business Plan and, if so, to identify any modifications to the plan which would be required to place the plan on a legally defensible basis. The City's current Amended Minority Business Plan, dated December 6, 1994, incorporated revisions recommended by the disparity study. In July 1996 the City and County established a joint Minority Affairs Office. In November 1996, the Minority Business Commission held a retreat at the YMI Cultural Center to begin the process of developing a joint Minority Business Plan to provide policy and direction for a joint City/County minority business program. They used the City's existing 1994 plan as the baseline from which to develop the new joint plan. Subsequently, the Commission held a series of meetings with various constituencies, including representatives of minority businesses, the general public, and City and County staffs, to receive their comments and recommendations regarding the joint plan. The Draft City of Asheville - County of Buncombe Minority Business Plan was approved by the Minority Business Commission on April 23, 1998, and adopted by the County on May 12, 1998. Significant changes from the 1994 Plan are:

Inclusion of Buncombe County in all aspects of the Plan. Note: separate goals are established for the City and County (Section VII.D.3; page 17 of draft). The City goals are at the same as adopted in the 1994 Plan.

Minority Business Commission Membership: Increases membership from 9 to 13 (Section IV.A.3; page 4 of draft).

Retains: Council of Independent Business Owners, Associated General Contractors of America, Women in Construction, Asheville Area Chamber of Commerce, Asheville-Buncombe Community Relations Council, American Institute of Architects and Asheville Business Development Center.

Deletes : Black Business and Professional League and YMI Cultural Center.

Adds: Minority Business Alliance, NAACP, Eagle Market Streets Development Corporation and three certified minority business owners (one each from the four categories for which goals have been established: construction, professional services, procurement, and other services).

Staff Evaluations: Requires as part of the evaluation of all those staff members who are directly involved in the procurement and contracting process, that good faith efforts towards goal attainment be a consideration in evaluations and that City and County Managers meet semi-annually, at the request of the Commission, to discuss specific concerns (Section IV.B.3; page 6 of draft).

Certification of Minority Business Firms: Changes responsibility for certification of firms from the Minority Business Commission to the Minority Affairs Office and clarifies procedures and responsibilities for appeals of certification denial (Section VII; pages 12 through 16).

Enforcement: Strengthens enforcement options: Bids containing no documentation of good faith efforts shall be deemed non-responsive. Expands sanctions for failure to make or maintain good faith efforts to add provisions for removal of bidders from bid lists and/or debarment for a period of one year (Section VI; pages 17 - 19).

Grievance Procedure: Clarifies the procedures and responsibilities. Provides that when a grievance has been submitted, the bid process shall be held in abeyance and no award will be made until such time as the grievance is resolved or a final decision regarding the grievance is made by the City or County Manager (Section IX; page 19).

Additionally, numerous changes have been made to improve clarity, to streamline procedures and to generally enhance the plan's functionality in fulfilling its purposes of widening opportunities for participation, increasing competition, and ensuring the proper and diligent use of public funds.

Staff recommends the City Council adopt the resolution which replaces the current City of Asheville Minority Business Plan with a joint City of Asheville - County of Buncombe Minority Business Plan.

Ms. Laura Thompson, Chairman of the Minority Business Commission, was pleased to present this Plan to City Council for their consideration of adoption.

Mr. Schaefer responded to several questions from Council, some being, why the grievance procedure's final decision is either the City Manager or the County Manager, what was included in the definitions of "Minority Person", why the City is waiting to do a comprehensive Disparity Study in 2013;

Discussion surrounded the request of Mayor Sitnick, who was trying to be inclusive as possible, to include a letter, document of intent, addendum or attachment to the Minority Business Plan to send a message that we, as a community, also extend equal opportunities to the international community. She said that since Asheville has changed since the first Disparity Study was first completed, that when the comprehensive Disparity Study is conducted in 2013 that that particular category be included.

Councilman Tomes expressed his support for the Plan and stressed how important it was for the Plan to be enforced.

Upon inquiry of Ms. Dee Williams about how Buncombe County's goals were set since they did not have a Disparity Study completed, City Attorney Oast said that he would look into that issue and report to Council next week. Ms. Williams also suggested that the City contact the cities of Wilmington and Charlotte in that they are doing a number of things with those programs that work very well.

Ms. Vickie Gaddy, representing the National Association of Women in Government, said that they would like the adoption of the Plan to be by ordinance and not resolution. Ms. Gaddy then presented Mr. Oast with a copy of the Plan with their notes on it, noting that on page 19 in the third bullet, the comment reads "the county refuses to make this a part of the bid documents so that with this wording they cannot assess penalties" and on page 6 in the third paragraph - the comment reads "this is real important because the department heads need to be held accountable."

When Ms. Gaddy said that they have not presented these comments to Buncombe County, City Manager Westbrook reminded the Council that the Plan has already been adopted by the Minority Business Commission and Buncombe County and any amendments would need to go through both of those bodies first.

When Mr. Clarence Benton said that several business owners he has talked to have not seen the Plan that the County promised to make available to them, Mr. Schaefer said that he would be happy to give Mr. Benton those copies to review.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UPDATE ON THE VISION PROCESS

Ms. Pat Smith, Chair of the Vision Board of Directors, referenced a press release sent out on May 26, 1998, of the following five benchmarks: (1) Average Wages Per Job - the average earnings per job in Buncombe County will increase at an annual rate of at least 1% greater than the North Carolina average; (2) Graduation Outcome Index - The City of Asheville and Buncombe County will have an education that is rated number one on the Graduation Outcome Index for comparable Metropolitan Statistical Areas of our size; (3) Persons Below Poverty Level - The number of people in Buncombe County at the poverty level will be reduced by 1/2 of the 1990 level. Particular attention will be paid to reducing the level of poverty for those households with children; (4) Population Between 18-34 - There will be an increase in population age 18-34. This should result from opportunities encouraging our young people to make a decision to live and work in Buncombe County; and (5) Manufacturing Jobs - The proportion of manufacturing jobs in Buncombe County will be at the North Carolina average or higher.

Ms. Smith explained that these five key benchmarks are indicators of whether or not progress is being made in areas of education, quality of life, economic development and youth population. Benchmarks are indicators of community conditions that can be tracked over time to measure progress, or lack of progress, as we work to achieve our Vision. Three of the five key benchmarks compare conditions in Asheville and Buncombe County to state statistics or comparable Metropolitan Statistical Areas of our size. Two benchmarks present City and County statistics only.
